S. 2483. An act to rename Dulles International Airport in Virginia as the "Washington Dulles International Airport";

S. 2496. An act to extend the authorization of appropriations for certain education programs, and for other purposes;

S. 2663. An act pertaining to the inheritance of trust or restricted land on the Lake Traverse Indian Reservation, North Dakota and South Dakota, and for other purposes;

S. 2773. An act to designate certain National Forest System lands in the State of Georgia as wilderness, and for other purposes;

S. 2808. An act to designate certain National Forest System lands in the State of Mississippi as wilderness, and for other purposes;

S.J. Res. 80. Joint resolution to grant posthumously full rights of citizenship to William Penn and to Hannah Callowhill Penn;

S.J. Res. 273. Joint resolution to designate the week of October 7, 1984, through October 13, 1984, as "Smokey Bear Week"; and

H.J. Res. 663. Joint resolution making further continuing appropriations for fiscal year 1985.

ENROLLED BILLS AND JOINT RESOLUTIONS PRESENTED

The Secretary reported that on today, October 10, 1984, he had presented to the President of the United States the following enrolled bills and joint resolutions:

S. 607. An Act to amend the Communications Act of 1934;

S. 648. An Act to facilitate the exchange of certain lands in South Carolina;

S. 1102. An Act to provide authorization of appropriations for title III of the Marine Protection, Research, and Sanctuaries Act of 1972, and for other purposes;

S. 1151. An Act to compensate heirs of deceased Indians for improper payments from trust estates to States or political subdivisions thereof as reimbursements for old age assistance received by decedents during their lifetime;

S. 1330. An Act to establish a National Council on Public Works Improvement to prepare three annual reports on the state of the Nation's infrastructure, to amend the provisions of title 31, United States Code, relating to the President's budget to require it to separately identify and summarize the capital investment expenditures of the United States, and for other purposes;

S. 1510. An Act to establish uniform audit requirements for State and local governments receiving Federal financial assistance;

S. 1790. An Act to authorize the Secretary of the Interior to enter into contracts of cooperative agreements with the Art Barn Association to assist in the preservation of the Art Barn in Rock Creek Park in the District of Columbia, and for other purposes.

S. 2048. An act to provide for the establishment of the Task Force on Organ Transplantation and the Organ Procurement and Transplantation Network, to authorize financial assistance for organ procurement organizations, and for other purposes;

S. 2125. An act to designate certain national forest system lands in the State of Arkansas for inclusion in the National Wilderness Preservation System, and for other purposes;

S. 2166. An act to reauthorize and amend the Indian Health Care Improvement Act, and for other purposes;

S. 2303. An act to amend the Public Health Service Act to revise and extend the authorities of that act for assistance for alcohol and drug abuse and mental health services;

S. 2483. An act to rename Dulles International Airport in Virginia as the "Washington Dulles International Airport";

S. 2496. An act to extend the authorization of appropriations for certain education programs, and for other purposes;

S. 2663. An act to the inheritance of trust or restricted land on the Lake Traverse Indian Reservation, North Dakota and South Dakota, and for other purposes;

S. 2773. An act to designate certain National Forest System lands in the State of Georgia as wilderness, and for other purposes;

S. 2808. An act to designate certain National Forest System lands in the State of Mississippi as wilderness, and for other purposes;

S.J. Res. 80. Joint resolution to grant posthumously full rights of citizenship to William Penn and to Hannah Callowhill Penn; and

S.J. Res. 273. Joint resolution to designate the week of October 7, 1984, through October 13, 1984, as "Smokey Bear Week."

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. GOLDWATER, from the Select Committee on Intelligence Report to the Senate of the Select Committee on Intelligence for the period January 1, 1983, through December 31. 1984 (with additional views) (Rept. No. 98-665).

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. HATCH, from the Committee on Labor and Human Resources:

Faye S. Howell, of Georgia, to be a Member of the National Museum Services Board for the remainder of the term expiring December 6, 1986; and

Richard J. Herczog, of California, to be a Member of the National Museum Services Board for a term expiring December 6, 1988.

(The above nominations were reported from the Committee on Labor and Human Resources with the recommendation that they be confirmed, subject to the nominees' commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Mr. BIDEN:

S. 3081. A bill to provide greater protection from civil liability for Federal law enforcement and investigative officers; to the Committee on the Judiciary.

S. 3082. A bill to provide financial assistance to institutions of higher education for partnership programs with business concerns for basic research in new technology; to the Committee on Labor and Human Resources.

By Mr. BAKER:

S. 3083. A bill to amend the Land and Water Conservation Fund Act of 1965 and the National Historic Preservation Act to include certain provisions related to the conversion of these funds to trust funds; to the Committee on Energy and Natural Resources.

By Mr. MOYNIHAN:

S. 3084. A bill to amend part A of title IV of the Social Security Act to provide for grants to States for programs to assist pregnant teenagers and teenage mothers who might otherwise become long-term recipients of aid to families with dependant children: to the Committee on Finance.

By Mr. MATHIAS:

S. 3085. A bill to amend the patent laws implementing the Patent Cooperation Treaty; to the Committee on the Judiciary.

By Mr. CHAFEE:

S. 3086. A bill to require the National Institute of Child Health and Human Development of the National Institutes of Health to conduct research on, and develop, human contraceptives; to the Committee on Labor and Human Resources.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. BYRD:

S. Res. 477. Resolution relating to the original location of the Library of Congress; placed on the calendar.

By Mr. BAKER (for Mr. DOLE):

S. Con Res. 154. Concurrent resolution authorizing changes in the enrollment of H.R. 6163; considered and agreed to.

By Mr. BAKER (for himself, Mr. DODD, Mr. PROXMIRE, Mr. PELL, Mr. BOSCHWITZ, Mr. HELMS, and Mr. LEVIN):

S. Res. 478. An Executive resolution expressing the sense of the Senate in support of the principles contained in the Convention against Genocide.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BIDEN:

S. 3081. A bill to provide greater protection from civil liability for Federal law enforcement and investigative officers; to the Committee on the Judiciary.

LAW ENFORCEMENT AND INVESTIGATIVE OFFICERS CIVIL LIABILITY PROTECTION ACT

● Mr. BIDEN. Mr. President, today I am introducing legislation which will provide greater protection from civil liability for Federal law enforcement and investigative officers as they do their jobs. Also, this bill expands the responsibility and liability of the Government to the victims of wrongful conduct. This bill has been the subject of discussion for some time.

Ever since 1971 when the Supreme Court handed down its decision in the case of Bivens against Six Unknown Named Narcotics Agents the Department of Justice and several of us on the committee have been grappling with the difficult question of the scope of the Federal Government's liability for the acts of its law enforcement officials. In that case the Court decided that even though Congress never had created a specific remedy in statute that the victim of an unconstitutional action by a Federal law enforcement official had a cause of action against the official or agent in their personal capacity.

The Supreme Court decision does not affect the liability of the Government per se which is immune from suit through the doctrine of sovereign immunity. Of course, Congress can waive the doctrine as it has for certain torts—for example, a postman running into a pedestrian—in the Federal Torts Claims Act. Congress has never amended the act to cover all the so-called constitutional torts covered by the Bivens case.

So the present state of the law creates the following rather anomalous situation. The victim of an illegal or unconstitutional search can sue the agent for a violation of his fourth amendment rights but cannot sue the Government itself pursuant to whose authority the search was conducted. The victim usually does not want to sue the agent because, first the agent does not have the resources to pay the damages and furthermore there is a certain injustice in suing the agent who was probably acting pursuant to orders from higher authority in the Government.

The solution satisfies no one. The victims do not have a defendant with resources to sue. The agents and their families are traumatized by the prospect of civil liability for any action they take and since the Government will not take responsibility for the agents, the agents have to carry huge liability insurance policies even after they leave Government service. The Government, in particular the law enforcement agencies, face severe morale problems among their employees so they have difficulty performing their functions.

A number of us here on the committee and representatives of the Department of Justice have been working for the past year in attempting to develop a scheme which would more equitably share the burden for this problem among the affected parties. One thing everybody working on this problem seems to agree on is that it is unfair, especially in the law enforcement situation, for the agents themselves to have any liability, except perhaps in the most extreme situation. Therefore, all of the major proposals would create immunity for the agents themselves and shift all the liability onto the Federal Government through amendments to the Federal Torts Claims Act. The disagreement occurs over the question of the scope of the Federal Government's liability for the acts of its agents when they violate the Constitution. I proposed a scheme for such liability for law enforcement violations of the Constitution which the committee endorsed last summer.

In essence the committee proposal totally immunized Federal law enforcement officials from suit. But it also provided that the Government is liable for the costs of bodily injury and property damages or liquidated damages of up to $2,000 whichever is greater but if the employee was not acting in good faith and the tort is a continuing tort such as wiretapping, the damages could be as much as $200 per day up to $75,000 or in malicious situation damages as high as $100,000.

Now we understand the Department is unhappy with the committee's proposal. The disagreement seems to be over two things:

First, the Department of Justice while initially agreeing with that scheme decided that they did not like the liquidated damages provisions even for law enforcement and an attorneys' fee provision.

Second, and even more important, while they could agree upon such a scheme applying to torts committed in the law enforcement area and even the investigative area they had doubts that there should be governmental liability for the nonlaw enforcement agencies—for example, OSHA or Agriculture Department inspectors.

Meanwhile key Members of the House of Representatives apparently have taken a much more liberal approach to this problem. While they are also willing to totally immunize the law enforcement agents apparently they will not process any legislation that doesn't make the Government totally liable to victims no matter whether the agent acts in good or bad faith.

Furthermore, the Chief Justice in his concurring opinion in the Bivens case points out the necessary relationship between the torts claims problem and constitutional torts and the exclusionary rule. The purpose of the exclusionary rule is to provide some remedy by the citizen against the Government for violations of the Constitution by excluding illegally seized evidence. Of course the problem is that the exclusionary rule satisfies no one but the criminal and doesn't help the innocent victims of a law enforcement abuse. As the Chief Justice points out if Congress would create a tort claims scheme as an alternative to the exclusionary rule, then it might be possible to modify the rule itself.

Therefore, once again, we seem to be at an impasse on an issue of tremendous importance to the law enforcement, investigative, and civil liberties community. The tragedy is there really is no need for the continued intransigence of both sides. Indeed if the law enforcement and investigative officers and their families on the one hand and the victims of Government abuses on the other were to fashion a remedy, I firmly believe they would agree on something like my bill.

The real problem is the traditional Department of Justice position that we must solve not only the law enforcement problems but every other tort liability issue raised by Bivens. This was illustrated in the answers Mr. Meese gave me to questions on this matter in his nomination hearings. I had hoped he would share my view that for the sake of law enforcement officers, their families, victims of law enforcement mistakes, and in laying the groundwork for changing the exclusionary rule, he would take a fresh look at this problem. Instead he simply repeated the traditional Department of Justice line:

Mr. BIDEN. Since we are apparently very close to agreement on the question of law enforcement agency liability, perhaps we

should deal with that problem first and leave the question of the Federal Government's liability to small businesses for abusive OSHA or EEOC inspectors for later. Do you agree?

Mr. MEESE. I understand that the Department's position is that the question of Government liability should be considered as a unitary issue, especially since there continues to be disagreement over what is a law enforcement issue and what is a non-law-enforcement issue. In other words, the problem and the issues are Governmentwide and must be dealt with in order to create a structure that is workable and consistent as a whole.

In the long run a unitary solution might be desirable. However, my theory of legislating is that you agree on what you can agree on now, move on that, and then save the areas of disagreement for later negotiations. This is the approach that has gotten us so far along in the Senate on the rest of the crime package and I don't see why it wouldn't work here.

To be specific, I want to take care of DEA, FBI, and investigative officers, and victims of law enforcement and investigative mistakes now since we've worked out a scheme for resolving those problems. Quite frankly, I don't understand why this administration would want to place greater limitations upon the ability of a small businessman to recover from the Federal Government for the actions of an abusive OSHA or EEOC inspector. But if the administration insists I propose that we take care of the FBI, DEA, and CIA problems today and leave the OSHA and EEOC-type problems for later. That's exactly what my bill would do.

I might add in conclusion that this bill is not perfect even on the law enforcement issue. I would like to see some more equitable arrangement for damages and attorney's fees established. But I intend to continue to pursue this issue as we consider the bill. I respectfully suggest to Senator GRASSLEY and the Department of Justice that this draft would be a good place to begin next year in committee on this long overdue reform.

I ask unanimous consent that the questions on this matter I put to Mr. Meese in his nomination hearings and his answers and a copy of our bill be reprinted at this point in the CONGRESSIONAL RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 3081

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, This act may be cited as "The Law Enforcement and Investigative Officers Civil Liability Protection Act of 1984."

SEC. 2. Subsection (b) of section 1346 of title 28, United States Code, is amended—

(1) by inserting "(1)" after "jurisdiction of"; and

(2) by inserting before the period at the end thereof the following: "or (2) civil actions on claims against the United States for money damages, for injury or loss of property, or personal injury or death, caused by an act or omission of an investigative or law enforcement officer in violation of the Constitution of the United States, while acting within the scope of his office as an investigative or law enforcement officer, such liability to be determined in accordance with applicable Federal law".

SEC. 3. Subsection 2671 of title 28, United States Code, is amended by adding at the end thereof the following:

" 'Investigative or law enforcement officer' means any officer or employee of the United States, other than an officer or employee while engaged in conduct absolutely immune from personal civil liability under the Constitution or laws of the United States who is authorized by law to execute searches, to seize evidence, or to make arrests for, or engage in the detection, investigation, or prosecution of, any violation of Federal criminal law, or the supervision thereof, and was engaged in the enforcement of Federal criminal law at the time of the alleged tortious conduct.".

SEC. 4. (a) Section 2672 of title 28, United States Code, is amended in the first paragraph—

(1) by inserting "(1)" after "United States" the first place it appears;

(2) by inserting before the colon after "occurred" the following: ", or (2) for claims for money damages arising under the Constitution of the United States for injury or loss of property, or personal injury or death, caused by an act or omission of any investigative or law enforcement officer of the Government while acting within the scope of his office or employment as an investigative or law enforcement officer, such liability to be determined in accordance with applicable Federal law"; and

(3) by striking out "$25,000" and inserting in lieu thereof "$50,000 or any award, compromise, or settlement based on a claim arising under the Constitution of the United States".

(b) Section 2672 of title 28, United States Code, is amended in the third paragraph by—

(1) striking out "made by the Attorney General" and inserting in lieu thereof "made or approved by the Attorney General"; and

(2) striking out "pursuant to section" in the second sentence and inserting in lieu thereof "pursuant to this section or section".

SEC. 1304. Section 2674 of title 28, United States Code, is amended—

(1) by inserting "(a)(1)" before "The United States" in the first paragraph;

(2) by inserting after "tort claims" in the first paragraph "other than those arising under the Constitution of the United States";

(3) by inserting "(2)" before "If," in the second paragraph; and

(4) by adding at the end thereof the following new subsection:

"(b)(1) The United States shall be liable, respecting the provisions of this title relating to claims arising under the Constitution of the United States, for injury or loss of property, or personal injury or death, caused by an act or omission of an investigative or law enforcement officer in violation of the Constitution of the United States while acting within the scope of his office or employment as an investigative or law enforcement officer, and, except as otherwise provided in paragraph (2)(A), shall be entitled to all defenses heretofore available to an employee of the United States and to which the United States would otherwise be entitled. The United States shall not be liable for interest prior to judgment or for punitive damages.

"(2) In a case against the United States under paragraph (1), damages—

"(A) based on an act or omission which violates the Constitution of the United States, but which does not violate clearly established constitutional rights of which a reasonable person in the position of the officer would have known, shall be actual pecuniary expenses resulting from personal injury or property damage;

"(B) based on an act or omission which violates clearly established rights of which a reasonable person in the position of the officer would have known, shall be the greater of—

"(i) actual damages; or

"(ii) liquidated damages of up to $2,000;

"(C) based on continuing conduct of the type described in subparagraph (B) of this paragraph, shall be the greater of—

"(i) actual damages;

"(ii) $200 a day for each day of the violation, not to exceed $75,000; or

"(iii) liquidated damages of up to $2,000; or

"(D) based on conduct constituting a substantial violation of the Constitution engaged in with the intent to deprive, or in reckless disregard of depriving the plaintiff of such a right, may be awarded, in addition to damages otherwise authorized under subparagraph (B) or (C), an amount not to exceed $100,000.

"(3) In any case in which the court awards damages under subparagraph (B) or (C) of paragraph (2), the court may also award reasonable attorneys' fees and other expenses reasonably incurred, as defined in section 2412(d)(2)(A) of this title, up to an amount equal to one-third of the damages awarded, or $100,000, whichever is less. If the court determines that a case is frivolous or was brought in bad faith, the United States shall be awarded reasonable attorneys' fees and other expenses.

"(4) In the event a court awards damages under paragraph (2)(A), the Attorney General shall not report the judgment to the head of the department or agency which employed such person, as required in section 2679(f).".

SEC. 5. Subsection (a) of section 2675 of title 28, United States Code, is amended by inserting after "office or employment" in the first sentence, the following: "or upon a claim against the United States for money damages for injury or loss of property, or personal injury or death, caused by an act or omission of an investigative or law enforcement officer in violation of the Constitution of the United States while acting within the scope of his office or employment as an investigative or law enforcement officer".

SEC. 6. (a) Subsection (b) of section 2679 of title 28, United States Code, is amended to read as follows:

"(b) The remedy against the United States provided by sections 1346(b) and 2672 of this title for claims for injury to, or loss of property, or personal injury or death resulting from the negligent or wrongful act or omission of any employee of the Government while acting within the scope of his office or employment and for claims arising under the Constitution of the United States for an act or omission of an investigative or law enforcement officer while acting within

the scope of his office or employment as an investigative or law enforcement officer, is exclusive of any other civil action or proceeding arising out of or relating to the same subject matter against the employee whose act or omission gave rise to the claim, or against the estate of such employee, and shall also be deemed an equally effective substitute for any recovery in an action brought directly under the Constitution against the employee in his individual capacity.".

(b) Subsection (d) of section 2679 of title 28, United States Code, is amended to read as follows:

"(d)(1) Upon certification by the Attorney General that the defendant employee was acting within the scope of his office or employment at the time of the incident out of which the action arose, any such civil action or proceeding commenced in a United States district court shall be deemed an action against the United States under the provisions of this title and all reference thereto, and the United States shall be substituted as the party defendant. After substitution, the United States shall have available all defenses heretofore available to the employee and all defenses to which it would have been entitled if the action had originally been commenced against the United States under this chapter and section 1346(b) of this title.

"(2) Upon certification by the Attorney General that the defendant employee was acting within the scope of his office or employment at the time of the incident out of which the action arose, any such civil action or proceeding commenced in a State court shall be removed, without bond, by the Attorney General at any time before trial, to the district court of the United States for the district and division embracing the place wherein the civil action or proceeding is pending. Such action shall be deemed an action brought against the United States under the provisions of this title and all references thereto, and the United States shall be substituted as the party defendant. After substitution, the United States shall have available all defenses heretofore available to the employee and all defenses to which it would have been entitled if the action had originally been commenced against the United States under this chapter and section 1346(b) of this title. The certification by the Attorney General shall conclusively establish scope of office or employment for purposes of removal.

"(3) The certification by the Attorney General under paragraph (1) or (2) that the defendant employee was acting within the scope of his office or employment shall be binding and conclusive, except that in the event the Attorney General has not certified scope of office or employment, the employee may at any time before trial, petition the court to find and certify that the employee was acting within the scope of his office or employment. A copy of the petition shall be served upon the United States in accordance with the provisions of Rule 4(d)(4) of the Federal Rules of Civil Procedure. In the event the petition is filed in a civil action or proceeding pending in a State court, the action or proceeding shall be removed without bond by the Attorney General to the district court of the United States for the district and division embracing the place wherein such civil action or proceeding is pending. Should the district court determine that the employee was not acting within the scope of his office or employment, the action or proceeding shall be remanded to the State court.

"(4) Where a civil action or proceeding under this chapter is precluded because of the availability of a remedy, compensation, or other benefits from the United States as provided by any other law, the action or proceeding shall be dismissed, but in that event, the running of any limitation of time for commencing or filing an application or claim in a proceeding for any such other remedy, compensation, or benefits shall be suspended during the pendency of the civil action or administrative proceeding under this chapter.

"(5) Whenever an action brought against a defendant employee in which the United States is substituted as the party defendant under this subsection is dismissed for failure first to present a claim to the appropriate Federal agency pursuant to section 2675(a), the claim shall be deemed to be timely presented under section 2401(b), if (A) the claim would have been timely if filed on the date the action against the defendant employee was commenced, and (B) the claim is presented to the appropriate Federal agency within sixty days after the date of the dismissal of the action.".

(c) Section 2679 of title 28, United States Code, is amended by adding at the end thereof the following:

"(f) If a civil action or proceeding under section 1346(b) or 2672 of this title arising under the Constitution of the United States results in a judgment against the United States or an award, compromise, or settlement paid by the United States, the Attorney General shall forward the matter to the head of the department or agency employing such employee at the time of the act or omission, for such further administrative investigation or disciplinary action as may be appropriate.

"(g) The head of an agency or his designee may, to the extent that he or his designee deems appropriate, hold harmless or provide liability insurance for any person described in subsection (b), for damages for personal injury, including death, caused by such person's negligent or wrongful act or omission while acting within the scope of such person's office or employment.".

SEC. 7. (a) Section 2680 of title 28, United States Code, is amended—

(1) by striking out the section heading and inserting in lieu thereof the following:

"§ 2680. Exceptions; claims not arising under the Constitution of the United States";

(2) by inserting ", relating to claims other than those arising under the Constitution of the United States," after "of this title" the first place it appears; and

(3) by amending subsection (h) to read as follows:

"(h) Any claim arising out of libel, slander, misrepresentation, deceit, or interference with contract rights.".

(b) The item relating to section 2680 in the table of sections for chapter 171 of title 28, United States Code, is amended to read as follows:

"2680. Exceptions; claims not arising under the Constitution of the United States.".

SEC. 8. (a) Chapter 171 of title 28, United States Code, is amended by adding at the end thereof the following new section:

"§ 2681. Exceptions; claims arising under the Constitution of the United States

"The provisions of this chapter and of section 1346(b) of this title which relate to claims arising under the Constitution of the United States shall not apply to actions arising from the activities of the Tennessee Valley Authority, the Panama Canal Company, a Federal land bank, a Federal intermediate credit bank, or a bank for cooperatives.".

(b) The table of sections for chapter 171 of title 28, United States Code, is amended by adding at the end thereof the following new item:

"2681. Exceptions; claims arising under the Constitution of the United States.".

SEC. 9. (a)(1) Subsections (a) through (d) of section 4116 of title 38, United States Code, and all references to such subsections are repealed.

(2) Subsection (e) of such section is amended—

(A) by striking out "(e)";

(B) by striking out "person to whom the immunity provisions of this section apply (as described in subsection (a) of this section)," and inserting in lieu thereof "employee of the Veterans' Administration"; and

(C) by striking out "Department of Medicine and Surgery" and inserting in lieu thereof "Veterans' Administration".

(b)(1) Subsections (a) through (e) of section 224 of the Public Health Service Act (42 U.S.C. 233) and all references to such subsections are repealed.

(2) Subsection (f) of such section 224 is amended by striking out "(f)".

(c)(1) Subsections (a) through (e) of section 1089 of title 10, United States Code, and all references to such section are repealed.

(2) Subsection (f) of such section 1089 is amended by striking out "person described in subsection (a)" and inserting in lieu thereof "employee of the armed forces, the Department of Defense, the United States Soldiers' and Airmen's Home, or the Central Intelligence Agency".

(3) Subsection (g) of such section 1089 is amended—

(A) by striking out "and" at the end of clause (2);

(B) by redesignating clause (3) as clause (4); and

(C) by inserting after clause (2) the following new clause:

"(3) the Governor of the United States Soldiers' and Airmen's Home, in the case of an employee of the United States Soldiers' and Airmen's Home; and".

(4) Subsections (f) and (g) of such section 1089 are redesignated as subsections (a) and (b), respectively.

(d)(1) Subsections (a) through (e) of section 307 of the National Aeronautics and Space Act of 1958 (42 U.S.C. 2458a), and all references to such subsections are repealed.

(2) Subsection (f) of such section 307 is amended—

(A) by striking out "(f)"; and

(B) by striking out "person described in subsection (a)" and inserting in lieu thereof "employee of the National Aeronautics and Space Administration".

(e)(1) Subsection (a) through (e) of section 30 of the State Department Basic Authorities Act of 1945 (22 U.S.C. 2702) are repealed.

(2) Subsection (f) of such section 30 is amended by striking out "person to whom the immunity provisions of subsection (a) of this section apply," and inserting in lieu thereof "employee of the Department of State."

(3) Subsections (f) and (g) of such section 30 are redesignated as subsection (a) and (b), respectively.

SEC. 10. (a) Except as provided in subsection (b), the amendments made by this title shall apply to all claims, civil actions and proceedings pending on, or filed on or after, the date of enactment of this title.

(b)(1) With respect to any civil action or proceeding pending on the date of enactment of this title against a Federal employee in his individual capacity, the plaintiff may, upon timely demand, (A) retain his right to a trial by jury if the demand for trial by jury is made prior to or on the date of enactment of this title, or (B) elect a trial by jury if the time for election of a trial by jury pursuant to applicable law has not expired as of the date of enactment of this title, except that the provisions of section 2674(b) of title 28 of the United States Code, as added by section 1305 of this title, which relate to liquidated damages, shall not apply.

(2) With respect to any civil action or proceeding—

(A) which is on appeal against a Federal employee in his individual capacity, or

(b) which is pending in a State court against a Federal employee in his individual capacity,

in which the time for removal pursuant to section 2679(d) of title 28 of the United States Code has expired, the amendments made by this title shall not apply, except that the United States shall be substituted for the defendant employee upon certification by the Attorney General that the defendant employee was acting within the scope of his office or employment at the time of the incident out of which the action or proceeding arose.

(3) The provisions of section 2675(a) of title 28 of the United States Code shall not apply to a civil action or proceeding against a Federal employee in his individual capacity pending on the date of enactment of this title, if the provisions of such section 2675(a) were inapplicable to the action or proceeding when such action or proceeding was filed.

QUESTIONS PROPOUNDED BY SENATOR BIDEN TO EDWIN MEESE AT THE NOMINATION HEARINGS

Mr. BIDEN. Don't you think it's unfortunate that agents and employees continue to be liable for their acts just because we can't agree about the scope of liability of the Federal Government?

Mr. MEESE. Of course it is unfortunate. However, since the purpose of the Department's proposal is to substitute the liability of the Federal Government for that of its employees, the question of the scope of the Federal Government's liability is an important one, as is the ability of the individual employee to vindicate the challenged conduct in the course of the trial.

Mr. BIDEN. Since we are apparently very close to agreement on the question of law enforcement agency liability, perhaps we should deal with that problem first and leave the question of the Federal Government's liability to small businesses for abusive OSHA or EEOC inspectors for later. Do you agree?

Mr. MEESE. I understand that the Department's position is that the question of Government liability should be considered as a unitary issue, especially since there continues to be disagreement over what is a law enforcement issue and what is a non-law-enforcement issue. In other words, the problem and the issues are Governmentwide and must be dealt with in order to create a structure that is workable and consistent as a whole.

Mr. BIDEN. Indeed why should there be any limitation upon the Government's liability to a small business for the acts of the Federal Government through its agents?

Mr. MEESE. The identity of the plaintiff is not an unimportant matter but the question that remains continues to be the most important one, and that is what is to be the liability of the substituted defendant, the Federal Government. Certainly there should be no specifically imposed limitation where Government conduct has been proven by the plaintiff to have been unreasonable.

Mr. BIDEN. I would be willing to place limitations upon damages in that situation similar to law enforcement and indeed perhaps even say that where an OSHA or EEOC inspector acts in violation of the Constitution but in reasonable though mistaken belief that he was acting within the Constitution that the Government would only be liable if the violation was one that arose under the fourth amendment. I think that that scheme recognizes that the typical violation of a small businessperson's constitutional right would be some unconstitutional invasion of his privacy (illegal seizure of his records). Do you think that that is a way out of this impasse?

Mr. MEESE. The Department of Justice is willing to consider any reasonable proposal. Obviously, much will depend on how we define the violation. We also must remember that one of the purposes of the Department's bill is to eliminate or reduce the volume of litigation—litigation that is expensive for both the plaintiff, the defendant, and the Government. This concern of reducing litigation places a further premium on the need for precise definition of causes of action and limitations on damages.

Mr. BIDEN. Don't you agree that we owe it to law enforcement agents and their families to resolve this question immediately? And don't we owe it to small businesspeople to do so in a manner that doesn't jeopardize their ability to get satisfaction from the Federal Government for abusive bureaucrats?

Mr. MEESE. I could not agree with you more, and I think that the proposals which the Department has been submitting over the years demonstrate that the Department of Justice agrees with you.

Mr. BIDEN. Finally don't you agree that any repeal or modification of the exclusionary rule would fare better in the Supreme Court if some type of tort claims scheme like we have been talking about was in place when the Supreme Court reviews that legislation?

Mr. MEESE. Without attempting to predict what concepts and factors the Supreme Court will consider pivotal, the existence of a system of meaningful tort remedies is certainly in the public interest for the very reasons articulated in the Congress by you and others.●

By Mr. BIDEN:

S. 3082. A bill to provide financial assistance to institutions of higher education for partnership programs with business concerns for basic research in new technology; to the Committee on Labor and Human Resources.

PARTNERSHIPS IN RESEARCH ACT

● Mr. BIDEN. Mr. President, today I am introducing legislation to address one of the most pressing needs we will face in the future: the need for business, government, and education to work together on the crucial research that will ensure America's role as the world's technological leader into the next century.

In political campaigns of recent years, much rhetoric has been devoted to the need for business, government, and education to work together on research and training programs. There is no doubt that the rhetoric is right on target, and with initiatives such as the Job Training Partnership Act and the recently enacted math-science bill, we have started to make inroads. But action continues to lag behind words—more needs to be done lest we lose our technological edge.

The impetus for this legislation comes from the distinguished president of the University of Delaware Dr. Art Trabant, and one of his colleagues on the faculty of the university, Dr. Bob Varrin. I ask unanimous consent that a brief summary of their original proposal be printed in the RECORD at this point.

There being no objection, the summary was ordered to be printed in the RECORD, as follows:

A PROPOSAL TO INCREASE RESEARCH AND IMPROVE THE NATION'S ECONOMIC VITALITY

Although industry has traditionally done most of the development work involved in technological innovation, the nation's universities have played a critical role in the basic research leading to this innovation. The universities, however, do not have the financial support necessary to maintain the research effort essential for continued productivity and innovation. It is proposed, therefore, that the partnership among government, industries, and universities be strengthened through a Federal program to support new research at the nation's land grant colleges and universities in cooperation with private industries and businesses.

Under the proposed plan, the Federal government would allocate up to a million dollars per year per university for a total of 50 million per year to match dollars for university research projects sponsored by industrial and business concerns. Technological development is of increasing economic importance to our nation, and such a program would stimulate the growth of businesses and industries devoted to technological innovation. The financial support engendered by this program would augment the educational and research capabilities of the nation's universities, enabling them to attract new high-technology research and business activities to their locales.

The cooperative research programs resulting from this increased association between the academic and the private sectors would afford several benefits: The first and most important is increased national productivity through innovation. The plan would also enhance the potential for industries to locate research and development labs as well as production facilities near the universities with which they are cooperating. These activities would create employment opportunities and thereby stimulate the local economics. Because this proposed research partnership would apply only to new cooperative research as opposed to existing

university/industry ties, it would result in the creation of new wealth for the Nation. And in addition to helping the economy, such a plan would also contribute to the training of scientific manpower.

The need for effective communication and cooperation between scientists in universities and those in industries continues to grow. If implemented, this proposed plan will strengthen the ties between universities and industries and encourage the growth of the high-technology innovation that is essential to our Nation's future.

Mr. BIDEN. Mr. President, my legislation would establish a 3-year demonstration program through which the essential partnership between business and education can be solidified. This would be accomplished by a program of matching Federal grants to universities conducting research funded by private business. Too often, projects of this kind have been put off due to lack of funds. Such delays and cancellations run directly counter to the national interest in a strong research effort.

My legislation authorizes $50 million for each of the 3 years. The National Science Foundation will publish each year a list of new technologies, with projects in areas appearing on this list being eligible for funding.

The bill specifically prohibits any university from receiving funds for projects that were on track prior to enactment of this legislation. Only research into new technologies as defined by the National Science Foundation will be eligible to receive grants.

In addition, there will be a limit on the amount that can be given to any university in a single year—2 percent or $1 million—in order to ensure equitable distribution of funds. Finally, in no case can the Federal share of the funds expended on any project exceed 50 percent of the cost of the project, and the university will have to certify as part of its application that the project would not occur at all if not for the Federal help.

Mr. President, technological innovation is a crucial key to our survival and success as a nation in the next century. We have a national interest in seeing to it that the two most powerful forces for innovation in this country—business and education—are able to work together effectively.●

By Mr. BAKER:

S. 3083. A bill to amend the Land and Water Conservation Fund Act of 1965 and the National Historic Preservation Act to include certain provisions related to the conservation of these funds to trust funds; to the Committee on Energy and Natural Resources.

LAND AND WATER CONSERVATION FUND ACT AMENDMENTS

Mr. BAKER. Mr. President, it is with no small degree of melancholy that I rise to introduce my last bill. I remember clearly the first bill I introduced, and although that was nearly 18 years ago, it seems like it was only yesterday. A lot of water is over the dam since that time and many bills which I introduced, as well. Some went on through the process to become public law and to leave, I hope, some imprint on public policy and well-being. Others were not so well conceived nor fortunate and were relegated to the ash heap of obscurity. But Mr. President, no bill which I have introduced during my tenure in the Senate has ever carried a greater moral imperative than that which I introduce today.

This bill would amend the Land and Water Conservation Fund Act of 1965 and the National Historic Preservation Act to include certain provisions related to the conversion of these funds to trust funds. It is short in length but broad in scope. Its intent is to preserve some small degree of our Nation's endowment for future generations through a setting aside of the proceeds we realize by sale and development of America's natural resources.

Congress originally established these two funds for the purpose of preserving land resources and making them available for public use and recreational enjoyment, and for preserving our historical heritage. Most of the funding is drawn from Outer Continental Shelf receipts, on the theory that as the Nation depletes its nonrenewable oil and gas reserves, a fraction of the value gained from that development should be dedicated to reinvestment for public benefit in the form of purchasing and preserving other important resources. In this manner may be preserved important elements of America's natural and historic heritage.

Over the years, it has usually been the case that Congress' appropriations from the funds have been less than the amount deposited thereto, with the result that the funds have accumulated an unappropriated balance approaching $5 billion. The primary purpose of this bill would be to require that the unappropriated balance of these two funds be invested at all times so as to earn interest. The bill provides that this balance would remain intact, with only the interest earned therefrom in the previous year and the income to the funds from OCS receipts for the current year subject to appropriation. Amounts not appropriated from those available moneys would be added to the corpus of the funds which would accordingly increase the amount of interest income available for appropriation in the succeeding year. In order to safeguard Congress' constitutionally endowed power of the purse, the bill provides that all interest income be available for appropriations after 1991.

Mr. President, this bill is intended as a companion measure to H.R. 5090, jointly introduced in the House by Congressman LUJAN and Congressman UDALL on March 8 of this year. I have waited until this late date to introduce the Senate version, which is identical, because frankly, our budgetary health in this country is not good. In that this proposal creates an additional debit on the national balance sheet, it is unlikely to be well received this year. But Mr. President, our economy is strong and expanding, and I firmly believe that the top priority of the next administration, be it Republican or Democrat, will be deficit reduction. These deficits will not persist, and at such time that the budget is brought into balance, I sincerely hope that this idea will receive a fair hearing.

Although the ideas represented in this bill have been discussed and debated in the Senate as well as in other institutions in the past, I would like to commend two gentlemen who have worked long and hard to bring this concept to legislative form. Mr. John Dane, of the Department of Interior's heritage conservation and recreation service, and Mr. Charles Howell III, the commissioner of the Department of Conservation of the State of Tennessee, have, through forceful and persuasive advocacy, caused this bill to materialize, and I thank and congratulate them for their persistence.

Mr. President, while there are already several existing "trust funds" established by Federal law, I believe that this bill provides for these two funds to become pure trusts in the true sense of that term. We thus would take one further step toward securing the protection of the great natural and historic heritage of our Nation. President Theodore Roosevelt said, "It is safe to say that the prosperity of our people depends directly on the energy and intelligence with which our natural resources are used. It is equally clear that these resources are the final basis of national power and perpetuity." We may ignore his admonition only at our peril.

By Mr. MOYNIHAN:

S. 3084. A bill to amend part A of title IV of the Social Security Act to provide for grants to States for programs to assist pregnant teenagers and teenage mothers who might otherwise become long-term recipients of aid to families with dependent children; to the Committee on Finance.

TEENAGE PREGNANCY

● Mr. MOYNIHAN. Mr. President, I rise today to introduce legislation on a matter of grave concern, the long-term welfare dependency of families headed by teenage mothers. My measure is designed to provide assistance and services to help these young mothers remain in school or find employment. The legislation would support a package of particular services—child care,

employment training, job placement, and academic and vocational education—that are the essential components of any effort to avert long-term welfare dependency and encourage greater self-sufficiency in teenage parents.

The problems of teenage pregnancy have reached shocking proportions. In 1981, nearly half of all births to women under 20 were out of wedlock—a 58-percent increase since 1970, when 31.5 percent of all births to teenagers were out of wedlock. In two decades, the number of out-of-wedlock births to teenage mothers increased 2.5 times—from less than 100,000 births in 1960 to more than 250,000 in 1979.

We can no longer avoid recognizing the serious health, social, and economic consequences associated with child birth at a young age. We long have been aware of the health risks affecting both teenage mothers and their children. Maternal mortality rates among teenage mothers, especially among mothers under the age of 15, are higher than those among women who bear children in their twenties: In 1977-78, the maternal death rate among mothers under age 15 was 18 per 100,000 live births—fully 2½ times that of mothers aged 20 to 24. Low infant birth weight, which we know to be strongly associated with infant mortality occurs most often in the babies of teen mothers, as they are less likely than others to receive early prenatal care. Teen mothers aged 15 or younger are fully twice as likely to give birth to low-weight babies, than are mothers aged 20 to 24. The National Center for Health Statistics reports that in 1980, only about half of teen mothers between the ages of 15 and 19 received any prenatal care in the first 3 months of their pregnancies. All the more distressing, just one-third of mothers who gave birth at under the age of 15 received any prenatal care during the critical first trimester of their pregnancies.

There also is evidence that a mother's age at the time of her child's birth is related to the child's physical and cognitive development. A child born to a teen mother is at much greater risk of a whole range of problems, than is a child whose mother is 20 or older. The National Institute of Child Health and Human Development has examined the social, emotional, and intellectual development of children born to teenage mothers. The Institute found that children born to parents age 18 and younger scored lower on standardized tests of cognitive development, than did children born to parents ages 18 and 19. These children also were more likely to be living in single-parent homes in high school, and score lower on academic aptitude tests in their teens.

As expected, serious economic consequences are associated with early child bearing. Most teen mothers fail to finish high school, and consequently face bleak job prospects and increase their prospects of finding themselves on welfare. In a 1981 New York City survey, fully 90 percent of all young mothers aged 15 to 17 were unemployed 9 months after delivering their first child. Without jobs, 66 percent found themselves on public assistance. Although five of six teenage mothers surveyed said they wanted to return to school or get a job, nearly half could not do so because child care services were not available. The income for those teen mothers who did find jobs was but half what women who give birth in their twenties and after earn. And consider this: The proportion of teen mothers on public assistance in this survey—66 percent—is fully twice the level of all new mothers.

New York City is not alone. Dr. Wendy Baldwin, Chief of Demographic and Behavioral Sciences at the National Institute for Child Health and Human Development in testimony before the Select Committee on Children, Youth, and Families, on July 20, 1983, reports that nationally:

> Women who become mothers while adolescents exhibit reduced educational and occupational attainment, lower income, and increased welfare dependency relative to their peers.

Dr. Baldwin made special mention of the lasting effects of early child bearing, stating:

> The effect of adolescent childbearing on education is especially important since it affects occupation and earnings. A decade after high school women who became mothers early were more likely to be working than their classmates but in jobs of lower pay and prestige and with less job satisfaction. Several studies have shown that the effect of an early age a first birth on occupational attainment is a function of reduced education, and, to a lessor extent, of increased family size.

Dr. Baldwin makes one final point worthy of our notice today. Women who begin bearing children as teenagers are more likely to find themselves dependent on welfare for a protracted period of time. Teen parents often are prevented from achieving their educational and career goals and, as a consequence, are more reliant on public assistance. Today, more than 60 percent of all women on AFDC were teenagers when they had their first child. In 1975, $8.55 billion in Federal spending for AFDC, medicaid, for food stamps, and foster care went to teenage mothers and their children. This is an enormous sum—although I would caution my colleagues from inferring that this total sum would have been saved had these mothers postponed their first birth; some would require public assistance in any case.

It is quite clear that adolescent parents are not only more likely to require welfare, but also are more likely to be dependent on welfare for a long-term, than are more mature parents. This is a recent finding by Mary Jo Bane and David Ellwood, of Harvard University. In "The Dynamics of Welfare Dependency: The Routes to Self-Sufficiency," Bane and Ellwood examines the characteristics of those on welfare for long periods of time. They found;

> There are dramatic differences in the length of AFDC spells among different groups of recipients. Women who become a female head by having a child, nonwhites, high school dropouts, mothers with many children, and those without previous earnings all have longer spells of AFDC.

They also found that three-fourths of all spells on AFDC began when a woman became head of the family, while only 12 percent began when a woman with children lost her job.

Obviously we must continue to provide forms of public assistance—AFDC, Medicaid, food stamps, and foster care services—to poor adolescent mothers and their children. But the pervasive and long-term character of the consequences of early childbirth are deeply disturbing. Long-term welfare dependency among adolescent mothers is dimming the future of thousands of young Americans.

The legislation I am introducing today, Mr. President, would alleviate this situation and reduce the long-term welfare dependency of so many families headed by teenage mothers. It is my belief, my hope, that the services supported by this measure would enable thousands of adolescent parents to achieve real self-sufficiency.

My legislation would provide Federal grants to help the States offer the services poor young mothers need to complete their educations and be prepared for employment. States applying for these funds would identify those areas with a high incidence of teenage pregnancy, and funds would be targeted to low-income areas. States would be directed to better coordinate the administration of Federal funds currently directed to teenage mothers—funds from social services block grant, the Job Training and Partnership Act, the Work Incentive Program, the maternal and child care block grant. In their applications for these funds, States would have to produce a plan to focus a specified core of services to enable teen mothers to achieve self-sufficiency: Day care services, so teen mothers can attend school or work; and employment training and job placement services, so teen mothers can gain the skills to support their children.

This measure is not intended to replace existing Federal initiatives, but to complement them. Existing programs—such as the adolescent and family life demonstration project and title X of the Public Health Service Act—are important efforts in discouraging teenage sexual activity and pro-

viding family planning services discouraging repeated pregnancies. Indeed, in those areas with greater increases in the proportions of young people enrolled in family planning clinics, adolescent birth rates have fallen. The family planning program is an important feature of our efforts to lessen the problems associated with teenage pregnancies.

This session is nearly over; the 98th Congress is about to adjourn sine die. Yet, I invite my colleagues to join in this discussion, of how best to stem the alarming trend of long-term welfare dependency among these teenage parents.

Any success in reducing the period of time a family remains in AFDC will bring dual benefits: Increased self-reliance for the teenage parent, and decreased costs for public assistance programs. I urge my colleagues to support this legislation.

I ask unanimous consent that the full text of the legislation appear in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 3084

Be it enacted by the Senate of House of Representatives of the United States of America in Congress assembled, That (a) part A of title IV of the Social Security Act is amended by adding at the end thereof the following new section:

"GRANTS FOR SERVICE PROGRAMS FOR PREGNANT TEENAGERS AND TEENAGE MOTHERS

"SEC. 416. (a) In addition payable to States under section 403, the Secretary shall make grants to States in accordance with this section, subject to the amounts appropriated pursuant to subsection (d). The purpose of such grants shall be to assist States in carrying out programs which—

"(1) prevent long-term dependency upon aid to families with dependent children;

"(2) permit pregnant teenagers and teenage mothers to remain in school;

"(3) provide job counseling, employment readiness, job placement, and academic and vocational education services to pregnant teenagers and teenage mothers; and

"(4) integrate and coordinate services otherwise available to pregnant teenagers and teenage mothers.

"(b)(1) In order to receive a grant under this section a State must provide assurances to the Secretary that such grant shall be used to carry out a program which—

"(A) privides child day care, job training, job placement, and academic and vocational education services for pregnant teenagers and teenage mothers;

"(B) establishes a coordinated service network consisting of the services described in subparagraph (A) and other services available for pregnant teenagers and teenage mothers under title XX, part B of this title, the State program under title V, and the Job Training Partnership Act;

"(C) provides such services in an area or areas within the State which have a large number of low-income teenage mothers;

"(D) provides for maximum utilization of existing services, including those offered by private, nonprofit service providers; and

"(E) is administered by the same agency which administers the State plan under section 402, the same agency which administers the State plan approved under part B of this title, or the same agency which administers the block grant under title XX.

"(2) For purposes of this section, 'pregnant teenagers' and 'teenage mothers' means only pregnant women or mothers who are age 18 or under, or who are secondary school students.

"(c)(1) Any State receiving a grant under this section for a fiscal year shall provide a report to the Secretary at the close of such fiscal year which shall include the number and characteristics of individuals served by the State program, the services provided, and the results achieved. Such report shall also include data on the number of cases and the amounts of the aid to families with dependent children provided under this part for the fiscal year, broken down by the age of the parent or caretaker relative receiving such aid, by race, and by location within the State.

"(2) The Secretary shall establish a systematic reporting system capable of yielding comprehensive data on which service figures and program evaluations shall be based. On or before each January 1 the Secretary shall submit to the Congress a report describing the activities supported under this section during the fiscal year ending on the preceding September 30, including, at a minimum, the number and characteristics of persons served, the services provided, the results achieved, and the Secretary's plans and recommendations for the future.

"(d) For purposes of making grants to States under this section there are authorized to be appropriated $75,000,000 for fiscal year 1985 and for each fiscal year thereafter.".●

By Mr. MATHIAS:

S. 3085. A bill to amend the patent laws implementing the Patent Cooperation Treaty; to the Committee on the Judiciary.

PATENT COOPERATION TREATY

● Mr. MATHIAS. Mr. President, the Patent Cooperation Treaty is a major multilateral convention under which 35 countries, including the United States, have joined together to facilitate the filing of patent applications for the same invention in a number of countries. U.S inventors now rely on the convention to obtain protection for their technology in other countries.

At present under the treaty, U.S. applicants are able to file a single international patent application in English in the U.S. Patent and Trademark Office and have that application acknowledged in as many other countries as the applicant designates. Following the preparation of an international search report—prepared by the U.S. Patent and Trademark Office or the European Patent Office for U.S. applicants—citing relevant references, the applicant decides whether or not to proceed to perfect his or her applications in the countries designated by paying national fees and furnishing the necessary translations. This decision is not required until more than 1½ years after first filing the application.

This legislation that I introduce today, which accompanies and implements a planned withdrawal of a reservation by the United States to the application of the second chapter of the Patent Cooperation Treaty, will further increase the usefulness of the Patent Cooperation Treaty for U.S. interests. Adherence of the United States to chapter II will give the U.S. inventor access to an examination report, which related the references found in the search report to the invention.

It will also enable the applicant to defer the decision about paying national fees and preparing translations to perfect the applications until approximately 2½ years after the first filing of the international application. Before having to make this decision, the applicant will have in hand a report that cites the previous patents or publications that bear on the patentability of his or her invention. The applicant will also have a report that relates these references to the invention. With this information the applicant will be able to make an informed decision about continuing to pursue protection in many other countries before having to underwrite the large costs of national fees and preparing translations.

In addition to giving the U.S. applicant more flexibility in pursuing protection for an invention in a number of countries, the proposed changes should increase the strength of the patents that are obtained in the various countries. Not only will these countries have all the resources they now have for evaluating the patentability of an invention, but, in addition, they will have a search report and an examination report prepared by a major patent office for each application. This should greatly aid U.S. inventors in obtaining stronger protection for their inventions abroad.

I have been informed that the U.S. Patent and Trademark Office will produce examination reports for international applications only after it achieves its important goal of reducing patent application pendancy time to an average of 18 months. This goal is expected to be achieved in 1987. Arrangements have been made to have the European Patent Office prepare the examination reports for U.S. inventors until that goal is achieved. Thereafter the U.S. Patent and Trademark Office will also be able to prepare these examination reports.

I introduce the bill today, not in the expectation that we will pass it in the 98th Congress, but to get the debate started and lay the groundwork for action in the 99th. I urge my colleagues to examine it closely and share it with interested constituents, and I request unanimous consent that it appear in the RECORD immediately following my remarks along with a statement of purpose.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 3085

Be it enacted by the Senate and House of Representatives of the United States of America in Congress Assembled, That this Act may be cited as the "Act to Authorize the United States to Participate in Chapter II of the Patent Cooperation Treaty."

SEC. 2. (a) Section 351(a) of title 35, United States Code, is amended by striking out ", excluding chapter II thereof".

(b) Section 351(b) of title 35, United States Code, is amended by striking out "excluding part C thereof".

(c) Section 351(g) of title 35, United States Code, is amended by—

(1) striking out "term" and inserting in lieu thereof "terms";

(2) inserting "and 'International Preliminary Examining Authority'" after "Authority"; and

(3) striking out "means" and inserting in lieu thereof "mean".

SEC. 3. The item relating to section 362 in the analysis for chapter 36 of title 35, United States Code, is amended to read as follows: "362. International Searching Authority and International Preliminary Examining Authority."

SEC. 4. Section 362 of title 35, United States Code, is amended to read as follows:

"SEC. 362. INTERNATIONAL SEARCHING AUTHORITY AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITY

"(a) The Patent and Trademark Office may act as an International Searching Authority and International Preliminary Examining Authority with respect to international applications in accordance with the terms and conditions of an agreement which may be concluded with the International Bureau, and may discharge all duties required of such Authorities, including the collection of handling fees and their transmittal to the International Bureau.

"(b) The handling fee, preliminary examination fee, and any additional fees due for international preliminary examination shall be paid within such time as may be fixed by the Commissioner."

SEC. 5. Section 364(a) of title 35, United States Code, is amended by—

(a) striking out "or", first occurrence and inserting in lieu thereof ", ";.

(b) inserting "International Preliminary Examining Authority" after "Authority, or"; and

(c) striking out "both".

SEC. 6. Section 368(c) of title 35, United States Code, is amended by—

(a) striking out the second occurrence of "or" and inserting in lieu thereof ", "; and

(b) striking out "both" and inserting in lieu thereof "International Preliminary Examining Authority".

SEC. 7. (a) Section 371(a) of title 35, United States Code, is amended to read as follows:

"(a) Receipt from the International Bureau of copies of international applications with any amendments to the claims, international search reports, and international preliminary examination reports including any annexes thereto may be required in the case of international applications designating or electing the United States."

(b) Section 371(b) of title 35, United States Code, is amended to read as follows:

"(b) Subject to subsection (f) of this section, the national stage shall commence with the expiration of the applicable time limit under article 22 (1) or (2), or under article 39(1)(a) of the treaty."

(c) Section 371(c)(4) of title 35, United States Code, is amended by striking the "." and inserting in lieu thereof ";".

(d) Section 371(c) of title 35, United States Code, is amended by adding at the end thereof the following new paragraph (5):

"(5) a translation into the English language of any annexes to the international preliminary examination report, if such annexes were made in another language.".

(e) Section 371(d) of title 35, United States Code, is amended by adding at the end thereof the following sentence: "The requirement of subsection (c)(5) shall be complied with at such time as may be fixed by the Commissioner and failure to do so shall be regarded as cancellation of the amendments made under article 34(2)(b) of the treaty.".

(f) Section 371(e) of title 35, United States Code, is amended by inserting "or article 41" after "28".

SEC. 8. (a) Section 376(a) of title 35, United States Code, is amended by

(1) inserting "and the handling fee" after the first occurrence of "fee";

(2) striking "amount is" and inserting in lieu thereof "amounts are";

(3) redesignating paragraph (5) as paragraph (6); and

(4) inserting the following new paragraph (5):

"(5) A preliminary examination fee and any additional fees (see section 362(b))."

(b) Section 376(b) of title 35, United States Code, is amended by

(1) inserting "and the handling fee" after the first occurrence of "feet" in the first sentence; and

(2) inserting "the preliminary examination fee and any additional fees," after "fee," in the third sentence.

SEC. 9. Sections 2 through 8 of this Act shall come into force on the same day as the effective date of entry into force of chapter II of the Patent Cooperation Treaty with respect to the United States, by virtue of the withdrawal of the declaration under article 64(1)(a) of the Patent Cooperation Treaty. It shall apply to all international applications pending before or after its effective date.

STATEMENT OF PURPOSE

The purpose of this legislation is to authorize the Patent and Trademark Office to act as an International Preliminary Examining Authority and as an elected Office under chapter II of the Patent Cooperation Treaty. When the United States ratified the treaty in November 1975, it did so with a declaration that it was not bound by the provisions of chapter II thereof. This chapter calls for the establishment of an International Preliminary Examination Report with respect to an international application and provides for additional time before the application enters the national patent processing stage in various elected national offices.

The reason for non-adherence to chapter II by the United States in 1975, was the then-prevailing opinion that divergent patent examining methods in other member countries would have made adherence impracticable. Experience gained with the operation of the treaty during the ensuing years, as well as major steps taken by other countries to harmonize international patent processing procedures, such as the coming into force of the European Patent Convention in 1978, have largely eliminated this reason. Accordingly, it would be in the interest of U.S. industry and independent inventors alike, if the United States withdrew its reservation regarding chapter II of the treaty. In a letter dated July 27, 1984, the President has requested the Senate's advice and consent to that withdrawal. Because the treaty is not self-executing, adherence to chapter II requires implementing legislation, such as that proposed here.

SECTIONAL ANALYSIS

INTRODUCTION

Under chapter I of the Patent Cooperation Treaty, (hereinafter referred to as the "treaty"), a patent applicant is required to "designate" those member countries of the International Patent Cooperation Union in which he desires patent protection. The applicant receives an international search report from an International Searching Authority and is not required to undertake the expenses of translation, national filing fees and prosecution in each designated country until usually 20 months from the priority date of the international application.

Chapter II of the treaty offers a supplement to chapter I. If an applicant "elects" previously "designated" member countries which are also bound by chapter II, usually prior to the expiration of 19 months from the priority date, several additional features and procedures become effective. As explained in greater detail below, an International Preliminary Examining Authority will prepare an international preliminary examination report for the benefit of the applicant and the elected Offices. The elected Offices may agree or disagree with the conclusions reached by the International Preliminary Examining Authority. Further, the time limit for committing the expenses to enter the national stage in the elected Offices is postponed to usually 25 months from the priority date of the international application. Beginning on January 1, 1985, this time limit will be extended to 30 months, by virtue of a decision taken under Article 47 of the treaty by the Assembly of the International Patent Cooperation Union, at its seventh Extraordinary Session in February 1984.

Under chapter II of the treaty (article 31), an applicant files a "demand" with the appropriate International Preliminary Examining Authority, electing member countries as mentioned above. That Authority then conducts the international preliminary examination which essentially determines whether the claimed invention is new, involves an inventive step (is non-obvious), and is industrially applicable. The applicant and the Authority communicate with each other during the international preliminary examination and the applicant is given at least one opportunity to amend the claims, the description, and the drawings of his international application. Thereafter, an international preliminary examination report is established. The report does not contain any statement regarding the patentability of the claimed invention according to the law of any country; it merely states—by a "Yes" or "No"—in relation to each claim whether it seems to satisfy the three criteria set forth above. Each such statement is usually accompanied by citations of prior art references and other explanations. The report is communicated to the applicant and the national Offices of the elected countries, which then may use the report in connection with their patent granting process.

The national fees and translations, if any, must be paid before the expiration of the time period under article 39(1)(a) of the treaty, which will be 30 months from the priority date of the international application, beginning in 1985. Examination and other processing in the elected Offices can start only after the expiration of that time period, unless the applicant chooses to have it start earlier. If election of a country is made after the expiration of the 19th month from the priority date, the original time limits under chapter I of the treaty (article 22) must be observed.

Section 1. This section identifies the legislation as the "Act to Authorize the United States to Participate in Chapter II of the Patent Cooperation Treaty."

Section 2. This section amends section 351 of title 35, United States Code, by deleting the phrases ", excluding chapter II thereof" in subsection (a) and "excluding part C thereof" in subsection (b). These exclusions were placed in the original legislation, Public Law 94-131, 89 Stat. 685, since chapter II of the treaty was not implemented then. The exclusion of the articles and Regulations of the treaty relating to chapter II must be eliminated in existing legislation to permit the United States to participate in chapter II.

Subsection 351(g) is amended to refer to the "International Preliminary Examining Authority" in association with the current reference to the "International Searching Authority" in anticipation of the United States Patent and Trademark Office becoming an International Preliminary Examining Authority when that Office's workload is sufficiently current.

Section 3. This section amends the title of section 362 of title 35, in the analysis following the Chapter 36 title, to include reference to the International Preliminary Examining Authority, thus reflecting changes in section 362.

Section 4. Current section 362 of title 35 has been designated as subsection (a) and has been amended to permit the Patent and Trademark Office to act as an international Preliminary Examining Authority, should it desire to enter into an agreement with the International Bureau and perform the required functions. At present, this section only permits the Patent and Trademark Office to act as an International Searching Authority.

Subsection (a) of amended section 362 specifically provides for the collection of handling fees under article 31(5) of the treaty (and Rule 57 of the Regulations thereunder) and the transmittal thereof to the International Bureau, for whose benefit such fees are paid.

New subsections 362(b) gives the Commissioner authority to establish time periods, within the limits of the treaty and its Regulations, for the payment by applicants of the handling fee under Rule 57 of the Regulations and the preliminary examination fee under Rule 58 of the Regulations. The supplement to the handling fee under Rule 57.1(b) of the Regulations is paid by the applicant directly to the International Bureau and need not be provided for in the legislation.

Section 5. This section amends subsection 364(a) of title 35 by referring to the "International Preliminary Examining Authority" along with current references to "Receiving Office" and "International Searching Authority", in order to specify that all international processing functions, when performed by the Patent and Trademark Office, must be in accordance with the treaty, its Regulations, and title 35, United States Code.

Section 6. Subsection 368(c) of title 35 is amended to prevent the unauthorized disclosure of the contents of international applications by the Patent and Trademark Office when acting as an International Preliminary Examining Authority.

Section 7. Section 371 of title 35 requires a number of changes to facilitate the possibility of proceeding under chapter II of the treaty. Subsection 371(a) of title 35 is amended to authorize the Commissioner to require the International Bureau to supply international preliminary examination reports, including annexes thereto. The annexes consist of amendments to the claims, description, or drawings of the international application made before the International Preliminary Examining Authority, as indicated in Rule 70.16 of the Regulations. The amended wording makes it possible for the Commissioner to require copies of all such documents or to exclude certain papers, such as those filed in or issued by the Patent and Trademark Office.

Subsection 371(b) of title 35 is amended to refer to the later time period under article 39(1)(a) of the treaty, at which an applicant may enter the national stage by virtue of having elected the Patent and Trademark Office under chapter II. As noted above, this time limit has been changed by the Assembly of the International Patent Cooperation Union from 25 months to 30 months, as of January 1, 1985.

Subsection 371(c) of title 35 is amended by adding a new paragraph (5) which requires the applicant to file, in addition to the requirements of paragraphs (1)-(4), a translation into the English language of any annexes to the international preliminary examination report, if such annexes are in a language other than English. Although the International Bureau is responsible under article 36(3)(a) of the treaty for communication to the Patent and Trademark Office of copies of these annexes in their original language, together with the international preliminary examination report, the applicant is responsible under article 36(2)(b) and (3)(b) of the treaty, to prepare a translation of the annexes if necessary and to transmit such translation to the Patent and Trademark Office.

Subsection 371(d) of title 35 is amended to include reference to the time period for submission of annexes to the international preliminary examination report. The amendment also provides the sanction of cancellation of the amendments for noncompliance.

Subsection 371(e) of title 35 is amended to ensure the right of the applicant to amend the application during the national stage before the elected Office, as provided in article 41 of the treaty.

Section 8. Subsection 376(a) of title 35 is amended to include reference to the handling fee to parallel the current reference to the international fee. The amounts of these fees are indicated in Rule 96 of the Regulations, which is titled "The Schedule of Fees."

A new paragraph (5) is added to subsection 376(a) to allow the Patent and Trademark Office to specify the amount of the preliminary examination fee and any additional fees thereto, referred to in subsection 362(b).

Subsection 376(b) of title 35 is amended to include reference to the fact that the amount of the handling fee is not prescribed by the Commissioner. Reference is also made to the preliminary examination fee and additional fees to the preliminary examination fee, as being refundable to the applicant where the Commissioner determines such a refund to be warranted.

Section 9. Section 9 specifies the effective date of the Act to be that of the entry into force of chapter II of the treaty with respect to the United States. When the United States ratified the treaty in November 1975, it did so with a declaration under article 64(1)(a) thereof, that it was not bound by the provisions of chapter II. Under article 64(6)(b) of the treaty, this declaration may be withdrawn at any time by notification to the Director General of the World Intellectual Property Organization and takes effect three months after the day on which the notification was received.

The Act applies to all international applications pending before or after its effective date. Accordingly, applicants whose applications have been pending less than 19 months from their priority date at the time chapter II becomes effective for the United States, will be able to make a "demand" for treatment under chapter II, thereby delaying the entry of the national stage in elected States to 30 months. Although there is no time limit in the treaty for submitting the "demand", its effects can only be guaranteed if it is submitted before the expiration of 19 months from the priority date of the international application. Submission of the "demand" after that date still entitles the applicant to receive an international preliminary examination report, but does not toll the applicable time limit under article 22 of the treaty.●

By Mr. CHAFEE:

S. 3086. A bill to require the National Institute of Child Health and Human Development of the National Institutes of Health to conduct research on, and develop, human contraceptives; to the Committee on Labor and Human Resources.

CONTRACEPTIVE RESEARCH

● Mr. CHAFEE. Mr. President, the disadvantages inherent in available birth control methods are the primary reason why many millions of American couples have difficulty avoiding unintended pregnancies. Effectiveness, convenience, and freedom from adverse health effects are all lacking in contraceptives on the market today. The result is unwanted pregnancy, and, all too frequently, abortion.

For example, the most serious side effect attributed to oral contraceptives—used by more than 8 million U.S. women—involves the cardiovascular system, specifically thromboembolism, stroke, and heart attack. Women of a higher risk are those who smoke, have diabetes or a family history of it, and high blood pressure or hypertension. An estimated 2.3 million women in the United States use intrauterine devices—IUD's. Risk of infection is the most serious drawback with IUD's, and with each infection, a women's risk of infertility increases. A total of 11.6 million U.S. women have chosen sterilization as their means of birth control. This method is irreversible and, therefore, not a reasonable alternative

for those most vulnerable to unwanted pregnancies—21 million young women between the ages of 16 and 19, more than half of whom are estimated to have had sexual intercourse.

The limitations of current contraceptives cause 31 percent of the women who are not using birth control not to use it because they are concerned about health risks and side effects. One obvious result is the growth in the number of unwanted pregnancies. Over 3 million unplanned pregnancies occur annually, and 1 million of these are among teenagers. Forty-six percent of these pregnancies end in abortion, and approximately 29 percent of the teenage pregnancies end in abortion. The large number of abortions is one clear indicator of how badly safe and effective contraceptives are needed.

However, the U.S. Government—the largest single sponsor of reproductive and contraceptive research—spends, according to Malcom Potts, president of Family Health International, approximately "the cost of a small order of McDonald's french fries per person per year" on all aspects of reproductive research.

As recently as 30 years ago, no research was being done on contraception. It was not until 1968 that the Center for Population Research within the National Institutes of Health was created. In 1983, funding for the Center was $86 million; in 1972 it was $85 million. Only $8.6 million of this actually goes toward contraceptive development, the remainder toward basic research in reproductive sciences. The $8.6 million is a particularly insignificant sum when one considers that, according to Mr. Potts, it can "cost up to $50 million and take more than 10 years of research" to bring a new contraceptive to the market.

In the past, industry was largely responsible for the research and development of many of the currently available contraceptives. However, industry is now far less excited about expending the effort to conduct new research and development because the cost and time involved from initial development to approval of marketing by the Food and Drug Administration [FDA] is a deterrent. Pharmaceutical companies would rather concentrate on developing drugs to treat disease than drugs and devices to prevent pregnancies given the cost and the time.

Recently, the Ford Foundation and the Canadian International Development Research Council, which made major contributions to contraceptive research, have withdrawn their support in light of the dwindling concern about the relative importance of problems of population growth. There seems to be far more concern about abortion than about prevention of unwanted pregnancies. It's ironic that the abortion controversy works against contraceptive research instead of in its favor.

The future of contraceptive research is not bright, despite the need to make it a priority. That is why I am today introducing legislation which requires the National Institutes of Health to conduct research on, and develop better means of contraception. Requiring the National Institute of Health's Institute of Child Health and Human Development—which includes the Center for Population Research—to use at least 10 percent of its budget for new research and development would spur the search for safe and effective means of birth control. The Office of Technology Assessment recommends that $20 million more a year be spent on contraceptive research, and the 10-percent minimum provided in this bill would implement this recommendation.

Every child has a right to be wanted. Women and men need safe and effective methods of birth control. A large number of the millions of unwanted pregnancies and resulting abortions that occur each year can be prevented. I invite my colleagues to join me in sponsoring this legislation.

I ask unanimous consent that the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 3086

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That subpart 7 of part C of title IV of the Public Health Service Act is amended by adding at the end thereof the following new section:

"CONTRACEPTIVE RESEARCH

SEC. 452. (a) The Secretary, through the Director of the Institute, shall conduct research on, and develop, human contraceptives, including male contraceptive methods, methods of reversible male sterilization, improved methods of nonsurgical sterilization, and types of female contraception such as a monthly birth control pill, a vaccine against pregnancy, improved and safer ovulation inhibitor medications, and improved barrier methods of contraception.

"(b) At least 10 percent of the amounts appropriated under this title and section 301 to carry out the activities of the Institute shall be used to carry out subsection (a).".●

ADDITIONAL COSPONSORS

S. 2165

At the request of Mr. DANFORTH, the name of the Senator from Pennsylvania [Mr. HEINZ] was added as a cosponsor of S. 2165, a bill to amend the Internal Revenue Code of 1954 to increase research activities, to foster university research and scientific training, and to encourage the contribution of scientific equipment to institutions of higher education.

S. 3039

At the request of Mr. DURENBERGER, the names of the Senator from Minnesota [Mr. BOSCHWITZ], the Senator from Maine [Mr. COHEN], and the Senator from New York [Mr. MOYNIHAN] were added as cosponsors of S. 3039, a bill to provide for procedures to eliminate the structural deficit in the Federal budget, to establish a National Bipartisan Commission on the Balanced Budget, and for other purposes.

SENATE CONCURRENT RESOLUTION 154—TO AUTHORIZE CHANGES IN THE ENROLLMENT OF H.R. 6163

Mr. BAKER (for Mr. DOLE) submitted the following concurrent resolution; which was considered and agreed to:

S. CON. RES. 154

Resolved by the Senate (the House of Representatives concurring), That, in the enrollment of the bill (H.R. 6163) to amend title 28, United States Code, with respect to the places where court shall be held in certain judicial districts, and for other purposes, the Clerk of the House of Representatives shall make the following correction:

In section 501 (4) strike out "(iii)" the first place it appears and insert in lieu thereof "(iv)".

AMENDMENTS SUBMITTED

RETIREMENT EQUITY FOR FORMER SPOUSES OF CIVIL SERVICE RETIREES

TRIBLE (AND OTHERS) AMENDMENT NO. 7087

Mr. BAKER (for Mr. TRIBLE, for himself, Mr. WARNER, and Mr. STEVENS) proposed an amendment to the bill (H.R. 2300) to provide retirement equity for former spouses of civil service retirees, and for other purposes; as follows:

At the end of the bill add the following new title:

TITLE II—PERFORMANCE MANAGEMENT AND RECOGNITION SYSTEM

ESTABLISHMENT OF PERFORMANCE MANAGEMENT AND RECOGNITION SYSTEM

SEC. 201. (a) Chapter 54 of title 5, United States Code, is amended to read as follows:

"CHAPTER 54—PERFORMANCE MANAGEMENT AND RECOGNITION SYSTEM

"Sec.
"5401. Purpose.
"5402. Coverage.
"5403. General pay increases.
"5404. Merit increases.
"5405. Pay administration.
"5406. Performance awards.
"5407. Cash award program.
"5408. Report.
"5409. Regulations.
"5410. Termination.

"§ 5401. Purpose

"It is the purpose fo this chapter to provide for a performance management and recognition system which shall—

"(1) use performance appraisals as the basis for—(a) determining adjustments in basic pay by general pay increases and merit increases, and (b) making performance award determinations;

"(2) within available funds, recognize and reward quality performance by varying amounts of performance and cash awards;

"(3) within available funds, provide for training to improve accuracy, objectivity, and fairness in the evaluation of performance;

"(4) regulate the costs of performance awards by establishing funding level requirements; and

"(5) provide the means to reduce or withhold certain pay increases for less than fully successful performance.

"§ 5402. Coverage

"(a) Except as provided in subsection (b) or (c) of this section, this chapter shall apply to any supervisor or management official (as defined in paragraphs (10) and (11) of section 7103(a) of this title, respectively) who is in a position within grade GS-13, GS-14, or GS-15 of the General Schedule described in section 5104 of this title.

"(b)(1) Upon request filed under paragraph (3) of this subsection, the President may, in writing, exclude an agency, any unit of an agency, or any class of employees within any such unit, from the application of this chapter, if the President considers such exclusion to be required as a result of conditions arising from—

"(A) the recent establishment of the agency, unit, or class, or the implementation of a new program;

"(B) an emergency situation; or

"(C) any other situation or circumstance.

"(2) Any exclusion under this subsection shall not take effect earlier than 30 calendar days after the President transmits to each House of the Congress a report describing the agency, unit, or class to be excluded and the reasons therefor.

"(3) A request for exclusion of an agency, any unit of an agency, or any class of employees within any such unit, under this subsection shall be filed by the head of the agency with the Office of Personnel Management, and shall set forth reasons why the agency, unit, or class should be excluded from the application of this chapter. The Office shall review the request and reasons therefor, undertake such other review as it considers appropriate to determine whether the agency, unit, or class should be excluded from the application of this chapter and, upon completion of its review, recommend to the President whether the agency, unit, or class should be so excluded.

"(4) Any agency, unit, or class which is excluded pursuant to this subsection shall, insofar as practicable, make a sustained effort to eliminate the conditions on which the exclusion is based.

"(5) The Office shall periodically review any exclusion from coverage and may at any time recommend to the President that an exclusion under this subsection be revoked. The President may at any time revoke, in writing, any exclusion under this subsection.

"(6) The Office shall prescribe regulations under which an employee may be excluded from the application of this chapter other than as part of an agency, unit, or class so excluded under the preceding paragraphs of this subsection. To the extent practicable, the regulations shall be based on the provisions of such paragraphs.

"(c) This chapter shall not apply to individuals employed under the Office of the Architect of the Capitol, the Library of Congress, the Botanic Garden, or the Administrative Office of the United States Courts.

"§ 5403. General pay increases

"(a) For purposes of this section, a pay adjustment period, in the case of an employee covered by this chapter, shall be the period beginning on the first day of the first pay period applicable to such employee commencing on or after the first day of the month in which an adjustment takes effect under section 5305 of this title and ending at the close of the day before the beginning of the following pay adjustment period.

"(b) A determination concerning a general pay increase under this section shall, for any pay adjustment period, be made based on the level of performance of the employee involved, as determined for the latest appraisal period under section 4302a of this title (or an equivalent rating system) before the beginning of such pay adjustment period.

"(c) Subject to section 5405(a)(1)(A) of this title, if the employee's performance is rated—

"(1) at the fully successful level or either of the 2 levels above the fully successful level, the rate of basic pay of the employee shall be increased by the full general pay increase, effective as of the beginning of the pay adjustment period;

"(2) at the level 1 level below the fully successful level, the rate of basic pay of the employee shall be increased by one-half of the full general pay increase, effective as of the beginning of the pay adjustment period; or

"(3) at the level 2 levels below the fully successful level, the rate of basic pay of the employee shall not be increased under this section.

"(d) A full general pay increase for any pay adjustment period under this section shall be determined by multiplying on the day immediately preceding the pay adjustment period the rate of basic pay of the employee involved by the percentage corresponding to the percentage generally applicable under section 5305 of this title to positions not covered by this chapter which are in the same grade as the position held by such employee.

"(e)(1) The basic pay of an employee for whom a determination under section 4302a of this title (or an equivalent rating system) for the latest appraisal period is not available shall be adjusted under this subsection in such circumstances as the Office of Personnel Management shall by regulation prescribe.

"(2) Any adjustment made under this subsection shall be equal to an adjustment under subsection (c)(1) of this section.

"§ 5404. Merit increases

"(a) For purposes of this section—

"(1) the term 'applicable reference rate', as used with respect to the rate of basic pay of an employee, means the rate equal to the sum of—

"(A) the minimum rate of basic pay provided under section 5332 of this title for the grade of the position held by such employee; and

"(B) one-third of the difference between the maximum rate of basic pay provided for such grade under such section and the minimum rate of basic pay so provided;

"(2) the term 'merit increase' means, with respect to a grade, an increase equal to one-ninth of the difference between the maximum rate of basic pay provided for such grade under section 5332 of this title and the minimum rate of basic pay so provided; and

"(3) a reference to the performance rating of an employee shall, for purposes of any increase which may take effect under this section in a year, be considered to be a reference to the level of performance of such employee, as determined for the latest appraisal period under section 4302a of this title (or an equivalent rating system) before the effective date of such increase.

"(b) Subject to section 5405(a)(1)(A) of this title, under regulations prescribed by the Office of Personnel Management, the rate of basic pay of an employee covered by this chapter shall be increased each year in accordance with the applicable provisions of subsection (c) of this section, effective as of the beginning of the first applicable pay period commencing on or after October 1 of such year.

"(c)(1)(A) If the rate of basic pay of the employee does not equal or exceed the applicable reference rate on the day before the effective date of an increase under this section, and the performance of such employee is rated at the fully successful level or either of the 2 levels above the fully successful level, the rate of basic pay of the employee shall be increased by an amount equivalent to a merit increase.

"(B) If the rate of basic pay of the employee equals or exceeds the applicable reference rate on the day before the effective date of an increase under this section, and the performance of such employee is rated—

"(i) at the level 2 levels above the fully successful level, the rate of basic pay of the employee shall be increased by an amount equivalent to a merit increase;

"(ii) at the level 1 level above the fully successful level, the rate of basic pay of the employee shall be increased by an amount equivalent to one-half of a merit increase; or

"(iii) at the fully successful level, the rate of basic pay of the employee shall be increased by an amount equivalent to one-third of a merit increase.

"(2) The rate of basic pay of an employee whose performance is rated at either of the 2 levels below the fully successful level shall not be increased under this section for the year involved.

"(d) The Office of Personnel Management shall prescribe regulations under which this section shall be applied in the case of an employee for whom a determination under section 4302a of this title (or an equivalent rating system) for the latest appraisal period is not available.

"§ 5405. Pay administration

"(a)(1) An employee covered by this chapter—

"(A) may not be paid at a rate greater than the maximum rate of basic pay for the grade of the employee's position, as set forth in section 5332 of this title; and

"(B) except as provided in paragraph (2) of this subsection, may not be paid at a rate less than the minimum rate of basic pay for such grade, as set forth in section 5332 of this title.

"(2) An employee may be paid at a rate less than the minimum rate of basic pay for the grade of such employee's position to the extent that payment of the lesser rate is the result of the employee having received less than a full general pay increase under section 5403 of this title.

"(b) Any employee whose position is brought under this chapter shall, so long as the employee continues to occupy the position, be entitled to receive basic pay at a rate of basic pay not less than the rate the employee was receiving when the position was brought under this chapter, plus any subsequent increases under sections 5403 and 5404 of this title.

"(c) The Office of Personnel Management shall prescribe regulations governing the method by which an increase under section 5403 of this title and an increase under section 5404 of this title shall be made in any case in which both of those increases are to take effect beginning on the same date.

"(d) Under regulations which the Office shall prescribe, the benefit of advancement through the range of basic pay for a grade shall be preserved for any employee who is covered by this chapter and whose continuous service is interrupted in the public interest by service in the Armed Forces, or by service in essential non-Government civilian employment during a period of war or national emergency.

"(e) For the purpose of section 5941 of this title, rates of basic pay of employees covered by this chapter shall be considered rates of basic pay fixed by statute.

"(f) In the case of an employee covered by this chapter for whose position a higher rate of basic pay has been established under section 5303 of this title, any reference in this chapter to a rate of basic pay provided under or set forth in section 5332 of this title shall be deemed to be a reference to the corresponding rate of basic pay established under such section 5303.

"§ 5406. Performance awards

"(a)(1) Any employee who is covered by this chapter, and whose performance for an appraisal period is rated under section 4302a of this title (or an equivalent rating system) at the level 2 levels above the fully successful level, shall be paid a performance award under this section for such period.

"(2)(A) The amount of a performance award referred to in paragraph (1) of this subsection shall be determined by the appropriate agency head, except that any such award shall be not more than 10 percent of the employee's annual rate of basic pay and, effective after fiscal year 1985, shall be not less than 2 percent of such annual rate.

"(B) Notwithstanding subparagraph (A) of this paragraph, a performance award exceeding 10 percent but not exceeding 20 percent of the employee's annual rate of basic pay may be paid if the agency head determines that such award is warranted by unusually outstanding performance.

"(b)(1) Any employee who is covered by this chapter, and whose performance for an appraisal period is rated under section 4302a of this title (or an equivalent rating system) at the level 1 level above the fully successful level or at the fully successful level, may be paid a performance award under this section for such period.

"(2) The amount of a performance award referred to in paragraph (1) of this subsection shall be determined by the appropriate agency head, except that any such award shall be not more than 10 percent of the employee's annual rate of basic pay.

"(c)(1) Subject to subsections (a)(2) and (b)(2) of this section, the aggregate amount of performance awards paid under this section by an agency during any fiscal year shall be—

"(A) not less than the product of—

"(i) the applicable minimum percentage for such year under paragraph (2) of this subsection, multiplied by

"(ii) the estimated aggregate amount of basic pay which will be payable to employees of the agency covered by the performance management and recognition system during such year, as determined by the head of the agency, taking into consideration the number of employees who were covered by such system during the preceding fiscal year (or by the merit pay system in the case of fiscal year 1984) and the applicable rates of basic pay in such preceding year; and

"(B) not more than the product of—

"(i) the applicable maximum percentage for such year under paragraph (2) of this subsection, multiplied by

"(ii) the amount under subparagraph (A)(ii) of this paragraph for such year.

"(2)(A)(i) The applicable minimum percentage—

"(I) shall be .75 percent for fiscal year 1985;

"(II) shall, for each of the 4 fiscal years thereafter, be adjusted incrementally (by equal increments or otherwise) over the percentage for the preceding fiscal year by the appropriate agency head in accordance with regulations which the Office of Personnel Management shall prescribe; and

"(III) shall, as a result of the final adjustment, be increased to 1.15 percent for fiscal year 1989.

"(ii) The applicable maximum percentage for each of the 5 fiscal years during which this chapter is in effect shall be 1.5 percent.

"(B)(i) Notwithstanding subparagraph (A) of this paragraph, in the case of an agency described in clause (ii) of this subparagraph the applicable minimum percentage for any fiscal year during which this chapter is in effect shall be a percentage, not less than the minimum percentage described in subsection (2)(A)(i) and not to exceed 10 percent, which the Office shall by regulation prescribe.

"(ii) This subparagraph applies to an agency in a fiscal year if the average number of employees employed under such agency during the immediately preceding fiscal year was equal to or less than the equivalent of 20 full-time employees.".

"(d) A failure to pay a performance award authorized by subsection (b) of this section may not be appealed.

"(e) A performance award paid to an employee under this section shall be in addition to the basic pay of the employee and any cash award paid under section 5407 of this title.

"§ 5407. Cash award program

"(a) The head of an agency may pay a cash award to, and incur necessary expenses for the honorary recognition of, any employee who is covered by this chapter, and who—

"(1) by the employee's suggestion, invention, superior accomplishment, or other personal effort, contributes to the efficiency, economy, or other improvement of Government operations, or achieves a significant reduction in paperwork; or

"(2) performs a special act or service in the public interest in connection with or related to the employee's Federal employment.

"(b) The President may pay a cash award to, and incur necessary expenses for the honorary recognition of, any employee who is covered by this chapter and who—

"(1) by the employee's suggestion, invention, superior accomplishment, or other personal effort, contributes to the efficiency, economy, or other improvement of Government operations, or achieves a significant reduction in paperwork; or

"(2) performs an exceptionally meritorious special act or service in the public interest in connection with or related to the employee's Federal employment.

A Presidential cash award may be in addition to an agency cash award under subsection (a) of this section.

"(c) A cash award paid to an employee under this section shall be in addition to the basic pay of the employee and any performance award paid under section 5406 of this title. Acceptance of a cash award under this section constitutes an agreement that the use by the Government of any idea, method, or device for which the award is made does not form the basis of any claim of any nature against the Government by the employee accepting the award, or the employee's heirs or assigns.

"(d) A cash award to, and expenses for the honorary recognition of, any employee who is covered by this chapter may be paid from the fund or appropriation available to the activity primarily benefiting, or the various activities benefiting, from the suggestion, invention, superior accomplishment, or other meritorious effort of the employee. The head of the agency concerned shall determine the amount to be contributed by each activity to any agency cash award under subsection (a) of this section. The President shall determine the amount to be contributed by each activity to a Presidential award under subsection (b) of this section.

"(e)(1) Except as provided in paragraph (2) of this subsection, a cash award under this section may not exceed $10,000.

"(2) If the head of an agency certifies to the Office of Personnel Management that the suggestion, invention, superior accomplishment, or other meritorious effort of an employee for which a cash award is proposed is highly exceptional and unusually outstanding, a cash award in excess of $10,000 but not in excess of $25,000 may be awarded to the employee on the approval of the Office.

"(f) The President or the head of an agency may pay a cash award under this section notwithstanding the death or separation from the service of an employee, if the suggestion, invention, superior accomplishment, or other meritorious effort of the employee for which the award is proposed was made or performed while the employee was covered by this chapter.

"§ 5408. Report

"The Office of Personnel Management shall submit an annual report to the President and each House of the Congress evaluating the effectiveness of the performance management and recognition system established by this chapter. Each such report shall be prepared after consultation with the respective heads of a sufficient range of agencies so as to permit an adequate basis for making a meaningful evaluation.

"§ 5409. Regulations

"The Office of Personnel Management shall prescribe regulations to carry out this chapter.

"§ 5410. Termination

"This chapter and any regulations prescribed under this chapter shall cease to be effective after September 30, 1989.".

(b) The table of chapters at the beginning of part III of title 5, United States Code, is amended by striking out the item relating to

chapter 54 and inserting in lieu thereof the following:

"54. Performance Management and Recognition System..... 5401".

PERFORMANCE APPRAISAL SYSTEMS

SEC. 202. (a) Chapter 43 of title 5, United States Code, is amended by inserting after section 4302 the following new section:

"§ 4302a. Establishment of performance appraisal systems for performance management and recognition system employees

"(a) Each agency shall develop 1 or more performance appraisal systems for employees covered by chapter 54 of this title which—

"(1) provide for periodic appraisals of job performance of such employees;

"(2) require the joint participation of the supervising official and the employee in developing performance standards with authority for establishing such standards resting with the supervising official; and

"(3) use the results of performance appraisals as a basis—

"(A) for adjusting the base pay and making performance award decisions with respect to any such employee in accordance with the applicable provisions of such chapter 54; and

"(B) for training, rewarding, reassigning, promoting, reducing in grade, retaining, and removing any such employee.

"(b) Under regulations which the Office of Personnel Management shall prescribe, each performance appraisal system under this section shall provide for—

"(1) 5 levels of summary performance ratings as follows:

"(A) 2 levels which are above the fully successful level;

"(B) a fully successful level; and

"(C) 2 levels which are below the fully successful level;

"(2) establishing, in writing, the critical elements of each employee's position and the performance standards for the fully successful level for each such element which will, to the maximum extent feasible, permit accurate evaluation of job performance on the basis of objective criteria related to the job in question;

"(3) communicating, at the beginning of each appraisal period and in writing, to each employee who is covered by chapter 54 of this title the performance standards and critical elements of the employee's position;

"(4) evaluating each such employee during the appraisal period on the basis of such standards;

"(5) assisting any such employee in improving performance rated at a level below the fully successful level; and

"(6) reassigning, reducing in grade, or removing any employee who continues to perform at the level which is 2 levels below the fully successful level, after such employee has been provided with written notice of such employee's rating and afforded reasonable opportunity to raise such employee's level of performance to the fully successful level or higher.

"(c)(1) Appraisals of performance under this section—

"(A) shall take into account individual performance and may take into account organizational accomplishment;

"(B) shall be based on factors such as—

"(i) any improvement in efficiency, productivity, and quality of work or service, including any significant reduction in paperwork;

"(ii) cost efficiency;

"(iii) timeliness of performance;

"(iv) other indications of the effectiveness, productivity, and quality of performance of the employees for whom the employee is responsible; and

"(v) meeting affirmative action goals and achievement of equal employment opportunity requirements;

"(C) may be reviewed by an employee of the agency in accordance with procedures established by the Office of Personnel Management;

"(D) shall, on request of the employee whose performance is appraised, be reconsidered by an employee of the agency in accordance with procedures established by the Office; and

"(E) may not be appealed outside the agency.

"(2) Reconsideration of an appraisal under paragraph (1)(D) of this subsection may be made only by an employee who is in a higher position in the agency than each employee who made, reviewed, or approved the appraisal.

"(d)(1) In order to promote the purposes of this section, there shall be established within each agency a performance standards review board (hereinafter in this subsection referred to as the 'board'), consisting of at least 6 members, all of whom shall be chosen by the agency head from individuals employed in or under such agency. Of the members, at least one-half shall be employees who are covered by chapter 54 of this title and who are in the competitive service. A board shall be chaired by the member of the board designated for that purpose by the agency head.

"(2) It shall be the function of each board—

"(A) to assess, by the use of representative sampling techniques, the appropriateness of performance standards developed and used by the agency under this section;

"(B) to study the feasibility of an awards program based on the collective performance of units or other groups of employees who are covered by chapter 54 of this title, and to submit as part of its annual report under paragraph (3) of this subsection recommendations for any actions which the board considers appropriate with respect to any such program; and

"(C) to provide technical assistance with respect to any demonstration projects which may relate to performance standards of the agency under this section.

"(3) A board shall report to the head of the agency on its activities under this subsection annually.

"(e) In carrying out this section, neither the Office nor any other agency may prescribe a distribution of levels of performance ratings for employees covered by chapter 54 of this title.

"(f) The Office may not prescribe, or require an agency to prescribe, any specific performance standard or element for purposes of this section.

"(g) This section and any regulations prescribed under this section shall cease to be effective as of the date on which chapter 54 of this title ceases to be effective.".

(b) The table of sections for chapter 43 of title 5, United States Code, is amended by inserting after the item relating to section 4302 the following new item:

"4302a. Establishment of performance appraisal systems for performance management and recognition system employees.".

MERIT INCREASES AS EQUIVALENT INCREASES IN PAY

SEC. 203. Section 5335 of title 5, United States Code, is amended by adding at the end thereof the following new subsection:

"(f) Notwithstanding subsection (d) or (e) of this section, an increase in pay granted under section 5404 of this title is an equivalent increase in pay within the meaning of subsection (a) of this section and shall be taken into account in the case of any employee who, before becoming subject to this section, was granted such an increase while covered by the performance management and recognition system established under chapter 54 of this title.".

TECHNICAL AND CONFORMING AMENDMENTS

SEC. 204. (a) Title 5, United States Code, is amended—

(1) in sections 4501(2)(A), 5332(a), 5334(c)(2), 5334(f), 5335(e), 5336(c), and 5362(c)(3), by striking out "the merit pay system established under section 5402" each place it appears and inserting in lieu thereof "the performance management and recognition system established under chapter 54";

(2) in section 5361(5), by striking out "merit pay system" and inserting in lieu thereof "performance management and recognition system"; and

(3) in section 5948(g)(1)(C), by striking out "Merit Pay System" and inserting "performance management and recognition system".

(b) Section 1602 of title 10, United States Code, and section 731(b) of title 31, United States Code, are each amended by striking out "5401(a)" and inserting in lieu thereof "5401".

EFFECTIVE DATE; TRANSITION PROVISIONS

SEC. 205. (a) The amendments made by this title shall be effective as of October 1, 1984, and shall apply with respect to pay periods commencing on or after that date.

(b) The rate of basic pay for any individual serving in a position—

(1) which is in the merit pay system before the date on which the amendments made by this title take effect, but

(2) which does not become covered by the performance management and recognition system,

shall not be reduced on account of such position not becoming so covered.

(c) The rate of basic pay for any individual serving in a position which ceases to be covered by the performance management and recognition system as a result of the termination of such system under section 5410 of title 5, United States Code, as amended by this title, shall not be reduced on account of such termination.

(d)(1) Except as provided in paragraph (2), any agency or unit of an agency which, immediately before the date of enactment of this Act, was excluded from coverage under the merit pay system shall be excluded from coverage under the performance management and recognition system for the 12-month period beginning on such date of enactment.

(2) An exclusion under paragraph (1) may be revoked at any time in accordance with section 5402(b)(5) of title 5, United States Code, as amended by this Act.

TITLE III—SENIOR EXECUTIVE SERVICE

CONGRESSIONAL FINDINGS

SEC. 301. The Congress finds that the Senior Executive Service should be continued indefinitely.

PERFORMANCE AWARDS

SEC. 302. Subsection (b) of section 5384 of title 5, United States Code, is amended—

(1) in paragraph (2), by striking out "exceed" and inserting in lieu thereof "be less than 5 percent nor more than"; and

(2) by amending paragraph (3) of such subsection to read as follows:

"(3) The aggregate amount of performance awards paid under this section by an agency during any fiscal year may not exceed the greater of—

"(A) an amount equal to 3 percent of the aggregate amount of basic pay paid to career appointees in such agency during the preceding fiscal year; or

"(B) an amount equal to 15 percent of the average of the annual rates of basic pay paid to career appointees in such agency during the preceding fiscal year."

REDUCTIONS IN FORCE

SEC. 303. (a) Section 3593(c)(1)(B) of title 5, United States Code, is amended by inserting "before October 1, 1984," after "title".

(b) Section 3594(b) of such title is amended to read as follows:

"(b) A career appointee who has completed the probationary period under section 3393(d) of this title, and who—

"(1) is removed from the Senior Executive Service for less than fully successful executive performance as determined under subchapter II of chapter 43 of this title; or

"(2) is removed from the Senior Executive Service under paragraph (4) or (5) of section 3595(b) of this title;

shall be entitled to be placed in a civil service position (other than a Senior Executive Service position) in any agency.".

(c) Section 3595(b) of such title is amended—

(1) in paragraph (3)(B), by striking out "is entitled" and all that follows thereafter through "position." and inserting in lieu thereof "shall be placed by the Office in any agency in any vacant Senior Executive Service position unless the head of that agency determines that the career appointee is not qualified for that position."; and

(2) by striking out paragraphs (4) and (5) and inserting in lieu thereof the following:

"(4) A career appointee who is not assigned under paragraph (3)(A) may be removed from the Senior Executive Service due to a reduction in force if the career appointee declines a reasonable offer for placement in a Senior Executive Service position under paragraph (3)(B).

"(5) A career appointee who is not assigned under paragraph (3)(A) may be removed from the Senior Executive Service due to a reduction in force if the career appointee is not placed in another Senior Executive Service position under paragraph (3)(B) within 45 days after the Office receives certification regarding that appointee under paragraph (3)(B).".

(d) Section 3595(c) of such title is amended to read as follows:

"(c) A career appointee is entitled to appeal to the Merit Systems Protection Board under section 7701 of this title whether the reduction in force complies with the competitive procedures required under subsection (a).".

DIRECT REASSIGNMENT; TRANSFER OF FUNCTION

SEC. 304. (a) Section 3395(a)(2) of title 5, United States Code, is amended to read as follows:

"(2)(A) Except as provided in subparagraph (B) of this paragraph, a career appointee may be reassigned to any Senior Executive Service position only if the career appointee receives written notice of the reassignment at least 15 days before the effective date of such reassignment.

"(B)(i) A career appointee may not be reassigned to a Senior Executive Service position outside the career appointee's commuting area unless—

"(I) before providing notice under subclause (II) of this clause (or seeking or obtaining the consent of the career appointee under clause (ii) of this subparagraph to waive such notice), the agency consults with the career appointee on the reasons for, and the appointee's preferences with respect to, the proposed reassignment; and

"(II) the career appointee receives written notice of the reassignment, including a statement of the reasons for the reassignment, at least 60 days before the effective date of the reassignment.

"(ii) Notice of reassignment under clause (i)(II) of this subparagraph may be waived with the written consent of the career appointee involved.".

(b) Section 3595 of such title is amended by adding at the end thereof the following new subsection:

"(e) The Office shall prescribe regulations under which the rights accorded to a career appointee in the event of a transfer of function are comparable to the rights accorded to a competing employee under section 3503 of this title in the event of such a transfer.".

(c) Section 7543(a) of such title is amended by striking out "or malfeasance." and inserting in lieu thereof "malfeasance, or failure to accept a directed reassignment or to accompany a position in a transfer of function.".

(d) Section 8336(d) of such title is amended by inserting after the first sentence the following new sentence: "For purposes of paragraph (1) of this subsection, separation for failure to accept a directed reassignment to a position outside the commuting area of the employee concerned or to accompany a position outside of such area pursuant to a transfer of function shall not be considered to be a removal for cause on charges of misconduct or delinquency.".

PAY LIMITATION

SEC. 305. Section 5383(b) of title 5, United States Code, is amended to read as follows:

"(b)(1) In no event may the aggregate amount paid to a senior executive during any fiscal year under sections 4507, 5382, 5384, and 5948 of this title exceed the annual rate payable for positions at level I of the Executive Schedule in effect at the end of such fiscal year.

"(2)(A) Any amount which is not paid to a senior executive during a fiscal year because of the limitation under paragraph (1) of this subsection shall be paid to that individual in a lump sum at the beginning of the following fiscal year.

"(B) Any amount paid under this paragraph during a fiscal year shall be taken into account for purposes of applying the limitation under paragraph (1) of this subsection with respect to such fiscal year.

"(C) The Office of Personnel Management shall prescribe regulations, consistent with section 5582 of this title, under which payment under this paragraph shall be made in the case of any individual whose death precludes payment under subparagraph (A) of this paragraph.".

MISCELLANEOUS SENIOR EXECUTIVE SERVICE AMENDMENTS

SEC. 306. (a) Section 3135(a) of title 5, United States Code, is amended—

(1) by striking out "and" at the end of paragraph (8);

(2) by redesignating paragraph (9) as paragraph (10); and

(3) by inserting after paragraph (8) the following new paragraph:

"(9) the number of career appointees who have been placed in positions outside the Senior Executive Service under section 3594 of this title as a result of a removal under section 3595 of this title; and".

(b)(1) The first sentence of section 3393(b) of such title is amended by inserting before the period the following: "or commissioned officers of the uniformed services serving on active duty in such agency".

(2) Section 4312(b)(3) of such title is amended by inserting ", or (with the consent of the senior executive) a commissioned officer in the uniformed services serving on active duty," after "employee", and by striking out "executive".

(c)(1) Such title is amended by adding after section 3595 the following new section:

"§ 3595a. Furlough in the Senior Executive Service

"(a) For the purposes of this section, 'furlough' means the placement of a senior executive in a temporary status in which the senior executive has no duties and is not paid when the placement in such status is by reason of insufficient work or funds or for other nondisciplinary reasons.

"(b) An agency may furlough a career appointee only in accordance with regulations issued by the Office of Personnel Management.

"(c) A career appointee who is furloughed is entitled to appeal to the Merit Systems Protection Board under section 7701 of this title.".

(2) The table of sections for chapter 35 of such title is amended by inserting after the item relating to section 3595 the following new item:

"3595a. Furlough in the Senior Executive Service.".

EFFECTIVE DATE

SEC. 307. The amendments made by this title shall be effective following the expiration of the 90-day period beginning on the date of enactment of this Act, except that the amendments made by section 304 shall be effective as of such date of enactment.

STEVENS AMENDMENT NO. 7088

Mr. BAKER (for Mr. STEVENS) proposed an amendment to the bill H.R. 2300, supra; as follows:

On page 4, line 24, strike out the period, and insert in lieu thereof the following: ", plus interest. For the purposes of the preceding sentence, the annual rate of interest for each year during which the annuity would have been reduced if the election had been in effect since the date the annuity commenced shall be six percent.".

On page 8, line 19, strike out the period, and insert in lieu thereof the following: ", plus interest. For the purposes of the preceding sentence, the annual rate of interest for each year during which an annuity would have been reduced if the election had been in effect on and after the applicable date referred to in such sentence shall be six percent.".

On page 10, line 17, strike out the period, and insert in lieu thereof the following: ", plus interest. For the purposes of the preceding sentence, the annual rate of interest for each year during which the annuity would have been reduced if the election had

been in effect since the date the annuity commenced shall be six percent.".

On page 27, line 14, strike out "commenced;", and insert in lieu thereof "commenced, plus interest computed at the annual rate of six percent for each year during which the annuity would have been reduced if the election had been in effect on and after the date the annuity commenced".

On page 31, line 4, strike out the period and insert in lieu thereof the following: ", plus interest. For the purposes of the preceding sentence, the annual rate of interest for each year during which the annuity would have been reduced if the election had been in effect on and after the date the annuity commenced shall be six percent.".

On page 6, after line 3, insert the following: "In the case of a retired employee or Member whose annuity is being reduced in order to provide a survivor annuity for a former spouse, an election to provide or increase a survivor annuity for any other former spouse (and to continue an appropriate reduction) may be made within the same period that, and subject to the same conditions under which, an election could be made under paragraph (5)(B) of this subsection for a current spouse (subject to the provisions of this paragraph relating to consent of a current spouse, if the retired employee or Member is then married). The opportunity to make an election under the preceding sentence is in addition to any opportunity otherwise afforded under this paragraph.".

On page 20, line 23, strike out "an unremarried" and insert in lieu thereof "a".

On page 20, after line 25, insert the following:

"(A) who has not remarried before age 55 after the marriage to the employee, former employee, or annuitant was dissolved,

On page 21, line 1, strike out "(A)" and insert in lieu thereof "(B)".

On page 21, line 7, strike out "(B)" and insert in lieu thereof "(C)".

On page 31, line 13, beginning with "original", strike out all through "other" on line 14, and insert in lieu thereof "such".

FEDERAL CHARTER FOR THE 369TH VETERANS ASSOCIATION

THURMOND AMENDMENT NO. 7089

Mr. BAKER (for Mr. THURMOND) proposed an amendment to the bill (H.R. 1095) to grant a Federal charter to the 369th Veterans' Association; as follows:

On page 5, line 9, delete "(60) and insert in lieu thereof "(65).

NATIONAL FISHERIES MARKETING COUNCIL ACT

PACKWOOD AMENDMENT NO. 7090

Mr. BAKER (for Mr. PACKWOOD) proposed an amendment to the bill (H.R. 5051) to improve the operation of the Fishermen's Protective Act of 1967; as follows:

Strike all after the enacting clause and insert in lieu thereof the following:

That this Act be cited as the "National Fisheries Marketing Council Act of 1984".

FINDINGS

SEC. 2. The Congress finds that—

(1) the commercial fishing industry of the United States significantly contributes to the national economy, and could make a greater contribution if fish resources within the United States Exclusive Economic Zone were fully utilized;

(2) the commercial fisheries of the United States provide significant employment in coastal areas and in processing and distribution centers;

(3) fish contribute an important nutritional component to the American diet;

(4) due to the small and independent nature of the fishing industry, and the regional diversification of harvesting and production, no one entity in the industry is capable of securing the level of effort necessary to provide an effective generic marketing program for fish;

(5) Federally-supported development programs for commercial fisheries are unable to meet present and future marketing needs;

(6) many fish species are underutilized by the United States fishing industry because of underdeveloped markets; and

(7) the United States fishing industry has the potential to greatly expand its contribution to interstate and foreign commerce, favorably affecting the balance of trade.

PURPOSE

SEC. 3. The purpose of this Act is to—

(1) strengthen the competitive position of the United States commercial fishing industry in the domestic and international marketplace;

(2) encourage the development and utilization of all species of fish available for harvest by the United States industry;

(3) encourage the utilization of domestically-produced fish through enhancement of markets, promotion, and public relations;

(4) help the United States fishing industry develop methods to improve quality and efficiency in the marketplace;

(5) educate and inform consumers on the use of fish;

(6) develop better coordination of fisheries marketing and promotion activities with commercial fisheries research and development programs; and

(7) educate and inform the public about the nutritional value of fish in the diet.

DEFINITIONS

SEC. 4. As used in this Act, the term—

(1) "Administrator" means the Administrator of the National Oceanic and Atmospheric Administration;

(2) "Council" means the National Fisheries Marketing Council established by section 5;

(3) "consumer education" means actions undertaken to inform consumers on matters related to the consumption of fish;

(4) "fish" means finfish, mollusks, crustaceans, and all other forms of marine and freshwater animal life used for human consumption, and products derived therefrom;

(5) "Fund" means the Fisheries Marketing Fund established by section 10;

(6) "harvester" means any individual who is in the business of catching fish for purposes of sale;

(7) "importer" means any person who imports fish into the United States from another country for commercial purposes;

(8) "marketing and promotion" means an activity aimed at encouraging the consumption of fish or expanding or maintaining commercial markets for fish;

(9) "marketer" means any individual who is in the business of selling fish in wholesale, retail, or restaurant trade, but whose primary business function is not the processing or packaging of fish in preparation for sale;

(10) "member" means any person serving on the Council;

(11) "person" means any individual, group of individuals, partnership, corporation, association, cooperative, or any private entity organized or existing under the laws of the United States or any State, commonwealth, territory or possession of the United States;

(12) "processor" means any individual who is in the business of receiving or otherwise acquiring fish from a harvester, and of preparing or packaging such fish (including fish of the processor's own harvesting) for sale;

(13) "receiver" means any person who acquires fish for sale directly from a harvester;

(14) "research" means research activities related to the marketing of fish; and

(15) "United States" means the several States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands and any other territory, possession, or commonwealth of the United States.

ESTABLISHMENT OF THE NATIONAL FISHERIES MARKETING COUNCIL

SEC. 5. (a) There is established the National Fisheries Marketing Council.

(b)(1) The Council shall be composed of the Administrator (or the Administrator's designee), who shall be a nonvoting member, and fifteen voting members appointed by the Administrator.

(2) Nominations for appointees shall be submitted in a manner prescribed by the Administrator.

(c) The Council shall be comprised of regional representation from the Northeast, Southeast, Pacific, and Alaska regions. The Northeast region shall consist of the States of Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Pennsylvania, Maryland, and Virginia. The Southeast region shall consist of the States of North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, and Texas, the Commonwealth of Puerto Rico, and the territory of the Virgin Islands. The Pacific region shall consist of the States of Idaho, Washington, Oregon, California, and Hawaii, the territories of Guam and American Samoa, and the Commonwealth of the Northern Mariana Islands. The Alaska region shall consist of the State of Alaska.

(d)(1) The voting members of the Council shall be—

(A) three members who reside in or do substantial fishing industry business in the Northeast region;

(B) three members who reside in or do substantial fishing industry business in the Southeast region;

(C) three members who reside in or do substantial fishing industry business in the Pacific region;

(D) three members who reside in or do substantial fishing industry business in the Alaska region;

(E) one member-at-large from an organized labor union, with demonstrated expertise in the United States fishing industry;

(F) one member-at-large with demonstrated expertise in the consumer and retail phases of the food industry; and

(G) one member-at-large with demonstrated expertise in freshwater and inland commercial fisheries.

(2) Of the members appointed pursuant to each of paragraphs (1)(A) through (D) of this subsection, one shall be a harvester, one shall be a processor, and one shall be a marketer.

(e)(1) Of the three members first appointed under each of subsections (d)(1)(A) through (D) and under subsections (d)(1)(E) through (G), one shall be appointed for a term of one year, one for a term of two years, and one for a term of three years. Thereafter, such appointments shall be for a term of three years.

(2) The tenure of a voting members may not exceed two successive terms.

(f) The Council shall annually elect a Chairman by a majority of those voting, if a quorum is present. Eleven members of the Council shall constitute a quorum, but a lesser number may hold hearings. A vacancy in the Council shall not affect its ability to function. The Administrator shall appoint a new member within sixty days to fill a vacancy in an unexpired term. Any member may remain on the Council beyond that member's term until a successor is appointed.

(g) The Council shall first meet within one hundred and eighty days after the date of enactment of this Act.

(h) Members of the Council shall serve without compensation, but shall be reimbursed in accordance with section 5703 of title 5, United States Code, for reasonable travel costs and expenses incurred in performing their duties as members of the Council.

FUNCTIONS AND DUTIES OF THE COUNCIL

SEC. 6. (a) The Council shall—

(1) prepare and submit to the Administrator, for the Administrator's review and approval, and annual marketing and promotion plan which contains descriptions of consumer education, research, and other marketing and promotion activities of the Council for the successive year, including activities related specifically to fish of each region, and shall implement such annual plan as approved by the Administrator;

(2) prepare and submit to the Administrator, for the Administrator's review and approval, an annual budget of the anticipated expenses and disbursements of the Council, including probable costs of consumer education, research, and other marketing and promotion plans or projects, and of the collection and enforcement of assessments;

(3) maintain accounting records of the receipt and disbursement of all funds entrusted to the Council;

(4) maintain such books and records as the Administrator determines appropriate;

(5) receive, and report to the Administrator, complaints of violations of orders or rules relating to assessment requirements;

(6) reimburse the Administrator for the actual costs of the collection and enforcement of assessments;

(7) prepare and submit to the Administrator from time to time such reports or proposals as the Administrator or the Council determines appropriate for furthering the purposes and policies of this Act.

(b) Each annual marketing and promotion plan shall be directed at—

(1) increasing the general demand for fish;

(2) encouraging, expanding, or improving the marketing and promotion and utilization of fish; and

(3) improving the dissemination of data collected by consumer education, research, and other marketing and promotion activities.

(c) Consumer education and other marketing and promotion activities of the Council shall contain no reference to a private brand or trade name and shall avoid use of deceptive acts or practices in behalf of fish or with respect to the quality, value, or use of any competing product or group of products.

(d) The annual budget of the Council shall allocate operating funds in such a manner that—

(1) prior to January 1, 1989—

(A) an amount equal to 50 percent of such funds is allocated equally among each of the regions described in section 5(c) for the marketing and promotion of fish and each such region, which may include funds to regional development foundations or regional trade associations; and

(B) the remainder of such funds is allocated for national marketing and promotion and administration of the Council; and

(2) on and after January 1, 1989—

(A) an amount equal to 50 percent of the total amount collected from assessments in the previous year from each such region is allocated for the marketing and promotion of fish of each such region, which may include funds to regional development foundations or regional trade associations; and

(B) the remainder of the funds is allocated for national marketing and promotion and administration of the Council.

(e) The Council may employ and determine the salary of an executive director not to exceed Senior Executives Service Level 6. The executive director shall have demonstrated expertise in the marketing and promotion of food products and may, without regard to the provisions of title 5, United States Code, with the approval of the Council, select and employ additional staff as necessary.

(f) The Council may enter into agreements to develop and carry out activities authorized under this Act.

DUTIES OF THE ADMINISTRATOR

SEC. 7. (a) The Administrator shall—

(1) review and approve the annual marketing and promotion plan and budget within sixty days after submission by the Council;

(2) administer the Fund and withdraw from the Fund such sums as are necessary to carry out the Council's approved marketing and promotion plan and budget, including reimbursement to the Administrator for the collection and enforcement of assessments:

(3) collect and enforce the payment of the assessments required under section 8(a) and issue such orders and amendments to such orders as are necessary to carry out the requirements for the payment of such assessments;

(4) promulgate regulations necessary to carry out the purposes and policies of this Act;

(5) provide such administrative assistance as the Council may require for purposes of its initial organization and operation; and

(6) make all appointments to the Council within ninety days after the date of enactment of this Act.

(b)(1) Except as provided in paragraphs (2) and (3), any information obtained pursuant to subsection (a)(3) shall be kept confidential by all officers and employees of the National Oceanic and Atmospheric Administration, and independent accountants and other persons who have access to such information.

(2) If the Administrator or an employee of the United States Government is party to a suit or administrative action involving an order issued under this section, the Administrator may disclose information obtained under subsection (a)(3) to the extent allowed by the judicial or administrative officer presiding over such suit or action.

(3) This subsection shall not prohibit—

(A) the issuance of general statements based upon—

(i) reports of the number of persons subject to an order which do not identify the information furnished by any person; or

(ii) statistical data based on such statements; or

(B) the publication by direction of the Administrator of the name of any person violating an order relating to the assessments required under section 8(a), and a statement of the particular provisions of such order violated by such person.

(4) Any individual who is required to keep information confidential under this subsection and who violates this subsection shall, upon conviction, be—

(A) subjected to a fine of not more than $1,000 or, if the violation was intentional, to imprisonment for not more than one year, or both; and

(B) removed from office if an officer or employee of the Council of the National Oceanic and Atmospheric Administration.

INDUSTRY PAYMENTS

SEC. 8. (a)(1) For those receivers and importers whose fish purchases in the twelve-month period immediately prior to the assessment date amount to $500,000 or more, the Administrator shall issue an order to pay, beginning October 1, 1987, an assessment equal to 0.2 per centum of the price of fish—

(A) sold by a harvester to a receiver; or

(B) imported into the United States by an importer.

(2) For transactions where the price of fish sold by a harvester to a receiver cannot be determined, the Administrator, with the concurrence of the Council, shall develop and promulgate regulations prescribing a means for determining such sale price.

(3) Notwithstanding paragraph (1), the Administrator (upon the request of the Council) may set an upper limit on the total assessment which a receiver or importer must pay during any twelve-month period.

(4) Receivers and importers shall make their books and records available for inspection solely for the purpose of determining the correct assessments as described in paragraph (1).

(5) The assessments shall, in the manner prescribed by an order issued by the Administrator, be—

(A) paid and transmitted to the Administrator by a receiver and an importer; and

(B) deposited by the Administrator into the Fund.

(6) To facilitate the collection of assessments, the Administrator, upon the request of the Council, may vary assessment collection procedures among different types of receivers to reflect differences in marketing and promotion practices or procedures utilized in the industry.

(b) The Council may prepare and submit orders to the Administrator, which the Administrator shall promulgate, that increase or decrease the rate of assessment to such level as the Council determines necessary to effectuate the purposes of this Act, except that such orders may not raise or lower the rate in any year by more than 0.1 percent over the rate during the previous fiscal year.

(c) Within one year after the date of enactment of this Act, a petition may be filed

with the Administrator by persons engaged in a segment of the fishing industry, requesting exemption from any assessment requirement under this Act. If the Administrator determines that any such petition is signed by receivers and importers who handle over 50 percent of the volume of fish in a segment of the fishing industry, the Administrator shall exempt any such receiver or importer from the payment of the assessment. If a segment of the fishing industry is exempted pursuant to this subsection, no representative of that segment shall be appointed to or serve on the Council, and the Council shall undertake no activities under this Act for the specific benefit of that segment.

(d) Any receiver or importer who has paid an assessment under this section shall be entitled to demand and receive from the Administrator a refund of such assessment. The demand for a refund shall be made within the time and in the manner prescribed by the Council and approved by the Administrator.

(e) Any person may make voluntary payments to help the Council carry out its annual marketing and promotion plan and annual budget, and the Administrator shall deposit such payments into the Fund.

PETITION AND REVIEW

SEC. 9. (a) Any person subject to an assessment order under section 7 may file a written petition with the Administrator, stating that such order or any provision of such order or any obligation imposed under such order is not in accordance with law and requesting a modification of the order or an exemption for such person from such order. Such petition shall be filed within a period prescribed by the Administrator. Such person shall be given an opportunity for a hearing upon such petition, in accordance with regulations issued by the Administrator. After such hearing, the Administrator shall make a ruling upon the petition, and such ruling shall be final, if in accordance with law.

(b) The district courts of the United States, in any district in which such person is an inhabitant or carries on business, shall have jurisdiction to review such ruling. Any request for such review shall be filed within twenty days after the date of the entry of such ruling. Service of process in such proceedings may be had upon the Administrator by delivering to the Administrator a copy of the request. If the court determines that such ruling is arbitrary and capricious, an abuse of discretion, or not in accordance with law, it shall remand such proceedings to the Adminstrator with directions either (1) to make such ruling as the court determines to be in accordance with law, or (2) to take such further proceedings as, in the court's opinion, are required by law. The pendency of proceedings instituted pursuant to subsection (a) of this section shall not impede, hinder, or delay the United States or the Administrator from obtaining relief pursuant to section 12 of this Act.

ESTABLISHMENT OF MARKETING FUND

SEC. 10. (a) There is established in the Treasury of the United States a Fisheries Marketing Fund. The Fund shall be available to the Administrator and the Council as a revolving fund for the purpose of making payments to carry out the annual marketing and promotion plan and annual budget of the Council under this Act.

(b) There shall be deposited in the Fund—

(1) subject to appropriations, from the fisheries loan fund established pursuant to section 4(c) of the Fish and Wildlife Act of 1956 (16 U.S.C. 742c(c))—

(A) $10,000,000, on October 1, 1984;

(B) $10,000,000, on October 1, 1985;

(C) $4,000,000, on October 1, 1986; and

(D) $4,000,000, on the first day of each fiscal year beginning on October 1, 1987, subject to the availability of funds;

(2) subject to appropriations, from the fund used by the Administrator pursuant to section 2(b) of the Act entitled "An Act to authorize the Federal Surplus Commodities Corporation to purchase and distribute surplus products of the fishing industry", approved August 11, 1939, as amended (commonly referred to as the Saltonstall-Kennedy Act, 15 U.S.C. 713c-3(b))—

(A) $4,000,000, on October 1, 1984;

(B) $4,000,000, on October 1, 1985;

(C) $4,000,000, on October 1, 1986; and

(D) $4,000,000, on October 1, 1987;

(3) assessments paid pursuant to section 8(a);

(4) amounts paid voluntarily and collected pursuant to section 8(e); and

(5) revenues received from investments made under subsection (d).

(c) No sum received from a private source paid pursuant to section 7 shall be subject to annual appropriations.

(d) Sums in the Fund that are not currently needed for the purposes of the Fund shall be kept on deposit in appropriate interest-bearing accounts that shall be established by the Secretary of the Treasury or invested in obligations of, or guaranteed by, the United States. Any revenue accruing from such deposits and investments shall be deposited in the Fund.

(e) Sums in the Fund shall be expended without further appropriations and without fiscal year limitation.

CONTINUATION OF THE COUNCIL

SEC. 11. (a)(1) Within ninety days before October 1, 1987, the Administrator shall—

(A) identify any importer or receiver with fish purchases of $500,000 or more for the twelve-month period ending thirty days prior to the date on which the survey under subparagraph (C) is initiated;

(B) identify any person who qualifies under paragraph (3) for inclusion in such survey; and

(C) initiate a survey of the persons identified under subparagraphs (A) and (B) who have not been exempted from assessment payments pursuant to section 8(c), to determine whether the Council shall continue.

(2) The survey shall be based upon the relative value of the fish imported by importers, purchased by receivers, and sold by persons qualified under paragraph (3), during the twelve-month period ending thirty days prior to the date on which such survey is initiated.

(3) Any person who is in the business of catching fish for purposes of sale shall be included in the survey if, no later than thirty days prior to the date on which such survey is to be initiated, that person—

(A) registers with the Administrator; and

(B) submits to the Administrator business records and other evidence which the Administrator determines to be sufficient proof of fish sales of $100,000 or more during the twelve-month period ending thirty days prior to the date on which such survey is to be initiated.

The Administrator's determination of the value of such fish for purposes of paragraph (2) shall be made solely on the basis of business records and other evidence submitted voluntarily by such person.

(b) The Council shall be terminated within ninety days after the date of the survey conducted pursuant to subsection (a)(1), if the continuation of the Council is disapproved by—

(1) importers whose relative value of fish imported;

(2) persons qualified under subsection (a)(3) whose relative value of fish sold; and

(3) receivers whose relative value of fish purchased.

collectively, equals or exceeds 35 percent of the total value of fish imported, sold, and purchased, by all persons included in such survey, during the period ending thirty days prior to the date on which such survey is initiated.

(c) If the Council is not terminated pursuant to subsection (b), the Council shall continue until the total unrefunded contributions into the Fund for the previous twelve-month period are less than $1,000,000, or until a survey pursuant to subsection (d) determines that the Council shall be terminated.

(d) Any time after October 1, 1989, a survey on the continuation of the Council shall be undertaken by the Administrator within ninety days after its receipt of a petition for such a survey, signed by persons whose annual assessment payments are collectively at least 10 percent of the total annual assessments ordered, except that such a survey shall not be conducted earlier than two years after the completion of a previous survey under subsection (c) or this subsection. If a survey under this subsection determines that the continuation of the Council is disapproved by persons whose annual assessment payments are collectively at least 35 percent of the total annual assessments paid, the Council shall be terminated within ninety days after the date of such survey.

(e) If the Council is terminated, assessment moneys remaining in the Fund on the date of termination shall be transferred to their original sources, in proportion to assessment payments made.

ENFORCEMENT

SEC. 12. (a)(1) The district courts of the United States shall have jusrisdiction specifically to enforce, and to prevent and restrain any person from violating, any order or regulation made or issued pursuant to this Act.

(2)(A) Except as provided in subparagraph (B), any civil action authorized to be brought under this subsection shall be refered to the Attorney General for appropriate action.

(B) If the Administrator believes that the administration and enforcement of the provisions of this Act would be adequately served by taking administrative action pursuant to subsection (c) or providing written notice or warning to any person committing a violation of this Act, the Administrator is not required to refer such violation to the Attorney General.

(C)(1)(A) Any person who violates any provisions of any order or regulation issued by the Administrator pursuant to this Act, or who fails or refuses to pay, collect, or remit any assessment required under this Act, may be assessed a civil penalty by the Administrator of not less than $500 or more than $5,000 for each such violation. Each violation shall be a separate offense.

(B) In addition to or in lieu of such civil penalty, the Administrator may issue an order requiring such person to cease and desist from continuing such violation.

(C) No penalty shall be assessed or cease and desist order issued under this paragraph unless such person is given notice and opportunity for a hearing before the Administrator with respect to such violation.

(D) Any order of the Administrator under this paragraph assessing a penalty or imposing a cease and desist order shall be final and conclusive, unless the affected person files an appeal from the Administrator's order with the appropriate United States court of appeals.

(2)(A) Any person against whom a violation is found and a civil penalty assessed or cease and desist order issued under paragraph (1) may obtain review of such action in the United States court of appeals for the circuit in which such person resides or has his place of business or in the United States Court of Appeals for the District of Columbia Circuit by filing a notice of appeal in such court within thirty days after the date of such order and by simultaneously sending a copy of such notice by certified mail to the Administrator.

(B) The Administrator shall promptly file in such court a certified copy of the record upon which such violation was found.

(C) The findings of the Administrator shall be set aside only if found to be unsupported by substantial evidence or if not in accordance with law.

(3) Any person who fails to obey a cease and desist order after it has become final shall be subject to a civil penalty assessed by the Administrator of not more than $500 for each offense. Each day during which such failure continues shall be a separate offense.

(4)(A) In any person fails to pay an assessment of a civil penalty after it has become final, the Administrator shall refer the matter to the Attorney General.

(B) The Attorney General shall recover the amount assessed in a district court of the United States.

(C) In such action, the validity and appropriateness of the final order imposing a civil penalty shall not be subject to review.

INVESTIGATIONS

SEC. 13. (a) The Administrator may make such investigations as the Administrator determines necessary to—

(1) carry out the Administrator's responsibilities under this Act; and

(2) determine whether any person has engaged or is about to engage in any acts or practices which constitute a violation of this Act.

(b) For the purpose of such investigation, the Administrator may administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, and documents which are relevant to the inquiry.

(c) Such attendance of witnesses and the production of any such records may be required from any place in the United States.

(d) In case of contumacy or refusal to obey a subpoena by any reason, the Administrator may invoke the aid of any court of the United States within the jurisdiction of which such investigation or proceeding is carried on, or where such person resides or carries on business, to require the attendance and testimony of witnesses and the production of books, papers, and documents. Such court may issue an order requiring such person to appear before the Administrator to produce records or to give testimony relating to the matter under investigation.

AUTHORIZATION

SEC. 14. There are authorized to be appropriated such sums as are necessary for the Administrator to carry out this Act.

COMPLIANCE

SEC. 15. Section 204(b)(7) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1824(b)(7)) is amended—

(1) by redesignating subparagraph (F) as subparagraph (G); and

(2) by inserting immediately after subparagraph (E) the following:

"(F) In any case in which the Secretary, in consultation with the Secretary of State and the Secretary of the department in which the Coast Guard is operating, determines that the vessels of a foreign nation have exhibited a consistent pattern of serious violations of United States fishery laws, the requirement that—

"(i) any vessel of such foreign nation which has been cited for a serious violation, and is seeking a permit to harvest fish in the fishery conservation zone, be boarded and inspected by an authorized United States fishery enforcement officer prior to commencing such fishing;

"(ii) each such vessel have on board a United States observer while engaging in fishing within the fishery conservation zone; and

"(iii) each such vessel be boarded and inspected by an authorized United States fishery enforcement officer upon completion of fishing in the fishery conservation zone.

The requirements specified in clauses (i), (ii) and (iii) of this subparagraph may be rescinded at such time as the Secretary, in consultation with the Secretary of State and the Secretary of the department in which the Coast Guard is operating, determines to be appropriate, taking into account the compliance of such foreign vessels with United States fishery laws.".

AMENDMENT TO THE NORTH PACIFIC FISHERIES ACT OF 1954

SEC. 16. (a)(1) In the administration of the North Pacific Fisheries Act of 1954 (16 U.S.C. 1021 et seq.), the United States Section may—

(A) in consultation with the National Marine Fisheries Service, initiate multinational symposia and provide other forums, including all nations, as determined by the United States Section in consultation with the National Marine Fisheries Service, that have a significant interest in North Pacific fishery matters, for the purpose of exchanging scientific information, concerning all fishery stocks of the North Pacific; and

(B) initiate, in consultation with the National Marine Fisheries Service, a review of multinational cooperative development plans for North Pacific fishery stocks.

(2) The United States Section may employ and determine the salary of a professional administrator having scientific expertise and training in fisheries to ensure that the activities described in paragraph (1) are initiated on a timely basis.

(b) There are authorized to be appropriated such sums as are necessary to fund the expanded activities of the United States Section provided for in this section.

INCREASE IN PUBLIC DEBT LIMIT

SYMMS AMENDMENT NO. 7091

Mr. SYMMS proposed an amendment to amendment No. 7072 proposed by Mr. TSONGAS to the joint resolution (H.J. Res. 654) increasing the statutory limit on the public debt; as follows:

In the amendment offered by the Senator from Massachusetts, strike on Page 5, beginning with line 2, all through the end of the amendment as amended and insert in lieu thereof:

(b)(1) Notwithstanding any other provision of law, the head of each Agency, or his/her designated subordinates, of the Federal Government shall take such actions as may be necessary to ensure that such agency is prepared to carry out promptly any provisions of law enacted pursuant to this section that require action to be taken by such agency. Actions taken by an agency pursuant to this paragraph shall include the development of contingency plans for carrying out the programs, projects, and activities of such agency in the event that the amounts available for obligation and expenditure by such agency during fiscal year 1986 are reduced pursuant to this section.

(2) For purposes of this subsection, the term "agency" has the meaning given to such term in section 101 of title 31, United States Code.

SEC. . REPEAL CHANGES TO SECTION 483 BY TAX REFORM ACT OF 1984.

(a) IN GENERAL.—Section 1274 of the Internal Revenue Code of 1954 (relating to determination of issue price in the case of certain debt instruments issued for property) is hereby repealed.

(b) CONFORMING AMENDMENT.—Subsection (b) of section 41 of the Tax Reform Act of 1984 (relating to amendment of section 483) is hereby repealed and the Internal Revenue Code of 1954 shall be applied and administered as if such subsection (b) (and the amendment made by such subsection) had not been enacted.

(c) Paragraph (4) of section 1273(b) of such Code is amended to read as follows:

"(4) OTHER CASES.—Except in any case to which paragraph (1), (2), or (3) of this subsection applies, the issue price of a debt instrument which is issued for property shall be the stated redemption price at maturity.".

(d) EFFECTIVE DATE.—June 1, 1984.

SYMMS AMENDMENT NO. 7092

Mr. SYMMS proposed an amendment to amendment No. 7091 proposed by him to the joint resolution (H.J. Res. 654) supra; as follows:

At the appropriate place in the joint resolution, insert the following new section:

SEC. . REPEAL CHANGES TO SECTION 403 BY TAX REFORM ACT OF 1984.

(a) IN GENERAL.—Section 1274 of the Internal Revenue Code of 1954 (relating to determination of issue price in the case of certain debt instruments issued for property) is hereby repealed.

(b) CONFORMING AMENDMENT.—Subsection (b) of section 41 of the Tax Reform Act of 1984 (relating to amendment of section 483) is hereby repealed and the Internal Revenue Code of 1954 shall be applied and administered as if such subsection (b) (and the

amendment made by such subsection) had not been enacted.

(c) Paragraph (4) of section 1273(b) of such Code is amended to read as follows:

"(4) OTHER CASES.—Except in any case to which paragraph (1), (2), or (3) of this subsection applies, the issue price of a debt instrument which is issued for property shall be the stated redemption price at maturity.".

(c) EFFECTIVE DATE.—The Internal Revenue Code of 1954 shall take effect as if included in the amendments made by section 41 of the Tax Reform Act of 1984.

GENOCIDE CONVENTION

SYMMS AMENDMENT NO. 7093

Mr. SYMMS proposed an amendment to Executive 81-1, International Treaty on the Prevention and Punishment of the Crime of Genocide; as follows:

Add at the end of Article I of the Treaty the following new section:

"Nuclear war poses the greatest threat of genocide yet imagined in the world, and therefore the President will submit forthwith and on an annual basis thereafter to the Congress of the United States and to appropriate Representatives of the other parties signatory to this Treaty, a detailed and comprehensive report of all violations of nuclear arms control agreements to which the United States is a Party; provided further that for purposes of the first report required hereunder, the President shall submit before the 98th Congress adjourns *sine die* the report prepared by the General Advisory Committee on Arms Control and Disarmament entitled: 'A Quarter Century of Soviet compliance practices under arms control commitments: 1958-1983 (u).'."

EXPORT ADMINISTRATION ACT AMENDMENTS

GARN AMENDMENT NO. 7094

Mr. BAKER (for Mr. GARN) proposed an amendment to the bill (H.R. 4230) to extend the authorities under the Export Administration Act of 1979; as follows:

Strike out all after the enacting clause and insert in lieu thereof the following:

SHORT TITLE

SECITON 1. Titles I and II of this Act may be cited as the "Export Administration Amendments Act of 1984".

TITLE I—AMENDMENTS TO EXPORT ADMINISTRATION ACT OF 1979

REFERENCE TO THE ACT

SEC. 101. For purposes of this title, the Export Administration Act of 1979 shall be referred to as "the Act".

FINDINGS

SEC. 102. (a) Section 2 of the Act (50 U.S.C. App. 2401) is amended in paragraph (3) by striking out "which would strengthen the Nation's economy" and inserting in lieu thereof "consistent with the economic, security, and foreign policy objectives of the United States".

(b) Section 2(6) of the Act is amended to read as follows:

"(6) Uncertainty of export control policy can inhibit the efforts of United States business and work to the detriment of the overall attempt to improve the trade balance of the United States.".

(c) Section 2 of the Act is amended by adding at the end thereof the following:

"(10) It is important that the administration of export controls imposed for foreign policy purposes give special emphasis to the need to control exports of goods and substances hazardous to the public health and the environment which are banned or severely restricted for use in the United States, and which, if exported, could affect the international reputation of the United States as a responsible trading partner.

"(11) The acquisition of national security sensitive goods and technology by the Soviet Union and other countries the actions or policies of which are adverse to the national security interests of the United States, has led to the significant enhancement of Soviet bloc military-industrial capabilities, thereby creating a greater threat to the security of the United States, its allies, and other friendly nations, and increasing the defense budget of the United States.

"(12) Availability to proscribed destinations of goods and technology from foreign sources is a fundamental concern of the United States and should be eliminated through negotiations and other appropriate means whenever possible.

"(13) Excessive dependence of the United States, its allies, or countries sharing common strategic objectives with the United States, on energy and other critical resources from potential adversaries can be harmful to the mutual and individual security of all those countries.".

DECLARATION OF POLICY

SEC. 103. Section 3 of the Act (50 U.S.C. App. 2402) is amended—

(1) in paragraph (3), by inserting before the period at the end thereof "or common strategic objectives";

(2) in paragraph (7)—

(A) by striking out "every reasonable effort" in the second sentence and inserting in lieu thereof "reasonable and prompt efforts"; and

(B) by striking out "resorting to the imposition of controls on exports from the United States" in the second sentence and inserting in lieu thereof "imposing export controls";

(3) in paragraph (8)—

(A) by striking out "every reasonable effort" in the second sentence and inserting in lieu thereof "reasonable and prompt efforts"; and

(B) by striking out "resorting to the imposition of export controls" in the second sentence and inserting in lieu thereof "imposing export controls";

(4) in paragraph (9)—

(A) by inserting "or common strategic objectives" after "commitments" each place it appears; and

(B) by inserting before the period at the end thereof the following: ", and to encourage other friendly countries to cooperate in restricting the sale of goods and technology that can harm the security of the United States"; and

(5) by adding at the end thereof the following:

"(12) It is the policy of the United States to sustain vigorous scientific enterprise. To do so involves sustaining the ability of scientists and other scholars freely to communicate research findings, in accordance with applicable provisions of law, by means of publication, teaching, conferences, and other forms of scholarly exchange.

"(13) It is the policy of the United States to control the export of goods and substances banned or severely restricted for use in the United States in order to foster public health and safety and to prevent injury to the foreign policy of the United States as well as to the credibility of the United States as a responsible trading partner.

"(14) It is the policy of the United States to cooperate with countries which are allies of the United States and countries which share common strategic objectives with the United States in minimizing dependence on imports of energy and other critical resources from potential adversaries and in developing alternative supplies of such resources in order to minimize strategic threats posed by excessive hard currency earnings derived from such resource exports by countries with policies adverse to the security interests of the United States.

"(15) It is the policy of the United States, particularly in light of the Soviet massacre of innocent men, women, and children aboard Korean Air Lines flight 7, to continue to object to exceptions to the International Control List for the Union of Soviet Socialists Republics, subject to periodic review by the President.".

GENERAL PROVISIONS

SEC. 104. (a) Section 4(a)(2) of the Act (50 U.S.C. App. 2403(a)(2)) is amended to read as follows:

"(2) Validated licenses authorizing multiple exports, issued pursuant to an application by the exporter, in lieu of an individual validated license for each such export, including, but not limited to, the following:

"(A) A distribution license, authorizing exports of goods to approved distributors or users of the goods in countries other than proscribed countries. The Secretary shall grant the distribution license primarily on the basis of the reliability of the applicant and foreign consignees with respect to the prevention of diversion of goods to proscribed destinations. The Secretary shall have the responsibility of determining, with the assistance of all appropriate agencies, the reliability of applicants and their immediate consignees. The Secretary's determination shall be based on appropriate investigations of each applicant and periodic reviews of licensees and their compliance with the terms of licenses issued under this Act. Factors such as the applicant's products or volume of business, or the consignees' geographic location, sales distribution area, or degree of foreign ownership, which may be relevant with respect to individual cases, shall not be determinative in creating categories or general criteria for the denial of applications or withdrawal of a distribution license.

"(B) A comprehensive operations license, authorizing exports and reexports of technology and related goods, including items from the list of militarily critical technologies developed pursuant to section 5(d) of this Act which are included on the control list in accordance with that section, from a domestic concern to and among its foreign subsidiaries, affiliates, joint venturers, and licensees that have long-term, contractually defined relations with the exporter, are located in countries other than proscribed destinations, and are approved by the Secretary. The Secretary shall grant the license to manufacturing, laboratory, or related operations on the basis of approval of the ex-

porter's systems of control, including internal proprietary controls, applicable to the technology and related goods to be exported rather than approval of individual export transactions. [The Commissioner of Customs, with the assistance of all appropriate agencies] shall periodically, but not less frequently than annually, perform audits of licensing procedures under this subparagraph in order to assure the integrity and effectiveness of those procedures.

"(C) A project license, authorizing exports of goods or technology for a specified activity.

"(D) A service supply license, authorizing exports of spare or replacement parts for goods previously exported.".

(b) Section 4 of the Act (50 U.S.C. App. 2403) is amended—

(1) in subsection (b)—

(A) by striking out "Commodity" and "commodity"; and

(B) by striking out "consisting of any goods or technology subject to export controls under this Act" and inserting in lieu thereof "stating license requirements (other than for general licenses) for exports of goods and technology under this Act"; and

(2) in subsection (c)—

(A) by striking out "significant" and inserting in lieu thereof "sufficient";

(B) by inserting after "those produced in the United States" the following: "so as to render the controls ineffective in achieving their purposes"; and

(C) by adding at the end thereof the following: "In complying with the provisions of this subsection, the President shall give strong emphasis to bilateral or multilateral negotiations to eliminate foreign availability. The Secretary and the Secretary of Defense shall cooperate in gathering information relating to foreign availability, including the establishment and maintenance of a jointly operated computer system.".

(c) Section 4(f) of the Act is amended to read as follows:

"(f) NOTIFICATION OF THE PUBLIC; CONSULTATION WITH BUSINESS.—The Secretary shall keep the public fully apprised of changes in export control policy and procedures instituted in conformity with this Act with a view to encourage trade. The Secretary shall meet regularly with representatives of a broad spectrum of enterprises, labor organizations, and citizens interested in or affected by export controls, in order to obtain their views on United States export policy and the foreign availability of goods and technology.".

NATIONAL SECURITY CONTROLS

SEC. 105. (a)(1) Section 5(a)(1) of the Act (50 U.S.C. App. 2404(a)(1)) is amended by inserting after the first sentence the following new sentence: "The authority contained in this subsection includes the authority to prohibit or curtail the transfer of goods or technology within the United States to embassies and affiliates of prescribed countries.".

(2) Section 5(a)(2) of the Act is amended—

(A) by striking out "(A)"; and

(B) by striking out subparagraph (B).

(3) Section 5(a)(3) of the Act is amended by striking out the last sentence.

(b)(1) Section 5(c) of the Act is amended—

(A) in paragraph (1) by striking out "commodity"; and

(B) by amending paragraph (3) to read as follows:

"(3) The Secretary shall review the list established pursuant to this subsection at least once each year in order to carry out the policy set forth in section 3(2)(A) of this Act and the provisions of this section, and shall promptly make such revisions of the list as may be necessary after each such review. Before beginning each annual review, the Secretary shall publish notice of that annual review in the Federal Register, provide an opportunity during such review for comment and the submission of data, with or without oral presentation, by interested Government agencies and other affected or potentially affected parties, and publish in the Federal Register any revisions in the list, with an explanation of the reasons for the revisions. The Secretary shall further assess, as part of such review, the availability from sources outside the United States of goods and technology comparable to those subject to export controls imposed under this section.".

(2) The amendment made by paragraph (1)(B) of this subsection shall take effect on October 1, 1985.

(d) Section 5(e) of the Act is amended—

(10 in paragraph (1) by striking out "a qualified general license in lieu of a validated license" and inserting in lieu thereof "the multiple validated export licenses described in section 4(a)(2) of this Act in lieu of individual validated licenses"; and

(2) by striking out paragraphs (3) and (4) and inserting in lieu thereof the following:

"(3) The Secretary, subject to the provisions of subsection (1) of this section, shall not require an individual validated export license for replacement parts which are exported to replace on a one-for-one basis parts that were in a good that has been lawfully exported from the United States.

"(4) The Secretary shall periodically review the procedures with respect to the multiple validated export licenses, taking appropriate action to increase their utilization by reducing qualification requirements or lowering minimum thresholds, to combine procedures which overlap, and to eliminate those procedures which appear to be of marginal utility.

"(5) The export of goods subject to export controls under this section shall be eligible, at the discretion of the Secretary, for a distribution license and other licenses authorizing multiple exports of goods, in accordance with section 4(a)(2) of this Act. The export of technology and related goods subject to export controls under this section shall be eligible for a comprehensive operations license in accordance with section 4(a)(2)(B) of this Act.".

(d) Section 5(g) of the Act is amended to read as follows:

"(g) INDEXING.—In order to ensure that requirements for validated licenses and multiple export licenses are periodically removed as goods or technology subject to such requirements become obsolete with respect to the national security of the United States, regulations issued by the Secretary may, where appropriate, provide for annual increases in the performance levels of goods or technology subject to any such licensing requirement. The regulations issued by the Secretary shall establish as one criterion for the removal of goods or technology from such license requirements the anticipated needs of the military of proscribed countries. Any such goods or technology which no longer meets the performance levels established by the regulations shall be removed from the list established pursuant to subsection (c) of this section unless, under such exceptions and under such procedures as the Secretary shall prescribe, any other department or agency of the United States objects to such removal and the Secretary determines, on the basis of such objection, that the goods or technology shall not be removed from the list. The Secretary shall also consider, where appropriate, removing site visitation requirements for goods and technology which are removed from the list unless objections described in this subsection are raised.".

(e) Section 5(i) of the Act (50 U.S.C. App. 2404(i)) is amended—

(1) by striking out paragraph (3);

(2) in paragraph (4)—

(A) by striking out "(4)" and inserting in lieu thereof "(3)"; and

(B) by striking out "pursuant to paragraph (3)" and inserting in lieu thereof "by the members of the Committee"; and

(3) by adding at the end thereof the following:

"(4) Agreement to enhance full compliance by all parties with the export controls imposed by agreement of the Committee through the establishment of appropriate mechanisms.

"(5) Agreement to improve the International Control List and minimize the approval of exceptions to that list, strengthen enforcement and cooperation in enforcement efforts, provide sufficient funding for the Committee, and improve the structure and function of the Secretariat of the Committee by upgrading professional staff, translation services, data base maintenance, communications, and facilities.

"(6) Agreement to coordinate the systems of export control documents used by the participating governments in order to verify effectively the movement of goods or technology subject to controls by the Committee from the country of any such government to any other place.

"(7) Agreement to establish uniform, adequate criminal and civil penalties to deter more effectively diversions of items controlled for export by agreement of the Committee.

"(8) Agreement to increase on-site inspections by national enforcement authorities of the participting governments to ensure that end users who have imported items controlled for export by agreement of the Committee are using such items for the stated end uses, and that such items are, in fact, under the control of those and users.

"(9) Agreement to strengthen the Committee so that it functions effectively in controlling export trade in a manner that better protects the national security of each participant to the mutual benefit of all participants.".

(f) Section 5(j) of the Act is amended to read as follows:

"(j) COMMERCIAL AGREEMENTS WITH CERTAIN COUNTRIES.—(1) Any United States firm, enterprise, or other nongovernmental entity which enters into an agreement with any agency of the government of a proscribed country, that calls for the encouragement of technical cooperation and that is intended to result in the export from the United States to the other party of unpublished technical data of United States origin, shall report to the Secretary the agreement with such agency with sufficient detail.

"(2) The provisions of paragraph (1) shall not apply to colleges, universities, or other educational institutions.".

(h) Section 5(k) of the Act is amended—

(1) by inserting after "conducting negotiations with other countries" the following: ", including those countries not participating in the group known as the Coordinating Committee,"; and

(2) by adding at the end thereof the following: "In cases where such negotiations produce agreements on export restrictions comparable in practice to those maintained by the Coordinating Committee, the Secretary shall treat exports, whether by individual or multiple licenses, to countries party to such agreements in the same manner as exports to members of the Coordinating Committee are treated * * * the same manner as exports are treated under subsection (b)(2) of this section and section 10(o) of the Act.".

(h) Section 5(l) of the Act is amended to read as follows:

"(l) DIVERSION OF CONTROLLED GOODS OR TECHNOLOGY.—(1) Whenever there is reliable evidence, as determined by the Secretary, that goods or technology which were exported subject to national security controls under this section have been diverted to an unauthorized use or consignee in violation of the conditions of an export license, the Secretary for as long as the diversion continues—

"(A) shall deny all further exports, to or by the party or parties responsible for that diversion or who conspired in that diversion, of any goods or technology subject to national security controls under this section, regardless of whether such goods or technology are available from sources outside the United States; and

"(B) may take such additional actions under this Act with respect to the party or parties referred to in subparagraph (A) as the Secretary determines are appropriate in the circumstances to deter the further unauthorized use of the previously exported goods or technology.

"(2) As used in this subsection, the term 'unauthorized use' means the use of United States goods or technology in the design, production, or maintenance of any item on the United States Munitions List, or the military use of any item on the International Control List of the Coordinating Committee.".

(i) Section 5 of the Act is amended by adding at the end thereof the following new subsections:

"(m) GOODS CONTAINING MICROPROCESSORS.—Export controls may not be imposed under this section on a good solely on the basis that the good contains an embedded microprocessor, if such microprocessor cannot be used or altered to perform functions other than those it performs in the good in which it is embedded. An export control may be imposed under this section on a good containing an embedded microprocessor referred to in the preceding sentence only on the basis that the functions of the good itself are such that the good, if exported, would make a significant contribution to the military potential of any other country or combination of countries which would prove detrimental to the national security of the United States.

"(n) SECURITY MEASURES.—The Secretary, with the Commissioner of Customs, in consultation with the Director of the Federal Bureau of Investigation, shall provide advice and technical assistance to persons engaged in the manufacture or handling of goods or technology subject to export controls under this section to develop security systems to prevent violations or evasions of those export controls.

"(o) RECORDKEEPING.—The Secretary, the Secretary of Defense, and any other department or agency consulted in connection with a license application under this Act or a revision of a list of goods or technology subject to export controls under this Act, shall make and keep records of their respective advice, recommendations, or decisions in connection with any such license application or revision, including the factual and analytical basis of the advice, recommendations, or decisions.

"(p) NATIONAL SECURITY CONTROL OFFICE.—To assist in carrying out the policy and other authorities and responsibilities of the Secretary of Defense under this section, there is established in the Department of Defense a National Security Control Office under the direction of the Under Secretary of Defense for Policy. The Secretary of Defense may delegate to that office such of those authorities and responsibilities, together with such ancillary functions, as the Secretary of Defense considers appropriate.

"(q) EXCLUSION FOR AGRICULTURAL COMMODITIES.—This section does not authorize export controls on agricultural commodities, including fats and oils or animal hides and skins.".

FOREIGN AVAILABILITY

SEC. 106. (a) Section 5(f)(1) of the Act (50 U.S.C. App. 2404(f)(1)) is amended by inserting after "The Secretary, in consultation with" the following: "the Secretary of Defense and other".

(b) Section 5(f)(3) of the Act is amended to read as follows:

"(3) The Secretary shall make a foreign availability determination under paragraph (1) or (2) on the Secretary's own initiative or upon receipt of an allegation from an export license applicant that such availability exists. In making any such determination, the Secretary shall accept the representations of applicants made in writing and supported by reasonable evidence, unless such representations are contradicted by reliable evidence, including scientific or physical examination, expert opinion based upon adequate factual information, or intelligence information. In making determinations of foreign availability, the Secretary may consider such factors as cost, reliability, the availability and reliability of spare parts and the cost and quality thereof, maintenance programs, durability, quality of end products produced by the item proposed for export, and scale of production. For purposes of this paragraph, 'evidence' may include such items as foreign manufacturers' catalogues, brochures, or operation or maintenance manuals, articles from reputable trade publications, photographs, and depositions based upon eyewitness accounts.".

(c) Section 5(f)(4) of the Act is amended by striking out the first sentence and inserting in lieu thereof the following: "In any case in which export controls are maintained under this section notwithstanding foreign availability, on account of a determination by the President that the absence of the controls would prove detrimental to the national security of the United States, the President shall actively pursue negotiations with the governments of the appropriate foreign countries for the purpose of eliminating such availability. If, within 6 months after the President's determination, the foreign availability has not been eliminated, the Secretary may not, after the end of that 6-month period, require a validated license for the export of the goods or technology involved. The President may extend the 6-month period described in the preceding sentence for an additional period of 12 months if the President certifies to the Congress that the negotiations involved are progressing and that the absence of the export control involved would prove detrimental to the national security of the United States.".

(d)(1) Section 5(f)(5) of the Act is amended to read as follows:

"(5) The Secretary shall establish in the Department of Commerce an Office of Foreign Availability which, in the fiscal years 1984 and 1985, shall be under the direction of the Assistant Secretary of Commerce for Trade Administration, and, in the fiscal years 1986 and thereafter, shall be under the direction of the Under Secretary of Commerce for Export Administration. The Office shall be responsible for gathering and analyzing all the necessary information in order for the Secretary to make determinations for foreign availability under this Act. The Secretary shall make available to the Committee on Foreign Affairs of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate at the end of each 6-month period during a fiscal year information on the operations of the Office, and on improvements in the Government's ability to assess foreign availability, during that 6-month period, including information on the training of personnel, the use of computers, and the use of Foreign Commercial Service officers. Such information shall also include a description of representative determinations made under this Act during that 6-month period that foreign availability did or did not exist (as the case may be), together with an explanation of such determinations.".

(2) Section 5(f)(6) of the Act is amended by striking out "Office of Export Administration" and inserting in lieu thereof "Office of Foreign Availability".

(e) Section 5(f) of the Act is amended by adding at the end thereof the following new paragraph:

"(7) The Secretary shall issue regulations with respect to determinations of foreign availability under this Act not later than 6 months after the date of the enactment of the Export Administration Amendments Act of 1984.".

(f) Section 5(h)(1) of the Act is amended by inserting ", the intelligence community," after "Departments of Commerce, Defense, and State".

(g) Section 5(h)(2) of the Act is amended in the second sentence—

(1) by striking out "and" at the end of clause (C); and

(2) by striking out the period at the end of the sentence and inserting in lieu thereof the following: ", and (E) any other questions relating to actions designed to carry out the policy set forth in section 3(2)(A) of this Act.".

(h) Section 5(h)(6) of the Act is amended by striking out "and provides adequate documentation" and all that follows through the end of the paragraph and inserting in lieu thereof the following: "the technical advisory committee shall submit that certification to the Congress at the same time the certification is made to the Secretary, together with the documentation for the certification. The Secretary shall investigate the foreign availability so certified and, not later than 90 days after the certification is made, shall submit a report to the technical advisory committee and the Congress stating that (A) the Secretary has removed the requirement of a validated license for the export of the goods or technology, on account of the foreign availability, (B) the Secretary has recommended to the President that negotiations be conducted to eliminate the foreign availability, or (C) the

Secretary has determined on the basis of the investigation that the foreign availability does not exist. To the extent necessary, the report may be submitted on a classified basis. In any case in which the Secretary has recommended to the President that negotiations be conducted to eliminate the foreign availability, the President shall actively pursue such negotiations with the governments of the appropriate foreign countries. If, within 6 months after the Secretary submits such report to the Congress, the foreign availability has not been eliminated, the Secretary may not, after the end of that 6-month period, require a validated license for the export of the goods or technology involved. The President may extend the 6-month period described in the preceding sentence for an additional period of 12 months if the President certifies to the Congress that the negotiations involved are progressing and that the absence of the export control involved would prove detrimental to the national security of the United States.".

(i) Section 4(c) of the Act is amended—

(1) by striking out "significant" and inserting in lieu thereof "sufficient"; and

(2) by inserting after "those produced in the United States" the following: "so as to render the controls ineffective in achieving their purposes".

(j) Subsections (f)(1), (f)(2), and (h)(6) of section 5 of the Act are each amended by striking out "sufficient quality" and inserting in lieu thereof "comparable quality".

SEC. 107. (a) Section 5(b) of the Act is amended—

(1) by inserting "(1)" immediately before the first sentence; and

(2) by adding at the end thereof the following:

"(2) No authority or permission to export may be required under this section before goods or technology are exported in the case of exports to a country which maintains export controls on such goods or technology cooperatively with the United States pursuant to the agreement of the group known as the Coordinating Committee, if the goods or technology is at such a level of performance characteristics that the export of the goods or technology to controlled countries requires only notification of the participating governments of the Coordinating Committee.".

(b)(1) Section 10(c) of the Act is amended by striking out "In each case" and inserting in lieu thereof "Except as provided in subsection (b), in each case".

(2) Section 10(d) of the Act is amended—

(A) by striking out "In each case" and inserting in lieu thereof "Except in the case of exports described in subsection (o), in each case"; and

(B) by adding at the end thereof the following: "Notwithstanding the 10-day period set forth in subsection (b), in the case of exports described in subsection (o), in each case in which the Secretary determines that it is necessary to refer an application to any other department or agency for its information and recommendations, the Secretary shall, immediately upon receipt of the properly completed application, refer the application to such department or agency for its review, which review shall be concurrent with that of the Department of Commerce.".

(3) Section 10(e) of the Act is amended—

(A) in paragraph (1)—

(i) by striking out ", within 30 days after its receipt of the application,"; and

(ii) by inserting after the first sentence the following: "The information or recommendations shall be submitted within 30 days after the department or agency receives the application or, in the case of exports described in subsection (o), before the expiration of the time periods permitted by that subsection; and

(B) in paragraph (2)—

(i) by striking out "If the head" and inserting in lieu thereof "(A) Except in the case of exports described in subsection (o), if the head", and

(ii) by adding at the end thereof the following:

"(B) In the case of exports described in subsection (o), if the head of any such department or agency notifies the Secretary, before the expiration of the 15-day period provided in subsection (o)(1), that more time is required for review by such department or agency, the Secretary shall notify the applicant, pursuant to subsection (o)(1)(C), that additional time is required to consider the application, and such department or agency shall have additional time to consider the application within the limits permitted by subsection (o)(2). If such department or agency does not submit its recommendations within the time periods permitted under section (o), it shall be deemed by the Secretary to have no objection to the approval of such application.".

(4) Section 10(f) of the Act is amended—

(A) in paragraphs (1), (2), and (4) by adding at the end of each such paragraph the following: "The provisions of this paragraph shall not apply in the case of exports described in subsection (o).''; and

(B) in paragraph (3) by striking out "In the event" and inserting in lieu thereof "Except in the case of exports described in subsection (o), in the event".

(5) Section 10 of the Act, as amended by section 12(a) of this Act, is amended by adding at the end thereof the following new subsection:

"(o) EXPORTS TO MEMBERS OF COORDINATING COMMITTEE.—(1) Fifteen working days after the date of formal filing with the Secretary of an individual validated license application for the export of goods or technology to a country that maintains export controls on such goods or technology pursuant to the agreement of the governments participating in the group known as the Coordinating Committee, a license for the transaction specified in the application shall become valid and effective and the goods or technology are authorized for export pursuant to such license unless—

"(A) the application has been otherwise approved by the Secretary, in which case it shall be valid and effective according to the terms of the approval;

"(B) the application has been denied by the Secretary pursuant to this section and the applicant has been so informed; or

"(C) the Secretary requires additional time to consider the application and the applicant has been so informed.

"(2) In the event that the Secretary notifies an applicant pursuant to paragraph (1)(C) that more time is required to consider an individual validated license application, a license for the transaction specified in the application shall become valid and effective and the goods or technology are authorized for export pursuant to such license 30 working days after the date that such license application was formally filed with the Secretary unless—

"(A) the application has been otherwise approved by the Secretary, in which case it shall be valid and effective according to the terms of the approval, or

"(B) the application has been denied by the Secretary pursuant to this section and the applicant was so informed.

"(3) In reviewing an individual license application subject to this subsection, the Secretary shall evaluate the information set forth in the application and the reliability of the end-user.

"(4) Nothing in this subsection shall affect the scope or availability of licenses authorizing multiple exports set forth in section 4(a)(2) of this Act.

"(5) The provisions of this subsection shall take effect on February 1, 1985.".

MILITARILY CRITICAL TECHNOLOGIES

SEC. 106. (a) Section 5(d) of the Act (50 U.S.C. App. 2404(d)) is amended—

(1) in paragraph (2)—

(A) in subparagraph (B) by striking out "and" after "test equipment,";

(B) by adding "and" at the end of subparagraph (C);

(C) by inserting after subparagraph (C) the following:

"(D) keystone equipment which would reveal or give insight into the design and manufacture of a United States military system,"; and

(D) by inserting after "possessed by" the following: ", or available in fact from sources outside the United States to,"; and

(2) by striking out paragraphs (4) through (6) and inserting in lieu thereof the following:

"(4) The Secretary and the Secretary of Defense shall integrate items on the list of militarily critical technologies into the control list in accordance with the requirements of subsection (c) of this section. The integration of items on the list of militarily critical technologies into the control list shall proceed with all deliberate speed. Any disagreement between the Secretary and the Secretary of Defense regarding the integration of an item on the list of militarily critical technologies into the control list shall be resolved by the President. A good or technology shall be included on the control list only if the Secretary finds that proscribed countries do not possess that good or technology, or a functionally equivalent good or technology, and the good or technology or functionally equivalent good or technology is not available in fact to a proscribed country from sources outside the United States in sufficient quanity and of comparable quality so that the requirement of a validated license for the expert of such good or technology is or would be ineffective in achieving the purpose set forth in subsection (a) of this section, except in the case of a determination of the President with respect to goods or technology under subsection (f)(1) of this section. The Secretary and the Secretary of Defense shall jointly submit a report to the Congress, not later than October 1, 1985, on actions taken to carry out this paragraph. For the purposes of this paragraph, assessment of whether a good or technology is functionally equivalent shall include consideration of the factors described in subsection (f)(3) of this section.

"(5) The Secretary of Defense shall establish a procedure for reviewing the goods and technology on the list of militarily critical technologies at least annually for the purpose of removing from the list of militarily critical technologies any goods or technology that are no longer militarily critical. The Secretary of Defense may add to the list of militarily critical technologies any good or technology that the Secretary of Defense

determines is militarily critical, consistent with the provisions of paragraph (2) of this subsection. If the Secretary and the Secretary of Defense disagree as to whether any changes in the list of militarily critical technologies by the addition or removal of a good or technology should also be made in the control list, consistent with the provisions of the fourth sentence of paragraph (4) of this subsection, the President shall resolve the disagreement.

"(6) The establishment of adequate export controls for militarily critical technology and keystone equipment shall be accompanied by suitable reductions in the controls on the products of that technology and equipment.

"(7) The Secretary of Defense shall, not later than October 1, 1985, report to the Congress on efforts by the Department of Defense to assess the impact that the transfer of goods or technology on the list of militarily critical technologies to proscribed countries has had or will have on the military capabilities of those countries.".

FOREIGN POLICY CONTROLS

SEC. 109. (a) Section 6(a) of the Act is amended—

(1) in paragraph (1)—

(A) by striking out "or (8)" and inserting in lieu thereof "(8), or (13)"; and

(B) by inserting in the second sentence after "Secretary of State" the following: ", the Secretary of Defense, the Secretary of Agriculture, the Secretary of the Treasury, the United States Trade Representative,";

(2) by redesignating paragraphs (2) through (4) as paragraphs (3) through (5), respectively;

(3) by inserting after paragraph (1) the following new paragraph:

"(2) Any export control imposed under this section shall apply to any transaction or activity undertaken with the intent to evade that export control, even if that export control would not otherwise apply to that transaction or activity."; and

(4) in paragraph (3), as redesignated by paragraph (2) of this subsection, by striking out "(e)" and inserting in lieu thereof "(f)".

(b) Section 6(b) of the Act is amended to read as follows:

"(b) CRITERIA.—(1) Subject to paragraph (2) of this subsection, the President may impose, extend, or expand export controls under this section only if the President determines that—

"(A) such controls are likely to achieve the intended foreign policy purpose, in light of other factors, including the availability from other countries of the goods or technology proposed for such controls, and that foreign policy purpose cannot be achieved through negotiations or other alternative means;

"(B) the proposed controls are compatible with the foreign policy objectives of the United States and with overall United States policy toward the country to which exports are to be subject to the proposed controls;

"(C) the reaction of other countries to the imposition, extension, or expansion of such export controls by the United States is not likely to render the controls ineffective in achieving the intended foreign policy purpose or to be counterproductive to United States foreign policy interests;

"(D) the effect of the proposed controls on the export performance of the United States, the competitive position of the United States in the international economy, the international reputation of the United States as a supplier of goods and technology, or on the economic well-being of individual United States companies and their employees and communities does not exceed the benefit to United States foreign policy objectives; and

"(E) the United States has the ability to enforce the proposed controls effectively.

"(2) In determining whether to extend export controls in effect under this section on October 1, 1984, as required by subsection (a)(3) of this section, the President shall consider the criteria set forth in paragraph (1) of this subsection and shall consider the foreign policy consequences of modifying the export controls.".

(c) Section 6(c) of the Act is amended to read as follows:

"(c) CONSULTATION WITH INDUSTRY.—The Secretary in every possible instance shall consult with and seek advice from affected United States industries and appropriate advisory committees established under section 135 of the Trade Act of 1974 before imposing any control under this section. Such consultation and advice shall be with respect to the criteria set forth in subsection (b)(1) and such other matters as the Secretary considers appropriate.".

(d) Section 6 of the Act is further amended—

(1) by redesignating subsections (d) through (k) as subsections (e) through (l), respectively; and

(2) by inserting after subsection (c) the following new subsection:

"(d) CONSULTATION WITH OTHER COUNTRIES.—When, imposing export controls under this section, the President shall, at the earliest appropriate opportunity, consult with the countries with which the United States maintains export controls cooperatively, and with such other countries as the President considers appropriate, with respect to the criteria set forth in subsection (b)(1) and such other matters as the President considers appropriate.".

(e) Section 6(f) of the Act, as redesignated by subsection (d) of this section, is amended to read as follows:

"(f) CONSULTATION WITH THE CONGRESS.—(1) The President may impose or expand export controls under this section, or extend such controls as required by subsection (a)(3) of this section, only after consultation with the Congress, including the Committee on Foreign Affairs of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate.

"(2) The President may not impose, expand, or extend export controls under this section until the President has submitted to the Congress a report—

"(A) specifying the purpose of the controls;

"(B) specifying the determinations of the President with respect to each of the criteria set forth in subsection (b)(1), the bases for such determinations, and any possible adverse foreign policy consequences of the controls;

"(C) describing the nature, the subjects, and the results of, or the plans for, the consultation with industry pursuant to subsection (c) and with other countries pursuant to subsection (d);

"(D) specifying the nature and results of any alternative means attempted under subsection (e), or the reasons for imposing, expanding, or extending the controls without attempting any such alternative means; and

"(E) describing the availability from other countries of goods or technology comparable to the goods or technology subject to the proposed export controls, and describing the nature and results of the efforts made pursuant to subsection (h) to secure the cooperation of foreign governments in controlling the foreign availability of such comparable goods or technology.

Such report shall also indicate how such controls will further significantly the foreign policy of the United States or will further its declared international obligations.

"(3) To the extent necessary to further the effectiveness of the export controls, portions of a report required by paragraph (2) may be submitted to the Congress on a classified basis, and shall be subject to the provisions of section 120(c) of this Act. Each such report shall, at the same time it is submitted to the Congress, also be submitted to the General Accounting Office for the purpose of assessing the report's full compliance with the intent of this subsection.

"(4) In the case of export controls under this section which prohibit or curtail the export of any agricultural commodity, a report submitted pursuant to paragraph (2) shall be deemed to be the report required by section 7(c)(3) of this Act.

"(5) In addition to any written report required under this section, the Secretary, not less frequently than annually, shall present in oral testimony before the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Foreign Affairs of the House of Representatives a report on policies and actions taken by the Government to carry out the provisions of this section.".

(f) Section 6(g) of the Act, as redesignated by subsection (d) of this section, is amended—

(1) by inserting after the first sentence the following: "This section also does not authorize export controls on donations of goods (including, but not limited to, food, educational materials, seeds and hand tools, medicines and medical supplies, water resources equipment, clothing and shelter materials, and basic household supplies) that are intended to meet basic human needs."; and

(2) by striking out the last sentence and inserting in lieu thereof the following: "This subsection shall not apply to any export control on medicine, medical supplies, or food, except for donations, which is in effect on the date of the enactment of the Export Administration Amendments Act of 1984. Notwithstanding the preceding provisions of this subsection, the President may impose export controls under this section on medicine, medical supplies, food, and donations of goods in order to carry out the policy set forth in paragraph (13) of section 3 of this Act.".

(g)(1) Section 6(h) of the Act, as redesignated by subsection (d) of this section, is amended—

(A) by inserting "(1)" immediately before the first sentence; and

(B) by adding at the end thereof the following:

"(2) Before extending any export control pursuant to subsection (a)(3) of this section, the President shall evaluate the results of his actions under paragraph (1) of this subsection and shall include the results of that evaluation in his report to the Congress pursuant to subsection (f) of this section.

"(3) If, within 6 months after the date on which export controls under this section are imposed or expanded, or within 6 months after the date of the enactment of the Export Administration Amendments Act of 1984, whichever occurs later, the President's

efforts under paragraph (1) are not successful in securing the cooperation of foreign governments described in paragraph (1) with respect to those export controls, the Secretary shall thereafter take into account the foreign availability of the goods or technology subject to the export controls. If the Secretary affirmatively determines that a good or technology subject to the export controls is available in sufficient quantity and comparable quality from sources outside the United States to countries subject to the export controls so that denial of an export license would be ineffective in achieving the purposes of the controls, then the Secretary shall, during the period of such foreign availability, approve any license application which is required for the export of the good or technology and which meets all requirements for such a license. The Secretary shall remove the good or technology from the list established pursuant to subsection (1) of this section if the Secretary determines that such action is appropriate.

"(4) In making a determination of foreign availability under paragraph (3) of this subsection, the Secretary shall follow the procedures set forth in section 5(f)(3) of this Act.".

(2) The amendments made by paragraph (1) of this subsection shall not apply to export controls imposed under subsection (i), (j), or (k) of section 6 of the Act (as redesignated by subsection (d) of this section) before the date of the enactment of this Act.

(h) Section 6(i) of the Act, as redesignated by subsection (d) of this section, is amended by striking out "(f), and (g)" and inserting in lieu thereof "(e), (g), and (h)".

(i)(1) Section 6(j) of the Act, as redesignated by subsection (d) of this section, is amended to read as follows:

"(j) COUNTRIES SUPPORTING INTERNATIONAL TERRORISM.—(1) The Secretary and the Secretary of State shall notify the Committee of Foreign Affairs of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs and the Committee on Foreign Relations of the Senate at least 30 days before any license is approved for the export of goods or technology valued at more than $7,000,000 to any country concerning which the Secretary of State has made the following determinations:

"(A) Such country has repeatedly provided support for acts of international terrorism.

"(B) Such exports would make a significant contribution to the military potential of such country, including its military logistics capability, or would enhance the ability of such country to support acts of international terrorism.

"(2) Any determination which has been made with respect to a country under paragraph (1) of this subsection may not be rescinded unless the President, at least 30 days before the proposed rescission would take effect, submits to the Congress a report justifying the rescission and certifying that—

"(A) the country concerned has not provided support for international terrorism, including support or sanctuary for any major terrorist or terrorist group in its territory, during the preceding 6-month period; and

"(B) the country concerned has made explicit assurances that it will not support acts of international terrorism in the future.".

(2) Any determination with respect to any country which was made before January 1, 1982, under section 6(i) of the Act, as in effect before the date of the enactment of this Act, and which was no longer in effect on the date of the enactment of this Act, shall be reinstated upon the expiration of 90 days after such date of enactment unless, within that 90-day period, the President submits a report under section 6(j)(2) of the Act, as amended by subsection (d) of this section and paragraph (1) of this subsection, containing the certification described in such section 6(j)(2) with respect to that country.

(j)(1) Section 6(k)(1) of the Act, as redesignated by subsection (d) of this section, is amended by adding at the end thereof the following new sentence: "Notwithstanding any other provision of this Act—

"(A) any determination of the Secretary of what goods or technology shall be included on the list established pursuant to subsection (1) of this section as a result of the export restrictions imposed by this subsection shall be made with the concurrence of the Secretary of State, and

"(B) any determination of the Secretary to approve or deny an export license application to export crime control or detection instruments or equipment shall be made in concurrence with the recommendations of the Secretary of State submitted to the Secretary with respect to the application pursuant to section 10(e) of this Act.

except that if the Secretary does not agree with the Secretary of State with respect to any determination under subparagraph (A) or (B), the matter shall be referred to the President for resolution.".

(2) The amendment made by paragraph (1) of this subsection shall apply to determinations of the Secretary of Commerce which are made on or after the date of the enactment of this Act.

(k) Section 6(1) of the Act, as redesignated by subsection (d) of this section, is amended—

(1) in the first sentence by striking out "commodity"; and

(2) by amending the second sentence to read as follows: "The Secretary shall clearly identify on the control list which goods or technology, and which countries or destinations, are subject to which types of controls under this section.".

(l) Section 6 of the Act is further amended by adding at the end thereof the following:

"(m) EFFECT ON EXISTING CONTRACTS AND LICENSES.—The President may not, under this section, prohibit or curtail the export or reexport of goods, technology, or other information—

"(1) in performance of a contract or agreement entered into before the date on which the President reports to the Congress, pursuant to subsection (f) of this section, his intention to impose controls on the export or reexport of such goods, technology, or other information; or

"(2) under a validated license or other authorization issued under this Act;

"(n) EXTENSION OF CERTAIN CONTROLS.—Those export controls imposed under this section with respect to South Africa which were in effect on February 28, 1982, and ceased to be effective on March 1, 1982, September 15, 1982, or January 20, 1983, shall become effective on the date of the enactment of this subsection, and shall remain in effect until 1 year after such date of enactment. At the end of that 1-year period, any of those controls made effective by this subsection may be extended by the President in accordance with subsection (b) and (f) of this section.

unless and until the President determines and certifies to Congress that (A) a breach of the peace poses a serious and direct threat to the strategic interest of the United States, (B) the prohibition or curtailment of such contracts or agreements will be instrumental in remedying the situation posing the direct threat, and (C) the controls shall continue only so long as such direct threat persists.

"(o) EXPANDED AUTHORITY TO IMPOSE CONTROLS.—(1) In any case in which the President determines that it is necessary to impose controls under this section—

"(A) with respect to goods, technology, other information, or persons other than that authorized by subsection (a)(1) of this section; or

"(B) without any limitation contained in subsection (c), (d), (e), (g), (h), or (m) of this section,

the President may impose those controls only if the President submits that determination to the Congress, together with a report pursuant to subsection (l) of this section with respect to the proposed controls, and only if a law is enacted authorizing the imposition of those controls. If a joint resolution authorizing the imposition of those controls is introduced in either House of Congress within 30 days of continuous session after the Congress receives the determination and report of the President, that joint resolution shall immediately be referred to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Foreign Affairs of the House of Representatives. If either such committee has not reported the joint resolution at the end of 30 days of continuous session after its referral, such committee shall be deemed to be discharged from further consideration of the resolution.

"(2) For purposes of this subsection, the term 'joint resolution' means a joint resolution the matter after the resolving clause of which is as follows: 'That the Congress, having received on ——— a determination of the President under section 6(n)(1) of the Export Administration Act of 1979 with respect to the export controls which are set forth in the report submitted to the Congress with that determination, authorizes the President to impose those export controls.', with the date of the receipt of the determination and report inserted in the blank.

"(3) For purposes of this subsection—

"(A) continuity of session is broken only by an adjournment of the Congress sine die, and

"(B) the days on which either House is not in session because of an adjournment of more than 3 days to a day certain are excluded in the computation of any period of time in which Congress is in continuous session.".

SEC. 110. (a) Section 7(c) of the Act (50 U.S.C. App. 2406(c)) is amended to read as follows:

"(c) PETITIONS FOR MONITORING OR CONTROLS.—(1)(A) Any entity, including a trade association, firm, or certified or recognized union or group of workers, that is representative of an industry or a substantial segment of an industry that processes metallic materials capable of being recycled may transmit a written petition to the Secretary requesting the monitoring of exports or the imposition of export controls, or both, with respect to such material, in order to carry out the policy set forth in section 3(2)(C) of this Act.

"(B) Each petition shall be in such form as the Secretary shall prescribe and shall contain information in support of the action requested. The petition shall include any information reasonably available to the petitioner indicating that each of the criteria set forth in paragraph (3)(A) of this subsection is satisfied.

"(2) Within 15 days after receipt of any petition described in paragraph (1), the Secretary shall publish a notice in the Federal Register. The notice shall (A) include the name of the material that is the subject of the petition, (B) include the Schedule B number of the material as set forth in the Statistical Classification of Domestic and Foreign Commodities Exported from the United States, (C) indicate whether the petitioner is requesting that controls or monitoring, or both, be imposed with respect to the exportation of such material, and (D) provide that interested persons shall have a period of 30 days beginning on the date of publication of such notice to submit to the Secretary written data, views or arguments, with or without opportunity for oral presentation, with respect to the matter involved. At the request of the petitioner or any other entity described in paragraph (1)(A) with respect to the material that is the subject of the petition, or at the request of any entity representative of producers or exporters of such material, the Secretary shall conduct public hearings with respect to the subject of the petition, in which case the 30-day period may be extended to 45 days.

"(3)(A) Within 45 days after the end of the 30- or 45-day period described in paragraph (2), as the case may be, the Secretary shall determine whether to impose monitoring or controls, or both, on the export of such material, in order to carry out the policy set forth in section 3(2)(C) of this Act. In making such determination, the Secretary shall determine whether—

"(i) there has been a significant increase, in relation to a specific period of time, in exports of such material in relation to domestic supply and demand;

"(ii) there has been a significant increase in the domestic price of such material or a domestic shortage of such material relative to demand;

"(iii) exports of such material are as important as any other cause of a domestic price increase or shortage relative to demand found pursuant to clause (ii);

"(iv) a domestic price increase or shortage relative to demand found pursuant to clause (ii) has significantly adversely affected or may significantly adversely affect the national economy or any sector thereof, including a domestic industry; and

"(v) monitoring or controls, or both, are necessary in order to carry out the policy set forth in section 3(2)(C) of this Act.

"(B) The Secretary shall publish in the Federal Register a detailed statement of the reasons for the Secretary's determination pursuant to subparagraph (A) of whether to impose monitoring or controls, or both, including the findings of fact in support of that determination.

"(4) Within 15 days after making a determination under paragraph (3) to impose monitoring or controls on the export of a material, the Secretary shall publish in the Federal Register proposed regulations with respect to such monitoring or controls. Within 30 days following the publication of such proposed regulations, and after considering any public comments thereon, the Secretary shall publish and implement final regulations with respect to such monitoring or controls.

"(5) For purposes of publishing notices in the Federal Register and scheduling public hearings pursuant to this subsection, the Secretary may consolidate petitions, and responses thereto, which involves the same or related materials.

"(6) If a petition with respect to a particular material or group of materials has been considered in accordance with all the procedures prescribed in this subsection, the Secretary may determine, in the absence of significantly changed circumstances, that any other petition with respect to the same material or group of materials which is filed within 6 months after the consideration of the prior petition has been completed does not merit complete consideration under this subsection.

"(7) The procedures and time limits set forth in this subsection with respect to a petition filed under this subsection shall take precedence over any review undertaken at the initiative of the Secretary with respect to the same subject as that of the petition.

"(8) The Secretary may impose monitoring or controls on a temporary basis after a petition is filed under paragraph (1)(A) but before the Secretary makes a determination under paragraph (3) only if (A) the failure to take such temporary action would result in irreparable harm to the entity filing the petition, or to the national economy or segment thereof, including a domestic industry, and (B) the Secretary considers such action to be necessary to carry out the policy set forth in section 3(2)(C) of this Act.

"(9) The authority under this subsection shall not be construed to affect the authority of the Secretary under any other provision of this Act, except that if the Secretary determines, on the Secretary's own initiative, to monitor, control, or both, the export of metallic materials capable of being recycled, pursuant to the authority of this section, the Secretary shall publish the reasons for such action in accordance with paragraphs (3) (A) and (B).

"(10) Nothing contained in this subsection shall be construed to preclude submission on a confidential basis to the Secretary of information relevant to a decision to impose or remove monitoring or controls under the authority of this Act, or to preclude consideration of such information by the Secretary in reaching decisions required under this subsection. The provisions of this paragraph shall not be construed to affect the applicability of section 552(b) of title 5, United States Code.".

SHORT SUPPLY CONTROLS

SEC. 111. (a) Section 7(d) of the Act (50 U.S.C. App. 2406(d)) is amended—

(1) in paragraph (1) by striking out "unless" and all that follows through "met" and inserting in lieu thereof "subject to paragraph (2) of this subsection";

(2) in paragraph (2)(A) by striking out "makes and publishes" and inserting in lieu thereof "so recommends to the Congress after making and publishing";

(3) in paragraph (2)(B)—

(A) by striking out "reports such findings" and inserting in lieu thereof "includes such findings in his recommendation"; and

(B) by striking out "thereafter" and all that follows through the end of the sentence and inserting in lieu thereof "after receiving that recommendation, agrees to a joint resolution which approves such exports on the basis of those findings, and which is thereafter enacted into law."; and

(4) by adding at the end thereof the following:

"(4) Notwithstanding the provisions of section 20 of this Act, the provisions of this subsection shall expire on September 30, 1989.".

(b) Section 7(e)(1) of the Act is amended in the first sentence by striking out "No" and inserting in lieu thereof the following: "In any case in which the President determines that it is necessary to impose export controls on refined petroleum products in order to carry out the policy set forth in section 3(2)(C) of this Act, the President shall notify the Congress of that determination. The President shall also notify the Congress if and when he determines that such export controls are no longer necessary. During any period in which a determination that such export controls are necessary is in effect, no".

(c)(1) Section 7(i)(1) of the Act is amended—

(A) in the last sentence by inserting "harvested from State or Federal lands" after "red cedar logs";

(B) by redesignating paragraphs (2), (3), and (4) as paragraphs (3), (4), and (5), respectively; and

(C) by inserting after paragraph (1) the following new paragraph:

"(2) To the maximum extent practicable, the Secretary shall utilize the multiple validated export licenses described in section 4(a)(2) of this Act in lieu of a validated license for exports under this subsection.".

(2) Section 7(i)(5)(A) of the Act, as redesignated by paragraph (1)(B) of this subsection, is amended to read as follows:

"(A) lumber of American Lumber Standards Grades of Number 3 dimension or better, or Pacific Lumber Inspection Bureau Export R-List Grades of Number 3 common or better;".

(d) Section 7(g)(3) of the Act is amended to read as follows:

"(3)(A) If the President imposes export controls on any agricultural commodity in order to carry out the policy set forth in paragraph (2)(B), (2)(C), (7), or (8) of section 3 of this Act, the President shall immediately transmit a report on such action to the Congress, setting forth the reasons for the controls in detail and specifying the period of time, which may not exceed 1 year, that the controls are proposed to be in effect. If the Congress, within 60 days after the date of its receipt of the report, adopts a joint resolution pursuant to paragraph (4) approving the imposition of the export controls, then such controls shall remain in effect for the period specified in the report, or until terminated by the President, whichever occurs first. If the Congress, within 60 days after the date of its receipt of such report, fails to adopt a joint resolution approving such controls, then such controls shall cease to be effective upon the expiration of such 60-day period.

"(B) The provisions of subparagraph (A) and paragraph (4) shall not apply to export controls—

"(i) which are extended under this Act if the controls, when imposed, were approved by the Congress under subparagraph (A) and paragraph (4); or

"(ii) which are imposed with respect to a country as part of the prohibition or curtailment of all exports to that country.

"(4)(A) For purposes of this paragraph, the term 'resolution' means only a joint resolution the matter after the resolving clause of which is as follows: 'That, pursuant to section 7(g)(3) of the Export Administration act of 1979, the President may impose export controls as specified in the report

submitted to the Congress on ——.', with the blank space being filled with the appropriate date.

"(B) On the day on which a report is submitted to the Senate under paragraph (3), a resolution with respect to the export controls specified in such report shall be introduced (by request) in the Senate by the majority leader of the Senate, for himself and the minority leader of the Senate, or by Members of the Senate designated by the majority leader and minority leader of the Senate. If the Senate is not in session on the day on which such a report is submitted, the resolution shall be introduced in the Senate, as provided in the preceding sentence, on the first day thereafter on which the Senate is in session. All resolutions introduced in the Senate shall be referred to the Committee on Banking, Housing, and Urban Affairs.

"(C) If a resolution with respect to export controls specified in a report to the Congress submitted under paragraph (3) is introduced in the House of Representatives or is received in the House of Representatives from the Senate, the resolution shall immediately be referred to the Committee on Foreign Affairs. If that committee has not reported the resolution at the end of 30 days after its referral, the committee shall be deemed to be discharged from further consideration of the resolution.

"(D) If the committee of the Senate to which a resolution has been referred has not reported it at the end of 30 days after its introduction, the committee shall be discharged from further consideration of the resolution or of any other resolution introduced with respect to the same matter.

"(E)(i) A motion in the Senate to proceed to the consideration of a resolution shall be privileged. An amendment to the motion shall not be in order, nor shall it be in order to move to reconsider the vote by which the motion is agreed to or disagreed to.

"(ii) Debate in the Senate on a resolution, and all debatable motions and appeals in connection therewith, shall be limited to not more than 20 hours, to be equally divided between, and controlled by the majority leader and the minority leader or their designees.

"(iii) Debate in the Senate on any debatable motion or appeal in connection with a resolution shall be limited to not more than 1 hour, to be equally divided between, and controlled by, the mover and the manager of the resolution, except that in the event the manager of the resolution is in favor of any such motion or appeal, the time in opposition to the motion or appeal shall be controlled by the minority leader or his designee. Such leaders, or either of them, may, from time under their control on the passage of a resolution, allot additional time to any Senator during the consideration of any debatable motion or appeal.

"(iv) A motion in the Senate to limit debate further on a resolution, debatable motion, or appeal is not debatable. No amendment to, or motion to recommit, a resolution is in order in the Senate.

"(F) In the case of a resolution described in subparagraph (A), if, before the passage by one House of a resolution of that House, that House receives a resolution with respect to the same matter from the other House, then the vote on final passage shall be on the resolution of the other House, except that, in the case of a resolution of the House of Representatives which is received in the Senate, the procedure in the Senate shall be the same as if no resolution had been received from the House of Representatives.

"(G) For purposes of calculating the periods of 60 days and 30 days set forth in paragraph (3) and this paragraph, there shall be excluded the days on which either House of Congress is not in session because of an adjournment of more than 3 days to a day certain or because of an adjournment of the Congress sine die.".

(e) Section 7 of the Act is further amended by striking out subsection (j) and inserting in lieu thereof the following:

"(j) EFFECT OF CONTROLS ON EXISTING CONTRACTS.—The export restrictions contained in subsection (i) of this section and any export controls imposed under this section shall not affect any contract to harvest unprocessed western red cedar from State lands which was entered into before October 1, 1979, and the performance of which would make the red cedar available for export. Any export controls imposed under this section on any agricultural commodity, including fats and oils and animal hides and skins, or on any forest product or fishery product, shall not affect any contract to export entered into before the date on which such controls are imposed. For purposes of this subsection, the term 'contract to export' includes, but is not limited to, an export sales agreement and an agreement to invest in an enterprise which involves the export of goods or technology.".

LICENSING PROCEDURES

SEC. 142. (a) Section 10 of the Act (50 U.S.C. App. 2409) is amended—

(1) by striking out "60" each place it appears and inserting in lieu thereof "40";

(2) by striking out "90" each place it appears and inserting in lieu thereof "60";

(3) by striking out "30" each place it appears and inserting in lieu thereof "20";

(b) Section 10(f)(2) of the Act is amended—

(1) by inserting "in writing" after "inform the applicant"; and

(2) by striking out ", and shall accord" and all that follows through the end of the paragraph and inserting in lieu thereof the following: ". Before a final determination with respect to the application is made, the applicant shall be entitled—

"(A) to respond in writing to such questions, considerations, or recommendations within 30 days after receipt of such information from the Secretary; and

"(B) upon the filing of a written request with the Secretary within 15 days after the receipt of such information, to respond in person to the department or agency raising such questions, considerations, or recommendations.".

(c) Section 10(f)(3) of the Act is amended by striking out the first sentence and inserting in lieu thereof the following: "In cases where the Secretary has determined that an application should be denied, the applicant shall be informed in writing, within 5 days after such determination is made, of—

"(A) the determination,

"(B) the statutory basis for the proposed denial,

"(C) the policies set forth in section 3 of this Act which would be furthered by the proposed denial,

"(D) what if any modifications in or restrictions on the goods or technology for which the license was sought would allow such export to be compatible with export controls imposed under this Act,

"(E) which officers and employees of the Department of Commerce who are familiar with the application will be made reasonably available to the applicant for considerations with regard to such modifications or restrictions, if appropriate,

"(F) to the extent consistent with the national security and foreign policy of the United States, the specific considerations which led to the determination to deny the application, and

"(G) the availability of appeal procedures.

The Secretary shall allow the applicant at least 30 days to respond to the Secretary's determination before the license application is denied.".

(d) Section 10 of the Act is amended—

(1) in the section heading by adding "; other inquiries" after "applications"; and

(2) by adding at the end thereof the following new subsections:

"(k) CHANGES IN REQUIREMENTS FOR APPLICATIONS.—Except as provided in subsection (b)(3) of this section, in any case in which, after a license application is submitted, the Secretary changes the requirements for such a license application, the Secretary may request appropriate additional information of the applicant, but the Secretary may not return the application to the applicant without action because it fails to meet the changed requirements.

"(l) OTHER INQUIRIES.—(1) In any case in which the Secretary receives a written request asking for the proper classification of a good or technology on the control list, the Secretary shall, within 10 working days after receipt of the request, inform the person making the request of the proper classification.

"(2) In any case in which the Secretary receives a written request for information about the applicability of export license requirements under this Act to a proposed export transaction or series of transactions, the Secretary shall, within 30 days after receipt of the request, reply with that information to the person making the request.

"(m) SMALL BUSINESS ASSISTANCE.—Not later than 120 days after the date of the enactment of this subsection, the Secretary shall develop and transmit to the Congress a plan to assist small businesses in the export licensing application process under this Act. The plan shall include, among other things, arrangements for counseling small businesses on filing applications and identifying goods or technology on the control list, proposals for seminars and conferences to educate small businesses on export controls and licensing procedures, and the preparation of informational brochures.

"(n) REPORTS ON LICENSE APPLICATIONS.—(1) Not later than 180 days after the date of the enactment of this subsection, and not later than the end of each 3-month period thereafter, the Secretary shall submit to the Committee on Foreign Affairs of the House of Representatives and to the Committee on Banking, Housing, and Urban Affairs of the Senate a report listing—

"(A) all applications on which action was completed during the preceding 3-month period and which required a period longer than the period permitted under subsection (c), (f)(1), or (h) of this section, as the case may be, before notification of a decision to approve or deny the application was sent to the applicant; and

"(B) in a separate section, all applications which have been in process for a period longer than the period permitted under subsection (c), (f)(1), or (h) of this section, as the case may be, and upon which final action has not been taken.

"(2) With regard to each application, each listing shall identify—

"(A) the application case number;

"(B) the value of the goods or technology to which the application relates;

"(C) the country of destination of the goods or technology;

"(D) the date on which the application was received by the Secretary;

"(E) the date on which the Secretary approved or denied the application;

"(F) the date on which the notification of approval or denial of the application was sent to the applicant; and

"(G) the total number of days which elapsed between receipt of the application, in its properly completed form, and the earlier of the last day of the 3-month period to which the report relates, or the date on which notification of approval or denial of the application was sent to the applicant.

"(3) With respect to an application which was referred to other departments or agencies, the listing shall also include—

"(A) the departments or agencies to which the application was referred;

"(B) the date or dates of such referral; and

"(C) the date or dates on which recommendations were received from those departments or agencies.

"(4) With respect to an application referred to any other department or agency which did not submit or has not submitted its recommendations on the application within the period permitted under subsection (e) of this section to submit such recommendations, the listing shall also include—

"(A) the office responsible for processing the application and the position of the officer responsible for the office; and

"(B) the period of time that elapsed before the recommendations were submitted or that has elapsed since referral of the application, as the case may be.

"(5) Each report shall also provide an introduction which contains—

"(A) a summary of the number of applications described in paragraph (1) (A) and (B) of this subsection, and the value of the goods or technology involved in the applications, grouped according to—

"(i) the number of days which elapsed before action on the applications was completed, or which has elapsed without action on the applications being completed, as follows: 61 to 75 days, 76 to 90 days, 91 to 105 days, 106 to 120 days, and more than 120 days; and

"(11) the number of days which elapsed before action on the applications was completed, or which has elapsed without action on the applications being completed, beyond the period permitted under subsection (c), (f)(1), or (h) of this section for the processing of applications, as follows: not more than 15 days, 16 to 30 days, 31 to 45 days, 46 to 60 days, and more than 60 days; and

"(B) a summary by country of destination of the number of applications described in paragraph (1) (A) and (B) of this subsection, and the value of the goods or technology involved in the applications, on which action was not completed within 60 days.".

VIOLATIONS

SEC. 113. (a) Section 11(a) of the Act (50 U.S.C. App. 2410(a)) is amended by inserting after "violates" the following: "or conspires to or attempts to violate".

(b) Section 11(b) of the Act is amended—

(1) in paragraph (1)—

(A) by striking out "exports anything contrary to" and inserting in lieu thereof "violates or conspires to or attempts to violate";

(B) by striking out "such exports" and inserting in lieu thereof "the exports involved"; and

(C) by inserting after "benefit of" the following: ", or that the destination or intended destination of the goods or technology involved is,";

(2) in paragraph (2) by striking out the last sentence; and

(3) by adding after paragraph (2) the following new paragraphs:

"(3) Any person who possesses any goods or technology—

"(A) with the intent to export such goods or technology in violation of an export control imposed under section 5 or 6 of this Act or any regulation, order, or license issued with respect to such control, or

"(B) knowing or having reason to believe that the goods or technology would be so exported,

shall, in the case of a violation of an export control imposed under section 5 (or any regulation, order, or license issued with respect to such control), be subject to the penalties set forth in paragraph (1) of this subsection and shall, in the case of a violation of an export control imposed under section 6 (or any regulation, order, or license issued with respect to such control), be subject to the penalties set forth in subsection (a).

"(4) Any person who takes any action with the intent to evade the provisions of this Act or any regulation, order, or license issued under this Act shall be subject to the penalties set forth in subsection (a), except that in the case of an evasion of an export control imposed under section 5 or 6 of this Act (or any regulation, order, or license issued with respect to such control), such person shall be subject to the penalties set forth in paragraph (1) of this subsection.

"(5) Nothing in this subsection or subsection (a) shall limit the power of the Secretary to define by regulations violations under this Act.".

(c) Section 11(c) of the Act is amended by adding at the end thereof the following new paragraph:

"(3) An exception to any order issued under this Act which revokes the authority of a United States person to export goods or technology may not be made unless the Committee on Foreign Affairs of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate are first consulted concerning the exception.

"(4) The President may provide by regulation standards for establishing levels of civil penalty as provided in this subsection based upon the seriousness of the violation, the culpability of the violator, and the violator's record of cooperation with the Government in disclosing the violation.".

(d) Section 11(e) of the Act is amended—

(1) by inserting after "subsection (c)" the following: "or any amounts realized from the forfeiture of any property interest or proceeds pursuant to subsection (g)"; and

(2) by inserting after "refund any such penalty" the following: "imposed pursuant to subsection (c)".

(e) Section 11 of the Act is further amended by redesignating subsection (g) as subsection (i) and by inserting after subsection (f) the following new subsections:

"(g) FORFEITURE OF PROPERTY INTEREST AND PROCEEDS.—(1) Any person who is convicted under subsection (a) or (b) of a violation of an export control imposed under section 5 of this Act (or any regulation, order, or license issued with respect to such control) shall, in addition to any other penalty, forfeit to the United States—

"(A) any of his interest in, security of, claim against, or property or contractual rights of any kind in the goods or tangible items that were the subject of the violation;

"(B) any of his interest in, security of, claim against, or property or contractual rights of any kind in tangible property that was used in the export or attempt to export that was the subject of the violation; and

"(C) any of his property constituting, or derived from, any proceeds obtained directly or indirectly as a result of the violation.

"(2) The procedures in any forfeiture under this subsection, and the duties and authority of the courts of the United States and the Attorney General with respect to any forfeiture action under this section or with respect to any property that may be subject to forfeiture under this section, shall be governed by the provisions of section 1963 of title 18, United States Code.

"(h) PRIOR CONVICTIONS.—No person convicted of a violation of section 793, 794, or 798 of title 18, United States Code, section 4(b) of the Internal Security Act of 1950 (50 U.S.C. 783(b)), or section 38 of the Arms Export Control Act (22 U.S.C. 2778) shall be eligible, at the discretion of the Secretary, to apply for or use any export license for a period for up to 10 years from the date of the conviction. Any outstanding export license in which such person has an interest may be revoked, at the discretion of the Secretary, at the time of the conviction.".

(f) Section 11(i) of the Act, as redesignated by subsection (e) of this section, is amended by striking out "or (f)" and inserting in lieu thereof "(f), (g), or (h)".

ADMINISTRATIVE PROCEDURE

SEC. 114. Section 13 of the Act (50 U.S.C. App. 2412) is amended by adding at the end thereof the following:

"(c) PROCEDURES RELATING TO CIVIL PENALTIES AND SANCTIONS.—(1) In the case in which a civil penalty or other civil sanction (other than a temporary denial order or a penalty or sanction for a violation of section 8) is sought under section 11 of this Act, the charged party is entitled to receive a formal complaint specifying the charges and, at his or her request, to contest the charges in a hearing before an administrative law judge. Before such hearing is held, the charged party may submit a response to the complaint, including briefs and other supporting materials. The charged party and the Government may present and cross-examine relevant witnesses. With the approval of the administrative law judge, the Government may present evidence in camera in the presence of the charged party or his or her representative. The charged party may argue orally his or her case in recorded proceedings before the administrative law judge, who shall then make his or her findings of fact and conclusions of law in a written decision, which shall be referred to the Secretary. The Secretary shall, in a written order, affirm, modify, or vacate the decision of the administrative law judge within 30 days after receiving the decision. The order of the Secretary shall be final and is not subject to judicial review.

"(2) The proceedings described in paragraph (1) shall be concluded within a period of 1 year after the complaint is submitted, unless the administrative law judge extends such period for good cause shown.

"(d) IMPOSITION OF TEMPORARY DENIAL ORDERS.—(1) In any case in which it is necessary, in the public interest, to prevent an imminent violation of this Act or any regulation issued under this Act, the Secretary may, without a hearing, issue an order temporarily denying United States export privileges (hereinafter in this subsection referred to as a 'temporary denial order') to a person. A temporary denial order may be effective no longer than 60 days unless renewed in writing by the Secretary for additional 60-day periods in order to prevent such an imminent violation, except that a temporary denial order may be renewed only after notice and an opportunity for a hearing is provided.

"(2) A temporary denial order shall define the imminent violation and state why the temporary denial order was granted without a hearing. The person or persons subject to the issuance or renewal of a temporary denial order may file an appeal of the temporary denial order with an administrative law judge who shall, within 10 working days after the appeal is filed, recommend that the temporary denial order be affirmed, modified, or vacated. Parties may submit briefs and other material to the judge. The recommendation of the administrative law judge shall be submitted to the Secretary who shall either accept, reject, or modify the recommendation by written order within 5 working days after receiving the recommendation. The written order of the Secretary under the preceding sentence shall be final and is not subject to judicial review. The temporary denial order shall be affirmed only if it is reasonable to believe that the order is required in the public interest to prevent an imminent violation of this Act or any regulation issued under this Act.

"(e) APPEALS FROM LICENSE DENIALS.—A determination of the Secretary, under section 10(f) of this Act, to deny a license may be appealed by the applicant to an administrative law judge who shall have the authority to conduct proceedings to determine only whether the item sought to be exported is in fact on the control list. Such proceedings shall be conducted within 90 days after the appeal is filed. Any determination by an administrative law judge under this subsection and all materials filed before such judge in the proceedings shall be reviewed by the Secretary, who shall either affirm or vacate the determination in a written decision within 30 days after receiving determination. The Secretary's written decision shall be final and is not subject to judicial review. Subject to the limitations provided in section 12(c) of this Act, the Secretary's decision shall be published in the Federal Register.

"(f) APPOINTMENT OF ADMINISTRATIVE LAW JUDGES.—Any person who, for at least 2 of the 10 years immediately preceding the date of the enactment of the Export Administration Amendments Act of 1984, has served as a hearing commissioner of the Department of Commerce, shall be considered as qualified for selection and appointment as an administrative law judge under section 3105 of title 5, United States Code.".

ANNUAL REPORT

Sec. 115. Section 14 of the Act (50 U.S.C. App. 2413) is amended by adding at the end thereof the following:

"(e) REPORT ON EXPORTS TO PROSCRIBED COUNTRIES.—The Secretary shall include in each annual report a detailed report which lists every license during the year approved under the provisions of this Act for exports to proscribed countries. Such report shall specify to whom such license was granted, the type of good or technology exported, and the country receiving such a good or technology. The information required by this subsection shall be subject to the provisions of section 1(c) of this Act.

"(f) REPORT ON DOMESTIC ECONOMIC IMPACT OF EXPORTS TO PROSCRIBED COUNTRIES.—The Secretary shall include in each annual report a detailed description of the extent of injury to United States industry and the extent of job displacement caused by United States exports of goods and technology to controlled countries. This report shall also include a full analysis of the consequences of exports of turnkey plants and manufacturing facilities to such countries which are used by such countries to produce goods for export to the United States or to compete with United States products in export markets.".

REVIEW BY THE SECRETARY OF DEFENSE AND THE SECRETARY OF STATE

Sec. 116. Section 15 of the Act (50 U.S.C. App. 2414) is amended by adding the following new sentence at the end thereof: "Any such regulations issued to carry out the provisions of section 5, or of section 4(a) for the purpose of administering the provisions of section 5, may be issued only after submission of the regulations for review to the Secretary of Defense, the Secretary of State, and such other departments and agencies as the Secretary considers appropriate. The preceding sentence does not require the concurrence or approval by any official, department, or agency to which such regulations are submitted.".

DEFINITIONS

Sec. 117. Section 16 of the Act (50 U.S.C. App. 2415) is amended—

(1) in paragraph (3), by inserting "natural or manmade substance," after "article,";

(2) by amending paragraph (4) to read as follows:

"(4) the term 'technology' means the information and know-how (whether in tangible form, such as models, prototypes, drawings, sketches, diagrams, blueprints, or manuals, or in intangible form, such as training or technical services) that can be used to design, produce, manufacture, utilize, or reconstruct goods, including computer software and technical data, but not the goods themselves;";

(3) by redesignating paragraph (5) as paragraph (8); and

(4) by inserting after paragraph (4) the following new paragraphs:

"(5) the term 'export' means—

"(A) an actual shipment, transfer, or transmission of goods or technology out of the United States;

"(B) a transfer of goods or technology in the United States to an embassy or affiliate of a controlled country; or

"(C) a transfer to any person of goods or technology either within the United States or outside of the United States with the knowledge or intent that the goods or technology will be shipped, transferred, or transmitted to an unauthorized recipient; and

"(6) the term 'United States' means the States of the United States, the District of Columbia, and any commonwealth, territory, dependency, or possession of the United States, and includes the Outer Continental Shelf, as defined in section 2(a) of the Outer Continental Shelf Lands Act (43 U.S.C. 1331(a));".

EFFECT ON OTHER ACTS

Sec. 118. (a) Section 17(a) of the Act (50 U.S.C. App. 2416(a)) is amended by striking out "Nothing" and inserting in lieu thereof "Except as otherwise provided in this Act, nothing".

(b) Section 17 of the Act is further amended by adding at the end thereof the following:

"(f) AGRICULTURAL ACT OF 1970.—Nothing in this Act shall affect the provisions of the last sentence of section 812 of the Agricultural Act of 1970 (7 U.S.C. 612c-3).".

AUTHORIZATION OF APPROPRIATIONS

Sec. 119. Section 18 of the Act (50 U.S.C. App. 2417) is amended to read as follows:

"AUTHORIZATION OF APPROPRIATIONS

"Sec. 18. (a) REQUIREMENT OF AUTHORIZING LEGISLATION.—(1) Notwithstanding any other provision of law, money appropriated to the Department of Commerce for expenses to carry out the purposes of this Act may be obligated or expended only if—

"(A) the appropriation thereof has been previously authorized by law enacted on or after the date of the enactment of the Export Administration Amendments Act of 1984; or

"(B) the amount of all such obligations and expenditures does not exceed an amount previously prescribed by law enacted on or after such date.

"(2) To the extent that legislation enacted after the making of an appropriation to carry out the purposes of this Act authorizes the obligation or expenditure thereof, the limitation contained in paragraph (1) shall have no effect.

"(3) The provisions of this subsection shall not be superseded except by a provision of law enacted after the date of the enactment of the Export Administration Amendments Act of 1984 which specifically repeals, modifies, or supersedes the provisions of this subsection.

"(b) AUTHORIZATION.—There are authorized to be appropriated to the Department of Commerce to carry out the purposes of this Act—

"(1) $24,600,000 for the fiscal year 1985, of which $8,712,000 shall be available only for enforcement, $1,851,000 shall be available only for foreign availability assessments under subsections (f) and (h)(6) of section 5 of this Act, and $14,037,000 shall be available for all other activities under this Act;

"(2) $28,000,000 for the fiscal year 1986, of which $10,000,000 shall be available only for enforcement, $2,000,000 shall be available for foreign availability assessments under subsections (f) and (h)(6) of section 5 of this Act, and $16,000,000 shall be available for all other activities under this Act; and

"(3) such additional amounts for each of the fiscal years 1985 and 1986 as may be necessary for increases in salary, pay, retirement, other employee benefits authorized by law, and other nondiscretionary costs.".

TERMINATION OF AUTHORITY

Sec. 120. Section 20 of the Act (50 U.S.C. App. 2419) is amended to read as follows:

"TERMINATION DATE

"Sec. 20. The authority granted by this Act terminates on September 30, 1989.".

HOURS OF OFFICE OF EXPORT ADMINISTRATION

Sec. 121. The Secretary of Commerce shall modify the office hours of the Office of Export Administration of the Department of Commerce on at least four days of each workweek so as to accommodate communications to the Office by exporters

throughout the continental United States during the normal business hours of those exporters.

CIVIL PENALTIES

SEC. 122. Section 11(c)(1) of the Act is amended by striking out "head" and all that follows through "thereof" and inserting in lieu thereof "Secretary (and officers and employees of the Department of Commerce specifically designated by the Secretary)".

ENFORCEMENT

SEC. 123. (a) Section 12(a) of the Act (50 U.S.C. App. 2411(a)) is amended—

(1) by inserting "(1)" immediately before the first sentence;

(2) by striking out "may make such investigations and" and inserting in lieu thereof "(A) may make such investigations within the United States, and the Commissioner of Customs (and Officers or employees of the United States Customs Service specifically designated by the Commissioner) may make such investigations outside of the United States, and (B)'";

(3) by striking out "the district court of the United States for any district in which such person is found or resides or transacts business, upon application, and" and inserting in lieu thereof "a district court of the United States,";

(4) by adding at the end thereof the following new sentence: "In addition to the authority conferred by this paragraph, the Secretary (and officers or employees of the Department of Commerce designated by the Secretary) may conduct, outside the United States, prelicense investigations and postshipment verifications of items licensed for export, and investigations in the enforcement of section 8 of this Act."; and

(5) by adding at the end thereof the following new paragraphs:

"(2)(A) Subject to subparagraph (B) of this paragraph, the United States Customs Service is authorized, in the enforcement of this Act, to search, detain (after search), and seize goods or technology at those ports of entry or exit from the United States where officers of the Customs Service are authorized by law to conduct such searches, detentions, and seizures, and at those places outside the United States where the Customs Service, pursuant to agreements of other arrangements with other countries, is authorized to perform enforcement activities.

"(B) An officer of the United States Customs Service may do the following in carrying out enforcement authority under this Act:

"(i) Stop, search, and examine a vehicle, vessel, aircraft, or person on which or whom such officer has reasonable cause to suspect there are any goods or technology that has been, is being, or is about to be exported from the United States in violation of this Act.

"(ii) Search any package or container in which such officer has reasonable cause to suspect there are any goods or technology that has been, is being, or is about to be exported from the United States in violation of this Act.

"(iii) Detain (after search) or seize and secure for trial any goods or technology on or about such vehicle, vessel, aircraft, or person, or in such package or container, if such officer has probable cause to believe the goods or technology has been, is being, or is about to be exported from the United States in violation of this Act.

"(iv) Make arrests without warrant for any violation of this Act committed in his or her presence or view or if the officer has probable cause to believe that the person to be arrested has committed or is committing such a violation.

The arrest authority conferred by clause (iv) of this subparagraph is in addition to any arrest authority under other laws.

"(3)(A) Subject to subparagraph (B) of this paragraph, the Secretary shall have the responsibility for the enforcement of section 8 of this Act and, in the enforcement of the other provisions of this Act, the Secretary is authorized to search, detain (after search), and seize goods or technology at those places within the United States other than those ports specified in paragraph (2)(A) of this subsection. The search, detention (after search), or seizure of goods or technology at those ports and places specified in paragraph (2)(A) may be conducted by officers or employees of the Department of Commerce designated by the Secretary with the concurrence of the Commissioner of Customs or a person designated by the Commissioner.

"(B) The Secretary may designate any officer or employee of the Department of Commerce to do the following in carrying out enforcement authority under this Act:

"(i) Execute any warrant or other process issued by a court or officer of competent jurisdiction with respect to the enforcement of the provisions of this Act.

"(ii) Make arrests without warrant for any violation of this Act committed in his or her presence or view, or if the officer or employee has probable cause to believe that the person to be arrested has committed or is committing such a violation.

"(iii) Carry firearms in carrying out any activity described in clause (i) or (ii).

"(4) All cases involving violations of this Act shall be referred to the Secretary for purposes of determining civil penalties and administrative sanctions under section 11(c) of this Act, or to the Attorney General for criminal action in accordance with this Act.

"(5) Notwithstanding any other provision of law, the United States Customs Service may expend in the enforcement of export controls under this Act not more than $12,000,000 in the fiscal year 1985 and not more than $14,000,000 in the fiscal year 1986.

"(6) Not later than 90 days after the date of the enactment of the Export Administration Amendments Act of 1984, the Secretary, with the concurrence of the Secretary of the Treasury, shall publish in the Federal Register procedures setting forth, in accordance with this subsection, the responsibilities of the Department of Commerce and the United States Customs Service in the enforcement of this Act. In addition, the Secretary, with the concurrence of the Secretary of the Treasury, may publish procedures for the sharing of information in accordance with subsection (c)(3) of this section, and procedures for the submission to the appropriate departments and agencies by private persons of information relating to the enforcement of this Act.".

(b) Section 12(c)(3) of the Act is amended—

(1) by striking out "Departments or agencies which obtain" and inserting in lieu thereof "Any department or agency which obtains";

(2) by inserting ", including information pertaining to any investigation," after "enforcement of this Act";

(3) by striking out "the department" and inserting in lieu thereof "each department", and

(4) by adding at the end thereof the following: "The Secretary and the Commissioner of Customs, upon request, shall exchange any licensing and enforcement information with each other which is necessary to facilitate enforcement efforts and effective license decisions. The Secretary, the Attorney General, and the Commissioner of Customs shall consult on a continuing basis with one another and with the heads of other departments and agencies which obtain information subject to this paragraph, in order to facilitate the exchange of such information.".

UNDER SECRETARY OF COMMERCE FOR EXPORT ADMINISTRATION; REGULATIONS

SEC. 124. (a) Section 15 of the Export Administration Act of 1979 is amended—

(1) in the section heading by inserting "Administrative and" before "Regulatory"; and

(2) by striking out "Sec. 15." and inserting in lieu thereof the following:

"SEC. 15. (a) UNDER SECRETARY OF COMMERCE.—The President shall appoint, by and with the advice and consent of the Senate, an Under Secretary of Commerce for Export Administration who shall carry out all functions of the Secretary under this Act which were delegated to the Office of the Assistant Secretary of Commerce for Trade Administration before the effective date of the Export Administration Amendments Act of 1984 and such other functions as the Secretary may prescribe. The Secretary shall designate three Assistant Secretaries of Commerce to assist the Under Secretary in carrying out such functions.

"(b) ISSUANCE OF REGULATIONS.—".

(b) Section 15 of the Act is further amended by adding after subsection (b), as designated by subsection (a) of this section, the following:

"(c) AMENDMENTS TO REGULATIONS.—If the Secretary proposes to amend regulations issued under this Act, the Secretary shall report to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Foreign Affairs of the House of Representatives on the intent and rationale of such amendments. Such report shall evaluate the cost and burden to United States exporters of the proposed amendments in relation to any enhancement of licensing objectives. The Secretary shall consult with the technical advisory committees authorized under section 5(h) of this Act in formulating or amending regulations issued under this Act. The procedures defined by regulations in existence as of January 1, 1984, with respect to sections 4 and 5 of this Act, shall remain in effect unless the Secretary determines, on the basis of substantial and reliable evidence, that specific change is necessary to enhance the prevention of diversions of exports which would prove detrimental to the national security of the United States or to reduce the licensing and paperwork burden on exporters and their distributors.".

(c) Section 5314 of title 5, United States Code, is amended by inserting "Under Secretary of Commerce for Export Administration," after "Under Secretary of Commerce for Economic Affairs,".

IMPORT SANCTIONS

SEC. 125. Chapter 4 of title II of the Trade Expansion Act of 1962 (19 U.S.C. 1861 et seq.) is amended by adding at the end thereof the following new section:

"SEC. 233. IMPORT SANCTIONS FOR EXPORT VIOLATIONS.

"(a) Any person who violates any national security export control imposed under section 5 of the Export Administration Act of 1979 (50 U.S.C. App. 2404), or any regulation, order, or licenses issued under that section, may be subject to such controls on the importing of goods or technology into the United States as the President may prescribe.

"(b) Except as provided in subsection (a) of this section, any person who violates any regulation issued under a multilateral agreement, formal or informal, to control exports for national security purposes, to which the United States is a party, may be subject to such controls on the importing of goods or technology into the United States as the President may prescribe, but only if—

"(1) negotiations with the government or governments, party to the multilateral agreement, with jurisdiction over the violation have been conducted and been successful in restoring compliance with the regulation involved;

"(2) the President, after the failure of such negotiations, has notified the government or governments described in paragraph (1) and the other parties to the multilateral agreement that the United States proposes to subject the person committing the violation to specific controls on the importing of goods or technology into the United States upon the expiration of 60 days from the date of such notification; and

"(iii) a majority of the parties to the multilateral agreement (other than the United States), before the end of that 60-day period, have expressed to the President concurrence in the proposed import controls or have abstained from stating a position with respect to the proposed controls.".

TECHNICAL AMENDMENT

SEC. 126. Section 38(e) of the Arms Export Control Act (22 U.S.C. 2778(e)) is amended by striking out "(f)" and inserting in lieu thereof "(g)".

AMENDMENT TO THE FOREIGN ASSISTANCE ACT OF 1961

SEC. 127. Section 502B of the Foreign Assistance Act of 1961 is amended (1) by striking the word "Committee" the first place it appears in paragraph (2) and inserting in lieu thereof "Committees'; and (2) by inserting after the words "Foreign Relations" the first place it appears the phrase "and Banking, Housing, and Urban Affairs (when licenses are to be issued pursuant to the Export Administration Act of 1979)".

EXPORT OF HORSES

SEC. 128. The Act of March 3, 1891 (46 U.S.C. 466a and 466b) is amended by adding at the end thereof the following:

SEC. 3. (a) Notwithstanding any other provision of law, no horse may be exported by sea from the United States, or any of its territories and possessions, unless such horse is part of a consignment of horses with respect to which a waiver has been granted under subsection (b).

"(b) The Secretary of Commere, in consultation with the Secretary of Agriculture, may issue regulations providing for the granting of waivers, permitting the export by sea of a specified consignment of horses, if the Secretary of Commerce, in consultation with the Secretary of Agriculture, determines that no horse in that consignment is being exported for purposes of slaughter.

"(c)(1) whosoever knowingly violates this section or any regulation, order, or license issued hereunder shall be fined not more than five times the value of the consignment of horses involved or $50,000, whichever is greater, or imprisoned not more than 5 years, or both.

"(2) The Secretary of Commerce, after notice and opportunity for an agency hearing on the record, may impose a civil penalty not to exceed $10,000 for each violation of this section or any regulation, order, or license issued hereunder, either in addition to or in lieu of any other liability or penalty which may be imposed.".

ALASKAN OIL STUDY

SEC. 129. (a) The President shall—

(1) undertake a comprehensive review of the issues and related data concerning possible changes in the existing incentives to produce crude oil from the North Slope of Alaska (including changes in Federal and State taxation, pipeline tariffs, and Fedral leasing policies) and possible changes in the existing distribution of crude oil from the North Slope of Alaska (including changes in expert restrictions which would permit experts at free market levels and at levels of 50,000 barrels per day, 100,000 barrels per day, 200,000 barrels per day, and 500,000 barrels per day), as well as the appropriations of continuing existing controls including, but not limited to—

(A) the effect of such changes on the energy and national security of the United States and its allies;

(B) the role of such changes in United States foreign policymaking, including international energy policymaking;

(C) the impact of such changes on employment levels in the maritime indutry, the oil industry, and other industries;

(D) the impact of such changes on the refiners and consumers;

(E) the impact of such changes on the revenues and expenditures of the Federal Government and the government of Alaska;

(F) the effect of such changes on incentives for oil and gas exploration and development in the United States; and

(G) the effect of such chagnes on the overall trade deficit of the United States, and the trade deficit of the United States with respect to particular countries, including the effect of such changes on trade barriers of other countries; and

(2) develop, after consulting with appropriate State and Federal officials and other persons, findings, options, and recommendations regarding the production and distribution of crude oil from the North Slope of Alaska.

(b) Not later than 9 months after the date of the enactment of this Act, the President shall transmit a report to the Congress containing the result of the review under subsection (a)(1), and the findings, options, and recommendations developed under subsection (a)(2).

TITLE II—EXPORT PROMOTION PROGRAMS

REQUIREMENT OF PRIOR AUTHORIZATION

SEC. 201. (a) Notwithstanding any other provision of law, money appropriated to the Department of Commerce for expenses to carry out any export promotion program may be obligated or expended only if—

(1) the appropriation thereof has been previously authorized by law enacted on or after the date of the enactment of this Act; or

(2) the amount of all such obligations and expenditures does not exceed an amount previously prescribed by law enacted on or after such date.

(b) To the extent that legislation enacted after the making of an appropriation to carry out any export promotion program authorizes the obligation or expenditure thereof, the limitation contained in subsection (a) shall have no effect.

(c) The provisions of this section shall not be superseded except by a provision of law enacted after the date of the enactment of this Act which specifically repeals, modifies, or supersedes the provisions of this section.

(d) For purposes of this title, the term "export promotion program" means any activity of the Department of Commerce designed to stimulate or assist United States businesses in marketing their goods and services abroad competitively with businesses from other countries, including but not limited to—

(1) trade development (except for the trade adjustment assistance program) and dissemination of foreign marketing opportunities and other marketing information to United States producers of goods and services, including the expansion of foreign markets for United States textiles and apparel and any other United States products;

(2) the development of regional and multilateral economic policies which enhance United States trade and investment interests, and the provision of marketing services with respect to foreign countries and regions;

(3) the exhibition of United States goods in other countries; and

(4) the operations of the United States Commercial Service and the Foreign Commercial Service, or any successor agency.

AUTHORIZATION OF APPROPRIATIONS

SEC. 202. There is authorized to be appropriated for each of the fiscal years 1985 and 1986 to the Department of Commerce to carry out export promotion programs $113,273,000.

BARTER ARRANGEMENTS

SEC. 203. (a) The Secretary of Agriculture shall, not later than 90 days after the date of the enactment of this Act, submit to the Congress a report on the status of Federal programs relating to the barter or exchange of commodities owned by the Commodity Credit Corporation for materials and products produced in foreign countries. Such report shall include details of any changes necessary in existing law to allow the Department of Agriculture to implement fully any barter program.

(b) Notwithstanding any other provision of law, the President is authorized—

(1) to barter stocks of agricultural commodities acquired by the Government for petroleum and petroleum products, and for other materials vital to the national interest, which are produced abroad, in situations in which sales would otherwise not occur; and

(2) to purchase petroleum and petroleum products, and other materials vital to the national interest, which are produced abroad and acquired by persons in the United States through barter for agricultural commodities produced in and exported from the United States through normal commercial trade channels.

(c) The President shall take steps to ensure that any barter described in subsections (a) and (b)(1) and any purchases authorized by subsection (b)(2) safeguard existing export markets for agricultural commodities operating on conventional business terms from displacement by barters described in subsections (a), (b)(1), and (b)(2). In addition, the President shall ensure that

any such barter is consistent with the international obligations of the United States, including the General Agreement on Tariffs and Trade.

TITLE III—SOUTH AFRICA

SHORT TITLE

SEC. 301. This title may be cited as the "United States Policy Toward South Africa Act of 1984".

Subtitle 1—Sullivan Fair Employment Principles Endorsement and Implementation of Fair Employment Principles

SEC. 311. It is the policy of the United States that any United States person who—

(1) has a branch or office in South Africa, or

(2) controls a corporation, partnership, or other enterprise in South Africa,

in which more than 20 people are employed should take the necessary steps to insure that, in operating such branch, office, corporation, partnership, or enterprise, the opposition of the United States to apartheid is reaffirmed by actions including, but not limited to, implementation of those principles relating to employment practices set forth insection 312 of this Act.

STATEMENT OF PRINCIPLES

SEC. 312. (a) The principles referred to in section 311 of this Act are as follows:

(1) Desegregating the races in each employment facility, including—

(A) removing all race designation signs;

(B) desegregating all eating, rest, and work facilities; and

(C) terminating all regulations which are based on racial discrimination.

(2) Providing equal employment for all employees without regard to race or ethnic origin, including—

(A) assuring that any health, accident, or death benefit plans that are established are nondiscriminatory and open to all employees without regard to race or ethnic origin; and

(B)(i) implementing equal and nondiscriminatory terms and conditions of employment for all employees, and (ii) abolishing job reservations, job fragmentation, apprenticeship restrictions for blacks and other nonwhites, and differential employment criteria, which discriminate on the basis of race or ethnic origin.

(3) Assuring that the pay system is equitably applied to all employees without regard to race or ethnic origin, including—

(A) assuring that any wage and salary structure that is implemented is applied equally to all employees without regard to race or ethnic origin;

(B) eliminating any distinctions between hourly and salaried job classifications on the basis of race or ethnic origin; and

(C) eliminating any inequities in seniority and ingrade benefits which are based on race or ethnic origin.

(4) Establishing a minimum wage and salary structure based on the appropriate local minimum economic level which takes into account the needs of employees and their families.

(5) Increasing, by appropriate means, the number of blacks and other nonwhites in managerial, supervisory, administrative, clerical, and technial jobs for the purpose of significantly increasing the representation of blacks and other nonwhites in such jobs, including—

(A) developing training programs that will prepare substantial numbers of blacks and other nonwhites for such jobs as soon as possible, including—

(i) expanding existing programs and forming new programs to train, upgrade, and improve the skills of all categories of employees, including establishing and expanding programs to enable employees to further their education and skills at recognized education facilities; and

(ii) creating on-the-job training programs and facilities to assist employees to advance to higher paying jobs requiring greater skills;

(B) establishing procedures to assess, identify, and actively recruit employees with potential for further advancement;

(C) identifying blacks and other nonwhites with high management potential and enrolling them in accelerated management programs; and

(D) establishing timetables to carry out this paragraph.

(6) Taking reasonable steps to improve the quality of employees' lives outside the work environment with respect to housing, transportation, schooling, recreation, and health, including——

(A) providing assistance to black and other nonwhite employees for housing, health care, transportation, and recreation either through the provision of facilities or services or providing financial assistance to employees for such purposes, including the expansion or creation of in-house medical facilities or other medical programs to improve medical care for black and other nonwhite employees and their dependents; and

(B) participating in the development of programs that address the education needs of employees, their dependents, and the local community.

(7) Implementing fair labor practices, including—

(A) recognizing the right of all employees, regardless of racial or other distinctions, to self-organization and to form, join, or assist labor organizations, freely and without penalty or reprisal, and recognizing the right to refrain from any such activity;

(B) refraining from—

(i) interfering with, restraining, or coercing employees in the exercise of their rights of self-organization under this paragraph,

(ii) dominating or interfering with the formation or administration of any labor organization, or sponsoring, controlling, or contributing financial or other assistance to it; except that an employer may permit employees to confer with the employer during working hours without loss of time or pay,

(iii) encouraging or discouraging membership in any labor organization by discrimination in regard to hiring, tenure, promotion, or other condition of employment,

(iv) discharging or otherwise disciplining or discriminating against any employee who has exercised any rights of self-organization under this paragraph, and

(v) refusing to bargain collectively with any organization freely chosen by employees under this paragraph; and

(C)(i) allowing employees to exercise rights of self-organization, including solicitation of fellow employees during nonworking hours, (ii) allowing distribution and posting of union literature by employees during nonworking hours in nonworking areas, and (iii) allowing reasonable access to labor organization representatives to communicates with employees on employer premises at reasonable times where there are no other available channels which will enable the labor organization to communicate with employees through reasonable efforts.

(b) The Secretary may issue guidelines and criteria to assist persons in implementing the principles set forth in subsection (a) of this section.

ADVISORY COMMITTEE

SEC. 313. (a) The Secretary shall establish an Advisory Committee (1) to advise the Secretary with respect to the implementation of those principles set forth in section 312(a), and (2) to review periodically the reports submitted pursuant to section 314(a) and, where necessary, to supplement the information contained in such reports. The Advisory Committee shall be composed of at least 12 members appointed by the Secretary from among persons in the United States and South Africa representing trade unions committed to nondiscriminatory policies, representatives of business (including the American Chamber of Commerce in South Africa), and the academic community, and from among community and church leaders, including those in South Africa, who have demonstrated a concern for equal rights. In addition to the appointed members of the Advisory Committee, the United States Ambassador to South Africa shall be a member of the Advisory Committee, ex officio. The Committee shall be authorized to meet in the United States Embassy in South Africa or such other location as the Secretary may designate.

(b) Members of the Advisory Committee in South Africa shall be appointed for 3-year terms, except that of the members first appointed, four shall be appointed for terms of two years, and four shall be appointed for terms of one year, as designated at the time of their appointment. Any member appointed to fill a vacancy occuring before the expiration of the term for which the predecessor of such member was appointed shall be appointed only for the remainder of such term.

(c) The Secretary shall provide the necessary clerical and administrative assistance to the Advisory Committee.

(d) Members of the Advisory Committee shall serve without pay, except that, while away from their homes or regular places of business in the performance of services for the Committee, members of the Advisory Committee shall be allowed travel expenses, including per diem in lieu of subsistence, in the same manner as persons employed intermittently in the Government service are allowed expenses under section 5703 of title 5, United States Code.

IMPLEMENTATION

SEC. 314. (a) The Secretary shall submit an annual report to the Congress describing—

(1) the extent to which each United States person referred to in section 311 of this Act has implemented each of the principles set forth in section 312 of this Act;

(2) the progress each United States person referred to in section 311 of this Act has made since the previous annual report in implementing each of those principles;

(3) the actions the Secretary has taken to encourage implementation of those principles, as well as any related actions taken by other departments or agencies of the United States Government; and

(4) any other information relating to the implementation by United States persons of those principles that the Secretary believes is appropriate.

(b) The Secretary shall publish and make generally available to the public each annual report submitted pursuant to subsection (a).

(c) The Secretary may, to such extent or in such amounts as are provided in appro-

priation Acts, enter into contracts with one or more private organizations to assist the Secretary to preparing the report required by subsection (a).

(d) Each United States person referred to in section 311 of this Act shall submit directly to the Secretary, or through an organization with which the Secretary has a contract under subsection (c)—

(1) a detailed and fully documented annual report on the progress of that person in implementing the principles set forth in section 312 of this Act; and

(2) such other information relating to implementation of the principles set forth in section 312 of this Act as the Secretary shall by regulation require.

The reports and information required by this subsection shall be submitted at such times as the Secretary shall by regulation direct.

(e)(1) The Secretary shall make available to the Advisory Committee established pursuant to section 313, and may make available to the public, information obtained pursuant to subsection (d) that relates to the employment practices of United States persons referred to in section 311 with respect to blacks and other nonwhite employees.

(2) Notwithstanding any other provision of law, the Secretary shall not make available to the Advisory Committee or disclose to the public any information that would harm the competitive position or the proprietary interests, or would reveal trade secrets or confidential commercial or financial information, of any United States person required to submit reports under subsection (d), as defined under regulations of the Secretary.

(f) The Secretary shall undertake all reasonable efforts to verify the information submitted under subsection (d), including the establishment of arrangements with United States persons and entities referred to in section 311 of this Act for onsite monitoring, at least once every two years, of their activities and facilities in South Africa.

(g) The Secretary shall make reasonable and continuing efforts to promote the implementation of this subtitle and any regulations issued to carry out this subtitle.

(h) There are authorized to be appropriated such sums as may be necessary to the Department of State to carry out the provisions of this subtitle. The Secretary may establish an office to carry out such provisions.

(i) Upon the request of any United States person subject to the provisions of this subtitle which is made within 60 days after the publication of the Secretary's report pursuant to subsection (b) of this section, the Secretary shall, afford an opportunity for a hearing, within 90 days after such publication, in which such person may comment on the contents of such report.

INVESTMENT LIMITATIONS

SEC. 315. (a) In any case in which the President determines, after notice and an opportunity for a hearing, that a United States person referred to in section 311 of this Act is not making a good faith effort toward implementing the provisions of this subtitle, the Secretary may issue an order prohibiting that United States person from making any investment in South Africa for a period of one year, subject to subsection (b) of this section. The Secretary's decision to hold such a hearing shall be made on the basis of the annual report submitted pursuant to section 314(a).

(b) The President may exempt a United States person that is subject to an order of the President under subsection (a) from the prohibition contained in the order for the purpose of making a particular investment or investments referred to in subsection (c)(1)(B) in that person's foreign affiliate in South Africa, but only to the extent that—

(A) the investment or investments are necessary to replace or upgrade worn out or obsolete equipment;

(B) the purpose of the investment or investments is to make improvements in the workplace in the training, health, safety, and other working conditions of blacks and other nonwhite employees; or

(C) the investment or investments are for educational, housing, or health facilities, or other projects of significant humanitarian value, which are available to all employees on a totally nondiscriminatory basis and which are located in geographic areas accessible to all employees without any legal or administrative restriction.

(c) For purposes of subsection (a)—

(1) the term "investment in South Africa" means—

(A) establishing or contributing funds (including making a loan or other extension of credit) for the establishment of a business enterprise in South Africa;

(B) investing funds in a foreign affiliate in South Africa, including—

(i) acquiring a share or interest in the foreign affiliate;

(ii) acquiring a bond or other debt instrument issued by the foreign affiliate;

(iii) making capital contributions in money or kind to the foreign affiliate; and

(iv) making a loan or other extension of credit, with a maturity of more than two years, to the foreign affiliate;

except that this subparagraph shall not be construed to prohibit an investment which consists of earnings derived from a foreign affiliate in South Africa and which is made in that foreign affiliate; and

(C) making a loan or other extension of credit in a business enterprise in South Africa;

(2) the term "funds" means money or other resources;

(3) the term "foreign affiliate" means a business enterprise which is controlled by a United States person;

(4) the term "business enterprise" means any organization, association, branch, or venture which exists for profitmaking purposes or to otherwise secure economic advantage; and

(5) the term "branch" means the operations or activities conducted by a person in a different location in its own name rather than through an incorporated entity, and such term includes an office of that person.

(d)(1) The President shall take the necessary steps to insure compliance with an order of the President issued under subsection (a) and the regulations issued under this section, including the use of monitoring provided in section 314(f).

(2) Any United States person that fails to comply with an order of the President issued under subsection (a) or the regulations issued under this section shall so notify the Secretary of Commerce. Such United States person shall be subject to the penalties provided in section 11 of the Export Administration Act of 1979 for violatins of that Act.

(e) The Secretary may issue such regulations as are necessary to carry out the provisions of this section.

REGULATIONS AND EFFECTIVE DATE

SEC. 316. (a) The Secretary shall, not later than 120 days after the date of the enactment of this Act, issue such regulations as are necessary to carry out this subtitle.

(b) Before issuing final regulations pursuant to subsection (a), the Secretary shall publish in the Federal Register the regulations proposed to be issued and shall give interested persons, including the Advisory Committee established pursuant to section 313 of this Act, at least 30 days to submit comments on the proposed regulations. The Secretary shall, in issuing the final regulations, take into account the comments so submitted.

(c) The policy set forth in section 311 of this Act shall become the policy of the United States Government on the date of the enactment of this Act.

(d) The first annual report of the Secretary under section 314 of this Act shall be submitted to the Congress not later than one year after the date on which final regulations issued pursuant to subsection (a) of this section are published. Each subsequent annual report shall be submitted not later than the end of each 1-year period thereafter.

Subtitle 2—General Provisions

COOPERATION OF OTHER DEPARTMENTS AND AGENCIES

SEC. 321. (a) Each department and agency of the United States shall cooperate with the Secretary in carrying out the provisions of this title, including, upon the request of the Secretary, taking steps to ensure implementation of the provisions of this title and any regulations issued to carry out this title.

(b) The Secretary may secure directly from any department or agency of the United States information necessary to enable the Secretary to carry out the Secretary's functions under this title.

DEFINITIONS

SEC. 322. For purposes of this title—

(1) the term "United States person" means any United States resident or national and any domestic concern (including any permanent domestic establishment of any foreign concern);

(2) the term "Secretary" means the Secretary of State;

(3) the term "South Africa" includes the Republic of South Africa; any territory under the administration, legal or illegal, of South Africa; and the "bantustans" or "homelands", to which South African blacks are assigned on the basis of ethnic origin, including the Transkei, Bophuthatswana, Venda, and Ciskei; and

(4) a United States person shall be presumed to control a corporation, partnership, or other enterprise in South Africa if—

(A) the United States person beneficially owns or controls (whether directly or indirectly) more than 50 percent of the outstanding voting securities of the corporation, partnership, or enterprise;

(B) the United States person beneficially owns or controls (whether directly or indirectly) 25 percent or more of the voting securities of the corporation, partnership, or enterprise if no other person owns or controls (whether directly or indirectly) an equal or larger percentage;

(C) the corporation, partnership, or enterprise is operated by the United States person pursuant to the provisions of an exclusive management contract;

(D) a majority of the members of the board of directors of the corporation, part-

nership, or enterprise are also members of the comparable governing body of the United States person;

(E) the United States person has authority to appoint a majority of the members of the board of directors of the corporation, partnership, or enterprise; or

(F) the United States person has authority to appoint the chief operating officer of the corporation, partnership, or enterprise.

CONSTRUCTION OF TITLE; SEVERABILITY

SEC. 323. (a) Nothing in this title shall be construed as constituting any recognition by the United States of the homelands referred to in section 322(3) of this Act.

(b) If any provision of this title or the application of this title to any person or circumstances is held invalid, neither the remainder of this title nor the application of that provision to other persons or circumstances shall be affected thereby.

TITLE IV—NUCLEAR EXPORTS

SEC. 401. (a) The Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.) is amended by inserting after section 131 the following new section:

SEC. 132. RESTRICTIONS ON CERTAIN EXPORTS.—

"a. (1) Notwithstanding any other provision of law—

"(A) no license may be issued under the Export Administration Act of 1979 for the export to a non-nuclear-weapon state for use in a nuclear production or utilization facility of any item or related technical data which, as determined under section 309(c) of the Nuclear Non-Proliferation Act of 1978, could be of significance for nuclear explosive purposes, or which, in the judgment of the Secretary of Commerce, is likely to be diverted for use in such a facility;

"(B) the Nuclear Regulatory Commission shall not issue any license for the export to a non-nuclear-weapon state of a component part, item, or substance which the Commission has determined, under section 109b. of this Act to be especially relevant from the standpoint of export control because of its significance for nuclear explosive purposes;

"(C) the Secretary of Energy shall not approve the retransfer to a non-nuclear-weapon state of any such component part, item, or substance; and

"(D) the Secretary of Energy shall not, under section 57b. of this Act, authorize any person to engage, directly or indirectly, in the production of special nuclear material in a non-nuclear-weapon state;

unless (i) such state maintains International Atomic Energy Agency safeguards on all its peaceful nuclear activities, and (ii)(I) such export, retransfer, or production is under the terms of an agreement for cooperation arranged pursuant to section 123 of this Act or (II) such state has entered into nuclear cooperation with the United States pursuant to an agreement for peaceful nuclear cooperation. For purposes of this subsection, 'non-nuclear-weapon state' is a non-nuclear-weapon state within the meaning of the Treaty on the Non-Proliferation of Nuclear Weapons.

"(2) The restrictions contained in clause (ii) of paragraph (1) shall apply only to a country which is not a party to the Treaty on the Non-Proliferation of Nuclear Weapons or the Treaty for the Prohibition of Nuclear Weapons in Latin America, or which the President determines is in a region of particular volatility or sensitivity.

"b. Nothing in this section shall preclude—

"(1) an export, retransfer, or activity generally licensed or generally authorized by the Nuclear Regulatory Commission, the Department of Commerce, or the Department of Energy;

"(2) assistance (A) for the purpose of developing or applying International Atomic Energy Agency safeguards, or United States safeguards as set forth in an agreement for cooperation arranged pursuant to section 123 of this Act, (B) for programs of the International Atomic Energy Agency which are generally available to its member states, (C) for reducing the use of highly enriched uranium in research or test reactors, or (D) for other technical programs for the purpose of reducing proliferation risks, such as programs to extend the life of reactor fuel and activities to which section 223 of the Nuclear Waste Policy Act of 1982 applies; or

"(3) assistance which is necessary for humanitarian reasons to protect the public health and safety.

"c. The restrictions contained in subsection a.(1)(D) shall not apply to activities involving radiation protection and health physics; decontamination; waste management; and other assistance for the safe operation of a facility which is under International Atomic Energy Agency safeguards or United States safeguards. The exception contained in the preceding sentence shall apply only in instances where the Secretary of State, in concurring with the determination by the Secretary of Energy pursuant to section 57b. of this Act, determines that approval of such activities or assistance would further United States nonproliferation objectives with regard to the recipient country. The Department of Energy shall notify the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate of all authorizations issued pursuant to this subsection.

"d. The prohibitions contained in subsection a. shall not apply to a particular export, retransfer, or activity or group of exports, retransfers, or activities if the President determines that to apply the prohibitions thereto would be seriously prejudicial to the achievement of United States nonproliferation objectives or would otherwise jeopardize the common defense and security and if, at least 60 days before the export, retransfer, or activity or initial export, retransfer, or activity is carried out, the President submits that determination, together with the reasons for that determination, to the Congress.

"e. With respect to any authorization described in subsection a. (1)(D) which is made after August 1, 1983, the restrictions set forth in that subparagraph shall apply to any contract executed under that authorization after October 1, 1984.".

(b) The table of contents of the Atomic Energy Act of 1954 is amended by inserting after the item relating to section 131 the following new item:

"Sec. 132. Restrictions on certain exports.".

AGREEMENTS FOR COOPERATION

SEC. 402. (a) Section 123 of the Atomic Energy Act of 1954 (42 U.S.C. 2153(d)) is amended—

(1) by inserting "the consistency of the text of the agreement for cooperation with all the requirements of this Act," after "Assessment Statement regarding" in subsection a.;

(2) by inserting "after the submission of the text of the proposed Agreement for Cooperation together with the accompanying non-classified nuclear proliferation assessment to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House, and after consultation with such Committees for a period of not less than 30 days of continuous session (as defined in section 130g. of this Act) concerning the consistency of the terms of the proposed agreement with all the requirements of this Act," before "the President" in subsection b.; and

(3) by inserting "During the sixty-day period the House Committee on Foreign Affairs and the Senate Committee on Foreign Relations shall each hold hearings on the proposed agreements and submit a report to their respective bodies recommending whether it should be approved or disapproved," before the sentence which begins "Any such proposed agreement" in subsection d.

AGREEMENTS FOR COOPERATION

SEC. 403. (a) Subsection d. of section 123 of the Atomic Energy Act of 1954 (42 U.S.C. 2153(d)) is amended—

(1) by striking out "adopts a concurrent resolution" and inserting in lieu thereof "adopts, and there is enacted, a joint resolution"; and

(2) by striking out the period at the end of the first proviso and inserting in lieu thereof "; *Provided further*, That an agreement for cooperation exempted by the President pursuant to subsection a. from any requirement contained in that subsection shall not become effective unless the Congress adopts, and there is enacted, a joint resolution authorizing such agreement.".

(b) Section 130 of the Atomic Energy Act of 1954 is amended by adding at the end thereof the following:

"i. (10 For the purposes of this subsection, the term 'joint resolution' means a joint resolution, the matter after the resolving clause of which is as follows: 'That the Congress (does or does not) favor the proposed agreement for cooperation transmitted to the Congress by the President on ————', with date of the transmission of the proposed agreement for cooperation inserted in the blank, and the affirmative or negative phrase within the parenthetical appropriately selected.

"(2) On the day on which a proposed agreement for cooperation is submitted to the House of Representatives and the Senate under section 123 d., a joint resolution with respect to such agreement for cooperation shall be introduced (by request) in the House by the chairman of the Committee on Foreign Affairs, for himself and the ranking minority member of the Committee, or by Members of the House designated by the chairman and ranking minority member; and shall be introduced (by request) in the Senate by the majority leader of the Senate, for himself and the minority leader of the Senate, or by Members of the Senate designated by the majority leader and minority leader of the Senate. If either House is not in session on the day on which such an agreement for cooperation is submitted, the joint resoltuion shall be introduced in that House, as provided in the preceding sentence, on the first day thereafter on which that House is in session.

"(3) All joint resolutions introduced in the House of Representatives shall be referred to the appropriate committee or committees and all joint resolutions introduced in the Senate be referred to the Committee on Foreign Relations and any other appropriate committee.

"(4) If the committee of either House to which a joint resolution has been referred has not reported it at the end of 45 days after its introduction, the committee shall be discharged from further consideration of the joint resolution or of any other joint resolution introduced with respect to the same matter; except that, in the case of a joint resolution which has been referred to more than one committee, if before end of that 45-day period one such committee has reported the joint resolution, any other committee to which the joint resolution was referred shall be discharged from further consideration of the joint resolution or of any other joint resolution introduced with respect to the same matter.

"(5) A joint resolution under this subsection shall be considered in the Senate in accordance with the provisions of section 601(b)(4) of the International Security Assistance and Arms Export Control Act of 1976. For the purposes of expediting the consideration and passage of joint resolutions under this subsection, it shall be in order for the Committee on Rules of the House of Representatives (notwithstanding the provisions of clause 4(b) of Rule XI of the Rules of the House of Representatives) to present for immediate consideration, on the day reported, a resolution of the House of Representatives providing procedures for the consideration of a joint resolution under this subsection similar to the procedures set forth in section 601(b)(4) of the International Security Assistance and Arms Export Control Act of 1976.

"(6) In the case of a joint resolution described in paragraph (1), if prior to the passage by one House of a joint resolution of that House, that House receives a joint resolution with respect to the same matter from the other House, then—

"(A) the procedure in that House shall be the same as if no joint resolution had been received from the other House; but

"(B) the vote of final passage shall be on the joint resolution of the other House.".

(c) The amendments made by this section shall apply to any agreement for cooperation which is entered into after the date of the enactment of this Act.

TECHNICAL AMENDMENT

SEC. 126. Section 38(e) of the Arms Export Control Act.

NUCLEAR REGULATORY COMMISSION AUTHORIZATION

SIMPSON AMENDMENT NO. 7095

Mr. BAKER (for Mr. SIMPSON) proposed an amendment to the bill (S. 1291) to authorize appropriations to the Nuclear Regulatory Commission in accordance with section 261 of the Atomic Energy Act of 1954, and section 305 of the Energy Reorganization Act of 1974; as follows:

TITLE 1—AUTHORIZATION OF APPROPRIATIONS FOR FISCAL YEARS 1984 AND 1985

SEC. 101. There are hereby authorized to be appropriated to the Nuclear Regulatory Commission in accordance with the provisions of section 261 of the Atomic Energy Act of 1954 and section 305 of the Energy Reorganization Act of 1974, for the fiscal years 1984 and 1985 to remain available until expended, $466,800,000 for fiscal year 1984 and $460,000,000 for fiscal year 1985.

SEC. 102. (a) the sums authorized to be appropriated in this Act for fiscal years 1984 and 1985 shall be allocated as follows:

(1) not more than $91,490,000 for fiscal year 1984 and $87,140,000 for fiscal year 1985, may be used for "Nuclear Reactor Regulation", of which an amount not to exceed $1,000,000 is authorized each such fiscal year to be used to accelerate the effort in gas-cooled thermal reactor preapplication review;

(2) not more than $70,910,000 for fiscal year 1984 and $74,770,000 for fiscal year 1985, may be used for "Inspection and Enforcement";

(3) not more than $36,280,000 for fiscal year 1984 and $35,710,000 for fiscal year 1985, may be used for "Nuclear Material Safety and Safeguards";

(4) not more than $199,740,000 for fiscal year 1984 and $193,290,000 for fiscal year 1985, may be used for "Nuclear Regulatory Research", of which an amount not to exceed $2,600,000 is authorized each such fiscal year to be used to accelerate the effort in gas-cooled thermal reactor safety research;

(5) not more than $27,520,000 for fiscal year 1984 and $27,470,000 for fiscal year 1985, may be used for "Program Technical Support";

(6) not more than $40,860,000 for fiscal year 1984 and $44,620,000 for fiscal year 1985, may be used for "Program Direction and Administration".

(b) The Nuclear Regulatory Commission may use not more than 1 per centum of the amounts authorized to be appropriated under paragraph 102(a)(4) to exercise its authority under section 31a of the Atomic Energy of 1954 (42 U.S.C. 205(a)) to enter into grants and cooperative agreements with universities pursuant to such paragraph. Grants made by the Commission shall be made in accordance with the Federal Grant and Cooperative Agreement Act of 1977 (41 U.S.C. 501 et seq.) and other applicable law.

(c) Any amount appropriated for a fiscal year to the Nuclear Regulatory Commission pursuant to any paragraph of subsection 102(a) for purposes of the program referred to in such paragraph, may be reallocated by the Commission for use in a program referred to in any other paragraph of such subsection, or for use in any other activity within a program, except that the amount available from appropriations for such fiscal year for use in any program or specified activity may not, as a result of reallocations made under this subsection, be increased or reduced by more than $500,000 unless—

(1) a period of thirty calendar days (excluding any day in which either House of Congress is not in session because of an adjournment of more than three calendar days to a day certain or an adjournment sine die) passes after the receipt, by the Committee on Energy and Commerce and the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Environment and Public Works of the Senate, of notice submitted by the Commission containing a full and complete statement of the reallocation proposed to be made and the facts and circumstances relied upon in support of such proposed reallocation; or

(2) each such committee, before the expiration of such period, transmits to the Commission a written notification that such committee does not object to such proposed reallocation.

SEC. 103. Moneys received by the Nuclear Regulatory Commission for the cooperative nuclear research program and the material access authorization program may be retained and used for salaries and expenses associated with such programs, notwithstanding the provisions of section 3617 of the Revised Statutes (31 U.S.C. 484), and shall remain available until expended.

SEC. 104. From amounts appropriated to the Nuclear Regulatory Commission purusant to this title, the Commission may transfer to other agenceis of the Federal Government sums for salaries and expenses for the performance by such agencies of activities for which such appropriations of the Commission are made. Any sums so transferred may be merged with the appropriation of the agency to which such sums are transferred.

SEC. 105. Notwithstanding any other provisions of this Act, no authority to make payments under this Act shall be effective except to such extent or in such amounts as are provided in advance in appropriation Acts.

SEC. 106. (a) No funds authorized to be appropriated under this Act may be used to carry out any policy or program for the decentralization or regionalization of any Nuclear Regulatory Commission authorities regarding commerical nuclear powerplant licensing until sixty legislative days after the date on which the Commission submits to the Congress a report evaluating the effect of such policy or program on nuclear reactor safety: *Provided, however,* That the prohibition contained in this subsection shall not apply to any personnel assigned to the field, or to activities in which they were engaged, on or before September 22, 1983. The report shall include—

(1) a detailed description of the authorities to be transferred, the reason for such transfer, and an assessment of the effect of such transfer on nuclear reactor safety;

(2) an analysis of all comments submitted to the Commission regarding the effect on nuclear reactor safety which would result from carrying out the policy or program proposed by the Commission; and

(3) an evaluation of the results, including the advantages and disadvantages, of the pilot program conducted under subsection (b).

(b) Notwithstanding the prohibition contained in subsection (a), the Commission is authorized to conduct a pilot program for the purpose of evaluating the concept of delegating authority to regional offices for issuance of specific types of operating reactor licensing actions and for the purpose of addressing the issues identified in paragraphs (a)(1)–(3) of this section.

SEC. 107. (a) Of the amounts authorized to be appropriated under this Act for the fiscal years 1984 and 1985, such sums as may be necessary are authorized to be used by the Nuclear Regulatory Commission for—

(1) the acquisition (by purchase, lease, or otherwise) and installation of equipment to be used for the small test prototype nuclear data link program or for any other program for the collection and transmission to the Commission of data from licensed nuclear reactors during abnormal conditions at such reactors; and

(2) a full and complete analysis of—

(A) the appropriate role of the Commission during abnormal conditions at a nuclear reactor licensed by the Commission;

(B) the information which should be available to the Commission to enable the Commission to fulfill such role and to carry out other related functions;

(C) various alternative means of assuring that such information is available to the Commission in a timely manner; and

(D) any changes in existing Commission authority necessary to enhance the Commission response to abnormal conditions at a nuclear reactor licensed by the Commission:

Provided, however, That no funds shall be available under this Act for the acquisition and installation of any equipment for the collection and transmission to the Commission of data from licensed nuclear reactors during abnormal conditions at such reactors, or for the analysis of such equipment, unless such acquisition and analysis includes, as one of the alternatives considered, a fully automated electronic nuclear data link. The small test prototype referred to in paragraph (1) may be used by the Commission in carrying out the study and analysis under paragraph (2). Such analysis shall include a cost-benefit analysis of each alternative examined under subparagraph (C).

SEC. 108. Of the amounts authorized to be appropriated under this Act, the Nuclear Regulatory Commission may use such sums as may be necessary, in the absence of a State or local emergency preparedness plan which has been approved by the Federal Emergency Management Agency, to issue an operating license (including a temporary operating license under section 192 of the Atomic Energy Act of 1954, as amended) for a nuclear power reactor, if it determines that there exists a State, local, or utility plan which provides reasonable assurance that public health and safety is not endangered by operation of the facility concerned.

SEC. 109. Notwithstanding the second sentence of section 103 d. and the second sentence of section 104 d. of the Atomic Energy Act of 1954, as amended, the Nuclear Regulatory Commission is hereby authorized to transfer Facility Operating License numbered R-81 to a United States entity or corporation owned or controlled by a foreign corporation if the Commission—

(1) finds that such transfer would not be inimical to the common defense and security or to the health and safety of the public; and

(2) includes in such license, as transferred, such conditions as the Commission deems necessary to ensure that such foreign corporation cannot direct the actions of the licensee in ways that would be inimical to the common defense and security or the health and safety of the public.

TITLE II—AMENDMENT TO THE NUCLEAR WASTE POLICY ACT OF 1982

SEC. 201. The Nuclear Waste Policy Act of 1982 (42 U.S.C. 10101 et seq.) is amended by adding a new section 126 as follows:

"SEC. 126. The provisions of sections 115, 116, 117, and 118 of this subtitle shall constitute the exclusive rights of participation by an affected State or Indian tribe in the planning, siting, development, construction, and operation of a repository or a monitored, retrievable storage facility that is required to be licensed by the Commission: *Provided, however,* That nothing in this Act shall preclude any recognized right of any State or Indian tribe under existing law with respect to such repository or monitored, retrievable storage facility.".

McCLURE AMENDMENT NO. 7096

Mr. BAKER (for Mr. McCLURE) proposed an amendment to amendment No. 7095 proposed by Mr. BAKER (for Mr. SIMPSON) to the bill S. 1291, supra; as follows:

Strike Title II of the bill.

MARITIME PROGRAMS IMPROVEMENTS

PACKWOOD AMENDMENT NO. 7097

Mr. BAKER (for Mr. PACKWOOD) proposed an amendment to the bill (H.R. 5833) to improve certain maritime programs of the Department of Transportation and the Department of Commerce; as follows:

On page 6, line 6, insert the following immediately after "obligors": "pay a fee which may be computed on the highest".

PACKWOOD AMENDMENT NO. 7098

Mr. BAKER (for Mr. PACKWOOD) proposed an amendment to the bill H.R. 5833, supra; as follows:

On page 4, line 4 insert the words "or with the need for technical improvements including but not limited to increased fuel efficiency or improved safety" immediately after the word "resources".

FEDERAL DAMS ANNUAL CHARGES

McCLURE AMENDMENT NO. 7099

Mr. BAKER (for Mr. McCLURE) proposed an amendment to the bill (S. 1132) to amend the Federal Power Act to specify the annual charges for projects with licenses issued by the Federal Energy Regulatory Commission for the use of Federal dams and other structures; as follows:

Amendment to the House Amendment in the nature of a substitute, strike sec. 2 of the House Amendment.

ADDITIONAL STATEMENTS

INJUSTICE AGAINST SOVIET JEWS

Mr. BIDEN. Mr. President, there is no shortage of evidence about the mistreatment of Soviet Jews. Recently I received additional new information in a firsthand account by one of America's most respected law enforcement officers.

Edward G. Rendell is the district attorney of Philadelphia. I have worked with him in the past in developing legislation to combat crime and I know that he is well regarded throughout our country by other district attorneys. He is tough, smart, and innovative. He is also deeply troubled by what he has learned about the plight of Soviet Jews.

Last summer Ed Rendell traveled to the Soviet Union and looked into the cases of several refuseniks in Moscow and Leningrad. In a subsequent letter to me, he noted that "problems for Soviet Jews in both cities have intensified, and there seems to be a systematic upgrading of the pressure, harassment, and legal actions being brought against Jews in general, and those involved in the teaching of the Hebrew language and efforts to preserve Jewish culture, in particular."

On his return, Ed Rendell wrote to the chief prosecutor of the Soviet Union, Procurator General Aleksandr Rekunkov, and cited three cases which illustrated "fundamental abuses of basic fairness that appear to be systemic and widespread." He challenged the procurator general to halt such abuses and to "take steps to demonstrate to the rest of the world your concern with basic human rights."

Mr. President, in his typical straightforward and incisive way, Ed Rendell is demanding that the Soviet Government let its citizens—in particular, its Jewish citizens—exercise the rights they supposedly have under Soviet law. I believe that every Member of the Congress would echo that demand. In order that my colleagues can have the benefit of this noted district attorney's revelations about Soviet injustice, I ask that the text of his letter to the Soviet prosecutor be printed in the RECORD.

The letter follows:

DISTRICT ATTORNEY'S OFFICE,
Philadelphia, PA, September 14, 1984.

ALEKSANDR REKUNKOV,
Procurator General,
Moscow, U.S.S.R.

DEAR PROCURATOR GENERAL: I recently had the opportunity to spend eight days in your country. During my travels I observed many things about the USSR that truly impressed me. As the elected District Attorney and Chief Law Enforcement Officer of the fourth largest city in the United States of America, I was particularly interested in viewing and comparing the Soviet system of justice. In that capacity, as both a student and practitioner in the dispensing of justice, I was deeply troubled by what I learned about the relationship betweeen Soviet justice and human rights. I am writing to you, in your capacity as the Chief Prosecutor for the Soviet government, to express my intense concern with fundamental abuses of basic fairness that appear to be systemic and widespread.

By way of example, I will refer to three cases which were brought to my attention prior to my arrival and about which I heard a great deal more after I arrived. The facts indicate a pattern of what I believe to be shocking abuse in the literal creation of criminal charges against Alexander Yakir, Alexander Kholmansky and Yulie Edelstein. In each of these cases there are not only violations of fundamental, universally recognized concepts of fairness and justice, but also of Soviet law itself. All are related to efforts at some level in the Soviet government to harass, discourage and humiliate those who become Soviet Jewish Refuseniks, those who promote Jewish culture, and specifically, those who teach and study the Hebrew language which, ironically, is guaranteed by our own laws and constitu-

tion. I would hope, as one committed to the growth and spread of the justice system, that neither you nor President Chernenko nor other high officials in the Soviet Union, would countenance such abuses once you were aware of them, and that you wold take steps to demonstrate to the rest of the world your concern with basic human rights. Accordingly, I would like to share with you my observations and findings regarding the three cases.

Alexander Kholmansky—Mr. Kholmansky was arrested in Estonia for breaking into a mail box to retrieve a single letter. He is a teacher of the Hebrew language and, from everything I was able to ascertain, an outstanding citizen, who has never violated Soviet law in the past, and who has been a productive member of Soviet society. He has not only been held in detention for several weeks on this charge, but his detention period has now been extended to September 25. I was amazed to learn that based on this act, orders were issued which allowed searches to be carried out in the homes of Mr. Kholmansky's parents, as well as the homes of several of his friends and Hebrew students. It is inconceivable, under any reasonable legal construct, that an alleged theft from a mail box in Estonia could give rise to legal searches of other peoples homes in Moscow. Nonetheless, these orders were issued and an illegal search of Mr. Kholmansky's parents' apartment in Moscow took place. It is my understanding that a basic precept of Soviet law is that the authorities are required to first request the voluntary submission of desired material from the people whose home is to be searched, thereby making any subsequent search unnecessary and preserving the universally recognized right of privacy. This very fine procedure was not followed in this instance. Indeed, Mr. Kholmansky's father was forced to stay in one room of his apartment while the investigators searched all the other rooms. During the search, religious and cultural material was seized. This material was totally unrelated to any possible charge arising from the theft from the mail box. Worst of all, it seems clear that the investigators deliberately planted a pistol, forty-one bullets and two firing clips in one of the rooms of the apartment.

In the context of his life as a Hebrew scholar, it is unreasonable, if not ludicrous, to suggest that Mr. Kholmansky would possess a firearm. More to the point from a legal standpoint, it is beyond comprehension that a gun found in his parents' apartment in Moscow could be the basis for a charge against him in Estonia. It is my understanding that Mr. Kholmansky's parents have filed an application with your office asking that no further charges be placed upon Mr. Kholmansky based on the search and the illegally planted evidence. As one dedicated to enforcing the law, I fervently join in their request to you.

Yulie Edelstein—one of the searches which took place pursuant to the Kholmansky incident occurred in the home of Yulie Edelstein, a leading teacher of the Hebrew language who is also well known throughout the Soviet Union for being an outstanding citizen of your country. This search was even more shocking in its illegality than that of Mr. Kholmansky's parents' apartment. Much like the above instance, the investigators planted illegal evidence in the Edelsteins' apartment. The violations of Soviet law and procedure in this investigation were numerous. To begin with, the investigators never told Mr. Edelstein what they were searching for, as is required by law, nor did they show him the complete order. Furthermore, they failed to identify themselves properly. Only a member of the Militia produced his identification while telling the Edelsteins that the other investigators were known to him, and were, therefore, exempt from the requirement to offer proof of their identities. As you are aware, there is no such exemption in Soviet law. The Edelsteins consistently asked them what they were searching for, but the investigators refused to answer, pleading confidentiality. This, too, violates Soviet law. In fact, Edelstein's parents were removed from their homes during the search and taken to a police station. In the beginning of the search the investigators appeared to be looking only at books and material in the Hebrew language. They confiscated books, cassettes, letters, notebooks and address books written in Hebrew, but the investigators admitted to the Edelsteins that there was nothing in their apartment that could be construed to be anti-Soviet material. At one point, however, the investigators identified two objects which they claimed might be narcotics or controlled substances. They stated that an expert was required to analyze these objects, and took them from the apartment. As was the case with Mr. Kholmansky, it seems clear that these items were planted by the investigators themselves. It is highly unreasonable, if not ludicrous, to believe that a devoutly religious Jewish scholar and teacher in the Soviet Union would become involved with this type of substance.

Lastly, it is a clear violation of fundamental law for these searches to have taken place at all. It is inconceivable that Mr. Kholmansky's alleged actions in breaking into a mail box in Estonia could give authorities just cause for searching the Edelsteins' apartment in Moscow. There is no evidentiary link whatsoever between these incidents. For several days after the search, no action was taken against Mr. Edelstein, but shortly before I left your country, I learned that Mr. Edelstein has been arrested on narcotics charges. Actions such as these, in bringing trumped-up charges against one of the leading Hebrew scholars in the Soviet Union, can bring nothing but shame to the Soviet Union among the nations of the world. I am asking you to intercede personally to review these charges and to have them dismissed.

Alexander Yakir—Before I arrived in the Soviet Union, I was made aware of the fact that Alexander Yakir had been arrested and convicted by a lower court on a charge of draft evasion. While I was in the Soviet Union, I was made aware of sufficient additional facts to become shocked by the injustice that was done. All of this served to convince me that these charges must also be part of a plan of harassment against the Refusenik community.

Your office no doubt is aware of the facts of the case. Mr. Yakir was arrested for draft evasion at the age of 29, two years after his eligibility for the draft had expired. After obtaining several official delays from entering your military service due to his Israeli citizenship, and because it was in the best interests of the Soviet Union that he not serve (he was informed of this in writing in 1978, and that document appears in his case file), Mr. Yakir was finally ordered to report for military service on April 30, 1981. Three or four days later his father went to the military board to tell them that his son was out of town but that he would be willing to serve as long as he was assigned to a unit which did not deal with military secrets. The Board told Mr. Yakir's father that they were referring the case back to the prosecutor's office. That office never contacted the Yakirs, despite the fact that in 1982, having started a job as a lifeguard in Moscow, his supervisor informed the military of this.

No action was taken until June, 1984, when a militia man came to the Yakirs' apartment to arrest Alexander. The Yakir family was told by members of the prosecutor's office that the case was stopped in 1981, after Mr. Yakir's father indicated Alexander's willingness to serve. The case was started again in 1984, for no apparent reason. Alexander Yakir's willingness to serve in the military was made clear by his father and his whereabouts were constantly known to the authorities between 1981 and 1984 (where is specific proof of this, of course, during the time he worked as a lifeguard). Despite all of this evidence, a lower court judge rendered a verdict of guilty and sentenced him to two years in prison. The case has been appealed to the city court and Alexander Yakir is being held in transfer prison pending a decision by that court. I know that I am not the first American to speak out about the Yakir matter. In fact, President Reagan and Presidential candidate Walter Mondale have made public statements decrying what has occurred. The world is watching this case to determine whether your country is engaged in a pattern of persecuting Soviet Jews in general and the Refuseniks in particular. It is my hope that these questions will be answered in the negative by your taking action personally to see that these charges against Mr. Yakir are dismissed.

As I indicated at the beginning of my letter, I found many things commendable about life in the Soviet Union. There are many Americans, both in official capacities and those who are ordinary citizens, who are hopeful that relations between our countries can become more friendly and productive. However, there is a serious roadblock to the achievement of this goal. Fundamental to any productive relationship must be the sense that the parties can deal with each other on a common foundation of justice and fairness at all levels. That sense is currently lacking, precisely because of cases such as the three that I have described in this letter. I believe that it would be a very meaningful signal to all the nations of the world about the intentions of the Soviet Union if the charges were withdrawn in all of these three matters, and if the government of the Soviet Union made it clear that there would be no further harassment of its Jewish citizens.

I anxiously await your action, intervention and response.

Sincerely yours,

EDWARD G. RENDELL,
District Attorney.●

CARIBBEAN BASIN PROMOTION CENTER

● Mr. PERCY. Mr. President, it is with extraordinary pleasure that I share with my colleagues a remarkable success story of private sector initiative, high return on Federal investment, and international cooperation and mutual benefit. It is the story of the achievements of the Chicago Asso-

ciation of Commerce and Industry's Caribbean Basin Promotion Center.

Just as significantly, it is the story of new, productive trade partnerships; new, mutually rewarding investment opportunities; a keener appreciation of the potential markets and resources of differing cultures as well as the complexities of trade with those cultures; and a repository of know-how and skills upon which all kinds of firms from all participating countries can draw in forging sound relationships.

The story is a stunning one—over $40 of investment and trade for every $1 of AID funds to support the center; every goal met or exceeded in terms of assistance rendered, contacts generated and opportunities investigated.

The Caribbean Basin Promotion Center [CBPC] was proposed by the Chicago business group in 1982, in direct response to President Reagan's call for private investment and trade initiatives to strengthen United States-Caribbean economic ties and assist in the development of our Caribbean neighbors' trade.

The administration, in proposing the Caribbean Basin Initiative, set specific goals. Ambassador William Brock, our Special Trade Representative, highlighted the careful focus: "We have been engaged in the task of melding trade, investment, and financial assistance measures into a workable approach to regional development," rather than quick fixes and unilateral impositions.

The Chicago Association of Commerce and Industry [CACI] accepted this opportunity and its challenges wholeheartedly. It sought assistance from the Agency for International Development in formulating a sector-to-sector, private-to-private, business-oriented office which would establish, nurture and sustain links between United States and Caribbean enterprises.

These links were to include financial, trade, and investment opportunities; were to leverage AID's and the administration's investment by demonstrably increasing trade and jobs. The program also foresaw the creation of viable, legitimate business deals which were self-sustaining in their own right. This has happened and these links are now firmly in place in many cases.

CACI created a Caribbean Basin Promotion Center which has become a nexus of interaction between U.S. firms and those in the Caribbean region. This center, with offices in Chicago, the Dominican Republic, and Costa Rica, links needs and opportunities to generate the deals, investments, and jobs.

It is with some personal pride—as a strong sponsor of the original concept—that I report today on the remarkable achievements of this private initiative and its ability to leverage Federal funds and fulfill the policy goals which were set forth in the Caribbean Basin Initiative.

When AID Administrator Peter McPherson and I announced the creation of CBPC just 2 years ago, we were both extraordinarily impressed with the business-like approach CACI had taken in its proposal, and especially with the group's willingness to specify and be judged by performance goals and an utterly objective external performance audit. In untested and uncharted waters, CACI exhibited enough self-confidence and acumen to realize that only by operating as a business entity could it be (a) viewed as a valid business communications center; (b) engaged by both sides in deals as a trusted intermediary; and (c) effective as an independent broker and promoter on behalf of potential trading partners.

The goals agreed upon by AID and CACI were remarkably explict and notable for their clarity and mensurability:

Six new products from each primary country—Costa Rica and the Domician Republic—being sold in the Chicago area;

Possible investments of up to $20 million being discussed and negotiated;

Twenty serious investment opportunities referred from Costa Rica and the Dominican Republic to interested parties in the Chicago area;

Referral of investment opportunities from the two secondary countries with modified programs to interested parties;

Ten bulletins sent out to all CACI members. Seven bulletins to focus on the two primary countries, three on the secondary countries;

Two trade missions each to Costa Rica and the Dominican Republic;

One general orientation program per country for Chicago business persons interested in doing business in that country;

One exhibit sponsored for each country in Chicago.

These objectives, Mr. President, are concrete, directed to the goals of the Caribbean Basin Initiative, time oriented—linked to the initial contract—and result-oriented rather than operational definitions. The Agency for International Development is to be commended for its wisdom in selecting such an able vehicle for meeting CBI goals and for paving the way to the private sector's involvement in a business-like manner in the Caribbean.

The outcome of this effort? As I have noted, the CBPC has been arousing success, a warmly welcomed rising star marking Americans—United States and Caribbean—working in partnership within free market tradition to build economic growth on national strengths.

The Chicago Tribune recently headlined the program's measurable achievement: "Firms Finding Caribbean Very Hospitable Waters" (August 22, 1984). Reporter George de Lama noted that under the CBI incentives, nontraditional exports have increased 14 percent over 1983, and that new opportunities are being uncovered every day—a manufacturer, from Los Angeles, of plastic Christmas trees wants a consolidated site nearer the United States than his many Far East plants. A pair of Wisconsin businessmen find a sizable market potential for their know-how in packaging and marketing eggs within the Dominican Republic. A container load of Dominican rocking chairs has just recently been shipped to the United States—the first shipment of a $3 million trade transaction.

Explicit trade results include the importation of apparel, fruits, vegetables, cigars, electronic components, furniture, cashews and nutmeg, ornamental plants, and processed foods. The estimated Caribbean impact of these deals alone exceeds $16 million. Many of the deals are almost surely going to lead to long-term trading relationships rather than one-shot efforts. Thus, CACI has delivered on its pledge to leverage the Federal capital invested.

Opportunity identification and pairing of likely partners is a crucial CBPC role. Excerpts from recent newsletters listing some typical opportunities demonstrate the professionalism of the service:

Manufacturing firm (Costa Rica) seeks U.S. contract manufacturing ties. Current product line: cosmetics, fragrances, moisturizers, creams, shampoos, powders, eyeliners and lipstick. Contract manufacturing services range from formula creation to packaging. Will use own formulation or those of contractor. Open for joint venture discussions.

The Caribbean Basin Promotion Center has detailed Costa Rican investment proposals for a cotton seed oil processing facility and a coconut processing facility.

Gower, processor and exporter of aloe interested in finding buyers of fresh plants and processed gel. (Dominican Republic.)

Furniture: manufacturer wishes to locate U.S. buyers for wooden furniture. Pieces offered: rocking chairs, bedroom sets, and dining sets. Photos and pricing available.

Large confectionary producer in Central America seeks wholesale and retail outlets for its broad line of caramels, toffees and hard candies. Packaging/wrapping is of highest quality and initial market investigation has shown prices to be extremely competitive. Product samples and price lists are available on request.

This is only a brief sampling of the items published in every CBPC newsletter—itself an attractive and informative document.

Does the CBPC deliver? Are the results illusory, the techniques sound or questionable? AID employed a professional external evaluation firm, Zucca and Garnitz, Ltd., to undertake an assessment of CBPC as the initial phase of the grant drew to a close. They put it succinctly: "The project has been effective. Clearly AID and CACI should

continue this program." This is the evaluator's summary of a 30-page report and several weeks of interviews and assessments. Clearly, CBPC has worked; the Chicago Association of Commerce and Industry has kept its pledges and met its obligations—and then some.

The excellent work done by CBPC is even more remarkale, Mr. President, when we consider that for decades upon decades, the Caribbean Basin nations have thought of the United States and its markets in terms of the east and gulf coasts—sometimes only in terms of the cities of Miami, New York, and New Orleans. To have made such substantial progress in such a short time in a market relatively unfamiliar with the character, resources and potential of the U.S. Midwest not only speaks highly of the capacity and capability of CBPC and its staff and sponsors, but augurs well for the future potential of the program as the markets become more familiar with each other's potentials.

My support for the President's Caribbean Basin Initiative has rested in considerable measure on the focus given to sustained economic ties and development of nature economic capacities of the trading partners. CBPC has proved itself an able vehicle for capturing and exploiting those capacties.

We know that American tax dollars cannot be poured in an endless stream into the Caribbean region. Economic growth is not sustained by such largess; it is too often discouraged and inhibited. The links which must be forged are those of mutually advantageous trade and investment, of gainful economic activity which helps each partner maximize its inherent economic advantages.

Thus, the Caribbean Basin Initiative seeks through a 12-year focus on compensatory trade and investment advantages to introduce U.S. firms and Caribbean enterprenuers and managers to each other as potential long-term partners. CACI and its Promotion Center have admirably filled that role within the limits of the initial mandate from AID—to cover Costa Rica and the Dominican Republic.

CACI's strengths have been the professionalism and product orientation already discussed, coupled with an independent position arising from its endorsement and funding directly from the Caribbean Basin Initiative central operating money. It is not the creature of any particular country mission; it presents the minuses as well as the pluses in assessing Caribbean opportunities for U.S. firms and vice versa—a feature the evaluator termed a special strength and a pattern which ought to be continued.

I was delighted to learn that CACI had agreed to submit the proposed program continuation and expansion which has been an explicit and integral part of the original AID/CACI agreement. CACI's willingness to continue the program bespeaks its business value; the warm reception by CBI nations and businessman highlights its unique and necessary role in the Caribbean region. I urge AID Administrator McPherson on September 18, 1984, to extend and expand the project.

I have been puzzled and somewhat troubled, Mr. President, by reports that some AID officials want to discontinue central funding for the CPBC and direct it to get support from individual AID missions within the Caribbean. There is no indication that such support is available; moreover it directly contravenes the very spirit and concept of the CBI and CPBC to force attention away from the Caribbean region as a focal point for policy and achievement.

What is still more troublesome, and I believe will distress my colleagues as much as it does me, is the suggestion that administrative shuffling will disadvantage a program which has not only worked, but worked well.

I urge most strongly that Administrator McPherson and Secretary of State Shultz demonstrate their ongoing support for President Reagan's Caribbean Basin Initiative by insuring the extension and expansion of the Chicago Association of Commerce and Industry's Caribbean Basin Promotion Center in its current funding mode and with the expansion plans carefully envisioned at the outset and still valid today. The program has exceeded its original goals, knows and can meet the next round of goals, and has proven an excellent investment of Federal dollars—with a remarkable 40:1 leverage and strong praise from independent auditors and evaluators.

I susbmit for the RECORD the article by Mr. De Lama outlining some CPBC-generated activities, and a copy of my September 18, letter to Administrator McPherson urging the CPBC's renewal as initially planned.

The material follows:

SEPTEMBER 18, 1984.

Mr. M. PETER MCPHERSON,
Administrator, Agency for International Development, Washington, DC.

DEAR PETER: Two years ago, you and I announced the creation of the Caribbean Basin Promotion Center (CBPC) at the Chicago Association of Commerce and Industry (CACI). We also announced funding for the initial phase of the program at that time.

The purpose of the Center is to realize President Reagan's objectives of promoting economic development in the Caribbean by linking the business community of the Caribbean with opportunities in Chicago, Illinois and the Midwest.

One of the reasons for my enthusiastic support for this program is that CACI—which is the largest metropolitan Chamber of Commerce in the United States committed itself to businesslike, bottom-line objectives for promoting trade and investment in the Caribbean. In its proposal to AID, CACI agreed to leverage $100 in new trade and investment for every dollar AID invested in the program.

Two years later, the Caribbean Center and CACI has surpassed these targets. This has been verified by an objective, third party AID evaluator who spent one week in Chicago and another week in the Caribbean speaking with the businesses actually served by the program. I have seen the evaluation report. It cuuld not be more positive.

The success of the program is truly. outstanding. for every government dollar invested in the program, CACI has leveraged $21 in new trade and is negotiating $33 in new investments. Just last Friday, another new $3 million export deal was arranged by CACI for Dominican rocking chairs. Enclosed is a copy of what CACI calls its scoreboard, giving the specifics of these results.

I doubt that any other AID private sector program for the Caribbean can match the record of the CBPC.

Nonetheless, a serious problem has arisen in discussions at the technical level with regard to the second phase of the program. An attempt is being made to phase the CBPC out of Washington support and leave the future of the Center to individual AID missions overseas—without any guarantee as to which missions might support the program for what amount or for what period of time.

This is despite the fact that the original agreement specified that there be a second phase of the program and an expansion to two other countries in that phase, provided that the evaluation was positive. In fact, CACI was informed last week that its funding is guaranteed for only an additional seven months after the present agreement expires in mid-November.

Last April CACI was requested by AID to submit a proposal for a second phase which would involve an extension of Washington support and expansion of the program to two new countries. That proposal is still pending. It calls for:

1. A two year extension of its program.
2. The expansion of the program to two new countries.
3. A 100% increase in program activity for only a 50% increase in cost (all with appropriate measurable targets).

I want you to know that I strongly support CACI's proposal for the second phase. It would be a big mistake to phase out Washington support for this program too soon and to leave one of our most successful programs without the assurances which will enable it to assure a quality program and a high-caliber staff.

This issue has become somewhat critical for the Association since its present agreement expires on November 15. For this reason, I would greatly appreciate if we could get this whole matter settled in the next month or so.

The Chicago/Caribbean initiative is important to Chicago and Illinois. It can demonstrate that it has created new markets and new investments for Caribbean nations. It is serving President Reagan's foreign policy and development objectives for that critical part of the world. In these early stages of the CBI, we should be giving clear support to our winners rather than consigning them to an unclear and uncertain future.

Warm personal regards,

CHUCK.

[From the Chicago Tribune, Aug. 20, 1984]

FIRMS FINDING CARIBBEAN VERY HOSPITABLE WATERS

(By George de Lama)

SANTO DOMINGO, DOMINICAN REPUBLIC.—Before they came down for a visit, Milwaukee-area businessmen Jordan Atinsky and Milton Kleinberg didn't know much about the investment opportunities being pushed by the Caribbean Basin Initiative in this tropical island nation.

After a few days here, they think the Dominican Republic doesn't know much about eggs. To hear the Wisconsin men tell it, however, the result may be a commercial marriage made in heaven.

"Can we do business here?" asked a satisfied Atinsky, outlining plans to produce eggs and byproducts with an eye toward eventual exports. "The answer is a very positive yes."

The seven-month-old initiative is already beginning to show positive results, its suporters say. U.S. imports from the 20 qualified Caribbean nations [there are 27 nations in all] are up 17 percent in the first six months of this year from a year ago. [U.S. imports from the rest of the world are up 36 percent.] About 3 percent of total U.S. imports originate in the Caribbean.

The much-ballyhooed initiative eliminates the duty barriers on most exports to the U.S. except for items such as shoes and textiles. More important, it guarantees this status for at least 12 years.

There has also been a tremendous increase in the number of business inquiries about operating in the Caribbean, said Walter Bastian, director of the Caribbean Basin Division at the U.S. Commerce Department. "We're getting 150 inquiries a week," he said. "Ten years ago, we got about 50 a week."

The Reagan administration would like to increase the amount of direct investment in the Caribbean, now about $11 billion from American investors, but it takes time, officials say.

The effect of the initiative is also somewhat muted by the fact that most of the goods that enter the U.S. under that program already qualify for preferential tariff treatment under the Generalized System of Preferences [which may expire this year before Congress can act to extend or modify it].

"We are happy with the first six months of the program," said Grant Aldonas, a Caribbean specialist at the U.S. Trade Representative's office. "The whole point is to try to diversify those economies away from boom and bust cycles. It's not intended to foster their economic dependency.

"But success requires that the Caribbean nations undertake the policy directions required to foster interest in the private sector, so a great deal of attention has been given to that."

Aldonas mentions the need for investment in the infrastructure, for amenities such as roads and electricity, by Caribbean governments in order to attract businessmen.

Kleinberg and Atinsky are two of the latest potential U.S. investors whose eyes have been opened to the Dominican Republic by a pilot program of the Chicago Association of Commerce and Industry.

Under a grant from the U.S. Agency for International Development, the Chicago group set up the Caribbean Basin Promotion Center in late 1982 to advance U.S. commerce in this region.

Designed to take advantage of new duty-free U.S. markets provided by the initiative, the program acts as "a missionary—we go out and preach the word," said Eduardo Fernandez, a prominent Dominican businessman and ex-president of the Central Bank, who serves as the group's representative.

The program has brought about $10.3 million in U.S. investments to the Dominican Republic in about a year and a half, said J. Richard Paullin, manager of the promotion center.

To a nation with a $2.5 billion foreign debt and negative cash reserves of about $500 million, that may not seem like much, and so far most experts say the jury is still out on the initiative.

"It remains to be seen how useful it will be," said Hatuey de Camps, a top aid of President Salvador Jorge Blanco. "It will take a long time to see the results."

Although U.S. officials have long cautioned that the initiative does not constitute a modern-day Marshall Plan for the Caribbean, the program engendered high hopes here. Some say those hopes haven't been fulfilled. Most of the nation's major export products already entered the U.S. duty-free under the preferences system, for example.

Yet some benefits are being seen. Exports for the first five months of 1984 are up 17 percent over last year. Nontraditional exports, many of them encouraged by the initiative, are up 14 percent in the same period. Government officials report dozens of applications by foreign businessmen for joint ventures with local enterpreneurs.

"The initiative is not going to be the chief vehicle for development, but eventually it might become one of several tools that could help the country come out from under its economic crisis." said economist Frank Moya Pons, of the Fund for the Advancement of Social Sciences.

For medium-sized businesses like Atinsky's and Kleinberg's, the initiative and the Chicago association's promotion of it have opened up the possibility of a new market they didn't know existed.

For starters, Atinsky says, there is golden opportunity to educate Dominicans about the egg's potential. "They need a whole new attitude about eggs here." Eggs are something he talks about with a lot of enthusiasm and a straight face. The Dominican Republic produces fewer than 1 million eggs a day, Kleinberg says.

He and his partner envision a joint venture with a local egg producer whereby the Wisconsinites could provide better packaging, refrigeration and marketing help for retailers. "In a lot of the grocery stores, a lot of the eggs are dirty," Atinsky said. "Right there, that can cost a store up to a third of its sales. After all, who wants to buy a dirty egg?" With better techniques, "just a little help" and some luck, Atinsky says, he thinks the nation's daily egg production can be increased to about 3 million.

The benefits to the Dominican Republican could include better nutrition for youngsters. At optimum production, some of the eggs can be exported to other island nations in the form of egg-based products such as mayonnaise.

Part of the thinking behind the grant that set up the promotion center, Fernandez says, was to open the U.S. industrial and manufacturing heartland to potential new markets in this part of the world.

"The major value in the long run is that it brings together business from the middle part of the U.S., which doesn't traditionally have that much contact with us, and opportunities here," he said. "It's no longer just us dealing with Miami and New York and the East Coast."

In fact, the word is reaching even farther. On the West Coast, Los Angeles businessman John Groom contacted the Chicago promotion center and came down for a trip under its auspices.

Looking to move his plastic Christmas tree manufacturing operation from disparate points in the Far East, Groom says he is considering the advantages of having the work done closer to the U.S., his chief market.

"Here, the idea would be to get into a joint venture with, say, a local plastics manufacturer," Groom said. "We would ideally have all the work done in one place," instead of having different stages completed in Taiwan, Hong Kong, Korea and Nevada.

In the end, as in all business investments, it is a matter of dollars and cents. Groom will do some hard figuring to determine whether the Dominican Republic is a better bet than Mexico, another option.

Officials were honest with Atinsky and Kleinberg, making no effort to downplay the April food riots that left more than 70 dead in the streets and frankly predicting that more unrest is likely when the government raises gasoline prices, as expected.

"They told it to us the way it really is," Kleinberg said, "but then they said, 'If you want to make money, we will help you.' "●

TRADE IN SERVICES PROVISIONS—CONFERENCE REPORT ON H.R. 3398

● Mr. INOUYE. Mr. President, I would like to focus for a few moments on an extremely critical segment of the trade package we are now considering that will have far-reaching and beneficial effects on an often unrecognized segment of U.S. trade. I am speaking about the trade-in-services provisions included in this bill. Enactment of this legislation will provide our U.S. service firms with the leverage necessary to deal with a growing number of nontariff trade barriers.

U.S. service industries operating abroad are increasingly encountering a proliferation of nontariff trade barriers, which at the very least stifle competition, and at worst, can virtually prevent U.S. service companies from conducting business in a foreign market. These barriers take various forms—some which are blatantly discriminatory and others which are more obscure.

Let's take a look at the financial services industry. It is not uncommon for U.S. financial services industries to be faced with laws, regulations, and practices which make it difficult, if not impossible, for a company to offer competitive services abroad. A number of U.S. credit card companies, for example, are finding themselves driven out of foreign markets through the imposition of regulations which have the effect of restricting card operations to domestic banks. In their efforts to rationalize their own credit system, foreign countries refuse to take into account the international

nature of many U.S. credit card firms, thus denying citizens and tourists the ability to use those cards, and closing off the market to other competitive providers of that service.

Other barriers are not quite so apparent. In some countries informal "cartel-like" groups are established to formulate policies, practices, and regulations to keep competition out of the market. Foreigners are not allowed to participate in these groups even though the decisions rendered are often incorporated into governmental policies.

Finally, one of the greatest barriers faced by financial services companies comes in the form of restrictions on the transfer of information across national borders, on access to the latest and most efficient means of transmitting that information, and on nondiscriminatory access to networks. Financial services companies are entirely dependent on reliable and affordable telecommunications systems to conduct daily business operations. The insurance business, for example, uses international telecommunications lines to complete millions of premium and claim transactions annually. Stock brokerage firms trade millions of dollars in securities, commodities, and bonds instantaneously over those lines every day. Regulatory restrictions imposed by Government-owned postal telephone and telegraphs can impose enormous burdens on these daily transactions. Limitations on the use of leased lines, equipment and procurement requirements, and denied access to specialized telecommunications networks such as automatic teller machines, can have a crippling effect on trade of these invisibles.

The conference report which we are now considering will provide the service sector with remedies to combat these discriminatory policies and practices. I am pleased that the U.S. Congress recognizes the problems which have begun to plague our service industries and urge my colleagues to support this truly landmark legislation.●

NATIONAL ORGAN DONATION AWARENESS WEEK 1985

● Mr. GORTON. Mr. President, it is my pleasure to announce that as soon as the 99th Congress convenes, I will introduce a resolution calling on the President to proclaim April 21-27, 1985, as "National Organ Donation Awareness Week." Congressman SID MORRISON will be introducing a companion measure in the House of Representatives, and we hope to again enlist the aid of our colleagues in cosponsoring and passing the resolutions.

This effort builds on the 1983 resolution, Public Law 98-99, and subsequent Presidential proclamations declaring April 22-28, 1984, as National Organ Donation Awareness Week. It traces back to the pioneering work of the Organ Donation Association in Washington State. The Organ Donation Association came together in 1976 as a partnership of the Lions Club, Northwest Kidney Foundation, the Washington State Medical Association Auxiliary, and others. The Organ Donation Association organized a statewide organ donation awareness week in 1981, and the idea has spread to most of the States of the Union.

Many Americans whose kidneys, eyes, heart, lungs, bone, skin, or other tissues and organs are unable to sustain them can be helped or cured through organ transplants. Through organ donation, those who care and have foresight may, when they die, give the gift of life and living to those in need. Since the passage of the Uniform Anatomical Gift Act in 1968, every State has legally recognized the organ donor card, in hopes that its citizens will make an anatomical gift upon death, as Sally and I have pledged to do. A donor may pledge any needed organs or parts; only specified organs or parts; or may donate his or her body for anatomical study.

State, local, and national organizations are getting together under umbrella groups to promote National Organ Donation Awareness Week in 1985. I anticipate that my House and Senate colleagues will be hearing from these dedicated people during the next few months, and I welcome their cosponsorship of the resolutions Congressman MORRISON and I will introduce shortly after the new Congress convenes.●

CHICAGO EXCELLENCE IN EDUCATION

● Mr. PERCY. Mr. President, one thing is certainly clear from the report issued by the National Commission on Excellence in Education entitled "A Nation At Risk"—we need to make a stronger commitment to encourage excellence in the educational system. One such effort, I am proud to say, is taking place in Chicago, IL.

The Chicago Public School System, which is the second largest school system in the country, has initiated a program within each of its 20 districts honoring outstanding educators, students, and parents. The selections for these outstanding persons are based on a criteria of excellence in either grades, community involvement, or instructional services.

I am especially pleased to see so many students being honored under this program for their dedication to excellence in education. I submit the names of these students and their schools for the RECORD:

Neil Kawashima, Peterson Elementary School.
Ismet Marinobic, Arai Middle School.
Alexei Pumarejo, InterAmerica Magnet School.
Joseph Isadore, Sear Language Academy.
Martza Naldorado, Pulaski Elementary School.
Peter Rivers, Von Humboldt School.
David Hill, Marconi Elementary School.
Nancy Rocha, Cooper Upper Cycle School.
Rudolph Barcia, Spaulding Elementary School.
Christine Garza, Thorpe Elementary School.
Erika Hardin, Hertle Elementary School.
Winston Lees, Hanes Elementary School.
Aruna Sethi, Twain Elementary School.
Jeffrey Young, Hope Community Academy.
P.J. Kanafoil, Kenwood Academy.
Jose Reyna, Marguerite Elementary School.
Clyde Easter, Stagg Elementary School.
Michael Payne, Bradwell Elementary School.
Lemont Driver, Fernwood Elementary School.
Carla LaRue, Hughes Elementary School.
William Megan, Jr., Taft High School.
Diana Yu Sun Lee, Admonson High School.
Antione Lewis, Lincoln Park High School.
Carlos Torres, Prosser Vocational High School.
Everett Jackson, Or High School.
Refugio Argelles, Wales High School.
Kimberly Hidson, Austin Community Academy High School.
Tony Harris, Manley High School.
Rosalyn Washington, Crane High School.
Patricia Carter, Ferragut High School.
Shirley Joiner, Phillips High School.
Scott Tlockzek, Kennedy High School.
Sharon Sloan, Du Sable High School.
William Clare, King High School.
Marguerite Griffith, Lindlbom High School.
Jeffrey White, Simeon Vocational.
Karen Lewis, South Shore High School.
Mikki Lawson, Carver High School.
James McGee, Chicago Vocational High School.●

JUDGE DAVID L. BAZELON'S 35 YEARS OF DISTINGUISHED SERVICE

● Mr. KENNEDY. Mr. President, this fall marks an important milestone in the distinguished career of one of America's foremost jurists, Judge David Bazelon of the U.S. Court of Appeals for the District of Columbia Circuit. Judge Bazelon was appointed to the DC Circuit by President Truman 35 years ago, after serving as an Assistant Attorney General in the Department of Justice. Judge Bazelon was chief judge of the DC Circuit from 1962 to 1978.

David Bazelon's contribution to modern jurisprudence has ranged broadly across the full spectrum of issues facing the Nation and the courts. His opinions on the insanity defense, in cases such as Durham versus United States and United States versus Brawner, revolutionized legal thinking on the relationship between psychiatry and the law. Judge Bazelon has also taken a particular in-

terest in the problem of assuring the integrity of the criminal process by attempting to define the contours of what constitutes effective assistance of counsel.

As a member of the DC Circuit, Judge Bazelon has grappled over the years with the vital questions of administrative law that frequently come before that court, ranging from communications law, occupational health and safety, economic regulation to nuclear power. Although the subject matter of his decisions is diverse, a common thread runs through them all—a keen concern for the proper role of the courts in resolving questions involving scientific and technical expertise.

Throughout his career, Judge Bazelon has been a zealous champion of the rights of the underprivileged and minorities. His opinions show the mark of a man who has never forgotten the human dimensions of law. David Bazelon has made a lasting contribution to our society, and it is a great privilege to pay tribute to him on this memorable occasion.●

HARTLY, DELAWARE CELEBRATES 250TH ANNIVERSARY

● Mr. BIDEN. Mr. President, on Friday, September 21, 1984, the 100 residents of the tour of Hartly, located in Kent County, DE, celebrated the 250th anniversary of their town. It was a glorious evening, and one that I was very proud to be a part of.

The celebration drew a standing-room-only dinner crowd, four times the size of the town population—a feat worthy of a town that has reached such a landmark in its existence. And it provided an opportunity for me, and many others who attended events during this week of festivities, to reflect not just on the history of Hartly, but on the history and importance of towns like Hartly to what we now call our American heritage and way of life.

Hartly is a proud town, and it has every right to be. It gave its sons in battle on every occasion, since the Revolutionary War, that this country has been threatened. And its citizens have played a unique role in the history and development of Delaware. I take this opportunity to congratulate the town of Hartly, and all its residents down through history, on reaching its 250th birthday, healthy, prosperous, and happy. And I thank all who have ever lived in Hartly for their contributions to the spirit and the substance of Delaware and America.

I took the occasion of the Hartly anniversary dinner to review some of those contributions, and to comment on the role of the small town in American history and in the formation of American values. I enclose the text of those remarks.

REMARKS OF SENATOR JOSEPH R. BIDEN, JR.

There can be few places anywhere in America where the celebration of a 250th anniversary will draw a crowd four times the size of the town's population.

There are few places in America where the population has not grown in a century, yet the town still has the vigor to celebrate such an anniversary.

And, in fact, there are not a whole lot of places in America that have been around for 250 years.

First, in 1734, as "Proctor's Purchase," then "Butter Pot," then "Hawkin's Chapel" or "Hawkin's Corner," then as "Hartley" with an "E,"—and finally as "Hartly" as we know it today.

All of which makes this 250th anniversary of Hartly, DE, in many ways a unique occasion, and one which I am happy to share with you this evening.

It is all the more remarkable for the number of people who obviously share that feeling with me. I'm not sure we could turn out 400 people to celebrate Wilmington's anniversary, but that's how many we have here tonight.

That's a real tribute to the energy and imagination of Ludwig Schweitzer and the town commissioners, along with all of the people of Hartly—but I believe this celebration also represents something else which is even more important.

Winston Churchill once said, "The further backward you look, the further forward you can see"—and I believe the spirit that moves Hartly today demonstrates that Churchillian wisdom.

I think everyone in Hartly, and everyone in this room tonight, can feel the future stirring as we look back at Hartly's long history.

What we have here is not an obituary for a town that was founded 250 years ago and never went anywhere.

What we have here, I believe, is a living image, both of an America that was and of the America that is to be.

I believe that there are so many of us here tonight, not only because we were attracted by enthusiasm of the people of Hartly for their anniversary.

But also because we all sense, in that enthusiasm, in Delaware and all across this Nation, a rebirth of our traditional and optimistic sense of our identity as Americans.

For a variety of reasons, that characteristic American optimism has taken a beating over the past 20 years.

Vietnam, Watergate, Abscam and the worst recession in more than 40 years have leveled one blow after another at our national morale.

Yet through it all, we have continued to be and we remain, the true descendants of Thomas Jefferson, who surveyed the turbulent American world of Hartly's youth without dismay and said, "Let us make the world anew."

And Americans have been making the world anew ever since.

Even this village of Hartly, as unchanged as it may appear to be over the past 250 years, has been a part of that profoundly American process.

Hartly was once, in fact, part of Maryland and was only that characterized 18th century America, especially the long feud between the Calverts of Maryland and the Penns of Pennsylvania over who owned the very ground on which Hartly stands.

Hartly was once, in fact, part of Maryland and was only adjudged, finally, to be part of what were then the three lower counties of Pennsylvania when Mason and Dixon ran their survey line just to the west of the town in 1763.

Hartly became part of Delaware only when Delaware became an independent State at the time of the resulution.

Delawareans, no doubt including men from Hartly, fought in every revolutionary war battle from Long Island to Yorktown.

Delawareans fought again, on land and sea, in the war of 1812, and a distinguished Delawarean, James A. Bayard, was one of the commissioners who negotiated the treaty ending that war.

When the Civil War erupted, Delaware found itself lodged precariously on the very border of that bloody dispute, but nevertheless, out of a population of little more than a hundred thousand, Delaware sent nearly 14,000 troops into battle on the Union side, again many of them no doubt from Hartly.

But, meanwhile, the railroad had come, Hartly had finally become Hartly, and the village survived, as it has survived to this day, through war and peace, in lean and prosperous days, when America was a frail youth among nations, and as America has become one of the great nations of the world.

Hartly has its history, and in many, significant ways it has been the history of this country—and Hartly, obviously, knows it. Otherwise we would not be here this evening.

And that is one important aspect of this celebration—because nothing is more important, I believe, to any community's sense of its identity, and to its ability to shape its own destiny, than a sense of its own history and a sense of its place in the larger scheme of things.

Americans generally have preserved a lively sense of their history, and there is a very good historical reason for that.

The Irish poet William Butler Yeats has written, "In Dreams begin responsibility"—and he might well have been writing about the men who founded this Nation.

They were, beyond a doubt, dreamers.

How else could they have declared the independence of 13 small colonies from the most powerful Nation on Earth?

How else could they have drawn up a Constitution they believed would "form a more perfect union, establish justice, insure domestic tranquility, provide for common defence, and secure the blessings of liberty" to themselves and their posterity?

They were deeply versed in the history of mankind, and there was little in that history to justify an optimistic future for a free people.

So they dreamed of a new history, of a new future—yet, precisely because of their knowledge of the past, they were that seemingly contradictory thing, practical dreamers who knew that "In Dreams Begin Responsibility."

The fact is that this country was founded with a very clear appreciation of its role in history.

When the founding fathers met in Philadelphia almost 200 years ago to draw up the Constitution, they were very much aware that they were preparing a document that was unique not only in the history of America, but unique in the history of the world.

Their immediate purpose was to create a constitution that would both shape American society and govern the new American nation.

But their deliberations, from beginning to end, were influenced by their certain belief that both that society and the great docu-

ment that sustained it would become models to generations of freedom-loving people all over the world.

And the past two centuries have amply justified that belief.

It has been said that a nation that forgets the lessons of its history is condemned to repeat them, and the experience of nations has proved that to be true.

But I believe the contrary of that statement is equally true, especially for the United States of America.

A nation that remembers the lessons of its history can use them constructively to build its own future.

It is that realization, I think, that has brought so many of us here tonight to celebrate Hartly's 250th anniversary.

And it is that spirit, I believe, that all of us can feel stirring again in this country today.

That does not mean we can control our future by attempting to relive even the greatest days of our past.

We can not move ahead by retreating into our "good old days," no matter how good they may have seemed.

Progress lies in understanding our history and fashioning from it new solutions, new ways of thinking and acting, new pathways into the future.

That's why I believe celebrating Hartly's heritage is an outstandingly healthy symbol of that practical sense of history that has always been America's catapault into the future.

I believe that, in the first place, not in spite of Hartly's history as a persistently small town, but at least in part because of the way Hartly represents small-town America.

It is in this America that our traditional values have been most faithfully preserved—and we are remembering as a people today just how critical those values are to our survival as a strong and Democratic nation.

It is this America that has endured and maintained its identity most successfully amid the social and economic pressures that have crushed cities and altered the landscape of this country from one coast to the other.

And it is to this America that the country is in many ways returning, not just to restore its values but also to recover the virtues of living in smaller communities.

Most Americans live today on our great metropolitan areas, like the megalopolis that stretches from Boston to Washington, DC, and most Americans will continue to live in those areas for the foreseeable future.

But there is nevertheless a distinctly perceivable trend for people to move out of those populous urban areas, to move back to smaller communities like Hartly—to seek, to find and to nourish their roots as Americans.

That trend is significant precisely because it does not represent simply a tidal movement of nostalgia.

It represents, among other things, the single most significant aspect of the tumultuous technological revolution that is sweeping our society.

And that is the almost mind-altering rapidity and scope with which we can communitate with each other today.

It may not seem like it when we have to pay three bills to keep one telephone working—it may not seem like it when television puts us to sleep with situation comedies or offends our morals with sex and violence.

It may not seem like it when the computer refuses to believe we have paid any of those three telephone bills.

But the fact is that the computer, communiactions satellites, laser beams flashing through glass cables, and a bewildering host of other telecommunications innovations are rapidly turning the world into a "Global village".

The model for that civilization of tommorow is not megalopolis, but, believe it or not, Hartly and the host of other small American towns that have not merely survived but have retained a strong sense of their past, a firm grip on their identity and an abiding belief in their future.

That's the significance, to my mind, of this celebration of Hartly's 250th anniversary.

It is clearly not an exercise in nostalgia, not a community yearning for days gone by.

It is clearly, the healthy appreciation by a vigorous community of the sources of its own strength and vitality.

It is clearly the product that has a past and is proud of it, but a community that also has a future and knows it.

Two hundred years ago, Michel de Crevecoeur asked, in his letters from an American farmer, "What then is the American, this new way?"

And he answered his own question by saying: "He is an American, who, leaving behind him all his ancient prejudices and manners, receives new ones from the new mode of life he has embraced, the new government he obeys, and the new rank he holds . . . the American is a new man, who acts upon new principles, entertains new ideas and forms new opinions."

That is the traditional voice of the optimistic American and it is that voice we are hearing authentically here in Hartly tonight, the same voice we can hear speaking all over America if we are listening.

This is the voice of practical dreamers, who know that with a sense of shared purpose, a spirit of self-sacrifice, and a willingness to face the future unafraid, we can make our world anew, and we can redeem the spirit of America.

Thank you, Hartly, for reminding us.●

UNITED STATES-JAPAN TRADE IMBALANCE

● Mr. PERCY. Mr. President, the patience of the Senate, and I am certain the entire Congress, is tested once again by the latest report on the growing United States trade deficit with Japan. Estimates for 1984 put the deficit in excess of $32 billion or almost one-quarter of the total U.S. trade deficit of $130 billion.

Last month in Washington another round of discussions with Japanese Government representatives was logged in our continuing effort to persuade Japan to eliminate tariff and nontariff barriers to American exports. My frustration over the entire problem of the United States-Japan trade imbalance is compounded by the fact that on the agenda for that meeting were many of the same product issues we have been addressing year after year without final resolution. I recognize many are complex in nature and resist easy answers but I am certain there are others that could be solved by determined action on the part of the Japanese Government and without significant harm to Japanese industry.

Let me illustrate my point using the case of American exports of chocolate confectionery. We have pursued Japan since 1979 to reduce its excessive tariff on chocolate confectionery which at that time was 35 percent ad valorem. Now, 5 years later, the tariff stands at 20 percent ad valorem—among the highest of any industrialized nation—and certainly an embarrassment to Japan when compared to the U.S. rate of 5 percent on solid chocolate and 7 percent on chocolate confectionery. The situation is made worse by the fact that the 20 percent duty is assessed on a discriminatory CIF valuation basis which penalizes U.S. exporters because of distance and special shipping containers used to ensure product freshness.

There is no realistic justification for Japan's perpetrating this blatant tariff barrier to imports of American cholcolate confectionery. The confectionery industries in Japan and the United States are comparable. They are both mature, diverse industries composed of companies ranging from multinational corporations to small family enterprises. Even manufacturing costs are similar including increased raw material expenses caused by domestic agricultural price-support programs for sugar, dairy, and peanuts.

A critical difference between the two is that U.S. companies do not demand the imposition of high tariffs to protect their domestic market or compensate them for increased agricultural raw material costs. Rather, the U.S. market is open to imports of chocolate confectionery, a fact well known to Japanese exporters who have increased shipments of chocolate and chocolate confectionery to the United States from 4 metric tons in 1980 to over 85 metric tons in 1983. The low U.S. duty, assessed on f.o.b. value rather than CIF basis, and the absence of nontariff barriers allows Japanese chocolate confectionery to sell in the United States at prices marginally above their home market.

Japan's treatment of chocolate confectionery imports is in sharp contrast to the United States despite the comparable strength of the two industries. Persistently high tariffs have been used to restrict imports to an average 3 percent share of the Japanese chocolate confectionery market. In fact, imports have declined from 5,081 metric tons in 1980 to 4,923 metric tons in 1983 as fewer foreign exporters can sustain the high tariff in addition to the costs of intensive advertising, distribution, and custom packaging so necessary for success in Japan.

The determined survivors, and they are the U.S. companies that today make up 48 percent of Japan's imports of chocolate confectionery, are meeting the challenge. They have repackaged for Japan, increased advertising and distribution efforts, and they have won consumer acceptance. The major remaining obstacle between American chocolate confectionery products and the Japanese consumer is the 20 percent ad valorem tariff.

The U.S. Trade Representative has formally requested Japan to reduce its chocolate confectionery tariff to the U.S. rate of 7 percent effective April 1981, with an interim rate of 10 percent by April 1985. I strongly support this proposal and look to the Government of Japan to take strong, decisive action to eliminate this tariff as an issue between our nations once and for all.●

LEO J. FARLEY, JR.

● Mr. TSONGAS. Mr. President, I would like to draw the attention of my colleagues to the recent death of Leo J. Farley, Jr., a friend, public servant, and hero of my home city. To the people of Lowell, MA, Mr. Farley was the embodiment of love and kindness; he was, as one friend remembered him, "the original Mr. Nice Guy."

As a former Lowell mayor and city councilman, Mr. Farley championed the good of the community; he upgraded city parks and athletic facilities, promoted centers and programs for the elderly, and consistently helped residents obtain jobs and medical assistance. Indeed, Mr. Farley identified his constituency as "the average person who needed help."

A graduate of Lowell High School, he served aboard the U.S.S. *Alaska* in World War II as fire control technician, and fought in Okinawa, Iwo Jima, and Leyete; he received an honorable discharge from the U.S. Navy in 1946.

In 1955, when working as a guard at the Massachusetts Correctional Facility in Concord, Mr. Farley underwent a tragedy of near fatal consequence. While preventing an escape by convicts, he suffered a broken neck and spinal injuries that forced him into early retirement. Yet instead of turning angry and cynical toward life, he embraced it; he wanted to make the world a better place.

Thus Mr. Farley became active in many of the community's volunteer organizations, especially those dedicated to helping children; he joined the Lowell Boys' Club Alumni Association and the Friends of Lowell High, and became athletic director of St. Michael's CYO—a position he was to hold for more than 15 years. As a genuine portrait of kindness and integrity, he set an example of adulthood that all children might emulate.

In 1969, Mr. Farley entered politics to help people on a larger scale. We were elected together in that year. In light of his popularity, he was time and again reelected to the Lowell City Council and, after serving one term as mayor, was elected in 1977 to the Commonwealth of Massachusetts' House of Representatives.

But Leo J. Farley the politician will not be remembered so much as Leo J. Farley the man. An exemplum of love and altruism in the truest sense, he was a hero to any person in need. As a former employer of Mr. Farley remarked, "no one I ever knew did as much for so many people."

I take great pride in eulogizing the memory of Leo J. Farley, Jr., and I join his wife, Mary, and children, Leo III, Michael, James, and Kathleen in honoring his commitment to humanity.●

TECHNICAL CORRECTION TO THE MOTOR VEHICLE THEFT LAW ENFORCEMENT ACT OF 1984

● Mr. DANFORTH. Mr. President, on October 4, the Senate passed H.R. 6257, the Motor Vehicle Theft Law Enforcement Act of 1984. This bill will make a major contribution to deterring the serious crime of auto theft in this country. This bill requires manufacturers to place identification numbers on the major parts and components of high-theft rate automobiles.

Mr. President, I have been informed by my House colleagues that H.R. 6257, as passed by the House and the Senate, contains a technical error in section 201(a); this section provides penalties for alteration of motor vehicle identification numbers and specifies conditions for forfeiture of motor vehicles and motor vehicle parts whose identification numbers have been altered.

The measure before us today, House Concurrent Resolution 373, which passed the House on October 9, will correct that error. Specifically, section 201(a) intends that the following persons not be subject to the penalty and forfeiture provisions of H.R. 6257 relating to alteration of vehicle identification numbers:

First, a motor vehicle scrap processor or a motor vehicle demolisher who complies with applicable State law with respect to vehicles or parts; second, a person who repairs a vehicle or part, if the removal, obliteration, tampering, or alteration is reasonably necessary for the repair; and third, a person who restores or replaces an identification number for a vehicle or part in accordance with applicable State law.

Due to the technical error in H.R. 6257 as passed, however, the exemption of these persons from the forfeiture provisions of section 201(a) is unclear. House Concurrent Resolution 373 will correct this ambiguity, making it clear that the persons identified above are indeed those for whom the exemption from the forfeiture provisions is intended.

Mr. President, House Concurrent Resolution 373 provides a noncontroversial technical correction to H.R. 6257. I urge my colleagues to join me in supporting passage of this measure.●

BROKERED DEPOSITS

● Mr. MATTINGLY. Mr. President, this past Monday, the Federal Home Loan Bank Board [FHLBB] published in the Federal Register a revised final rule regarding brokered deposits. The only change between this rule and the one the Board published last March is the date.

Simply put, the Board has extended the effective date of its earlier rule from October 1, 1984, to February 1, 1985.

Mr. President, the Board has taken this action despite overwhelming support in this Chamber for less onerous and restrictive measures to deal with brokered deposits. Why the Board persists in this manner is beyond me.

Perhaps they need to remove their heads from the sand and look at these facts:

The Federal district court in the District of Columbia clearly stated that the Board lacks the authority to promulgate regulations which limit deposit insurance on brokered funds—the case is on appeal.

S. 2851 was overwhelmingly approved by the Senate last month, and the bill included a provision which Senator D'AMATO and I drafted, and which was cosponsored by more than a majority of members on the Banking Committee, which caps the amount of brokered funds a financial institution may accept. The bill also establishes minimum net worth requirements that financial institutions must meet before accepting any brokered funds.

The major findings of a recently released report by the House Government Operations Committee include:

. . . there is no evidence that brokered deposits are more likely to be uninsured or to contribute to an institution's losses than other kinds of rate sensitive purchased liabilities . . .

Deposit brokerage, including the brokerage of insured deposits, has a legitimate and useful function in financial markets and should not be needlessly restricted.

While the Bank Board is claiming that brokered funds are a form of "cancer" on the insurance system, it is privately countenancing the use of brokered funds to bail out the Nation's largest thrift, American Savings & Loan. Only recently Prudential-Bache Securities began marketing $1 billion

in CD's in an effort to forestall a liquidity crunch at that institution.

Frankly, Mr. President, I think enough is enough. The Bank Board has made its point. They are concerned as we are in the Senate about the long-term solvency of the deposit insurance system. Afterall, that system buttresses public confidence in our financial institutions.

But in the case of brokered deposits, the regulators are dead wrong. They have embarked on a course of action that defies sound practical and economic judgment and, moreover, lacks any real support in Congress.

I respectfully suggest, Mr. President, that the Bank Board call a temporary truce—a moratorium, if you will, on any further efforts to restrict deposit insurance on brokered funds. Now, I'm not a fan of moratoriums, because they tend to put off the inevitable hard decisions on issues. But in this case, the tide is moving decidedly away from the Bank Board's initiatives. Clearly, the Senate does not support the regulators in this matter as recent votes indicate.

I realize fully that other moratoriums in the financial services area have been imposed and extended when congressional action was not forthcoming. However, the issue of brokered funds is a relatively new one for Congress. Yet, despite the newness of the issue, the Senate Banking Committee responded to this situation by including language in S. 2851 that would curb potential problems and abuses involving these funds.

Unfortunately, time is about to run out on this Congress, and it's improbable that our bill, S. 2851, will be acted on by the other body before adjournment.

Senator GARN, the chairman of the Banking Committee, has, however, already stated that he will move for early consideration of banking legislation in the next Congress. I am confident that a brokered deposits bill will be included in that legislative package. I'm equally confident, however, that final action on any banking bill will not be completed before the rule takes effect on February 1, 1985—a few short weeks after Congress reconvenes.

That is why I urge the Board to further amend the rule to allow for sufficient time for Congress to work out a legislative solution next year to the brokered deposits question. It is the only reasonable way to proceed.●

WORCESTER POLYTECHNIC INSTITUTE'S WASHINGTON PROJECT CENTER

● Mr. TSONGAS. Mr. President, in these days when it is fashionable to decry the deficiencies of our American educational system, it is a distinct pleasure to recognize a successful, innovative educational program. This is the 10th year of operation of the Washington Project Center, a special program of Worcester Polytechnic Institute, a private college of engineering, science, and management located in Worcester, MA. WPI offers an unusual, project-based degree program. Every WPI student must complete three significant projects, one in the humanities, one in the student's major, and one project that relates society and technology. The Washington Project Center provides a select group of students a unique opportunity to fulfill the society-technology project requirement in Washington, working at a government or agency office on topics of current interest to the Nation.

The Washington Project Center program superficially resembles the internship programs that are familiar in Washington, but there are several significant differences. In the WPI program, teams of three students, who are usually engineering or science majors, work on a single project topic defined in advance by the sponsoring agency. The students work as temporary professional staff members under the guidance of an agency liaison and two WPI faculty members who accompany the students to Washington and who interact closely with the students and the agency liaison. The Washington Project Center is a highly structured, goal-directed program which provides the students an opportunity to interact at a professional level with responsible officials on real problems facing the sponsoring agency and the Nation, thereby making a significant contribution to the agency's mission. The sponsoring agency obtains the services of three young, energetic staff members who are dedicated during their stay in Washington to full-time research on a single problem. This intensity results in a valuable contribution to the sponsoring agency which is presented both in written and in oral reports by the students before they leave Washington. In contrast to many internship programs, the WPI students are actively involved in, not simply exposed to, the pressures and rewards of working in the Nation's Capital.

Over 300 WPI students have participated in the Washington Project Center on over 100 projects sponsored by more than 40 agencies and offices including the Senate Budget Committee and my Washington office.

Worcester Polytechnic Institute is to be commended for its bold, innovative Washington Project Center and congratulated on its 10th year of successful operation.●

PROPOSED ARMS SALES

● Mr. PERCY. Mr. President, section 36(b) of the Arms Export Control Act requires that Congress receive prior notification of proposed arms sales under that act in excess of $50 million or, in the case of major defense equipment as defined in the act, those in excess of $14 million. Upon such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to the chairman of the Foreign Relations Committee.

In keeping with the committee's intention to see that such information is available to the full Senate, I ask to have printed in the RECORD at this point the notifications which have been received. The classified annexes referred to in several of the covering letters are available to Senators in the office of the Foreign Relations Committee, room SD-423.

The notifications follow:

DEFENSE SECURITY ASSISTANCE AGENCY,
Washington, DC, October 5, 1984.

In reply refer to: I-14469/84ct.

Hon. CHARLES H. PERCY,
Chairman, Committee on Foreign Relations, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b) of the Arms Export Control Act, we are forwarding under separate cover Transmittal No. 85-01, concerning the Department of the Navy's proposed Letter of Offer to Singapore for defense articles and services in excess of $50 million. Since most of the essential elements of this proposed sale are to remain classified, we will not notify the news media.

Sincerely,

GLENN A. RUDD,
Deputy Director.

TRANSMITTAL NO. 85-01

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b) of the Arms Export Control Act

(i)(U) Prospective purchaser: Singapore.

(ii)(C) Total estimated value: (Classified information).

(iii)(C) Description of articles or services offered: None.

(iv)(U) Military department: Navy (LAU).

(v)(U) Sales commission, fee, etc., paid, offered, or agreed to be paid: None.

(vi)(U) Sensitivity of technology contained in the defense articles or defense services proposed to be sold: See attached annex.

(vii)(U) Section 28 report: Case not included in section 28 report.

(viii)(U) Date report delivered to Congress: October 5, 1984.

POLICY JUSTIFICATION

(U) This proposed sale will contribute to the foreign policy and national security objectives of the United States by helping to improve the security of a friendly country which is a continuing force for peace and regional stability in Southwest Asia. Singapore's strategic location commands the primary route between the Indian and Pacific Oceans.

(U) The prime contractor will be the McDonnell Douglas Corporation of St. Louis, Missouri.

(U) Implementation of this sale will not require the assignment of any additional

U.S. Government personnel or contractor representatives to Singapore.

(U) There will be no adverse impact on U.S. defense readiness as a result of this sale.

DEFENSE SECURITY ASSISTANCE AGENCY,
Washington, DC, October 5, 1984.
In reply refer to: I-04682/84ct.

Hon. CHARLES H. PERCY,
Chairman, Committee on Foreign Relations, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b) of the Arms Export Control Act, we are forwarding herewith Transmittal No. 84-69 and under separate cover the classified annex thereto. This Transmittal concerns the Department of the Army's proposed Letter of Offer to Pakistan for defense articles and services estimated to cost $30 million. Shortly after this letter is delivered to your office, we plan to notify the news media of the unclassified portion of this Transmittal.

Sincerely,

GLENN A. RUDD,
Deputy Director.

TRANSMITTAL NO. 84-69

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b) of the Arms Export Control Act

(i) Prospective purchaser: Pakistan.

(ii) Total estimated value:

	Million
Major defense equipment [1]	$22
Other	8
Total	30

[1] As defined in section 47(6) of the Arms Export Control Act.

(iii) Description of articles or services offered: A quantity of 8,000 rounds of M650 8-inch high explosive projectiles; 20,000 M188A1 propelling charges; 12,000 M106 8-inch projectiles; 20,000 M739 fuzes and 21,000 M82 percussion primers.

(iv) Military department: Army (VDL).

(v) Sales commission, fee, etc., paid, offered, or agreed to be paid: None.

(vi) Sensitivity of technology contained in the defense articles or defense services proposed to be sold: See annex under separate cover.

(vii) Section 28 report: Included in report for quarter ending June 30, 1984.

(viii) Date report delivered to Congress: October 5, 1984.

POLICY JUSTIFICATION

PAKISTAN—8-INCH PROJECTILES AND PROPELLING CHARGES

The Government of Pakistan has requested the purchase of a quantity of 8,000 rounds of M650 8-inch high explosive projectiles; 20,000 M188A1 propelling charges; 12,000 M106 8-inch projectiles; 20,000 M739 fuzes and 21,000 M82 percussion primers at an estimated cost of $30 million.

This sales will contribute to the foreign policy objectives of the United States by enabling Pakistan to increase its capability to provide for its own security and defense, particularly in view of the increased threat resulting from the Soviet invasion of Afghanistan. Pakistan is playing an increasingly greater role as a stablizing force in the Indian Ocean region. It is strategically important in the defense of sea lines of communication in the Arabian Sea and approaches to the Persian Gulf.

These projectiles would be used in the 8-Inch howitzer Pakistan has purchased from the United States. The Pakistan Army can absorb these articles as it has artillery officers trained for this equipment. Quality Assurance Teams have been provided in country as part of the howitzer sale to ensure that the howitzers are fully operable upon receipt by the Pakistan Army.

The sale of this equipment and support will not affect the basic military balance in the region.

The manufacturer will be the Lone Star Ammunition Plant of Texarkana, Texas.

Implementation of this sale will not require the assignment of additional U.S. Government personnel or contractor representatives to Pakistan.

There will be no adverse impacts on U.S. defense readiness as a result of this sale.

DEFENSE SECURITY ASSISTANCE AGENCY,
Washington, DC, October 5, 1984.
In reply refer to: I-12186/84ct.

Hon. CHARLES H. PERCY,
Chairman, Committee on Foreign Relations, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: Pursuant to the reporting requirements of Section 36(b) of the Arms Export Control Act, we are forwarding under separate cover Transmittal No. 84-70, concerning the Department of the Army's proposed Letter of Offer to Switzerland for defense articles and services in excess of $50 million. Since most of the essential elements of this proposed sale are to remain classified, we will not notify the news media.

Sincerely,

GLENN A. RUDD,
Deputy Director.

TRANSMITTAL NO. 84-70

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b) of the Arms Export Control Act

(i)(U) Prospective purchaser: Switzerland.

(ii)(C) Total estimated value: (Classified information).

(iii)(C) Description of articles of services offered: None.

(iv)(U) Military Department: Army (VEG).

(v)(U) Sales commission, fee, etc., paid, offered, or agreed to be paid: None.

(vi)(U) Sensitivity of technology contained in the defense articles or defense services proposed to be sold: See attached annex.

(vii)(U) Section 28 report: Case not included in section 28 report.

(viii)(U) Date report delivered to Congress: October 5, 1984.

POLICY JUSTIFICATION

(U) This sale will further the foreign policy goals of the United States by helping to assure the defense of a friendly country whose avowed neutrality has long contributed to the security of Western Europe. It is consistent with the U.S. policy of assisting other nations to provide for their own defense and security. Switzerland has traditionally based its independence on a strong and ready military establishment.

(U) This weapons system is required by the Government of Switzerland to replace its 30 year plus weaponry and to improve its Army and Militia Military. Switzerland will have no difficulty absorbing this system and this sale will increase the military defense capability of Switzerland. The sale of this equipment and support will not affect the basic military balance in the region since comparable or identical weapons already exist there.

(U) The prime contractors will be the Hughes Aircraft Company of Tucson, Arizona and the Emerson Company of St. Louis, Missouri.

(U) Implementation of this sale will not require the assignment of any additional U.S. Government personnel or contractor representatives to Switzerland.

(U) There will be no adverse impact on U.S. defense readiness as a result of this sale.●

NOTICE OF DETERMINATION BY THE SELECT COMMITTEE OF ETHICS

● Mr. STEVENS. Mr. President, it is required by paragraph 4 of rule 35 that I place in the CONGRESSIONAL RECORD this notice of a Senate employee who proposes to participate in a program, the principal objective of which is educational, sponsored by a foreign government or a foreign educational or charitable organization involving travel to a foreign country paid for by that foreign government or organization.

The Select Committee has received a request for a determination under rule 35 which would permit Mr. Donald F. Massey, Deputy Sergeant at Arms, to participate in a conference in the Federal Republic of Germany, sponsored by the Konrad Adenauer Stiftung, from November 10-17, 1984.

The committee has determined that participation by Mr. Massey in the program in the Federal Republic of Germany, at the expense of the Konrad Adenauer Stiftung to discuss American-German relations, is in the interest of the Senate and the United States.●

CLARENCE NEFF

● Mr. PERCY. Mr. President, it is with mixed feelings that I note the occasion of Representative Clarence E. Neff's retirement from the Illinois General Assembly. After 22 years of dedicated service to his many constituents in Wester, IL, Clarence has decided that its time to go into a working retirement at home in Stronghurst, IL, with his lovely wife, Elaine; son, Chuck; and daughter, Janice.

Clarence Neff is recognized as one of the finest, most trusted and most respected public servants that the State of Illinois has ever produced. There is nothing flashy about Clarence's political style; he operates quietly and behind the scenes. But, after 22 years of maintaining this low political profile, Clarence has accomplished more in the way of providing excellent constituent services and delivering necessary transportation projects to the people of his district than any other public servant I know of.

For all of his public years, Clarence has held true to one eloquent principle: helping people is the substance of politics; the friends you make, its decoration. And, there are few people in

our great State more deserving of praise and recognition than Clarence Neff. It is truly a political blessing in Illinois politics to have Clarence Neff counted as one of your friends and allies.

Mr. President, it is my privilege and distinct honor to join with friends throughout the State of Illinois in saying "thank you" to Clarence Neff for 22 years of outstanding and dedicated public service.●

TRADEMARK CLARIFICATION ACT OF 1984

● Mr. DOLE. Mr. President, I have just been informed that the House has concurred in the Senate amendments to H.R. 6163, which passed the Senate on October 3. I would take just a few moments to express my appreciation for the expeditious consideration of the bill, as amended, in the House and my support for the package of legislative items that it contains.

H.R. 6163 has become the vehicle for an important collection of measures in the areas of patent, trademark, and copyright law and court improvements. The items that make up that package include the Trademark Clarification Act of 1984, the Semiconductor Chip Protection Act, the Patent Procurement Policy Act, State Justice Institute, civil priorities clarification, the District Courts Organization Act, and a group of technical amendments to the Federal Court Improvements Act of 1980. Each of these items had been more than adequately considered in both House and Senate in the normal course of the legislative process before inclusion in H.R. 6163.

I take particular interest in the provisions of title V of the bill. This title amends various sections of title 35, United States Code that govern the ownership and licensing of patent rights to inventions developed by individuals working for or with universities or other nonprofit institutions that operate Government laboratories on a contract basis.

This Senator has been involved with this issue for a number of years, beginning in the late 1970's when the problem of inadequate commercialization of inventions developed with Government research and development dollars first came to my attention. I worked closely with our former colleague, Senator Bayh of Indiana, in shaping legislation that initiated a change in the philosophy in favor of Government ownership of inventions that had prevailed in the agencies up to that time. In studying the question of why so few Government patents have seen the light of day in the marketplace, where their benefits can be returned to the public in the form of new products and new jobs, it became apparent that agency rules requiring Government ownership were the crux of the problem. Our work led to the passage, in 1980, of the Patent Law Amendments Act of that year, Public Law 96-517. That legislation established—for the first time—a rule in favor of contractor ownership of inventions developed under Federal research contracts. Due to some concerns, however, over precisely how well the new policy would work, the 1980 law was limited in its application to universities and small businesses.

The 1980 amendments to the patent laws spurred a quantum leap in the number of new inventions patented by universities and small business operating under such contracts. Prior to the passage of Public Law 96-517, university invention disclosures had shown a steady decline. Now, such disclosures are up by a substantial percentage, university and industry collaboration is at an all time high, and many new technologies—such as recent advances in gene engineering—are creating new opportunities for economic advancement while improving the quality of life.

In spite of this success story, it has become apparent during the past 4 years that the 1980 law can be improved. Moreover, there are important areas of Government research that were not covered by the 1980 legislation that will benefit from an application of its principle of contractor ownership. The objectives of the new legislation are to improve upon the 1980 law with regard to universities and expand its reach to the Government contract laboratories managed by the Department of Energy, which have so far been exempted from the reach of the 1980 law by agency regulation.

Mr. President, I will not take the time now to detail the changes in law that are provided for in title V of H.R. 6163. I ask that a colloquy between myself and Senator DECONCINI, one of the cosponsors of the legislation, and a sectional analysis of title V appear at the conclusion of my remarks in the RECORD. I want also to express my thanks for the support of Senator LAXALT on the bill, and the assistance of Senators HATCH, MATHIAS, HEFLIN, and LEAHY and their staffs for their work in helping to move this legislation off the Senate floor. I would also note for the record the invaluable assistance rendered by Congressmen KASTENMEIER, FISH, and MOORHEAD in securing approval the House floor.

The material follows:

SUMMARY OF MAJOR PROVISIONS CONTAINED IN TITLE V OF H.R. 6163

1. S. 2171 allows agencies to limit patent ownership by small business or nonprofit organizations that are not located or do have a place of business in the United States. This will clarify that agencies can control the export of technology in cases where the performer is not a domestic organization.

2. S. 2171 repeals the P.L. 96-517 provision excepting inventions made by nonprofit organizations when operating Government-owned laboratory facilities. This provides for uniform treatment of all domestic nonprofit organizations regardless of where they perform their federally funded work and is particularly important to organizations that manage Department of Energy laboratories.

3. As part of the change affecting nonprofit contractors of Government-owned facilities, S. 2171 includes a limit on the amount of royalties that the contract operators are entitled to retain after paying patent administrative expenses and a share of the royalties to inventors. The limit is based on five percent of the annual budget of the laboratory, but includes an incentive provision rather than a simple cap to stimulate continued efforts to transfer technology if royalties ever reach the five percent figure. This provision ensures that Government shares in the results of its research expenditures in the event the contract operator of a Government laboratory makes a major discovery.

4. S. 2171 includes the favorable reporting provisions that were developed in OMB Circular A-124. These provisions have been proven to work. Small business and nonprofit organizations should be assured of their continuance beyond February 1985 when A-124 is scheduled for sunset expiration.

5. S. 2171 repeals certain conditions placed on licensing of inventions by nonprofit organizations. Among the conditions repealed is the five year cap on the grant of an exclusive license to an industrial concern (other than a small business). This provision has made the licensing and development of invention that require Food and Drug Administration approval prior to marketing difficult to negotiate. Its repeal will remove a substantial barrier to industry participation in research projects at universities and other nonprofit organizations.

6. The authority to issue regulations under P.L. 96-517 is consolidated by S. 2171 from the General Services Administration and the Office of Management and Budget into the Department of Commerce. This consolidation is consistent with other Commerce responsibilities for creating an environment favorable to the commercialization of the results of federally-funded research.

7. S. 2171 expands the definition of "invention" in P.L. 96-517 to include—"any novel variety of plant which is or may be protectable under the Plant Variety Protection Act (7 U.S.C. 2321 et. seq.)." This assures nonprofit organization ownership of some inventions resulting from research in agriculture which were not previously covered by P.L. 96-517.

SECTIONAL ANALYSIS

SECTION 501

Subsections (1) and (2) expand the definition of "invention" in P.L. 96-517 to include—"any novel variety of plant which is or may be protectable under the Plant Variety Protection Act (7 U.S.C. 2321 et. seq.)." This assures nonprofit organization ownership of some inventions resulting from research in agriculture which were not previously covered by P.L. 96-517.

Subsection (3) allows agencies to limit patent ownership by small business or nonprofit organizations that are not located or do not have a place of business in the United States. This will clarify that agencies can control the export of technology in cases where the performer is not a domestic organization. The section also repeals the P.L. 96-517 provision excepting inventions

made by nonprofit organizations when operating Government-owned laboratory facilities. This provides for uniform treatment of all domestic nonprofit organizations regardless of where they perform their federally funded work and is particularly important to organizations that manage Department of Energy laboratories. Finally, the section adds a new subsection "(iv)" to 35 U.S.C. 202(a) that would exempt laboratories which focus on nuclear propulsion work or nuclear weapons development from contractor ownership requirements.

Subsection (4) creates an oversight in the Department of Commerce of agency use of the exceptions to small business or nonprofit organization invention ownership.

Subsection 4A amends 35 U.S.C. s. 202(b) to bring agency determinations on questions of contractor ownership within the provisions of 35 U.S.C. s. 203(2).

Subsection (5) includes the favorable reporting provisions that were developed in OMB Circular A-124. These provisions have been proven to work. Small business and nonprofit organizations should be assured of their continuance beyond February 1985 when A-124 is scheduled for sunset expiration.

Subsection (6) provides assurance that agencies can protect information provided to the Government on their invention utilization efforts.

Subsection (7) and (8) repeal certain conditions placed on licensing of inventions by nonprofit organizations. Among the conditions repealed is the five year cap on the grant of an exclusive license to an industrial concern (other than a small business). This provision has made the licensing and development of inventions that require Food and Drug Administration approval prior to marketing difficult to negotiate. Its repeal will remove a substantial barrier to industry participation in research projects at universities and other nonprofit organizations.

Subsection (8) also places a limit on the amount of royalties that the contract operators of Government-owned laboratories are entitled to retain after paying administrative expenses and a share of the royalties to inventors. The limit is based on five percent of the annual budget of the laboratory, but includes an incentive provision rather than a simple cap to stimulate continued efforts to transfer technology if royalties ever reach the five percent figure. This provision ensures that the Government will share in the results of its research expenditures in the event the contract operator of a Government laboratory makes a really major discovery.

Subsection (9) assures that a dispute which arises under either a grant or a contract will be handled in a similar manner by the Federal agencies, and provides for Judicial review of agency decisions.

Subsections (10), (11), (12) consolidate the authority to issue regulations under P.L. 96-517 from the General Services Administration and the Office of Management and Budget into the Department of Commerce. This consolidation is consistent with other Commerce responsibilities including creating an environment favorable to the commercialization of the results of federally-funded research. In addition, section (11) provides to the Department of Commerce certain information clearinghouse functions that will enable the Department to better serve the needs of the Federal agencies.

Subsection (13) assures that no agency will be permitted to waive the normal license retained by the Government or the capability to march-in in accordance with P.L. 96-517 in any situation where a Federal contractor elects to retain ownership of an invention made with Federal support.

Subsection (14) prohibits the agency retention of patent rights in any invention developed under an educational grant. The scope of the provision includes all types of such grants and it is intended to be a complete ban upon retention or rights by grantor agencies.

Subsection (15) makes appropriate caption changes.

COLLOQUY CONCERNING THE PROVISIONS OF TITLE V OF H.R. 6163

Senator DECONCINI. I would like to ask the Senior Senator from Kansas a few questions about the provisions of Title V of H.R. 6163, passed by the Senate on October 3rd and by the House on October 9, 1984. I know that he was the principal sponsor of this legislation as well as the principal sponsor of P.L. 96-517, which Title V amends. First, would you please explain how this bill will affect Government owned laboratories that are operated by university or other nonprofit contractors?

Senator DOLE. The answer to this question has three parts. First, P.L. 96-517 gave nonprofit organizations the right to own inventions made with government research and development funding. That law included, however, an exception allowing the Government to retain title to inventions made by the nonprofit contractors of Government owned laboratories. In the main, this bill removes that exception and allows nonprofit contractors to own their federally funded inventions regardless of whether they are made at their own or at Government owned facilities.

Second, most Federal agencies that have nonprofit organizations operating their laboratories have not been using the Government owned, contractor-operated (GOCO) exception and are allowing the contract operators to own their inventions. The Department of Energy, however, has made a blanket use of the GOCO exception, so the bill primarily affects the nonprofit DOE lab operators. "For profit" contractors, such as the operators of labs at Sandia and Oak Ridge, are not directly affected by this bill.

Third, this bill includes a provision that allows the Department of Energy to own the inventions related to DOE's naval nuclear propulsion or weapons related programs that are made in the labs that are primarily dedicated to these programs. This means that, for example, inventions in these categories made at Los Alamos or Lawrence Livermore could be owned by DOE. Inventions that do not fall into these categories would be owned by the nonprofit contractors.

Senator DECONCINI. In the case of Los Alamos, which is operated by a contractor based in another State, who specifically would manage inventions that do not fit in the nuclear propulsion or weapons categories?

Senator DOLE. This bill contains a provision that requires, to the extent it provides for the most effective technology transfer, that the licensing of subject inventions shall be administered by contract employees on locations at the facility. Acting under the Stevenson-Wydler Act, Los Alamos has established a particularly strong technology transfer office and program that is administered at the lab site.

In addition, it is our intent that title to inventions being licensed should be held in the name of a wholly owned subsidiary running the facility for the Government so that in the event of a change of contractors, the licensing rights may be transferred intact to the successor organization as a continuing operation of the contract laboratory.

Our intent is that the laboratory should deal directly with State agencies or foundations and the private sector on invention ownership and technology transfer problems.

Senator DECONCINI. Is it possible that some inventions outside the specific categories just mentioned but produced in the DOE contract labs should be kept secret for national security reasons? If so, should not the Department of Energy retain title to them?

Senator DOLE. This is an important question, and there is a great deal of misunderstanding about it. It is likely that some inventions outside of naval nuclear propulsion and weapons related programs will be classified or placed under Patent Office Secrecy Orders. But national security protection is not compromised by who owns the invention. When a Secrecy Order is placed on a patent applications, the application is locked up in a vault in the Patent Office and no patent is issued so long as the Order is in effect. The Department of Energy can call for a Secrecy Order and will have control over how long it is maintained. So even if a contractor is entitled to own and invention, the contractor can not obtain a patent until the Secrecy Order is lifted. If the invention is also classified, the contractor is bound by law to control access to it and information about it. Many agencies—including the Department of Defense—have contractors that perform classified research and development. These agencies experience no particular difficulties in routinely allowing contractor ownership of inventions affected by Secrecy Orders or which are classified.

Contractor ownership can actually improve the chances of avoiding accidental disclosure of new technology. The financial incentives of patent ownership cause both researchers and their employers to review their work for possible inventions of commercial value before writing articles for publication. In cases where an application is filed, there is another safety check. The Patent Office has a unit that reviews applications for those might involve national security. Every year, this unit flags thousands of applications, many of which have passed security reviews, for the agencies to consider and determine if a Secrecy Order is needed. This is an effective process that safeguards hundreds of inventions a year.

In short, there is no reason why title to such inventions should necessarily be retained by the Department of Energy.

Senator DECONCINI. I also note that some changes have been made in the procedures regarding oversight of agency use of the exceptions to contractor retention of title in 35 U.S.C. 202(b). What is the purpose of these changes?

Senator DOLE. Though changed, paragraphs (b)(1) and (2) are substantially similar to the existing provisions, except that the Department of Commerce, rather than the General Accounting Office, will maintain regular oversight over the use of exceptions. However, the GAO is still charged with annually reviewing overall implementation of the Act. A new paragraph (4) has also been added which gives the contractor the right to access to the courts when he be-

lieves the agency has abused its discretion in exercising an exception.

Senator DECONCINI. Why have more detailed reporting, election, and filing provisions been substituted in 35 U.S.C. 202(c)?

Senator DOLE. The new provisions in 35 U.S.C. 202(c)(1)-(3) are based on the standard clause now in use under OMB Circular A-124, which implemented P.L. 96-517. This specificity is intended to eliminate any future arguments concerning the intent of the Congress. We had thought that the Senate Report on the current provisions of P.L. 96-517 was clear but this did not prevent resistance from some agencies.

Senator DECONCINI. And what about the revision of 35 U.S.C. 202(c)(4)?

Senator DOLE. 35 U.S.C. 202(c)(4) deals with the license rights reserved to the Government. The process of implementing P.L. 96-517 revealed some ambiguities concerning the rights the Government could retain in order to honor foreign commitments. This change clarifies that the agency may retain more than a mere license in foreign rights if this is what is necessary to honor a treaty. At the same time the amendment is intended to clarify the types of foreign agreements covered by section 35 U.S.C. 202(c)(4) and to require an agency to tie its use of this right to a foreign treaty or agreement that is in existence at the time the contract is executed. The current language includes "future treaties," which is too open ended and can place a cloud over the foreign rights retained by the contractor.

Senator DECONCINI. I applaud the addition of the small business preference language in section 202(c)(7). How is it intended to work?

Senator DOLE. Basically, it is intended to place a duty on nonprofit organizations to seek small business licensees. However, it recognizes that in many cases this will not be feasible either because no small businesses are interested or because those that are may lack the resources necessary to bring the invention to the market. We expect the universities to make good faith efforts to license small business firms but to retain the discretion to choose large firms over small businesses in cases when they have legitimate concerns over the capabilities and financial resources of a small business firm. The burden is on the nonprofit contractor, of course, to make a reasonable injury as to the suitability of small business licensing.

Senator DECONCINI. What is the purpose of the new language that has been added to the march-in rights section?

Senator DOLE. The language that has been added to 35 U.S.C. 203 has two main purposes. First, there is currently some confusion as to whether march-in determinations are subject to the Contracts Dispute Act and therefore reviewable by Boards of Contract Appeals. Current regulations imply they are. This has created a dichotomy in agency procedures between grant and contract inventions.

The proposed language will take march-in decisions out of the Contract Dispute Act so that the same procedures can be used under grants and contracts. It is also intended to make clear that review of march-in decisions should be done by policy officials at the agencies, with a view toward the purposes of his legislation. It is strictly a matter of legal interpretation.

Finally, this language makes express the unstated assumption in the current law that march-in determinations are reviewable by the courts.

Senator DECONCINI. A new section 212 has been added covering fellowship and other awards having educational purposes. I would have thought that the agencies would not claim patent rights in non-research projects. Why is this necessary?

Senator DOLE. You are correct in your assumption; however, some agencies nevertheless claim patent rights in awards that are made to help educate or train scientists. This amendment is intended to stop this practice. This will be true even if the fellowship involves university research.

I should note that it is rare for inventions to be made exclusively by educational grant recipients, and government retenion of rights in such cases has made established inventors unwilling to train such individuals for fear of government retention of rights if the student is listed on the patient application as a co-inventor with the professor or employer.

Senator DECONCINI. It is my understanding that many federally funded inventions are either being developed or currently marketed under licensing requirements far more restrictive than those in this bill. What is the effect of this legislation on the licensing requirements applicable to these inventions?

Senator DOLE. While this bill encourages the full development of new federally-funded inventions by authorizing exclusive licenses for the life of the patent, you are correct that many inventions were discovered and are being marketed under the terms of Institutional Patent Agreements or the provision of Public Law 96-517, before the current amendments, which provided for a maximum of five years of on-market exclusivity. This restriction, if continued, will place older inventions at a competitive disadvantage with newer ones, for which more lengthy exclusivity is permissible, and may well result in the failure of these older inventions to be fully developed for the benefit of the public.

It is our intent, in enacting this legislation, to create a uniform patent and licensing policy applicable to all federally-funded inventions. Although the bill is silent on the question of retroactivity, it is certainly our intent to strongly encourage agencies administering university patents filed before the current amendments to permit companies marketing products under these patents to extend their exclusive licenses for the life of the patent, consistent with the provisions of this bill, provided that the companies that request such an extension have complied with the requirements of the IPA and have acted responsibly in commercializing the invention.

Senator DECONCINI. I thank the Senator from Kansas for his clarifying remarks.●

NATO: HONING THE GRAND STRATEGY

● Mr. LUGAR. Mr. President, I would like to share with all my colleagues an article which was written by David Abshire, U.S. Ambassador to NATO, and published in the Wall Street Journal on Wednesday, September 12. This article brings to light the NATO Alliance's grand strategy and focuses in particular on four key factors that motivate that strategy: Political dynamics, military deterrence, resources, and public diplomacy. I ask that this article be printed in the RECORD.

The article follows:

NATO: HONING THE GRAND STRATEGY

(By David M. Abshire)

BRUSSELS.—A popular refrain of critics of the North Atlantic Treaty Organization is it does not have a comprehensive strategy. After serving as U.S. Permanent Representative to the North Atlantic Council for more than a year, I would reject this criticism. The alliance does have a strategy—indeed, a grand strategy—and has been actively adjusting it to realities of the 1980s.

This question is especially timely in light of the first official visit to the U.S. by NATO's new secretary general, Lord Carrington. A former foreign and defense secretary of the United Kingdom, Lord Carrington brings impressive skills and experience to his new post. He has signaled a special commitment to strengthening the overall strategy of the alliance.

Grand strategy is not just a military concept. It also encompasses political, economic, and even public affairs elements—all the force that can be brought to bear to achieve the strategy's end. In the West's case, the end is clearly stated in the preamble of the 1949 North Atlantic Treaty, which affirms the allies' determination to unite in a collective defense of "the freedom, common heritage and civilization of their peoples." These goals continue today, 35 years later, to be the binding force of the alliance. They motivate allied strategy, which centers on four key factors: political dynamics, military deterrence, resources and public diplomacy.

Political Strategy. Soviet strategy during the drama over deployment of intermediate-range missiles was not only to divide Europe from America but also to divide Europe within itself. Soviet intimidation was equaled only by that displayed during the Cuban missile and Berlin crises. Yet, to the Kremlin's surprise, NATO remained united in defense of peace in freedom.

After the high point of the missile drama, the NATO Council agreed to a proposal by Belgian Foreign Minister Leo Tindemans calling for a detailed assessment of the last 17 years of East-West relations—a study that led to the June NATO Foreign Ministers' "Washington Statement on East-West Relations." The allies agreed that in the early years of detente substantial progress was made in reducing tension, spurring trade and expanding the East-West dialogue. However, they concurred that Moscow's relentless arms buildup, aggression in Afghanistan and pressure on Poland have in more recent years caused a serious deterioration in East-West relations. Thus, they saw a need to fine-tune political strategy by paying closer attention to requirements of restraint, reciprocity and accountability in a "more realistic and constructive dialogue."

The allies have been actively trying to stimulate the dialogue with the East by advancing a host of new proposals this year—at ongoing negotiations in Stockholm, Vienna and Geneva. In contrast, the Soviets continue to boycott negotiations on nuclear weapons. Nevertheless, when the Soviets do decide to return to the negotiating table, they will find interlocutors prepared to talk.

Deterrence Strategy. NATO is the first great alliance in history ever to have a clear-cut deterrence strategy.

In the wake of sustained debate in the early 1980s on both sides of the Atlantic, it is generally agreed that NATO's strategy of "flexible response" and forward defense remains the best available. That strategy is meant to deter an aggressor from thinking he might gain objectives militarily at an ac-

ceptable cost. It requires a credible capability and determination to use nuclear weapons, if necessary, to escalate risks and force the Soviets to reconsider the consequences of aggression. And it demands that the alliance be able to defend itself with conventional force too, so that should deterrence fail NATO is not left to choose between nuclear escalation or capitulation.

The principal problem today is that NATO's conventional forces are not strong enough to respond to a Soviet attack. Especially troublesome are serious deficiencies of ammunition stocks. The concern of Sen. Sam Nunn, Democrat from Georgia, in his recent amendment that called for U.S. troop cuts in Europe if the allies do not do more to improve NATO's conventional defenses, as well as the concern in Brussels, is urgently to boost the West's conventional defenses to give it that extra insurance policy for peace. Had NATO maintained balanced conventional forces adequate to conduct a direct forward defense without early threatened use of nuclear weapons (as all the allies agreed to do in approving the current strategy), I don't believe the nuclear nervousness would have developed to the degree it has.

The West is improving sustainability and readiness. Newly-emerged and emerging technologies—through miniaturization, smart weapons and rear-surveillance—offer the opportunity to push back the moment when NATO would have to contemplate use of nuclear weapons.

Resources Strategy. The alliance confronts two challenging economic facts: that improvements in sustainability and new conventional technologies impose competing demands for limited resources; and that European economic recovery lags far behind the U.S. recovery. Europe also has greater structural problems. Nevertheless, NATO has substantial advantages: Its combined gross output is some 2½ times greater and its population some 1½ times larger than that of the Warsaw Pact, which nonetheless outstrips NATO in defense production; and the Western nations are free societies bound by shared values and institutions. What NATO must do more efficiently is bring the West's superior resources to bear on the problem of improving conventional forces at affordable cost.

These facts require a resources strategy that would begin with an agreed assessment of the real military balance and include a conceptual framework into which technological and tactical innovations could coherently fit. It demands improved industrial and armaments cooperation across the Atlantic, and within Europe. Finally, a resources strategy requires public understanding and support for paying the necessary costs of avoiding World War III.

Public Strategy. The Soviets have the short-term convenience but long-term weakness of not having to build domestic political support into their overall strategy. The West's grand strategy must be understood, and supported, by a young generation whose formative political experiences are different from those of NATO's founding fathers; by religious leaders, educators and journalists, who fail us when they oversimplify; and by parliamentarians and political leaders, who have a calling higher than that of seeking easy popularity. In Brussels, NATO is presently engaged in intensified assessments of public perceptions to see what can be done to improve our public strategy.

Simply put, the questions of whether our alliance has a grand strategy and whether we are doing all we can to make it credible are two separate issues. The gap between strategy and performance has permitted critics to charge through with the false accusation of an absence of strategy. My worry is that more malign foes might be tempted to make use of that same gap.●

NATIONAL EMPLOY THE HANDICAPPED WEEK

● Mr. DOLE. Mr. President, President Reagan in a proclamation on October 4, 1984, designated the week beginning October 7, 1984, as "National Employ the Handicapped Week." Today I would like to take this opportunity to remind my colleagues of both the need and the opportunity we have to change the economics of dependence into the economics of independence. Disabled persons have proven that they can work. The limiting factor is usually not their disability, but our ability to see their potential and to assist them in their development.

Various sources estimate the number of persons in the United States with disabilities, able to work but unemployed, at about 5 million. With advances in medical science and rehabilitation technology, these numbers will continue to grow. Life expectancies for disabled and nondisabled persons alike will continue to increase and with the shift in age distribution in the population, an ever smaller working age population will continue to be called on to support an ever growing dependent population, both retired and disabled.

It is estimated that over 8 percent of the gross national product [GNP] is expected on the support of unemployed disabled persons, many of whom are willing and able to work. Unless these persons attain greater economic independence, and become taxpayers, these costs will continue to grow. The Rehabilitation Services Administration estimates that vocational rehabilitation programs generate an 11-to-1 return in tax revenues from successfully employed clients.

Perhaps most importantly, however, is a discussion of rehabilitation and employment from the human arena. There is a basic desire on the part of most disabled persons for increased independence and dignity. Our society places an emphasis on freedom of action, achievement, and competition. We identify ourselves increasingly with our occupation, our lifestyle, and our level of economic self-sufficiency. There is substantial dignity in being able to support oneself and make basic choices in lifestyle.

It is time that we met head on the changes anticipated in the labor force over the next 20 to 50 years. With fewer young people entering the labor market, there will be increasing pressure to retain the best employees and to upgrade employee skills to cope with changes in technology. Labor shortages in certain categories are predicted for the near future.

Society can no longer afford to neglect a labor pool of the proportions of the disabled population. As Americans we can ill afford to allow to lay dormant our efforts to ensure access and equality for persons with disabilities. Let us take this moment to pause and recommit ourselves to equal rights for all Americans—and specifically to those 36 million citizens with disabilities.●

MIAMI MONITORING STATION

● Mr. DECONCINI. Mr. President, I should like to associate myself with the remarks made by my good friend from Florida, Senator CHILES, on Friday, October 5, regarding the Federal Communications Commission. As a member of the Senate Appropriations Committee, the problem of the location of a FCC monitoring station in the Miami area has repeatedly been brought to my attention.

Like Senator CHILES, I am pleased that the broadcasters in the area, and the FCC are joining in a cooperative effort to obtain a new site for the monitoring station; a site which will allow the FCC to fulfill its important mission without inhibiting the development of new, Miami-area broadcast facilities.

I urge the FCC and other relevant Federal agencies, to continue to work toward the desired goal.●

CONFERENCE REPORT TO S. 2463—OCS REVENUE SHARING LEGISLATION

● Mr. CHAFEE. Mr. President, I strongly support the conference report on S. 2463, legislation which I have cosponsored to establish an Outer Continental Shelf Revenue Sharing Program. I very much regret that the Senate has been unable to consider fully and adopt the report. It is certainly one of the most significant pieces of legislation for the protection of our Nation's coastal and marine resources to emerge from the 98th Congress.

I want to commend Senator STEVENS for his leadership in sponsoring this measure. I was pleased that House and Senate conferees achieved this responsible compromise.

The sharing of revenues with affected States has been an integral component of most Federal lands management activities. Through the Mineral Lands Leasing Act of 1920, 50 percent of the receipts from the leasing of Federal mineral-bearing lands are shared with the State in which those lands are situated.

S. 2463 recognizes that Federal offshore activities entail significant consequences for coastal areas. As we

pursue the development of offshore oil and gas resources to insure plentiful energy supplies for the future, it is essential to offset the effects of development by sharing a portion of these revenues with coastal States.

S. 2463 would strengthen the resources of State and local governments to deal with the consequences of OCS energy development now being encouraged at the Federal level. It establishes an ocean and coastal resource management and development fund, supported by a small percentage of revenues derived from OCS oil and gas leasing, and allocates these funds in block grants to the States. One-third of a State's allocation would be managed by local communities.

This support would enable States and localities to carry out important coastal development planning, research, and education activities. State and local governments are best suited to assess the environmental and economic effects which continued OCS development will exert upon coastal regions, and to plan for the effective future management of these areas.

Few investments could be more crucial for our Nation than preserving coastal habitats and protecting marrine resources. This investment is particularly important to the State of Rhode Island, where our coastline is an invaluable environmental, economic, and recreational asset. The prospect of intensified OCS development imposes a tremendous challenge for communities in Rhode Island and other States to prepare for changing land use patterns and the effects of commercial growth in coastal sections.

The coastal energy impact, fisheries research, and coastal zone management programs which have assisted States in these endeavors have in recent years been threatened by Federal budget constraints. This bill would provide a more secure source of funding for these programs.

This program would provide a unique opportunity to insure a future balance between offshore oil and gas development and the sound management of conservation of our Nation's coastal resources. I regret that the Senate has been unable to adopt the conference report.●

LINE-ITEM VETO

● Mr. BUMPERS. Mr. President, as one Senator who is serious about balancing the Federal budget—and not just talking about it—it is difficult for me to express my indignation at this latest diversionary tactic by those who would seek to camouflage the Reagan budget deficits, the so-called line-item enrolling clerk law. If this proposal were not so dangerous, it wouldn't matter. This amendment amounts to one thing: A confession of legislative incompetence. If Members of this body vote for this proposal, they are saying this to the American people: "We give up. We can't do it. We can't make decisions. We may know what is in the best interest of the Nation but we do not have the courage to do it. Therefore, we will create a device whereby we can vote for every program and every project, good and bad, and leave it up to the man down the street to decide which ones really have merit."

This is an utter abdication of legislative responsibility. It is the ultimate in buck passing. It is, I suppose, understandable that Members would want to find some way to make the buck stop on the President's desk. So it is understandable that Senators would reach out for almost any means to pin the tail where it ought to be. But this amendment is not it. This amendment would allow us to engage in political practice and at the same time do perhaps irreparable damage to the balance of powers which the Founding Fathers so carefully crafted.

I guess there is a certain cynical beauty about this proposal. It means you can vote for everything. It is a press secretary's dream. Vote for the MX, vote for the B-1, vote for food stamps, vote for Social Security, vote for water projects, vote for every project, vote special appropriations for your State, vote for special appropriations for everyone elses' States so that they will vote for yours. Vote for them all, because none of it means anything. It is not really a decision. It is more like a recommendation. It is like those letters of recommendation we routinely provide for constituents seeking government largesse. The congressional stamp of approval will carry exactly as much weight as a sense of the Congress resolution. The President can follow it, or he can not follow it. Either way, Congress wins. The President vetoes either food stamps, or Social Security, or the special relief bill for Arkansas, then we can go home and beat up on the President: It is not our fault, we passed a bill.

Up until this time, Mr. President, some of us have gone to considerable effort to persuade the Senate and the country that we have to do something to reduce the Federal deficit. This is not the place to replay the evils of the $200 billion deficit. I take it that everyone agrees—except maybe for the Secretary of the Treasury—that these deficits are serious business. They are gobbling up almost all the available capital, which is obviously why we have interest rates that are higher when you consider inflation than interest rates have ever been in history. The deficits are running up an unbelievable tax obligation for generations to come in terms of interest which must be paid on the national debt.

When this administration came into office, we were spending around $50 billion a year, give or take a few billion, for interest on the debt. Thanks to the era of $200 billion deficits, that item of Federal spending has grown to around $125 billion annually, and the day is not far off when interest of the debt will consume $200 billion annually.

Think about that for a moment. This figure of $200 billion keeps coming up. It's the amount of the deficit; it is the amount that we will soon be spending for interest on the debt. We will be borrowing every year an amount equal to the interest payments. When the Mexicans or the Argentines do that on their foreign debt, we say they are bankrupt and we get very sanctimonious insisting that they get their financial houses in order. By the way, $200 billion may sound familiar for another reason. It is the amount we spent on defense just a couple of years ago. And we thought it was a lot of money then. This year we have agreed to spend $300 billion. And CBO, by the way, says that if the economy turns just a little bit downward in the next couple of years the deficit will be $300 billion, the same as the defense budget.

Our distinguished colleague from South Carolina [Mr. HOLLINGS], has had some harsh words about the President and these deficits. He says Mr. Reagan liked the deficit. At first I thought he was just indulging in a little political license. After more thought, it occurs to me that maybe the President really does like the deficit, for the same reason that he likes 13 percent interest rates. The two go hand in hand, and together they amount to a gigantic system of transfer payments. In case you have not heard that nasty phrase lately, it is what the supply siders like to call welfare, and Social Security and food stamps. Well, interest on the debt is a transfer payment also. It takes from the people who pay taxes, the ordinary, working lower- and middle-income people who pay the vast bulk of taxes and it transfers money to the people who have the wherewithal to buy Treasury bonds and bills. That is how they finance the deficit, you know, T-bills, and Treasury notes, and so forth.

I realized in discussing this topic with a friend in my State recently that he misunderstood the whole question of the deficit. This was a fairly well-educated businessman, and he thought that Congress just calls up the Bureau of Printing and Engraving and tells them to print more money. Well, that is not how it's done. The Government borrows money from private parties who have enough cash on hand to be able to help Uncle Sam out. And in return, the lenders get T-bills, which draw interest at a rate determined by the market. It is an auction, much like

any other auction, and the demand for money determines how much the Government has to pay for the money it borrows to finance the deficit.

So when DALE and Betty BUMPERS go to the loan window at the bank in Charleston, AR, to get a little car loan, they are competing with Don Regan and the U.S. Treasury, who are also needing a little loan. So it is no surprise that the bank may say, "DALE, we'd like to help you. We had a little extra cash last week we could have loaned you, but Don Regan offered us 12 percent for 6 months, and we felt like that was an offer we couldn't pass up."

So, Mr. President, some of us have proposed and supported plans—concrete plans, not smoke screens like this line item enrolling clerk law—to reduce the deficit. Last spring and the spring before that, I pleaded with my colleagues to look at Senator HOLLINGS' budget freeze amendment. In 1983 we got 16 votes, and this year we got 38 votes. When that failed, I argued for the so-called KGB amendment offered by Senators KASSEBAUM, GRASSLEY, BAUCUS, and BIDEN. Then I supported Senator CHILES' democratic alternative budget, and we almost won that one. That amendment had so much support from the other side of the aisle that it failed of adoption on a tie vote.

Senator HOLLINGS' amendment would have reduced Mr. Reagan's deficit from a projected $300 billion in 1989 to $8 billion. Will this amendment do this? Can the sponsors of this proposal give us any idea what the results will be, what impact this amendment will have on the deficit?

Of course, they cannot, Mr. President, any more than they can tell us what Mr. Reagan's tax plans are for next year, or what cuts in social programs he will propose for next year.

Some people, Mr. President, have called this the enrolling clerk law because it proposes to have the enrolling clerk split every bill into hundreds, or perhaps thousands, of midget bills so that the President could approve or disapprove each one. I think this bill should be called the OMB amendment, because that is where it will place all the real responsibility for balancing the budget, on the Office of Management and Budget. The people who will have the real power under this amendment will be the guys in little green visors down at OMB who will scrutinize each of these thousands of pieces of midget legislation. These bureaucrats will be the ones who will comb through the thousands of individual appropriations and decide which ones get approved and which ones do not even make it to the President's desk.

And how will these people in green visors make these decisions, Mr. President? How will they decide whether the Air Force Base at Blytheville, AR, stays open or is vetoed? It will not have anything to do with politics, will it Mr. President? It will not have anything to do with whether Arkansas votes for the President in the upcoming election, will it? Or with whether Arkansas is a crucial State for the administration to carry in some election in the future, or with whether the administration wants to help Congressman so-and-so, who has a tough race this time?

If anyone in this Chamber thinks these will not all be factors in how OMB will balance the budget, you had better think again. There must be cuts in spending, Mr. President; the only question is who you want to do the surgery. Do you want the elected representatives of the people, who are charged by the Constitution with conducting the people's business to make these difficult decisions? Or do you want to turn that responsibility over to someone in a green visor at OMB?●

CHURCH-STATE RELATIONS

● Mr. WEICKER. Mr. President, a very thoughful and perceptive discussion has come to my attention on the subject of church-state relations. It is in the form of an open letter from the Right Reverend Arthur E. Walmsley, bishop of the Episcopal Diocese of Connecticut to John F. Whelan, archbishop of Hartford concerning the archbishop's article "A Constitutional Right To Speak" which appeared in the Hartford Courant. I believe my colleagues will benefit from the wisdom of these distinguished clergymen on this matter. I ask that the letter by Bishop Walmsley and the article by Archbishop Whealon be printed in the RECORD.

The letter follows:

EPISCOPAL DIOCESE
OF CONNECTICUT,
Hartford, CT, September 11, 1984.

Rev. JOHN WHEALON,
Archbishop of Hartford,
Hartford, CT.

DEAR BROTHER IN CHRIST: Thank you for the column which appeared in Monday's Hartford Courant. It is unfortunate that you and various of your fellow bishops of the Roman Catholic Church feel defensive about your right to speak publicly on political questions. Church leaders of various traditions share your commitment that the religious and ethical values which move us be part of the dialogue which shapes public policy. As colleagues in ecumenical efforts in this state, we have worked together on behalf of the hungry and homeless, for world peace and nuclear disarmament.

It needs to be said, however, that the character of the public debate raised by the outspoken position of the Roman Catholic Church on abortion has a chilling effect on that ecumenical collaboration. It is clearly a theological obligation of the Roman Catholic hierarchy to exercise its teaching role from the pulpit. It is a political right to do so in the forum of public debate. In asking that your position be weighed seriously in the formation of public policy, is it not equally incumbent that you accord a similar respect to those who, out of equal religious commitment, reach differing views on what is clearly one of the most volatile issues of ethical and social policy confronting the American society? The Roman Catholic magisterium may characterize a "pro-choice" stance as neither logical nor theological, but you thereby deprive the General Convention of the Episcopal Church, and its House of Bishops of the theological and ethical seriousness you claim for the National Conference of Catholic Bishops.

The slogans of "pro-life" and "pro-choice" are poles around which equally sincere, convinced, committed Christians rally. Unfortunately, slogans fail to nuance the many complex legal, medical, psychological, social and political aspects as well as ethical and moral principles involved. The 1976 Convention of the Episcopal Church tried to frame a position which affirms various and important principles addressed to individual church members in this matter.

That position makes six points: it affirms that all life, when conceived, is God-given and deserving of reverence, respect and sustenance; abortion is not to be used as a method of birth control; there are cases in which therapeutic abortion is permissible; no church member should make a decision concerning abortion without counsel; clergy and other counsellors should urge other options than abortion with those whom they counsel; and, finally, the Episcopal Church opposes the state substituting itself for the informed conscience of its citizens.

It is in this last respect that the present stance of the Roman Catholic bishops must be challenged. Section 10 of The Declaration on Religious Freedom of the Second Vatican Council does not speak specifically to what members of the Roman Catholic Church should do about abortion and the law. But it affirms that "it is therefore completely in accord with the nature of faith that in matters religious, every manner of coercion on the part of men should be excluded." In the debate over public policy on this divisive issue, a majority of Americans, including a substantial percent of Roman Catholic clergy and lay people, disagree with the teaching of the Roman Catholic bishops. In taking the matter to the public arena, the bishops have chosen to make church teaching a subject of public discussion. Religious and political civility demands that when legislators and others disagree with church authorities they not be abused or categorized as disloyal to their religious faith.

At the heart of this discussion is the question of authority, in the state and in the church. The American Constitution, especially in its provisions concerning freedom of speech and the free expression of religion, is weighted in the direction that the body politic depends on the conscientious choices of an informed people. Assertions of moral teaching which absolutize in the name of papal authority will be resisted. So also will those of the Religious Right who claim to speak authoritatively from a position of Biblical inerrancy. Those of us whose religious heritage has been shaped by the Reformation—and in a political sense, that is all Americans—are not prepared to accord to any group of leaders the right to speak authoritatively for them. By all means, speak out. But recognize that many will disagree not only with your conclusions,

but with the principle of a centralized teaching authority on which they are based.

Faithfully yours,

ARTHUR E. WALMSLEY.

A CONSTITUTIONAL RIGHT TO SPEAK

(By John F. Whealon)

I recently wrote a column in The Catholic Transcript about the pro-choice legislators who say "I am personally opposed to abortion, but I would not impose my beliefs on other people." My main contention was that the pro-choice stance is neither logical nor theological.

Some people wrote to newspapers, saying that they did not agree with me. That is understandable. Others wrote to accuse me of being a one-issue person. Many questioned my right to speak out on such an issue.

It is clear that something needs be said about the right of a Catholic bishop to speak publicly on political questions.

In the United States of America, we live under the Constitution. The First Amendment states that "Congress shall make no laws respecting an establishment of religion, or prohibiting the free exercise thereof."

The establishment of religion meant an established state church, which the founding fathers were familiar with from England and which they did not want in the new nation. Freedom of religion was therefore guaranteed.

The same First Amendment guarantees freedom of speech to all citizens—including citizens who happen to be religious leaders.

The interpretation of the First Amendment has given much work to the Supreme Court. However, the words make clear that the First Amendment is a limitation on government, not on religious bodies or religious leaders.

This is a one-edged, not a two-edged, sword. I recognize from the U.S. Constitution no restraints on my saying anything, even from the pulpit, about a political question or political figure.

But freedom under law is one matter, and prudence is something else. It would be improper and imprudent for me or any priest to use the pulpit for a partisan political talk, to mention favorably or unfavorably the name of any party or candidate, etc. People go to church to worship God and hear teaching. That is much more important than political questions of the day.

But there is no problem when a priest or deacon speaks from the pulpit to give the church's teaching on any major moral issue confronting society.

Religious leaders have the right, even the obligation, to speak on current moral issues. The American Revolution was strongly supported by churches in the Colonies. The abolitionist movement against slavery was largely a church-based movement. The Spanish-American War was unfortunately supported by many churches. The prohibition amendment was entirely a church based effort. The civil rights movement of the 1960s had churches and church people in the forefront. So there is nothing surprising in the fact that much of the anti-abortion movement is from religious bodies.

There is a curious double standard operation in the nation. A recent candidate for the presidential nomination was a Protestant clergyman—and there were no complaints heard about the separation of church and state. Protestant churches and pulpits were recently used for openly pointed presentations—and there were no complaints about separation of church and state.

But a Catholic leader expresses in print the church's teaching on a moral and political subject and there are complaints about separation of church and state.

It is clear that, especially in the charged atmosphere of this campaign, the First Amendment to the Constitution needs to be kept in mind by all.●

THE U.S.S. "OKLAHOMA"

● Mr. BOREN. Mr. President, I would like to bring to the attention of the Senate an article that recently appeared in the Tulsa, OK, Veterans of Foreign Wars publication, the Grenade. The article, which commemorates the history of the U.S.S. *Oklahoma,* was written by my good personal friend and former Tulsa mayor, George Norvell.

The U.S.S. *Oklahoma* had the distinct honor of being the first battleship in American history dedicated to a mission of peace at its christening. Until that "day of infamy," December 7, 1941, when the ship and many of her crew went to their watery graves, the U.S.S. *Oklahoma* had never fired a shot in anger during her 31 years on the high seas.

As we approach the 43d anniversary of the bombing of Pearl Harbor and the sinking of the U.S.S. *Oklahoma,* I think it is only fitting and appropriate that we preserve for history the story of the U.S.S. *Oklahoma* by putting it in the RECORD.

I ask that the article appear in the RECORD.

The article follows:

U.S.S. OKLAHOMA: SHE NEVER FIRED A SHOT IN ANGER

(By George Norvell, former Tulsa Mayor)

Bands played and whistles blew when the USS *Oklahoma* was christened at Camden, New Jersey, March 13, 1914.

Her darkest hour was at 8 a.m., December 7, 1941, when the first of five torpedoes struck her portside at Pearl Harbor. The others followed quickly and within 10 minutes the mighty battleship lay bottom up.

Dignitaries assembled for the launching ceremonies included Oklahoma's first two United States Senators, Robert L. Owen and Thomas P. Gore, Secretary of the Navy Josephus Daniels and his 32-year-old assistant, Franklin D. Roosevelt.

War with Spain in 1898 had extended the sovereignty of the United States in the Pacific and Roosevelt was keenly aware of the necessity for a stronger and more efficient Navy.

In the campaign of 1912 he had made speeches, written letters and led 150 delegates to the Democrat convention in Baltimore.

After President Wilson was inaugurated, Roosevelt was offered several positions for his campaign efforts, but chose to become assistant Secretary of the Navy.

"All my life I have loved ships and been a student of the Navy," he explained.

He also knew that Theodore Roosevelt had reached a similar decision in 1897 when he accepted the same post under President William McKinley.

"Franklin was saying to us that some day he would be living in that house," Daniels, who was also familiar with the precedent, said after viewing a photograph of his young assistant looking from a Navy Department window toward the White House.

The ceremony preceding the launching was comparable to a society wedding. Miss Lorena Jane Cruce, attractive daughter of Oklahoma's second governor, Lee Cruce, was the battleship's godmother. She was escorted by James A. Whitcomb, of McAlester, who acted as Governor of Oklahoma for the day.

Chester O. Bunn, a member of the committee appointed by Gov. Cruce to have charge of the Oklahoma arrangements, declared that Miss Cruce "never looked more sweet and pretty." She wore a white coat suit, white hat, matching accessories and carried a large bouquet of American Beauty roses.

Bunn also complimented her popular and atractively attired attendants, Miss Frances Fite, Muskogee; Elizabeth Ames and Madeline Cottingham, Oklahoma City; Louise Bierer, Guthrie; Stella and Italy Carter, Ardmore, and Adelaide Weaver, Oklahoma City. The latter three beauties were the daughters of Oklahoma Congressmen Charles D. Carter and Claude Weaver.

Immediately preceding the launching, prayer was offered by Bishop Hoss of the Methodist Episcopal Church South, and for the first time in history a United States battleship was dedicated to a mission of peace.

At the proper signal, Miss Cruce grasped a bottle of champagne, securely fastened by red, white and blue cord and ribbons, and broke it against the armor plate on the side of the vessel, exclaiming, "In the name of the United States, I christen thee Oklahoma."

Like the rush of a mighty wind, the USS Oklahoma left its cradle and slid gracefully into the Delaware River while countless large and small craft on the river noisily saluted the largest and most powerful battleship in the Navy.

The State of Oklahoma also was signally complimented that day by the City of Philadelphia by the display on the flagstaff of Independence Hall the 46-star flag which had been presented by the new state to the Betsy Ross Society seven years earlier.

The Oklahoma enjoyed a displacement of 29,000 tons and 25,000 horsepower. The battleship was 583 feet in length and had a beam measuring 107 feet 11 inches. She carried a complement of 1,301 men and was capable of 20.5 knots. She had a 4,000-mile radius of action at full speed and a 10,000-mile radius at half speed.

In 1935 the Oklahoma was altered by the substitution of tripod for cage masts and by the installation of a deck house on which eight anti-aircraft guns were mounted. The torpedo defense battery was raised from the main deck to the forecastle and the funnel was moved aft slightly.

Other alterations included the addition of protective armor bulges in keeping with the "everything or nothing" idea then prevalent in Navy circles. The extensive alterations, costing $7,000,000, afforded greater protection but caused the battleship to be unwieldy at low speeds.

Twenty-eight hours after the Japanese struck the first blow at Pearl Harbor, Dec. 7, 1941, President Roosevelt delivered his war message to a joint session of the Congress and to the American people by means of a nationwide radio hookup. During the interim little knots of men swarmed over the hull of the Oklahoma with torches cutting through to the crew members trapped inside.

Thirty-two men were rescued—the last some eight hours after the Commander-in-Chief had spoken.

Many crew members who were topside when the attack began managed to scramble to safety and were willing to fight regardless of the odds.

Among them was Marine Sgt. Thomas Hailey, who reached Ford Island and immediately volunteered for a mission in a small unarmed plane. Hailey was handed a rifle. The mission was to locate the Japanese fleet.

Prior to the Pearl Harbor disaster, the Oklahoma had enjoyed a peaceful existence, and in 31 years had never fired a shot at an enemy. During World War I she served as a watchdog off the extreme southwest coast of Ireland.

For nearly two years after the Pearl Harbor disaster it was hoped that the ill-fated ship might be reconditioned and returned to service, but after the Oklahoma was raised, plans to accomplish this were abandoned.

On May 10, 1947, she began her last journey to the mainland on the end of a towline. The Navy tugs, Monarch and Hercules, had reached 540 miles northeast of Pearl Harbor when Capt. Kelly Sprague of the Hercules radioed that waves were washing over the desolate decks of the Oklahoma. He was ordered to head back to Pearl Harbor, but at 6:10 a.m. (CST), May 17, as if determined to escape the ignominious fate of the scrap heap, the Oklahoma parted the tow lines and sank to a watery grave three miles below.

Although she had cost $75,000,000 to build and untold sums to raise, the Oklahoma had been sold to the Moore Drylock Company, of Oakland, for $46,000.

The tragic battleship was due to arrive in San Francisco, Memorial Day, and the company had planned to start salvage operations in June. Jame Moore, head of the company, said he had received word that Gov. Roy J. Turner and a host of other dignitaries from Oklahoma had planned a special visit to Oakland to pay their final respects.

The USS Oklahoma was spared these sad tributes and the degrading consignment to the junkyard.●

DR. JURGEN TODENHOFER ON THE WAR IN AFGHANISTAN

● Mr. COHEN. Mr. President, my friend, Dr. Jurgen Todenhofer, a member of the Parliament of the Federal Republic of Germany, has sent me a copy of a resolution that the Bundestag passed unanimously.

The Bundestag's resolution, which condemns the Soviet invasion and occupation of Afghanistan, reminds us of the plight of the freedom-loving people of Afghanistan. I ask that the Bundestag's resolution and a statement by Dr. Todenhofer be included in the RECORD.

The resolution and Dr. Todenhofer's eloquent speech reinforce the importance of what both the Senate and House did last week in approving Senate Concurrent Resolution 74, the resolution calling for efforts to support the Afghan freedom fighters. As a cosponsor of that legislation, I am pleased that the Congress has sent a clear signal of our commitment to these courageous people.

Dr. Todenhofer refers to the struggle in Afghanistan as a "forgotten" war. Our action last week reflects the determination of this body to insure that the fight for freedom in Afghanistan is not forgotten. So, too, does the companion action taken by our counterparts in the German Bundestag.

The Bundestag resolution and Dr. Todenhofer's speech follows:

[German Bundestag, 10th Legislative Period, Apr. 11, 1984]

MOTION OF THE CDU/CSU, SPD, FDP, AND GREEN PARTIES—SITUATION IN AFGHANISTAN

Let the Bundestag resolve the following:

1. The German Bundestag is following with grave concern the warfare which the Soviet Union as a World Power has been waging against the Afghan people for over four years now. It recalls the:

Afghanistan resolutions of the United Nations of January 14, 1980, November 20, 1980, November 18, 1981, November 29, 1982 and November 23, 1983 as well as the resolution/ of the United Nations Commission on Human Rights, March 29, 1984;

The declarations of the Ten, December 27, 1983; of the heads of state and administration of the non-aligned nations, March 12, 1983; of the Islamic Summit Conference, January 19, 1984, as well as the resolutions of the IPU, in which international world opinion was expressed unequivocally that the Soviet intervention in Afghanistan should be condemned. The occupation of Afghanistan by Soviet troops is not only a violation of the established norms of international law, but a heavy blow to the policy of non-alignment as well. The German Bundestag is of the opinion that the continuing occupation of Afghanistan, among other things, is an important reason for the continuing tensions in East-West relations.

2. In this, the fifth year of warfare, the people of Afghanistan are still sustaining heavy casualties and losses on a daily basis. An end to this suffering will only be possible if the Soviet troops quit the country, so that interference from abroad may be brought to an end, and Afghanistan will once again regain its independence and nonalignment status.

3. The German Bundestag calls on the new Soviet leadership to cease its resistance to the demands of the overwhelming majority of the international community, withdraw its troops and enter into negotiations for a permanent solution. The restoration of the self-determination of the Afghan people would be a major contribution to international detente and to the maintenance of peace.

4. The German Bundestag requests the German Federal Administration:

(a) Since admission to Afghanistan is still being refused to the International Red Cross, to support, according to its unanimous decision of June 9, 1982, not only its humanitarian assistance to Afghan refugees, but the Afghan resistance fighters as well, especially with food and medicine, in order to alleviate the indescribable suffering of the people of Afghanistan;

(b) To support firmly the unimpeded resumption by the International Committee of the Red Cross of its activities in Afghanistan.

Bonn, April 11, 1984.

DRS. DREGGER AND WAIGEL AND PARTY.
DR. VOGEL AND PARTY.
MISCHNICK AND PARTY.
SCHOPPE, DR. VOLLMER AND PARTY.

STATEMENT OF DR. TODENHÖFER

(In today's debate in the Bundestag on the situation in Afghanistan, the CDU/CSU Bundestag faction speaker on disarmament policies, Dr. Jürgen Todenhöfer, argued the following points, among others:)

In the intensive care ward at the University Clinic in Tübingen, physicians have been fighting for over ten weeks for the life of the seriously injured young freedom fighter, Abdul Qahir. A life filled with suffering for the formerly happy 18-year old Afghan schoolboy began two and a half years ago when a Soviet bomb burned him over 50 percent of his body and smashed his limbs.

Since there is no medicine in Afghanistan for Afghans, and since the Soviet Union will not admit the International Red Cross into Afghanistan, friends of the seriously injured boy took him into a cave in order to shield him from the Soviet occupation troops. Abdul Qahir spent six months in this cave with no medical treatment. After six months his friends built a stretcher and carried Abdul Qahir over the mountains of the Hindu Kush to Pakistan in a march that lasted several days.

Abdul Qahir was lodged in a primitive hospital for freedom fighters. They built a heavy iron framework over this body so that woolen covers would not come into contact with his open wounds. He lay there for over two years—not ready to die, but not strong enough to live. He weighed 27 kilos. Visitors from the West who saw him all promised to help, but no one did.

In a dramatic rescue mission on March 18, 1984 the German Air Rescue Service got him out of Pakistan and brought him to Tubingen. German physicians there had pledged to operate on him and to care for him free of charge. In Pakistan he had a life expectancy of about two to three weeks more. If he were in Germany the Pakistani doctors gave him a twenty percent chance of survival if he could be operated on successfully. At the present time, following two serious operations, the doctors are again giving him an over 50 percent chance of survival.

Adbul Qahir is a small, seriously injured Afghan youth and everything that he has experienced, suffered and hoped makes him a symbol of the tiny tormented Afghan people. Now he has another chance. I am of the firm conviction that Afghanistan would also have another chance if the international community of states could manage to summon up just a fraction of the personal involvement that the Tübingen doctors and their assistants have shown.

No one has the right to close his eyes to the Afghan tragedy. Since the beginning of the war on December 27, 1979 over a million Afghans have been killed. Over four million have had to flee to Pakistan or Iran. Even today hundreds of Afghan women, children and old people die every week in Soviet army bomb attacks. Even today thousands flee every week from Afghanistan to Pakistan.

Whoever is wounded has little chance of survival. Even the severest wounds must be handled as a rule without anesthetics or even any kind of disinfectant, because there is no medicine. Actual medical treatment is generally completely impossible.

The villages of Afghanistan have been annihilated, the crops destroyed, and some of the wells have been poisoned. The Soviet Army takes its revenge for military defeats inflicted by the freedom fighters on the defenseless civilian population by bombing the villages. In Afghanistan the Soviets have made international law null and void.

I am saying all this without any anti-Soviet froth at my mouth. I believe that the invasion of Afghanistan by the Soviet Army was one of the most tragically wrong decisions of Soviet leadership for decades. It has led to the most senseless of all senseless wars since the Second World War. It has also cost the life of thousands of young Soviet soldiers. They were sent into Afghanistan with the mission to combat American and Chinese imperialism. In just a few weeks they saw that they had to shoot at defenseless nomads, women and children. I mourn also for the young Soviet soldiers who have fallen in Afghanistan.

I am of the firm conviction that if the population of the Soviet Union knew the truth about Afghanistan, they would completely disapprove of the war on the Afghan population by the Soviet Army. I am saying this deliberately in formal defense of the honor of the civilian population of the Soviet Union.

But the facts remain, and no one can get around them:

While the Soviet leaders make disarmament proposals throughout the world, they are bombarding Afghan villages.

While they are proposing international non-aggression treaties, they are raping a small, defenseless, neighboring people.

While they talk of love of peace, they are waging merciless war against Afghanistan.

But disarmament, non-aggression, love of peace, and detente are indivisible. Therefore the behavior of the Soviet Union in Afghanistan is a heavy blow to the hopes of all men in the whole world for peace, detente, non-aggression and disarmament. And for this reason too, this war must be ended.

This murderous war in Afghanistan is also a forgotten war. But that does not give anyone the right to cover it up. Anyone who keeps silent about Afghanistan makes himself guilty as well. There, a small nation of 16 million is fighting determinedly for its freedom against annihilation by the Soviet Union Superpower. And the international community looks on silently, doing nothing.

An especially sad chapter is the reporting done by the news broadcasts of the ARD and ZDF. The two largest German television stations report extensively on the killing of seals in Canada, but the daily suffering and dying of hundreds of thousands of women and children in Afghanistan is quite obviously not a topic worth continuous reporting. Whoever compares the silence on the Afghanistan tragedy by the "Tagesschau" and "Heute" (Trans. note: the names of the two most popular evening news shows in Germany) with the almost daily reports on Vietnam, must indeed be deeply ashamed. He would have to ask himself how German television would report about Afghanistan, if, not the Soviet Union, but rather the United States were carrying on this murderous war against Afghan women, children and the aged. The only hope of peacefully ending the war, which is a violation of international law, is by mobilizing public opinion. The television news programs which keep quiet about the daily deaths in Afghanistan are not meeting the moral claims which the public rightly makes on them.

The Soviet Union is waging a purposeful war against the children of Afghanistan. From great heights they send down bombs which look like toys and butterflies, but have the effect of contact mines. I have brought to you today two of these butterfly bombs. They were let out by the Soviets at great heights; they spin in the air like butterflies and fall soundlessly to the ground. They do not explode on contact with the ground, but rather when the children try to pick them up to play with them. These bombs tear their faces to shreds, rip off their hands or legs as with this small Afghan boy: a butterfly bomb ripped off half of his right leg. I would not withhold this picture from you.

These toys and butterfly bombs have killed tens of thousands of children. They have crippled tens of thousands of children. A war like this, against children is one of the cruelest war crimes men have ever invented.

We do not have the right to be silent any longer, and we do not have the right to watch idly while these things happen. For this reason we are asking the Federal Administration finally to have medical help sent to the freedom fighters and the people of Afghanistan. And, God knows, that is a modest request.

And we are asking the Soviet Union to put an end at last to the war in Afghanistan, to withdraw their troops and to restore at last freedom, self-determination and peace to the brave people of Afghanistan.●

IN HONOR OF TOM WICKER

● Mr. MOYNIHAN. Mr. President, as a reporter, columnist, and editor of the New York Times for nearly a quarter-century, and as an author of nonfictional and fictional books, Tom Wicker has established himself as one of our Nation's eminent journalists.

In recognition of his achievements, the University of Arizona will bestow the 30th annual John Peter Zenger award on Mr. Wicker next week at the convention of the Arizona Newspapers Association. The award, which commemorates our Nation's first defender of the right to publish—a New Yorker, I might add—is presented "to a person who has been outstanding in the fight for the people's right to know."

Anyone familiar with Mr. Wicker's career knows he has well earned this honor.

Mr. President, we will not be in session on October 18, 1984, when Mr. Wicker receives his award. I rise today to take note of the ceremony and congratulate Mr. Wicker in advance.

Without objection, Mr. President, I ask that the newspaper article announcing Mr. Wicker's selection be printed in the RECORD.

The article follows:

[From the New York Times, Sept. 12, 1984]

WICKER TO GET ZENGER AWARD FOR HIS WORK FOR FREE PRESS

TUCSON, ARIZ., September 11.—Tom Wicker, columnist and associate editor of The New York Times, will received 30th annual John Peter Zenger freedom of the press award, the University of Arizona announced today.

Mr. Wicker was selected by a vote of 400 publishers and editors across the country, the announcement said.

Philip Mangelsdorf, head of the university's journalism department, said the award was given "to a person who has been outstanding in the fight for the people's right to know."

Mr. Wicker joined the Times in 1960 and has covered the White House, Congress and national politics.

Zenger, a colonial printer, was imprisoned for defending the right to publish. He was acquitted of seditious libel by a jury that agreed with Andrew Hamilton's argument that truth was a defense against libel.

The award will be presented to Oct. 18 at the convention of the Arizona Newspapers Association.●

NEW PUBLICATIONS ON COASTAL BARRIERS

● Mr. CHAFEE. Mr. President, I have just learned of a very important series of books on the shoreline and barrier islands of the United States and the management policies that might solve many problems in this dynamic environment. The series, entitle "Living with the Shore," deals with a range of coastal management and development issues such as home-site safety along the entire Atlantic, Gulf, and Pacific shorelines, as well as two Great Lakes. Each book in this series includes the following shore-specific information:

Site-safety maps and descriptions of every stretch of shoreline, in enough detail to find specific home-sites;

Up-to-date information on land-use laws;

Discussions of the dynamics of shoreline change from the geological forces that shape the beaches;

Ways to protect life and property from damage by hurricanes and other natural disasters;

Principles of shoreline conservation, especially the counterproductive effects of shoreline stabilization measures; and

Alternative management schemes in the context of assumed acceleration of sea level rise.

With sea level rising and American recreational beaches disappearing at a rapid rate, this series will help educate our citizens about the need for wise use and proper management of our beaches. The series is published by Duke University Press and has been headed by Prof. Orrin Pilkey, author of "The Beaches Are Moving." Volumes in the series are already available for the Texas gulf coast, North Carolina, South Carolina, and the South Shore of Long Island and soon will be ready on Florida and Louisiana.

As sponsor of legislation to protect America's barrier islands and beaches, I am keenly aware of the need for greater public awareness of the tremendous geological forces operating on our beaches and the need to factor this information into our coastal de-

velopment decisions. "Living with the Shore" is precisely the educational set of books to produce this greater awareness.●

MORE VIOLENCE IN SOUTH AFRICA

● Mr. KENNEDY. Mr. President, the latest developments in South Africa raise troubling questions about the future of that country. These developments also heighten concern about the course of U.S. policy in South Africa and the role of the United States in helping to bring about majority rule.

In recent weeks, widespread unrest and antiapartheid protests have again emerged in South Africa, the worst violence that country has seen since the Soweto riots of 1976. Last week, renewed violence in the township of Kwathema led to the deaths of six blacks, including three teenagers, and the arrest of dozens more black youths. This past weekend, demonstrations were broken up by police in the Eastern Cape, in the black township of Joza near the southern coast, and in many other townships around Johannesburg. The death toll in the past 6 weeks of violence now stands at more than 80.

In addition to the riots and protests, a mass boycott of schools, colleges, and universities has been carried out by black students and students of mixed race descent. More than 200,000 black high school students, for example, have refused to attend classes. Meanwhile, the public transit system has been forced to shut down several times in recent weeks, and protests and riots have broken out among tens of thousands of black gold miners opposed to the deplorable work conditions and low pay they have endured for decades.

As well as ordering a massive presence of police in the black townships, the South African Government responded early to the unrest by imposing a ban on indoor gatherings—which include any discussions of Government policy involving two or more people—in 21 magisterial districts to preclude public commemorations of the anniversary of Steve Biko's death. This ban has also been used to justify the recent mass arrests of black demonstrators. To enforce the ban and quell the unrest, the police have resorted to tear gas, attack dogs, leather whips, rubber bullets, and shotguns.

Thus far, however, the police actions have not been as effective as the authorities apparently had hoped. The South African Government announced this past weekend that civil police forces will be expanded by nearly 50 percent, from 47,000 to 68,000, and that troops from the South African Defense Forces will be used to support the police "in riot control and all other circumstances that (the government) may decide." A Government spokesman added that army units will be "made available to the police to use as and when they think fit."

The announcement of the decision to call in troops, which was issued after soldiers had already been deployed in Soweto for nearly 1 week, is an ominous sign. The South African authorities have usually refrained from acknowledging any involvement by the defense forces in the suppression of black unrest, not least because such an admission would be likely to arouse even deeper anger in the black townships. Coming at this time, the announcement appears to be both a signal that greater force will be used in combating the unrest and a reassurance to conservative whites that the violence will not be permitted to spread beyond the black communities into the all-white areas. This latter concern was undoubtedly sparked by the recent bombings of Government buildings in Johannesburg.

The unrest in South Africa over the past 6 weeks has been spurred by many factors. The violence stems in part from economic and educational grievances, ranging from disputes over pay and rent increases to discontent spawned by double-digit inflation, rising unemployment, and the poor quality of black schools. Further resentment has arisen among blacks because of the steady loss of their citizenship under South Africa's "homelands" and forced relocation policies.

The fundamental source of the unrest, however, has been the universal dissatisfaction in black townships with the racism and injustice of apartheid. Virtually nothing has changed in South Africa over the past 25 years. The country's 23 million blacks still live under the oppression of the 4.6 million whites. Poverty and suffering are still rampant, and all political channels remain closed to blacks. The South African Government not only has continued but has accelerated the forcible relocation of blacks to tribal "homelands," a policy that violates all standards of human dignity and human rights. South Africa also refuses to grant independence to Namibia, despite the repeated attempts of Western Governments to facilitate a negotiated settlement in that territory.

In all these ways, South Africa's institutionalized racism has made it an outcast among nations. Yet nothing will change in South Africa until the apartheid system is abolished, majority rule is achieved, and gross social and economic inequities are alleviated. Unless those conditions are met, lasting political stability in southern Africa will never take hold, for the oppression of South Africa's black majority will inevitably be a recurrent source of turmoil and instability.

The South African Government appears disinclined, however, to take any genuine steps that would bring about a transition to majority rule. The new constitution merely entrenches apartheid by totally excluding South Africa's black majority from any political participation and by granting only meaningless concessions to the Asian and mixed race minorities. The Government initially sought to attribute the recent unrest entirely to minor grievances, which could be easily remedied, and to insist there was no relationship between the violence and the United Democratic Front's protests against the new constitution. But as the violence and unrest have intensified, the Government has begun to claim that the UDF—a multiracial alliance of labor unions, students, community orgnizations, and political parties—has been "agitating" and inspiring the violence.

These allegations, no doubt, are part of the Goverment's larger intention to ban the UDF. The UDF was set up in September 1983 to oppose the new constitution and to organize a boycott of the August 1984 elections. When the group, under the dynamic leadership of Reverend Allan Boesak, quickly attracted several million supporters, and when the election boycott proved remarkably successful, the UDF became increasingly regarded as the most potent opposition in South Africa. For that reason, the authorities have sought to erode the organization's influence and, ultimately, to dissolve it.

The Government's efforts toward this end included the arrest, without charges, of several UDF leaders in Natal and the Transvaal shortly before the August 1984 elections. Because of the Interior Minister's failure to specify any reason for the detentions, a judge ordered the release of six of the leaders, who had been detained in Natal. Upon their release, the six men—one black and five of Asian descent—disappeared for a few days, thus preventing the Government from serving a new detention order that would cite national security considerations as grounds for not explaining the detention order. Eventually, the six emerged in the British consulate in Durban, where they had remained until this past Saturday. Three of them left the consulate on Saturday, only to be immediately rearrested. The other three have vowed to remain in the consulate for the time being, despite the British Government's pressure on them to leave.

The Durban incident is all the most disturbing because of the U.S. Government's failure to take any action. Last week, lawyers for the six fugitives had asked the United States and three West European countries for sanctuary. The Reagan administration re-

jected this request, claiming that temporary refuge could be granted only "in exceptional cases of imminent bodily harm."

I fail to understand this rationale, and I am appalled by the callousness of the administration's handling of the request. At no time did any of the UDF leaders advocate or encourage violence; the only reason for their detention was their obvious effectiveness in opposing the new constitution. The three still inside the consulate are in danger as long as they remain in South Africa; their fate will be the same as that of the three who are now back in prison. The decision not to grant sanctuary was a disgrace.

This incident is one more reflection of the bankruptcy of the Reagan administration's "constructive engagement" policy. The administration may call its approach constructive, but the policy in fact has been anything but that. No progress has been achieved either in reaching a settlement on Namibia or in promoting genuine reform in South Africa's domestic politics. Far from becoming better, as the administration has tried to claim, the situation in South Africa has grown steadily worse.

What is more, "constructive engagement" has cast a heavy shadow over the standing of our country in the international community and in the eyes of South Africa's blacks. The United States has become identified with the South African Government and with the apartheid system that props it up. In a recent conversation I had with Reverend Boesak and Bishop Desmond Tutu—two of the most courageous opposition figures in South Africa—they confirm to me that both blacks and whites in South Africa now regard the United States and South African Governments as linked in a common cause. The Durban incident will merely strengthen that perception.

It is shameful that the United States is now looked upon as South Africa's only friend. Everything the South African Government stands for is contrary to our country's cherished values and democratic ideals. The United States should never have compromised on its position that apartheid cannot be tolerated and that it must be ended before normal relations between Pretoria and Washington can be restored.

It is time the administration realized that friendly gestures alone have not worked and, in fact, have been counterproductive. I had hoped that the Congress would prod the administration into action by enacting an amendment to the Export Administration Act that would impose meaningful sanctions against South Africa. Last week, through the diligent efforts of Congressman STEPHEN SOLARZ, a conference committee had approved a compromise measure that would have prohibited all U.S. bank loans to the South African Government and its entities, and would have required the State Department to monitor and report on the extent of compliance by U.S. firms in South Africa with the Sullivan principles of fair employment. Although I would have preferred mandatory enforcement of the Sullivan principles with provisions for civil and criminal penalties against U.S. businesses that violate the guidelines, the amendment as it stood last week seemed to me a fair and reasonable compromise.

But now it turns out the Senate will not get a chance to vote on the amendment that had been agreed to, with bipartisan support, last week. The chairman of the Committee on Banking, Housing, and Urban Affairs has decided instead to offer his own version of a conference report that would delete the proscription on U.S. bank loans and merely require the State Department to monitor, but not enforce, compliance with the Sullivan principles. Thus, the key provision that would have imposed a penalty against the South African Government and the apartheid system—the ban on bank loans—has been lost. This conference report is such an emasculated version of what has originally emerged from the conference that I find it difficult to support. I hope we will still get a chance to vote on the amendment that had been drafted last week.

Mr. President, let me conclude by reiterating my dismay over the Reagan administration's stance toward South Africa. The recent violence and mass arrests have yet to provoke more than a tepid reaction from the administration. Yet, as an October 3 letter to President Reagan signed by 59 Congressmen pointed out, "these acts of increased internal repression in the past 2 months are stark reminders of the continuing brutality of South Africa's system of white minority rule." It is time for the U.S. Government to move swiftly and forcefully in seeking the release of political prisoners in South Africa, in pressing for a halt to the forced relocation policy, and in promoting genuine progress toward the abolition of apartheid.

I ask that the text of the October 3 letter from the 59 Congressmen to the President be printed in the RECORD at this point.

The letter follows:

COMMITTEE ON FOREIGN AFFAIRS,
HOUSE OF REPRESENTATIVES,
Washington, DC, October 3, 1984.

Hon. RONALD REAGAN,
President of the United States,
The White House,
Washington, DC.

DEAR MR. PRESIDENT: We are writing to express our grave concern about the consistently deteriorating human rights situation inside the apartheid state of South Africa, to seek your assistance in pursuing the immediate release of the numerous political detainees in that country and to establish a stronger public condemnation of the racist repression inside South Africa.

As you know, the South African government initiated a massive program of arrests and detentions, without charge, of opposition figures on the eve of the recent so-called Colored and Indian elections in South Africa in late August. This escalation of racial repression has already raised to 572 the total number of detentions (for 1984) of opponents of the white minority regime as of the end of August, well above the total for all detentions in 1983. Also, during the past several weeks over 70 black South Africans have died at the hands of South African police and security forces.

Under South Africa's draconian security laws, hundreds of black opponents are victimized each year by a system of unjust laws that override the rule of law—creating literally a nation of prisoners of conscience. Over the past several years, and increasingly during recent months, all civic, political, religious, and sports organizations opposed to the white regime in South Africa, as well as black trade unions, have faced a serious increase in state repression including the banning of meetings, confiscation of literature, interrogation (including torture) and detention of leaders and supporters alike on a variety of statutes designed to restrict their opposition activities. This legalized violence of arbitrary arrest and detention without trial is in addition to the daily violence of forced black population removals, the violence of a deliberately inferior educational system for black children, the violence of hunger an malnutrition in the bantustans, the violence of the migratory labor system which forces men to live an unnatural existence in single-sex hostels, and the violence of political disenfranchisement.

The overwhelming black rejection of South Africa's new constitutional offer to segments of that community (the so-called Coloreds and Indians) to collaborate with the ruling white minority in a new tricameral apartheid parliament clearly demonstrates that most South Africans believe the government's recent reforms are only aimed at entrenching the current system of racial repression. In an effort to legitimize this unrepresentative parliament Pretoria is rapidly moving to silence all opposition inside the country for an indefinite period through the massive crackdown we are now witnessing.

We believe it is both a moral and political imperative that the United States not only rhetorically condemn the recent escalation in repression in South Africa and the daily violence inflicted on that country's black majority but also initiate a sustained campaign of American opposition to South African repression similar to that which you initiate toward Poland. We believe that our rhetorical denunciations should be wedded to a program aimed specifically at securing the release of political detainees and halting forced removals as a way of advancing the observance of human rights for all members of South African society.

As part of this program the United States must first make it clear that we can never accept a normalization of ties with South Africa if it continues to pursue a doctrine of racial supremacy, based upon a constitution and homelands policy unacceptable to the vast majority of its population. We further recommend that funds available under the South African Human Rights Program [established under section 116(e) of the Foreign Assistance Act] be used to directly sup-

port the efforts of organizations to secure the release of political detainess and to halt forced removals.

While the white minority regime in Pretoria attempts to gain greater acceptance of South Africa in the western world, by presenting its new constitution as a meaningful reform of apartheid, these acts of increased internal repression in the past two months are stark reminders of the continuing brutality of South Africa's system of white minority rule.

Mr. President, we call upon you to take immediate steps in pursuit of the release of political detainees in South Africa and to initiate a public campaign in opposition to South African repression and particularly aimed at securing the release of all political prisoners and halting that government's policy of forced removals.

Respectfully yours,

Howard Wolpe, Mel Levine, John Bryant, Mickey Leland, Richard Durbin, Bruce Morrison, William Ratchford, Paul Simon, Thomas J. Downey, Robert T. Matsui, Stewart McKinney, Major Owens, Edolphus Towns, Mike Lowry, Barney Frank, Mervyn M. Dymally, Marcy Kaptur, Barbara Boxer, Michael Barnes, William J. Coyne, Robert Torricelli, Sander M. Levin, Robert Mrazek, William H. Gray III, Lawrence Smith, Katie Hall, Howard L. Berman, Douglas K. Bereuter, Lane Evans, Gary L. Ackerman, Geo. W. Crockett, Jr., Steny H. Hoyer, Jim Leach, Walter Fauntroy, Cardiss Collins, James J. Howard, Norman Mineta, James L. Oberstar, Louis Stokes, Don Edwards, Gus Savage, Mary Rose Oakar, Patricia Schroeder, Robert A. Young, Edward J. Markey, Jerry M. Patterson, Stephen J. Solarz, Ronald V. Dellums, Richard Ottinger, William Lehman, Parren J. Mitchell, Harold Ford, John Conyers, Joseph Addabbo, Ted Weiss, Dan Glickman, James Scheuer, Henry A. Waxman, Edward F. Feighan.

COMMITTEE ON FOREIGN AFFAIRS,
HOUSE OF REPRESENTATIVES,
Washington, DC, October 3, 1984.

Mr. P.W. BOTHA,
President, Republic of South Africa,
Pretoria, South Africa.

DEAR MR. BOTHA: We are writing to express our grave concern about the consistently deteriorating human rights situation inside your country and to call upon you to take immediate steps to release the numerous policical detainees currently being held following the massive campaign of arrests initiated on the eve of the recent elections in South Africa. We also call upon you to revoke the new detention orders for the six people currently confined to the British Consulate in Durban.

We further wish to formally protest the recent deaths of some 70 opponents of apartheid and striking mineworkers. The activities of South African security forces, including arrests, beatings, detentions, torture, and killings, only demonstrates the continuing unacceptability of South Africa's system of repressive and racist rule. As many members of Congress have stated before, the United States can never accept a normalization of ties with South Africa if it continues to pursue a doctrine of racial supremacy, based upon a constitution and homelands policy opposed by the vast majority of your population.

Again, We call upon you to immediately rescind the detention orders of all political detainees currently being held as well as those in refuge at the British Consulate.

Sincerely,

HOWARD WOLPE,
MEL LEVINE,
JOHN BRYANT,
MICKEY LELAND
plus 55 other signatures (the same Members whose signatures are on the following letter)●

NEGATIVE REGIONAL IMPACT OF STEEL IMPORT RESTRAINT

Mr. WILSON. Mr. President, an event of truly national importance took place yesterday when the Senate of the United States agreed to the conference report on the trade bill. Contrary to the great traditions of this body, the Senate acted with such dispatch that even some of us who had intended to participate in the debate missed it.

Mr. President, for those who were not on the floor at the time, I want them to understand fully the importance of that, to express my strong support for the conference report on H.R. 3398, the omnibus trade bill, for it makes many significant and worthwhile changes in our tariff and trade laws.

Among the changes in which I have a very direct interest are Israel free trade, reciprocity, wine equity, and a reduction in tariffs on semiconductors. For these provisions, and others, I want to applaud the extraordinary efforts of the Senator from Missouri, [Mr. DANFORTH], and others who have worked so hard to bring about an agreement, particularly the distinguished chairman and ranking member of the Finance Committee, Mr. DOLE and Mr. LONG, as well as the ranking member of the International Trade Subcommittee, Mr. BENTSEN. I also want to express my appreciation to Ambassador William Brock, the U.S. Trade Representative, for his gracious willingness to work with me to help resolve some of the most potentially contentious trade issues affecting California.

Mr. President, I also do want to express some great concern over the provisions regarding steel in the final version of H.R. 3398. The economic impact of steel imports has been a hot topic around Washington since the 201 action was filed with the International Trade Commission early this year. Great claims were made about the wonderful effects of quotas, some claiming that they would not only save our domestic steel industry, but would also save and create thousands of jobs. On the other side, strong evidence was presented, specifically by the Congressional Budget Office, which showed that not only would quotas cause a net decrease in employment in the United States, but would also not rectify the real problems facing the steel industry.

In this regard, I ask unanimous consent that a letter I sent to the President, along with eight of my colleagues, be printed at this point in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

U.S. SENATE,
Washington, DC, September 18, 1984.

The PRESIDENT,
The White House, Washington, DC.

DEAR MR. PRESIDENT: We want to express our complete opposition to the implementation of any quotas on steel imports. The voluntary restraints on steel which are presently in effect have already done great damage to our economy by raising the price of basic feedstock to thousands of steel finishers, both large and small, throughout the country. To enlarge and formalize steel import restraints through the imposition of quotas, as recommended by the International Trade Commission, would constitute a further and more serious self-inflicted wound.

That there are many more people employed in the United States producing steel products than there are producing steel is truly not subject to debate. In light of the assessment of the Congressional Budget Office that the so-called "Fair Trade in Steel Act"—which calls for quota restraints much more severe than those recommended by the ITC—would not "reverse the secular decline in the (steel) industry," it would make little sense to impose quotas administratively. To do so would only serve to temporarily save some jobs in the steel industry while permanently endangering the jobs of many thousands of workers in the automobile, machinery, and construction industries, at a time when these industries are just starting to enjoy the benefits of the recovery. By raising the costs of raw materials for domestic manufacturers while maintaining free and open trade in the products they produce, our government would be exacerbating the problems they face in meeting competition from international competitors in both foreign and domestic markets. And as recent history has shown, even temporary trade restraints can lead to lost markets on a long-term basis.

Quotas would lead to an exacerbation of our balance of trade difficulties. Countries which presently export steel to the U.S. would retaliate by restricting U.S. imports. Other countries would see U.S. steel quotas as a renunciation of our professed free-trade policy, thereby undercutting our efforts to maintain and improve foreign access for U.S. goods—both in Europe and in the increasingly important Pacific Rim. Goods which could well be affected range from agricultural commodities such as beef, citrus, wine, grain, and corn gluten, to high technology products such as semiconductors, computers, and telecommunications equipment. Furthermore, our attempts to expand trade in services could also suffer setbacks.

We support efforts to stop and retaliate against the importation of goods which are subsidized or are being dumped in the U.S. However, as you know, these unfair and illegal actions are not the basis of the ITC recommendation. Rather, the imposition of a

quota in this situation would be purely and simply protectionist.

Succinctly stated, we believe that the economic well-being of all of America is best served by your rejection of steel import quotas.

Thank you for your consideration of our views on this important matter.

Sincerely,

Senators, Pete Wilson, Slade Gorton, Steven D. Symms, Mack Mattingly, Mark Andrews, John H. Chafee, Bob Packwood, James A. McClure, Nancy Landon Kassebaum.

Mr. WILSON. Mr. President, beyond the negative impact on the national level, unfortunately too little attention has been paid to the regional effects of steel quotas. In my State of California, there simply is too much demand and too little steel being domestically produced to meet it. California is not looking to imported steel merely because it is less expensive. California, along with most other Western States, is looking to imported steel because it is the only steel that is available.

As the Members of the Senate are aware, the conference report does not contain quotas on steel. And, the President recently rejected the ITC recommendation to impose quotas.

However, with the so-called voluntary restraints which the President has announced he will seek with countries exporting steel to the United States, when coupled with the language in the conference report and the statement of managers, is fraught with danger for steel consumers in the West. This is particularly true as information that this Senator is receiving suggests that the new restraints will fall most heavily on important suppliers of steel to California, such as Brazil, South Korea, and Spain.

Any action which cuts steel availability in the West—either a quota or a voluntary agreement—will hurt California steel consumers and therefore, ultimately, individual consumers of finished products.

Already, there are shortages of steel products in California because east coast producers are unable or unwilling to ship their products across the country. One company, Pinole Point Steel, is presently facing the prospect of shutting down due to short supply and the decision of the Commerce Department to deny a waiver request on shipments otherwise proscribed by our agreement with the European Community—despite the fact that no U.S. producer will make up the shortfall.

Further restraints would actually harm steel industry employment in California. They would make it unlikely that the closed steel mill at Fontana would be able to reopen and create hundreds of jobs, because the mill would be unable to buy adequate feedstock from anyone at any reasonable price. Even if there were a special allocation of imported steel to the West, further cutbacks in steel imports to the West could cripple a number of industries in California.

Mr. President, as I have stated, there is much in this bill which I support. I do want to state at this time, however, that if the so-called voluntary restraints on steel further obstruct the flow of steel to California, this Senator will take to the floor of the Senate to take whatever action is necessary to protect his State's economy, which is the largest in the Nation—and among the largest in the world—and which is heavily dependent on steel imports.

Mr. President, I suggest the absence of a quorum.

Mr. MATSUNAGA. Mr. President, will the Senator withhold?

Mr. WILSON. Yes.

TO ROAST THE SENATOR BAKER

Mr. MATSUNAGA. Mr. President, I believe it is appropriate at this time during the waning hours of the 98th Congress for me to add some spark and roast the Senator BAKER.

Mr. President, when the 99th Congress convenes next year, we on this side of the aisle will look to the other side and see a gaping hole, as large and conspicuous as the empty sky where once stood a giant oak tree, felled to the ground—HOWARD BAKER will be missing; and while there may be a few across the aisle who may not agree, no one will be able to fill his seat.

Eight years ago, when I left the House of Representatives to come to this upper House, some of whom I thought to be my best friends remarked that by the move I had, at once, improved the quality of both Houses. Fortunately for all of us, HOWARD BAKER will be leaving us, at the end of this 98th Congress, to undertake the task of improving the quality, so sadly lacking, of the third House at the other end of Pennsylvania Avenue.

I am sure there are many, especially on this side of the aisle, who wish that the distinguished majority leader were seeking that office this year, for as one constituent said to TIP O'NEILL, who was running for reelection to the House early in his career, "I'll support you because any one would be better than the man we now have."

Truthfully speaking, I would be willing to make my personal commitment here and now to support HOWARD BAKER in his effort even 4 years hence, if he will but amend that one glaringly conspicuous flaw in his judgment, by running as a Democrat.

All joking aside, no one can deny that HOWARD BAKER has proved himself a strong and effective majority leader, through firmness and fairness. Like the mystical maiden of beauty, he has mastered the art of saying "No," without dashing the seeker's hopes or aspirations. Without a doubt, HOWARD BAKER is one of the two most highly respected and admired Members of this august body. To retain the continued friendship of every other colleague, I am not now saying who the other one is.

In all seriousness, I am sure I speak not only for myself, but for all Senators on both sides of the aisle, when I say, "HOWARD, we will miss you more than words can express. Hele oe me ke aloha!"

Mr. WEICKER. Mr. President, I believe the majority leader is prepared to make a unanimous-consent request.

Mr. BAKER. Mr. President, I wish to express my deep, genuine, and humble appreciation to the distinguished Senator from Hawaii and to apologize for leaving the floor. I have to confess that when I hear compliments uttered such as the extravagant compliments just uttered by the Senator from Hawaii, I am tempted to demand equal time for rebuttal.

UNANIMOUS-CONSENT AGREEMENT ON CONFERENCE REPORT—H.R. 6028

Mr. BAKER. Mr. President, there is a conference report that has been cleared for action on both sides. I would like to propound a unanimous-consent request with respect to it.

I ask unanimous consent that the Senate now proceed to the consideration of the conference report to accompany H.R. 6028.

I further ask unanimous consent that there be 10 minutes of debate equally divided on the conference report to be all-inclusive of debate on the conference report and any amendments in disagreement thereto; and that the control of the time be in the usual form.

I ask unanimous consent that no amendments be in order to the amendments in disagreement.

I ask unanimous consent that no motions be in order except motions to recede or to concur and similar motions or motions to reconsider on which no debate will be in order or a motion to table a motion to reconsider be in order.

I further ask unanimous consent that no point of order shall lie against this conference report or any amendments thereto.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS—CONFERENCE REPORT

Mr. BAKER. Mr. President, pursuant to that request, I submit a report of the committee of conference on H.R. 6028 and ask for its immediate consideration.

The PRESIDING OFFICER. The report will be stated.

The assistant legislative clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 6028) making appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies, for the fiscal year ending September 30, 1985, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses this report, signed by a majority of the conferees.

The PRESIDING OFFICER. Without objection, the Senate will proceed to the consideration of the conference report.

(The conference report is printed in the House proceedings of the RECORD of today, October 10, 1984.)

Mr. WEICKER. Mr. President, I am pleased with the agreements we reached with the House in conference on fiscal 1985 appropriations for the Departments of Labor, Health and Human Services, Education, and related agencies.

The conference agreement includes Federal funds totaling $104,564,893,000 for programs under the jurisdiction of the Labor-HHS-Education Subcommittee. That represents an increase of $4,879,547,000 over the President's budget, but a decrease of $1,501,291,000 from the fiscal year 1984 level. We agreed to increases of $8,769,353,000 over the House-passed version, and decreases of $1,338,730,000 below the Senate-passed bill. Most importantly, the totals for discretionary programs are well within the ceilings for the subcommittee under the so-called Rose Garden agreement.

For the Department of Labor, a total of $6,340,645,000 in Federal funds is included. The bulk of these resources—$4.1 billion—is for implementation of employment and training programs. Specifically, $617,000,000 was included for the Job Corps, an increase of $17,000,000 over the budget request, intended to avoid such cost saving measures as increasing the size of classes and increasing the caseloads of counselors and supervisors. We also included a $100,000,000 increase over the budget request for the Summer Youth Employment and Training Program, which will maintain the higher levels approved in the fiscal 1984 supplemental. An increase of $37,000,000 was agreed to for State employment service activities, as well as $326,000,000 for Community Service Employment for Older Americans, which will provide 653,800 jobs.

For the Department of Health and Human Services, Federal funds total $79,630,793,000, an increase of nearly $6 billion over the fiscal 1984 level.

I am especially pleased that we have provided $5,145,959,000 for the National Institutes of Health—up from $4.5 billion in fiscal year 1984. The total provides $217,530,000 for research training not originally considered by the House, including a stipend increase for NIH trainees. The totals also provide construction funds not included in the House bill so that NIH can proceed with construction of the cancer center at the University of West Virginia. The National Eye Institute construction account also includes up to $1 million for the opthamology department at the University of Oregon.

Additionally, we have several very significant increases over and important accomplishments within the Health Resources and Services Administation. Among them, we have provided $478 million—the fully authorized level, for the maternal and child health programs, and almost $9 million more for community health centers—to the fully authorized level—as well as providing transfer authority so that these centers do not have to continue to absorb the cost of retaining private practice option National Health Service Corps physicians.

Between now and the year 2000, the size of our population aged 55 and older is expected to increase 19 percent; 65 and older will increase 27 percent; and 75 and older will increase by over 50 percent. Because of the great concern about these future trends in health care for the aged, $5 million has been included to establish departments and programs in geriatric health care in our medical schools.

An additional $55.6 million over the budget request was provided for nurse training programs as well as nursing research activities, including $5 million set aside for a center for nursing research when it is authorized.

For the Centers for Disease Control, a total of $410,530,000 was agreed to, including $203,878,000 for items not originally considered by the House. Overall, the bill has more than $83 million for surveillance, research, and treatment of acquired immune deficiency syndrome.

We provided $922,621,000 for the Alcohol, Drug Abuse, and Mental Health Administration, including $490,000,000 for the mental health block grant and $96,000,000 for mental health research. This represents an increase of $73,621,000 overall from the 1984 level, including an additional $28,000,000 for the block grant program.

The conference agreement also includes almost $2,000,000 to enable the Health Care Financing Administration to intensify its surveying and technical assistance efforts with regard to the intermediate care facilities for the mentally retarded. Many of these facilities do not currently meet Federal certification standards, and we have a responsibility to the residents of those institutions to see that they receive the highest quality of care we can provide.

For the Social Security Administration, a $63,000,000 increase over the budget request is intended to restore the proposed elimination of 2,850 staff, and strengthen services to Social Security clientele in field offices.

The conference agreement includes $2.1 billion for the Low-Income Home Energy Assistance Program, an increase of $225 million over the budget request. Last year, this program provided assistance to more than 6.5 million households, and helped alleviate the impact of an extremely harsh winter.

We increased Head Start appropriations by $80,000,000 over the budget request, raising total funding above $1 billion for the first time—$1,075,059,000 to be exact. For child welfare assistance, the House agreed to the full Senate increase of $35 million over the fiscal year 1984 level, for a total of $200,000,000. Under the Child Abuse Prevention and Treatment Act, the conferees increased appropriations from the 1984 level of $16.2 million to $26,000,000, which should help implement new initiatives recently approved by Congress in renewed authorizing legislation.

I am particularly pleased that we were able to expand funding under the community services block grant to more than $372,000,000, an increase of $20,000,000 over 1984. These funds provide an array of antipoverty services to hundreds of thousands of our most needy citizens. We also maintained the social services block grant at the current level of $2,700,000,000.

Although the House originally deferred consideration of Older Americans Act programs, I am pleased the conferees agreed to the full amount recommended in the Senate-passed regular bill for nutritious meals, social services and centers, and other activities, totalling $701,600,000. The conferees also expressed the belief that supplemental action may be needed early next year in order to take into account recent congressional reauthorizations contained in the Older Americans Act Amendments of 1984.

In an area of special concern to me, as chairman of the Handicapped Subcommittee of the Labor and Human

Resources Committee, the House agreed to my recommendation of $75,700,000 for programs under the Developmental Disabilities Assistance and Bill of Rights Act, the full amount recently agreed to in conference on renewed authorizing legislation. This includes $50,250,000 for State grants, $13,750,000 for protection and advocacy, $9,000,000 for university affiliated facilities, and $2,700,000 for special projects.

The conferees also agreed to maintain the Work Incentive Program at a level of $266,760,000.

For the Department of Education, the conference agreement provides $17,601,556,000, compared to fiscal 1984 appropriations of $15,364,661,000.

Included in the total is $100,000,000 to begin the new science and math education program under the Education for Economic Security Act. An additional $634,000,000 over last year's level was approved for student financial assistance, including $3.325 billion for Pell grants. This allows an increase in the maximum grant a student may receive from $1,900 to $2,000.

For impact aid, the conference agreement provides $695,000,000, a $95,000,000 increase over the 1984 appropriation.

The House agreed in conference to our full Senate recommendation of $1,135,145,000 for education of the handicapped State grants. Overall, education for the handicapped appropriations increase by $81 million over the 1984 enacted level, providing a total of $1,321,270,000.

Vocational rehabilitation basic State grants increase by $62.2 million over last year, to $1.1 billion. The entire amount under the rehabilitation and handicapped research appropriation is $1,233,300,000, $78,200,000 above the 1984 level.

Despite a budget request of zero, the conferees agreed to expand libraries funding to $125 million, compared to $87 million in 1984 enacted appropriations, including $25 million for public library construction.

There should be no doubt in the various departments and agencies under the jurisdiction of my subcommittee that the Senate report which accompanies S. 2836 fully applies with respect to fiscal year 1985 Labor-HHS-Education appropriations, and the executive branch will be held accountable for following our intent as expressed in that report, as well as the conference report accompanying H.R. 6028.

Mr. President, I have focused my remarks to items of disagreement between the House and Senate that were resolved in our conference recommendations, calling attention to matters of particular concern. Thus, of our 12 related agencies, I will mention only two: $150,164,000 for the ACTION Agency, and $200,000,000 for the Corporation for Public Broadcasting fiscal 1987 advance.

In conclusion, Mr. President, I believe we have fashioned a bill that is both compassionate for the millions of Americans that it serves, and fiscally responsible. Our recommendations, while retaining the bulk of the new initiatives of priority concern to Congress, is still within the budget resolution ceiling for subcommittee discretionary programs.

I therefore urge my colleagues to adopt these conference report recommendations.

Mr. RANDOLPH. Mr. President, I commend my able colleagues, the chairman of the Labor-HHS Subcommittee, Mr. WEICKER, and the ranking Democratic member, Mr. PROXMIRE, for their capable leadership in ushering the conference committee to the final bill that is before us now. This measure will serve the needs of our Nation for the next fiscal year. Mr. President, in my capacity as a member of the Committee on Labor and Human Resources I am particularly interested in that portion of the continuing resolution that is within the jurisdiction of the Labor-HHS-Education Subcommittee.

One vitally important component of this legislation provides a funding level of $4.5 million for the development of a cancer center at West Virginia University. For the past 2 years, West Virginia University has been working closely with the National Cancer Institute to establish a regional cancer center in the State. The program will serve as a national model in establishing a regionalized, rural-based cancer center, stressing strong integration with existing community hospitals. By the coordination of programs throughout the Appalachian plateau aimed at cancer prevention and education, and through the development of affiliated programs in the major population areas of West Virginia, including Huntington, in coordination with the Marshall University Medical School, Charleston, Wheeling, and Lewisburg, in coordination with the West Virginia School of Osteopathic Medicine, the center will provide an organized approach to cancer prevention, early detection, and availability of specialized care to all of West Virginia. The development of such a program will significantly improve the care of many cancer victims in West Virginia and its neighboring States, a region that is currently underserved.

Currently there are 59 cancer centers in the United States, but none are within a 100-mile radius of West Virginia and the Appalachian plateau. As a result, 30 percent of West Virginia's patients are currently forced to leave the State for all or part of their care. While other causes of death have declined in frequency, cancer incidence has increased and is now the second leading cause of death from disease in West Virginia. This year, based on data provided by the National Cancer Institute, it is estimated that: Approximately 27,900 West Virginians are alive who have or have had cancer; 7,900 West Virginians will be newly diagnosed with cancer; 4,100 or about 10 West Virginians per day are dying from their cancer; and most important, particularly when justifying the need for a cohesive, academically based program, one-third of those dying from their cancer might have been saved by earlier diagnosis and treatment. The magnitude of cancer problems facing West Virginia today primarily relate to a lack of organized, statewide approaches to cancer prevention, early detection, and accessibility to specialized care.

The need for establishment of a regional cancer center in this area of Appalachia is undeniable. However, considerable obstacles must be overcome, as the cost for such a program is very high, and adequate funding difficult to obtain. It was for this reason that Senator BYRD in his capacity as a member of the Senate Appropriations Committee, offered an amendment to the Labor-HHS-Education Appropriations bill providing for the $4.5 million funding level for the development of the cancer center at West Virginia University. I commend my friend and colleague on his successful effort to convey to the Appropriations Committee members the true need in our State for such a cancer program. I also commend and thank the chairman of the subcommittee, Senator WEICKER, for his recognition of the problem in West Virginia and his determination to address the need for such a program in our State. Senator WEICKER and the other members of the Senate and House Subcommittees on Labor-HHS-Education Appropriations are certainly leaders in the continuing effort to improve our Nation's health, as they guide the Congress in its appropriation of funds for programs of great value such as that being developed at West Virginia University. Again I thank you and applaud your efforts.

Mr. WEICKER. Mr. President. I move the adoption of the conference report on H.R. 6028.

The PRESIDING OFFICER. Is there further debate?

Mr. PROXMIRE. Mr. President, I understand I have 5 minutes. Is that correct?

The PRESIDING OFFICER. The Senator is correct.

Mr. PROXMIRE. I shall take much less than that, then I shall yield the rest of my time to the Democratic leader.

Mr. President, I'm delighted that for the second year in a row, we have this

opportunity to approve a Labor-HHS-Education Appropriations bill.

Although I'm concerned over the fact that the discretionary funding included in this bill exceeds the President's budget request by $3.7 billion, the bill as reported from conference falls within the ceilings imposed by the budget resolution and I hope we can quickly approve this conference report.

Mr. President, for 5 years before 2 years ago, we are unable to pass this bill. It had to go into a continuing resolution. That is not true this year, it was not true last year. I wish especially to congratulate my senior colleague from Connecticut who has now gone two for two in managing this very difficult legislation.

I thank the Senator.

CANCER CENTER

Mr. BYRD. Mr. President, I am pleased that the conference agreement on the fiscal year 1985 appropriation bill for the Departments of Labor, Health, and Human Services, Education, and related agencies, includes funding for the National Cancer Institute's construction grants program, $4.5 million of which is for the Cancer Center at West Virginia University.

The Appalachian Plateau has no organized approach to cancer prevention or early detection, and no availability of specialized state-of-the-art cancer care. There are no cancer centers within a 100-mile radius of West Virginia. In fact, some areas of West Virginia are even further removed than that from accessibiity to cancer care and treatment.

Many cancer patients find it necessary to leave the State for all or part of their cancer treatment. If they cannot afford to leave the State, or if they are just too ill to travel, they do not receive the specialized treatment they need. Based on data in 1973 from the National Cancer Institute, expert authorities estimated that, in that year, 7,700 West Virginians would be newly diagnosed with cancer and that 3,900 would die—about 10 West Virginians per day. One-third of those dying from cancer in West Virginia might have been saved by earlier diagnosis and treatment. Sad to say, 1973 is the latest data available for West Virginia.

For the last 20 years, West Virginia University has been involved in cancer research. Building on that experience, the proposed West Virginia University cancer center will focus heavily on early detection, prevention, and treatment of cancer. The cancer center will also create an extensive outreach program and satellite facilities to bring cancer care closer to those individuals in need. The Cancer Center will also place special emphasis on those cancers prevalent to West Virginia, such as lung, gastrointestinal, and familial polyposis coli, Gardner's disease.

This center will be named the Mary Babb Randolph Cancer Center after Mrs. Jennings Randolph. After a lengthy and courageous fight, Mrs. Randolph died from cancer. Trained as a social worker, Mrs. Randolph had a special degree of understanding and concern for the well-being of others. I know she would be proud to have this center named after her.

What more fitting tribute to Mrs. Mary Babb Randolph than to establish a cancer center that will ease the suffering of those afflicted with this most horrible disease and will work toward the prevention and cure of cancer?

I thank the chairman of the Appropriations Subcommittee on Labor, Health and Human Services, Education, and Related Agencies, [Mr. WEICKER] for his able leadership and assistance in supporting my proposal to establish the Mary Babb Randolph Cancer Center. I also want to thank the ranking member [Mr. PROXMIRE] for his assistance. I am sure that in the years ahead, all of those who have joined in supporting the Mary Babb Randolph Cancer Center will find that it is not only an enduring tribute to Mrs. Randolph, but that it will also provide West Virginians and all other Americans with a more effective weapon in the war against cancer.

Mr. WEICKER. Mr. President, I want to respond to my good friend from West Virginia. First, I compliment him for pursuing the cancer center in West Virginia; also to express along with him my admiration both for the senior Senator from West Virginia and his deceased wife and say what a wonderful thing it is to see this institution named after her. Indeed, the subject matter was discussed in detail during the course of the conference and it was the intention of the conferees that such sums as are in the bill and mentioned by the Senator go for the construction of that center. I think it was a job well done.

For all the tributes in the sense of our words—and they are well meant also—something like this is a lasting tribute.

Mr. BYRD. Mr. President, I thank the distinguished Senator.

Mr. DOMENICI. Mr. President, I support the fiscal year 1985 Departments of Labor, Health and Human Services, and Education, and related agencies appropriation conference agreement.

I commend the chairman of the subcommittee, Senator WEICKER, and the chairman and the other members of the Senate Appropriations Committee for their work on this bill. It is an important measure providing significant increases in many domestic programs for the elderly, the poor, and the young and the handicapped.

This conference agreement provides $93.5 billion in budget authority and $80.2 billion in outlays for fisal year 1985 for the important activities of the Departments of Labor, Health and Human Services, and Education, and related independent agencies.

After adjustments for possible later requirements, the Labor-HHS conference agreement provides $32.5 billion in budget authority for discretionary programs. This nondefense discretionary spending level is consistent with the guidance given to the subcommittee by the full Senate Appropriations Committee on June 4, 1984. Mr. President, I ask unanimous consent that a table showing this relationship be printed in the RECORD at the conclusion of my remarks.

Again, Mr. President, I support this conference agreement and urge its adoption by my Senate colleagues.

There being no objection, the table was ordered to be printed in the RECORD, as follows:

Labor, Health and Human Services, Education, and Related Agencies Subcommittee, Nondefense discretionary budget authority

[In billions of dollars; fiscal year 1985]

Conference agreement (H.R. 6028)	31.9
Possible later requirements:	
Refugee assistance	.5
Health planning	.1
Subcommittee total	32.5
Committee guidance[1]	32.6
House-passed level	33.4
President's request	28.2
Subcommittee total compared to:	
Committee guidance[1]	−.1
House-passed level	−.9
President's request	+4.3

[1] Nondefense discretionary cap guidance approved by the Appropriations Committee on June 14, 1984.

Note.—Details may not add due to rounding.

Mr. WEICKER. Mr. President, I yield to the distinguished Senator from Iowa [Mr. JEPSEN].

Mr. JEPSEN. Mr. President, I congratulate and commend the senior Senator from Connecticut for his work and attention to a subject matter that has been very near and dear to me throughout the years. That subject is the field of education and special education for the handicapped, vocational education funds, and so on.

This bill, as it came back from conference, now has community health center funding, which includes programs for rural health care, an area very essential to my State of Iowa. I am especially pleased to see that health research includes emphasis on Alzheimers disease and infant health care, a matter that is important not only to my State, but the entire country today. It is for consideration of these matters in this bill that I want the record to show that I am voting for the bill. I am very pleased to do so.

Again, Mr. President, I congratulate the distinguished Senator from Connecticut.

Mr. WEICKER. Mr. President, I wish to respond to my good friend

from Iowa, knowing of the time spent by him on the portions of the bill he alluded to. Indeed, in terms of special education and vocational rehabilitation education, his help has been invaluable. I greatly appreciate his support in the passage of that legislation.

Unless there are futher comments to be made at this time, Mr. President, I am prepared to yield back the remainder of my time.

Mr. PROXMIRE. I yield back the remainder of my time.

The PRESIDING OFFICER (Mr. HECHT). The question is on agreeing to the conference report.

The conference report was agreed to.

Mr. WEICKER. Mr. President, I move to reconsider the vote by which the conference report was agreed to.

Mr. PROXMIRE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. WEICKER. Mr. President, the Senate has just taken a very significant action in adopting the conference report on the Labor, Health and Human Services and Education and Related Agencies Appropriations Act for 1985. For the second consecutive year, our Nation's health care, health research, education, labor, and social services programs will be funded in an orderly manner. These programs and—more importantly—the persons who will benefit from our actions will not live under the uncertainty of a series of continuing resolutions. State governments, local education agencies, community health centers, universities, and millions of individuals will receive the funds provided today in a timely fashion, allowing them to plan economically.

The legislation we have passed and are now sending to the President provides a total of $101.4 billion for fiscal year 1985. For the discretionary spending programs under our jurisdiction, this represents an increase of 10 percent over fiscal year 1984 and is nearly 13 percent more than the President's budget request for these same activities. Even so, we are told, Mr. President, that the administration has no objection to its enactment since it is well within the spending totals set by this body during consideration of the budget resolution earlier this year.

Our actions today represent this Congress' commitment to the needs of the disadvantaged in our society; the educational opportunities for our children; and the hope for better health presented by each dollar spent on research. We have taken special care of the unique needs of both the youngest and eldest of our citizens. We have emphasized those programs designed to address the illnesses which afflict these particular populations and the programs which train specialists to care for them.

In summary, it is a compassionate bill—one which I am proud to have brought back from conference.

Mr. President, I want to express my sincere appreciation to Congressman BILL NATCHER, the chairman of the House Subcommittee on Labor, Health and Human Services, Education and Related Agencies.

The passage of this conference report would not have been possible without his steady hand at the helm. It takes dedication to the job and compassion for the needs of those affected by this appropriation bill. BILL NATCHER has both and it is always a pleasure to work with him and his colleagues in the House.

The PRESIDING OFFICER. The amendments in disagreement will be stated.

The legislative clerk proceeded to read the amendments in disagreement.

The amendments in disagreement are as follows:

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 2 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$3,643,545,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 10 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the matter proposed by said amendment, insert:

To carry out the activities for national grants or contracts with public agencies and public or private nonprofit organizations under paragraph (1)(A) of section 506(a) of title V of the Older Americans Act of 1965, as amended , $254,280,000.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 11 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the matter proposed by said amendment, insert:

To carry out the activities for grants to States under paragraph (3) of section 506(a) of title V of the Older Americans Act of 1965, as amended, $71,720,000.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 30 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the matter proposed by said amendment, insert:

HEALTH RESOURCES AND SERVICES

For carrying out titles III, IV, V, VII, VIII, X, and parts A and C of title XVI and XIX of the Public Health Service Act, and 5 U.S.C. 7901, section 427(a) of the Federal Coal Mine Health and Safety Act, and title V of the Social Security Act, $1,427,694,000, of which $2,500,000 shall be available only for payments to the State of Hawaii for care and treatment of persons afflicted with Hansen's disease and $2,500,000 to remain with Hansen's disease and $2,500,000, to remain available until expended, shall be for demonstration grants under section 301: Provided further, That this appropriation shall be available for payment of the costs of medical care, related expenses, and burial expenses hereafter incurred by or on behalf of any person who has participated in the study of untreated syphilis initiated in Tuskegee, Alabama, in 1932, in such amounts and subject to such terms and conditions as prescribed by the Secretary of Health and Human Services and for payment, in such amounts and subject to such terms and conditions, of such costs and expenses hereafter incurred by or on behalf of such person's wife or offspring determined by the Secretary to have suffered injury or disease from syphillis contracted from such person: Provided further, That when the Department of Health and Human Services operates an employee health program for any Federal department or agency, payment for the full estimated cost may be made by way of reimbursement or in advances to this appropriation: Provided further, That during the fiscal year, and within the resources and authority available under section 338 of the Public Health Service Act, gross obligations for the principal amount of direct loans under section 335(c), 338C(e)(1), and 338E of that Act shall not exceed $1,000,000: Provided further, That none of the funds made available by this Act shall be used to provide special retention pay (bonuses) under paragraph (4) of 37 U.S.C. 302(a) to any regular or reserve officer of the Public Health Service for any period during which the officer is providing obligated service under section 338B or under former sections 225(e) or 752 of the Public Health Service Act except that this proviso shall not apply to any period of service covered by an agreement entered into by an officer under 37 U.S.C. 302(c)(1) before the date of enactment of Public Law 97-377.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 32 to the aforesaid bill, and concur therein with an amendment as follows:

Strike out the matter stricken by said amendment, and insert: *$410,530,000, of which $6,310,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 35 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$1,183,806,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 37 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$805,269,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 39 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$100,688,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 41 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$543,576,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 43 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$396,885,000*

Resolved, That the House recede from its disagreement to the amendment of the

Senate numbered 45 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$370,965,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 47 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$482,260,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 49 to the aforesaid bill, and concur therein with an amendment as follows:

Strike out the matter stricken by said amendment, and insert: *$313,295,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 51 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$181,678,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 53 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$194,819,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 55 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$144,521,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 57 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$304,025,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 66 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum proposed by said amendment, insert:

PUBLIC HEALTH SERVICE MANAGEMENT

For the expenses necessary for the Office of Assistant Secretary for Health and for carrying out titles III and XX of the Public Health, Service Act, $101,803,000, of which $250,000 shall be available for design and facility planning under section 305(b)(3) of the Public Health Service Act, together with not to exceed $1,050,000 to be transferred and expended as authorized by section 201(g) of the Social Security Act, from the Federal Hospital Insurance and the Federal Supplementary Medical Insurance Trust Funds referred to therein and, in addition, amounts collected by the National Center for Health Statistics from the sale of data tapes shall be credited to this appropriation and shall remain, available until expended: Provided, That section 2008(g) does not apply to these programs.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 68 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$18,750,000,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 78 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the matter proposed by said amendment, insert:

LOW INCOME HOME ENERGY ASSISTANCE

For carrying out title XXVI of the Omnibus Budget Reconciliation Act of 1981, $2,100,000,000.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 81 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$1,996,154,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 115 to the aforesaid bill, and concur therein with an amendment as follows:

Strike out the matter stricken by said amendment, and insert: *1981, $531,909,000, of which $31,909,000 shall be for programs and projects authorized under subchapter D of said Act, including $10,700,000 for programs and projects authorized under subsection 583(a)(1) of said Act; $6,052,000 shall be used for awards, which, except for educational television programming, are not to exceed a cumulative amount of $1,000,000 to any recipient for national impact demonstration or research projects; $7,000,000 for activities authorized under subsection 583(b)(1) of said Act; $3,157,000 for programs authorized under subsection 583(b)(2) of said Act; $3,000,000 for programs authorized under subsection 583(b)(3) of said Act; and $2,000,000 for activities authorized under subsection 583(b)(4) of said Act: Provided, That $500,000,000 to carry out the State block grant program authorized under chapter 2 of said Act shall become available for obligation on July 1, 1985, and shall remain available until September 30, 1986: Provided further, That $31,909,000 for the purpose of subchapter D of said Act shall become available for obligation on October 1, 1984.*

For grants to State education agencies and desegregation assistance centers authorized under section 403 of the Civil Rights Act of 1964, $24,000,000.

For carrying out activities authorized under title IX, part C of the Elementary and Secondary Education Act, $6,000,000.

For carrying out activities authorized under section 1524 of the Education Amendments of 1978, $2,700,000.

For carrying out activities authorized under section 1525 of the Education Amendments of 1978, $2,000,000.

For carrying out activities authorized under Public Law 92-506, as amended, $1,500,000: Provided, That said sum shall become available on July 1, 1985, and shall remain available until September 30, 1986.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 116 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the second sum named in said amendment, insert: *$4,000,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 117 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum proposed in said amendment, insert: *$100,000,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 118 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum proposed in said amendment, insert: *$5,000,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 120 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the matter inserted by said amendment, insert:

SCHOOL ASSISTANCE IN FEDERALLY AFFECTED AREAS

For carrying out title I of the Act of September 30, 1950, as amended (20 U.S.C. ch. 13), $675,000,000 of which $22,000,000 shall be entitlements under section 2 of said Act, $10,000,000, which shall remain available until expended, shall be for payments under section 7 of said Act and $643,000,000 shall be for entitlements under section 3 of said Act of which $513,000,000 shall be for entitlements under section 3(a) of said Act: Provided, That payment with respect to entitlements under section 3(a) to any local educational agency described in section 3(d)(1)(A) of said Act shall be at 100 per centum of entitlement except that payment to such agency attributable to children who reside on property which is described in section 403(1)(C) of said Act shall be limited to 15 per centum of entitlement: Provided further, That payment with respect to entitlements under section 3(a) to any local educational agency not described in section 3(d)(1)(A) shall be ratably reduced from 100 per centum of entitlement except that payment to such agency attributable to children who reside on property which is described in section 403(1)(C) shall be ratably reduced from 15 per centum of entitlement: Provided further, That payment with respect to entitlements under section 3(b) of said Act to any local educational agency in which 20 per centum or more of the total average daily attendance is made up of children determined eligible under section 3(b) shall be at 60 per centum of entitlement and payment with respect to entitlements under section (b) of said Act to any local educational agency in which less than 20 per centum of the total average daily attendance is made up of children determined eligible under section 3(b) shall be ratably reduced from 100 per centum of entitlement: Provided further, That the provisions of section 5(c) of said Act shall not apply to funds provided herein: Provided further, That section 305(b)(2) of the Education Amendments of 1974 shall not apply to funds provided herein: Provided further, That no payments shall be made under section 7 of said Act to any local educational agency whose need for assistance under that section fails to exceed the lesser of $10,000 or 5 per centum of the district's current operating expenditures during the fiscal year preceding the one in which the disaster occurred: Provided further, That in determining entitlements under section 3 of the Act of September 30, 1950 (Public Law 874, Eighty-first Congress), the local contribution rate for each local educational agency shall not be less than the local contribution rate for that agency for fiscal year 1984 increased by the percentage increase (if any) in the national average per pupil expenditure for fiscal year 1984 from fiscal year 1983: Provided further, That section 3(d)(2)(B) of the Act of September 30, 1950 (Public Law 874, Eighty-first Congress), is amended by inserting at the end thereof the following new sentence: "In carrying out the provisions of this subparagraph, the Secre-

tary shall not prorate the amounts computed under this subparagraph attributable to the number of children determined under subsection (a) or (b), or both.". Provided further, That the second sentence of section 3(d)(2)(B) of the act of September 30, 1950 (Public Law 874, Eighty-first Congress), is amended by striking out "The" and inserting in lieu thereof "Subject to the provisions of subsection (h) of this section, the", and section 3 of such Act is amended by adding at the end thereof the following new subsection:

"SPECIAL PROVISIONS

"(h) Any local educational agency for which the boundaries of the school district of such agency are coterminous with the boundaries of a military installation and which is not eligible to receive payments under subsection (d)(2)(B) shall receive 100 percent of the amounts to which such agency is entitled under subsection (a) of this section.".

For carrying out the Act of September 23, 1950, as amended (20 U.S.C. ch. 19), $20,000,000 which shall remain available until expended, shall be for providing school facilities as authorized by said Act, of which $8,500,000 shall be for awards under section 10 of said Act, $8,500,000 shall be for awards under sections 14(a) and 14(b) of said Act, and $3,000,000 shall be for awards under sections 5 and 14(c) of said Act.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 121 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum proposed in said amendment, insert: *$1,321,270,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 135 to the aforesaid bill, and concur therein with an amendment as follows:

Strike out the matter stricken by said amendment, and insert: *subparts 1, 2, and 3 of part A, and parts C and E of title IV of the Higher Education Act, $4,871,000,000 which shall remain available until September 30, 1986, of which $412,500,000 shall be available for carrying out subpart 2 of part A of title IV of the Higher Education Act, and $250,000,000 shall be available to pay deficiencies resulting from the payment schedules for Pell Grants published by the Secretary of Education for academic year 1983–84 and academic year 1984–85*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 138 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the matter inserted by said amendment, insert: *: Provided further, That the cost of attendance criteria used for calculating eligibility for and the amount of the Pell Grants for academic year 1985–1986 shall be the same as the cost of attendance criteria used for academic year 1984–1985: Provided further, That notwithstanding section 413D(a), and subsections (a), (b), (c), and (e) of section 442 of the Higher Education Act, the Secretary shall apportion funds among the States so that each State's apportionment under the Supplemental Educational Opportunity Grant Program and Work-Study Program bears the same ratio to the total amount appropriated under each program as that State's apportionment in fiscal year 1981 for each program bears to the total amount appropriated for fiscal year 1981 for each program: Provided further, That notwithstanding section 413D(b)(1)(B)(ii) and section 446(a) of the Higher Education Act, from each jurisdiction's allotment of funds under each program, the Secretary shall allocate sums to institutions in that jurisdiction that did not receive an allocation in fiscal year 1979 (award year 1979–1980) under each program in a manner that will most effectively carry out the purposes of the Supplemental Educational Opportunity Grant Program and the Work-Study Program: Provided further, That notwithstanding section 413D(b)(1)(B)(ii)(II) of the Higher Education Act, the provisions of clause (I) of section 413D(b)(1)(B)(ii) of such Act shall apply to the amount made available for Supplemental Educational Opportunity Grants under this heading*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 140 to the aforesaid bill, and concur therein with an amendment as follows:

Strike out the matter stricken by said amendment, and insert:

For carrying out title III of the Higher Education Act of 1965, as amended, $141,208,000

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 141 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the matter inserted by said amendment, insert:

For carrying out subpart 4 of part A of title IV; titles VI, VII, VIII, and X, parts B, C, D, and E of title IX; and sections 420, 734, and 1204(c) of the Higher Education Act of 1965 as amended; section 506 of the Education Amendments of 1972, as further amended by title XIII, part G, section 1361(a) of the Education Amendments of 1980; title XIII, part H, subpart 1 of the Education Amendments of 1980; section 102(b)(6) of the Mutual Educational and Cultural Exchange Act of 1961; and the Minority Institutions Science Improvement Program under section 528(3) of the Omnibus Budget Reconciliation Act of 1981 as extended by section 414 of the General Education Provisions Act, $315,875,000: Provided, That $18,775,000 made available for interest subsidy grants under section 734 of the Higher Education Act and $28,000,000 made available for undergraduate and graduate facilities grants under part B of title VII of said Act shall remain available until expended: Provided further, That section 922(b)(2) and 922(e)(2) and the funding limitations set forth in section 922(e) of the Higher Education Act shall not apply to funds in this Act.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 142 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the matter inserted by said amendment insert:

For carrying out title III, sections 301, 302, 303, and 304 of H.R. 2878, "The Library Services and Construction Act Amendments of 1984", as contained in conference report No. 98–1075, $22,000,000.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 154 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$125,000,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 155 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum named in said amendment, insert: *$25,000,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 173 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the matter proposed by said amendment, insert:

SEC. 308. Section 402(c) of the Housing Act of 1950 is amended by striking out in clause (9) "October 1, 1984" and inserting in its place "October 1, 1985".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 178 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the matter proposed by said amendment, insert: *: Provided, That none of the funds appropriated under this heading may be used to close State or regional field offices*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 179 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the sum named in said amendment, insert: *$200,000,000*

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 197 to the aforesaid bill, and concur therein with an amendment as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 513. Notwithstanding any other provision of this Act, no funds appropriated by this Act may be used to execute or carry out any contract with a non-governmental entity to administer or manage, a Civilian Conservation center of the Job Corps which was not under such a contract as of September 1, 1984.

Resolved, That the House insist on its disagreement to the amendment of the Senate numbered 101, 170, and 171 to the aforesaid bill.

Mr. WEICKER. I ask unanimous consent that the amendments of the House to the amendments of the Senate in disagreement be considered and agreed to en bloc.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WEICKER. I move to reconsider the vote by which the amendments in disagreement were agreed to.

Mr. PROXMIRE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. WEICKER. I ask unanimous consent that the remaining amendments in disagreement be considered en bloc.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WEICKER. I move that the Senate recede from its amendments numbered 101, 170, and 171.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WEICKER. I move to reconsider the vote by which the Senate receded from its amendments numbered 101, 170, and 171.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAKER. Mr. President, I congratulate the two managers of this measure. They have handled, once again, an extraordinarily sensitive and difficult conference report in a very skillful and responsible way. I offer them my congratulations.

ORDER OF PROCEDURE

Mr. BAKER. Mr. President, there is another matter the Senate ought to consider. However, I would like to make one other announcement.

Mr. President, I have consulted with the minority leader. I have talked on the telephone now with the Speaker, and I would like to report on the status of the continuing resolution and other matters.

It appears to us that the conference report on the continuing resolution will not be concluded until 8 o'clock or after. It also is the best estimate of staff that it will take upwards of 3 hours to prepare the papers for consideration by the House of Representatives, which means it will be at least 11 and maybe 12 o'clock before the House can act, if indeed the House does act tonight.

I have indicated to the Speaker that under those circumstances the Senate would not wish to start on such an important matter after midnight.

In addition to that, the debt limit must be dealt with as well. Therefore, I wish to announce that when we have completed our necessary business today, it will be the intention of the leadership to ask the Senate to go out until 9:30 in the morning and that I do not expect more rollcall votes today.

ORDER FOR RECESS UNTIL 9:30 A.M. TOMORROW

Mr. BAKER. Mr. President, I now ask unanimous consent that when the Senate completes its business today, it stand in recess until 9:30 a.m. tomorrow.

The PRESIDING OFFICER (Mr. HECHT). Without objection, it is so ordered.

Mr. BYRD. Mr. President, will the distinguished majority leader yield?

Mr. BAKER. Yes.

Mr. BYRD. I am making efforts through our Cloakroom and our staff to ascertain the possibility of reaching some kind of agreement on the debt limit that would limit the number of amendments and hopefully shorten the time which we would otherwise at another time probably use on that matter.

Mr. BAKER. Mr. President, I thank the minority leader.

The minority leader and I have discussed this matter more than once during the day today, and he knows that I am very anxious to deal with the debt limit as expeditiously as possible. Indeed, I have asked our calendar and Cloakroom staff to attempt to clear a unanimous-consent agreement on this side that no amendments would be in order beyond perhaps one other amendment to be offered by the Senator from Idaho. I have not yet been able to clear that, but may I also report to the minority leader that I have had an opportunity to consult with the chairman of the Finance Committee and the chairman of the Ways and Means Committee, Chairman ROSTENKOWSKI. I will continue to work through the evening to see if we cannot devise a way to deal with the essentials of the debt limit resolution without running the risk of turning it into an extensive debate or Christmas tree. I am hopeful we can do that. We have not yet done it. I appreciate the suggestion by the minority leader, and we will try very hard to accomplish that.

Mr. BYRD. Mr. President, if the distinguished majority leader will yield very briefly, we will continue our efforts into the evening and early morning, if necessary. I hope that we will be able to come up with a response which will be pleasing to all Senators. I thank the majority leader for what I think is a very appropriate recognition of the circumstances and the events that are occurring. I think he has made a wise decision by proposing to go out but continuing to work to see if we can work out an agreement on the debt limit issue.

Mr. BAKER. Mr. President, I am grateful to the minority leader. As always, he is most helpful and cooperative and, while he is a formidable adversary across the aisle, he still is more mindful of the responsibility of the leadership of the Senate than any other person in this room. I express my gratitude to him for his cooperation not only on this matter, that is to say, the proposed agreement on the debt limit, but untold hundreds, even thousands, of other times when I have asked for his assistance and cooperation. He has almost always done it, and it was consistent with his duties and responsibilities as the opposition leader.

For fear that I might not express that before we go out sine die, I reiterate these remarks that I made on previous occasions to him at this time.

Mr. BYRD. Mr. President, I am very grateful to the sentiments that have been expressed by the distinguished majority leader. I will have further words to say in response at a later hour in this session.

Mr. BAKER. I thank the Senator.

Mr. BYRD. And probably even the next session.

S. 1300

Mr. BAKER. Mr. President, may I say now that in a few moments it will be the intention of the leadership on this side to ask unanimous consent that the Senate turn to the consideration of the REA bill, which is S. 1300. Senators who have an interest in that measure should take notice that after a quorum call, which I will put in shortly, it will be the intention of the leadership on this side to ask unanimous consent to that effect.

ORDER OF PROCEDURE

Mr. BAKER. Mr. President, I indicated earlier that it was the intention of the leadership to ask the Senate to proceed to the consideration of S. 1300, but I know there are Senators who wish to be on the floor when that is done, so I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. BAKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

RURAL ELECTRIFICATION AND TELEPHONE REVOLVING FUND SELF-SUFFICIENCY ACT OF 1984

Mr. BAKER. Mr. President, there is no limitation of time, and the debt limited resolution is pending; but we are past the time for the Pastore rule, so I will speak on a nongermane matter.

Mr. President, I guess I have been as loyal and dedicated a supporter of REA or telephone-electric co-ops as anybody in the Senate, and even before I came to the Senate.

I often recall with great pride that I was instrumental in forming an REA co-op and telephone service in my home State which served my home community, as a matter of fact, and still does.

My father, before me, was responsible in large measure for the formation of an electric co-op which did the same thing in that mountainous region in east Tennessee. I believe I have as good a record as anybody else in the Senate on support for REA.

The bill I am about to ask the Senate to proceed to is a controversial measure, and I had hoped that before now we might work out an arrangement that would make it satisfactory to the point where we could bring it up, deal with it, and continue to express solid Senate support for the REA program. But there apparently are objections to this, and I can understand why. It is a matter of great importance to many Members. It is a matter that deserves careful consideration.

Mr. President, in order to continue my unbroken support for REA and its several functions, I should like to try to proceed to the consideration of this measure at this time.

So, Mr. President, I ask unanimous consent that the pending measure be temporarily laid aside and that the Senate proceed to the consideration of Calendar No. 1044, S. 1300.

The PRESIDING OFFICER. Is there objection?

Mr. METZENBAUM. Mr. President, reserving the right to object—and I will object, and I believe the Senator from Wyoming will object—I say that I also am a dedicated supporter of REA. I think Senator SIMPSON would probably put himself in the same position as the Senator from Ohio. But the fact is that the issue is not whether we support the REA. The question is whether you want to cancel $8 billion of obligations that are due from the rural electrification co-ops.

Frankly speaking, I very seldom find myself in the position of speaking for the Office of the President, but David Stockman wrote to the chairman of the Agriculture Committee as follows:

I am writing to clarify the administration's views on S. 1300. The administration is strongly opposed to S. 1300 because it provides a substantial increase in subsidies to the already heavily subsidized electric and telephone cooperatives. The Federal taxpayer dollars going to rural electric cooperatives over the last 10 years have resulted in estimated (on and off budget) spending of $31.8 billion. The economic value of the subsidies and benefits is estimated at over $38 billion.

Seldom do I have a chance to speak for the Secretary of the Treasury, but he wrote to Senator HELMS as follows:

The Department strongly opposes enactment of S. 1300.

It would add to the billions of Federal dollars already granted under existing subsidy programs to rural electric cooperatives. The further large increases proposed under S. 1300 are not justified.

Seldom do I have an opportunity to speak for the Secretary of Agriculture, but he wrote to the chairman of the Agriculture Committee as follows:

I want to take this opportunity to again state this Department's view on S. 1300. The Department is strongly opposed to S. 1300 because it provides a substantial increase in subsidies which are not warranted to the electric and telephone cooperatives.

Mr. President, I ask unanimous consent that those three letters be printed at this point in the RECORD.

There being no objection, the letters were ordered to be printed in the RECORD, as follows:

EXECUTIVE OFFICE OF THE PRESIDENT, OFFICE OF MANAGEMENT AND BUDGET,
Washington, DC, June 7, 1984.

Hon. JESSE HELMS,
Chairman, Committee on Agriculture, Nutrition, and Forestry, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: I am writing to clarify the administration's views on S. 1300. The administration is strongly opposed to S. 1300 because it provides a substantial increase in subsidies to the already heavily subsidized electric and telephone cooperatives. The Federal taxpayer dollars going to rural electric cooperatives over the last 10 years have resulted in estimated (on and off budget) spending of $31.8 billion. The economic value of the subsidies and benefits is estimated at over $38 billion.

Two independent studies, by the Congressional Research Service and by National Economic Research Associates, Inc., support the conclusion that total Federal subsidies to REA borrowers are greater than any Federal subsidies provided to private utilities on a per customer basis. The 1982 NERA study conservatively estimates that for a new utility investment made in 1981, taking into account tax changes under ERTA and TEFRA, the annual subsidy per customer is more than three times greater for co-ops than for private utilities.

In addition to the above benefits, REA administrative costs to assist these borrowers totaled about $200 million over the last decade; nearly all cooperatives' revenues were exempt from Federal income taxes; and cooperatives had preferential access over private utilities to low-cost Federal power.

Not surprisingly, electric rates charged by REA borrowers on average are lower than the rates charged by other electric utilities.

Nationwide, REA borrower electric rates are about 12 percent lower than rates charged by other utilities.

Even on an individual neighbor-to-neighbor comparison, rates charged by REA electric borrowers to residential customers are significantly lower than rates charged by neighboring non-REA utilities in 80 percent of the State and REA assistance.

In an independent report to Congress, the U.S. Comptroller General (GAO) concluded that residential customers served by REA borrowers pay less for the same amount of electricity used by residential customers of private utilities. The 8.5 million residential customers served by cooperatives receive lower cost power on average than the 63.8 million residential customers served by investor-owned utilities.

The original purpose of the agency and 1936 act was to bring electric and telephone service to farms and rural areas. About 99 percent of farms and rural areas are electrified and about 95 percent have telephone service.

Furthermore, telephone program borrowers have already received substantial tax benefits under the reforms enacted in 1981 (ERTA) and 1982 (TEFRA), and the existing REA subsidy programs, including 5% direct REA loans, subsidized RTB loans, and the FFB direct loans (REA loan guarantees). Many of the telephone companies either have the capability or already borrow in private credit markets. In view of the preceding, increases in Federal subsidies as contained in the bill are not justified and would only increase reliance on Treasury lending.

S. 1300 would increase the Federal deficit by at least $19 billion over the next several years by:

Forgiveness of $7.9 billion in loan principal due Treasury beginning in 1993.

Refinancing of CBO's (borrowings from the Treasury) to lower interest rates when old CBO rates are at least 1 percent above current rates.

Refinancing of loan guarantees every 7 years when the Treasury lending interest rate exceeds the current Treasury rate by at least 1 percent and when the borrower requests it.

Requiring third party debt guarantees by the REA administrator. This could insure that all cooperative borrowing is federally subsidized.

Requiring subordination of government first lien status—risking billions in Government assets.

Including broader criteria for the special (2 percent) interest rate on insured loans.

Instead of accepting S. 1300, I propose that the President's 1985 budget proposal be adopted to reduce Federal risk and encourage more private sector involvement by:

Reducing existing government loan levels over time and requiring co-ops to increase private borrowing;

Reducing the Federal share in rural electric and telephone funding (a Lehman Brothers' report concludes that the co-ops can significantly increase private sector borrowings to meet financial needs); and

Encouraging, through these actions, major improvements in REA borrower balance sheets so that they could at least operate in a more business like environment with less, not more, Government dependence.

As Secretary Block has previously discussed with you, the administration believes that a strong, healthy rural electrification program remains important to insuring the economic health and quality of life of rural areas. But S. 1300 represents a grossly inequitable effort to use taxpayer dollars to provide special benefits to private business interests that have organized a massive pressure campaign. Were it to pass in its current form, I would not hesitate to recommend that the President withhold his approval of the bill.

The administration looks forward to working with the Congress to deal effectively with the revolving fund problem over the next few years.

Sincerely,

DAVID A. STOCKMAN,
Director.

THE SECRETARY OF THE TREASURY,
Washington, DC, June 6, 1984.

Hon. JESSE HELMS,
Chairman, Committee on Agriculture, Nutrition, and Forestry, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: I am writing to clarify the Department's views on S. 1300, the "Rural Electrification and Telephone Revolving Fund Self-Sufficiency Act of 1983," which is scheduled for action by your committee on June 7.

The Department strongly opposes enactment of S. 1300.

It would add to the billions of Federal dollars already granted under existing subsidy programs to rural electric cooperatives. The further large increases proposed under S. 1300 are not justified.

The rural electric cooperatives have benefited historically from a wide range of subsidies, including subsidized direct loans and 100 percent loan guarantees, retention of essentially tax-exempt status while taking advantage of tax incentives (e.g., safe harbor

leasing) available to fully taxable entities, tax-exempt municipal bonds for pollution control equipment, and preferential access to low-cost Federal power. No justification for the large increases in subsidies and in U.S. Government risk proposed by the bill has, however, been provided. Thus no further subsidies are warranted. We, therefore, strongly urge the committee to reject this legislation.

Were the proposed legislation to pass the Congress in essentially its current form, I will not hesitate to recommend that the President withhold his approval of such a bill.

The Office of Management and Budget has advised that there is no objection to the submission of this report to your committee and that enactment of S. 1300 in its present form would not be in accord with the President's program.

Sincerely,

R.T. MCNAMARA,
Acting Secretary.

DEPARTMENT OF AGRICULTURE,
OFFICE OF THE SECRETARY,
Washington, DC, June 6, 1984.

Hon. JESSE HELMS,
Chairman, Committee on Agriculture, Nutrition, and Forestry, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: I want to take this opportunity to again state this Department's view on S. 1300. The Department is strongly opposed to S. 1300 because it provides a substantial increase in subsidies which are not warranted to the electric and telephone cooperatives.

The rural electric cooperatives have benefited from a wide range of subsidies, including the subsidized direct loans and 100 percent loan guarantees currently provided by the Rural Electrification Administration, and Agency of the Department of Agriculture. However, it is my view that no appropriate justification has been provided for the substantial increase in subsidies and U.S. Government risks which are incorporated in this bill. It is my view that no further subsidies are warranted as represented by the proposals incorporated in S. 1300. I, therefore, strongly urge the committee to reject this legislative proposal.

Should S. 1300 and its companion legislation, H.R. 3050 pass in essentially its current form, I would be left with no choice but to strongly recommend to the President that he withhold his approval of such a bill. As we have previously discussed, it is the administration's belief that a strong, healthy Rural Electric Program remains important to insuring the economic health and quality of life of rural areas.

The Department looks forward to working with the Congress to find appropriate means of effectively dealing with the revolving fund problem related to the Rural Electrification Administration over the next few years.

Sincerely,

RICHARD E. LYNG,
Acting Secretary.

Mr. METZENBAUM. Mr. President, it is ironic that the sponsors of this bill named it the "Rural Electrification and Telephone Revolving Fund Self-Sufficiency Act of 1984." This is self-sufficiency? Since when is forgiving a debt of $7.9 billion owed to the Treasury considered "self-sufficiency?" Since when is it "self-sufficient" to continue to roll over other outstanding debts, rather than establish a system of regular payments so the notes are paid on time?

According to CBO, this bill will cost at least $11 billion. I have discussed this bill with the cooperative members of my own State. And I told them that I do not believe most of their own cooperative members would agree with the giveaway provisions of this bill. I believe most farm families believe in paying their debts. They don't want Government handouts. And they know that this program is spending more than it is taking in, which can only lead to trouble down the road.

There are many objectionable provisions in this legislation. Certainly the worst provision is the section that simply eliminates the requirement that the REA revolving fund repay $7.9 billion to the Treasury starting in 1993.

That revolving fund was established in 1973 to operate on a self-sustaining basis. Congress set up the fund by transferring the outstanding indebtedness owed by previous REA borrowers on loans from 1953 through 1973 as seed capital. That amounted to a $7.9 billion loan given interest-free to the fund for 20 years. The fund was supposed to be adequate to meet its obligations and to provide loans to electric and telephone borrowers.

But even with that tremendous advantage, the revolving fund is now faced with a dwindling cash flow. By 1989, it is estimated that the fund will be running in the red.

How did this happen? How did the fund get into such trouble? The simple answer is that the fund just kept spending much more than it was taking in. Unfortunately, this so-called self-sufficiency legislation does nothing to address this underlying problem.

When it was first set up, Congress mandated that the fund loan money to co-ops at a fixed rate of 5 percent and a hardship rate of 2 percent. At that time, the rate of Government money was 5.009. Obviously, the rate of money issued to co-ops was supposed to be comparable to the rate of money borrowed by Treasury. Inflation soon caused Treasury rates to rise higher and higher, but the revolving fund still loaned 5-percent money. It still is loaning money at 5 percent and 2 percent, even though Treasury notes are now about 11 percent.

Even this discrepancy would probably allow the fund to remain self-sufficient if the fund had borrowed a moderate volume of money. Instead, Congress actually mandated that the fund issue $1.1 billion of loans each year—$1.1 billion was to be issued regardless of the true level of demand by co-ops for new construction, regardless of the merit of those projects, regardless of the financial capabilities of the co-ops to borrow private funds.

Faced with the mandate to loan out $1.1 billion at 5-percent interest, the revolving fund has been forced since 1976 to borrow against its assets to develop additional capital. In other words, to continue a program of $1.1 billion, the fund is borrowing money in today's market at 11 percent, and loaning that money out at 5 percent. So far, the fund has borrowed $3.5 billion in certificates of beneficial ownership at an average rate of about 10 percent. The interest payments alone on those notes is now costing the fund about $300,000 each year. S. 1300 also fails to amortize those notes, which will come due as balloon payments after 2006. Instead, it simply rolls over those notes when they come due, rather than paying them off.

Is it any wonder why this revolving fund is going broke?

The obvious response should be to lower the level of program loans, so that it is not necessary for the fund to go deeper and deeper into debt. It also makes sense to increase the interest rate of any new loans—up to an estimated level of about 9 percent—so that all the obligations can be paid on schedule.

That is right. According to CBO, it is possible to attain the goal of true self-sufficiency by raising interest rates to about 9 percent—still far below market rates and below the Treasury rate as well. And it would cost electric consumers less than a penny a day to do so.

But does S. 1300 try this approach? It does not.

Unfortunately, Mr. President, this attempt to run away from the debt owed to Treasury is just the tip of the iceberg with the REA loan program. The more one investigates, the more one is shocked to learn how much money is going to cooperatives who have little need for such a generous Federal handout.

The fact is that the mission of the Rural Electrification Administration has changed over the past 50 years. Back in 1935 when it was first established, only 12 percent of the farms in the country had electricity. But today, virtually all parts of the country are electrified. Despite this reality, Congress has mandated that we continue to provide $1.1 billion of new loans each year at 5 percent, even though the cooperatives do not really need that much money.

How can we know that? First, we know there is less demand for that money because REA is having difficulty fulfilling its mandated loan level this year. There simply are not enough applications for loans coming into REA, even for that 5-percent money.

Second, there is an estimated $2.2 billion of loans that have been approved by REA, but which have not

been drawn down. That $2.2 billion—in 5 percent and 2 percent loans—represents 2 full years worth of program which has not been utilized. And some of those loans have been approved but not drawn down for several years.

Yet, Congress insists on mandating a high loan program—and refuses to take the action to winnow down the program so this kind of outrageous bailout legislation would not be necessary.

In addition, the GAO has pointed out that many of the loans are going to cooperatives who are in excellent fianncial shape—much better than nieghboring utilities. In a survey conducted in 1978, GAO reviewed 922 electric cooperatives. Forty-two percent of the total—386—were judged to be financially sound enough to obtain credit from the private market at reasonable rates. Still, they were obtaining 5 percent loans from the revolving fund.

S. 1300 fails to address this inequity by requiring a means test. And it even goes further by actually requiring that any loan issued by the fund to a cooperative provide 70 percent of the funds, with only 30 percent coming from private funds. How can this arbitrary 70-30 ratio be good policy? Why isn't there an effort to target the money to those projects that truly need the assistance?

Personally, Mr. President, I do not believe we should be providing 5-percent money for this program. Even the higher interest rate included in this bill, S. 1300, would be only 6.5 percent which just covers the interest cost of CBO borrowing. That interest rate would not cover the principal on the CBO's, nor does it pay off that $7.9 billion loan to Treasury. However, as I stated earlier, a 9-percent loan rate for all new loans would cover all those expenses. And if an effort was made to reduce the program level, and especially to target those funds, it would be possible to make the fund solvent without a great amount of CBO borrowing in the future.

We need to instill some discipline into this program. I have always been a strong supporter of the REA program. No one I know is against a strong rural electricification and telephone cooperative effort. But this program cannot continue to spend beyond its means. I believe S. 1300 sends the wrong message to the REA cooperatives. It is time to help improve this program. It is time to provide subsidized loans only to co-ops that really need that Federal assistance. Instead, S. 1300 continues the old ways that have overspent the program funds already. For all these reasons, I must oppose S. 1300 as it was reported by the Agriculture Committee.

Mr. President, I ask unanimous consent to have printed in the RECORD an article on this subject which was published in the Reader's Digest of September 1984.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Reader's Digest, September 1984]

POWER PLAY ON THE POTOMAC

(By Eugene H. Methvin)

Last March 1, the U.S. House of Representatives met briefly for a grand old election-year pastime: showering billions of federal dollars upon a favored—and politically potent—special-interest group. The vote was 283 to 111 to approve an estimated $10 billion to $21 billion in subsidies so "needy" Americans who live on Rural Electrification Administration (REA) electric co-op lines can enjoy cheaper electricity. If approved by the Senate, the Rural Electrification Self-Sufficiency Act of 1984 would convert a once-proud self-help program into a perpetual gravy train on which some 26 million favored Americans ride, while the other 210 million push. Indeed, many of the beneficiaries would instantly repudiate the subsidies if they understood what is being done in their name. Look who gets the goodies:

In Georgia, 80 percent of the customers of five REA co-ops live within the Atlanta metropolitan area. In affluent Cobb County (where the median family income is $23,853 a year) and other suburbs, 56,699 families hook into the Cobb Electric Membership Corporation (EMC). So do 1,633 small and 730 large commercial and industrial customers—hardly anyone's notion of needy rural America. Yet last year Cobb EMC benefited from a nearly $2-million subsidy on $29 million it borrowed at five-percent interest from Washington between 1979 and 1982.

In Alaska, 99.5 percent of the Chugach co-op's 49,876 customers live in Anchorage, where the annual median family income is $10,800 above the national norm. Other heavily subsidized co-ops serve thriving suburbs outside New York, Denver, Indianapolis, Tampa-St. Petersburg, Minneapolis-St. Paul and other major cities. They supply power for factories, airports, shopping malls, yacht marinas, country clubs, resort hotels and even, in Nevada, an infamous house of ill repute.

The nearly 1,000 REA co-ops scattered across 46 states constitute the fastest-growing sector of the utility industry. A large majority of their new customers are suburban or small-town residents—not the people in rural areas that the program was set up to help. Fewer than half the nation's 2.4 million farms hook onto REA lines.

Ironically, the REA is one of the greatest success stories launched by any government. In 1935, when the agency was created, only 12 percent of U.S. farms had electricity. The REA helped rural people form cooperative, nonprofit corporations, giving them engineering assistance and start-up loans. By 1952, more than 88 percent of American farms were electrified. The co-ops received no financial subsidies, and virtually all repaid their loans on or ahead of schedule at rates often higher than the Treasury paid to borrow money.

Meanwhile, in 1943, a former Arkansas Congressman joined with some co-ops to create their own Washington lobby, the National Rural Electric Cooperative Association (NRECA). These professional pleaders convinced Congress in 1944 that it should extend the REA loan program's ten-year life and set interest rates at two percent, then above the taxpayers' cost of Treasury borrowings.

By 1973 booming suburban and resort development meant that many co-ops needed vast amounts of expansion capital. Moreover, the two-percent subsidized interest rate had already become politically indefensible because the Treasury had to pay almost triple that rate to finance REA co-op borrowings of about $350 million a year. As part of a program to wean the co-ops away from federal subsidies, Congress created an REA "revolving fund," financed by an interest-free Treasury loan of the $7.9 billion [1] being repaid by the co-ops; repayments were to begin in 1993. Only financially struggling, remote or disaster-devastated co-ops were supposed to get two-percent money in the future. Healthy co-ops would pay five percent, then close to Treasury costs, for part of their needs, and be required to raise the rest from nongovernment lenders.

But the NRECA sabotaged even this generous weaning plan. In "technical" amendments that few on Capitol Hill understood, Congressional allies ordered the REA to lend about twice as much yearly as the interest-free fund received in co-op repayments, and required it to provide even the fattest co-ops at least 70 percent of their expansion capital. Today, the Treasury's borrowing cost is more than 13 percent, which it charges to the revolving fund, while the fund continues lending at five percent or less. Result: the REA interest-free fund will go broke unless Congress approves a bailout.

Now the NRECA has mounted an election-year campaign to bulldoze through Congress a new open-ended subsidy scheme. The NRECA's Self-Sufficiency Act would have taxpayers forgive the $7.9-billion revolving-fund loan and provide other interest-rate subsidies that may cost the Treasury an estimated $21 billion over the next 36 years.

With their complex, abstruse bill, the lobbyists are dealing in deliberate obfuscation. Declared NRECA chief economist Donald E. Smith, "There is not one penny of taxpayer cost in this bill"—a statement that the General Accounting Office, Office of Management and Budget, Library of Congress and Congressional Budget Office have all debunked. (Smith now waffles on it.)

The NRECA also argues that co-ops get far less help from REA than investor-owned utilities receive from accelerated depreciation and tax credits. But the GAO, OMB and Library of Congress all agree: more bunk. National Economic Research Associates senior vice president Joe D. Pace has calculated annual federal subsidies to private-utility customers and compared them with those to co-op customers. The co-op customers have a net yearly advantage of about $160 each. "There can be no excuse for underpricing electricity for a favored few without regard to need," says Pace. "This encourages them to use 20-percent more electricity than those customers not so subsidized.

But Congressmen understand NRECA's political power, which arises from two big weapons:

1. Money. Co-ops have contributed to a political-action fund that over the past five years has poured more than $500,000 into Congressional-campaign coffers, reports The Wall Street Journal. Of the 283 Representatives who voted for NRECA's bill, 226

[1] Including $1.9 billion owed by rural phone companies.

got $299,863, part of the $360,130 that the NRECA has funneled to 297 current House members since 1980. The biggest beneficiary has been Rep. Ed Jones (D., Tenn.), who heads the House subcommittee that oversees REA subsidies and who introduced the bill to increase them. The NRECA also gave $160,246 to 67 Senators.

2. Propaganda. Via electricity-bill inserts, the NRECA can deliver political messages every month into the homes of the 26 million who live on co-op lines. The NRECA also sends a weekly newsletter and monthly magazine to co-op officials and employees; state associations publish their own monthly magazines, with a circulation of several million. Any lawmaker who "votes wrong" is labeled an enemy of rural electrification.

"This lobby is designed to hit Congress at its weakest link," one Capitol Hill staffer told me. "They craft a bill almost no Congressman has the time to comprehend and pump out scare propaganda about 'turning off the lights in rural America' if there are no additional subsidies. Then they come at legislators with campaign cash and threats of voter reprisals."

Thus, in the last decade, taxpayers have shelled out $32 billion in REA subsidies through outlays and tax breaks, according to OMB estimates, to placate this political powerhouse on the Potomac. Assuming a 14-percent Treasury rate, each additional $1 million loaned will, over its 35-year term, cost taxpayers an estimated $3.7 million. Warns Sen. Alan K. Simpson (R. Wyo.): "This bill is a classic case of how special-interest groups—using a magnificent blend of emotion, hype, high drama, guilt, political retribution and distortion—attempt to unload today's problems on tomorrow's taxpayers."

A few co-ops have proved they can fulfill their original proud motto, "Owned by Those We Serve." The thriving Marshall-DeKalb co-op serves some 12,000 members in two northeast Alabama counties whose monthly bills run below those of neighboring co-ops. In 1964 they paid off their original $1,060,847 REA loan, and today finance healthy growth solely from earnings.

Although the Self-Sufficiency Act was passed overwhelmingly by the House, it faces rising Senate opposition, and the threat of a White House veto. Senator Simpson offers in its place a real reform package, first proposed by Rep. Ed Bethune (R., Ark.) in the House. The Simpson-Bethune substitute would require the REA to repay the $7.9 billion as scheduled, and raise the co-ops' interest rates to about the federal government's cost of borrowing. (Co-ops with severe problems would get a hardship rate.)

In this election year you can write a strong message to your Senators and Representatives: Stop yielding to special-interest groups and pass the Simpson-Bethune reform for true self-sufficiency. Tell the whole Congress, by sending a copy of your letter to Sen. Alan K. Simpson, Room 709, Hart Senate Office Building, Washington, D.C. 20510. Otherwise, the whole nation will pay the price of this free ride.

Mr. METZENBAUM. Mr. President, I ask unanimous consent that not I alone be given the privilege of objecting to proceeding. I ask unanimous consent that I be permitted to yield the floor to the distinguished Senator from Wyoming [Mr. SIMPSON].

The PRESIDING OFFICER. The majority leader has the floor.

Mr. SIMPSON. Mr. President, reserving the right to object, let me comment further.

I thank the Senator from Ohio. He expressed himself very nicely on the issue.

This is a rather hazardous position for me, being from the State of Wyoming, a State greatly dependent on REA facilities and activities. Very likely, I will be expressing an objection to the unanimous-consent request to proceed to the consideration of this bill, the Rural Electrification and Telephone Revolving Fund Self-Sufficiency Act of 1984. That is the nomenclature we have given this bill.

I think this is a rather untimely effort to bring the measure before the Senate, at a time when we are grappling with an attempt to finish our work on the continuing resolution and the debt extension, so that we might adjourn.

As my good friend, the Senator from Tennessee, so aptly stated, and as he is so fully and painfully aware, we already have missed our target adjournment date by some days, and we still have not finished the business we must complete. That remains to be done today and tomorrow.

Now we are being asked to move to a measure that poses a number of very complicated and complex policy questions—questions that I think are going to require extensive consideration by this body before we would be prepared to say that we would be in a position to complete action on this bill.

Finally, Mr. President, it is my understanding that there is absolutely nothing in this bill that must be acted upon this year. All the issues addressed in this bill can be, and in fact should be, addressed at the beginning of the next Congress, when Members have an opportunity to focus on those issues, rather than in a harried and hurried effort to bring this bill to the floor in the last day or two of this Congress.

Indeed, it was not until about 2 weeks ago that one of the principal proponents of the legislation, my good friend and colleague from Kentucky, Senator HUDDLESTON, circulated a narrative description of an alternative to the legislation reported; Senator CHILES has also been working diligently on a possible alternative.

I appreciate the efforts of the proponents of the legislation to address the serious deficiencies in the legislation reported to the Senate. I should say, however, that this effort to reach a consensus on the proposed alternative unfortunately falls very far short of the mark. Indeed, we have not even seen a copy of any actual legislative language that reflects any proposed alternative.

For these and other reasons, Mr. President, I feel constrained to object to the request to proceed to the consideration of the bill, and similarly will wish to discuss the numerous controversial issues involved in this legislation in some detail as the Senate debates the pending motion to proceed to the consideration of the measure.

I yield back to my colleague from Ohio at this time.

The PRESIDING OFFICER. The majority leader has the floor.

Is there objection to the request of the Senator from Tennessee?

Mr. HELMS. Mr. President, reserving the right to object.

Mr. METZENBAUM. Mr. President, I cannot hear the Senator from North Carolina.

The PRESIDING OFFICER. The Senator from North Carolina.

Mr. HELMS. Mr. President, reserving the right to object, and I will not object, I hope we can proceed to the consideration of this bill. Many of us have worked very hard to assure the solving of the REA revolving fund and if the Senate could resolve the questions which are at issue at this time it would mean a great deal to all of us. I might say, in that regard, that no Senator has been more diligent in our efforts to bring this bill before the Senate than the distinguished majority leader. I am grateful to him for his indulgence of my many requests to provide time for the bill. Also, I appreciate the substantial efforts of the assistant majority leader. The Senator from Alaska [Mr. STEVENS] has been of tremendous help and no one is more dedicated to a sound and effective REA than he.

Mr. President, S. 1300 would change the manner in which the Rural Electrification Administration revolving fund operates. This fund was established in 1973 as a mechanism from which all electric and telephone direct loans would be made. Events have occurred since that time which place the future solvency of this fund in jeopardy. The financial stability of the fund is crucial to ensuring that the programs which help our rural residents maintain a basic level of electric and telephone service is continued.

The REA has had an unsurpassed record of service to America. During its 53-year history, the programs administered by this agency have brought electricity and telephones to virtually all of the homes in the rural America. These programs have provided the assistance to countless citizens who have organized local cooperative efforts to bring these essential services to our rural residents.

We are all aware that no legislation is perfect. It is certainly evident S. 1300 had encountered a significant amount of controversy. However, I emphasize that the disagreements with provisions in this bill have been raised in a highly constructive manner. I know of no one in this Chamber who

favors the elimination of the programs of REA. The discussions surroundings this bill have centered on how to provide for a fiscally responsible program which will resolve the problems confronting the revolving fund on a permanent basis. There is no question that there are different ways to accomplish this necessary goal.

I have been disappointed to note some of the tactics being used on this issue by some paid lobbyists for the National Rural Electric Cooperative Association. There are those who obviously desire that the issue of a strong and viable REA become a partisan political football. Let me say that such a strategy is inappropriate and harmful. The millions of rural families who depend upon the REA are not well served by those who insist on misrepresenting those conscientious Senators and others who have different ideas on this legislation as enemies of rural people. It is simply not so. Some of the lobbyists have been deliberately adversarial to the President in a way that purposely misrepresents the administration's position. Such tactics have frustrated our efforts to have this legislation considered in a timely way. Had there been a willingness on the part of the NRECA lobbyists to work out, a compromise, this legislation would have passed the Senate long ago.

S. 1300 makes extensive amendments to the Rural Electrification Act of 1936. Chief among these amendments are those that:

Convert long term notes—that were issued to the U.S. Treasury to obtain funds to loan to electric and telephone cooperatives—to equity capital of the REA revolving fund, rather than leaving these notes in their current status as obligations to be repaid to the U.S. Treasury;

Provide for two separate accounts within the REA revolving fund, one for the electric loan program and one for the telephone loan program, with the assets in each account to be used only in connection with the operation of that account's program;

Eliminate the current statutory 5-percent standard rate of interest charged in the electric and telephone loan programs and require that the Administrator establish a standard rate of interest, not less than 5 percent, for each account that will produce anticipated interest income, including any funds appropriated to the account, that is equal to the total anticipated interest expense on all the outstanding obligations of that account;

Expand the eligibility for REA insured special rate loans to enable more electric and telephone cooperative borrowers to obtain such loans and require that the Administrator make loans to all borrowers that satisfy the statutory criteria for such loans. The amendments give the REA Administrator discretion to set the special interest rate, but the Administrator may set the rate no lower than 2 percent nor higher than one-half of the standard rate.

Require that the Administrator establish a reserve in both electrification and telephone accounts to cover the cost of loans made at the special rate of interest and place annually in each reserve an amount equal to 1 percent of the preceding fiscal year's principal and interest payments made to the account. If the Administrator determines, as of the end of the fiscal year, that either reserve is inadequate to cover the projected 5-year costs of the special rate loans, he must so notify the Secretary of Agriculture, who must then seek an appropriation to cover the deficiency. The amendments also require that each loan made at the special rate of interest be reviewed by the Administrator every 5 years and that the rate of interest be adjusted to the then current standard rate if the borrower no longer qualifies for the special rate;

Provide that the loan criteria and ratios applicable to supplemental financing for insured electrification loans that were in effect on July 15, 1982, be maintained during any fiscal year in which the minimum electrification loan level is established by law at less than $1 billion;

Require that the Administrator, for the purpose of assisting borrowers in improving their financial condition, guarantee loans made by any lender approved by him—in addition to any legally organized leading agency—for any purpose provided in the act and for refinancing assistance;

Authorize the Administrator of the Rural Electrification Administration, after obtaining the prior approval of the President of the Federal Financing Bank, to repurchase, without penalty, any outstanding certificate of beneficial ownership having a remaining term of 7 years or more, when the rate of interest on the certificate of benefical ownership exceeds the current rate of interest on new certificates by at least 1 percentage point;

Authorize the lender of a loan guaranteed by REA, at the request of the borrower, to adjust without penalty the rate of interest on any advance having a remaining term of 7 or more years if the rate of interest exceeds the current rate of interest on new advances by at least 1 percentage point. Any such adjustment may not be made more often than every 7 years;

Require that the Administrator accommodate or subordinate liens or mortgages at the request of the borrower for any purpose that would improve the efficiency, effectiveness, or financial stability of the borrower, upon a finding that the borrower has, or will have, the ability to repay its existing and proposed indebtedness

Revise the definition of the term "telephone service", first, to specifically include the transmission of data; and, second, to include transmissions by wire, fiber, radio, light, or other visual or electromagnetic means, in addition to electricity; and

Expand the definition of the term "rural area"—as that term is used for purposes of telephone cooperative financing—to include areas not within the boundaries of cities, villages, or boroughs with populations of more than 2,500 inhabitants, instead of the present limit of 1,500.

The bill also makes a number of technical changes to the portion of the Rural Eelctrification Act that establishes and governs the operations of the Rural Telephone Bank. These changes will improve the performance of the Rural Telephone Bank and will, as a general matter, make this portion of the act easier to administer.

Mr. President, as I said, this bill has attracted its share of controversy. Some of the most respected organizations in this country have expressed sincere concern about portions of this legislation. The Chamber of Commerce of the United States, the National Taxpayers Union, the U.S. Business and Industrial Council, the American Farm Bureau Federation, and others have all provided their ideas on alternatives to certain provisions in S. 1300 during the course of our deliberations on this issue. Some Senators have raised concerns about the precedent-setting nature of many of the provisions in the bill, as well as the bill's cost.

Mr. President, I will conclude by saying that I hope that whatever comes this evening of this effort to bring this legislation up for consideration in the Senate I hope that any differences that other Senators may have with the provisions in the bill can be worked out either this year or next year through amendment and through agreement and through honest involvement in the process of negotiation.

That has not happened thus far, and that is the reason that we are here tonight, in the closing hours of this Congress.

So I yield the floor.

Mr. GRASSLEY. Mr. President, I wish to add my support to the passage of the provisions of the Rural Electrification and Telephone Revolving Fund Self-Sufficiency Act of 1984 today. Without the passage of this bill rural electrification and telephone programs that have long aided rural Americans are threatened with insolvency. I hope this issue can be resolved in the 99th Congress, because the welfare of many is at stake.

The Rural Electrification Administration is in danger of insolvency because the funds borrowed from the Treasury at market interest rates greatly exceed the repayment rate paid by borrowers. With repayment rates at 5 percent, and interest rates for the REA at market, a drain of 5-6 percent is experienced with each loan. No business entity can survive such a continual cash drain.

The provisions of this amendment will provide many benefits to my home State of Iowa, as well as to all rural areas of the United States. Passage of this measure will ensure a dependable source of electricity at a reasonable cost for rural America, while providing continued financing to update facilities, replace obsolete equipment, extend service to new customers, and repair damaged equipment. The integrity of the REA revolving fund will be maintained.

Without the passage of the Rural Electrification and Telephone Revolving Fund Self-Sufficiency Act, our citizens living in rural areas may not have access to telephone and electric service as a price they can afford. It is for these reasons that I support the passage of this legislation today, and hope that my Senate colleagues will see fit to adequately consider its provisions in the next Congress.

Mr. CHAFEE. Mr. President, it is no secret that I am opposed to S. 1300, the Rural Electrification and Telephone Revolving Fund. It does not solve the problem of the Fund's impending insolvency.

Were the REA fund in immediate crisis, there might be some rational for this emergency legislation to be acted upon a day or two before adjournment. However, there is no such emergency. The REA was granted direct assistance to resolve its short-term cash flow problem in the last two agricultural appropriation bills. In the fiscal year 1984 bill, the REA was granted $198 million and for fiscal year 1985 REA was granted $215 million. these additional revenues push back the day of reckoning until the mid-1990's.

I further oppose S. 1300 because:

Cancellation of the $7.9 billion debt owed by the REA to the U.S. Treasury is not justified.

Cancellation of the $7.9 billion would be provided outside of the budget/appropriations process and would constitute backdoor financing.

The downward financing provision of S. 1300 could cause the refunding of the entire portfolio of approximately $3.5 billion of Certificates of Beneficial Ownership [CBO]. This provision provides substantial benefits to the Fund at the expense of the Federal Financing Bank [FFB] and the U.S. Treasury.

The U.S. Treasury does not have a refinancing option with its investors in Treasury debt and, therefore, could not transfer this additional cost on to others.

REA guaranteed borrowers can fund projects with rollovers of short-term 2-year debt during the up to 35-year period when an advance is outstanding. This action was confirmed in an agreement between FFB and the REA on November 7, 1983. Therefore, the language proposed in S. 1300 is not as flexible as the language now in use in the guarantee program.

Experience with Federal credit programs demonstrates that fixed interest rates produce perverse and unintended variations in interest rate subsidies as market rates of interest vary. This results in inequities among borrowers using the program at different times.

At the current cost of long-term Treasury borrowing of about 12½ percent, the cost of making a typical 35-year loan at 5 percent for $3 million is the same as the cost of providing an outright grant of $1.6 million with the remaining $1.4 million being paid at the 12½ percent rate.

The Treasury has long maintained that the benchmark interest rate for Federal lending programs should be the current cost of Treasury borrowing for a period comparable to the maturity of the loan. This is the best measure of the cost of the loan.

S. 1300 requires the guarantee and subordination of REA direct loans at the request of the borrower which substantially increases the Government's risk.

Eligible borrowers include States and municipalities. The guarantee and/or subordination of these loans would result in the Federal guarantee of tax-exempt obligations. Since 1970, Congress has enacted at least 24 statutes which preclude Federal guarantees of tax-exempt groups.

Placing the credit of the United States behind a tax-exempt obligation creates a security that is superior to direct obligations issued by the Treasury and is contrary to the spirit of the Public Debt Act of 1941 which prohibits direct issuance by Federal agencies of obligations which have interest which is exempt from Federal income taxation.

Federal guarantees of tax-exempts have adverse effects on the municipal market because they create securities which are superior to all other securities issued by State and local entities. Consequently, such guarantees add to the pressures on the municipal bond market, crowd out other, less creditworthy municipal borrowers, and increase the borrowing costs of all municipal borrowers.

The cops have benefited from a wide range of subsidies including subsidized direct loans, 100 percent loan guarantees, and retention of essentially tax-exempt status. They have also benefited from taking advantage of tax incentives available to fully taxable entities such as safe harbor leasing. Additional subsidies include tax-exempt municipal bonds for pollution control equipment and preferential access to low cost Federal power.

The fund was created in 1973 when Congress loaned it as temporary assets $7.9 billion. The revolving fund was also granted all of the interest that would be paid to the Government on these Treasury loans, as well as all the principal and interest that would be paid into the fund for loans it would make in the future. And now (even with these generous provisions) only 11 years after the fund's creation, it is on its way toward insolvency.

S. 1300 calls for the cancellation of repayment of the $7.9 billion debt owed by the Rural Electrification Administration to the U.S. Treasury. This provision is unjustified. REA Administrator Harold Hunter, states that forgiving the repayment of the $7.9 billion will not bring the fund solvency. Furthermore, cancellation of the $7.9 billion debt would be provided outside the budget and appropriations process and would constitute backdoor financing.

This policy of forgiveness would create a very dangerous precedent for other off-budget credit programs to defer, reduce, or cancel their debts to the Treasury. The permanent forgiveness of $7.9 billion is questionable particularly considering that the revolving fund is capable of repaying its obligation. Currently, the $7.9 billion is required to be repaid to the Treasury over a 25 year period beginning in 1993. It is a little premature to think of forgiving a debt that is not due to begin to be paid for another 9 years!

Approximately $1.1 billion in REA loans are made each year at a 5 percent interest rate, while the funds are borrowed at an 11.4 percent interest rate. This is one major cause of the revolving fund's problems. The fund does not generate enough earnings to repay its loans. Although S. 1300 would raise interest rates as a means to assure the self-sufficiency of the fund—rates would still remain *well* below projected borrowing costs. According to the Congressional Budget Office (CBO), the Fund's receipts would increase, but interest expenses would overtake the Fund's income before the year 2010. At that time, Congress would again be asked to come to the rescue of the Revolving Fund.

Instead of passing S. 1300 Congress should re-examine the role of the REA. Remember that the original purpose of the 1936 Act was to distribute electricity and telephone service to farmers and rural areas. Today 99 percent of rural America is electrified and 95 percent receives telephone service. Obviously, the goals of the original

Act have been met, and the co-ops no longer need interest subsidies.

Much also has changed since the 1930's. Much of rural America is suburban or urban. Often, co-ops provide much of the taxpayer subsidized power to suburban, commercial, and industrial users—not to small farms and rural households that the REA was created to serve.

In a 1979 study conducted by the Environmental Policy Institute, "Lines Across the Land," it was found that some co-ops sold huge blocks of power to large industrial and commercial users. The study found that while co-op electric sales to large industrial and commercial users nationwide average about 22 percent, in 11 States—9 of which are in the West—industrial and commercial users consume between 25 percent and 67 percent of rural electric sales. Some of the co-op's electric power is going to some of the Nation's largest companies at bargain basement rates! This is an outrage! For example, the Environmental Policy Institute found in Alabama, co-ops selling power to service pumping needs in the oil and gas fields; in Arizona, to Phelps Dodge and Anamax Mining for mining and milling; in Colorado, to Shell and Chevron for pipeline pumping, to Union Carbide for uranium milling and to others for coal mining. Throughout North Dakota, Montana and Wyoming, coops serve strip mines, oil and gas operations and some uranium mines. In Texas, co-ops provide power to El Paso Natural Gas.

The correct solution, that of bringing REA loan rates closer to the actual cost of borrowing money from the Treasury, would have a small and in many cases, negligible effect on the cost of electricity to the average REA consumer. Interest rates are but a small part of the costs of generating and distributing electricity. Estimates by the Congressional Research Service suggest that nearly 84 percent of the cooperatives would charge their average ratepayers less than $1 a month above their current bills, if the fund's interest rate were to rise 4 percentage points from 5 to 9 percent. For more than 7 percent of the cooperatives, there would be virtually no effect on ratepayer's bills given the 4 percentage point increase in the revolving fund's interest rate.

There are, of course, regions of the country that would feel a greater impact. However, the REA Administrator already has the necessary authority to grant special relief in these cases.

S. 1300 is a classic case of special interest legislation. Rural electric co-ops operate in 46 states and have an obvious impact on the legislation before us today. S. 1300 is the National Rural Electric Cooperative Association's wish list. It does everything except address the problem of insolvency. Unfortunately, it will become a nightmare. In summary, I oppose the bill because;

The bill will not solve the Fund's financial problems.

It only delays the day of reckoning at the expense of the taxpayer. The administration estimates that if all sections of the bill are implemented it could cost the Treasury as much as $20 billion.

The budget implications are serious. The bill would increase the borrowing and taxing requirements of the Treasury and raise interest rates for all Americans;

The bill will create an extremely damaging precedent for the many other off-budget loan programs that will also expect to request forgiveness;

The bill will continue a major non-means tested subsidy to some special interests.

Any legislation passed this Congress ought to address the Fund's pending insolvency by:

Placing REA activities on budget; raising the REA lending rates equal to the Treasury's cost of money, and requiring all borrowers to pay user fees to cover the administrative costs of the loan.

Mr. STEVENS. Mr. President, I want to thank the distinguished majority leader and the distinguished chairman of the Agriculture Committee for bringing to the Senate floor, for its consideration, S. 1300, the Rural Electrification and Telephone Revolving Fund Self-Sufficiency Act.

The REA system is particularly important to my State of Alaska. Out of a population of about 450,000, 70 percent are consumers of REA cooperative produced power. This is because, as my colleague know, doing anything in Alaska is expensive and if there was ever a rural State—Alaska is that State. Alaskan's electric bills are substantially higher than the national norm. Looking at the monthly cooperative electric bill based on 1982 statistics, the average Alaska co-op customer spend $83.20 a month versus $57.54 nationally. Without REA that Alaskan consumer would be paying much more—if he or she had electric power at all.

The cost of power on a per kilowatt hour basis is 8.9 cents in Alaska while the national cost is 4.2 cents. Alaskan co-ops must invest an average of $2,939 per customer when the national average per customer is $1,446. Without the REA system, much of rural Alaska would not be electrified.

The point is that electrical generation is an expensive proposition in the West. Existing systems—many dating back to the 1930's and 1940's need upgrading. More customers without electricity need to be hooked up. The marginal economics of providing electrical power to rural residents, which was the reason for the establishment of the REA system, still exists.

The REA system has brought many areas of the West into the 20th century. That work is not completed in my State of Alaska, nor is it completed in many parts of the West. We need a healthy REA system. It is unfortunate that a compromise on S. 1300 couldn't be worked out this year. I look forward to seeing us complete legislation next year.

Mr. MURKOWSKI. Mr. President, I rise in support of S. 1300, the Rural Electrification and Telephone Self-Sufficiency Act of 1984.

Alaska and other rural States depend upon rural electric cooperatives for much of their electrical power, and I have been supportive of Federal Rural Electric Administration funding in the past. I believe it is important to ensure that Congress take the necessary steps to ensure that the rural electric revolving fund, the source of REA loan money, will be healthy and self-sufficient. In this regard, S. 1300 represents an important step in the right direction.

The REA revolving fund will soon face severe economic difficulties because the demand for low-interest loans by qualified borrowers has exceeded the limits of the revolving fund and led REA to borrow at Treasury rates to satisfy the needs of rural America. So long as there is this need I believe we should maintain the program.

S. 1300 is one possible solution to the problem confronting REA. It is apparent from the statements I have heard on the floor of the Senate, and from conversation with my colleagues, that S. 1300 will require some additional work before we can reach an accord. The last days of the 98th Congress are upon us and it is obvious that we cannot resolve this issue now.

When we return next year it is my hope that we will once again address the problems confronting REA, but that we will do so with an enlightened view. Let us not forget what we have accomplished with S. 1300. For instance, we should once again provide co-ops with the ability to split their tier if they are both generation and transmission co-ops and distribution co-ops.

When we revisit this issue next year, I believe we should search for creative ways to restore the permanence of the revolving fund with the least burden to the taxpayer.

Thank you, Mr. President, I yield the floor.

Mr. PRYOR and Mr. ZORINSKY addressed the Chair.

The PRESIDING OFFICER. The Senator from Nebraska.

Mr. ZORINSKY. Mr. President, for almost 50 years, rural electric cooperatives—excuse me. Does the Senator from Arkansas seek recognition?

The PRESIDING OFFICER. There is a unanimous-consent request pending.

Does the Senator reserve the right to object?

Mr. ZORINSKY. Mr. President, reserving the right to object, I only wish to present a brief comment on the reason for my concern about my right to object.

Mr. President, I yield the floor prior to my comment to the Senator from Arkansas.

The PRESIDING OFFICER. The Senator from Arkansas.

Mr. PRYOR. Mr. President, I thank my distinguished friend from Nebraska for yielding.

I have heard statements in the last few moments, as I know my friend from Nebraska has, that have chilled me to some degree, implying that we have not attempted to work out a compromise on S. 1300.

Of course, any Senator under these circumstances certainly has the right to object. I hope that no Senator will object to S. 1300 coming before the Senate at this time, although I do know that there are disagreements about this legislation.

I do not think that I have ever seen a piece of legislation of this degree in intensity of controversy that has a greater bipartisan support than S. 1300 and in the many meetings that the distinguished chairman has chaired in the Agriculture Committee we have talked about this legislation, we have talked about the concerns of REA, and I think all of us are trying to find that answer and perhaps in the late moment, in the last hour of this session, it may be too late to find that right answer.

But I am sincerely hoping that there will not be an objection to bringing up S. 1300, and I wanted to make my position clear on this even though, of course, we understand that there may be an objection. I hope there will not be.

The very distinguished Senator from Nebraska has yielded to me, and I yield back to the Senator.

Mr. ZORINSKY. I thank the Senator.

Mr. President, reserving the right to object, and I shall not object, I wish to indicate that for almost 50 years, rural electric cooperatives, aided by Rural Electrification Administration programs, have provided power at reasonable prices to improve the quality of life in our rural areas, and to help make this country's agriculture the most productive in the world. The REA Program has also had a beneficial effect on our cities and towns, providing an important economic stimulus to merchants and manufacturers of farm and electrical equipment.

Despite its remarkable achievements, the goal of the REA Program has still not yet been reached. We in the Congress recognized this when we included financing assistance to the investor-owned segment of the utility industry in the form of tax concessions in the Economic Recovery Tax Act of 1981.

Mr. President, the need of Nebraska's rural electric systems for capital is as great now after almost 50 years of service as is the need of Consolidated Edison or any other power company. Capital is needed to replace an aging physical plant as it wears out, to heavy up or improve facilities to meet new and greater demands for power, and to provide service to new customers coming to rural America.

Low-cost capital is especially important to America's rural electric and telephone systems because they are expected—indeed, obligated—to serve the most remote parts of our Nation. In Nebraska, for example, the rural electric systems have about 2.1 meters per mile of line while the electric utilities which serve our cities may have 60 or more customers per mile of line.

Because more meters per mile of line generally means higher revenue and lower operating costs per meter, the fact that our rural electric co-ops provide service at comparable rates gives us reason to take special pride in these systems.

Because they serve sparsely populated areas as well as the more remote and rugged parts of our Nation, the rural electrics would find it difficult to compete in the open market for their capital needs.

I guess, Mr. President, it is just like saying let the Interstate Highway System be funded thoroughly and uniquely enough by each State that utilizes it within their geographical limits.

How would States like Nebraska having a population of 1½ million people, North Dakota with even a lesser population, Montana, South Dakota, and many other States in our country, be able to self-support? And this is what the opponents of S. 1300 are saying. It is that we have a unique system, an electrical system, and each should carry its own weight.

That works fine. But certainly the park system of America does not carry its own weight. The Interstate Highway System and its many bridges does not carry its own weight. And, of course, sparsely populated America cannot carry its own weight in the essence of a system that is part of a grid in distributing at an economical cost factor to its users the ability to sustain that service at the same rate as a densely populated area would be. And because of this I think it is very vital to this country that S. 1300 be heard on this floor and also passed.

Mr. President, this problem is compounded by the fact that the rural electrics—even the largest of the rural electric systems—are very small when compared to almost any of the Nation's investor-owned electric utilities. The rural electrics simply do not present an attractive investment opportunity for private investors.

The REA loan programs give some assurance to the Nation's rural electric systems that they will at least have access to capital which could otherwise be denied them.

In 1973 the rural electric cooperatives came to Congress with a plan to make themselves more self-sufficient, through the implementation of a revolving fund, a self-sustaining source of rural electric loan funds that is replenished through loan repayments.

Three years ago the rural electrics came to us with a plan that recognized the recent large increases in interest rates, and supported a change in the loan criteria that eliminated the special 2-percent interest rate except for the most extreme hardship cases.

That history of responsibility is being repeated with this latest proposal to amend the Rural Electrification Act of 1936. In a nutshell, rural electric systems are asking us in this bill to allow the interest rate on their revolving fund loans to be periodically adjusted in order to keep that fund a self-sustaining financing mechanism. In 1973 we could not foresee the high interest rates and inflation that have sharply increased the costs of utility financing and put a special strain on the revolving fund.

Not only will it help correct the growing imbalance of the revolving fund, but the legislation also will provide the Nation's rural electric distribution systems a permanent source of at least a portion of their continuing capital needs. Mr. President, I know that this legislation is the product of thorough study and lengthy consideration, and I am pleased that it was introduced in a timely fashion—before the problems it is designed to address reached crisis proportions.

Rural electric systems are critical to the well being of American rural life and American agriculture. Therefore, I urge my colleagues to join me in accepting the responsibility we have to address the needs of these Americans by supporting S. 1300.

Mr. BAKER. Mr. President, reserving the right to object, it is clear now, Mr. President, that there will be a number of objections to proceeding with this based on the reservations that have already been expressed.

Let me also say that while Members have been expressing their views on this subject on reservation, I have made enough inquiries to find out what the status of a motion would be in the event an objection is made and I found out that it would be futile to try to go forward; that indeed there is enough debate, and I see enough Senators around here with enough books to

extend the debate beyond that which the remaining hours of this session will accommodate.

So, Mr. President, if there is an objection I wish to state that I will regret it because I have been a consistent supporter of REA, as most other Members have been, but I acknowledge it. It would not be my intention then to move to consider this bill given the circumstances as I have found them.

ORDER FOR ROUTINE MORNING BUSINESS

Mr. BAKER. Mr. President, other Senators are on the floor and may have statements they wish to make, so let me do this. I ask unanimous consent that, after the disposition of the pending request, the Senate then have a period for the transaction of routine morning business not past the hour of 8 p.m., under the same terms and conditions as previously ordered.

The PRESIDING OFFICER. Without objection, it is so ordered.

Is there objection to the request to proceed to S. 1300?

Mr. BAKER. I understand now the request has been granted for morning business, is that correct?

The PRESIDING OFFICER. The Senator is correct.

Mr. BAKER. Now the Chair is putting the question as to whether there is an objection to my unanimous-consent request that we proceed to the consideration of S. 1300, is that correct?

The PRESIDING OFFICER. The Senator is correct.

Mr. ABDNOR. Mr. President, reserving the right to object, and I will not object, but I have waited for quite some time in this 98th session of Congress for this bill to come before the body to give us a chance not only to discuss the bill but also to pass it.

Coming from a rural State as I do, where we really mean rural and having lived in that area all my life, I am certainly one of those who has always had a great appreciation for what rural electrification means to South Dakota and our way of living. I well remember what it was like before rural electrification arrived in my State and what it means to us all and to the future of my State.

Now that we are in this late hour, near the close of the session, we have an opportunity to discuss the bill and hopefully pass it, only to find that it looks like we cannot proceed.

I know that in South Dakota it is considered one of the major bills of the Congress, one that I probably had as much correspondence on and as much contact with the people as any piece of legislation. This particular fund we wish to replenish means much to the future and the growth of the REA. Many of our lines are growing old.

Of course, coming from the metropolitan areas of the country, I am sure that it is hard for many people to understand, that not many years ago, under the Rural Telephone Association, communication was almost nonexistent. People had two-way radios and that is the way they communicated. Now we have some rural telephone lines and companies, RTA's, in South Dakota and it has brought the people closer together in the State.

We have had enough trouble with the breakup of AT&T and the Bell System. The breakup means you will have a telephone hookup every 10 miles. That is a very expensive thing. And I know it takes some subsidization to make it work.

But there are certain things in life that I think Government has a right to do and it should be assisting rural America. You just cannot write off our part of the country because we happen to live in rural areas. We think we are a great part of this country. We think we make a great contribution to the economy of this country. But because of the lack of population, because of the lack of capital, we are at a great disadvantage.

So I would just like to say to the Members of the Senate that this is important legislation. After all the time spent waiting for this bill to finally come up on the floor only to meet the problems we now have is indeed a great disappointment to me and I know a great disappointment to the people of South Dakota.

Mr. HELMS. Will the Senator yield?

Mr. ABDNOR. Yes, I yield.

Mr. HELMS. I thank the Senator. I agree with what the Senator says. I share his regret that we have not heretofore been able to get this bill before the Senate for consideration.

Let me say again that it has not been because those of us interested in the REA have not tried.

I simply must again pay my highest respect to the majority leader, because he has tried to work out something in the nature of a compromise to bring the two sides together. But, there was a complete unwillingness on the part of the lobbyists for the NRECA. They just would not budge.

Now, we worked with Bob Bergland, the new chief executive officer of NRECA, who is a great fellow, a former Secretary of Agriculture. I am inclined to believe if he had not had the constraints placed on him by others who were trying to play politics with this bill, we long ago would have had this bill up in the Senate and would have worked out a compromise satisfactory, or reasonably so, to everybody. But that did not happen. This is an election year, and some have been playing politics with this bill. Unfortunately, they have shot themselves in the foot in terms of this legislation.

It was apparent all along that the distinguished Senator from Wyoming [Mr. SIMPSON], was not going to permit this legislation to come up. The majority leader just did not have the time for a prolonged debate on this matter. I know that the distinguished Senator from Wyoming and the distinguished Senator from Ohio were perfectly capable of conducting an around-the-clock discussion of it. They felt that strongly about it.

But, I say again that it is not the fault of the majority leader. He met with me and a delegation of rural electric cooperative leaders from North Carolina several weeks ago. He pledged to bring this bill before the Senate. Tonight he has fulfilled that commitment.

I hope that the professional lobbyists, including some in my own State, have learned a lesson from this, and that henceforth they will stop playing politics with a very vital, very important, very significant program. But I say again to my fellow Senators that those who have done these things are the cause of this bill not being considered, not ALAN SIMPSON, because he and others were willing to sit down with the NRECA to work out a mutually agreeable compromise. They were unwilling to agree to any compromise. This attitude undercut the tireless efforts of many dedicated electric and telephone cooperative leaders in my State and around the Nation who have worked so conscientiously to secure the future solvency of the REA revolving fund.

Mr. ABDNOR. I thank the chairman of the Agriculture Committee. Let me say I certainly know this is through no fault of our majority leader. I have never run into a person more fair, even on legislation with which he may not agree. And I know he things very highly of this program.

He has said he has always been a strong supporter of rural electrification. But I know how these things happen. We go onto the end. And maybe if we had a few more days, we could get both sides together and try to come up with something. You are looking at a Member of the Senate who has spent 4 years trying to get a water bill passed. Despite the little things that would not give, I found myself going into the late night session at least trying. If I had another 3 days, I would be able to make headway. Sometimes that is unfortunate. We scrap among ourselves, and, after it is all said and done, all we do is really harm ourselves after we agree on the need for legislation.

I know there has been a great effort to bring this forth. I am sorry we cannot see fruition at this time.

Mr. HELMS. I thank the Senator.

If he will yield further, I will say we are fortunate in this regard: S. 1300 is not an emergency piece of legislation. As you know, approximately $200 mil-

lion was appropriated last year, and it is expected that another $200 million will be appropriated for this fiscal year, to support the revolving fund. The point being, Senator, you, I, and all the rest who are interested in REA can get back here in January and we can go to work on a bill that will accomplish the goal of assuring the solvency of the REA revolving fund. I think we can come up with something that will work.

But the intransigence of the lobbyists caused this bill to go down this year.

I think they must take full responsibility for that.

Mr. SIMPSON addressed the Chair.

The PRESIDING OFFICER. The Senator from Wyoming.

Mr. SIMPSON. Mr. President, I certainly concur with the remarks of the Senator from North Carolina and also with the Senator from South Dakota. I hear that so clearly. Let me briefly tell you that I met with Bob Bergland on this issue. I had a very candid, open, and thoughtful discussion where we laid it all out on the table, just the two of us, talked about this issue, and what we could do. He was very accommodating, and he went back to his board. They crunched him. I mean they really did a number on Bob Bergland in my estimation, because he was speaking with great clarity and great knowledge. He has a tremendous knowledge of this subject. So all I had been saying to him was something he had listened to attentively. It was very simply this: There were four points where I disagreed, and I would take 1 brief minute to relate them. First, I said you have to pay back your certificates of beneficial ownership. You do not write that off somewhere down the line. Second, you do not write off with equity financing and all sorts of off-budget, on-budget Federal finance whiz bangs—7.9 billion bucks. Third, I said get your interest rates closer to market, and I will listen. And fourth, I said quit building generating facilities with Treasury bills which they have done to the tune of many billions while we sat and failed to watch closely what they were doing. Then I said get out of the transmission and generation business, and get back to distribution systems.

Those were the things I expressed to them. Those were the things that were well heard by Mr. Bergland, thoughtfully considered, and he went back to his board. In a remarkable degree of arrogance, they said there it is, take it or leave it, we will role it. That is why your genial correspondent is speaking to you at this particular time.

And what would they leave us with?

This legislative proposal which purports to create a "self-sufficient" revolving fund for rural electric and telephone cooperative borrowers. The bill certainly fails to bring about self-sufficiency if you are to use the accepted definition: "being able to provide for oneself without the help of outsiders." Additionally, the Congressional Budget Office has estimated a cost of $9.3 billion through the year 2010, but costs to the Government will not stop in that year and, going beyond that year, the administration has placed a $20 billion cost estimate on this legislative proposal. Heavy bucks in a heavy deficit.

I am certain my colleagues will recall my opposition to this measure which I outlined in a letter to each of you dated May 3, 1984. Some time later I had various meetings with representatives of the trade association which authored the bill so that we might better understand each other's concerns. I was as straightforward in my approach as is possible—I have two major concerns: First, that the "revolving fund"—which does not revolve anymore—begin to make payments on its continuing borrowings from the Federal Treasury—to amortize present and future CBO [Certificate of Beneficial Ownership] debt, and second, that the borrowers from the fund pay a rate closer to the actual cost of money to the Government. Seemed sensible. Since the beginning of the Rural Electric Administration, in each instance where Congress has set an interest rate to borrowers, that rate has been made approximately equivalent to the then-prevailing cost of Government funds. But the proposal before us would set an initial interest rate of approximately 7 percent, while the long-term Federal funds rate is about 12.5 percent—that is quite a subsidy, especially in light of the fact that it seems the intent of previous Congresses was to assure availability of funds, to ensure subsidized funds.

My staff and I then proceeded to work with the trade associations in order to achieve a meaningful compromise. When that preliminary proposal was presented to the trade association, they thumbed their noses at any talk of a compromise and the executive vice president then delivered a statement saying that S. 1300 "is in itself, a compromise." We have a name for that in Wyoming too. For on the contrary I believe that any person after careful study of the issues involved would see that their legislative proposal is only a magnificent and ephemeral "wish list" just asking for compromise. This is but a clear-cut case of muscle flexing. The trade association is saying, "Let us get as much as we can, while we can—before Congress wakes up as to what is happening with the off-budget financing programs"

I trust my colleagues will understand that I do not stand here today as an opponent of the rural electric and telephone co-ops. I only am scrapping to oppose a piece of legislation wholly inappropriate to today's economic circumstances. The trade association which authored the legislation has a recognition of that fact as well and wrote the proposal with that in mind. Let me quote from the final report of the association's committee which crafted this proposal:

> The committee finds that preserving the revolving fund through reliance on congressional appropriations would entail annual appropriations at a continuing and increasing level, reaching several hundred million dollars annually, within 6 years. The committee notes also that congressional concern over mounting Federal deficits makes this a particularly inopportune time to request appropriations, and that the use of appropriations to balance the fund would be likely to change the perception of REA from a lending to a spending program, thus threatening the off-budget status of REA.

You ain't joshing.

With that recognition of potential problems with Congress—and the American people—the Trade Association Committee set about to write a piece of legislation which guarantees all rural electric and rural telephone cooperatives—regardless of financial condition—continued access to borrow funds at levels far below the cost of money to the Government. And, perhaps most important of all, continued access to the vast treasures of the Federal Financing Bank.

Senator PROXMIRE, a careful, prudent, and persistent observer of the Federal budget, warned us on Monday, September 17, 1984, that in only the 10 years since its inception the Federal Financing Bank "has become the largest bank in the United States" and that "in fiscal year 1982 alone, off-budget credit programs consumed more than 21 percent of all funds raised in the Nation's credit markets." Those fine gentlemen and gentlewomen who serve on the boards of their local electric and telephone co-ops, as well as all Americans, wonder just why interest rates are so high and what can be done about them. Perhaps part of the fault lies in Federal borrowing. If both the official Federal budget deficit and the off-budget deficit are combined, the Federal share of the Nation's credit markets is well over 50 percent. With the Federal Government consuming more than one-half of the available credit, the price rises on the much sought after, but limited, amount of credit money remaining.

As Annie Landers says, "Americans must wake up and smell the coffee" and realize that every single one of them—including me—are relying on something from the Federal Treasury—and that includes tax credits, tax exemptions, loan guarantees, Social Security, railroad retirement, Medicare, Medicaid, industrial revenue bonds, depreciation allowances, Payment in kind [PIK] Programs, agricultural subsidies, wastewater treatment plants, sewage grants, student loans,

historical preservation, revenue sharing—when there really is not any to share—community development block grants, fish and wildlife tax funds, solar energy bank loans, payment in lieu of taxes, wool payments, and on, and on, and on. You name it, every single one of us is in it—including AL SIMPSON, who borrowed on his GI life insurance policy at 5 percent interest. What am I doing in the system? The taxpayers pay me $72,200 a year and my wife, Ann, has an income from her real estate business just as she did when we lived in Cody, WY. When we see that situation multiplied by 230 million human beings in the United States, then we should at least begin to know how the deficit got there and what it is going to take to get rid of it. Give something up. I borrowed from Ann and paid off the GI life insurance loan.

I am advised that from 1976 to 1983 budget outlays rose 122 percent while net Federal loans, loan guarantees, and credit advances increased 387 percent. The Federal Financing Bank accounted for 96 percent of all off-budget outlays during the same perid, 1976-83, and rural electric borrowers comprise the largest recipient group of guaranteed loans issued by the FFB—41 percent. The Federal Financing Bank serves the electric cooperative borrower in two different ways. First, the FFB is the source of money for loans guaranteed by the Rural Electrification Administration. Rural electric cooperatives have become much more than just a "distribution system." It is the power supply cooperatives—the powerplant constructors and operators—who apply to and receive a "guarantee" from the REA—with the revolving fund as the "guarantor"—then go down the street to the FFB for their check. A dandy way to do business. The interest rate charged on these construction loans is the Treasury rate of interest plus one-eighth of 1 percent. In 1982, 98.9 percent of funds to power-supply borrowers came from the FFB in that manner. This back-door, off-budget, direct Federal financing of powerplant construction, both conventional and nuclear, should be carefully examined by the Congress. Another whoops in the making. Whoop it for whoops.

The second form of FFB assistance to electric cooperatives is through the revolving fund which is the source of 5-percent loans to distribution cooperatives. Because the "revolving fund" which no longer revolves has been disbursing more loan funds than it earns in receipts, the fund has to borrow the necessary funds from the FFB through the sale of certificates of beneficial ownership [CBO]. The fund pledges its outstanding loan assets as collateral in return for FFB loans at, again, the Treasury cost of borrowing plus one-eighth percent. The current CBO debt of the fund is approximately $3.5 billion—this is in addition to the much ballyhooed $7.9 billion debt the fund owes the Treasury as a result of the 1973 legislation which established the fund. The fund currently makes interest-only payments on its CBO debt with the first "balloon" payment of principal due in the year 2006.

Since establishment of the fund in 1973 loan disbursements have been approximately twice that of receipts. But because of rising interest rates to the Treasury, the fixed rates for REA loans—2 percent and 5 percent—the congressionally mandated minimum lending level—established in each year's appropriations bill—and the minimum participation ratio—the fund must provide at least 70 percent of the total loan request of the co-op, there is a continually growing gap between income and disbursements of the revolving fund. That gap has not been growing quite as rapidly in recent years because Congress has appropriated direct assistance to provide for the net realized losses of the revolving fund in the last two agricultural appropriations bills—$198 million in fiscal year 1984 and $215 million for fiscal year 1985. Fascinating way to do business, is it not? The envy of American enterprise. And then to see the green button on the lapel: "We pay our way"—I don't believe that one.

Mr. President, I should also like to take a few moments to share with my colleagues the results of the audit report of the U.S. Department of Agriculture inspector general, Midwest region. The report is entitled "Loan-Making Policies for Electric Distribution Cooperatives." I will summarize the background and the major conclusions.

The Rural Electrification Administration [REA] was established by Executive Order 7037 on May 11, 1935, as part of an unemployment relief program under authority of the Emergency Relief Appropriation Act of 1935. REA was made an independent agency in 1936 by the Rural Electrification Act (7 U.S.C. 901) and became a part of the U.S. Department of Agriculture [USDA] in 1939.

The Rural Electrification Act, as amended, authorizes the REA Administrator to make loans for rural electrification and for furnishing electric energy to persons in rural areas who are not receiving central station electric service—that is, electricity received from a central generating plant as opposed to an individually owned electric generator. As defined in the act, a rural area is any area not within the boundaries of a city, village, or borough having a population in excess of 1,500 inhabitants. Once a rural area qualifies for and receives financial assistance, it remains eligible for REA assistance even though its population goes above 1,500. This practice was affirmed by Senate Resolution 21 (86th Congress), which states, in part, that the act should continue to be interpreted to authorize loans to those already being served with the aid of REA funds.

Public Law 93-32, enacted on May 11, 1973, amended the 1936 act to establish the Rural Electrification and Telephone Revolving Fund; it authorized REA to make insured loans to electric and telephone borrowers at a standard interest rate of 5 percent per annum. In hardship cases, the Administrator was authorized to make loans at a lesser rate, but not at less than 2 percent per annum. The amendment also required that borrowers obtain a portion of their funding needs from supplemental sources outside of Government. The insured loans were to be made through the fund's receipts and through the sale of the fund's assets; borrower's loan notes, in the form of certificates of beneficial ownership [CBO] to the Federal Financing Bank, a wholly government-owned corporation. Public Law 93-32 required the transfer of the outstanding assets of the electric and telephone programs to the revolving fund. Also, all subsequent receipts of principal and interest were to go to the fund, and interest payments on outstanding Treasury borrowings used to finance the program were canceled. As of December 31, 1982, a total of $7,865 billion of unpaid, interest-free Treasury notes was outstanding in the fund. These notes will mature and become due between the years 1993 and 2017.

In 1976, REA began incurring interest expenses when its income was no longer sufficient to provide funds for new loans. To obtain additional funds, REA began borrowing from the Treasury and selling CBO's to the Federal Financing Bank. Currently, in March and September of each year, CBO's are sold to refinance the interim borrowings and on the balance of outstanding CBO's. REA projects that the fund's interest expense will exceed interest earnings by mid-1985 at which time it will become necessary for REA to request appropriations from Congress, or accelerate the sale of the fund's assets to make up the shortfall. REA projects that by the year 2004, all of the fund's assets will be sold, and first-year appropriations in excess of $1.6 billion will be necessary to continue to program.

REA has recognized the seriousness of the growing disparity in interest rates, and has acknowledged that changes are needed to improve the condition of the revolving fund. REA budget estimates for fiscal years 1983 and 1984 have called for reductions in the authorized funding levels of the program. In addition, REA has implemented or proposed methods for reducing the dependence of electric and

telephone borrowers on REA financing. These include changing the criteria and ratios for supplemental financing to require that electric distribution borrowers obtain a larger portion of their capital needs from sources other than the Federal Government and disallowing the use of REA loan funds for such purposes as the construction of headquarters facilities. However, Congress has mandated that REA funding levels, supplemental financing ratios, and loan criteria remain unchanged from previous years (Public Law 97-370, dated December 18, 1982).

The issues discussed in this report generally concern the insured loans and the operational activities of electric distribution borrowers. In fiscal year 1982 there were 931 such borrowers active in the program; they received loan advances totaling $851,770,000. During this period REA approved new electric distribution loans totaling $770,265,000.

It should be noted, Mr. President, that the portion of this report which addresses the condition of the revolving fund pertains to both electric and telephone borrowers. Loans from the fund are made under similar rates and terms for both programs.

The overall conclusions of this USDA audit report on loan-making policies for electric distribution cooperatives may be briefly summarized as follows, Mr. President.

The inspector general's analysis of the REA's operation of the revolving fund and loan-making policies and procedures, and the review of 32 electric distribution cooperatives, led him to conclude that significant problems within the Electric Loan Program had been disclosed. According to the audit report, the revolving fund is rapidly deteriorating and will eventually require congressional appropriations unless interest rates can be increased and loan criteria changed. The audit found that cooperatives receive REA assistance regardless of financial need or whether they still serve rural areas, and that operating procedures need to be strengthened to ensure that loan funds are disbursed and used only for purposes approved in the 2-year work plan.

The specific problems cited in this report may be further described as follows. First, because REA is required by law to limit interest rates to 5 percent on loans made from the revolving fund, and because the cost of Government borrowing over the past 10 years have significantly exceeded those rates, REA has begun selling the fund's assets to finance the program by 1985, REA's interest expense will exceed interest income. Unless interest rates charged to borrowers are increased to reflect the cost of Government borrowing, and/or loan criteria and ratios are changed, REA will have to seek congressional appropriations to subisize the fund. These moneys would be in addition to the $307 million a year in subsidies presently obtained through interest-free notes to the U.S. Treasury. The subsidies have totaled about $2.8 billion through September 30, 1982. The USDA audit and a previous GAO report have shown that many cooperatives could obtain outside financing at higher interest rates without a significant adverse effect on rural electric users.

Second, the REA and the Office of General Counsel have interpreted the Rural Electrification Act and congressional directives to allow loans to be made to cooperatives regardless of their financial strength or the urban/rural characteristics of their service areas. Consequently, REA continues to provide loans to borrowers whose service areas are no longer rural, as defined in the act, and to borrowers that are financially sound and could obtain credit from other sources. Many of these cooperatives' retail electric rates are lower than comparable investor-owned utilities. The audit selected 50 cooperatives which, according to TIER [times interest earned ratio] and equity ratios appeared to be financially sound in order to determine if their financial positions were similar to those of neighboring investor-owned or municipal systems. What the auditors found was that 44 of the cooperatives were in a stronger financial position than neighboring investor-owned or municipal utilities providing similar services.

Third, the study analyzed the effect higher interest rates would have on these cooperatives. For 37 of the 50 cooperatives which had received an REA loan in the previous 5 years, it was noted that increasing cost of interest—to reflect the cost of borrowing to the Government—did not alter the retail electric rates substantially. REA itself has determined that over 45 percent of REA cooperatives currently have retail electric rates lower than those of comparable investor-owned utilities. GAO reports have also shown that cooperatives could qualify for financing at commercial terms and still provide electric service with no significant increases in residential electric rates.

Fourth, the judgment sample use in this study, of 38 cooperatives located within 50 miles of a large urban center, disclosed 34 whose service areas were no longer entirely rural. A detailed review of 9 of the 34 revealed that they predominantly served the suburban residents of major metropolitan areas. For example, 76 percent of the 34,000 consumers of one cooperative lived in the suburban communities surrounding Washington, DC. The median household income of these consumers was over $25,000, or 25 percent higher than the national average. The 9 cooperatives received recent REA loans totaling over $147 million.

Fifth, although REA requires borrowers to submit a work plan that specifies the intended use of the loan funds, the audit noted that, in reviews of 32 cooperatives, that borrowers did not always limit the use of the loan funds to these authorized purposes. Twenty-six of the cooperatives used funds for purposes not included in the work plan, and 20 applied for new loan funds using portions of the previously approved and funded but unbuilt items in the work plans as the basis for the new loan requests. At least $61.9 million of the $421 million in REA and suplemental loans made to the 32 cooperatives were advanced on work orders which contained unapproved construction items and for work completed in prior work plans. At one cooperative, over $28 million was approved for three work plans. The audit found that the cooperative used $6.6 million for purposes not included in the plans and did so without REA approval. It was also noted that, shortly after obtaining the loan advances, the cooperative invested $4.2 million of the moneys at rates ranging from 13.25 to 16 percent.

Sixth and finally, Mr. President, REA attempts to control loan disbursements to cooperatives by requiring that their general fund levels fall below 8 percent of total utility plant before loan advances can be made. However, the inspector general's study found that cooperatives often circumvent this control. In one instance, REA officials provided information which assisted a cooperative in obtaining an unnecessary loan advance. These conditions allowed 22 of the 32 cooperatives reviewed to drawdown $44 million in loan funds prematurely or without immediate need for the funds. Of this amount, over $33 million, borrowed from REA at 2 or 5 percent, was invested in high-yield certificates for periods of 90 days or more and at terms up to 20.75 percent. One cooperative reduced its general fund level below 8 percent 18 times to obtain loan advances totaling $18 million. To accomplish this, the cooperative prepaid power costs, prepurchased supplemental financing certificates, prepaid long-term debt to REA and retired patronage capital. The cooperative invested $1.1 million of the loan draws in high-yield certificates for periods in excess of 90 days.

Finally, Mr. President, I should like to review just briefly the eight recommendations of the inspector general. Those recommendations are as follows; that the Administrator of the Rural Electrification Administration:

First, seek legislative authority to change loan-making criteria and ratios, in combination with an increase in the insured loan interest rates up to the Government cost of borrowing, to improve the financial condition of the

revolving fund. REA should reduce and subsequently eliminate Federal funding to cooperatives capable of otaining financing from non-Federal sources and assign interest rates based upon borrowers ability to pay.

Second, establish criteria to evaluate cooperative needs for REA financing based upon an individual cooperative's financial strength and retail electric rates. Require cooperatives to establish retail electric rates, whenever possible, which ultimately enable them to obtain total outside financing.

Third, request legislative authority to redefine eligible rural areas. This should take into account the significant changes in population patterns which have occurred since the inception of the Rural Electrification Act.

Fourth, identify those cooperatives which no longer serve an eligible area and/or are financially strong, and evaluate their need for continued REA assistance. For those cooperatives which are in an urban area, and which cannot secure outside financing, develop a system of diminishing assistance, with reasonable timeframes, according to the cooperatives' financial condition.

Fifth, require that borrowers use loan funds only for items contained in an approved construction work plan, and instruct borrowers to obtain REA approval of changes in work plans before loan funds are advanced for these purposes. Discontinue the practice of reimbursing cooperatives for work completed prior to the period of the work plan.

Sixth, use REA field personnel to conduct reviews to assure that funds are used only for loan purposes identified in the approved work plan and that cooperatives' requests for loan advances comply with applicable procedures. Review each cooperative's use of general funds to identify nonconstruction transactions having a material effect on the cooperative's general fund level at the time of the loan request.

Seventh, disburse loan funds to cooperatives according to their use of general funds for current approved construction expenditures, and according to their need for the funds at the time of the loan request. In determining need, establish policy regarding recent expenditures for nonconstruction purposes and their effect on the general fund level at the time of the loan request.

Eighth, establish policy to deobligate all unadvanced loan funds after the expiration of a reasonable timeframe. Take action to deobligate all outstanding advances that fall outside the established constraints and ensure timely monitoring of unliquidated obligations in the future.

Mr. President, I urge my colleagues to join me in taking a most careful and thorough look at all aspects of this program before we proceed to legislative action.

Mr. CHAFEE addressed the Chair.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. CHAFEE. Mr. President, I also do hope that we can revisit this next year. Obviously, there are several parts of this bill that are deeply troubling to many of us here this evening. It seems to me some of the problems are such as the difference in the interest rate that the Government borrows at and that the Government loans at through the REA. I hope these matters could be addressed, and the criticisms of the Congressional Budget Office, the administration, and some of the members of the Council of Economic Advisers. There is a whole series of people who have given this very thoughtful attention.

During the forthcoming year I hope these matters can be addressed. Those of us who are opposed to this particular bill are not opposed to REA. We recognize the tremendous contributions it has made to the Nation. We recognize the differences that come with trying to string a line out to farms that are 2, 3, and sometimes 8, 10 miles apart compared to the cost to string a line in a city where there are so many drops to houses close by.

But it seems to me approaching it this way is not the best approach. So therefore, Mr. Chairman, I commend those who have suggested we give it some careful consideration next year.

Mr. JEPSEN addressed the Chair.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. JEPSEN. Mr. President, the issue of a strong and stable rural electrification and telephone revolving fund is an important one to many of my rural citizens in Iowa and across the country. This legislation, S. 1300, addresses the problem which may threaten the financial integrity of the fund by the end of this decade. It is absolutely essential to resolve these problems to ensure that the assistance REA provides our rural electric and telephone cooperatives will continue for the future. It is especially true today, Mr. President, as we are experiencing in the agricultural community what some might call a time of financial crises. We have the very lifeblood of the rural communities in this country at stake, as one by one they are moving from what has been the roaring 1970's into the 1980's. This is a time which has proven to be financially very trying for many rural communities in this country.

If there ever was a time when assistance in providing basic services to rural communities needed shoring up and stability, for the present and for the future, it is now. It is my hope that the Senate will proceed with this legislation in an expeditious fashion. If amendments were offered, I expect we could discuss and finish them before we adjourn.

The distinguished Senator from Florida, Mrs. HAWKINS, in her capacity as chairman of the Subcommittee on Agriculture, Credit, and Rural Electrification held extensive hearings on this subject, and heard witnesses from all points of view. I commend her very diligent efforts in this regard. On June 7, 1984, a markup was held, at which time a number of amendments and alternative proposals were considered, and some were adopted.

Similarly, amendments were accepted on the House side during consideration of this legislation. There is no doubt that there is some controversy with the bill. I understand the concerns of Senators regarding various provisions of this legislation. But I hope that amendments to be offered to address these concerns will be expeditiously considered so that the Senate will be able to work its will and we might finish this bill before we adjourn this Congress. If not, Mr. President, and I realize the time is short to consider a matter of this importance, this must be a priority issue for the next Congress. It must be emphasized that these issues will have to be resolved at the earliest opportunity so that the programs administered by the REA can continue to assist millions of rural families who depend on them.

Thank you, Mr. President.

Mr. EXON addressed the Chair.

The PRESIDING OFFICER. The Senator from Nebraska.

Mr. EXON. Mr. President, the junior Senator from Nebraska has been listening with great interest to the debate on whether or not we are going to take up S. 1300. I start out by saying I do not blame the majority leader for this situation, because I have a great deal of confidence in the majority leader, as I said in paying a tribute to him on this floor a few days ago.

The fault for the failure to resolve the problems of the REA program in my opinion, does not lie with the majority leader. And, contrary to what the chairman of the Agriculture Committee says, the fault does not lie with the REA borrowers. I think we should lay it right out on the line. The fault for not passing this legislation lies directly with the administration.

I point out that here we are again in the last few hours before adjourning sine die taking up an important piece of legislation.

Mr. President, this indicates to me once again that I have a well founded concern about the breakdown of the process.

The administration's plan is delay, delay, delay. If you delay things long enough, eventually you are going to adjourn and thwart even the possibility of having a vote on a tremendously

important piece of legislation, such as S. 1300.

It has been said that we should revisit this issue next year. Mr. President, I can assure the Senate that indeed we will revisit this again next year. Unfortunately, we should be resolving the problem right now.

I would note that the bill was introduced in May 1983. It was placed on the calendar on June 29, 1984. Here we are considering it in October 1984 in the closing hours of a session where everyone knows that just one Senator can block consideration of this important piece of legislation.

Many of my colleagues have outlined how this legislation affects rural America and how further delay in considering this bill could adversely affect rural America.

I was quite surprised, and wish to correct the record, when the chairman of the Agriculture Commitee said that the full responsibility for not coming to some workable piece of legislation rests with the NRECA.

I am convinced that that is not factual. Indeed, Senator HUDDLESTON, the ranking member of the Agriculture Committee, worked long and hard—with the administration and other members of the Senate to try to come up with a workable compromise.

The fact of the matter is that, when compromise was discussed, the administration sent the message very loud and very clear that they did not want a compromise; they did not want a bill; they are unalterably opposed to this legislation.

Having said that, I wish to salute the efforts of my good friends and colleagues on this floor, including the Senator from Wyoming, who I think has a very real interest in the REA programs which are tremendously important to our part of the country. I do not believe he blames the NRECA for this failure to consider S. 1300.

As usual, when you cannot come to a compromise, there is plenty of blame to go around. But I am convinced from my knowledge of this affair that the main culprit is the administration. That is not unusual for this administration if you look at what has happened in toto to rural America in the last 3 years.

A campaign issue? No, I do not think it is a campaign issue because I think the administration has already chalked up most of the States of rural America. Maybe the people in rural America should send a signal at least by making the election close, send a signal to Washington, DC, that they are indeed tired of being taken for granted. I think the administration's opposition and delaying tactics practiced on this issue date back to the very beginning, even before this bill was introduced. The administration was adamantly opposed to it, and, as far as I know, gave no signals they were interested in a workable compromise.

I know the REA borrowers very well. Most of them remain as far removed from partisan politics as possible. Therefore, I think it is also untrue to blame the NRECA and their leadership for the failure to reach a compromise, as has been alleged on the floor of the Senate tonight.

One of my friends from an eastern State indicated he was very much concerned about the interest rate on REA loans. I think maybe we should also be concerned about the low interest rates that are subsidized by the taxpayers of this Nation to a whole group of foreign nations under our foreign aid programs. But we do not hear very much about that.

I know Bob Bergland very well. I know that if Bob Bergland went back to NRECA—an organization headed by rational, reasonable people, not a political organization—with something reasonable, they would have bought it.

Therefore, Mr. President, I simply say that the tragedy of all this is not only that we are not getting to S. 1300—it will be shelved by the actions that the majority leader outlined—but it is a breakdown of the process. I believe the people of rural America should have had an up-or-down vote on this legislation rather than simply saying we will revisit it again next year.

Mr. President, I assure the Senate that it will be revisited with vigor.

Mr. President, I yield the floor.

Mr. SIMPSON addressed the Chair.

The PRESIDING OFFICER. The Senator from Wyoming.

Mr. SIMPSON. Mr. President, I would say, in passing, that it is regrettable to see the assertion made that somehow the fault here lies with the administration. That is not so. If you want to assess the fault, you can put it on the scrawny shoulders of this Senator from Wyoming, and others of similar interests. Senator METZENBAUM has been most helpful and extraordinarily so; and many other Senators who are thoughtful people—Senator CHAFEE, Senator EVANS, and others who are interested in seeing that something appropriate is done on this matter. To inject a partisan issue into this matter is regrettable. The partisan twist is not appropriate. That is too bad.

I would not even introduce the administrator's bill when it came to the floor months ago. I have been doing this labor on my own, along with other interested people.

I think the record should relate that the administration is not involved in some sinister plot to do away with the REA.

With that, I would object to the unanimous-consent request of the majority leader.

The PRESIDING OFFICER. Objection is heard. Who yields time?

Mr. METZENBAUM addressed the Chair.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. METZENBAUM. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

FINANCE COMMITTEE "MUST" LEGISLATION

Mr. DOLE. Mr. President, before we adjourn, we have a number of must bills in the Finance Committee. None of them belong to the Senator from Kansas, but they are bills that I think should be acted on before we adjourn. They are in the process of being cleared as I understand it, we have just cleared the hospice service payments bill. We also have pending a bill guaranteeing the payment of Social Security COLA's. We want to try to pass that bill without amendment and we hope that we can get the distinguished Senator from Montana to let us take up that bill. We hear a lot about all the bad things that are going to happen to Social Security these days from Walter Mondale. Yes this is one positive thing we need to pass, and it is not being held up on this side of the aisle, I might point out to the Democratic candidate for President. So I hope we might be able to act on that before we adjourn tomorrow. It is an initiative of the President which indicates his concern for Social Security—the same concern he has demonstrated over the years. I hope we can take care of this small matter and not have it blocked beyond tomorrow.

We have H.R. 5832, providing for the Senate confirmation of an additional Assistant Secretary of the Treasury. There may be an objection by the distinguished Senator from Montana to that bill.

Then we have undated authorities for Secret Service. I think that is about to be cleared. I think there was a question there earlier, but that question has been resolved.

Then there is H.R. 6112, the Illinois unemployment-small business tax relief. It is a matter of great importance to both Senators from Illinois. Senator DIXON has asked me about 32 times, I think, at last count, and Senator PERCY at least that many and, counting staff inquiries, 60 times. The Governor of Illinois had also favored me with a phone call. He feels this is rather important legislation. So I hope we might clear that.

We also have H.R. 2568, education assistance.

Mr. MELCHER. Will the Senator yield?

Mr. DOLE. Yes. May I finish my little list before I give the Senator honorable mention?

Mr. MELCHER. Yes.

Mr. DOLE. Education assistance is another little matter about which many people are concerned. It is a fringe benefit on which we need to act. That is H.R. 2568.

Then H.R. 5361, prepaid legal services, is something else that expires this year and needs action. The American Bar Association and many other groups, including the AFL-CIO and others, are concerned about it.

The Boat Safety Act we need not necessarily pass, but we think it might be a good vehicle for amendments by Senators. I have a list of 28 amendments that a number of different Senators on both sides of the aisle think ought to be acted on this year. I may not be enthused about all of those amendments.

Then we have H.R. 6064, miscellaneous tariff bill. It is now in the committee. We could discharge the committee and use it as a vehicle for amendments. There are a whole pile of amendments, some from each side of the aisle, which I hope we might move on before we adjourn.

Mr. President, before I yield to my friend from Montana, the distinguished senior Senator, we are still trying to resolve the matter of imputed interest. I met with the chairman of the Ways of Means Committee again today. He has indicated some interest in a resolution of the problem but time is growing short. I hope that what we might do tomorrow is bring up another revenue vehicle, lift out the imputed interest compromise and attach it to that vehicle, send it to the House and hopefully go to conference on it and then, if we can find some agreement that is satisfactory to a majority of the Senate, strip the amendments from the debt ceiling and pass the debt ceiling. And then consider whatever the leader has in mind for the remainder of the day.

I am happy to yield to the Senator from Montana.

Mr. MELCHER. I thank the Senator, my friend from Kansas and the able Finance Committee chairman, for yielding. It is of no consequence to me on how we deal with imputed interest rates and to what vehicle imputed interest rate corrections are attached, whether it is the debt ceiling bill or another tax bill that is here from the House. Any of them are all right with me. It is what is done with imputed interest rates about which I am concerned.

And so I am happy to tell the distinguished chairman that whatever reservations I had about these other bills, they were removed once we were successful in bringing up the imputed interest rate issue. So I have no hold, no restraint at all on these bills. I do agree with the distinguished chairman that any vehicle we use, as long as it gets to the House and is dealt with by the House, for imputed interest rates is fine with me. I have no preference.

Mr. DOLE. I appreciate that. I think the quicker we can do it tomorrow, the better. I think we are about to recess tonight as soon as we stop. So anytime between now and tomorrow morning, we should figure out some way to do that. I think there is a very strong feeling on the part of the chairman of the Ways and Means Committee not to start accepting tax amendments on the debt ceiling. The Ways and Means Committee chairman does not consider the debt ceiling to be a revenue measure, and it seems to me that if we start down that path, we make it more and more difficult. The Senator from Montana served in the House, as did this Senator. He knows it is very difficult to pass the debt ceiling in the House with or without amendments. Chairman ROSTENKOWSKI figures this might complicate that matter. So maybe by morning we can have it worked out. I thank the Senator from Montana.

Mr. MELCHER. If the Senator will yield further, the consistency and the logic of the chairman of the House Ways and Means Committee is admirable and poses no problem at all for me.

EXTENSION OF ROUTINE MORNING BUSINESS

Mr. BAKER. Mr. President, I ask unanimous consent that the time for the transaction of routine morning business be extended until 8:45 under the same terms and conditions.

The PRESIDING OFFICER. Without objection, it is so ordered.

AUTHORIZATION FOR SECRETARY TO RECEIVE MESSAGE

Mr. BAKER. Mr. President, I have advised the minority leader of this request. He has indicated he has no objection. I ask unanimous consent that the Secretary of the Senate be authorized to receive a message from the House on House Joint Resolution 648 during the recess this evening of the Senate until tomorrow.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER FOR RECOGNITION OF SENATORS PROXMIRE AND BINGAMAN TOMORROW

Mr. BAKER. Mr. President, I ask unanimous consent that on tomorrow, after the recognition of the two leaders under the standing order, two Senators be recognized on special orders of not to exceed 15 minutes each as follows and in this order: Senators PROXMIRE and BINGAMAN.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER FOR PERIOD FOR TRANSACTION OF ROUTINE MORNING BUSINESS

Mr. BAKER. Mr. President, after the execution of the special orders tomorrow I ask unanimous consent that there be a time for the transaction of routine morning business until 10:30 a.m. in which Senators may speak for not more than 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT OF MOTOR VEHICLE INFORMATION AND COST SAVINGS ACT

Mr. BAKER. Mr. President, I say to the minority leader and to the distinguished Senator from Nebraska, who is on the floor, that after some little effort, I believe we are now cleared to proceed to a bill that Senator EXON has expressed an interest in from time to time, and that is Calendar No. 952, S. 1407.

Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 952.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (S. 1407) to protect purchasers of used automobiles from fraudulent practices associated with automobile odometer modifications, and for other purposes.

The PRESIDING OFFICER. Is there objection to the present consideration of the bill?

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on Commerce, Science, and Transportation with an amendment to strike all after the enacting clause and insert:

AMENDMENT OF MOTOR VEHICLE INFORMATION AND COST SAVINGS ACT

SECTION 1. (a) Section 408 of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 1988) is amended by adding at the end thereof the following new subsection:

"(d)(1) No motor vehicle the ownership of which is transferred by any person to another person in interstate commerce may be registered or licensed for use in any State, or used in interstate commerce, unless—

"(A) the application to the State by the new owner of such motor vehicle for a certificate of title is accompanied by—

"(i) the prior owner's most recent registration card for such motor vehicle; and

"(ii) the prior owner's title (containing the information required under paragraph (2), where applicable); and

"(B) the certificate of title (or other document indicating ownership) of such motor

vehicle which is issued by the State to the new Owner following such transfer—

"(i) is printed in bank note intaglio printing process;

"(ii) indicates on its face the mileage required to be disclosed by the transferor under subsection (a); and

"(iii) contains a space for the transferee to disclose (in the event of a future sale or other transfer of title by such transferee) the mileage at the time of such future transfer and to sign and date such disclosure.

"(2) In the case of an application for a new certificate of title for a motor vehicle, if the prior owner's certificate of title contains the space referred to in paragraph (1)(B)(iii), when such certificate of title is submitted to the State under paragraph (1)(A)(ii), it shall contain a statement, signed and dated by such prior owner, of the mileage required to be disclosed by such prior owner under subsection (a).

"(3) No registration card may be issued in any State for any motor vehicle used in interstate commerce unless—

"(A) the application for such registration card contains the information specified in paragraphs (1) and (2) of subsection (a), determined as of the date on which such application is submitted by the owner of the motor vehicle; and

"(B) such registration card contains such information, as provided on such application.".

(b) Section 408(d)(1) of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 1988), as added by subsection (a) of this section, shall apply with respect to motor vehicles (as defined in the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 1901 et seq.)) which are transferred after the date six months after the date of enactment of this Act.

(c) Section 408(d)(3) of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 1988(d)(3)), as added by subsection (a) of this section, shall apply with respect to motor vehicles (as defined in the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 1901 et seq.)) which are registered in any State after the date six months after the date of the enactment of this Act.

SEC. 2. (a) Not later than sixty days after the date of enactment of this Act, the Secretary shall reinstate Federal Motor Vehicle Safety Standard 127, which was revoked on February 18, 1982. Such reinstated standard shall be identical to the language of Standard 127, as of the day before the date of such revocation, and shall apply to all passenger motor vehicles beginning with the model year after the date on which the standard is reinstated.

(b) The reinstatement of such standard shall not delay or in any other manner impede the enforcement of the provisions of the first section of this Act.

Mr. EXON. Mr. President, I thank the majority leader, the minority leader, the staffs at the two tables in the well, and others who have cooperated in bringing up S. 1407.

As the majority leader has said, it has not been easy, but oftentimes things that are worth doing are not easy, and I appreciate their cooperation.

I thank not only the majority leader and the minority leader for scheduling action on S. 1407, the odometer fraud bill which I introduced in 1983, but all others who had a hand in this, including the Commerce Committee, on which I serve.

I also thank Senator DANFORTH for his cooperation in holding hearings on this measure and agreeing to bring this bill to the floor for final Senate action.

In April of this year, when the Surface Transportation Subcommittee held hearings on S. 1407, we received expert testimony as to the serious and costly problems resulting from odometer fraud.

Mr. President, S. 1407 is a consumer protection bill in every sense of that term. I am optimistic that the Members of the U.S. Senate will agree that this growing problem must be addressed in order to save the consuming public literally millions of dollars annually.

Officials in my State of Nebraska have told me that odometer fraud in Nebraska alone is costing some $5 to $10 million each year. They continue their work to establish a record from which the odometer tampering can be effectively traced and the violators prosecuted.

Some have said that this is an area that is best left to the control of the various States. Indeed, there are many areas where Federal Government should not be involved, but odometer fraud is clearly a problem of national scope, dealing with interstate commerce, which is without question a Federal responsibility.

Moreover, many State governments and associations have already been enacting legislation dealing with odometer fraud. I am very proud of the fact that my State of Nebraska is among the leaders in identifying the problems in this area and taking action to protect consumers. Last year, Nebraska hosted an eight-State Midwest regional odometer fraud conference. In addition, Nebraska's attorney general established an 11-member task force on odometer fraud with the Nebraska New Car Dealers Association.

Finally, Nebraska's Legislature has enacted legislation prohibiting title laundering and tampering, and has increased the cost of auto titles to provide the State justice department with funds to check and begin to eliminate odometer fraud.

Again, I wish to commend all who have cooperated in bringing this bill before the U.S. Senate for passage.

Mr. KASTEN. Mr. President, the Wisconsin Department of Transportation has raised a question about the intention of S. 1407, and I would like to enter into a colloquy with the distinguished Senator from Nebraska to make the congressional intent on this matter very clear.

The Wisconsin Department of Transportation has some very understandable concerns about the administrative implications of this legislation. Is it the Senator's understanding that this bill would not in any way require States to take odometer readings on a yearly basis to comply with the registration card requirements?

Mr. EXON. Yes; that is correct.

Mr. KASTEN. Is it the understanding of the Senator that these odometer readings and reports are required only at the time of ownership transfer and for the initial registration card after the purchase?

Mr. EXON. Yes; that is correct. Let me refer the Senator to the current Federal odometer requirements which state that mileage reports are required only "when the ownership of a motor vehicle is transferred." This requirement is continued in S. 1407. Year-to-year sticker or other registration changes would not be dependent upon providing mileage updates.

Mr. KASTEN. Does the Senator believe that this bill in any way implies that annual odometer readings would be required?

Mr. EXON. No; I do not.

Mr. KASTEN. I thank the distinguished Senator.

The PRESIDING OFFICER. The question is on agreeing to the committee substitute.

The committee substitute was agreed to.

The bill (S. 1407) was ordered to be engrossed for a third reading, was read the third time, and passed.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. EXON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

NUCLEAR REGULATORY COMMISSION AUTHORIZATION

Mr. BAKER. Mr. President, it appears from my file that Calendar No. 180 is cleared for action by unanimous consent, and I ask unanimous consent that the Senate proceed to the consideration of the bill if the minority leader has no objection.

Mr. BYRD. Mr. President, there is no objection.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (S. 1291) to authorize appropriations to the Nuclear Regulatory Commission in accordance with section 261 of the Atomic Energy Act of 1954, and section 305 of the Energy Reorganization Act of 1974.

The PRESIDING OFFICER. Is there objection to the present consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

Mr. SIMPSON. Mr. President, I am pleased to present for the consideration of the Senate S. 2846, a bill au-

thorizing funds for the Nuclear Regulatory Commission for fiscal years 1984 and 1985.

This bill, as reported from the Committee on Environment and Public Works on June 29, 1984, authorizes appropriations in the amount of $466.8 million for fiscal year 1984, and $460 million for fiscal year 1985. The committee's recommendation includes funding for the equivalent of 3,371 permanent staff positions for fiscal year 1984, and 3,325 permanent staff positions for fiscal year 1985. The authorized funding and staffing levels are identical to the levels requested by the Nuclear Regulatory Commission in its 2-year budget request, which was submitted in January of 1983—"budget estimates, fiscal years 1984–85," NUREG–0953.

As for the particulars of the bill: The committee has recommended an authorization of $466.8 million for fiscal year 1984. That amount is to be divided among the four major program offices within the agency in the following manner: $91,490,000 to nuclear reactor regulation, $70,910,000 to inspection and enforcement, $36,280,000 to nuclear material safety and safeguards, and $199,740,000 to Nuclear Regulatory Research, with the balance allocated for program technical support and program direction and administration.

For fiscal year 1985, the committee has recommended an authorization of $460 million. Similary, this amount is to be divided among the four major program offices in the following manner: $87,140,000 to Nuclear Reactor regulation, $74,770,000 to inspection and enforcement, $35,710,000 to Nuclear Material Safety and Safeguards, and $193,290,000 to Nuclear Regulatory Research, with the balance going to program technical support and program direction and administration.

I should like to point out, Mr. President, that there is considrable concern on the part of the committee over the proposed cuts in funding for NRCs Office of Research, as reflected in NUREG–1040, "budget estimates for fiscal year 1985." In addition, the increasingly frequent practice of turning to the research budget to fund other programs or to achieve reductions in the overall funding level for the agency is of concern to the committee because it not only threatens the solid nucleus of research talent now available to the NRC, it also makes it extremely difficult to plan for the long-term research needs of the agency.

Accordingly this committee, in accordance with its earlier report to the committee on the budget on the commission's fiscal year 1984–85 budget requests, has approved the funding levels requested for the Commission's Office of Research as set forth in "budget estimates, fiscal years 1984/85," NUREG–0953.

In addition to the general funding level set forth in this bill, the committee has further recommended that certain funds be earmarked for expenditure by the agency in one specific area: The bill earmarks a total of $7.2 million in fiscal years 1984–85 for the purpose of accelerating the agency's research activities in the area of high-temperature gas-cooled reactors. Based upon testimony presented to the committee, Mr. President, gas-cooled reactors may have significant advantages over the current generation of light-water reactors, including greater safety margins, and reduced siting risks.

Accordingly, the committee has recommended that $7.2 million be set aside for the purpose of enabling that agency's regulatory program in that area to keep pace with industry and Government programs for the development of a large-scale, high-temperature, gas-cooled reactor.

In addition to the specific line-item funding limits established in this bill, and the provision earmarking funds for the high-temperature, gas-cooled reactor, this bill includes five major provisions of a policy nature. The first of these provisions, section 106, authorizes the Commission to conduct a pilot program to assess the merits of relocating certain NRC personnel to NRC's regional offices. This provision prohibits the Commission from relocating any personnel or functions associated with commercial nuclear powerplant licensing until 60 days after the Commission submits a report to the Congress evaluating the effects of such relocation on nuclear reactor safety. Prior to the submission of this report, the Commission may conduct a pilot program to assess the merits of relocating those personnel responsible for the licensing of nuclear powerplants to NRC's regional offices. This provision will enable the Commission to explore the merits of regionalization while, at the same time, preserving a strong headquarters presence in this area.

The second major provision, section 107, authorizes the Commission to continue its efforts on the nuclear data link system, provided certain conditions are met. Under this provision, the Commission is authorized to proceed with a prototype nuclear data link program for the purpose of examining the advantages and disadvantages of various means of improving communications during an accident. In order to ensure that the Commission examines a broad range of various options, this section provides that, if the Commission proceeds with such a program, it must include as one of the alternatives considered a fully automated electronic nuclear data link.

The third major provision, section 108, confirms the authority of the NRC to issue an operating license for a nuclear powerplant if, in the absence of State or local emergency preparedness plan approved by the Federal Emergency Management Agency, the Commision determines that there exists a State, local, or utility emergency preparedness plan that provides reasonable assurance that public health and safety is not endangered by operation of the plant.

This provision is similar to a provision first adopted by the Congress in the NRC authorization act for fiscal year 1980 (Public Law 96–295, section 109) and is identical to a provision in the NRC authorization act for fiscal years 1982 and 1983 (Public Law 97–415, section 5), which confirm the Commission's authority to issue an operating license for a nuclear powerplant if, in the absence of a FEMA-approved State or local emergency preparedness plan, the NRC determines that there exists a State, local, or utility emergency preparedness plan which provides reasonable assurance that public health and safety will not be endangered by operation of the plant.

The committee believes that the emergency planning process has, by and large, functioned very effectively. State and local emergency preparedness plans have been developed and exercised at least twice for all operating plants. Of the 55 sites with operating nuclear powerplants, 24 have now received final Federal approval for their emergency preparedness plans. For the remaining sites, FEMA is working closely with State and local governments in an effort to complete the necessary steps for approval of such plans. In some instances, these plans will require additional work. In other instances, however, the committee has been advised that plans have been prepared, exercised, and submitted and are awaiting the formal FEMA evaluation.

In the course of the hearings before the Subcommittee on Nuclear Regulation, however, significant concerns were raised about the very real possibility that under the existing process, State or local governments, by acting or failing to act, could keep FEMA and the NRC from evaluating an emergency preparedness plan for a nuclear powerplant that was prepared or submitted, or both, by the applicant or licensee, and, as a result, prevent the NRC from issuing an operating license to such applicant or licensee if the NRC determines that the plan submitted by the applicant or licensee provides reasonable assurance that public health and safety is not endangered by operation of the plant.

The committee reiterates that the adoption of this provision is intended to reconfirm the authority of the NRC

and FEMA to evaluate an emergency preparedness plan submitted by an applicant or licensee pursuant to this section.

With the adoption of section 108, the committee has now made it clear in three successive NRC authorization bills that it is not our intention to allow a State or locality to prevent a completed facility from operating by refusing to prepare an emergency preparedness plan.

In 1980, the conference report on the fiscal year 1980 NRC Authorization Act (Public Law 96-295) stated that:

[T]he conferees sought to avoid penalizing an applicant for an operating license if a State or locality does not submit an emergency response plan to the NRC for review or if the submitted plan does not satisfy all the guidelines or rules, the compromise permits NRC to issue an operating license if it determines that a State, local, or utility plan, such as the emergency preparedness plan submitted by the applicant, provides reasonable assurance that the public health and safety is not endangered by operation of the facility. (H. Rpt. 96-1070, p. 27)

Under section 108 of this bill, the committee expects the NRC and FEMA to undertake a review of all emergency preparedness plans submitted for evaluation, regardless of whether the plans have been prepared or submitted, or both, by a governmental entity or by the applicant or licensee for such facility. If a State or locality does not submit an emergency response plan for review, or in the absence of a State or local emergency preparedness plan which has been approved by FEMA, this provision provides that the NRC still may issue an operating license if it determines that a plan prepared or submitted, or both, by an applicant or licensee provides reasonable assurance that public health or safety is not endangered by operation of the facility.

The fourth major provision, section 109, would authorize the Commission to transfer facility license No. R-81 for the Sterling Forest Research Reactor from Union Carbide, a U.S. corporation, to Cintichem, a U.S. subsidiary of Hoffmann-LaRoche, a foreign corporation.

On May 12, 1983, the NRC received a draft application for the retransfer of facility operating license No. R-81, for the Sterling Forest Research Reactor, submitted on behalf of Union Carbide Subsidiary "B", Inc. and Cintichem, Inc.

In a decision rendered in June 1983, the Commission concluded that, even though Cintichem is a U.S. corporation owned by another U.S. corporation, the ultimate owner of Cintichem, Hoffmann-LaRoche, is a foreign corporation, and that under existing law the NRC is precluded from transferring licenses to foreign corporations.

The Sterling Forest Nuclear Reactor is the only privately owned nuclear reactor in the world producing commercial quantities of radioisotopes for medical diagnosis and other research purposes. All other reactors producing isotopes in commercial quantities are owned and operated outside of the United States by foreign government agencies.

The Commission has indicated that it would not oppose additional statutory flexibility to address cases such as this one, so long as the Commission retains the authority to prevent the issuance of any license which, in the opinion of the Commission, would be inimical to the common defense and security or the health and safety of the public.

The committee concluded that it would not be in the best interest of the United States to interrupt the only major domestic source of the isotopes produced by this reactor. Furthermore, the committee examined this requested license transfer, and noted that the facility involved produces only miniscule amounts of weapons grade plutonium; that a reprocessing facility would be needed before that plutonium could be separated; and that Cintichem has proposed to the Commission various license conditions that could prevent any effective foreign domination or control of the special nuclear material at the facility.

Accordingly, the committee agreed to authorize the Commission to consider this proposed license transfer. This provision would authorize the Commission to approve this license transfer if it determines that: First, the transfer would not be inimical to the common defense and security or to the health and safety of the public; and second, such conditions as may be appropriate are included in the license to ensure that no foreign corporation can direct the actions of Cintichem in any way that would be inimical to the common defense and security or to the health and safety of the public.

And finally, Mr. President, section 201 of the bill provides that the provisions in sections 115, 116, 117, and 118 of the Nuclear Waste Policy Act of 1982 shall constitute the exclusive rights of participation by an affected State or Indian tribe for the specified facilities, with the exception that an affected State or Indian tribe may continue to exercise any recognized right under existing law; that is, any law in existence as of the date of passage of the Nuclear Waste Policy Act of 1982 regarding these facilities.

In reporting this bill, the committee is aware of the fact that the Commission's initial budget request for fiscal year 1985, submitted by the Commission in January 1983, has been modified in a number of significant respects in the more recent request, submitted in January 1984—budget estimates, fiscal year 1985, Nureg-1040. The committee is also aware of the significant additional responsibilities imposed on the Commission between January 1983 and January 1984, and is sympathetic to the need for flexibility on the part of the Commission to meet these new requirements. The Nuclear Waste Policy Act of 1982, for example, includes a number of new requirements, the budgetary impact of which, according to testimony before the committee, the Commission was simply unable to examine thoroughly prior to January 1983, when the Commission submitted its request for fiscal year 1985. Other programs, such as the Offices of Nuclear Regulatory Research and Inspection and Enforcement, reflect significantly altered funding levels from those requested in January 1983, responding, in part, to events that transpired since January 1983.

The overall funding level for fiscal year 1985 authorized in this bill, as well as the specific funding levels for the activities of each office, are based upon the Commission's initial request in January 1983. In those areas in which the Commission finds it necessary to transfer funds from one activity to another, in order to accommodate more recent developments, section 102(c) of this bill—the general reprogramming provision—enables the Commission to do so, in accordance with the procedures established in that subsection.

That, briefly, is a summary of the measure proposed to the Senate, Mr. President. At this moment, I do want to thank all of the members of the Committee on Environment and Public Works for their efforts to move this bill forward. I would like to pay a special note of thanks to our distinguished chairman, Senator BOB STAFFORD, our remarkable ranking minority member, JENNINGS RANDOLPH, and Senator GEORGE MITCHELL, who has worked so very long and hard as a member of the Subcommittee on Nuclear Regulation, in an effort to assist in forging this bill.

AMENDMENT NO. 7095

Mr. BAKER. Mr. President, on behalf of the chairman of the relevant subcommittee of the Environment and Public Works Committee, the Senator from Wyoming [Mr. SIMPSON], I send to the desk an amendment in the nature of a substitute and ask that it be stated.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Tennessee [Mr. BAKER], for Mr. SIMPSON, proposes an amendment numbered 7095.

Mr. BAKER. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

TITLE I—AUTHORIZATION OF APPROPRIATIONS FOR FISCAL YEARS 1984 AND 1985

SEC. 101. There are hereby authorized to be appropriated to the Nuclear Regulatory Commission in accordance with the provisions of section 261 of the Atomic Energy Act of 1951 and section 305 of the Energy Reorganization Act of 1974, for the fiscal years 1984 and 1985 to remain available until expended, $466,800,000 for fiscal year 1984 and $460,000,000 for fiscal year 1985.

SEC. 102. (a) The sums authorized to be appropriated in this Act for fiscal years 1984 and 1985 shall be allocated as follows:

(1) not more than $91,490,000 for fiscal year 1984 and $87,140,000 for fiscal year 1985, may be used for "Nuclear Reactor Regulation", of which an amount not to exceed $1,000,000 is authorized each such fiscal year to be used to accelerate the effort in gas-cooled thermal reactor preapplication review;

(2) not more than $70,910,000 for fiscal year 1984 and $74,770,000 for fiscal year 1985, may be used for "Inspection and Enforcement";

(3) not more than $36,280,000 for fiscal year 1984 and $35,710,000 for fiscal year 1985, may be used for "Nuclear Material Safety and Safeguards";

(4) not more than $199,740,000 for fiscal year 1984 and $193,290,000 for fiscal year 1985, may be used for "Nuclear Regulatory Research", of which an amount not to exceed $2,600,000 is authorized each such fiscal year to be used to accelerate the effort in gas cooled thermal reactor safety research;

(5) not more than $27,520,000 for fiscal year 1984 and $27,470,000 for fiscal year 1985, may be used for "Program Technical Support";

(6) not more than $40,860,000 for fiscal year 1984 and $41,620,000 for fiscal year 1985, may be used for "Program Direction and Administration".

(b) The Nuclear Regulatory Commission may use not more than 1 per centum of the amounts authorized to be appropriated under paragraph 102(a)(4) to exercise its authority under section 31a. of the Atomic Energy of 1954 (42 U.S.C. 2051(a)) to enter into grants and cooperative agreements with universities pursuant to such paragraph. Grants made by the Commission shall be made in accordance with the Federal Grant and Cooperative Agreement Act of 1977 (11 U.S.C. 501 et seq.) and other applicable law.

(c) Any amount appropriated for a fiscal year to the Nuclear Regulatory Commission pursuant to any paragraph of subsection 102(a) for purposes fo the program referred to in such paragraph, may be reallocated by the Commission for use in a program referred to in any other paragraph of such subsection, or for use in any other activity within a program, except that the amount available from appropriations for such fiscal year for use in any program or specified activity may not, as a result of reallocations made under this subsection, be increased or reduced by more than $500,000 unless—

(1) a period of thirty calendar days (excluding any day in which either House of Congress is not in session because of an adjournment of more than three calendar days to a day certain or an adjournment sine die) passes after the receipt, by the Committee on Energy and Commerce and the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Environment and Public Works of the Senate, of notice submitted by the Commission containing a full and complete statement of the reallocation proposed to be made and the facts and circumstances relied upon in support of such proposed reallocation; or

(2) each such committee, before the expiration of such period, transmits to the Commission a written notification that such committee does not object to such proposed reallocation.

SEC. 103. Moneys received by the Nuclear Regulatory Commission for the cooperative nuclear research program and the material access authorization program may be retained and used for salaries and expenses associated with such programs, notwithstanding the provisions of section 3617 of the Revised Statutes (31 U.S.C. 484), and shall remain available until expended.

SEC. 104. From amounts appropriated to the Nuclear Regulatory Commission pursuant to this title, the Commission may transfer to other agencies of the Federal Government sums for salaries and expenses for the performance by such agencies of activities for which such appropriations of the Commission are made. Any sums so transferred may be merged with the appropriation of the agency to which such sums are transferred.

SEC. 105. Notwithstanding any other provisions of this Act, no authority to make payments under this Act shall be effective except to such extent or in such amounts as are provided in advance in appropriation Acts.

SEC. 106. (a) No funds authorized to be appropriated under this Act may be used to carry out any policy or program for the decentralization or regionalization of any Nuclear Regulatory Commission authorities regarding commercial nuclear powerplant licensing until sixty legislative days after the date on which the Commission submits to the Congress a report evaluating the effect of such policy or program on nuclear reactor safety: *Provided, however,* That the prohibition contained in this subsection shall not apply to any personnel assigned to the field, or to activities in which they were engaged on or before September 22, 1983. The report shall include—

(1) a detailed description of the authorities to be transferred, the reason for such transfer, and an assessment of the effect of such transfer on nuclear reactor safety;

(2) an analysis of all comments submitted to the Commission regarding the effect on nuclear reactor safety which would result from carrying out the policy or program proposed by the Commission; and

(3) an evaluation of the results, including the advantages and disadvantages, of the pilot program conducted under subsection (b).

(b) Notwithstanding the prohibition contained in subsection (a), the Commission is authorized to conduct a pilot program for the purpose of evaluating the concept of delegating authority to regional offices for issuance of specific types of operating reactor licensing actions and for the purpose of addressing the issues identified in paragraphs (a) (1)-(3) of this section.

SEC. 107. (a) Of the amounts authorized to be appropriated under this Act for the fiscal years 1984 and 1985, such sums as may be necessary are authorized to be used by the Nuclear Regulatory Commission for—

(1) the acquisition (by purchase, lease, or otherwise) and installation of equipment to be used for the small test prototype nuclear data link program or for any other program for the collection and transmission to the Commission of data from licensed nuclear reactors during abnormal conditions at such reactors; and

(2) a full and complete analysis of—

(A) the appropriate role of the Commission during abnormal conditions at a nuclear reactor licensed by the Commission;

(B) the information which should be available to the Commission to enable the Commission to fulfill such role and to carry out other related functions;

(C) various alternative means of assuring that such information is available to the Commission in a timely manner; and

(D) any changes in existing Commission authority necessary to enhance the Commission response to abnormal conditions at a nuclear reactor licensed by the Commission:

Provided, however, That no funds shall be available under this Act for the acquisition and installation of any equipment for the collection and transmission to the Commission of data from licensed nuclear reactors during abnormal conditions at such reactors, or for the analysis of such equipment, unless such acquisition and analysis includes, as one of the alternatives considered, a fully automated electronic nuclear data link. The small test prototype referred to in paragraph (1) may be used by the Commission in carrying out the study and analysis under paragraph (2). Such analysis shall include a cost-benefit analysis of each alternative examined under subparagraph (C).

SEC. 108. Of the amounts authorized to be appropriated under this Act, the Nuclear Regulatory Commission may use such sums as may be necessary, in the absence of a State or local emergency preparedness plan which has been approved by the Federal Emergency Management Agency, to issue an operating license (including a temporary operating license under section 192 of the Atomic Energy Act of 1954, as amended) for a nuclear power reactor, if it determines that there exists a State, local, or utility plan which provides reasonable assurance that public health and safety is not endangered by operation of the facility concerned.

SEC. 109. Notwithstanding the second sentence of section 103 d. and the second sentence of section 104 d. of the Atomic Energy Act of 1954, an amended, the Nuclear Regulatory Commission is hereby authorized to transfer Facility Operating License numbered R-81 to a United States entity or corporation owned or controlled by a foreign corporation if the Commission——

(1) finds that such transfer would not be inimical to the common defense and security or to the health and safety of the public; and

(2) includes in such license, as transferred, such conditions as the Commission deems necessary to endure that such foreign corporation cannot direct the actions of the licensee in ways that would be inimical to the common defense and security or the health and safety of the public.

TITLE II—AMENDMENT TO THE NUCLEAR WASTE POLICY ACT OF 1982

SEC. 201. The Nuclear Waste Policy Act of 1982 (42 U.S.C. 10101 et seq.) is amended by adding a new section 126 as follows:

"SEC. 126. The provisions of sections 115, 116, 117, and 118 of this subtitle shall constitute the exclusive rights of participation by an affected State or Indian tribe in the planning, siting, development, construction, and operation of a repository or a moni-

tored, retrievable storage facility that is required to be licensed by the Commission: *Provided, however,* That nothing in this Act shall preclude any recognized right of any State or Indian tribe under existing law with respect to such repository or monitored, retrievable storage facility.".

AMENDMENT NO. 7096

(Purpose: To strike title II of the bill)

Mr. BAKER. Mr. President, on behalf of Senator McCLURE, I send to the desk an amendment to the Simpson substitute.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Tennessee [Mr. BAKER], for Mr. McCLURE, proposes an amendment numbered 7096.

Mr. BAKER. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Strike title II of the bill.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 7096) was agreed to.

If there are no further amendments, the question is on agreeing to the substitute amendment, as amended.

The substitute amendment (No. 7095), as amended, was agreed to.

Mr. STAFFORD. Mr. President, I wonder if the Senator from New Mexico, Senator DOMENICI, could explain the action of the Committee on Energy and Natural Resources when it reported the Nuclear Regulatory Commission Authorization bill. The bill was sequentially referred to that committee for consideration of section 201 which amends the Nuclear Waste Policy Act of 1982. The Energy Committee struck that provision and I would like the Senator to explain that action.

Mr. DOMENICI. I thank the Senator for his inquiry. Before I address the Senator's specific question, let me see if I can characterize what I believe his intent was in adding this section. I believe the Senator was trying to clarify the relationship among Federal, State, and tribal interest and prevent any unwarranted or inadvertent repeal of State or tribal rights. Furthermore, I believe the section was also intended to underscore the primacy of the Nuclear Waste Policy Act in defining procedures for waste facility decisions and the participation of States and Indian tribes in those decisions while preserving a variety of rights, under both Federal and State laws, to States and Indian tribes. I believe these two points were the core of the Senator's interest in proposing this section. Is that correct?

Mr. STAFFORD. Yes; it is. I would like to know if the Senator from New Mexico disagrees with those objectives.

Mr. DOMENICI. I certainly do not, and I would say that it is my belief that what the Senator from Vermont has tried to do is already embodied in the act.

Mr. STAFFORD. Why, then, would the Senator feel a need to strike the amendment?

Mr. DOMENICI. There are several reasons why I believe it is necessary to do this, and I would do so with the understanding that we would not be trying to make new legislative history or undo the old. First, a number of groups have expressed a desire that we refrain from amending the Nuclear Waste Policy Act in any fashion. Second, there are some who agree with the Senator from Vermont's intent but are afraid that the language of the amendment might be interpreted in ways which the Senator did not intend. Therefore, I would propose that we simply ask the manager of the bill, Senator SIMPSON, to simply modify the bill to delete section 201.

Mr. STAFFORD. I certainly would not want this language to be interpreted in a way which is contrary to my intentions and with the clarifications of the Senator from New Mexico I believe the provision could be deleted. I thank the Senator.

The PRESIDING OFFICER. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading and was read the third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall it pass?

The bill (S. 1291), as amended, was passed, as follows:

S. 1291

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I—AUTHORIZATION OF APPROPRIATIONS FOR FISCAL YEARS 1984 AND 1985

SEC. 101. There are hereby authorized to be appropriated to the Nuclear Regulatory Commission in accordance with the provisions of section 261 of the Atomic Energy Act of 1954 and section 305 of the Energy Reorganization Act of 1974, for the fiscal years 1984 and 1985 to remain available until expended, $466,800,000 for fiscal year 1984 and $460,000,000 for fiscal year 1985.

SEC. 102. (a) The sums authorized to be appropriated in this Act for fiscal years 1984 and 1985 shall be allocated as follows:

(1) not more than $91,490,000 for fiscal year 1984 and $87,140,000 for fiscal year 1985, may be used for "Nuclear Reactor Regulation", of which an amount not to exceed $1,000,000 is authorized each such fiscal year to be used to accelerate the effort in gas-cooled thermal reactor preapplication review;

(2) not more than $70,910,000 for fiscal year 1984 and $74,770,000 for fiscal year 1985, may be used for "Inspection and Enforcement";

(3) not more than $36,280,000 for fiscal year 1984 and $35,710,000 for fiscal year 1985, may be used for "Nuclear Material Safety and Safeguards";

(4) not more than $199,740,000 for fiscal year 1984 and $193,290,000 for fiscal year 1985, may be used for "Nuclear Regulatory Research", of which an amount not to exceed $2,600,000 is authorized each such fiscal year to be used to accelerate the effort in gas-cooled thermal reactor safety research;

(5) not more than $27,520,000 for fiscal year 1984 and $27,470,000 for fiscal year 1985, may be used for "Program Technical Support";

(6) not more than $40,860,000 for fiscal year 1984 and $41,620,000 for fiscal year 1985, may be used for "Program Direction and Administration".

(b) The Nuclear Regulatory Commission may use not more than 1 per centum of the amounts authorized to be appropriated under paragraph 102(a)(4) to exercise its authority under section 31a. of the Atomic Energy of 1954 (42 U.S.C. 2051(a)) to enter into grants and cooperative agreements with universities pursuant to such paragraph. Grants made by the Commission shall be made in accordance with the Federal Grant and Cooperative Agreement Act of 1977 (41 U.S.C. 501 et seq.) and other applicable law.

(c) Any amount appropriated for a fiscal year to the Nuclear Regulatory Commission pursuant to any paragraph of subsection 102(a) for purposes of the program referred to in such paragraph, may be reallocated by the Commission for use in a program referred to in any other paragraph of such subsection, or for use in any other activity within a program, except that the amount available from appropriations for such fiscal year for use in any program or specified activity may not, as a result of reallocations made under this subsection, be increased or reduced by more than $500,000 unless—

(1) a period of thirty calendar days (excluding any day in which either House of Congress is not in session because of an adjournment of more than three calendar days to a day certain or an adjournment sine die) passes after the receipt, by the Committee on Energy and Commerce and the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Environment and Public Works of the Senate, of notice submitted by the Commission containing a full and complete statement of the reallocation proposed to be made and the facts and circumstances relied upon in support of such proposed reallocation; or

(2) each such committee, before the expiration of such period, transmits to the Commission a written notification that such committee does not object to such proposed reallocation.

SEC. 103. Moneys received by the Nuclear Regulatory Commission for the cooperative nuclear research program and the material access authorization program may be retained and used for salaries and expenses associated with such programs, notwithstanding the provisions of section 3617 of the Revised Statutes (31 U.S.C. 484), and shall remain available until expended.

SEC. 104. From amounts appropriated to the Nuclear Regulatory Commission pursuant to this title, the Commission may transfer to other agencies of the Federal Government sums for salaries and expenses for the performance by such agencies of activities for which such appropriations of the Com-

mission are made. Any sums so transferred may be merged with the appropriation of the agency to which such sums are transferred.

SEC. 105. Notwithstanding any other provisions of this Act, no authority to make payments under this Act shall be effective except to such extent or in such amounts as are provided in advance in appropriation Acts.

SEC. 106. (a) No funds authorized to be appropriated under this Act may be used to carry out any policy or program for the decentralization or regionalization of any Nuclear Regulatory Commission authorities regarding commercial nuclear powerplant licensing until sixty legislative days after the date on which the Commission submits to the Congress a report evaluating the effect of such policy or program on nuclear reactor safety: *Provided, however,* That the prohibition contained in this subsection shall not apply to any personnel assigned to the field, or to activities in which they were engaged, on or before September 22, 1983. The report shall include—

(1) a detailed description of the authorities to be transferred, the reason for such transfer, and an assessment of the effect of such transfer on nuclear reactor safety;

(2) an analysis of all comments submitted to the Commission regarding the effect on nuclear reactor safety which would result from carrying out the policy or program proposed by the Commission; and

(3) an evaluation of the results, including the advantages and disadvantages, of the pilot program conducted under subsection (b).

(b) Notwithstanding the prohibition contained in subsection (a), the Commission is authorized to conduct a pilot program for the purpose of evaluating the concept of delegating authority to regional offices for issuance of specific types of operating reactor licensing actions and for the purpose of addressing the issues identified in paragraphs (a) (1)–(3) of this section.

SEC. 107. (a) Of the amounts authorized to be appropriated under this Act for the fiscal years 1984 and 1985, such sums as may be necessary are authorized to be used by the Nuclear Regulatory Commission for—

(1) the acquisition (by purchase, lease, or otherwise) and installation of equipment to be used for the small test prototype nuclear data link programs or for any other program for the collection and transmission to the Commission of data from licensed nuclear reactors during abnormal conditions at such reactors; and

(2) a full and complete analysis of—

(A) the appropriate role of the Commission during abnormal conditions at a nuclear reactor licensed by the Commission;

(B) the information which should be available to the Commission to enable the Commission to fulfill such role and to carry out other related functions;

(C) various alternative means of assuring that such information is available to the Commission in a timely manner; and

(D) any changes in existing Commission authority necessary to enhance the Commission response to abnormal conditions at a nuclear reactor licensed by the Commission:

Provided, however, That no funds shall be available under this Act for the acquisition and installation of any equipment for the collection and transmission to the Commission of data from licensed nuclear reactors during abnormal conditions at such reactors, or for the analysis of such equipment, unless such acquisition and analysis includes, as one of the alternatives considered, a fully automated electronic nuclear data link. The small test prototype referred to in paragraph (1) may be used by the Commission in carrying out the study and analysis under paragraph (2). Such analysis shall include a cost-benefit analysis of each alternative examined under subparagraph (C).

SEC. 108. Of the amounts authorized to be appropriated under this Act, the Nuclear Regulatory Commission may use such sums as may be necessary, in the absence of a State or local emergency preparedness plan which has been approved by the Federal Emergency Management Agency, to issue an operating license (including a temporary operating license under section 192 of the Atomic Energy Act of 1954, as amended) for a nuclear power reactor, if it determines that there exists a State, local, or utility plan which provides reasonable assurance that public health and safety is not endangered by operation of the facility concerned.

SEC. 109. Notwithstanding the second sentence of section 103 d. and the second sentence of section 104 d. of the Atomic Energy Act of 1954, as amended, the Nuclear Regulatory Commission is hereby authorized to transfer Facility Operating License numbered R-81 to a United States entity or corporation owned or controlled by a foreign corporation if the Commission—

(1) finds that such transfer would not be inimical to the common defense and security or to the health and safety of the public; and

(2) includes in such license, as transferred, such conditions as the Commission deems necessary to ensure that such foreign corporation cannot direct the actions of the licensee in ways that would be inimical to the common defense and security or the health and safety of the public.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

RELIEF OF EDGAR GILDARDO HERRERA

Mr. BAKER. Mr. President, next I have cleared on this side Calendar No. 1346, if the minority leader has no objection.

Mr. BYRD. Mr. President, there is no objection.

Mr. BAKER. Mr. President, I ask the Chair lay before the Senate that message.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (H.R. 2671) for the relief of Edgar Gildardo Herrera.

The PRESIDING OFFICER. Is there objection to the present consideration of the bill?

There being no objection, the bill was considered, ordered to a third reading, read the third time, and passed.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

CONVEYANCE OF CERTAIN LANDS

Mr. BAKER. Mr. President, I now ask that the Chair lay before the Senate Calendar Order No. 1322.

The PRESIDING OFFICER. Is there objection?

Mr. BYRD. No objection.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (H.R. 3150) to direct the Secretary of Agriculture to convey, for certain specified consideration, to the Sabine River Authority approximately thirty-one thousand acres of land within the Sabine National Forest to be used for the purposes of the Toledo Bend project, Louisiana and Texas; and for other purposes.

The Senate proceeded to consider H.R. 3150.

SABINE RIVER AUTHORITY LAND CONVEYANCE

Mr. HELMS. Mr. President, S. 1754 would require the Secretary of Agriculture, within 180 days after enactment of the bill, to convey certain lands within the Sabine National Forest in Texas to the Sabine River Authority in Texas. The lands to be conveyed are in or adjacent to the Toledo Bend Reservoir, which is located in Louisiana and Texas, and consist of: First, approximately 31,000 acres of land inundated by the reservoir; second, an 11-acre recreational site; and, third, approximately 107 acres of land in the flood plain that would no longer be immediately adjacent to land owned by the United States in the Sabine National Forest after conveyance of the other lands involved.

The bill provides that, in exchange for the conveyance of the lands by the United States, the Sabine River Authority of Texas must: First, convey to the United States approximately 586 acres of land in the flood plain that lie on the shoreline of the Toledo Bend Reservoir and are immediately adjacent to national forest lands; and second; deposit with the Secretary of Agriculture the sum of $650,000.

The conveyance of the lands by the United States would not include the subsurface rights, and the United States would retain a reversionary interest with respect to the inundated lands so that, if such lands ever ceased to be used for reservoir purposes, they would revert to the United States and would resume their status as National Forest System lands.

Mr. President, the Senate companion bill to H.R. 3150 (S. 1754) provided that upon completion of the convey-

ances, the Sabine River Authority of Texas and the Sabine River Authority of Louisiana would be exempted from the Federal land-use fees and administration charges referred to in the project license issued by the Federal Energy Regulatory Commission for the Toledo Bend project.

H.R. 3150, as passed by the House contains a modified fee waiver provision that also makes the conveyances provided for in the bill contingent on the Federal Energy Regulatory Commission determining that the fair market value that the United States will receive under the bill includes the full value of the waiver authorized under the bill during the remaining term of the license for the Toledo Bend project.

Mr. President, the amendment in H.R. 3150 was a compromise reached in the House after some difference of opinion in that body concerning the waiver of fees for the Federal Energy Regulatory Commission. Although the House approach is somewhat different than that of the Committee on Agriculture, Nutrition, and Forestry, since the changes in the bill are agreeable to the Senators from Texas and Louisiana I urge my colleagues to accept the House language for the Sabine River bill.

Mr. HUDDLESTON. Mr. President, H.R. 3150 would require the Secretary of Agriculture to convey to the Sabine River Authority of Texas certain lands within the Sabine National Forest. The national forest lands subject to this conveyance are approximately 31,000 acres of property, most of which are submerged by the waters of the Toledo Bend Reservoir. The reservoir is part of the Toledo Bend Reservoir project that is operated by the Sabine River Authorities of Texas and Louisiana. The purpose of this project is the development of water supplies, the generation of electric power, and recreation. The project is licensed under the Federal Fower Act.

The conveyance of land to the Sabine River Authority of Texas would be conditioned on the authority conveying 586 acres of its land on the shoreline of the reservoir to the United States and paying $650,000 to the Secretary of Agriculture. Also, the United States would retain all subsurface rights to the national forest lands conveyed to the Sabine River Authority, and ownership of the land would revert to the United States if the land ever ceases to be used for project purposes.

Under the reservoir project license, the Sabine River Authorities of Texas and Louisiana are currently subject to annual charges for the use of national forest lands submerged by the reservoir. Traditionally these charges have been waived because the authorities make no profit on power sold to the public. H.R. 5031 contains a provision that would permanently waive these charges.

This waiver should be conditioned upon a finding by the Federal Energy Regulatory Commission that: First, the national forest land to be conveyed by the Secretary will be used for Toledo Bend Reservoir Project; second, the Forest Service has notified the Commission that, upon the conveyance of the land, the United States will have received the fair market value of the federally owned land set out in the bill; and third, such fair market value includes the full value of the permanent waiver of charges that is provided for in the bill.

In weighing the value of the permanent waiver, the Commission is to consider its prior determinations under which annual waivers were granted to the Sabine River Authorities, as well as the reasonable likelihood that similar annual waivers would be granted during the remaining period of the project license. If the Commission determines that the value of the permanent waiver is not reflected in the value to be received by the Government for the national forest land, no conveyances under the bill would be permitted. I am confident, however, that the Commission will find that the consideration provided for in the bill represents the fair market value of the national forest lands to be conveyed, including the full value of the waiver provided for in the bill.

The land exchange authorized by H.R. 3150 will enable the Forest Service to more efficiently manage lands in the Sabine National Forest that are adjacent to the Toledo Bend Reservoir through the consolidation of land holdings. The bill would also provide a reasonable method of resolving problems associated with the annual charges for the use of the national forest land by the Toledo Bend Reservoir project under the Federal Power Act license.

The Department of Agriculture has indicated that it supports legislation on this matter to clear up ownership problems and permit more efficient management of the National Forest System lands surrounding the reservoir. The bill was amended by the House of Representatives to address the concerns regarding H.R. 3150, as introduced, that were expressed by the Forest Service and the Federal Energy Regulatory Commission.

I urge my colleagues to approve this legislation.

Mr. BENTSEN. Mr. President, this bill now before the Senate will remedy a longstanding inequity involving the Toledo Bend Reservoir on the Texas-Louisiana border. This legislation will do that by providing for an exchange of lands between the Sabine River Authority of Texas, the Sabine River Authority of the State of Louisiana, and the U.S. Forest Service. In the process it will provide a mechanism for the Federal Energy Regulatory Commission to waive any claims for land use fees against the Sabine River Authority.

I introduced a similar bill in the Senate, and all of the Senators from the two States involved, Senator TOWER from Texas and Senators LONG and JOHNSTON from Louisiana, are cosponsors of this bill. It has been approved by the Senate Agriculture Committee and has passed the House of Representatives. I now urge its approval by the full Senate so that it can be sent to the President to be signed into law.

The Toledo Bend project is unique, as it is the only interstate reservoir, dam, and powerhouse to be financed, constructed, and operated without Federal funds or participation. The States of Texas and Louisiana joined together to finance and build this project. Although this arrangement has produced great benefits for the citizens of Texas and Louisiana at no cost to the Federal Government, it has also created some unique problems.

Other lakes, built with Federal funds, automatically get certain exemptions along with those Federal funds. The Sabine River Authority did not get these exemptions, because it did not tap the Treasury. Thus the Sabine River Authority is not automatically exempt from paying rental fees for the Federal land which was flooded by this lake. No such fees have been paid by the Sabine River Authority, since they have applied for and received exemptions from the Federal Energy Regulatory Commission. These exemptions are granted only annually, however, and going through this application process each year is a needless and costly exercise both to the river authorities and to the FERC.

The Federal Government is now in the position of penalizing the States of Texas and Louisiana for having used their own initiative and their own funds to construct the Toledo Bend Reservoir. Had Texas and Louisiana used Federal funds they would automatically have been exempt from the fees that are now causing them such problems. This situation is ridiculous, it is sending the wrong signal to State and local governments that the administration is encouraging to be more self-reliant, and it should be resolved.

The bill as introduced simply transferred the ownership of the flooded Federal lands, on which a rental charge has been asked, to the Sabine River Authority. However, since that time the U.S. Department of Agriculture has commented on the bill and the U.S. Forest Service has expressed an interest in acquiring certain lands now owned by the Sabine River Authority.

In response to these comments and inquiries, the bill has been modified to make this an exchange of lands rather than a simple transfer. The submerged lands would be acquired by the Sabine River Authority, with the Federal Government retaining all mineral rights and with the condition that those lands will revert to the Federal Government if they ever cease to be used for the Toledo Bend Reservoir. In addition, the two river authorities will pay to the USFS the sum of $650,000.

This will both satisfy the USFS interest in acquiring some of these lands and will conform to the administration policy of seeking comparable value as compensation for the transfer of Federal lands.

Section 4 of this bill establishes a mechanism for the FERC to deal with this application for a waiver of FERC land use fees. For the purposes of section 4 of this act, it is my understanding that the determination does not necessarily require a formal Commission action. If the Commission so chooses, it could exercise its authority to delegate the decision pursuant to existing law and regulations.

For the purposes of section 4(A)(3), the term "fair market value" means the land conveyed by section 2, plus the amount of $650,000 as specified in section 2, plus the annual charge the Commission reasonably believes otherwise would have been collected over the term of the license from the Sabine River Authority had this legislation not been enacted.

The Sabine River Authority currently receives an exemption, pursuant to section 10(e) of the Federal Power Act, from annual charges, and there is no reason to believe that they would not continue to receive such an exemption over the remaining period of the license. Therefore, we are of the opinion that the fair market value would consist of only the land transferred and the $650,000 specified in section 2.

I would even argue that the FERC would save the Government money by approving this permanent waiver, since it would thereby save the annual cost of processing a lengthy and complicated application for the annual waiver.

I would also note that the bill imposes a deadline of 180 days upon the Secretary of Agriculture for the completion of this exchange. Since the FERC must also make a determination that the compensation specified in this bill is adequate before this exchange can take place, it is our expectation that the FERC should and will act expeditiously in making this determination.

The legislation does not change the present use of the land in any way. It only recognizes the current usage and cuts down on the paperwork and redtape currently involved because of the unique nature of this project.

This land is part of and necessary to the Toledo Bend Reservoir, either as land subject to inundation or as small recreation areas. I see no reason why it should not be transferred to the Sabine River Authority, subject to the strict conditions in this bill, in order to do away with the tedious and unnecessary redtape now associated with this important project. Such a transfer would remove any basis for this land use fee, since the land involved would no longer be owned by the Federal Government.

Mr. President, legislation on this problem was first introduced in 1970 by the late Congressman Wright Patman of Texas. Enactment of this legislation is long overdue, and I urge my colleagues to join with me in passing this bill.

Mr. LONG. Mr. President, I encourage my Senate colleagues to expeditiously consider the bill before us now, an amended version of H.R. 3150.

Mr. President, consideration and resolution of this matter is long overdue.

For the past 14 years, the Sabine River Authority, Texas and Louisiana have attempted to resolve this long standing matter, but to no avail. Enacting H.R. 3150 will resolve this issue.

The amended House-passed version of H.R. 3150 would solve the problems of Texas and Louisiana agencies which operate the Toledo Bend Reservoir. This measure would give the Sabine River Authority title to approximately 31,000 acres of submerged Federal land. In return for title to the acreage, the Sabine River Authority, Texas and Louisiana would make a cash payment of $650,000 to the U.S. Forest Service.

Mr. President, the Toledo Bend Reservoir was constructed and financed without Federal funds or participation. The States of Louisiana and Texas bore the financial responsibility for the project.

Therefore, Mr. President, I urge my colleagues to accept this compromise proposal which is the result of many years of negotiations and is endorsed by the Sabine River Authority, Texas, and Louisiana.

The PRESIDING OFFICER. The bill is before the Senate and open to amendment. If there be no amendment to be proposed, the question is on the third reading and passage of the bill.

The bill (H.R. 3150) was ordered to a third reading, was read the third time, and passed.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

MARITIME PROGRAMS OF THE DEPARTMENT OF TRANSPORTATION AND THE DEPARTMENT OF COMMERCE

Mr. BAKER. Mr. President, I ask the Chair to lay before the Senate Calendar Order No. 1308.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Tennessee?

Mr. BYRD. No.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (H.R. 5833) to improve certain maritime programs of the Department of Transportation and the Department of Commerce.

The Senate proceeded to consider H.R. 5833, which had been reported from the Committee on Commerce, Science, and Transportation, with an amendment to strike out all after the enacting clause, and insert the following: with amendments, as follows:

(The parts of the bill intended to be stricken are shown in boldface brackets, and the parts of the bill intended to be inserted are shown in italics.)

H.R. 5833

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That title XI of the Merchant Marine Act, 1936 (46 App. U.S.C. 1271 et seq.) is amended as follows:

(1) in section 1103(e), after the last sentence, by adding: "Notwithstanding an assumption of an obligation by the Secretary under section 1105 (a) or (b) of this Act, the validity of the guarantee of an obligation made by the Secretary under this title is unaffected and the guarantee remains in full force and effect.";

(2) in section 1104, by striking subsection (a)(3) and submitting:

"(3) financing the purchase, reconstruction, or reconditioning of vessels or fishery facilities for which obligations were guaranteed under this title that, under the provisions of section 1105:

"(A) are vessels or fishery facilities for which obligations were accelerated and paid;

"(B) were acquired by the Fund; or

"(C) were sold at foreclosure instituted by the Secretary;";

(3) in section 1104(a)(5), by adding "or" at the end;

(4) in section 1104(a)(6), by striking "facilities; or" and substituting "facilities.";

(5) in section 1104, by striking subsection (a)(7);

(6) in section 1104, by striking subsection (d)(1) and substituting:

"(d)(1)(A) No commitment to guarantee, or guarantee of, an obligation shall be made by the Secretary of Transportation unless the Secretary finds that the property or project with respect to which the obligation will be executed will be economically sound. In making that determination, the Secretary shall consider—

"(i) the need in the particular segment of the maritime industry for new or additional capacity, including any impact on existing equipment for which a guarantee under this title is in effect;

"(ii) the market potential for the employment of the vessel over the life of the guarantee;

"(iii) projected revenues and expenses associated with employment of the vessel;

"(iv) any charters, contracts of affreightment, transportation agreements, or similar agreements or undertakings relevant to the employment of the vessel; and

"(v) other relevant [criteria.] *criteria; and*

"(vi) for inland waterways, the need for technical improvements, including but not limited to increased fuel efficiency, or improved safety.

"(B) No commitment to guarantee, or guarantee of, an obligation shall be made by the Secretary of Commerce unless the Secretary finds, at or prior to the time such commitment is made or guarantee becomes effective, that the property or project with respect to which the obligation will be executed will be, in the Secretary's opinion, economically sound and in the case of fishing vessels, that the purpose of the financing or refinancing is consistent with the wise use of the fisheries resources and with the development, advancement, management, conservation, and protection of the fisheries resources.";

(7) in section 1104(h), after the word "acceleration", by adding ", assumption,";

(8) in section 1105(a), in the first sentence after the word "demand", by adding: "(unless the Secretary shall, upon such terms as may be provided in the obligation or related agreements, prior to that demand have assumed the obligor's rights and duties under the obligation and agreements and shall have made any payments in default)";

(9) in section 1105, by striking subsection (b) and substituting:

"(b) In the event of a default under a mortgage, loan agreement, or other security agreement between the obligor and the Secretary, the Secretary may upon such terms as may be provided in the obligation or related agreement, either:

"(1) assume the obligor's rights and duties under the agreement, make any payment in default, and notify the obligee or the obligee's agent of the default and the assumption by the Secretary; or

"(2) notify the obligee or the obligee's agent of the default, and the obligee or the obligee's agent shall have the right to demand at or before the expiration of such period as may be specified in the guarantee or related agreements, but not later than [sixty] *60* days from the date of such notice, payment by the Secretary of the unpaid principal amount of said obligation and of the unpaid interest thereon. Within such period as may be specified in the guarantee or related agreements, but not later than [thirty] *30* days from the date of such demand, the Secretary shall promptly pay to the obligee or the obligee's agent the unpaid principal amount of said obligation and unpaid interest thereon to the date of payment.";

(10) in section 1105(c), first sentence, after the word "payment", by adding "or assumption"; [and]

(11) in section 1105(e), by striking the last sentence and substituting: "In the event that the Secretary shall receive through the sale of property an amount of cash in excess of the unpaid principal amount of the obligation and unpaid interest on the obligation and the expenses of collection of those amounts, the Secretary shall pay the excess to the [obligor."] *obligor."; and*

(12) in section 1104(e), by adding the following sentence at the end thereof: "Such regulations shall provide a formula for determining the creditworthiness of obligors under which the most creditworthy obligors pay a fee computed on the lowest allowable percentage and the least creditworthy obligors allowable percentage (the range of creditworthiness to be based on obligors which have actually issued guaranteed obligations).".

SEC. 2. Section 214 of the Merchant Marine Act, 1936 (46 App. U.S.C. 1124) is amended to read as follows:

"(a) For the purpose of any investigation which, in the opinion of the Secretary of Transportation, is necessary and proper in carrying out this Act, the Secretary may [subpena] *subpoena* witnesses, administer oaths and affirmations, take evidence, and require the production of books, papers, or other documents that are relevant to the matter under investigation. The attendance of witnesses and the production of books, papers, or other documents may be required from any place in the United States or any territory, district, or possession thereof at any designated place of hearing. Witnesses summoned before the Secretary shall be paid the same fees and mileage that are paid witnesses in the courts of the United States.

"(b) Upon failure of any person to obey a [subpena] *subpoena* issued by the Secretary, the Secretary may invoke the aid of any district court of the United States within the jurisdiction in which the person resides or carries on business in requiring the attendance and testimony of witnesses and the production of books, papers, or other documents. Any such court may issue an order requiring the person to appear before the Secretary, or an employee designated by the Secretary, there to produce books, papers, or other documents, if so ordered, or to give testimony relevant to the matter under investigation. A failure to obey an order of the court may be punished by the court as a contempt thereof. Process in such a case may be served in the judicial district in which the person resides or may be found.".

SEC. 3. (a) The Shipping Act, 1916 (46 App. U.S.C. 801), is amended as follows:

(1) The first section is amended—

(A) by striking the definitions "common carrier by water" and "common carrier by water in foreign commerce";

(B) in the definition "other person subject to this act", by striking "common carrier by water" in two places and substituting "common carrier by water in interstate commerce"; and

(C) in the definition "carrying on the business of forwarding", by striking "from the United States, its Territories, or possessions to foreign countries, or".

(2) The initial paragraph of section 16 is amended by striking "transportation by water" and substituting "transportation by water in interstate commerce".

(3) Section 21(b) is amended by striking the period following "subject to this Act" and substituting a comma.

(b) The Shipping Act of 1984 (46 App. U.S.C. 1701), is amended as follows:

(1) Section 5(a) is amended by striking "in section 4" and substituting "in section 4 (a) or (b)".

(2) Section 11(g) is amended by striking "section 10(c) (1) or (4)" and substituting "section 10(c) (1) or (3)".

(3) The last sentence of section 15 is amended to read as follows: "Whoever fails to file a certificate required by the Commission under this subsection is liable to the United States for a civil penalty of not more than $5,000 for each day the violation continues.".

Mr. BAKER. Mr. President, I ask unanimous consent that the committee amendments be considered and adopted en bloc.

The PRESIDING OFFICER. Without objection, the committee amendments are considered and agreed to en bloc.

AMENDMENT NO. 7097

(Purpose: To make technical amendment)

Mr. BAKER. Mr. President, I now send to the desk an amendment on behalf of Senator PACKWOOD to the committee amendment and I ask that it be stated by the clerk.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Tennessee [Mr. BAKER] for Mr. PACKWOOD proposes an amendment numbered 7097.

Mr. BAKER. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 6, line 6, insert the following immediately after "obligors": "pay a fee which may be computed on the highest".

AMENDMENT NO. 7098

(Purpose: To make technical amendment)

Mr. BAKER. Mr. President, I send to the desk now a second-degree amendment on behalf of Senator PACKWOOD and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Tennessee [Mr. BAKER], for Mr. PACKWOOD, proposes an amendment numbered 7098.

Mr. BAKER. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 4, line 4 insert the words "or with the need for technical improvements including but not limited to increased fuel efficiency or improved safety" immediately after the word "resources".

Mr. PACKWOOD. Mr. President, the bill before us today, H.R. 5833, amends the Merchant Marine Act of 1936 to improve the administration of the ship financing guarantee program under title XI of the act and to set up more stringent criteria for issuance of these guarantees. The original intent of the Merchant Marine Act of 1936 was to foster the development and encourage the maintenance of a U.S. merchant marine. Under the original Merchant Marine Act, title I has as part of its Declaration of Policy:

"It is necessary for the national defense and development of its foreign and domestic commerce that the United States shall have a Merchant Marine . . . (d) composed of the best equipped, safest, and most suitable types of vessels . . . and (e) supplemented by efficient facilities for shipbuilding and ship repair. It is hereby declared to be the policy of the United States to foster the development and encourage the maintenance of such a Merchant Marine."

In committee, Senator DANFORTH of Missouri offered an amendment to be sure the original intent of the act was preserved. I would like to ask the Senator from Missouri to comment on his concerns and explain his clarifying language that was adopted in Committee.

Mr. DANFORTH. I was concerned that the original intent of the title XI program of the act may have been lost in the enactment of H.R. 5833 and offered my amendment to assure that it was not. Without my amendment, the Secretary of Transportation, in making a title XI comment to guarantee an obligation, after being assured of its economic soundness, was instructed in making that determination to look no further than "the need * * * for new or additional capacity * * *" This criteria assumes that a vessel is a vessel, is a vessel.

Mr. PACKWOOD. What other criteria should be considered by the Secretary of Transportation in making a commitment to guarantee an obligation under the title XI program?

Mr. DANFORTH. The authors of the original Merchant Marine Act of 1936 recognized the need to promote research and development efforts in our maritime industry, both for large ocean vessels and for inland river vessels. It is for the public benefit that the maritime industry be at the cutting edge of technological advances, and is one of the main reasons for the existence of the Maritime Administration. Major technical advances have been made in the design of marine hulls, propellers, nozzles, and in main engine design. All of which improve the vessel's efficiency which is another way of saying that with the same amount of fuel it will go faster or push more barges. Vessels built today, incorporating the most advanced design technology, are the most cost effective and because of that, should be given full consideration when the Secretary is making a determination to commit a title XI guarantee. In addition MarAd has an added concern for the shipyards building such high-tech equipment. The survival of the shipbuilding industry, presently in a very depressed period, should also be a factor in the Secretary's determination.

Mr. PACKWOOD. So the purpose of your amendment is to assure that other criteria, including but not limited to increased fuel efficiency and improved vessel performance, also be considered in making a title XI commitment to guarantee an obligation.

Mr. DANFORTH. That is correct. I believe these factors must be considered by the Secretary of Transportation when making a determination to commit a guarantee under title XI. Accordingly, the Secretary of Transportation should recognize that it is the sense of the Senate that applications for title XI guarantees covering the construction of vessels that incorporate technological improvements, including fuel efficiency and/or improved safety, and that otherwise qualify for said commitment to guarantee, shall have equal weight with the other criteria set forth in section (d)(1)(A)(i) of H.R. 5833.

Mr. LONG. Mr. President, in considering H.R. 5833, I would like to call attention to a problem which exists in regard to the offshore marine service industry. I wish to state in the strongest terms possible that this is a situation which cannot be overlooked and which warrants the serious attention of Congress and the Maritime Administration.

Mr. President, I ask unanimous consent that a copy of a letter I received from a representative of the Offshore Marine Service Association be printed in the RECORD at the conclusion of my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See Exhibit 1.)

Mr. LONG. Mr. President, this letter points out the serious problems which exist within the offshore marine service industry and the need for the Maritime Administration to respond accordingly.

As many of us know, the market for the offshore marine service industry is currently depressed. Offshore energy production is down. As a result, the offshore marine service industry is suffering and there is a surplus of equipment in this market.

Operators in the offshore marine service industry fear that the Maritime Administration may take action which would aggravate the problems facing the industry, ultimately jeopardizing MarAd's loan fund. Specifically, there is concern that MarAd may foreclose on a large number of vessels, and then place these vessels back into an already soft market, without regard to the impact on the industry.

Since this matter was brought to my attention, I have contacted Adm. Harold Shear, the Administrator of MarAd about this problem. Admiral Shear has assured me that he, too, recognizes the potential impact on the offshore industry if a significant number of offshore vessels acquired by MarAd through foreclosures were sold at highly discounted prices. The impact also extends to MarAd itself, which may find that the Government's recovery is ultimately enhanced by holding vessels until the offshore market improves.

Mr. President, I make these comments in an effort to call attention to these problems and to indicate how these problems may be addressed consistent with the legislation before us.

H.R. 5833 would provide the Secretaries of Transportation and Commerce the authority to assume the obligation when an obligor defaults on a title XI loan guarantee. This legislation also provides stricter criteria for approving loan applications. As a part of this criteria, MarAd must evaluate the need for new or additional equipment in the particular segment of the maritime industry.

It is my belief, as well as that of industry representatives, that similar consideration and evaluation should take place in cases where existing equipment unavoidably comes into the possession of MarAd. In the event that MarAd comes into possession of equipment through foreclosure or otherwise, every effort should be made to avoid placing such vessels back into a depressed market for less than compelling reasons. To do otherwise would risk flooding an already depressed market and may well result in the Government's receiving less for this equipment than it would if it were to hold such vessels until the market improves.

I ask the distinguished ranking member of the Merchant Marine Subcommittee, Mr. INOUYE, if he has any comments in regard to my remarks.

Mr. INOUYE. Mr. President, I have followed the statement of my colleague with interest. I, too, am aware of the problems facing the offshore marine service industry, and wish to commend the Senator from Louisiana for calling attention to this issue.

In considering H.R. 5833, it is the intent of Congress to make it easier for the Secretaries of Transportation and Commerce to respond in the event of a title XI default, as well as to reduce the number of future defaults by strengthening the review process for title XI applicants. MarAd will be required to scrutinize more carefully the economic viability of loan applicants. As a part of this process, the Secretary of Transportation must take into account the extent to which construction or reconstruction of a vessel may contribute to overtonnaging.

I believe that it is fair to say that as a matter of administrative discretion MarAd ought to apply this evaluation to cases in which MarAd comes into possession of equipment through the foreclosure process. The best interests of the industry and the loan fund would require that MarAd evaluate the condition of the industry and the market before placing surplus equipment back into the market. This is particularly true given the current de-

pressed state of the offshore marine service industry.

Certainly, every reasonable effort should be made to avoid flooding this market with repossessed equipment. Sold at potentially discounted prices, while continuing to protect the title XI fund.

Mr. LONG. Mr. President, I wish to thank the Senator from Hawaii for his remarks and for his understandings of the problems facing the offshore marine service industry. The Senator's comments reflect his concern for the condition of the industry and the future stability of the title XI fund.

I believe that industry stability and long-term success of the loan fund are fully compatible goals. I would strongly urge the Maritime Administration and the industry to work together toward that end. The legislation under consideration today provides further basis for this effort.

EXHIBIT 1

ALARIO & ASSOCIATES, INC.,
Metairie, LA, September 24, 1984.

Hon. RUSSELL B. LONG,
U.S. Senate,
Washington, DC.

DEAR SENATOR LONG: It has come to the attention of the Offshore Marine Service Association, which includes many of your constituent companies, that Congress is expected to enact legislation soon which will amend Title XI of the Merchant Marine Act, 1963 (46 app. USC 1271, et se). This amendment, among other things, states that "no commitment to guarantee, or guarantee of an obligation shall be made by the Secretary of Transportation unless the Secretary finds that the property or project with respect to which the obligation will be executed will be economically sound." The amendment further states, "in making that determination, the Secretary shall consider (i) the need in the particular segment of the maritime industry for new or additional capacity, including any impact on existing equipment for which a guarantee under this title is in effect."

In developing this legislation, Congress has rightly taken into account and required that the Secretary of Transportation determine that new vessel projects, with appropriate exceptions where new or improved technology applies, "will not contribute to an existing overtonnage/surplus in a particular trade." we wish to point out that in the proposed legislation, this reservation, and the economically sensible criteria it provides, applies only to new additions in a pressed, overbuilt trade. We submit that same restrictive criteria and consideration should apply in cases where existing equipment is repossessed by the Maritime Administration as a result of default's by Title XI shipowner/operators. This equipment should not be dumped back into a depressed market which has spit it out, thereby doing even more damage. The Maritime Administration should be compelled to consider the impact on existing equipment and whether allowing their reentry will contribute to an existing overtonnage in a particular trade, just as they are required by this legislation in the case of new tonnage.

There presently exists in the offshore marine industry, as in other sectors, a serious and economically damaging surplus of equipment. The worst recession that this industry has ever experienced has been battering our operators for over three years. Many companies have failed. More are on the verge of bankruptcy, and numerous companies have been weakened to the extent that they may not survive if the recession continues much longer or, in the alternative, if the problem of surplus equipment is not addressed constructively.

With regard to the latter, we feel you are in a position to help, indirectly but positively. As we noted above, Congress is preparing to enact legislation, we understand very soon, which requires that the Maritime Administration consider criteria to avoid contributing to excess capacity in any marine sector and that MARAD consider the impact on existing equipment for which guarantees are already in place.

There are operators in our industry who have MARAD financing and many more who do not. All of them, of course, are being adversely affected by the over capacity that currently exists in this industry. Their main concern at this time is less about new equipment than with existing surplus equipment. On behalf fo the Offshore Marine Association, we outlined below the problem and concerns at hand.

We feel the Maritime Administration is on the verge, to some extent due to the impact this bill, H.R. 5833, will have, of coming into possession of a significant number of offshore vessels. Until now, only a handful of ships have been taken over by MARAD, and MARAD's disposition of these vessels, while alarming in its potential to do harm, has not been significant because of the small number of units involved. What concerns the industry now is that should MARAD take over large blocks of these vessels, as expected, and then return them promptly into the same depressed market, particularly at discounted sale prices, impact on both Title XI fundholders and non Title XI operators would definitely be adverse, aggravating an already dangerous problem. Furthermore, we feel that resale of these vessels at this time by MARAD at heavily discounted prices in not in MARAD's best interest. To the contrary, we believe that such action at this time would cost MARAD both in terms of immediate loss by virtue of low sales value and more losses in the adverse impact it would inevitably have on other Title XI operators, leading to more failures and still more financial losses to the fund. Thus, we contend that MARAD's, the government's and the public's interest, as well as that of the offshore industry at large, would be served best by removing from active service, at least temporarily, all offshore support vessels which come into MARAD's possession by virtue of default on government guaranteed Title XI bonds. Our thesis is that deactivating these vessels is feasible and highly desirable for the overall, long term good of all. Holding on to these repossessed vessels may, for the six months or so which are extremely critical months at this juncture, represent a financial inconvenience, and even a short term risk, but we submit it would work for the intermediate and long term good of all, including MARAD's economic advantage.

Most industry experts feel that the next six months are probably the most critical to the health, indeed the survival, of many of our offshore marine operators. The permanent removal or, at least, the temporary deactivation of as much surplus equipment as possible from the offshore marine service fleet is critical to its stabilization and long term well being. The Maritime Administration can conceivably play an important and timely part in helping to stabilize this industry, or it can do the opposite. The industry is preparing an even more general, major offensive to accomplish the temporary deactivation and/or permanent removal of surplus equipment from the total U.S. fleet, with the ultimate objective of moving this equipment, whenever, possible, out of the offshore market altogether, into other services. This plan would include, but not be limited to, developing prospects for the sale or "dedication" of converted U.S. offshore service vessels to U.S. or foreign government agencies, military support services, etc. We have plainly concluded that this is absolutely necessary in order to return this industry to a healthy footing. Without any dramatization, it is not profits which are at stake here, but simple survival. The offshore industry needs MARAD's cooperation and looks forward to working closely with them in this effort.

Your assistance in this matter is urgently requested and will be greatly appreciated, Senator. We know you will respond and we thank you for your attention to our problems.

Very truly yours,

ROBERT J. ALARIO,
President.

The PRESIDING OFFICER. The question is on agreeing to the second-degree amendment of the Senator from Tennessee.

The amendment (No. 7098) was agreed to.

The PRESIDING OFFICER. The question is on agreeing to the first amendment of the Senator from Tennessee.

The amendment (No. 7097) was agreed to.

The PRESIDING OFFICER. The question is on the engrossment of the amendments and third reading of the bill.

The amendments were ordered to be engrossed and the bill to be read a third time.

The bill (H.R. 5833) as amended, was read a third time and passed.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

FEDERAL POWER ACT AMENDMENTS

Mr. BAKER. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 1132.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 1132) entitled "An Act to amend the Federal Power Act to specify the annual charges for projects with licenses issued by the Federal Energy Regulatory Commission for the use of Federal dams and other struc-

tures", do pass with the following amendment:

Strike out all after the enacting clause, and insert: That section 10(e) of the Federal Power Act is amended—

(1) by inserting "(1)" after "(e)"; and

(2) by adding the following at the end thereof:

"(2) In the case of licenses involving the use of Government dams or other structures owned by the United States, the charges fixed (or readjusted) by the Commission under paragraph (1) for the use of such dams or structures shall not exceed 1 mill per kilowatt-hour for the first 40 gigawatt-hours of energy a project produces, 1½ mills per kilowatt-hour for over 40 up to and including 80 gigawatt-hours, and 2 mills per kilowatt-hour for any energy the project produces over 80 gigawatt-hours. Except as provided in subsection (f), such charge shall be the only charge assessed by any agency of the United States for the use of such dams or structures.

"(3) Notwithstanding paragraph (1) or (2), no charge shall be assessed for the use of any Government dam or structure by any licensee or other entity if, before the date of the enactment of this paragraph, an agency of the United States has entered into a contract with such licensee or other entity which provides that—

"(A) a powerplant may be built by the licensee or other entity utilizing irrigation facilities constructed by the United States,

"(B) such powerplant shall remain in the exclusive control, possession, and ownership of the licensee or other entity concerned, and

"(C) all revenue from such powerplant and from the use, sale, or disposal of electric energy from the powerplant shall be, and remain, the property of such licensee or other entity.

"(4) The provisions of paragraph (2) shall apply with respect to—

"(A) all licenses issued after the date of the enactment of this paragraph; and

"(B) all licenses issued before such date which—

"(i) did not fix a specific charge for the use of the Government dam or structure involved; or

"(ii) did not specify that no charge would be fixed for the use of such dam or structure.

"(5) Every five years, the Commission shall review the appropriateness of the annual charge limitations provided for in this subsection and report to Congress concerning its recommendations thereon.".

SEC. 2. Section 30(c) of the Federal Power Act is amended by inserting ", the National Marine Fisheries Service," after "the Fish and Wildlife Service" in both places such term appears.

AMENDMENT NO 7099

(Purpose: To strike extraneous matter from the House amendment)

Mr. BAKER. Mr. President, I move that the Senate concur in the House amendment with a further Senate amendment which I send to the desk on behalf of Senator McCLURE.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Tennessee [Mr. BAKER] for Mr. McCLURE proposes an amendment numbered 7099.

Mr. BAKER. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Amendment to the House amendment in the nature of a substitute: Strike sec. 2 of the House amendment.

Mr. McCLURE. Mr. President, S. 1132 as passed by the Senate was intended to address a problem relating to the fees charged non-Federal parties for hydroelectric development at Federal dams. The Senate version of the bill provided a reasonable and predictable statutory formula for the Federal Regulatory Commission [FERC] fee in lieu of a rather complicated and costly alternative FERC was proposing during rulemaking. Since that time, FERC has finalized their rulemaking, and that decision is essentially reflected in the provisions of section 1 of the House amendment to the Senate bill. I strongly support the provisions of section 1 and commend FERC and the other body for their action in this regard. Enactment of this portion of the bill into law, while arguably unnecessary, in light of the FERC rule, does provide a degree of long-term predictability for hydroelectric developers. Because predictability and certainty were part of the original purpose of this legislation, and because section 1 essentially codified the final FERC rule, it is my understanding that enactment of this legislation would not require FERC to conduct a new rulemaking process. Indeed, to undertake such a new rulemaking would be counterproductive, unnecessary, time consuming and contrary to the congressional intent and purpose in enacting this measure. Should FERC find it desirable to fine tune its rule as a result of the act, it can do so by discrete and narrow modifications of its existing rule.

I would also like to clarify another matter which was specifically addressed by the Senate bill, but may be ambiguous in the House-passed amendment. While this measure limits and specifies the fee to be charged by FERC for the use of a Federal dam and prohibits any other Federal agency from making another charge for such use, it does not alter existing law as to the recovery of unreimbursed costs incurred by a Federal agency. As stated in the Senate Committee report (S. Rept. 98-363):

Although the Committee amendment does not use the term "unreimbursed costs" as contained in the original text, it retains the requirement that the licensee pay the costs incurred by any Federal agency for specific planning, design, operation, maintenance, inspection and administration resulting from the development and utilization of power at the Government dam by the licensee. This reflects current practice and the various memoranda of understanding between the Commission and the respective agencies. This is clarified in section 3 of the Committee amendment.

In addition, the Committee amendment clarifies that the licensee shall pay the original actual costs which remain outstanding and were incurred by a Federal agency in constructing facilities for the purpose of power production which are utilized by the licensee in the development of power at the Government dam. For example, if a licensee intends to use a penstock on a Federal dam which was installed at Federal expense, the licensee would be required to pay to the United States the original actual costs of the penstock which remain outstanding. The Committee amendment provides that such costs be paid by the licensee in accordance with existing law, where applicable, or by written contract for a period of not more than 40 years.

It is my understanding that the House amendment retains this intent.

Mr. President, it was my hope that the other body would have presented to the Senate a version of S. 1132 which was wholly acceptable. Unfortunately this is not the case. Section 2 of the House amendment attempts to resolve a matter regarding the authorities of the National Marine Fisheries Service [NMFS] which is currently the subject of litigation. The Senate Committee on Energy and Natural Resources has not addressed this issue and I believe it would be imprudent for the Senate to agree to resolve this matter, one way or the other, without any scrutiny. The matter may indeed be resolved by the courts as proposed by the House, however, I believe it would be unwise to prejudge or dictate that outcome at this time. I am therefore constrained to ask the Senate to return S. 1132 to the House without section 2.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from Tennessee.

The amendment (No. 7099) was agreed to.

The PRESIDING OFFICER. The question is on agreeing to the motion of the Senator from Tennessee.

The motion was agreed to.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AUTHORIZATION OF APPROPRIATIONS FOR OFFICE OF ENVIRONMENTAL QUALITY AND COUNCIL ON ENVIRONMENTAL QUALITY

Mr. BAKER. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on H.R. 4585.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the House agree to the amendment of the Senate to the bill (H.R. 4585) entitled "An Act to authorize appropriations for the Office of Environmental Quality and the Council on Environmental Quality for fiscal years 1985, 1986, 1987, and for other purposes", with the following amendments:

In lieu of the matter inserted by said amendment, insert:

That section 205 of the Environmental Quality Improvement Act of 1970 (42 U.S.C. 4374(c)) is amended by adding at the end thereof the following new paragraph:

"(d) $480,000 for each of the fiscal years ending September 30, 1985 and September 30, 1986.".

SEC. 2. The Environmental Quality Improvement Act of 1970 (42 U.S.C. 4371-4374) is further amended by adding at the end thereof the following new section:

"OFFICE MANAGEMENT FUND

"SEC. 206. (a) There is established an Office of Environmental Quality Management Fund (hereinafter referred to as the 'Fund') to receive advance payments from other agencies or accounts that may be used solely to finance—

"(1) study contracts that are jointly sponsored by the Office and one or more other Federal agencies; and

"(2) Federal interagency environmental projects (including task forces) in which the Office participates.

"(b) Any study contract or project that is to be financed under subsection (a) may be initiated only with the approval of the Director.

"(c) The Director shall promulgate regulations setting forth policies and procedures for operation of the Fund.".

SEC. 3. Section 2(1) of the Act entitled "An Act to establish the Tensas River National Wildlife Refuge", approved June 28, 1980 (19 U.S.C. 668dd note), is amended—

(1) by inserting "(A)" immediately after "includes"; and

(2) by inserting immediately before the period at the end thereof the following: "; and (B) any additional lands and waters, and interests therein, adjacent to the boundaries depicted on that map that are considered appropriate for inclusion in the refuge by the Secretary".

Amend the title so as to read; "An Act to authorize appropriations for the Office of Environmental Quality and the Council on Environmental Quality for fiscal year 1985 and 1986, and for other purposes.".

Mr. BAKER. Mr. President, I move that the Senate concur in the House amendments to the Senate amendment.

The motion was agreed to.

TRANSFER OF CERTAIN LAND IN NEVADA

Mr. BAKER. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 1160.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 1160) entitled "An Act to authorize Douglas County of the State of Nevada to transfer certain land to a private owner", do pass with the following amendment:

Page 2, after line 18, insert:

"Sec. 3. The Secretary of the Interior, in connection with Federal resource protection and the Federal administration of the use and occupancy of lands and waters within a water resource development project under his jurisdiction, is authorized to cooperate with the regulatory and law enforcement officials of any State or political subdivision thereof in the enforcement of the laws or ordinances of such State or political subdivision. Such cooperation may include the reimbursement of a State or its political subdivision for expenditures incurred in connection with such resource protection and administration. For purposes of complying with section 401 of the Congressional Budget Act of 1974, the authorization provided under this Section is subject to the availability of appropriations.

"Sec. 4. The Secretary of Energy, acting through the Alaska Power Administration, is authorized and directed to enter into an agreement with respect to the Eklutna Lake hydropower project in accordance with provisions of the Act of July 31, 1950, as amended (64 Stat. 382), the last sentence of the first paragraph of section 1 of which is amended to read as follows: 'The water of Eklutna Lake and its tributaries which are required for the operation of the Eklutna project are reserved for that purpose: *Provided,* That a portion of the waters so reserved may be diverted from Eklutna Lake for public water supply purposes, if compensation for reduced electric energy production due to such diversions is made as required by the February 1984 agreement between the Municipality of Anchorage and the Alaska Power Administration.

Mr. METZENBAUM. I understand that the February 1984 agreement between the Municipality of Anchorage and the Alaska Power Administration contains a section setting the compensation to be received by APA for permitting the diversion of a portion of the Eklutna Lake water supply. Am I correct that nothing in this agreement or this legislation shall adversely affect the ability of the APA to repay the Federal investment in the Eklutna Hydroelectric Project?

Mr. STEVENS. That is correct.

Mr. METZENBAUM. Am I also correct that if it is determined that the repayment of the Federal investment is adversely affected by this legislation or the agreement that said agreement is nullified?

Mr. STEVENS. That is correct.

Mr. METZENBAUM. I thank the Senator for his answers.

Mr. MURKOWSKI. Mr. President, I rise to express my strong support for the provision in S. 1160 which amends 64 Stat. 382 (1950), 48 U.S.C. 312, as amended. This provision will allow the Municipality of Anchorage and the Alaska Power Administration [APA] to enter into a cooperative agreement with respect to the reserved water rights of the federally authorized powerplant at Eklutna Lake near Anchorage, Alaska.

The Alaska Power Administration operates the powerplant at Eklutna Lake, and APA enjoys Federal reserved water rights for all water that may be feasibly appropriated from the lake. The Municipality of Anchorage wishes to secure a suitable source of potable water to provide for the needs of Anchorage residents. In order to supply this water, the municipality proposes to divert water from Eklutna Lake, and it is willing to compensate the APA with payment in kind for any lost generation capacity at the APA powerplant which may result from diversion for the drinking water project. In addition, the municipality will reimburse APA for the actual expenses of administering the agreement between the parties. While all parties have reached complete agreement in this matter, section 4 of S. 1160 grants the legislative authority which is needed to implement this agreement.

I wish to praise the spirit of cooperation and creativity evidenced by the agreement between the municipality of Anchorage and the APA. They recognized a potentially difficult problem and achieved a workable, equitable solution that involves no additional cost to the U.S. Treasury.

Mr. BAKER. Mr. President, I move that the Senate concur in the House amendment.

The motion was agreed to.

BILL PLACED ON THE CALENDAR—H.R. 5189

Mr. BAKER. Mr. President, I ask unanimous consent that the Committee on Finance be discharged from further consideration of H.R. 5189 and that that measure be placed on the calendar.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAKER. Mr. President, there are two matters that appear to be cleared on my calendar. They are Calendar Orders Nos. 1336 and 1339. If the minority leader can clear those, I would propose to do them en bloc.

Mr. BYRD. Mr. President, those two items have been cleared on this side.

Mr. BAKER. I thank the minority leader.

PEOPLE-TO-PEOPLE PROGRAM BETWEEN THE UNITED STATES AND MEXICO

The concurrent resolution (H. Con. Res. 196) calling upon the President to study the advisability and practicality of a collaborative people-to-people program between the United States and Mexico, was considered, and agreed to.

The preamble was agreed to.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the concurrent resolution was agreed to.

Mr. BYRD. I move to lay that motion on the table.

RELIEF OF SHU-AH-WEI AND HER FAMILY

The bill (H.R. 4401) for the relief of Shu-Ah-Wei, her husband Yen Wei, and their sons, Teh-fu Wei and Teh huei Wei, was considered, ordered to a third reading, read the third time, and passed.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BYRD. I move to lay that motion on the table.

RESOLUTION PLACED ON THE CALENDAR—S. RES. 477

Mr. BYRD. Mr. President, I send to the desk a Senate resolution numbered 477. I ask unanimous consent that it be placed on the calendar.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. McCLURE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. McCLURE. Mr. President, I ask unanimous consent that the order for the quorum call be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUMMARY OF GENERAL ADVISORY COMMITTEE ON ARMS CONTROL AND DISARMAMENT FINDINGS

Mr. McCLURE. Mr. President, as Members know, some time ago the Senate adopted a resolution, and Congress adopted the position that the administration should submit to the Congress a summary of the General Advisory Committee on Arms Control and Disarmament findings.

Such a summary report has been sent to the Congress. I ask unanimous consent that that summary, together with the cover letter, be printed in the RECORD at this point.

There being no objection, the letter and the summary were ordered to be printed in the RECORD, as follows:

THE WHITE HOUSE,
Washington.

Hon. THOMAS P. O'NEILL, Jr.,
Speaker of the House of Representatives,
Washington, DC.

DEAR MR. SPEAKER: When I forwarded a report from my Administration to the Congress on Soviet Noncompliance with Arms Control Agreements on January 23, 1984, I said, "If the concept of arms control is to have meaning and credibility as a contribution to global or regional stability, it is essential that all parties to agreements comply with them." I continue to believe that compliance with arms control agreements is fundamental to the arms control process.

Congressional amendments to the FY 1985 Defense Authorization Bill calling for Administration reports on compliance issues, as well as for the transmittal of classified and unclassified versions of the report, "A Quarter Century of Soviet Compliance Practices Under Arms Control Committees: 1958-1983" prepared by the bipartisan General Advisory Committee on Arms Control and Disarmament, demonstrate the priority that Congress places on compliance.

In response to the Congressional requirement, an unclassified version of the General Advisory Committee's report, a summation prepared by the Committee, is provided herewith. Because the Committee's full report contains extensive classified intelligence information, the classified version is being transmitted to the two Select Committees of the Congress on Intelligence.

The General Advisory Committee's report to me resulted from a year-long analysis, by this bipartisan independent body, of Soviet practices with regard to arms control treaties, other agreements, unilateral political commitments, and statements of policy. Neither the methodology of analysis nor the conclusions reached in this report have been formally reviewed or approved by any agencies of the U.S. Government. The report reflects the General Advisory Committee's attempts to assemble as complete as possible an historical record of Soviet behavior and to identify long-term patterns of Soviet compliance practices.

For its part, the Administration continues to be seriously concerned about Soviet behavior with regard to compliance with arms control obligations and commitments. We are actively pursuing several such issues in confidential discussions with the Soviet Union and are seeking explanations, clarifications, and corrective actions. Issues of concern continue to be intensively studied by appropriate agencies, and I intend to keep the Congress informed on this important matter in the future.

Increased understanding of compliance issues and a solid Congressional consensus on the importance of compliance to achieving effective arms control will strengthen our efforts to negotiate equitable and verifiable agreements and will assist as we seek the resolution of important unresolved compliance issues. I look forward to continued close consultation with the Congress as we seek to make progress in resolving compliance issues relating to existing arms control agreements and in negotiating sound arms control agreements.

Sincerely,

———.

A QUARTER CENTURY OF SOVIET COMPLIANCE PRACTICES UNDER ARMS CONTROL COMMITMENTS, 1958-83

SUMMARY, OCTOBER 1984

The General Advisory Committee on Arms Control and Disarmament (GAC) is a Presidential advisory committee established by the Arms Control and Disarmament Act of 1961. The members are private citizens appointed by the President with the advice and consent of the Senate. Its duties are to advise the President, the Secretary of State, and the Director of the Arms Control and Disarmament Agency on matters affecting arms control and disarmament and world peace. The current General Advisory Committee is bipartisan, and its members have been drawn from the scientific, academic, business, and national security communities. A number of its members have held high government positions in previous administrations. The General Advisory Committee provides advice and analysis that is independent from the bureaucratic process, with a point of view not tied to any particular institution.

Introduction

In response to President Reagan's request and in accord with its statutory mandate,[1] the President's General Advisory Committee on Arms Control and Disarmament has conducted an independent, comprehensive, one-year study of the long-term pattern of Soviet performance pertaining to arms control obligations arising from agreements and Soviet unilateral commitments. The classified report of that study, entitled "A Quarter Century of Soviet Compliance Practices Under Arms Control Commitments: 1958-1983," was submitted to the President on December 2, 1983, with the Committee's unanimous endorsement, and has since been presented to senior administration officials and briefed to congressional committees and members upon their request. In accordance with Congressional Amendments to the Fiscal Year 1985 Defense Authorization Bill and in response to instruction from the White House, the General Advisory Committee has prepared this unclassified summary for transmittal to the Congress.

Using all available data concerning Soviet actions pertinent to such obligations, the Committee has determined that the Soviet Union's practices related to about half of its documentary arms control commitments have raised no questions regarding compliance. Soviet practices related to the other half, however, show material breaches—violations, probable violations, or circumventions—of contractual obligations.

Many of the compliance issues considered in the report have been reviewed by the U.S. Government, raised by the U.S. in the U.S.-Soviet Standing Consultative Commission, or brought to Soviet attention through diplomatic channels. The prevailing practice has been to consider each instance as an isolated event. The General Advisory Committee report is the first comprehensive U.S. study of all Soviet practices under arms control obligations since World War II and explores the cumulative pattern of pertinent Soviet conduct. Such a study, based on wide access to official information, has never before been done within the U.S. Government.

Twenty-six documentary agreements were examined, along with numerous unilateral Soviet commitments. The sources of information included previous U.S. Government studies and documents, Soviet statements, and briefings by a wide range of U.S. Government officials and non-government experts. While the Committee is grateful for assistance from many quarters, the Committee acknowledges full responsibility for the content of its report and this summary.

The report used a conceptual framework based upon the norms of international law.[2]

[1] As specified in Section 26 of the Arms Control and Disarmament Act of 1961 as amended. A list of members is attached.

[2] The Committee used the 1969 Vienna Convention on the Law of Treaties and decisions of the International Court of Justice as the principal legal bases for analyzing Soviet compliance behavior. (The United States is a signatory of the Vienna Convention; the Soviet Union is not. Neither nation has ratified it, but the Vienna Convention is regarded by both the U.S. and the Soviet Union as a codification of customary international law on treaty obligations, applicable to parties and non-parties alike.)

According to these norms, treaty violations, circumventions which defeat the object and purpose of the treaty, and breaches of authoritative unilateral commitments all constitute material breaches and justify appropriate corrective measures. All types of material breaches are considered in the report, and the distinctions among them are noted.

The Committee has found that in most cases of alleged Soviet violations, the Soviets readily could have shown that the allegations were false—if they had been false. The Soviets have repeatedly failed to do, even though diplomatic and other channels have been used by the U.S. in seeking to clarify possible misconceptions.

Past analyses (other than the President's report to the Congress of January 23, 1984) have tended to invoke standards of proof applicable only when powers to collect and to inspect evidence, to subpoena witnesses, to take testimony under oath, to prosecute for perjury, etc., are available as legal tools.

The General Advisory Committee's report distinguishes between instances for which the evidence supports high confidence that material Soviet breaches have occurred, and those cases for which the evidence gives substantial reason for suspicion but is short of being conclusive.

Categories used in the report are:

Areas of Apparent Soviet Compliance as determined within the limitations of U.S. verfication capabiiities.

Material Breaches ranging from highly probable to certain, including: violations of an international obligation involving conduct contrary to a treaty or other binding international agreement; breaches of authoritative unilateral commitments, whether written or oral, as well as unilateral commitments reciprocally negotiated; and circumventions, or practices incompatible with the essential objects or purposes of agreements though not in explicit violation of their terms.

Suspicious Events indicative of possible material breaches.

Breaches of the Duty of Good Faith incumbent upon all nation states.

The following summarizes areas of apparent Soviet compliance:

Areas of apparent Soviet compliance

Accident avoidance

Direct Communications Link/Hot Line Agreement of 1963, amended 1971.

USSR-US Accidents Agreement of 1971 (one violation, judged to be inadvertent).

USSR-United Kingdom Accidents Agreement of 1973.

USSR-France Accidents Agreement of 1976.

Nonproliferation

Nonproliferation Treaty of 1968.

Guidelines for Nuclear Transfers, IAEA INFCIRC/209 of 1974.

Guidelines for Nuclear Transfers, IAEA INFCIRC/254 of 1978.

Protocol II of the Treaty of Tlatelolco (Latin American Nuclear Free Zone), USSR Ratification of 1979.

Convention on the Physical Protection of Nuclear Material, USSR Ratification 1983.

Other

Antarctic Treaty of 1959.

Outer Space Treaty of 1967.

Seabed Treaty of 1971.

Convention on Environmental Modification of 1977.

The following summarizes specific instances of probable to certain Soviet noncompliance, as determined by the Committee's study:

SOVIET VIOLATIONS, BREACHES OF UNILATERAL COMMITMENTS, AND CIRCUMVENTIONS DEFEATING THE OBJECT OR PURPOSE OF ARMS CONTROL AGREEMENTS: HIGH CONFIDENCE IN RELIABILITY OF DATA INTERPRETATION

A. Non-SALT Matters:

1. Nuclear Test Moratorium: breach of unilateral commitment to suspend all nuclear testing—by resuming and continuing atmospheric nuclear testing, 1961-1962.

In September 1961, the Soviet Union breached its unilateral commitment to the nuclear test moratorium upon giving three days of notice and while conducting related treaty negotiations with the U.S. This breach resulted in the Soviet Union testing a total explosive yield of more than 300 megatons in the ensuing 13 months.

2. Offensive Weapons in Cuba: breach of unilateral commitment not to send offensive weapons to Cuba—by the covert shipment and deployment of offensive weapons, 1962.

The Cuban missile crisis was caused by the breach of the Soviets' unilateral commitment not to send offensive weapons to Cuba, 1962.

3. Limited Test Ban Treaty of 1963: numerous violations of the prohibition on conducting nuclear tests that cause extraterritorial venting of radioactive debris—by testing nuclear devices that vent radioactive debris beyond the borders of the Soviet Union, 1965 to present.

The Limited Test Ban Treaty not only prohibits testing of nuclear weapons under water, in the atmosphere, and in space, but also bans the venting of underground explosions that cause radioactive debris to cross national boundaries. Since 1965, the Soviet Union has repeatedly allowed such radioactivity to vent in connection with many of its nuclear weapon tests. U.S. experience has shown that care can prevent such venting, and that Soviet violations of this treaty could reasonably have been prevented.

4. Offsensive Weapons in Cuba: breach of unilateral commitments of 1962 and 1970 not to place offensive weapons in Cuba—by deploying and tending Soviet nuclear missile-carrying submarines in Cuban territorial waters, 1970-74.

After the termination of the Cuban missile crisis, the record shows the Soviets did commit themselves not to base offensive weapons in Cuba if the U.S. refrained from invading Cuba. Soviet tending and operation of nuclear weapons submarines in Cuban territorial waters from 1970 to 1974 breached this unilateral commitment.

5. Biological Weapons Convention of 1972: violations of provisions requiring the destruction or diversion to peaceful purposes of all biological agents, toxins, weapons, equipment, and means of delivery—by the retention of facilities, continued biological munitions production, storage, transfer, and use, 1972 to present.

The Soviets' biological weapons program continued during the negotiating, signing, ratification, and entry into force of this treaty.

6. Geneva Protocol of 1925: circumventions defeating the object and purpose of treaty provisions (a) by the transfer of chemical weapons and toxin weapons to their Vietnamese clients with subsequent use in Southeast Asia, 1975-1982; and (b) by Soviet use of lethal agents in Afghanistan, 1980-1982.

The Soviet reservations relative to the ratification of the Geneva Protocol of 1925, claiming exemption for first use against protocol Non-parties, might be put forward to explain the Soviet use of chemical and toxin weapons in Afghanistan, Laos, and Kampuchea. Such circumventions nevertheless defeat the object and purpose of banning first use of lethal chemical or toxin weapons. The Soviets have not asserted this or other legal defense of their actions, but rather they have denied the facts of the matter, falsely claiming no such use.

7. Montreux Convention of 1936: violations of the prohibition on the transit of aircraft carriers through the Turkish Straits—by the recurring transit of Soviet KIEV-class aircraft carriers, 1976 to present.

The Soviets additionally have under construction at their Black Sea shipyards an even larger aircraft carrier that will also violate the Montreaux Convention upon passage to the open seas.

8. Helsinki Final Act of 1975; violations of the commitment to notify Final Act Parties and provide specified data 21 days before conducting exercises of more than 25,000 troops—by undertaking major military troop maneuvers without providing specified information concerning the maneuvers, March and September 1981, and June 1983.

9. Conventional Weapons Convention of 1981: violations of customary international law—by failing to observe the Treaty between signing and ratification—by the use of booby-trap mines and incendiary weapons against civilians in Afghanistan, 1981-1982.

10. The March 16, 1982, Brezhnev-declared Moratorium (further clarified in May 1982) on the completion of SS-20 ballistic missile launchers in the European part of the U.S.S.R.: breach of unilateral commitment—by the continued construction of SS-20 bases and facilities in the European part of the Soviet Union, March 1982 to November 1983.

On March 16, 1982, President Brezhnev committed the Soviet Union to a moratorium on the completion of SS-20 launch facilities in the European part of the Soviet Union. In May 1982, President Brezhnev specified "an end to the construction of launching positions" as a part of the moratorium. The continued construction and completion of SS-20 sites in 1982 and 1983 violated that unilateral commitment.

B. SALT Matters

1. The SALT I Interim Agreement on Offensive Arms, 1972: circumvention defeating the stated U.S. object and purpose of limiting the throwweight of Soviet ICBMs and breach of the 1972 Principles Agreement—by the deployment of the large throwweight SS-19 and SS-17 ICBMs, 1972 to present.

The SALT I Interim Agreement prohibits the conversion of launchers for light ICBMs into launchers for heavy ICBMs. The intent of this provision was to limit the growth of ICBM throwweight and its resultant potential counterforce capability. The Soviet coversion of launchers for the light SS-11 into launchers for the SS-17 and SS-19 ICBMs circumvents this provision, thereby defeating an essential stated U.S. object and purpose in entering into agreement. This action widened the disparity between Soviet and U.S. strategic missile throwweight and increased significantly the threat to U.S. ICBMs.

2. The SALT I Interim Agreement on Offensive Arms, 1972, Article V(3); ABM Treaty of 1973, Article XII(3); SALT II Treaty of 1979, Article XV(3): violation of the provisions not to use deliberate concealment measures which impede verification of compliance by national tenchnical means—by numerous deliberate concealment activities that impede verification of SALT Agreements, 1972 to present.

The SALT I agreements and the exchange of commitments made concerning SALT II bind the U.S. and the Soviet Union not to use deliberate concealment measures which impede verification, by national technical means, of compliance with provisions of these agreements. However, during the decade of the 1970s, there has been a substantial increase in Soviet arms control-related concealment activities. An example of Soviet concealment activities that clearly impede U.S. verification efforts is the encryption of the SS-X-25 missile telemetry, which impedes the U.S. ability to determine the characteristics of this missile, including characteristics controlled by SALT II. (This issue is further discussed below.) A second example of prohibited deliberate Soviet concealment activity is connected with the probable continued deployment of the SS-16 ICBM at Plesetsk. The present Soviet concealment activities constitute a continuing violation of binding commitments.

3. The ABM Treaty of 1972: violation of the prohibition on the development and deployment of the non-permanently fixed ABM radar [Article V(1) Common Understanding C]—by the development and deployment of such a radar on the Kamchatka Penninsula in 1975, and by continuing developmental activities between 1975 and the present.

The ABM Treaty prohibits the development testing and deployment of mobile ABM components. During the negotiations the U.S. and the Soviet delegations agreed (on January 29, 1972 and April 13, 1972 respectively) that this provision would rule out deployment of ABM launchers and radars which "were not permanent fixed types." This agreement constitutes a binding interpretation of the treaty.

4. SALT I Interim Agreement of 1972, Protocol: violations of the numerical launcher limits—by the deployment of DELTA submarines exceeding the limit of 740 launch tubes on modern ballistic missile submarines without dismantling sufficient older ICBM or SLBM launchers, March 1976 to October 1977.

The SALT I Interim Agreement required the Soviets to dismantle ICBM launchers to compensate for modern SLBM launchers in excess of 740. Following the sea trials of new DELTA-class submarines in 1976 and 1977, the Soviets did not dismantle a sufficient number of launchers to compensate for deployments of their new submarine ballistic missile launchers. Upon U.S. inquiry, the Soviets admitted this excess, but failed to accelerate their dismantling activities.

The Committee has reviewed the data relative to this matter, and has concluded that the violation was probably not inadvertent, but rather was part of a deliberate Soviet effort to challenge U.S. arms control verification capabilities.

5. SALT II Treaty of 1979: probable violations of the provision banning the production, testing, and deployment of the SS-16 mobile ICBM—by the probable continued deployment of SS-16 ICBMs at Plesetsk, and by falsifying the SALT II data base identifying specific systems and their numbers covered by the Treaty, 1979 to present.

The SALT II Treaty prohibits the deployment of the SS-16 ICBM (Soviet designation—RS-14). Deliberate Soviet concealment which impedes verification of compliance by U.S. national technical means has been associated with the probable SS-16 deployment. Nevertheless, the SS-16 apparently has been maintained at Plesetsk since the signing of the Treaty, in violation of Soviet commitments relative to that treaty. The probable existence of the SS-16 at Plesetsk also shows that the Soviets deliberately falsified the SALT II data base concerning the number of ICBM launchers. This data base was to be corrected semi-annually; however, the Soviets have not corrected it.

6. SALT II Treaty of 1979: probable violation of Article IV (9) which limits each side to one new type ICBM—by the testing of a second new type ICBM, February 1983 to present; violation of the anti-MIRV provision of Article IV(10)—by testing a lighter warhead than the Treaty allows; and violation by the deliberate concealment (encryption) of data, contrary to Article XV(3), May 1983 to present.

SALT II allows each party to develop only one new type of ICBM. Since the Soviets have designated the SS-X-24 as that one new type, the SS-X-25, which appears to be another new type of ICBM, violates the Treaty. The Soviets, however, claim that this missile is a modification of the SS-13, an ICBM developed in the mid-60s. While common sense judgment would hold a 1980's high technology missile to be new, the extensive encryption of the flight telemetry impedes U.S. understanding of the missile. U.S. analyses, however, indicate that it is very likely that the missile fits the Treaty definition of a new type of ICBM.

7. The SALT I ABM Treaty of 1972: violation of Article VI(b) limiting the location and orientation of radar deployment—by the construction of a large, phased array radar not located on the periphery of the Soviet Union and not oriented outward, 1981 to present.

The ABM Treaty restricts the deployment of early warning radars to sites on the periphery of the national territory; such radars must also be oriented outward. The construction and orientation of such a radar near the city of Krasnoyarsk, an interior site, violate this provision. The design of the facility is substantially identical to another radar declared by the Soviets to be an early warning radar. The Soviets, however, have stated that the Krasnoyarsk radar is a "space tracking" radar. All early warning radars can also perform limited "space tracking" functions, and while this radar is no exception, its location and geometry are inappropriate for a dedicated space tracking radar.

Suspicious Soviet activities related to arms control commitments

The Committee also reviewed fifteen areas of Soviet activity that raise suspicion of further material breaches of arms control agreements. In these cases the data neither confirm that a material breach has occurred nor eliminate suspicion concerning non-compliance. Most of these suspicious activities have been connected with Soviet offensive forces and may indicate the existence of either an offensive force structure in excess of that allowed by various agreements, or offensive weapons with greater capability than allowed by agreements. In addition, several events are indicative of further violations or circumventions of the ABM Treaty, and a review of Soviet testing of nuclear explosives strongly suggests that the Soviets may have repeatedly violated the Threshold Test Ban Treaty. Moreover, other Soviet activities may relate to obligations under the provisions of one or more accords addressing non-interference with national technical means of verification or compliance. Each of these activities may indicate Soviet plans and efforts to develop further military capabilities of considerable significance.

Breaches of the duty of good faith

Customary international law, as codified by the Vienna Convention of the Law of Treaties and by decisions of the International Court of Justice, obligates nations to act in good faith in their dealings with other nations. The Committee reviewed a number of Soviet actions which, while not material breaches of binding agreements, were breaches of that duty of good faith. Some Soviet actions in this category have been misrepresentations made during arms control negotiations or after binding agreements came into effect. An example of such misrepresentation concerns the erroneous data provided by Soviet negotiators at the Mutual Balanced Force Reduction negotiations in Vienna concerning Warsaw Pact troop numbers. This material misrepresentation has been a major barrier in these negotiations.

The Soviets have also disregarded all six unilateral declarations made by the U.S. in SALT I to clarify constraints upon Soviet forces under that agreement. While unilateral declarations do not bind the other party, Soviet unwillingness either to concur promptly or to take exception to such U.S. statements constitutes a breach of the duty of good faith in negotiations.

Further, the Soviets have demonstrated a lack of good faith by their largely non-responsive posture concerning compliance concerns brought to their attention by the U.S. Government over a span of nearly twc decades.

Patterns in Soviet compliance practices

The Soviet Union's actions since 1958 concerning arms control agreements demonstrate a pattern of pursuing military advantage through selective disregard for its international arms control duties and commitments.

The Committee found recurring instances of Soviet conduct involving deliberate deception, misdirection, and falsification of data during negotiations. In addition to the military value accruing to the Soviets from individual violations, the overall pattern of Soviet practices could have several possible motivations:

(1) The Soviets may be indifferent to U.S. objections and response to their non-compliance with arms control treaties.

(2) The Soviets may be attempting to weigh the effectiveness of U.S. verification capabilities.

(3) The Soviets may be testing U.S. willingness to reach definitive conclusions concerning Soviet arms control compliance.

(4) The Soviets may be testing U.S. and international resolve and responses to their arms control behavior.

(5) These activities, as well as the other concealment activities, may be intended to raise the level of U.S. confusion in order to hide more serious activities, such as development and deployment of a ballistic missile defense system.

Soviet denial activities significantly increased over the last quarter century and today are challenging U.S. verification capabilities despite improvements in U.S. verification technology. Deliberate Soviet efforts to counter U.S. national technical means of verification strongly indicate a Soviet intention to persevere in circumventing and violating agreements.

U.S. verification capabilities have not deterred the Soviets from violating arms control commitments. Furthermore, the near

total reliance on secret diplomacy in seeking to restore Soviet compliance has been largely ineffective. The U.S. record of raising its concerns about Soviet non-compliance exclusively in the Standing Consultative Commission and through various high level diplomatic demarches demonstrates the ineffectiveness of this process. In contrast, the international participation in verifying the use of chemical and toxin weapons and the disclosure to the public of such use may have contributed to limiting the extent of these prohibited Soviet activities.

The United States has never had a long-range, comprehensive strategy to deter and if necessary initiate measures to offset Soviet arms control non-compliance. Development of a U.S. arms control policy that anticipates Soviet behavior in light of the historical compliance record was beyond the scope of the Committee's review. Nevertheless, the development of means to safeguard the U.S. against Soviet non-compliance is essential if the arms control process is to avoid being further undermined, if it is to have favorable long-term prospects, if it is to build trust among nations, and if it is to contribute to U.S. national security and the cause of peace.

U.S. efforts to obtain Soviet compliance have been most effective when reliable information about compliance has been presented to the American people and to the world. The strength of America's democracy lies in an informed citizenry. Fundamental to this nation's effort to negotiate equitable and verifiable arms control agreements is an American public informed on the critical issue of arms control compliance.

GENERAL ADVISORY COMMITTEE ON ARMS CONTROL AND DISARMAMENT

MEMBERS

Chairman, William R. Graham of California. A founder and Senior Associate, R&D Associates, Marina del Rey, California. Served as a consultant to the Office of the Secretary of Defense and the National Research Council in 1968-1981.

Colin Spencer Gray. President of the National Institute for Public Policy in Virginia. Formerly the Director of National Security Studies at the Hudson Institute in New York.

Roland F. Herbst, has been with R&D Associates, Marina del Rey, California since 1971. Formerly Deputy Director, Defense Research and Engineering (Space and Strategic Systems), Office of the Secretary of Defense, 1969-1971.

Francis P. Hoeber. President of Hoeber Corp., Arlington, Virginia since 1974. Formerly with the Rand Corporation (1968-1974) and the Stanford Research Institute (1960-1968).

Robert B. Hotz. Senior Editorial Consultant, McGraw-Hill Publications. He is also an author and lecturer. Formerly editor-in-chief and publisher of Aviation Week and Space Technology magazine.

Eli S. Jacobs, a private businessman in Los Angeles, California.

Charles Burton Marshall. Resident consultant, System Planning Corporation, Arlington, Virginia. Formerly staff consultant to House Committee on Foreign Affairs, member of State Department Policy Planning staff, Professor of International Politics at Johns Hopkins School of Advanced International Studies, Washington, D.C.

Jaime Oaxaca. President, Wilcox Electric, Incorporated, Kansas City, Missouri.

John P. Roche. Academic Dean and Professor of Civilization and Foreign Affairs, Fletcher School of Law and Diplomacy, Tufts University, Medford, Massachusetts. Formerly consultant to the Vice President and the Department of State (1964-1966), and Special Consultant to the President (1966-1968).

Donald Rumsfeld. President and Chief Executive Officer, G.D. Searle and Company, Skokie, Illinois. Formerly Secretary of Defense (1975-1976), U.S. Permanent Representative to NATO (1973-1974), member of U.S. Congress (1963-1969).

Harriet Fast Scott. Author and lecturer. She serves as a consultant on Soviet military and political-military affairs to various research institutions and government organizations. Formerly with Stanford Research Institute.

Laurence Hirsch Silberman. Partner, Morrison and Foerster, Washington, D.C. Also a visiting fellow of the American Enterprise Institute and member of the Council on Foreign Relations. Formerly Ambassador to Yugoslavia 1974-1977. Deputy Attorney General of the United States 1974-1975, Under Secretary of Labor, 1970-1973.

Mr. McCLURE. Mr. President, this General Advisory Committee report is not an administration finding of Soviet treaty violations. It is a report by the General Advisory Committee, and the report of the General Advisory Committee. Its principal conclusion is that the Soviet Union violated half of its arms control obligations. I want to stress that is not an administration finding. That is a finding by the General Advisory Committee.

I also want to stress the fact that people ought to take very careful note of what that report has said—both in what it does say and as well as what it does not say. People should be advised to study the report carefully with respect not to whether or not we should have agreements with the Soviet Union, but to analyze it in the light of what it means to the security of this country.

Some violations may be very trivial. Others may be very serious. I do not think we should draw any hasty conclusions based upon this report but it should provide us with the opportunity which I have long sought—that the American people can know what our administration knows about Soviet treaty compliance behavior. Knowing that, we should then be able to ask the public for the kind of support for policies that will guarantee the security of this country and make it possible for us to continue the process of negotiation for arms agreements with the Soviet Union.

Mr. President, I think there was a short delay in submitting this report, but I think the administration has now complied with the requirements of the law which Congress earlier passed asking, and demanding, that the American people be given this information. I am very pleased to have this report available to us. I am glad that it was released and sent to us before the end of this session as indeed the law required. I commend the President for having done so in spite of the fact that there were those within the administration, advisers to the administration, who urged that we somehow delay that action until after the election.

Again, Mr. President, this was required by statute passed by the Congress. The President in submitting the report is complying with the law of the United States passed by the Congress and signed by the President. I commend the President for following that law.

Mr. BAKER. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BAKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The majority leader.

STATUS OF ALIENS EMPLOYED BY AMERICAN UNIVERSITY OF BEIRUT

Mr. BAKER. Mr. President, I am told that H.R. 5728, which is at the desk, has been cleared.

I ask unanimous consent that the Senate proceed to the consideration of that measure.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (H.R. 5728) to permit aliens lawfully admitted for permanent residence who are employed by the American University of Beirut to return to the United States as special emigrants after completion of such employment.

The PRESIDING OFFICER. Without objection, the bill will be considered as having been read the first and second time, and the Senate will proceed to the immediate consideration of H.R. 5728.

The Senate proceeded to consider the bill.

The PRESIDING OFFICER. The bill is open to amendment. If there be no amendment to be proposed, the question is on the third reading of the bill.

The bill (H.R. 5728) was read the third time, and passed.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

PROGRAM

Mr. BAKER. Mr. President, on tomorrow, the Senate will convene at 9:30 a.m.

After the recognition of the two leaders under the standing order, there will be special orders in favor of two Senators, to be followed by a period for the transaction of routine morning business until 10:30 a.m.

At 10:30 a.m., the Senate will resume consideration of the pending business, which is the debt limit resolution.

It is anticipated that during the morning tomorrow, the Senate will be asked to return to executive session for the purpose of conducting the vote on the genocide resolution which was pending at the time the Senate returned to legislative session today.

Tomorrow, the Senate expects to receive the continuing resolution from the House of Representatives, to act on the debt limit, to act on any conference reports that are available, and to adjourn sine die.

RECESS UNTIL TOMORROW AT 9:30 A.M.

Mr. BAKER. Mr. President, I know of no other business that we can transact tonight. We will be in tomorrow, to the extraordinary regret of many Members, including the two leaders who are standing here. But that is necessary.

Mr. President, if no other Senator seeks recognition, and I see none, I move, in accordance with the order previously entered, that the Senate stand in recess until the hour of 9:30 a.m. tomorrow.

The motion was agreed to; and the Senate, at 8:50 p.m., recessed until Thursday, October 11, 1984, at 9:30 a.m.

NOMINATIONS

Executive nominations received by the Senate October 10, 1984:

U.S. SYNTHETIC FUELS CORPORATION

Tom Corcoran, of Illinois, to be a member of the Board of Directors of the U.S. Synthetic Fuels Corporation for the term expiring August 16, 1990, vice Milton M. Masson, Jr.

Paul Webster MacAvoy, of New York, to be a member of the Board of Directors of the U.S. Synthetic Fuels Corporation for the term expiring September 14, 1991, vice Robert A. G. Monks, resigned.

DEPARTMENT OF TRANSPORTATION

Richard H. Jones, of Virginia, to be Deputy Administrator of the Federal Aviation Administration, vice Michael J. Fenello, resigned.

HOUSE OF REPRESENTATIVES—*Wednesday, October 10, 1984*

The House met at 12 o'clock noon.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

Your blessing, gracious God, has given sustenance to people from the beginning of time. From days of the prophets to our day, Your spirit has meant strength and courage and confidence in good times and bad. We pray this day, that Your good blessing will be with all those who serve this assembly. The Members and staff, their families and those they love. Guard them against danger or trouble, protect them from harm or illness, and give them the satisfaction that all efforts for justice can mean blessings for them and our Nation. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate has passed without amendment bills of the House of the following titles:

H.R. 1870. An act to require the Secretary of the Treasury to coin and sell a national medal in honor of the members and former members of the Armed Forces of the United States who served in the Vietnam conflict;

H.R. 3971. An act to provide that any Osage headright or restricted real estate or funds which is part of the estate of a deceased Osage Indian who did not possess a certificate of competency at the time of death shall be exempt from any estate or inheritance tax imposed by the State of Oklahoma; and

H.R. 6303. An act to make certain technical corrections in various acts relating to the Osage Tribe of Indians of Oklahoma.

The message also announced that the Senate agrees to the report of committee of conference on the disagreeing votes of the two Houses on the amendment of the House to the amendments of the Senate to the bill (H.R. 3398) "An act to change the tariff treatment with respect to certain articles, and for other purposes."

The message also announced that the Senate agrees to the amendment of the House with an amendment to a bill of the Senate of the following title:

S. 1052. An act to make certain changes in the membership and operations of the Advisory Commission on Intergovernmental Relations.

The message also announced that the Senate had passed with an amendment in which the concurrence of the House is requested, a concurrent resolution of the House of the following title:

H. Con. Res. 372. Concurrent resolution to correct the enrollment of H.R. 3398.

The message also announced that Mr. GARN, Mr. TOWER, and Mr. PROXMIRE have been appointed conferees, on the part of the Senate, on the bill (H.R. 5504) "An act to apportion funds for construction of the National System of Interstate and Defense Highways for fiscal years 1985 and 1986, to revise authorizations for mass transportation, to expand and improve the relocation assistance program, and for other purposes."

DISPENSING WITH CALENDAR WEDNESDAY BUSINESS TODAY

Mr. WRIGHT. Mr. Speaker, I ask unanimous consent that the business in order on October 10, 1984, under clause 7, rule XXIV, the Calendar Wednesday rule, be dispensed with.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

There was no objection.

APPOINTMENT OF CONFEREES ON H.R. 6027, LOCAL GOVERNMENT ANTITRUST ACT OF 1984

Mr. EDWARDS of California. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 6027) to clarify the application of the Clayton Act to the official conduct of local governments, and for other purposes, with a Senate amendment thereto, disagree to the Senate amendment, and agree to the conference asked by the Senate.

The SPEAKER. Is there objection to the request of the gentleman from California? The Chair hears none, and appoints the following conferees: Messrs. RODINO, BROOKS, EDWARDS of California, SEIBERLING, HUGHES, SYNAR, CROCKETT, SCHUMER, FEIGHAN, FISH, MOORHEAD, HYDE, SAWYER, and LUNGREN.

APPOINTMENT OF CONFEREES ON H.R. 5504, SURFACE TRANSPORTATION AND UNIFORM RELOCATION ASSISTANCE ACT OF 1984

Mr. ANDERSON. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 5504) to apportion funds for construction of the National System of Interstate and Defense Highways for fiscal years 1985 and 1986, to revise authorizations for mass transportation, to expand and improve the relocation assistance program, and for other purposes, with Senate amendments thereto, disagree to the Senate amendments, and agree to conference asked by the Senate.

The SPEAKER. Is there objection to the request of the gentleman from California? The Chair hears none, and appoints the following conferees: Messrs. ANDERSON, ROE, BREAUX, MINETA, LEVITAS, OBERSTAR, SNYDER, HAMMERSCHMIDT, SHUSTER, and STANGELAND.

CHRISTOPHER SHERMAN ENEY

(Mr. HOYER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HOYER. Mr. Speaker, on Friday, August 24, 1984, Sgt. Christopher Sherman Eney of west Hyattsville, MD, became the first officer in the history of the U.S. Capitol Police to be killed in the line of duty.

Christopher Eney was not only a devoted family man to his wife, Vivian Aileen and their two daughters, Shannon and Heather, but he was an exemplary citizen of Prince Georges County and a valued member of the Capitol Police Department.

He was a 1965 graduate of Northwood High School in Silver Spring, MD, and attended the University of Maryland. Following his honorable discharge from the U.S. Army, Christopher joined the Capitol Police and by 1980 had been promoted to the rank of sergeant.

He served with distinction during his career with the Capitol Police, and developed into an accomplished specialist of investigative and operational tactics. One of his most significant contributions to this department was his service as a charter member of the select hostage rescue team.

Mr. SPEAKER, Christopher Eney will be sorely missed by the two communities that he benefited by the quality of his character, his family

and friends in Prince Georges County, and his many colleagues on Capitol Hill.

THANK YOU, RONALD REAGAN

(Mr. DREIER of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DREIER of California. Mr. Speaker, we've all been told that "When E.F. Hutton talks, people listen." Well, I hope my friends on the Democratic side of the aisle are all ears this morning.

E.F. Hutton recently issued an economic report that recalls the nightmarish stagflation of the Carter-Mondale years, and sketches a promising portrait of what 4 more years of the President's economic program will bring. I can't wait to hear the Democrats rationalize this one. Let me read from Hutton's September 28 report:

> If one curve captures the disillusioning economic experience of the 1970's and hints at the promise of the latter 1980's, it is the depiction of the tradeoff between unemployment and inflation—the elusive Phillips curve.
>
> The decade of the 1970's was a period of dismal outward shifts for this tradeoff, as ever higher inflation persevered along with rising levels of unemployment. We constantly ratcheted up the unemployment flash point for accelerating inflation. Moreover, we came to expect disinflation only as a product of worsening recessions. Once expansion commenced, inflation stabilized and soon began accelerating as the flash point was reached.
>
> What we are now witnessing is something dramatically different, as for the first time in decades, the Phillips curve is shifting inward, reflecting the prospects for both lower unemployment and lower inflation. That is good news, pure, and unadulterated.

To paraphrase another Wall Street ad slogan, "Thank you, Ronald Reagan."

A CASE OF SELECTIVE POLITICAL AMNESIA

(Mr. WRIGHT asked and was given permission to address the House for 1 minute.)

Mr. WRIGHT. Mr. Speaker, the President yesterday seemed to be making some new promise that he wanted to protect not only those presently receiving Social Security, as he had said last Sunday night, but also those looking forward to receiving it.

Well, this is nothing new. This is identical to the promise he made publicly in October 1980. Almost exactly 4 years ago today, the President of the United States made this unequivocal promise: "That any reform of the Social Security system must have one overriding goal, that the benefits of those now receiving or looking forward to receiving Social Security must be protected and that payments keep pace with the cost of living."

Now, the President did not remember that promise 5 short months later, when in March 1981 he stood here, in a special message to the Congress, and pleaded with us to vote for Gramm-Latta, which took away the minimum benefits of those receiving or hoping to receive Social Security, which took away the educational benefits of their children, which took away the burial benefits.

Mr. Reagan did not remember his 1980 pledge in May 1981, when he sent up a message asking us to reduce the benefits of early retirees from 80 percent to 55 percent of the regular benefit. He did not remember it a few months later, when he asked Congress to do away with the COLA's and to extend a moratorium on the COLA's.

Mr. Reagan did not remember this 1980 pledge. Why should anyone believe that he would remember a 1984 pledge? He must have a case of selective political amnesia. Perhaps his advisers hope the public has forgotten his unkept 1980 pledge, but many Americans have not forgotten.

□ 1210

GROWTH AND PRODUCTIVITY

(Mr. REGULA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. REGULA. Mr. Speaker, one of the key numbers for a strong, prosperous country is real growth and productivity. In the postwar years, the United States experienced an average real growth of about 3.5 percent annually, and this continued up until 1977. From the period of 1977 until 1980, nonfarm productivity in the United States for the first time was a minus, a minus .2.

Thankfully, we are on the road to recovery and for the period of 1981 to 1984, we have experienced a real growth in productivity of plus, plus 6.1 percent. This is a dramatic improvement, and it means a lot in terms of quality of life, in terms of economic growth, in terms of future opportunity. It says that people have confidence in our system; it says that we are getting capital investment that allows our productivity to be greater. It says that we are getting economic growth. I think it also says very eloquently that labor and management are working together effectively in this period from 1981 to 1984 to restore that growth and productivity that is so vital to the strength of any nation.

PRESIDENT SHOULD ADDRESS THE FINANCIAL STABILITY OF MEDICARE

(Mr. SKELTON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SKELTON. Mr. Speaker, it was interesting to see the President make his recent pledge to never cut Social Security benefits for current and future beneficiaries. Last year's bipartisan effort restoring long-term financial stability to the Social Security system removed any justification for cutting benefits. Some might question the timing of the President's pledge. But I say, "Better late than never."

Now that we have finally agreed on Social Security, we should ask the President how he intends to deal with medicare's long-range financial problems. After all, the hospital insurance trust fund, the source of medicare part A payments for inpatient hospital services, may go bankrupt by the mid-1990's if current conditions prevail and no further action is taken to slow the rate of increase in medicare expenditures for hospital care. And payments from general revenue for physician and other services covered by medicare part B continue to contribute significantly to the mounting budget deficit. Clearly, the future of medicare will be the greatest domestic problem facing the next President.

The President should tell the Nation whether or not he believes medicare's financial problems give us cause to reduce our commitment to making high-quality health care affordable for all Americans. Will he propose that we increase the already substantial amounts senior citizens pay out of their own pockets for necessary health care services? Does he support raising the age of eligibility for medicare? How does he feel about rationing health care services for medicare beneficiaries? Because the medicare program is so important to millions of Americans, the President should answer these questions and present his agenda for assuring the financial stability of the medicare system before the election.

FINANCES OF GOVERNMENT FIRST; IRRELEVANT MATTERS SECOND

(Mr. GREGG asked and was given permission to address the House for 1 minute.)

Mr. GREGG. Mr. Speaker, the present chaotic situation which now exists with the Congress and with the finances of this country as a result of our failure to pass a continuing resolution is totally inexcusable. It reflects a total lack of leadership. The blame really is bipartisan. For the last 9 months, we have been participating in what has basically been political hyperbole rather than accomplishing the basic understandings and purposes of this administration and this Congress.

Our purposes should be to manage the finances of the Government first, and yet we take up other irrelevant

matters before we take up managing the finances. There is no reason why we should not be able to bring out onto the floor of the House all the authorization bills and all the appropriation bills before we adjourn for the summer.

I suspect and I believe and I hope that as we go into the next fiscal year that we will pass resolutions on a timely manner and that if we do not pass them on a timely manner, we will reform our budget process so that we will not recess in this House until we have passed all the appropriations bills.

TALKS IN EL SALVADOR: CAUSE FOR HOPE

(Mr. GLICKMAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GLICKMAN. Mr. Speaker, Salvadoran President Duarte's invitation to rebel leaders to sit down and talk about working out their differences next Monday makes me believe that hope springs eternal. In August of this year, Congressmen PANETTA, MOODY, BRYANT, and I, in a visit with Duarte in San Salvador, urged just such talks. The prospect of talks just a few days away after years of bloody turmoil is clearly good news. it is also encouraging to think that Colombian President Betancur, fresh from his own success in dealing with rebel factions in his own country, is willing to help make this initiative work.

U.S. policies have been supportive of the Durate government in the midst of military conflict. It would be a tragedy for us not to show the same support for this visible and courageous peace initiative. Secretary Shultz is set to visit Duarte late next week, after the talks. We shouldn't wait until they are over; a clear message should be sent from the White House without delay commending the Duarte initiative and offering the help and cooperation of the United States in seeing these talks through to success.

In the cause of peace, President Duarte has courageously stuck his neck out both literally and figuratively. The United States has a role and a responsibility in making sure he doesn't face the guillotine.

AGE ISSUE BELONGS TO THE REPUBLICANS AND THE AMERICAN PEOPLE

(Mr. SHAW asked and was given permission to address the House for 1 minute.)

Mr. SHAW. Mr. Speaker, throughout the history of the world, great civilizations have turned to their elders for leadership and sound mature judgment.

History tells us that it was England that called upon the great Winston Churchill to lead her out of the dark days of World War II. He was 77 years old when he began his last term in office as Prime Minister.

Gen. De Gaulle shaped the postwar years of Europe as President of France beginning at age 68, serving to the age of 79.

Chancellor Adenauer led West Germany back to economic stability out of the ruin and ashes of war, resisting communism and protecting a free Germany. He was 73 years old when he came to office and served to age 87.

And yes, it was the United States that looked to a 69-year-old Ronald Reagan to lead it out of the economic chaos of the Carter-Mondale years.

Once again, we are looking to the mature judgment of a 73-year-old President Reagan to protect us from returning to the Carter-Mondale years.

Mr. Mondale, age may be an issue in the campaign for the Presidency, but this issue belongs to the Republicans and the American people, not you.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate had passed without amendment bills, joint resolutions, and a concurrent resolution of the House of the following titles:

H.R. 723. An act for the relief of Marsha D. Christopher;

H.R. 2823. An act to amend title I of the Reclamation Project Authorization Act of 1972 in order to provide for the establishment of the Russell Lakes Waterfowl Management Area as a replacement for the authorized Mishak National Wildlife Refuge, and for other purposes;

H.R. 4473. An act to designate the Federal Archives and Records Center in San Bruno, CA, as the "Leo J. Ryan Memorial Federal Archives and Records Center";

H.R. 5252. An act to redesignate the Veterans' Administration Medical Center located in Poplar Bluffs, MO, as the "John J. Pershing Veterans' Administration Medical Center";

H.R. 6100. An act to clarify the intent of Congress with respect to the families eligible for a commemorative medal authorized for the families of Americans missing or otherwise unaccounted for in Southeast Asia;

H.R. 6342. An act in approval of the governing international fishery agreements with Iceland and the European Economic Community;

H.J. Res. 332. To designate the week beginning May 20, 1985, as "National Medical Transcriptionist Week";

H.J. Res. 594. Joint resolution designating the week beginning February 17, 1985, as a time to recognize volunteers who give their time to become Big Brothers and Big Sisters to youths in need of adult companionship"; and

H. Con. Res. 371. Concurrent resolution directing the Clerk of the House of Representatives to make a correction in the enrollment of the bill H.R. 2790.

The message also announced that the Senate had passed with amendments in which the concurrence of the House is requested, bills of the House of the following titles:

H.R. 1095. An act to grant a Federal charter to the 369th Veterans' Association; and

H.R. 2300. An act to provide retirement equity for former spouses of civil service retirees, and for other purposes.

The message also announced that the Senate had passed a bill, a joint resolution, and a concurrent resolution of the following titles, in which the concurrence of the House is requested:

S. 3034. An act to grant a Federal charter to the National Society, Daughters of the American Colonists;

S.J. Res. 236. Joint resolution relating to cooperative East-West ventures in space; and

S. Con. Res. 154. Concurrent resolution authorizing changes in the enrollment of H.R. 6163.

WOMEN APPOINTED BY PRESIDENT REAGAN AND PRESIDENT CARTER

(Mrs. SCHROEDER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. SCHROEDER. Mr. Speaker, President Reagan, in July 1983, said, "If anyone wants to really dig into the facts, I will match our record against any other administration that has ever been here with regard to what we have accomplished for women." And in a September 13, 1983, letter to the Chairman of the Civil Rights Commission, White House staff people claimed that the Reagan administration had appointed more women than had the Carter administration.

When I heard these claims, I asked the White House for proof. The data I received from the White House proved exactly the opposite: It proved that President Carter had appointed substantially more women in every category than had President Reagan. That was 1 year ago.

To set the record straight, I asked the staff of the Subcommittee on Civil Service, which I chair, to assemble a list of women appointees confirmed by the Senate of President Carter and President Reagan. Today, I release the findings of that study.

What we find is a pitiful Reagan record on the appointment of women. In the categories we examined, Ronald Reagan has appointed 1,723 individuals, of whom 184—or 10.7 percent—were female. By comparison, Jimmy Carter appointed 1,347 individuals to the same types of jobs, of whom 232—or 17.2 percent—were women.

The first major grouping is full-time, Presidential appointees confirmed by the Senate. In this category are Cabinet Secretaries, Assistant and Deputy

Secretaries, and other agency heads. We have compared these appointments on the chart labeled "Women in Top Administration Positions." As you can see, President Carter named women to 124, or 13.5 percent, of these key positions. President Reagan has only named 105 women to these positions, which is only 9 percent of all the appointments he made in this category.

The second category is part-time, Presidential appointees with Senate confirmation. These are generally people who sit on statutory boards and commissions. Here we are talking about more serious commissions, not the "nothing-burgers" to which the former head of EPA referred. While President Carter filled 40 percent of the commission vacancies he had with women, President Reagan has filled only 16.4 percent of those vacancies with women.

The third group we looked at was article III judges, which includes the Supreme Court, the circuit courts, the district courts, and the Court of International Trade. I take nothing away from President Reagan for appointing the first woman in history to the Supreme Court. Still, even counting Sandra Day O'Connor, President Reagan has only appointed 16 female judges, out of 165 total judicial appointments. President Carter, on the other hand, appointed 41 female judges out of a total of 260 judicial appointments.

Included in your packet are the names and positions of all female appointees of each administration.

President Reagan's insensitivity to women's issues is not surprising considering the fact that his administration has so few women in major positions. I criticized Jimmy Carter for having too few women in important positions. But Ronald Reagan is light years behind Carter.

I do not think that the Reagan campaign will succeed in fooling women into believing that the Reagan administration has been good for women. After all, women can tell cosmetics from the real thing.

NO CREDIBILITY TO "SECRET PLAN" TO CUT SOCIAL SECURITY

(Mr. DUNCAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DUNCAN. Mr. Speaker, here they go again. Mr. Mondale has been stirring up a Social Security scare again. Two years ago they said there was a secret plan to cut Social Security. After the election, I asked questions at our Ways and Means Committee about the secret plan, and no one, including my esteemed friend Mr. CLAUDE PEPPER, knew anything about it.

□ 1220

Mr. Mondale said there is another one now. Mr. Mondale should know, although sometimes I doubt it, that no Social Security proposal can get anywhere without the consent of the Committee on Ways and Means. This committee, on which I serve, is composed of 23 Democrats and 12 Republicans. No President can change a dollar or word of law. Only Congress can make changes and only the Ways and Means Committee revises the Social Security laws.

Our Social Security recipients are not as dumb as apparently Mr. Mondale thinks.

REAGAN NOT IN CONTROL OF FACTS AND ISSUES DURING DEBATE

(Mrs. BOXER asked and was given permission to address the House for 1 minute.)

Mrs. BOXER. Mr. Speaker, a new issue was raised in Sunday's debate unintentionally by Mr. Reagan. To me, the issue is not age, the issue is competency. We saw Mr. Mondale, a man in control of facts and issues, a man of substance versus a 3-by-5 card President caught without his cards.

If Ronald Reagan is reelected President, who really will be President in the next 4 years? Will it be Ed Meese, Michael Deaver, James Watt, or maybe even Jerry Falwell?

Proving my point, one President's man, Mr. Deaver today said that he "took full responsibility for Mr. Reagan's closing statement." Will he also take responsibility for Mr. Reagan's statement that he never wanted to cut Social Security when, in fact, he proposed to the American people and to this Congress 25-percent cuts.

The coating on this "teflon" President is finally beginning to wear thin.

ON CONTINUING THE GOVERNMENT

(Mr. LOTT asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. LOTT. My colleagues, are not you pleased to be here? Remember what we said 3 weeks ago. If this House had passed a clean continuing resolution, we would not be here now. But do not despair. We will pass a continuing resolution some day; probably a clean one, and in that vein I have composed the following love sonnet from Congress to the Government, which I hope goes to the heart of the continuing perils we deal with:

A LOVE SONNET FROM CONGRESS TO THE GOVERNMENT

(With apologies to Elizabeth Barrett Browning)

How do we fund thee? Let me count the ways.
We fund thee with continuing resolutions by the days.
We fund thee to the depth and breadth and height
Our political souls can reach, when feeling out of sight
For the ends of Reelection and ideal Grace.
We fund thee to the level of everyone's
Most noisy need, by day and night.
We fund thee freely, as men strive for Might.
We fund thee purely, as we strive for Praise.
We fund thee with a love we seemed to lose
When funds expired, as did thy breath.
But CR kiss hath saved thee from death,
And thou no longer hath need to cry,
For we shall fund thee beyond sine die.

PRESIDENT HAS POOR RECORD ON ARMS CONTROL

(Mr. DOWNEY of New York asked and was given permission to address the House for 1 minute.)

Mr. DOWNEY of New York. Mr. Speaker, today is the 21st anniversary of the partial test ban treaty coming into full force and effect. It is also the 17th anniversary of the banning of nuclear weapons in outer space.

What do these particular treaties have in common with others like the treaty on the nonproliferation of nuclear weapons, the ABM treaty, the SALT I treaty, the SALT II treaty, the Vladivostok accords?

All of them without exception, without hesitation have been opposed by Ronald Reagan, as candidate, as Governor, and as candidate for President.

Mr. Speaker, there is no question that these treaties have changed the face of this planet. No longer do we have to worry about strontium-90 appearing in children's formula or in milk. No longer do we have to worry about weapons, or do we in outer space?

I believe, Mr. Speaker, that on October 21, we will have a full and fair airing of the potential positions of candidate Reagan and candidate Mondale and if I believe that the past is prolog, we will hear the President say that he is now a born again arms controller.

Let us remember the record, Mr. Speaker, and I hope the American people will be listening carefully on October 21 to who is the arms controller and who is not.

REPRESENTATIVE COELHO INSULTS PRESIDENT AND SENIOR CITIZENS

(Mr. LUNGREN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LUNGREN. Mr. Speaker, it looks like a new issue has been raised by your Democratic Campaign Committee. According to the Washington Post, Mr. COELHO, the chairman of that committee said "Reagan looked old and acted old."

When asked if he appeared doddering he said, "Well, he did not quite drool."

Now that is a really, really excellent political discussion going on. Mr. Speaker, I have the privilege of representing the constituents of Leisure World, CA. I have people in the fifties, sixties, seventies, eighties, and nineties and this is an insult to those people, Mr. Speaker.

What we have done is now made fun of the President of the United States. We have made fun of all the more senior citizens in the United States for what? Political advantage.

Mr. Speaker, your party owes the President of the United States and the older citizens of the United States an apology as soon as possible. If age is an issue, it is only an issue with respect to ideas, Mr. Speaker, because it is your candidate, Mr. Mondale, who has the old ideas.

His ideas frankly, Mr. Speaker, are too old for the Nation. As long as we are going to discuss this issue, Mr. Speaker, let us make sure that we do it on a higher plane than that, than to make fun of the President of the United States and make fun of all the older citizens of the United States.

REAGAN NOT TOO OLD, BUT WOEFULLY INADEQUATE

(Mr. WILLIAMS of Montana asked and was given permission to address the House for 1 minute.)

Mr. WILLIAMS of Montana. Mr. Speaker, in large measure, I agree with the last speaker and I disagree with my colleagues on my side who have made age an issue in this campaign.

The charge that Ronald Reagan has become suddenly old is inappropriate, politically unsound, and it masks the fact that Ronald Reagan, without the benefit of script, cue card, or teleprompter has, throughout his Presidency demonstrated a woeful inadequacy of the issues.

During his press conference he has been inaccurate, halting, and forgetful. Yes, he covers his stumbles with the actor's wink and grin, but the glaring misstatements have been there continually for the last 4 years.

Too old; no. Woefully inadequate on the issues for 4 years; yes.

DEMOCRATS ARE INDECISIVE

(Mr. HYDE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HYDE. Mr. Speaker, I could not agree more with the last Speaker. What we need is the decisiveness that Walter Mondale demonstrated when he hired Bert Lance and then got rid of him the next day. Those judgment calls are brilliant.

I would like to call to the attention of the House a book written by Joseph Califano, who was Secretary of HEW under Jimmy Carter. He has got a chapter on Social Security that is essential reading for all of you crusaders for Social Security reform. Let me read a paragraph:

> The press briefing on the 1980 budget was set for Saturday, January 20, 1979. McIntyre, Schultze, and Blumenthal summarized in the morning. The departments gave the details of their proposals in the afternoon. The President called me an hour before I was scheduled to brief. "I'm concerned about the proposed cuts in Social Security," he said. "I want you to keep me as far away from them as you can."
>
> "But they're in your budget message. They're a major part of your program."
>
> "When you brief on them, say they're your proposals," Carter insisted.

Secretary Califano wrote that—

> To provide a fair security system for our elderly will require additional taxes, reduced benfits for some or some combination of both.

I do not want my minute to run out, but this is going to be a popular chapter in American political history in the next few weeks. The time has come to come to terms with the first 4-generation society in history, and it is now, said the Secretary. Mr. Carter's administration left the problem for Mr. Reagan and he, with the help of a bipartisan commission solved it. Mr. Reagan's administration restored Social Security to solvency and deserves credit, not criticism.

THE LIMITED TEST BAN TREATY OF 1963

(Mr. FASCELL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FASCELL. Mr. Speaker, the horrors of nuclear war and the consequent contamination of the Earth and its living resources by radioactive fallout, led to a public outcry in the late fifties and early sixties that grew into a worldwide grassroots movement to end nuclear weapons testing.

After 8 years of efforts to negotiate a test ban agreement between the United States and the Soviet Union and the rising public concern about nuclear fallout, the Limited Test Ban Treaty was entered into force on this day, 21 years ago, October 10, 1963.

The Limited Test Ban Treaty prohibits nuclear weapons tests or any other nuclear explosions, including nuclear explosions for peaceful purposes, in the atmosphere, in outer space, and underwater.

Both the United States and the Soviet Union agreed to outlaw such testing as both sides were reasonably confident in their ability to verify compliance with a ban on tests in these environments.

However, as this agreement does not ban nuclear weapons testing underground, it leaves unfulfilled the superpowers pledge to subsequently ban all nuclear weapons testing for all time. In fact since 1963, underground testing of nuclear devices has increased dramatically—to be more precise, over 925 nuclear devices have been exploded underground since 1963.

Underground nuclear explosions allow nuclear nations not only the capacity to test new nuclear weapons but also the capacity to test nuclear weapons to increase their destructive potential. This must be stopped.

The superpowers pledged in the Limited Test Ban Treaty of 1963 to:

> Put an end to the armaments race and eliminate the incentive to the production and testing of all kinds of weapons, including nuclear weapons; and
>
> Achieve the discontinuance of all test explosions of nuclear weapons for all time [thereby ending] the contamination of man's environment by radioactive substances.

This pledge to end all nuclear weapons tests remains a challenge desperately in need of attention. We can best meet this challenge through negotiation of a comprehensive test ban agreement. This matter is of the utmost urgency. The superpowers must not hesitate to begin work on an agreement for a comprehensive test ban.

A comprehensive test ban—otherwise known as CTB—would make a major contribution to ending, if not slowing the nuclear arms race. A CTB negotiated between the superpowers would send an important message to nonnuclear weapons states that we—the United States and the Soviet Union—are serious and are committed to ending the proliferation of weapons and with that the arms race.

Dr. Glenn Seaborg, the chairman of the Atomic Energy Commission for 10 years and a key figure leading to the signing of the Limited Test Ban Treaty, has recently stated that—

> If we had been able to negotiate a CTB with the U.S.S.R. in 1963, when it was necessary to settle for a Limited Test Ban, we and the rest of the world would be much better off. We are negotiating today at a higher and more dangerous level.

How much longer can we wait to negotiate such a comprehensive test ban agreement with the Soviet Union before we become too afraid and too paranoid to negotiate? The current administration has made no effort whatsoever to negotiate an agreement with the Soviet Union in this area. Let me remind you that this administration has been the only administration not

to achieve some kind of arms control agreement with the Soviet Union. This cannot continue. This Congress must do everything in its power to spur the arms control process on and to achieve a comprehensive test ban.

As chairman of the House Committee on Foreign Affairs, it is my intention that this committee conduct a number of hearings on the subject of a comprehensive test ban in the 99th Congress to further highlight the urgency and necessity of such an agreement.

□ 1230

DEMAGOGUERY ON SOCIAL SECURITY

(Mr. CAMPBELL asked and was given permission to address the House for 1 minute.)

Mr. CAMPBELL. Mr. Speaker, I think it is most unfortunate that people have sought to demagog the Social Security issue and try to scare the elderly of this country.

In the 1970's, Social Security got in serious trouble. In the late 1970's, under Carter-Mondale, they had the biggest tax increase in the history of the country. But their economic policies were so bad and inflation was so high that Social Security got back in trouble again. They better thank God that Ronald Reagan put together a bipartisan commission that saved it, and it is safe today. You can demagog it all you want to. There are no checks that have been cut off.

While we are talking about this sort of thing, I am glad to see a new issue arise. Mr. Mondale has come out for doing away with indexing. He is for letting the working people get pushed into higher tax brackets by inflation, just like the 10, and 12, and 13 percent that he presided over with Mr. Carter.

No, I will tell you right now that the people of this country are better off, the Social Security System is saved, and the working people are not being pushed into higher brackets by inflation, and inflation is down because of Ronald Reagan, and do not forget it.

HANGUP ON NICARAGUA AND STAR WARS, NOT WATER PROJECTS

(Mr. FAZIO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FAZIO. Mr. Speaker, when Jim Watt came riding out of Wyoming declaring the water wars of the West were over, and the President came to the House to tell of his support for port development, a lot of people thought they were telling us the truth, but at the end of 4 years of this administration it seems evident to all of us now that nothing is going to happen.

Despite the fact that we have a current appropriation that is $500 million below the President's submission and $400 million below our own budget level, we seem to be hung up on an $89 million minor water project bill. Well, it will not wash. We are hung up on Nicaragua and on Star Wars and not on water projects that this administration would like to term "pork barrel" without any analysis of cost-benefit ratios.

We do not need any more reassuring letters from Senator LAXALT; we need an initiative that will compromise on the issue of cost sharing, a national water policy that will include the East, as well as the South, and the West, and we had one in the Roe bill. What we do not have is anybody who can keep Dave Stockman in line in this administration.

Mr. Speaker, I fear we are about to fail once again to resolve this country's water resources dilemma. This failure is in no way the fault of the House, which has grappled with the problem for 4 years. Nor is it the problem of the Senate, which has also grappled with the problem 4 years.

It is the fault of the executive branch, which in pronouncements by its political officers—Secretary James Watt and President Reagan himself—has made promise after promise to "end the water wars" and to "get together to enact" legislation that can bring this long story to a conclusion. However, all these words notwithstanding, the administration has never said what it wants. It has left the Congress to founder, taking credit for its public posture, blaming Congress for the failure of its private indifference and malicious neglect.

Now we have Chief Executive Officer David Stockman announcing that the administration might veto any continuing resolution that contains either the Roe bill passed so overwhelmingly by the House or the new starts bill passed by the House last year. Mr. Stockman's excuse is that cost sharing "reform" has not been enacted. We have no idea of what cost sharing reform he wants. The administration has never proposed anything and seems to reject everything. Once it seemed to have a policy, but it withdrew it in a cheshire cat-like letter from the President himself to Senator LAXALT last year.

These new starts totaling $98 million, would not imbalance the budget. New starts costs for 1985 are one one-hundreth of 1 percent of the entire continuing resolution. They are one one-thousandth of 1 percent of the budget as a whole. They are minuscule compared with the $300 billion in defense spending in this continuing resolution—the real issue holding it up—and they are even minuscule compared with the $25 billion increase in defense spending over last year.

The problem with water in this bill is not cost and is not reform. The problem is that the President does not mean what he promised and the Office of Management and Budget has never allowed the administration to participate in a constructive solution.

ARE WE ANY BETTER OFF THAN WE WERE 2 WEEKS AGO?

(Mr. CONTE asked and was given permission to address the House for 1 minute.)

Mr. CONTE. Well, Mr. Speaker, there they go again.

For 2 days now, political gurus have analyzed the performance of Walter Mondale and the President. Campaign officials from both sides have counted their gains and downplayed their losses, and Members of this House—in 1-minute speeches—have debated the Louisville debate over and over again.

This Congress is determined to debate anything but the continuing resolution.

Now, Mr. Speaker, I want you to ask yourself: Are we better off than we were 2 weeks ago? After hours of conference and four extensions, the conferees are still in S. 207 sitting on their—well, I can't say it, but it rhymes with the almost extinct fish, the bass.

One of the most important jobs this Congress is elected to perform is passing a Federal budget. We are now 10 days into the fiscal year, and we haven't approved a continuing resolution yet, let alone a regular appropriations package.

We've become a laughingstock. Day in, day out—it's the same old question—not "Where's the beef?", but "Where's the pork?" Let's get the pigs in the pen and get this show on the road.

ESSENTIAL CONGRESSIONAL PREROGATIVES

(Mr. MINETA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MINETA. Mr. Speaker, sooner or later—and I hope it is sooner—we will adopt a continuing resolution and adjourn this Congress.

I strongly urge my colleagues that in our desire to wrap up our business, we do not carelessly or thoughtlessly sign away essential congressional prerogatives.

This House has adopted language known as the Foley-McHugh amendment that requires the President to secure congressional approval before sending combat troops into El Salvador or Nicaragua. Surely we do not want to discard this important guarantee without careful thought.

Moreover, I believe we must be very wary of any proposal from the ongoing continuing resolution conference committee which denies us the right to vote on any possible aid to rebels in Nicaragua. Leaving this decision to a future certification by the President would be at least puzzling and, more importantly, in direct contradiction to the position this House has taken on four recent occasions.

We all want to go home. But let us leave here knowing we have done the right thing.

AGE IS NOT AN ISSUE

(Mr. LEWIS of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LEWIS of California. Mr. Speaker, and my colleagues, I think most of you know that it is rare that I rise during the 1-minute sessions, but some of you joined me the other evening for a birthday party as I was approaching one of those very important stages in life.

I said to the President on that very day, "Mr. President, I sure hope I look as good as you do when I am 50." I was struck this morning by others who would use the President's appearance and age in a fashion that is very disconcerting.

My dear friend from California, TONY COELHO, indeed is a personal friend, but even he, from time to time, finds himself going to excess.

Please, TONY, tell me that this is not a quote from you.

TONY is quoted in this wonderful paper, the Washington Post, when questioned about the President's address and the debate the other night, "In your mind, as campaign committee chairman, Tony, do you think that the President looked old and acted old in his nationally televised encounter?"

When COELHO was asked if the President acted doddering, he was said to have replied, "Well, he did not quite drool."

TONY, that is going a bit far. I must say that you and I have talked often about how good the President looks. It seems to me that we ought to draw some lines here that are reasonable. The age issue is not an issue with this President.

Mr. COELHO. Mr. Speaker, will the gentleman yield?

Mr. LEWIS of California. If I had another minute, I would be glad to, Mr. COELHO.

Mr. COELHO. Maybe we can get it. Will the gentleman yield?

Mr. LEWIS of California. I would be happy to yield.

Mr. COELHO. I am intrigued with your question. The question from the reporter was, "Do you think that the President was old and doddering and drooling?"

I rose to the defense of the President and I said he was not drooling.

Mr. LEWIS of California. TONY, you show an awful lot of class when you get to the edges. Frankly, our friendship will continue, but you have drawn the line in my mind. I hope you will back off.

WATER OR STAR WARS?

(Mr. WATKINS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WATKINS. Mr. Speaker, let the word go forth to the American people. The reason why we are tied up on the continuing resolution is not pork, it is not the dollars for water projects. There are two major issues that have this Congress tied up, and that comes from the White House.

The White House, the President's request for $1.6 billion to begin a $25 billion research program on a Star Wars game. The House is willing to give $1.1 billion. Let me say, let us bring it into light with what we are asking for on water.

Yes, the President wants some water projects. As my friend, VIC FAZIO, says; There is only $89 million in that continuing resolution for water; only $89 million. There is $500 million in disagreement on the Star Wars game, so it is not the dollars for water that is essentially needed in my district and some other areas across this great country of ours.

Also in disagreement is aid for covert action in Nicaragua. I think that issue will be decided on October 21 by the American people when Walter Mondale and Ronald Reagan go before this great Nation on their second debate.

Mr. Speaker, I think we should just resolve this situation, pass a continuing resolution and have a lameduck session after the 21st or after the November 6 election and let us tell the American people where we rightly stand on water or Star Wars.

□ 1240

CAMPAIGN MARKED BY PERSONAL ATTACKS AND MUDSLINGING

(Mr. WALKER asked and was given permission to address the House for 1 minute.)

Mr. WALKER. Mr. Speaker, we have come to expect the kind of vicious personal attacks launched by Congressman COELHO and other Democratic Party leaders here yesterday and today. What I think the American people need to understand is why the Democrats engage in this kind of gutter politics.

Personal attacks and spreading fear messages are the Democrats' way of trying to dismiss the real issues of this campaign year. The Democrats have seen, even after Sunday night's debate, that the American people do not agree with them on the issues.

On balanced budgets, the Democrats are wrong and the American people choose Republican policies.

On maintaining traditional family values, the Democrats are wrong and the American people choose Republican policies.

On strengthening our national defense, the Democrats are wrong and the American people choose Republican policies.

On tough crime laws, the Democrats are wrong and the American people choose Republican policies.

So what do the Democrats do? They spread fear and sling mud. It goes further than being disgusting. The leaders of the Democratic Party are becoming a national embarrassment.

PRESIDENT'S AGE NOT A FACTOR—BUT HIS TREATMENT OF THE AGED IS

(Ms. OAKAR asked and given permission to address the House for 1 minute.)

Ms. OAKAR. Mr. Speaker, the President's age should not be a factor in this election, but what he does to the aged should be a factor in this election.

Let us look at his treatment of older women. He cut $19 billion in Social Security, he cut the minimum benefits, mostly against the women who are between 75 and 90 years old, he phased out the benefits for women who are heads of households and who want to give their children a chance for higher education, and another example of the utter contempt of this administration for older women is its blatant violation of the law. In the Social Security Amendments of 1983, the law mandated that HHS issue a report on my earnings-sharing bill to correct the inequities toward women in the Social Security system.

Mr. Speaker, the report was supposed to have been issued in July. The administration still has not issued the report, and it is just further proof of the contempt this administration has for the plight of older women.

REAGAN'S DEBATE PERFORMANCE CITED AS REASON FOR SURFACING OF AGE FACTOR

(Mr. LAFALCE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAFALCE. Mr. Speaker, the question has arisen as to whether age should be an issue in this year's Presidential election. It is important to realize that prior to Sunday evening age was not an issue.

It is also important to realize that it was not a political party and it was not a U.S. Congressman that made age an issue. It is important to realize that it was President Reagan's performance Sunday evening in the joint appearance that made age the issue.

A good many individuals said, after viewing that performance, that either President Reagan is incompetent to be President of the United States for the next 4 years or he is incapacitated so that he cannot and should not be President of the United States for the next 4 years. Now those factors are presently an issue—his competency and his capacity.

Second, the debate pointed out one further important consideration. President Reagan has been known as the "Great Communicator." Nothing could be further from the truth. He never takes difficult issues and tries to communicate with the American public about those difficult issues. He obscures the issues, issues such as the deficit, the inconsistency of running up such a large deficit.

Mr. Speaker, he is the "TelePrompter President." We have a TelePrompter Presidency.

PROVISIONS IN HOUSING AND URBAN RECOVERY ACT OF 1983 CLEARS WAY FOR NEEDED PROJECTS

(Mr. KOSTMAYER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KOSTMAYER. Mr. Speaker, the Congress has cleared for the President's signature the conference report accompanying S. 2819, making amendments to the Housing and Urban Recovery Act of 1983.

S. 2819 includes legislation I introduced on February 23, 1984, as H.R. 4843, and which was subsequently introduced by Senator JOHN HEINZ in the other body on February 28, 1984. The Banking, Finance and Urban Affairs Committee has incorporated H.R. 4843 into this bill.

The section of S. 2819 I refer to amends section 1059(c)(2)(B) of the Housing and Community Development Act.

Last December, county and local officials in Bucks County in my congressional district alerted me to an unintended change in the 1983 law which drastically altered project eligibility rules in urban counties, such as Bucks, and neighboring Montgomery County, and several other counties in Pennsylvania. This change was forcing certain jurisdictions with low-population density to concentrate community development block grant activity in few or small pockets of poverty, while ignoring the needs of most of their lower income population.

The Kostmayer-Heinz proposal—which was drafted with the assistance of the National Association of Counties and which also has the support of the National Association of Towns and Townships—will enable cities and counties with few or small concentrations of poor to meet the requirement that at least 51 percent of their CDBG spending benefit lower income persons through projects to improve areas among the top 25 percent in concentration of lower income families.

The 1983 act requires that areawide projects be in census tracts or blocks that have a majority of lower income residents, unless the jurisdiction has no such areas. The jurisdiction would then have to target spending on the 25 percent of areas with the highest proportion of lower income households. We have succeeded in having the exception broadened for urban counties where it would be unreaslistic, and contrary to the intention of the 1983 act, to focus CDBG spending on a few, small and scattered areas where a majority of residents are lower income. Eight counties in Pennsylvania will be precluded from carrying out areawide projects in those parts of the county where most of their lower income households reside, unless the law is changed.

Mr. Speaker, I want to thank the distinguished chairman of the Banking Committee, Mr. ST GERMAIN, and the chairman of the Housing Subcommittee, Mr. GONZALEZ, for recognizing the urgency of this problem, and moving my legislation so that many deserving projects in urban counties can go forward.

U.S. TROOP INVOLVEMENT IN CENTRAL AMERICA STILL AT ISSUE IN FUNDING RESOLUTION

(Mr. LEVINE of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LEVINE of California. Mr. Speaker, House and Senate conferees have reportedly reached an impasse over a House-supported provision requiring congressional authorization before U.S. combat troops could be sent to Central America.

The language in the continuing resolution, known as the Foley-McHugh amendment, is almost identical to language which I introduced earlier this year.

Incredibly, the administration and its allies have chosen to oppose this provision even though the President has repeatedly assured the American people that he has no intention of sending U.S. combat troops into Central America.

The administration's opposition to this amendment calls into question those assurances and raises the specter of the President surprising the Congress when we are not in session.

Both Congress and the American people have a right to know if our Government intends to commit U.S. combat forces to the conflict in Central America. Members of Congress, regardless of the views on the merits of our current policies, should support this amendment to ensure that we will have a role in any decision to send U.S. Forces into combat in the region.

Even though the session is late, I urge the House conferees to insist on this provision and I urge the administration and the leadership of the other body to reconsider its position on this important issue.

A REPLY TO REPUBLICANS' CHARGE OF MUDSLINGING

(Mr. LELAND asked and was given permission to address the House for 1 minute.)

Mr. LELAND. Mr. Speaker, I had not planned to stand here in the well this morning for 1 minute, but I would just like to ask the gentleman from Pennsylvania [Mr. WALKER] if in fact his allegation about the leadership of the Democratic Party concerning their personal attacks on the administration is warranted and balanced.

The other day we understand that a person who is not a Democrat tried to use poetry to in some fashion characterize the running mate of Walter Mondale, and if that was not a personal attack, I do not know what is. She wanted to rhyme "rich" with something, and eventually she ended up with "witch."

Is that indeed a personal attack?

Mr. WALKER. Mr. Speaker, will the gentleman yield?

Mr. LELAND. I am glad to yield to the gentleman from Pennsylvania.

Mr. WALKER. Mr. Speaker, as I recall, the Vice President's wife also apologized. All we are asking today is that we get a similar kind of apology out of the people who have launched into these vicious personal attacks.

Mr. LELAND. Mr. Speaker, if the gentleman will stand at the microphone, I would like to ask the gentleman if in fact that was his statement. The gentleman did not issue a challenge to any of us or the leadership of the Democratic Party to ask for an apology but, rather, alleged that indeed we were slinging mud. I would suggest to the gentleman that there is a lot of mud being slung from the other side of the aisle.

Mr. WALKER. Mr. Speaker, will the gentleman yield?

The SPEAKER. The time of the gentleman from Texas [Mr. LELAND] has expired.

HOW THE FACTS ABOUT HIGH-PRICED HAMMERS WERE REALLY UNCOVERED

(Mr. BEDELL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BEDELL. Mr. Speaker, in the debate yesterday, the President quoted as follows: "There has been reference to expensive spare parts, hammers costing $500. Well, we are the ones who found those."

Let me tell you how that was found. That was found by the fact that there was a person in the repair department in a Navy base in Florida who felt that maybe they were paying too much for these parts. He asked for information on the prices. They refused to give it to him. He was told it was absolutely none of his business. By circuitous routes, he finally obtained the facts from other people by going outside the normal system.

The result of that was that there was an audit. The audit indicated that they maybe had paid as much as $729,000 too much for an $847,000 contract.

Next we find a memo in the Department of Defense which says that the Secretary of Defense has a special interest in this matter. It tells what a great supplier Gould, who sold the hammer, is, and it recommended that the audit be closed.

Next Secretary Weinberger met with the head of Gould and settled the matter for $84,000. Remember, it was recommended that it could be as much as $729,000.

Mr. Speaker, a 10-percent refund on a $436 hammer insults our intelligence. The Department of Defense seems to think that $392 for such a hammer is OK.

Mr. Speaker, we can be proud in the Congress that we have passed legislation that says we will not let this continue. We did it in spite of opposition from the Pentagon and the many excuses they have offered.

□ 1300

WHICH PRESIDENT?

(Mr. DORGAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DORGAN. Mr. Speaker, I heard once again this morning a speaker allege that the Democrats in the House of Representatives are wrong on balanced budgets. I just want to say that my patience wears a little thin with people who do that. That kind of sloganeering that we hear every day is just nonsense.

I want to ask the question: Which President has sent to this House of Representatives and this Congress requests for more spending than any other President in the history of the country? Answer: Ronald Reagan.

Question: Which President has asked Congress to pass the biggest deficit in the history of America? Answer: Ronald Reagan.

Which president has asked Congress to pass the second highest deficit in the history of America? Answer: Ronald Reagan.

I get a little tired of this sloganeering. The fact is the leader of our Government, the President of the United States, a Republican conservative named Ronald Reagan, has asked us if we will not please adopt budgets that call for borrowing more money than has ever been borrowed before in the history of this country. And of course, the Congress has been all too willing to comply.

The deficit is the fault of all of us, the President, Republicans and Democrats, and until you folks on the other side of the aisle understand that, I guess you will not get in the harness to help us solve it; but you had better understand it soon, because it is hurting this country and we are heading toward trouble.

A TRIBUTE TO HORACE JERRY VOORHIS

(Mr. MARTINEZ asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MARTINEZ. Mr. Speaker, with deep respect and some sorrow I rise to pay tribute to Jerry Voorhis a former Congressman and an exceptional man who passed away last month.

He wrote to me often and his letters were an inspiration. Jerry was a gentleman who invisioned a better world. He believed that man is capable of living together in harmony, and committed himself to that end.

Jerry often wrote on the need to stop the arms race and to check our national aversion of the Soviet Union with a rational eye on the future. He believed that there is a false sense of security derived from a continued buildup of our nuclear arms. His sentiments, expressed with eloquence and clarity, can only be heard from someone with a strong commitment and years of experience. They have meant much to me and I would like to share them with you.

One letter, containing pertinent information on the MX missile begins:

> A letter to people and organizations concerned for the future of humanity on this our only possible planet home: At age 82 and in poor health I am anxious to do what little I can to assure my grandchildren of an opportunity to live a life such as I have been blessed with.

His views on the President's plans for "Star Wars":

> This is to humbly but desperately beg you to vote against the placement of weapons in space * * * Please do not let us lead the world into the invasion of space with the war systems. Surely there is something of deep religious meaning in a refusal to use God's space for military destruction of the Earth.

LET US SET ASIDE NEGATIVE CASTIGATION OF EACH OTHER

(Ms. FIEDLER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. FIELDER. Mr. Speaker, as I sit in the House today, I am saddened at what I hear, not saddened at the political views that I hear expressed, because that is one of the great strengths of this democracy, but very saddened at the negative kind of leadership which is being expressed from the well of this House.

The American people deserve far better representation from the people who come to the House of Representatives. We have tremendous responsibility, the responsibility of representing 500,000 people each, yet hour after hour, day after day, all we hear is the negative condemnation of other people's actions.

Who in this House can be so certain that they represent such perfection and humanity? I do not believe that I do and I do not believe there is either a man or a woman who has a responsibility for casting votes on this floor that does.

It seems to me what we have to do as Members of the House of Representatives, as well as citizens of this great Nation, is to do the best that we can to find the responsible solution to the problems of the people in this country and set aside all this negative castigation of the actions of people with whom we work, because unless we achieve that goal, we will not be able to achieve the responsible resolution of the problems that we deal with on a day to day basis.

A BLACK ARM BAND OF MOURNING FOR DIGNITY AND DECORUM

(Mr. BOEHLERT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BOEHLERT. Mr. Speaker, if this House is in session much longer, I intend to wear a black arm band, a black arm band to demonstrate a period of mourning, mourning for the lost dignity and decorum of this great institution. As the clock ticks away and more speeches are made from this well, we seem to be sinking lower and lower. Name calling, undocumented charges, blind partisanship, lower and lower.

Should we not, should we not, all of us who are privileged to serve in this institution, be ever mindful of the

words of Daniel Webster that are etched in stone above this Chamber, should we not all try to perform something worthy to be remembered.

WHOSE FINGER SHOULD BE ON THE BUTTON?

(Mr. MARKEY asked and was given permission to address the House for 1 minute.)

Mr. MARKEY. Mr. Speaker, we are going to hear discussion on the floor and in this country for the next 1 month over Social Security, Medicare, educational benefits, and a whole range of other issues; but there is only one overriding issue that really should decide this election, because the most important issue that divides this world is whose finger is on the button that can begin a nuclear war.

Both men, Ronald Reagan and Walter Mondale, contend that they are people that can be trusted with that responsibility, but when there is 25 minutes left to live and those rockets are coming over the North Pole, the people in this country have to ask one question: Whose finger do they want on the button, Ronald Reagan or Walter Mondale? That is the issue. Who do you trust with that responsibility and the next month I think will conclusively answer that question.

Walter Mondale is the person that this country should trust with that ultimate responsibility.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair desires to announce that pursuant to clause 4 of rule I, the Speaker signed the following enrolled joint resolution earlier today:

H.J. Res. 663. Joint resolution making further continuing appropriations for fiscal year 1985.

ARMISTEAD I. SELDEN LOCK AND DAM

Mr. McNULTY. Mr. Speaker, I ask unanimous consent that the Committee on Public Works and Transportation be discharged from further consideration of the bill (H.R. 5489) to designate the lock and dam on the Warrior River in Hale County, AL, as the "Armistead I. Selden Lock and Dam," and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from Arizona?

Mr. HAMMERSCHMIDT. Reserving the right to object, Mr. Speaker, I support the gentleman's request and I yield to the gentleman for any remarks that he wishes to make.

Mr. Speaker, I rise in support of this bill to name the lock and dam on the Warrior River in Hale County, AL, after former congressman Armistead I. Selden.

Congressman Selden had a long and distinguished career in public service. He served 3 years in the Alabama State Legislature, and beginning with the 83d Congress in 1953 he served in the U.S. House of Representatives. In the U.S. Congress, he served as chairman of the Subcommittee on Inter-American Affairs of the Foreign Affairs Committee.

After leaving Congress, Mr. Selden was appointed Principal Deputy Assistant Secretary of Defense for International Security Affairs and later served as Ambassador to New Zealand, Fiji, Tonga, and U.S. Samoa during three administrations.

Mr. Selden, during his service in Congress, worked toward a sound and responsible Inland Waterway System and was particularly supportive of the Warrior Lock and Dam in Hale County.

I believe it is fitting and proper at this time to name this lock and dam after Mr. Selden, and I urge my colleagues to join me in supporting this legislation.

Mr. McNULTY. Mr. Speaker, I have no remarks.

Mr. HAMMERSCHMIDT. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Arizona?

There was no objection.

The Clerk read the bill, as follows:

H.R. 5489

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the lock and dam on the Warrior River in Hale County, Alabama, commonly known as the Warrior Lock and Dam, shall hereafter be known and designated as the "Armistead I. Selden Lock and Dam". Any reference in a law, map, regulation, document, or paper of the United States to such lock and dam shall be held to be a reference to the "Armistead I. Selden Lock and Dam".

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

Mr. McNULTY. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 2947) to designate the lock and dam on the Warrior River in Hale County, AL, as the "Armistead I. Selden Lock and Dam," and ask for its immediate consideration.

The Clerk read the title of the Senate bill.

The SPEAKER. Is there objection to the request of the gentleman from Arizona?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 2947

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the lock and dam on the Warrior River in Hale County, Alabama, commonly known as the Warrior Lock and Dam, shall hereafter be known and designated as the "Armistead I. Selden Lock and Dam". Any reference in a law, map, regulation, document, or paper of the United States to such lock and dam shall be held to be a reference to the "Armistead I. Selden Lock and Dam".

● Mr. SHELBY. Mr. Speaker, I am pleased to rise in support of S. 2947, to rename the Warrior Lock and Dam on the Warrior River in Hale County, AL, as the Armistead I. Selden Lock and Dam. This measure is identical to a bill I introduced in this body as H.R. 5489.

Those of us who are privileged to know Armistead share a great respect for this distinguished public servant and vibrant Alabamian. An attorney, Armistead served 3 years in the Alabama State Legislature, came to Congress as a Representative of the Sixth Congressional District in 1953 and carried out a dignified, 16-year career, serving on the House Foreign Affairs Committee.

From chairman of the Subcommittee on Inter-American Affairs, Armistead moved to the Department of Defense serving as Deputy Assistant Secretary of Defense for International Policy and Procedure from 1970 to 1973. He was then appointed as Ambassador to New Zealand, Fiji, Tonga, and U.S. Samoa, occupying that post under three administrations. Armistead now acts as president of the American League for Exports and Security Assistance.

The renaming of the Warrior Lock and Dam for Armistead Selden is a fitting expression of our appreciation and admiration for this fine man. The Armistead I. Selden Lock and Dam would be a perpetual reminder to his former Hale County constituents of his active role in the funding and construction of vital water systems, and his contributions to the State of Alabama and American society.

I urge my colleagues to vote with me in passing S. 2947.●

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

A similar House bill, H.R. 5489, was laid on the table.

WILBUR D. MILLS DAM

Mr. NcNULTY. Mr. Speaker, I ask unanimous consent that the Committee on Public Works and Transportation be discharged from further consideration of the bill (H.R. 3162) to name a dam on the Arkansas River, AR, as the "Wilbur D. Mills Dam," and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from Arizona?

Mr. HAMMERSCHMIDT. Mr. Speaker, reserving the right to object, Mr. Speaker, H.R. 3162 names dam 2 on the Arkansas Waterway after former Congressman Wilbur D. Mills. Congressman Mills served 16 terms in the House of Representatives and was the long-time chairman of the House Ways and Means Committee. He was also a strong supporter of water resources development and was influential in obtaining authorization and funding for the Arkansas River project.

Mr. Speaker, I yield to the gentleman from Arizona if he has any remarks.

Mr. McNULTY. We have no further comments. Mr. Speaker.

Mr. HAMMERSCHMIDT. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Arizona?

There was no objection.

The Clerk read the bill, as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That dam numbered 2 on the Arkansas River, Arkansas, constructed as part of the project for navigation on the Arkansas River and tributaries, shall hereafter be known and designated as the "Wilbur D. Mills Dam". Any law, regulation, document or record of the United States in which such dam is referred to shall be held to refer to such dam as the "Wilbur D. Mills Dam".

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

□ 1300

JOE HARDIN LOCK AND DAM

Mr. McNULTY. Mr. Speaker, I ask unanimous consent that the Committee on Public Works and Transportation be discharged from further consideration of the bill (H.R. 3163) to name a lock and dam on the Arkansas River, AR, as the "Joe Hardin Lock and Dam," and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from Arizona?

Mr. HAMMERSCHMIDT. Mr. Speaker, reserving the right to object, H.R. 3163 names lock and dam 3 on the Arkansas Waterway after Joe Hardin. Mr. Hardin, was an active member of the Arkansas Basin Association from its beginning, and spoke many times in Arkansas and in Washington seeking support for development of the Arkansas River Waterway system.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Arizona?

There was no objection.

The Clerk read the bill, as follows:

H.R. 3163

Be it enacted by the Senate and House of Represenatives of the United States of America in Congress assembled, That lock and dam numbered 3 on the Arkansas River, Arkansas, constructed as part of the project for navigation on the Arkansas River and tributaries, shall hereafter be known and designated as the "Joe Hardin Lock and Dam". Any law, regulation, document, or record of the United States in which such lock and dam are referred to shall be held to refer to such lock and dam as the "Joe Hardin Lock and Dam".

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

JAMES W. TRIMBLE LOCK AND DAM

Mr. McNULTY. Mr. Speaker, I ask unanimous consent that the Committee on Public Works and Transportation be discharged from further consideration of the bill (H.R. 3164) to name a lock and dam on the Arkansas River, AR, as the "James W. Trimble Lock and Dam," and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from Arizona?

Mr. HAMMERSCHMIDT. Mr. Speaker, reserving the right to object, H.R. 3164 names lock and dam 13 on the Arkansas Waterway after former Congressman James W. Trimble. Congressman Trimble, served 11 terms in the U.S. Congress, and was most influential in securing appropriations for the construction of the Arkansas River Waterway System. The project which will be known as the James W. Trimble Lock and Dam, is located in his former district.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Arizona?

There was no objection.

The Clerk read the bill, as follows:

H.R. 3164

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That lock and dam numbered 13 on the Arkansas River, Arkansas, constructed as part of the project for navigation on the Arkansas River and tributaries, shall hereafter be known and designated as the "James W. Trimble Lock and Dam". Any law, regulation, document, or record of the United States in which such lock and dam are referred to shall be held to refer to such lock and dam as the "James W. Trimble Lock and Dam".

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

ARTHUR ORMOND LOCK AND DAM

Mr. McNULTY. Mr. Speaker, I ask unanimous consent that the Committee on Public Works and Transportation be discharged from further consideration of the bill (H.R. 3165) to name a lock and dam on the Arkansas River, AR, as the "Arthur Ormond Lock and Dam," and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from Arizona?

Mr. HAMMERSCHMIDT. Mr. Speaker, reserving the right to object, H.R. 3165 names lock and dam 9 on the Arkansas Waterway after Arthur Ormond. Mr. Ormond served not only in the Arkansas Basin Association as president, but also as a member of the five-State Arkansas Inter Basin Committee and as a member of the Water Resources Congress. He had had an important role in the development of the Arkansas Waterway and has been awarded the Department of the Army's highest civilian award for his efforts.

Mr. Speaker, I withdraw my reservation of objection.

Mr. SPEAKER. Is there objection to the request of the gentleman from Arizona?

There was no objection.

The Clerk read the bill, as follows:

H.R. 3165

Be it enacted by the Senate and House of Representatives of the United States of America in Congress Assembled, That lock and dam numbered 9 on the Arkansas River, Arkansas, constructed as part of the project for navigation on the Arkansas River and tributaries, shall hereafter be known and designated as the "Arthur Ormond Lock and Dam". Any law, regulation, document, or record of the United States in which such lock and dam are referred to shall be held to refer to such lock and dam as the "Arthur Ormond Lock and Dam".

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

WINTHROP ROCKEFELLER RESERVOIR

Mr. McNULTY. Mr. Speaker, I ask unanimous consent that the Committee on Public Works and Transportation be discharged from further consideration of the bill (H.R. 3166) to name a reservoir created by a dam on the Arkansas River, AR, as the "Winthrop Rockefeller Reservoir," and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from Arizona?

Mr. HAMMERSCHMIDT. Mr. Speaker, reserving the right to object, H.R. 3166 names the reservoir created by dam 9 on the Arkansas waterway as the "Winthrop Rockefeller Reservoir." Winthrop Rockefeller, Governor of the State of Arkansas from 1967 to 1971, was a staunch supporter of water resources development and a leader in promoting the Arkansas waterway system. His home, Winrock Farm, looks down upon the reservoir which is named in his honor by this section.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Arizona?

There was no objection.

The Clerk read the bill, as follows:

H.R. 3166

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the reservoir created by dam numbered 9 on the Arkansas River, Arkansas, constructed as part of the project for navigation on the Arkansas River and tributaries, shall hereafter be known and designated as the "Winthrop Rockefeller Reservoir". Any law, regulation, document, or record of the United States in which such reservoir is referred to shall be held to refer to such reservoir as the "Winthrop Rockefeller Reservoir".

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

EMMETT SANDERS LOCK AND DAM

Mr. McNULTY. Mr. Speaker, I ask unanimous consent that the Committee on Public Works and Transportation be discharged from further consideration of the bill (H.R. 3167) to name a lock and dam on the Arkansas River, AR, as the "Emmett Sanders Lock and Dam," and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from Arizona?

Mr. HAMMERSCHMIDT. Mr. Speaker, reserving the right to object, H.R. 3167 names lock and dam 4 on the Arkansas Waterway after Emmett Sanders. Mr. Sanders, former mayor of the city of Pine Bluff, AR, has been a member of the Arkansas Basin Association since its inception. He played a leading role in bringing about the authorization and completion of the Arkansas River waterway system and he has been recognized by the Chief of Engineers for his work by being awarded the Department of the Army highest civilian award.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Arizona?

There was no objection.

The Clerk read the bill, as follows:

H.R. 3167

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That lock and dam numbered 4 on the Arkansas River, Arkansas, constructed as part of the project for navigation on the Arkansas River and tributaries, shall hereafter be known and designated as the "Emmett Sanders Lock and Dam" Any law, regulation, document, or record of the United States in which such lock and dam are referred to shall be held to refer to such lock and dam as the "Emmett Sanders Lock and Dam".

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

H.K. THATCHER LOCK AND DAM

Mr. McNULTY. Mr. Speaker, I ask unanimous consent that the Committee on Public Works and Transportation be discharged from further consideration of the bill (H.R. 5817) to designate the Calion Lock and Dam located on the Ouachita River, near Calion, AR, as the "H.K. Thatcher Lock and Dam," and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from Arizona?

Mr. HAMMERSCHMIDT. Mr. Speaker, reserving the right to object, H.R. 5817, names the Calion lock and dam on the Ouachita River near Calion, AR, after H.K. Thatcher. Mr. Thatcher served for 30 years, from 1950 to 1980, as executive vice president of the Ouachita River Valley Association. During that period, a modern navigation system for that river was authorized and constructed by the Corps of Engineers. His leadership was vital to this effort. The lock and dam to be named in his honor is located near his hometown of Camden, AR.

Mr. Speaker, these bills rename specific Corps of Engineers project features after deserving individuals. Water resources projects are initially identified by the Corps of Engineers based on nearby towns, rivers or other factors. Renaming such projects is a straight forward process that does not affect the projects nor incur costs. All of these projects are supported by local interest and it is they in fact who have made the recommendations that are in these brief bills.

Again, Mr. Speaker, these name changes are, I know, without controversy, and are strongly supported by interested groups and are cetainly well-deserved tributes to the important contributions made by these great Americans.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Arizona?

There was no objection.

The Clerk read the bill, as follows:

H.R. 5817

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That Calion Lock and Dam located on the Ouachita River near Calion, Arkansas, is named and designated as the "H.K. Thatcher Lock and Dam". Any reference in a law, map, regulation, document, record, or other paper of the United States to such lock and dam shall be held to be a reference to the "H.K. Thatcher Lock and Dam."

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

JACK D. MALTESTER CHANNEL

Mr. McNULTY. Mr. Speaker, I ask unanimous consent that the Committee on Public Works and Transportation be discharged from further consideration of the bill (H.R. 3701) to designate the main channel for the project for San Leandro Marina, CA, as the "Jack D. Maltester Channel," and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from Arizona?

Mr. HAMMERSCHMIDT. Mr. Speaker, reserving the right to object, I rise in support of this bill.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Arizona?

There was no objection.

The Clerk read the bill, as follows:

H.R. 3701

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the main channel for the project for San Leandro Marina, California, authorized by resolutions of the Committee on Public Works of the House of Representatives and the Committee on Public Works of the Senate dated June 22, 1971, and December 15, 1970, respectively under the provisions of section 201 of the Flood Control Act of 1965, shall hereafter be known and designated as the "Jack D. Maltester Channel". Any reference in a law, map, regulation, document, record or other paper of the United States to that channel shall be deemed to be a reference to the "Jack D. Maltester Channel".

AMENDMENT OFFERED BY MR. MC NULTY

Mr. McNULTY. Mr. Speaker, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. McNULTY: At the end of the bill, add the following:

SEC. 2. (a) The United States Post Office Building located at 41-65 Main Street, Flushing, New York, shall hereafter be

known and designated as the "Benjamin S. Rosenthal Post Office Building". Any reference in any law, map, regulation, document, record or other paper of the United States to that buiding shall be deemed to be a reference to the "Benjamin S. Rosenthal Post Office Building".

(b) As soon as practicable after the date of enactment of this Act, the Postmaster General shall install in such post office building, in a place in open view to the public, an appropriate plaque indicating the designation of the post office building pursuant to this section.

SEC. 3. (a) The social security building located at 300 Spring Garden Street, Philadelphia, Pennsylvania, and known as the Mid-Atlantic Program Service Center shall hereafter be known and designated as the "William A. Barret Social Security Building". Any reference in a law, map, regulation, document, record, or other paper of the United States to such building shall be held to be a reference to the "William A. Barrett Social Security Building".

(b) The United States Post Office Building located at 200 Chester Avenue, Moorestown, New Jersey, shall hereafter be known and designated as the "Edwin B. Forsythe Post Office Building". Any reference in a law, map, regulation, document, record, or other paper of the United States to such building shall be held to be a reference to the "Edwin B. Forsythe Post Office Building".

SEC. 4. The Federal Archives and Records Center located at 1000 Commodore Drive in San Bruno, California, is designated as the "Leo J. Ryan Memorial Federal Archives and Records Center". Any reference in a law, map, regulation, document, record or other paper of the United States to that building shall be deemed to be a reference to the "Leo J. Ryan Memorial Federal Archives and Records Center".

SEC. 5. (a) In accordance with section 7 of the Public Buildings Act of 1959, as amended, there is hereby authorized to be appropriated $54,297,000 from the fund established pursuant to section 210(f) of the Federal Property and Administrative Services Act of 1949, as amended, for the construction of an extension to the Records Center in Overland, Missouri.

(b) In accordance with section 7 of the Public Buildings Act of 1959, as amended, there is hereby authorized to be appropriated $59,790,000 from the fund established pursuant to section 210(f) of the Federal Property and Administrative Services Act of 1949, as amended, for major repairs and alterations to the Mart Federal Building in St. Louis, Missouri.

● Mr. YOUNG of Missouri. Mr. Speaker, this amendment will provide for the construction of an extension to the National Personnel Records Center in Overland, MO, at a cost of $54,297,000. The new construction project would satisfy a longstanding need for consolidation of the Army Reserve components personnel and administration center [RCPAC] and the Army Adjutant General Publications Center [AGPC] at the Overland, MO, National Personnel Records Center [NPRC]. As a result of the consolidation, one lease will be cancelled and 273 people will be moved out of the Mart Federal Building, which is proposed for renovation.

In addition, the amendment provides for the renovation of the Mart Federal Building in St. Louis, MO, at a cost of $59,790,000. The Mart Building repair and alteration project will allow relocation of agencies out of approximately 569,000 square feet of leased space, costing $4.6 million annually, into this Government-owned building in the St. Louis City Center.

These are worthy projects that will ultimately save the taxpayers funds which heretofore were used to pay for rent to house Federal agencies. I look forward to the administration requesting funding for these projects in the fiscal year 1986 budget request.●

The SPEAKER. The question is on the amendment offered by the gentleman from Arizona [Mr. MCNULTY].

The amendment was agreed to.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. MCNULTY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bills just passed.

The SPEAKER. Is there objection to the request of the gentleman from Arizona?

There was no objection.

AUTHORIZING U.S. PARTICIPATION IN THE INTERNATIONAL OFFICE OF THE VINE AND WINE

Mr. MICA. Mr. Speaker, I ask unanimous consent that the Committee on Foreign Affairs be discharged from further consideration of the Senate bill (S. 2583) to authorize U.S. participation in the Office International de la Vigne et du Vin (the International Office of the Vine and Wine), and ask for its immediate consideration.

The Clerk read the title of the Senate bill.

The SPEAKER. Is there objection to the request of the gentleman from Florida?

Mr. GILMAN. Mr. Speaker, reserving the right to object, and I shall not object, I commend the gentleman from Florida [Mr. MICA] for bringing this measure to the House floor at this time.

This legislation, authorizing U.S. participation in the International Office of Vine and Wine [IOVV] is supported by the administration. According to the administration the IOVV is the "most prestigious and influential intergovernmental trade issue concerning wine." Growers and importers are supportive of this legislation. Because of the volume of U.S. trade in wine and the possibilities of expanding U.S. exports, the administration believes the U.S. should join the IOVV.

Accordingly, I urge my colleagues to support S. 2583 and I withdraw my reservation.

Mr. MICA. Mr. Speaker, will the gentleman yield?

Mr. GILMAN. I yield to the gentleman from Florida.

Mr. MICA. Mr. Speaker, this legislation, if approved by the House, will allow the United States to participate in the International Office of Vine and Wine, an organization comprised of 31 member States representing all the world's principal wine producers and consumers, which was established in 1924 in Paris. The United States is the only major wine producer and consumer not participating in this organization.

The International Office of Vine and Wine is not an international regulatory agency. The organization's mission which originally related principally to wine was extended to vines and all other grape products. The organization studies scientific, technical, and economic problems relating to vine culture, production, conservation, commercialization, and consumption of wine, grape juice, table grapes, and raisins. The studies and projects are conducted and coordinated, as appropriate, by experts of the member countries. Final findings and recommendations are submitted to member States.

Over the years, the International Office of Vine and Wine has made great strides toward harmonizing international practices and technical requirements in this area. Currently, the lack of uniformity between United States and foreign technical requirements, specifically with respect to the regulations governing wine production practices, packaging, labeling, and certification and customs documentation constitute the principal obstacle to U.S. wine export trade.

These facts are of grave concern to the United States. Wine is a product of commercial significance to the United States worldwide. This country ranks 6th in wine production, 5th in wine imports and 15th in wine exports. Yet, we are suffering from a major wine trade deficit. To be specific, last year the United States imported close to $800 million worth of wine while exporting only the equivalent of $2 million.

The pronouncements of the International Office of Vine and Wine, though nonbinding, are significant since they have often been the basis of national legislation in many member countries that ultimately affect the wine markets the U.S. wine producers seek to enter.

By joining the International Office of Vine and Wine, U.S. wine producers and traders expect that active U.S. membership will provide an ideal

forum to express our concerns on trade issues and would contribute significantly to U.S. efforts to eliminate nontariff barriers impeding the access of U.S. wines to foreign markets.

The membership of the United States to the International Office of Vine and Wine enjoys the support not only of the administration, including the Departments of State and Treasury and the Office of Management and Budget, but also of the National Association of Beverage Importers, the Wine Institute, and the California Association of Winegrape Growers as well as other U.S. wine producers and associations.

This legislation will authorize the President to maintain U.S. membership in the International Office of Vine and Wine. However, it does not provide additional funding authorization to meet the anticipated assessed contribution that will be required if the United States joins the organization. The Department of State has informed the committee that existing funds will be available to cover the expected $15,000 annual assessed contribution.

Mr. GILMAN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Florida?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 2583

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the President is authorized to maintain membership of the United States in the Office International de la Vigne et du Vin (the International Office of the Vine and Wine).

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. MICA. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the Senate bill just passed.

The SPEAKER. Is there objection to the request of the gentleman from Florida?

There was no objection.

EXPRESSING SENSE OF CONGRESS CONCERNING OBLIGATIONS OF GOVERNMENT OF THE SOVIET UNION UNDER INTERNATIONAL LAW WITH RESPECT TO HUMAN RIGHTS

Mr. YATRON. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate concurrent resolution (S. Con. Res. 11), expressing the sense of the Congress concerning the obligations of the Government of the Soviet Union under international law with respect to human rights, and ask for its immediate consideration.

The Clerk read the title of the Senate concurrent resolution.

The SPEAKER. Is there objection to the request of the gentleman from Pennsylvania?

Mr. GILMAN. Mr. Speaker, reserving the right to object, I rise in support of Senate Concurrent Resolution 11, legislation addressing the Soviet Union's severe restrictions on Jewish emigration. I commend the gentleman from Florida, the distinguished chairman of our House Foreign Affairs Committee [Mr. FASCELL] and, the gentleman from Michigan, [Mr. SILJANDER] for his extensive work in helping to focus attention on this issue.

Emigration of Soviet Jewry has steadily dwindled from 51,000 in 1979 down to a mere trickle of 1,300 in 1983 and a projection of less than 1,000 for 1984.

The Soviet Union's systematic and persistent policy of denying emigration rights to refuseniks and others who dare to speak out against the Soviets is a blatant violation of numerous human rights conventions. Such agreements, which express the need for all members of the international community to promote and respect basic human rights, include the Helsinki Final Act and the Universal Declaration of Human Rights. Senate Concurrent Resolution 11 quite correctly asserts that the "fulfillment by the Government of the Soviet Union of its obligations with respect to internationally recognized emigration rights would significantly promote improved relations between the United States and the Soviet Union." The legislation also urges the President or his representatives to raise the emigration issue at every appropriate opportunity U.S. officials meet with representatives of the Soviet Union.

I am pleased that we are joined in support of this measure by the distinguished ranking minority member of the House Foreign Affairs Committee, the gentleman from Michigan [Mr. BROOMFIELD].

Accordingly, I urge my colleagues to support Senate Concurrent Resolution 11 so that our Nation can continue to raise this important issue of increasing levels of emigration from the Soviet Union.

Ms. OAKAR. Mr. Speaker, will the gentleman yield?

Mr. GILMAN. I yield to the gentlewoman from Ohio.

Ms. OAKAR. I want to commend the gentleman and the chairman for their fine work on this issue. I support the resolution, obviously.

As you know, having gone to the Soviet Union and met with some of the people who are really held hostage, and their human rights are taken away, I feel it is very important that we signal that we feel that emigration ought to be allowed just the way it is and in the manner in which we would allow people to emigrate to other countries, if they so desire.

I thank the gentleman.

Mr. GILMAN. I thank the gentlewoman for her remarks. I know that she has visited the Soviet Union recently and has been a staunch advocate of human rights behind the Iron Curtain.

Mr. Speaker, I am also pleased that we are joined in this effort by the distinguished ranking minority member, the gentleman from Michigan [Mr. BROOMFIELD].

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Pennsylvania.

There was no objection.

The Clerk read the Senate concurrent resolution, as follows:

S. CON. RES. 11

Whereas this policy has left tens of thousands of people seeking to emigrate from the Soviet Union with little hope of being granted permission to emigrate in the foreseeable future;

Whereas there are several hundred long-term "refuseniks", including many children, who applied to emigrate from the Soviet Union between 1970 and 1976 and have been waiting for permission to emigrate since that time;

Whereas those who have been denied emigration rights, especially the long-term "refuseniks", are often subjected to a life as internal refugees in the Soviet Union, resulting in loss of jobs, loss of membership in important social and professional organizations, revocation of academic degrees, surveillance and arbitrary assault, and other forms of harassment of social isolation;

Whereas these individuals also suffer physical, emotional, and psychological problems which result from social isolation;

Whereas these individuals are also denied the right to cultural expression, evidenced by the breaking up of cultural seminars and Hebrew classes and harassment by Soviet officials of those individuals participating in those forms of cultural expression;

Whereas these individuals are subjected to arbitrary arrest, imprisonment, and internal exile, as is the case with the Jewish "Prisoners of Conscience" currently serving sentences in the Soviet Union;

Whereas it is the stated policy of United States law, including section 502B(a)(1) of the Foreign Assistance Act of 1961 and section 402 of the Trade Act of 1974, that human rights considerations are a vital element of United States foreign policy; and

Whereas the Government of the Soviet Union, by arbitrarily denying its citizens the right to emigrate and the right to religious and cultural expression, and by harassing members of a specific ethnic group, is violating the norms of international law as set forth in agreements and declarations such as the Final Act of the Conference on Security and Cooperation in Europe (hereafter in this concurrent resolution referred to as the "Helsinki Final Act"), the Universal Declaration of Human Rights, the International Covenant on Civil and Political Rights, the International Covenant on Eco-

momic, Social and Cultural Rights, the International Labor Organization Convention Concerning Employment Policy, and the UNESCO Convention Against Discrimination in Education: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That it is the sense of the Congress that—

(1) the Government of the Soviet Union should fulfill obligations undertaken in the Helsinki Final Act, the Universal Declaration of Human Righs, and other international agreements relating to human rights, by pursuing a more humane emigration policy and ceasing harassment of Jews and others seeking to emigrate;

(2) the fulfillment by the Government of the Soviet Union of its obligations with respect to internationally recognized emigration rights would significantly promote improved relations between the United States and the Soviet Union;

(3) The President or his representatives should convey to the Government of the Soviet Union the concerns of the Congress expressed in this concurrent resolution at every appropriate opportunity, including—

(A) at such time as agreements are negotiated between the United States and the Soviet Union in the areas of trade, commerce, including grain sales, and science and technology exchange; and

(B) at such time as the President or his representatives meet with leaders of the Soviet Union concerning other aspects of relations betwen the two countries; and

(4) the President or his representatives should also convey these concerns of the Congress to the governments of allies of the United States and urge the cooperation of those governments in efforts to promote emigration from the Soviet Union.

SEC. 2. The Secretary of the Senate shall transmit a copy of this concurrent resolution to the President with the request that he transmit such copy to the Chairman of the Presidium of the Supreme Soviet of the Soviet Union.

The SPEAKER. The Chair recognizes the gentleman from Pennsylvania [Mr. YATRON].

Mr. YATRON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of Senate Concurrent Resolution 11, expressing the sense of the Congress concerning the violations of the international obligations by the Soviet Union with respect to its Jewish population.

Senate Concurrent Resolution 11 is the Senate version of House Concurrent Resolution 63, which passed the House by voice vote on November 17, 1983. As one of the original sponsors of House Concurrent Resolution 63, along with our colleagues, Representative LES AUCOIN and Representative BARBARA KENNELLY, I am pleased to report that this measure had approximately 200 cosponsors, including 22 members of the Foreign Affairs Committee when it passed the House.

I ask unanimous consent at this point to include in the RECORD a list of cosponsors of House Concurrent Resolution 63.

Senate Concurrent Resolution 11 and House Concurrent Resolution 63 express the sense of the Congress that the Soviet Union should fulfill its obligations undertaken in the Helsinki Final Act, the Universal Declaration of Human Rights and other international agreements relating to human rights by pursuing a more humane emigration policy and ceasing harassment of Jews and others seeking to emigrate.

Mr. Speaker, there is another resolution expressing the sense of the Congress with respect to repressive emigration policies pursued by the Soviet Union—House Concurrent Resolution 279, which was introduced by the honorable MARK SILJANDER and 41 cosponsors. I should also point out that our colleague, Mr. SILJANDER, is a cosponsor of House Concurrent Resolution 63.

Because Senate Concurrent Resolution 11 encompasses the thrust and most of the language of all of the resolutions, it is the logical legislation to act upon.

Mr. Speaker, I want to commend the principal sponsors of these resolutions, representatives LES AUCOIN, BARBARA KENNELLY, and MARK SILJANDER for bringing this important issue to the attention of the House. The Commission on Security and Cooperation in Europe has also been vitally involved in this matter and in actions to ease the emigration restrictions on Soviet Jews. I want to pay a special tribute to Congressman FASCELL, who chairs this distinguished panel, as well as the Foreign Affairs Committee. His tireless efforts and superb leadership have kept this matter at the forefront of the public agenda.

The situation for Jews wishing to leave the Soviet Union is bleak. Jewish emigration levels which were intolerable when the resolution was introduced nearly 2 years ago, have declined since that time. They have reached a 14-year nadir of less than 75 per month.

What makes this situation particularly critical is the fact that those who seek to emigrate, but are denied that right, are then subjected to insufferable conditions. These so-called refuseniks then become the sufferers of oppression within the Soviet Union. Frequently, ousted from their homes and jobs, they may also be stripped of their academic degrees and professional affiliations.

Further, many are harassed, assaulted, and arbitrarily imprisoned. All are denied any semblance of religious freedom or cultural expression.

As chairman of the Subcomittee on Human Rights and International Organizations, I have been closely monitoring this serious situation and actively working for appropriate redress. It is critical that the emigration picture be brightened. Tens of thousands of Jewish individuals in the Soviet Union wish to leave. They are virtual or even actual prisoners. The harassment must cease. They must be treated humanely, and permitted to emigrate.

Mr. Speaker, I urge the adoption of Senate Concurrent Resolution 11. It represents an important step in helping many who suffer the horrible injustices of Soviet repression.

□ 1310

Mr. WALKER. Mr. Speaker, will the gentleman yield?

Mr. YATRON. I yield to my colleague from Pennsylvania.

Mr. WALKER. I thank the gentleman for yielding.

Mr. Speaker, I want to commend the gentleman [Mr. YATRON] for bringing this resolution to the floor.

It does raise one question, though: Have we not passed resolutions similar to this in the past in the Congress asking the Soviet Union to be more forthcoming with regard to emigration policies?

Mr. YATRON. Mr. Speaker, the response is yes, we did, but the Senate has not acted upon it; yes.

Mr. WALKER. But in past Congresses have we not actually enacted resolutions similar to this one, I would ask the gentleman?

Mr. YATRON. Well, the House last November 17, sent it over to the Senate, but the Senate sent it back to us.

Mr. WALKER. I thank the gentleman.

Mr. Speaker, the point I was making was that it seems to me in past Congresses we have enacted resolutions that are very similar to this one and we have not had a positive response from the Soviet Union whatsoever with regard to this issue. In other words, we keep passing resolutions, the Soviet Union keeps ignoring the issue.

While it is certainly commendable that we pass these kinds of resolutions, it seems to me that at some point we may want to go further than the resolutions and begin to talk about sanctions against the Soviet Union if they do not begin to respond positively.

I think it is an appalling condition of human rights that we are addressing here and sometime that Congress and the American Government may have to go beyond mere words on the issue.

I thank the gentleman for yielding.

Mr. COURTER. Mr. Speaker, will the gentleman yield?

Mr. YATRON. I yield to my colleague from New Jersey.

Mr. COURTER. I thank the gentleman for yielding.

Mr. Speaker, I would just like to say that I am very much in favor of the passage of the Senate concurrent resolution, indeed the House passed resolutions similar to this before, but there is no harm in my mind in repeat-

ing the observation that the Soviet Union has engaged in repetitious acts of human rights violations, particularly with respect to their policy discouraging the free emigration of individuals from the Soviet Union.

As my colleague from New York [Mr. GILMAN] has indicated before, the number of emigrants has drastically reduced from round 50,000, if my recollection is correct, 4 or 5 years ago to less than 1,000 today.

No one here believes, no one in the United States believes, no one in the free world believes, Mr. Speaker, that the reason for the reduction is because all the people that want to leave have already left. That is the Soviet Union's response: "The reason now there is only 800 or 900 rather than 50,000 is that everybody loves it here." You do not believe that, we do not believe that.

The Soviet Union has consistently violated international agreements, the Helsinki Final Act that we are talking about today, other international agreements as well.

So I commend the gentleman [Mr. YATRON] and I commend everybody who spoke on behalf of or cosponsored this resolution. We are doing it even though we cannot affect the Soviet behavior, we are doing it because of a moral imperative to speak out.

Mr. Speaker, I thank the gentleman for yielding.

Mr. YATRON. Mr. Speaker, I thank my colleague from New Jersey for his contribution and I also want to thank my colleague from Pennsylvania [Mr. WALKER] for his comments prior thereto.

● Mr. FASCELL. Mr. Speaker, I rise in support of Senate Concurrent Resolution 11, expressing the sense of Congress concerning the obligations of the Government of the Soviet Union under international law with respect to human rights.

The resolution now before the House is similar to House Concurrent Resolution 63, a House-passed measure which was considered last November. I would like to take this opportunity to mention the primary sponsors of the resolution, which had broad bipartisan support and cosponsorship. The Honorables LES AUCOIN, BARBARA KENNELLY, and GUS YATRON, who chairs the Foreign Affairs Subcommittee on Human Rights and International Organizations, are to be commended for their initiative in introducing the resolution. In addition, I wish to cite the Honorable MARK SILJANDER for his leadership in sponsoring similar measures on this important human rights issue.

Senate Concurrent Resolution 11 does not deal with a new topic. Unfortunately, the issue of Jews being denied emigration rights has been a longstanding and troublesome matter. Soviet emigration statistics for its Jewish population have declined precipitously. The situation for Soviet Jews has gone from aggravated to acute—even children are affected. Tens of thousands wish to leave—only 75 per month are now permitted to do so. Those who remain have no prospects for a viable future—they are harassed, abused, denied exercise of their religious and ethnic heritage, as well as sealed within Soviet borders.

The essence of Senate Concurrent Resolution 11 calls on the Soviet Government to abide by its international obligations concerning its citizens' rights, and to urge less restrictive emigration policies. Further it calls on U.S. officials to raise these concerns at every appropriate opportunity, and in the context of all phases of our relations with the Soviet Union.

Mr. Speaker, I urge the adoption of Senate Concurrent Resolution 11, and a Soviet move to relax its emigration policies, and respect the fundamental rights of its people.●

● Mr. BROOMFIELD. Mr. Speaker, I offer my strong support of this concurrent resolution. Our government must do something about the Soviets' efforts to virtually halt Jewish emigration from that country.

The tragic Soviet policy of denying thousands of people the right to emigrate is one of the great tragedies of this decade. Refuseniks are subject to arbitrary arrests, harassment, and often lose their jobs. Others are denied the right to cultural expression. All of this is being done by Soviet leaders in clear violation of the Helsinki Final Act.

I support this effort to convey our concerns to the Soviet Union. I urge my colleagues to do the same.●

The SPEAKER. Without objection, the previous question is ordered.

There was no objection.

The Senate concurrent resolution was concurred in.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. YATRON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the Senate concurrent resolution just concurred in.

The SPEAKER. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

A TRIBUTE TO JACK H. STALLINGS

(Mr. COLEMAN of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COLEMAN of Texas. Mr. Speaker, the west Texas community of El Paso suffered a grievous loss with the passing of one of its finest native sons, Jack H. Stallings.

Born in El Paso on January 27, 1935, Jack Stallings symbolized the west Texas dream of achieving success through hard work and determination. In this age of corporate agribusiness, Jack was a magnificent contrast; he was truly one of the finest individual farmers in El Paso's lower valley.

As founder of Stallings Farms, he was close to the soil and to the land. He was deeply involved in land use, water and agriculture, and had the highest concern for the integrity of the environment. With his vision and his energy, he was singularly responsible for the development of the El Paso chile crop, where there was none before, and he was a leader of the Trans-Pecos cotton growers for many, many years.

Before his death, he was active in many agricultural, civic, and business groups, including the El Paso Valley Cotton Association, the Farmers Administration Board of El Paso County, the Rio Grande Regional Environmental project, the Agricultural and Natural Resource Council, and many others.

I am certain no one person knows of everything Jack did for his fellow man, but we all know how deeply he felt for everyone and everything that lived. His friends were not just those who were powerful or wealthy—everyone was important to him.

How fortunate it is for so many, and for me, that he passed our way and affected our lives.

Above all, Jack Stallings was a devoted father and husband whose life was taken away so early.

Mr. Speaker, like so many, he was my friend. We will miss him but we will not forget him.

CIVIL SERVICE RETIREMENT SPOUSE EQUITY ACT OF 1984

Ms. OAKAR. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 2300) to provide retirement equity for former spouses of civil service retirees, and for other purposes, with Senate amendments thereto, and concur in the Senate amendments.

The Clerk read the title of the bill.

The Clerk read the Senate amendments, as follows:

Page 4, line 24, after "commenced" insert: ", plus interest. For the purposes of the preceding sentence, the annual rate of interest for each year during which the annuity would have been reduced if the election had been in effect since the date the annuity commenced shall be 6 percent".

Page 6, line 3, after "subsection." insert: "In the case of a retired employee or Member whose annuity is being reduced in order to provide a survivor annuity for a former spouse, an election to provide or increase a survivor annuity for any other

former spouse (and to continue an appropriate reduction) may be made within the same period that, and subject to the same conditions under which, an election could be made under paragraph (5)(B) of this subsection for a current spouse (subject to the provisions of this paragraph relating to consent of a current spouse, if the retired employee or Member is then married). The opportunity to make an election under the preceding sentence is in addition to any opportunity otherwise afforded under this paragraph.".

Page 8, line 19, after "paragraph" insert: , plus interest. For the purposes of the preceding sentence, the annual rate of interest for each year during which an annuity would have been reduced if the election had been in effect on and after the applicable date referred to in such sentence shall be 6 percent.

Page 10, line 17, after "time" insert: , plus interest. For the purposes of the preceding sentence, the annual rate of interest for each year during which the annuity would have been reduced if the election had been in effect since the date the annuity commenced shall be 6 percent.

Page 20, line 23, strike out "an unremarried" and insert "a".

Page 20, after line 25, insert:

(A) who has not remarried before age 55 after the marriage to the employee, former employee, or annuitant was dissolved,

TITLE II—PERFORMANCE MANAGEMENT AND RECOGNITION SYSTEM

ESTABLISHMENT OF PERFORMANCE MANAGEMENT AND RECOGNITION SYSTEM

SEC. 201. (a) Chapter 54 of title 5, United States Code, is amended to read as follows:

"CHAPTER 54—PERFORMANCE MANAGEMENT AND RECOGNITION SYSTEM

"Sec.
"5401. Purpose.
"5402. Coverage.
"5403. General pay increases.
"5404. Merit increases.
"5405. Pay administration.
"5406. Performance awards.
"5407. Cash award program.
"5408. Report.
"5409. Regulations.
"5410. Termination.

"§ 5401. Purpose

"It is the purpose of this chapter to provide for a performance management and recognition system which shall—

"(1) use performance appraisals as the basis for—(a) determining adjustments in basic pay by general pay increases and merit increases, and (b) making performance award determinations;

"(2) within available funds, recognize and reward quality performance by varying amounts of performance and cash awards;

"(3) within available funds, provide for training to improve accuracy, objectivity, and fairness in the evaluation of performance;

"(4) regulate the costs of performance awards by establishing funding level requirements; and

"(5) provide the means to reduce or withhold certain pay increases for less than fully successful performance.

"§ 5402. Coverage

"(a) Except as provided in subsection (b) or (c) of this section, this chapter shall apply to any supervisor or management official (as defined in paragraphs (10) and (11) of section 7103(a) of this title, respectively) who is in a position within grade GS-13, GS-14, or GS-15 of the General Schedule described in section 5104 of this title.

"(b)(1) Upon request filed under paragraph (3) of this subsection, the President may, in writing, exclude an agency, any unit of an agency, or any class of employees within any such unit, from the application of this chapter, if the President considers such exclusion to be required as a result of conditions arising from—

"(A) the recent establishment of the agency, unit, or class, or the implementation of a new program;

"(B) an emergency situation; or

"(C) any other situation or circumstance.

"(2) Any exclusion under this subsection shall not take effect earlier than 30 calendar days after the President transmits to each House of the Congress a report describing the agency, unit, or class to be excluded and the reasons therefor.

"(3) a request for exclusion of an agency, any unit of an agency, or any class of employees within any such unit, under this subsection shall be filed by the head of the agency with the Office of Personnel Management, and shall set forth reasons why the agency, unit, or class should be excluded from the application of this chapter. The Office shall review the request and reasons therefor, undertake such other review as it considers appropriate to determine whether the agency, unit, or class should be excluded from the application of this chapter and, upon completion of its review, recommend to the President whether the agency, unit, or class should be so excluded.

"(4) Any agency, unit, or class which is excluded pursuant to this subsection shall, insofar as practicable, make a sustained effort to eliminate the conditions on which the exclusion is based.

"(5) The Office shall periodically review any exclusion from coverage and may at any time recommend to the President that an exclusion under this subsection be revoked. The President may at any time revoke, in writing, any exclusion under this subsection.

"(6) The Office shall prescribe regulations under which an employee may be excluded from the application of this chapter other than as part of an agency, unit, or class so excluded under the preceding paragraphs of this subsection. To the extent practicable, the regulations shall be based on the provisions of such paragraphs.

"(c) This chapter shall not apply to individuals employed under the Office of the Architect of the Capitol, the Library of Congress, the Botanic Garden, or the Administrative Office of the United States Courts.

"§ 5403. General pay increases

"(a) For purposes of this section, a pay adjustment period, in the case of an employee covered by this chapter, shall be the period beginning on the first day of the first pay period applicable to such employee commencing on or after the first day of the month in which an adjustment takes effect under section 5305 of this title and ending at the close of the day before the beginning of the following pay adjustment period.

"(b) A determination concerning a general pay increase under this section shall, for any pay adjustment period, be made based on the level of performance of the employee involved, as determined for the latest appraisal period under section 4302a of this title (or an equivalent rating system) before the beginning of such pay adjustment period.

"(c) Subject to section 5405(a)(1)(A) of this title, if the employee's performance is rated—

"(1) at the fully successful level or either of the 2 levels above the fully successful level, the rate of basic pay of the employee shall be increased by the full general pay increase, effective as of the beginning of the pay adjustment period;

"(2) at the level 1 level below the fully successful level, the rate of basic pay of the employee shall be increased by one-half of the full general pay increase, effective as of the beginning of the pay adjustment period; or

"(3) at the level 2 levels below the fully successful level, the rate of basic pay of the employee shall not be increased under this section.

"(d) A full general pay increase for any pay adjustment period under this section shall be determined by multiplying on the day immediately preceding the pay adjustment period the rate of basic pay of the employee involved by the percentage corresponding to the percentage generally applicable under section 5305 of this title to positions not covered by this chapter which are in the same grade as the position held by such employee.

"(e)(1) The basic pay of an employee for whom a determination under section 4302a of this title (or an equivalent rating system) for the latest appraisal period is not available shall be adjusted under this subsection in such circumstances as the Office of Personnel Management shall by regulation prescribe.

"(2) Any adjustment made under this subsection shall be equal to an adjustment under subsection (c)(1) of this section.

"§ 5404. Merit increases

"(a) For purposes of this section—

"(1) the term 'applicable reference rate', as used with respect to the rate of basic pay of an employee, means the rate equal to the sum of—

"(A) the minimum rate of basic pay provided under section 5332 of this title for the grade of the position held by such employee; and

"(B) one-third of the difference between the maximum rate of basic pay provided for such grade under such section and the minimum rate of basic pay so provided;

"(2) the term 'merit increase' means, with respect to a grade, an increase equal to one-ninth of the difference between the maximum rate of basic pay provided for such grade under section 5332 of this title and the minimum rate of basic pay so provided; and

"(3) a reference to the performance rating of an employee shall, for purposes of any increase which may take effect under this section in a year, be considered to be a reference to the level of performance of such employee, as determined for the latest appraisal period under section 4302a of this title (or an equivalent rating system) before the effective date of such increase.

"(b) Subject to section 5405(a)(1)(A) of this title, under regulations prescribed by the Office of Personnel Management, the rate of basic pay of an employee covered by this chapter shall be increased each year in accordance with the applicable provisions of subsection (c) of this section, effective as of the beginning of the first applicable pay period commencing on or after October 1 of such year.

"(c)(1)(A) If the rate of basic pay of the employee does not equal or exceed the applicable reference rate on the day before the effective date of an increase under this section, and the performance of such employee is rated at the fully successful level or either of the 2 levels above the fully successful level, the rate of basic pay of the employee shall be increased by an amount equivalent to a merit increase.

"(B) If the rate of basic pay of the employee equals or exceeds the applicable reference rate on the day before the effective date of an increase under this section, and the performance of such employee is rated—

"(i) at the level 2 levels above the fully successful level, the rate of basic pay of the employee shall be increased by an amount equivalent to a merit increase;

"(ii) at the level 1 level above the fully successful level, the rate of basic pay of the employee shall be increased by an amount equivalent to one-half of a merit increase; or

"(iii) at the fully successful level, the rate of basic pay of the employee shall be increased by an amount equivalent to one-third of a merit increase.

"(2) The rate of basic pay of an employee whose performance is rated at either of the 2 levels below the fully successful level shall not be increased under this section for the year involved.

"(d) The Office of Personnel Management shall prescribe regulations under which this section shall be applied in the case of an employee for whom a determination under section 4302a of this title (or an equivalent rating system) for the latest appraisal period is not available.

"§ 5405. Pay administration

"(a)(1) An employee covered by this chapter—

"(A) may not be paid at a rate greater than the maximum rate of basic pay for the grade of the employee's position, as set forth in section 5332 of this title; and

"(B) except as provided in paragraph (2) of this subsection, may not be paid at a rate less than the minimum rate of basic pay for such grade, as set forth in section 5332 of this title.

"(2) An employee may be paid at a rate less than the minimum rate of basic pay for the grade of such employee's position to the extent that payment of the lesser rate is the result of the employee having received less than a full general pay increase under section 5403 of this title.

"(b) Any employee whose position is brought under this chapter shall, so long as the employee continues to occupy the position, be entitled to receive basic pay at a rate of basic pay not less than the rate the employee was receiving when the position was brought under this chapter, plus any subsequent increases under sections 5403 and 5404 of this title.

"(c) The Office of Personnel Management shall prescribe regulations governing the method by which an increase under section 5403 of this title and an increase under section 5404 of this title shall be made in any case in which both of those increases are to take effect beginning on the same date.

"(d) Under regulations which the Office shall prescribe, the benefit of advancement through the range of basic pay for a grade shall be preserved for any employee who is covered by this chapter and whose continuous service is interrupted in the public interest by service in the Armed Forces, or by service in essential non-Government civilian employment during a period of war or national emergency.

"(e) For the purpose of section 5941 of this title, rates of basic pay of employees covered by this chapter shall be considered rates of basic pay fixed by statute.

"(f) In the case of an employee covered by this chapter for whose position a higher rate of basic pay has been established under section 5303 of this title, any reference in this chapter to a rate of basic pay provided under or set forth in section 5332 of this title shall be deemed to be a reference to the corresponding rate of basic pay established under such section 5303.

"§ 5406. Performance awards

"(a)(1) Any employee who is covered by this chapter, and whose performance for an appraisal period is rated under section 4302a of this title (or an equivalent rating system) at the level 2 levels above the fully successful level, shall be paid a performance award under this section for such period.

"(2)(A) The amount of a performance award referred to in paragraph (1) of this subsection shall be determined by the appropriate agency head, except that any such award shall be not more than 10 percent of the employee's annual rate of basic pay and, effective after fiscal year 1985, shall be not less than 2 percent of such annual rate.

"(B) Notwithstanding subparagraph (A) of this paragraph, a performance award exceeding 10 percent but not exceeding 20 percent of the employee's annual rate of basic pay may be paid if the agency head determines that such award is warranted by unusually outstanding performance.

"(b)(1) Any employee who is covered by this chapter, and whose performance for an appraisal period is rated under section 4302a of this title (or an equivalent rating system) at the level 1 level above the fully successful level or at the fully successful level, may be paid a performance award under this section for such period.

"(2) The amount of a performance award referred to in paragraph (1) of this subsection shall be determined by the appropriate agency head, except that any such award shall be not more than 10 percent of the employee's annual rate of basic pay.

"(c)(1) Subject to subsections (a)(2) and (b)(2) of this section, the aggregate amount of performance awards paid under this section by an agency during any fiscal year shall be—

"(A) not less than the product of—

"(i) the applicable minimum percentage for such year under paragraph (2) of this subsection, multiplied by

"(ii) the estimated aggregate amount of basic pay which will be payable to employees of the agency covered by the performance management and recognition system during such year, as determined by the head of the agency, taking into consideration the number of employees who were covered by such system during the preceding fiscal year (or by the merit pay system in the case of fiscal year 1984) and the applicable rates of basic pay in such preceding year; and

"(B) not more than the product of—

"(i) the applicable maximum percentage for such year under paragraph (2) of this subsection, multiplied by

"(ii) the amount under subparagraph (A)(ii) of this paragraph for such year.

"(2)(A)(i) The applicable minimum percentage—

"(I) shall be .75 percent for fiscal year 1985;

"(II) shall, for each of the 4 fiscal years thereafter, be adjusted incrementally (by equal increments or otherwise) over the percentage for the preceding fiscal year by the appropriate agency head in accordance with regulations which the Office of Personnel Management shall prescribe; and

"(III) shall, as a result of the final adjustment, be increased to 1.15 percent for fiscal year 1989.

"(ii) The applicable maximum percentage for each of the 5 fiscal years during which this chapter is in effect shall be 1.5 percent.

"(B)(i) Notwithstanding subparagraph (A) of this paragraph, in the case of an agency described in clause (ii) of this subparagraph the applicable minimum percentage for any fiscal year during which this chapter is in effect shall be a percentage, not less than the minimum percentage described in subsection (2)(A)(i) and not to exceed 10 percent, which the Office shall by regulation prescribe.

"(ii) This subparagraph applies to an agency in a fiscal year if the average number of employees employed under such agency during the immediately preceding fiscal year was equal to or less than the equivalent of 20 full-time employees.".

"(d) A failure to pay a performance award authorized by subsection (b) of this section may not be appealed.

"(e) A performance award paid to an employee under this section shall be in addition to the basic pay of the employee and any cash paid under section 5407 of this title.

"§ 5407. Cash award program

"(a) The head of an agency may pay a cash award to, and incur unnecessary expenses for the honorary recognition of, any employee who is covered by this chapter, and who—

"(1) by the employee's suggestion, invention, superior accomplishment, or other personal effort, contributes to the efficiency, economy, or other improvement of Government operations, or achieves a significant reduction in paperwork; or

"(2) performs a special act or service in the public interest in connection with or related to the employee's Federal employment.

"(b) The President may pay a cash award to, and incur necessary expenses for the honorary recognition of, any employee who is covered by this chapter, and who—

"(1) by the employee's suggestion, invention, superior accomplishment, or other personal effort, contributes to the efficiency, economy, or other improvement of Government operations, or achieves a significant reduction in paperwork; or

"(2) performs an exceptionally meritorious special act or service in the public interest in connection with or related to the employee's Federal employment.

A Presidential cash award may be in addition to an agency cash award under subsection (a) of this section.

"(c) A cash award paid to an employee under this section shall be in addition to the basic pay of the employee and any performance award paid under section 5406 of this title. Acceptance of a cash award under this section constitutes an agreement that the use by the Government of any idea, method, or device for which the award is made does not form the basis of any claim of any nature against the Government by the employee accepting the award, or the employee's heirs or assigns.

"(d) A cash award to, and expenses for the honorary recognition of, any employee who is covered by this chapter may be paid from the fund or appropriation available to the activity primarily benefiting, or the various activities benefiting, from the suggestion, invention, superior accomplishment, or other meritorious effort of the employee. The head of the agency concerned shall determine the amount to be contributed by each activity to any agency cash award under subsection (a) of this section. The President shall determine the amount to be contributed by each activity to a Presidential award under subsection (b) of this section.

"(e)(1) Except as provided in paragraph (2) of this subsection, a cash award under this section may not exceed $10,000.

"(2) If the head of an agency certifies to the Office of Personnel Management that the suggestion, invention, superior accomplishment or other meritorious effort of an employee for which a cash award is proposed is highly exceptional and unusually outstanding, a cash award in excess of $10,000 but not in excess of $25,000 may be awarded to the employee on the approval of the Office.

"(f) The President or the head of an agency may pay a cash award under this section notwithstanding the death or separation from the service of an employee, if the suggestion, invention, superior accomplishment, or other meritorious effort of the employee for which the award is proposed was made or performed while the employee was covered by this chapter.

"§ 5408. Report

"The Office of Personnel Management shall submit an annual report to the President and each House of the Congress evaluating the effectiveness of the performance management and recognition system established by this chapter. Each such report shall be prepared after consultation with the respective heads of a sufficient range of agencies so as to permit an adequate basis for making a meaningful evaluation.

"§ 5409. Regulations

"The Office of Personnel Management shall prescribe regulations to carry out this chapter.

"§ 5410. Termination

"This chapter and any regulations prescribed under this chapter shall cease to be effective after September 30, 1989.".

(b) The table of chapters at the beginning of part III of title 5, United States Code, is amended by striking out the item relating to chapter 54 and inserting in lieu thereof the following:

"54. Performance Management and Recognition System..... 5401".

PERFORMANCE APPRAISAL SYSTEMS

SEC. 202. (a) Chapter 43 of title 5, United States Code, is amended by inserting after section 4302 the following new section:

"§ 4302a. Establishment of performance appraisal systems for performance management and recognition system employees

"(a) Each agency shall develop 1 or more performance appraisal systems for employees covered by chapter 54 of this title which—

"(1) provide for periodic appraisals of job performance of such employes;

"(2) require the joint participation of the supervising official and the employee in developing performance standards with authority for establishing such standards resting with the supervising official; and

"(3) use the results of performance appraisals as a basis—

"(A) for adjusting the base pay and making performance award decisions with respect to any such employee in accordance with the applicable provisions of such chapter 54; and

"(B) for training, rewarding, reassigning, promoting, reducing in grade, retaining, and removing any such employee.

"(b) Under regulations which the Office of Personnel Management shall prescribe, each performance appraisal system under this section shall provide for—

"(1) 5 levels of summary performance ratings as follows:

"(A) 2 levels which are above the fully successful level;

"(B) a fully successful level; and

"(C) 2 levels which are below the fully successful level;

"(2) establishing, in writing, the critical elements of each employee's position and the performance standards for the fully successful level for each such element which will, to the maximum extend feasible, permit accurate evaluation of job performance on the basis of objective criteria related to the job in question;

"(3) communicating, at the beginning of each appraisal period and in writing, to each employee who is covered by chapter 54 of this title the performance standards and critical elements of the employee's position;

"(4) evaluating each such employee during the appraisal period on the basis of such standards;

"(5) assisting any such employee in improving performance rated at a level below the fully successful level; and

"(6) reassigning, reducing in grade, or removing any employee who continues to perform at the level which is 2 levels below the fully successful level, after such employee has been provided with written notice of such employee's rating and afforded reasonable opportunity to raise such employee's level of performance to the fully successful level or higher.

"(c)(1) Appraisals of performance under this section—

"(A) shall take into account individual performance and may take into account organizational accomplishment;

"(B) shall be based on factors such as—

"(i) any improvement in efficiency, productivity, and quality of work or service, including any significant reduction in paperwork;

"(ii) cost efficiency;

"(iii) timeliness of performance;

"(iv) other indications of the effectiveness, productivity, and quality of performance of the employees for whom the employee is responsible; and

"(v) meeting affirmative action goals and achievement of equal employment opportunity requirements;

"(C) may be reviewed by an employee of the agency in accordance with procedures established by the Office of Personnel Management;

"(D) shall, on request of the employee whose performance is appraised, be reconsidered by an employee of the agency in accordance with procedures established by the Office; and

"(E) may not be appealed outside the agency.

"(2) Reconsideration of an appraisal under paragraph (1)(D) of this subsection may be made only by an employee who is in a higher position in the agency than each employee who made, reviewed, or approved the appraisal.

"(d)(1) In order to promote the purposes of this section, there shall be established within each agency a performance standards review board (hereinafter in this subsection referred to as the 'board'), consisting of at least 6 members, all of whom shall be chosen by the agency head from individuals employed in or under such agency. Of the members, at least one-half shall be employees who are covered by chapter 54 of this title and who are in the competitive service. A board shall be chaired by the member of the board designated for that purpose by the agency head.

"(2) It shall be the function of each board—

"(A) to assess, by the use of representative sampling techniques, the appropriateness of performance standards developed and used by the agency under this section;

"(B) to study the feasibility of an awards program based on the collective performance of units or other groups of employees who are covered by chapter 54 of this title, and to submit as part of its annual report under paragraph (3) of this subsection recommendations for any actions which the board considered appropriate with respect to any such program; and

"(C) to provide technical assistance with respect to any demonstration projects which may relate to performance standards of the agency under this section.

"(3) A board shall report to the head of the agency on its activities under this subsection annually.

"(e) In carrying out this section, neither the Office nor any other agency may prescribe a distribution of levels of performance ratings for employees covered by chapter 54 of this title.

"(f) The Office may not prescribe, or require an agency to prescribe, any specific performance standard or element for purposes of this section.

"(g) This section and any regulations prescribed under this section shall cease to be effective as of the date on which chapter 54 of this title ceases to be effective.".

(b) The table of sections for chapter 43 of title 5, United States Code, is amended by inserting after the item relating to section 4302 the following new item.

"4302a. Establishment of performance appraisal systems for performance management and recognition system employees.".

MERIT INCREASES AS EQUIVALENT INCREASES IN PAY

SEC. 203. Section 5335 of title 5, United States Code, is amended by adding at the end thereof the following new subsection:

"(f) Notwithstanding subsection (d) or (e) of this section, an increase in pay granted under section 5404 of this title is an equivalent increase in pay within the meaning of subsection (a) of this section and shall be taken into account in the case of any employee who, before becoming subject to this section, was granted such an increase while covered by the performance management and recognition system established under chapter 54 of this title.".

TECHNICAL AND CONFORMING AMENDMENTS

SEC. 204. (a) Title 5, United States Code, is amended—

(1) in sections 4501(2)(A), 5332(a), 5334(c)(2), 5334(f), 5336(c), and 5362(c)(3), by striking out "the merit pay system established under section 5402" each place it appears and inserting in lieu thereof "the performance management and recognition system established under chapter 54";

(2) in section 5361(5), by striking out "merit pay system" and inserting in lieu thereof "performance management and recognition system"; and

(3) in section 5948(g)(1)(C), by striking out "Merit Pay System" and inserting "performance management and recognition system".

(b) Section 1602 of title 10, United States Code, and section 731(b) of title 31, United States Code, are each amended by striking out "5401(a)" and inserting in lieu thereof "5401".

EFFECTIVE DATE; TRANSITION PROVISIONS

SEC. 205. (a) The amendments made by this title shall be effective as of October 1, 1984, and shall apply with respect to pay periods commencing on or after that date.

(b) The rate of basic pay for any individual serving in a position—

(1) which is in the merit pay system before the date on which the amendments made by this title take effect, but

(2) which does not become covered by the performance management and recognition system,

shall not be reduced on account of such position not becoming so covered.

(c) The rate of basic pay for any individual serving in a position which ceases to be covered by the performance management and recognition system as a result of the termination of such system under section 5410 of title 5, United States Code, as amended by this title, shall not be reduced on account of such termination.

(d)(1) Except as provided in paragraph (2), any agency or unit of an agency which, immediately before the date of enactment of this Act, was excluded from coverage under the merit pay system shall be excluded from coverage under the performance management and recognition system for the 12-month period beginning on such date of enactment.

(2) An exclusion under paragraph (1) may be revoked at any time in accordance with section 5402(b)(5) of title 5, United States Code, as amended by this Act.

TITLE III—SENIOR EXECUTIVE SERVICE

CONGRESSIONAL FINDINGS

SEC. 301. The Congress finds that the Senior Executive Service should be continued indefinitely.

PERFORMANCE AWARDS

SEC. 302. Subsection (b) of section 5384 of title 5, United States Code, is amended—

(1) in paragraph (2), by striking out "exceed" and inserting in lieu thereof "be less than 5 percent nor more than"; and

(2) by amending paragraph (3) of such subsection to read as follows:

"(3) The aggregate amount of performance awards paid under this section by an agency during any fiscal year may not exceed the greater of—

"(A) an amount equal to 3 percent of the aggregate amount of basic pay paid to career appointees in such agency during the preceding fiscal year; or

"(B) an amount equal to 15 percent of the average of the annual rates of basic pay paid to career appointees in such agency during the preceding fiscal year.".

REDUCTIONS IN FORCE

SEC. 303. (a) Section 3593(c)(1)(B) of title 5, United States Code, is amended by inserting "before October 1, 1984," after "title".

(b) Section 3594(b) of such title is amended to read as follows:

"(b) A career appointee who has completed the probationary period under section 3393(d) of this title, and who—

"(1) is removed from the Senior Executive Service for less than fully successful executive performance as determined under subchapter II of chapter 43 of this title; or

"(2) is removed from the Senior Executive Service under paragraph (4) or (5) of section 3595(b) of this title;

shall be entitled to be placed in a civil service position (other than a Senior Executive Service position) in any agency.".

(c) Section 3595(b) of such title is amended—

(1) in paragraph (3)(B), by striking out "is entitled" and all that follows thereafter through "position." and inserting in lieu thereof "shall be placed by the Office in any agency in any vacant Senior Executive Service position unless the head of that agency determines that the career appointee is not qualified for that position."; and

(2) by striking out paragraphs (4) and (5) and inserting in lieu thereof the following:

"(4) A career appointee who is not assigned under paragraph (3)(A) may be removed from the Senior Executive Service due to a reduction in force if the career appointee declines a reasonable offer for placement in a Senior Executive Service position under paragraph (3)(B).

"(5) A career appointee who is not assigned under paragraph (3)(A) may be removed from the Senior Executive Service due to a reduction in force if the career appointee is not placed in another Senior Executive Service position under paragraph (3)(B) within 45 days after the Office receives certification regarding that appointee under paragraph (3)(B).".

(d) Section 3595(c) of such title is amended to read as follows:

"(c) A career appointee is entitled to appeal to the Merit Systems Protection Board under section 7701 of this title whether the reduction in force complies with the competitive procedures required under subsection (a).".

DIRECTED REASSIGNMENT; TRANSFER OF FUNCTION

SEC. 304. (a) Section 3395(a)(2) of title 5, United States Code, is amended to read as follows:

"(2)(A) Except as provided in subparagraph (B) of this paragraph, a career appointee may be reassigned to any Senior Executive Service position only if the career appointee receives written notice of the reassignment at least 15 days before the effective date of such reassignment.

"(B)(i) A career appointee may not be reassigned to a Senior Executive Service position outside the career appointee's commuting area unless—

"(I) before providing notice under subclause (II) of this clause (or seeking or obtaining the consent of the career appointee under clause (ii) of this subparagraph to waive such notice), the agency consults with the career appointee on the reasons for, and the appointee's preferences with respect to, the proposed reassignment; and

"(II) the career appointee receives written notice of the reassignment, including a statement of the reasons for the reassignment, at least 60 days before the effective date of the reassignment.

"(ii) Notice of reassignment under clause (i)(II) of this subparagraph may be waived with the written consent of the career appointee involved.".

"(b) Section 3595 of such title is amended by adding at the end thereof the following new subsection:

"(e) The Office shall prescribe regulations under which the rights accorded to a career appointee in the event of a transfer of function are comparable to the rights accorded to a competing employee under section 3503 of this title in the event of such a transfer.".

"(c) Section 7543(a) of such title is amended by striking out "or malfeasance." and inserting in lieu thereof "malfeasance, or failure to accept a directed reassignment or to accompany a position in a transfer of function.".

"(d) Section 8336(d) of such title is amended by inserting after the first sentence the following new sentence: "For purposes of paragraph (a) of this subsection, separation for failure to accept a directed reassignment to a position outside the commuting area of the employee concerned or to accompany a position outside of such area pursuant to a transfer of function shall not be considered to be a removal for cause on charges of misconduct of delinquency.".

PAY LIMITATION

SEC. 305. Section 5385(b) of title 5, United States Code, is amended to read as follows:

"(b)(1) In no event may the aggregate amount paid to a senior executive during any fiscal year under sections 4507, 5382, 5384, and 5948 of this title exceed the annual rate payable for positions at level I of the Executive Schedule in effect at the end of such fiscal year.

"(2)(A) Any amount which is not paid to a senior executive during a fiscal year because of the limitation under paragraph (1) of this subsection shall be paid to that individual in a lump sum at the beginning of the following fiscal year.

"(B) Any amount paid under this paragraph during a fiscal year shall be taken into account for purposes of applying the limitation under paragraph (1) of this subsection with respect to such fiscal year.

"(C) The Office of Personnel Management shall prescribe regulations, consistent with section 5582 of this title, under which payment under this paragraph shall be made in the case of any individual whose death precludes payment under subparagraph (A) of this paragraph.".

MISCELLANEOUS SENIOR EXECUTIVE SERVICE AMENDMENTS

SEC. 306. (a) Section 3135(a) of title 5, United States Code, is amended—

(1) by striking out "and" at the end of paragraph (8);

(2) by redesignating paragraph (9) as paragraph (10); and

(3) by inserting after paragraph (8) the following new paragraph:

"(9) the number of career appointees who have been placed in positions outside the Senior Executive Service under section 3594 of this title as a result of a removal under section 3595 of this title; and".

(b)(1) The first sentence of section 3393(b) of such title is amended by inserting before the period the following: "or commissioned officers of the uniformed services serving on active duty in such agency".

(2) Section 4312(b)(3) of such title is amended by inserting ", or (with the consent of the senior executive) a commissioned officer in the uniformed services serving on active duty," after "employee", and by striking out "executive".

(c)(1) Such title is amended by adding after section 3595 the following new section:

"§ 3595a. Furlough in the Senior Executive Service

"(a) For the purposes of this section, 'furlough' means the placement of a senior executive in a temporary status in which the senior executive has no duties and is not paid when the placement in such status is by reason of insufficient work or funds or for other nondisciplinary reasons.

"(b) An agency may furlough a career appointee only in accordance with regulations issued by the Office of Personnel Management.

"(c) A career appointee who is furloughed is entitled to appeal to the Merit Systems Protection Board under section 7701 of this title.".

(2) The table of sections for chapter 35 of such title is amended by inserting after the item relating to section 3595 the following new item:

"§ 3595a. Furlough in the Senior Executive Service.".

EFFECTIVE DATE

SEC. 307. The amendments made by this title shall be effective following the expiration of the 90-day period beginning on the date of enactment of this Act, except that the amendments made by section 304 shall be effective as of such date of enactment.

Ms. OAKAR (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendments be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Ohio?

There was no objection.

The SPEAKER. Is there objection to the initial request of the gentlewoman from Ohio?

Mr. DANNEMEYER. Mr. Speaker, reserving the right to object, I rise in support of H.R. 2300, as amended, and urge my colleagues to concur in the Senate amendments thereto.

Mr. Speaker, this legislation makes changes in civil service law affecting spouses of Federal employees, midlevel Federal managers, and senior executives. A brief chronology of action by both bodies on this legislation may be helpful.

March 1, 1984: Senate passes S. 958 making changes in the merit pay and senior executive service systems.

June 28, 1984: House passes H.R. 5680 providing for a comparable worth—pay equity—study of economic discrimination in Federal jobs and making changes—distinct from S. 958—to the merit pay and senior executive service systems. House lays on table H.R. 5680 and passes in lieu, S. 958, as amended.

September 24, 1984: House passes H.R. 2300, as amended, providing for certain spousal rights to retirement and health benefits in the marriage and divorce of Federal employees.

October 9, 1984: Senate passes H.R. 2300, making changes to House-passed spousal rights bill, deleting pay equity title for separate consideration, and amending House-passed merit pay and senior executive service titles.

H.R. 2300 with Senate amendments is the result of considerable compromise.[1] However, serious reservations and questions remain with respect to some changes made in these three areas of civil service legislation. Undoubtedly, the Congress will revisit this legislation in order to amplify, clarify, improve, and to possibly limit and redirect what we have done today.

The debate of September 24, 1984, on H.R. 2300 points out my concerns with respect to the retroactive provisions and to opening up the Federal Employees Health Benefits Program [FEHBP] to nonemployees for the first time. It is interesting to note how this legislation is focused—not on spouses, but on former spouses. It is an act to provide retirement equity for former spouses of civil service retirees, and for other purposes. It is perhaps symptomatic of our times that spouses are relegated to the anonymous category of other purposes. Marriage has become an economic relationship, a competitive, even adversarial concept of that partnership.

My concern with respect to merit pay legislation is that we not end up with a paper chase of performance appraisal instead of a pay for performance system. My concern is that merit pay not drift away from the American work ethic into an entitlement program. Merit pay should not become an elaborate system of bonuses and rewards. Excellence is a base pay concept not a bonus concept. We should pay our employees fairly for doing their best.

So that my colleagues may better understand the changes wrought by the other body and under consideration today, Mr. Speaker, I ask unanimous consent that a summary of the Senate changes be included herein with respect to: First, spousal rights under the Federal retirement and health benefits programs; second, a performance management and recognition system for Federal managers, and third, the senior executive service.

The summary follows:

[1] The Office of Personnel Management played a central policy and technical role in long hours and days of negotiations over this legislation.

SPOUSE EQUITY: SENATE AMENDMENTS

Senate amendments make one major change to the House bill in requiring 6 percent interest on certain retroactive payments to the retirement fund where a survivor benefit is desired. The House bill provides for no interest on such "redeposits."

Electing to provide a survivor benefit upon the death of a retiree requires a reduction of less than 10 percent in the retiree's annuity. Normally, the election is made at the time of retirement and reductions begin immediately. Where the election occurs after retirement, payments or redeposits must be made for the period between the date of retirement and the date of electing to provide a survivor benefit. The Senate bill provides for 6 percent interest on redeposits in six instances (the first three prospective, the last three retroactive).

First, for those employees who have an ex-spouse and wish to provide a survivor benefit where the divorce occurs after retirement;

Second, for those retirees who remarry during retirement after declining a survivor benefit for the first spouse on the date of retirement;

Third, for those retirees who wish to provide a survivor benefit for a spouse where the retiree marries for the first time after retiring;

Fourth, for those retirees who wish to provide a survivor benefit to a former spouse where the divorce occurred before the effective date of the bill;

Fifth, for those who retired before the effective date of the bill who innocently missed the deadline to elect a survivor benefit for a spouse; and

Sixth, for those who were married at the time of retirement, elected not to provide a survivor benefit, and remarried and wish to provide a survivor benefit to the succeeding spouse where the remarriage occurred before the bill's effective date.

Other amendments provide for additional survivor benefits to former spouses with the consent of the current spouse, with an additional reduction in the annuity, and subject to the 55-percent cap. Also, an ex-spouse may continue enrollment in the FEHBP if remarriage occurs after age 55 (House bill terminated enrollment upon remarriage). Finally, a Senate amendment grants greater flexibilty to OPM in determining if a retiree innocently missed a timely election of survivor benefits.

MERIT PAY: MAJOR SENATE CHANGES AND ADDITIONS TO H.R. 5680

General Increases. New provision stipulating that those employees who cannot be rated must be granted a full general increase. (§ 5403(e))

Regulatory Authority of Office of Personnel Management. New provision stipulating that OPM shall prescribe regulations for granting merit increases to those employees who cannot be rated. (§ 5404(d))

Performance Awards (individual awards). Reserves maximum award of 20 percent of base pay to those with "unusually outstanding performance. (§ 5406(a)(2)(B))

Performance Award Funding. Pool based on *estimated* base pay to account for potential changes in staff and pay. (§ 5406(c)(1)(A)(ii)) Extends House cap of 1.5 percent of payroll to fifth year; leaves annual increases in minimum mandatory to OPM regulation (House specified 25 percent increase each year), except for fifth year when minimum set at 1.15 percent of pay-

roll; provides greater funding for agencies with less than 20 employees. (§ 5406(c)(2))

Regulation of Performance Awards. Provides broader OPM regulation of performance awards than House bill. (§ 5409)

Performance Appraisal. Makes clear that management retains right to set standards while employee must participate in "developing" standards. (§ 4302(a)(2))

Personnel Actions as a Consequence of Rating. Senate amendment provides for "reassigning, reducing in grade, or removing" any employee who continues to perform 2 levels below fully successful, whereas House bill provided for such actions against one performing "below fully successful." (§ 4302(b)(6)) Senate amendments delete House ratings appeal right to MSBP.

Moving from Merit System to General Schedule. New section prevents dual pay adjustments for those who make this move. (Sec. 203)

SENIOR EXECUTIVE SERVICE: SIDE-BY-SIDE ANALYSIS OF SENATE AND HOUSE BILLS AND SENATE AMENDMENTS

Subject	S. 958	H.R. 5680	Senate amendments
1. SES continuation	No change in current law	Provides for indefinite continuation of SES—(sec. 301).	Same as H.R. 5680.
2. Performance awards—5 USC 5384.	Eliminates 50 percent limit on number of career members eligible for awards.	Same as S. 958	Same as S. 958.
	Establishes maximum agency payout (pool) equal to 3 percent of career SES payroll (or 15 percent) of average career SES salary) during current fiscal year (sec. 103(g)(2)).	4 percent pool (or 2 percent of average career SES salary); required 2 percent payout unless reasons given Congress—(sec. 302(2)).	Same as S. 958 except that base is previous fiscal year.
	Establishes minimum individual award of 5 percent of base salary—(sec. 103(g)(1)).	Same as S. 958—(sec. 302(1))	Same as S. 958.
3. Reduction in force—5 USC 3592-5.	Provides fallback to GS-15, with saved pay, if career executive who completed SES probationary period cannot be placed in another SES position—(sec. 103(b) and (d)).	Same as S. 958—(sec. 304(a))	Same as S. 958 except that fallback applies even if employee declines reasonable placement offer.
	Eliminates 120-day OPM placement period for career executives who completed SES probationary period—(sec. 103(e)(1)).	Changes 120-day period to 45 days—(sec. 304(b)(2)).	Same as H.R. 5680.
	Eliminates 30-day notification to Congress for executives who cannot be placed; provides for annual report on placement of RIF'd executives—(sec. 103(e)(1)).	Eliminates 30-day notification to Congress—(sec. 304(b)(2)).	Same as S. 958.
	Eliminates mandatory 1 year reinstatement to SES for RIF'd executives who were career appointees as of May 31, 1981—(sec. 103(c)).	Retains requirement only for RIF's prior to Oct. 1984—(sec. 304(c)).	Same as H.R. 5680.
	Eliminates appeal rights on OPM placement and reinstatement, which are no longer applicable; retains appeal rights on competitive procedures—(sec. 103(e)(2)).	No change in current law	Eliminates appeal rights on OPM placement; retains appeal rights on competitive procedures.
4. Reassignment—5 USC 3395(a)	Provides 30-day advance notice with specific reasons for geographic moves—(sec. 103(1)).	Provides 60-day advance notice with reasons, following consultation with employee—(sec. 305(a)).	Same as H.R. 5680, but provides employee may waive 60-day notice.
5. Transfer of function—No current title 5 provision.	No provision	Requires OPM to issue regulations providing rights comparable to those for competitive service employees—(sec. 305(b)).	Same as H.R. 5680.
6. Pay cap—5 USC 5383(b)	Eliminates Ex. Lev. I pay cap ($83,300) on combined basic pay, bonuses, rank awards, and physicians comparability allowances—(sec. 103(h)).	No change in current law	Retains cap, but provides any amount not paid one fiscal year shall be paid as lump sum at start of next fiscal year; provision in case of death.
7. Commissioned officers	No change in current law	.....do	Allows commissioned officers to serve on ERB's and to serve, with employee consent as higher level review on SES performance ratings except where officer is immediate supervisor.
8. Furlough—No current title 5 provision.	Provides specific statutory language and appeal right to MSPB—(sec. 103(f)).	.....do	Same as S. 958.
9. Effective date	Upon enactment	Oct. 1984, except reassignment and transfer of function, which effective on enactment—(sec. 306).	90 days after enactment, except reassignment and transfer of function, which effective on enactment.
10. Noncareer appointee limitation—5 USC 3134(b) and (d).	No change in current law (10 percent Government and 25 percent agency limitations based on current allocated positions).	Limitations to be based on average number of SES appointees the previous fiscal year, effective Oct. 1984—(sec. 303).	Same as S. 958; no change in current law.
11. Performance removal—5 USC 3594(b).	Eliminates SES pay savings (sec. 103(d)(2)).	No change in current law	Same as H.R. 5680; no change in current law.

SENIOR EXECUTIVE SERVICE: SIDE-BY-SIDE ANALYSIS OF SENATE AND HOUSE BILLS AND SENATE AMENDMENTS—Continued

Subject	S. 958	H.R. 5680	Senate amendments
12. Adverse actions—5 USC 7543...	Adds failure to accept directed reassignment or transfer of function to coverage—(sec. 103(i)).	Same as S. 958—(sec. 305(c)).....	Same as S. 958.
13. Discontinued service retirement—5 USC 8336(d).	Provides continued eligibility for DSR if removed for failure to accept directed reassignment or transfer of function outside commuting area—(sec. 103(k)).	Same as S. 958—(sec. 305(d))	Do.

Mr. Speaker, further reserving the right to object, I yield to the gentlewoman from Ohio [Ms. OAKAR], the chair of the Subcommittee on Compensation and Employee Benefits.

Ms. OAKAR. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, the Senate has just passed H.R. 2300, the Civil Service Retirement Spouse Equity Act of 1984, as amended. I am pleased in this 11th hour that the Senate took up this important legislation.

The Senate also attached to the bill as passed by the House two important provisions of another bill that will prove beneficial to thousands of Federal managers and senior executives. As a result, former spouses will be eligible for survivor benefits, under H.R. 2300 as amended, and Federal managers and senior executive service employees will be ensured a more equitable pay and evaluation system.

Unfortunately, while the Senate merged titles II and III of H.R. 5680, the Federal Pay Equity and Management Improvement Act of 1984, to the spouse equity bill, title I of H.R. 5680 was not considered. As you will recall, title I of H.R. 5680 mandates a pay equity study of the Federal wage and classification systems to determine whether or to what extent sex is used in determining pay in the Federal Government. I am greatly disappointed that the Senate refused to act on this important provision of H.R. 5680, even though it was approved overwhelmingly by the House.

However, the chairman of the Senate Governmental Affairs Committee and the Civil Service Subcommittee have agreed to join Chairman FORD, of the House Post Office and Civil Service Committee and myself in requesting the General Accounting Office to set forth the criteria and the options for a complete pay equity study of the Federal Government. The General Accounting Office will report to the committees no later than March 1, 1985, on the cost, methodology, and scope of such a study. The GAO study will provide the documentation and the preliminary analysis to launch a thorough examination of the Federal pay and classification systems to determine if they are tainted by sex-based wage discrimination.

I am also pleased that Senator TED STEVENS, chairman of the Civil Service Subcommittee agreed to conduct early hearings on the GAO report and to take up pay equity legislation on the Senate side shortly after the hearings.

I want to commend Senator CRANSTON for his efforts on behalf of the working women of this country. I also want to extend my appreciation to Chairman FORD, Congresswoman SCHROEDER, and Congressman HOYER for their fine work on this legislation. I also appreciate the cooperation and hard work of Congressman WOLF on the merit pay provisions of this bill and to the ranking minority member of my subcommittee, Mr. DANNEMEYER, for his cooperation in developing the former spouses legislation. I believe that we have a fine bill that deserves the full support of our colleagues.

□ 1320

Mr. DANNEMEYER. Mr. Speaker, the minority and the administration are pleased to support this legislation which is important to the spouses of Federal employees and to the merit pay managers and senior executives of the Federal Government.

The other body is to be commended for improving and moving this legislation.

Mr. Speaker, at this point I yield to the gentleman from Virginia [Mr. WOLF], who has been the prime mover in the House of merit pay legislation.

Mr. WOLF. I thank the gentleman for yielding.

Mr. Speaker, I am pleased that the House is acting on this vital merit pay and Senior Executive Service reform legislation. I have worked to reform the flawed merit pay system for the past 4 years and support the provisions of this legislation including Senior Executive Service reforms and positive benefits for former spouses of civil servants.

When I was seeking office in 1978, I met with Bun Bray of the Federal Managers Association who told me of the inherent flaws of the merit pay system established by the Civil Service Reform Act of 1977. And in the past 6 years, those problems have been manifested in a merit pay system that is impractical, unworkable and inequitable for the managers of the Federal work force.

During my first term in Congress in 1981, one of my top priorities was to introduce legislation to correct the serious problems with the merit pay system. One of the bills I introduced in the 97th Congress, H.R. 5743, the Incentive Pay Amendments of 1982, was the first bill introduced to Congress to reform the pay system of the Nation's midlevel managers.

Because I wanted a bill which was fair and equitable when applied in the workplace, I contacted and met with career civil servants and personnelists in agencies throughout the Federal Government to ask their views on my legislation so that we could formulate a proposal that would work. H.R. 5743 was revised and perfected with their suggested changes incorporated in H.R. 1841, the Merit Pay Reform Act of 1983, which I introduced in the 98th Congress in March 1983.

An identical Senate counterpart to H.R. 1841, S. 958, was introduced in the other body by my Virginia colleague, Senator TRIBLE. The bill we have before us today with its merit pay provisions is an amended version of the Merit Pay Reform Act as introduced early in the 98th Congress. The major merit pay provisions of this legislation were derived from my merit pay bill. In my work to change the merit pay system, I believe we have reached a carefully crafted compromise in the Senate amendment to H.R. 2300. We now have an effective vehicle for accomplishing positive reform. And because of the extensive contact I have had with managers throughout Government on this legislation, I am confident that this legislation will correct the current inequities in the managers' pay-for-performance system and reflects the interests and concerns of managers and executives. This is truly the managers' bill.

Although I am particularly involved with the merit pay and SES portions of this legislation, I do not want to overlook the important achievements and progress made on behalf of former spouses in this legislation. We have a responsibility to these former spouses who contributed many years of their lives supporting and building families enabling the civil servant to fulfill the demands of Government work. As an employer, the Federal Government

must be sensitive to the marriage partnership because either directly or indirectly both individuals are working for the Government. The costs and the benefits of the marriage relationship, therefore, should be recognized. This legislation effectively recognizes both the importance of the marriage relationship and the importance of the former partner's contribution to the employee's career in civil service when the marriage relationship dissolves. I support the former spouse provisions in this legislation.

I believe bipartisanship was the most essential element in successfully moving this total package through to final passage. I urge my colleagues to support the adoption of these vital management, pay for performance and former spousal benefit reforms.

In conclusion, I believe we have an opportunity today to approve positive legislation for the often maligned Federal work force. This is a great day for 110,000 mid-level managers, 7,200 senior executives and untold numbers of former spouses. This is truly a major accomplishment for Government workers in which we all should be very proud.

Again, my sincere appreciation Mr. Speaker, to you for your quick action on this legislation and my appreciation to Ms. OAKAR and Mr. FORD for the important role they have played in facilitating this process. The work on this legislation by the committee—Jerry Klepner, Pierce Myers, Bob Lockhart, and Tom DeYulia has been of tremendous value in this process. Our former committee colleague—STENY HOYER played a significant part of this legislation and I want to thank him and his staff assistant John Moag for their interest in pursuring merit pay reform. I want to acknowledge the difficult role Mr. DANNEMEYER has played in this process and his staff assistant Steve Ramp.

There are many individuals whose contributions should be recognized. I want to publicly thank the Federal personnel directors in the agencies for their response and attention to my numerous requests for practical guidance on these new merit pay concepts. I feel a personal debt of gratitude to the Federal Managers Association under the leadership of Bun Bray, Red Evans, and Mike Minahan, all of whom have been persistent in their attention to this legislation.

I commend the innovative concepts introduced by the Professional Managers Association under Don Gillis and Lisa Carlson. On a special note, Don was a congressional fellow in my office and worked on this legislation during the early stages of its development. Neil Reichenberg and the International Personnel Management Association were also helpful in support and guidance on issues of paramount concern to personnelists in all levels of Government.

Member organizations of the Federal Employees Coordinating Committee and other groups whose support and help in formulating this initiative are appreciated where the diversified Social Security Managers Association, the academic and practical advice provided by the Classification and Compensation Society and the support of the well-established organization of professional employees at the Department of Agriculture.

I would like to mention several civil servants who have been influential in the formulation of this legislation. Rich Liebl of the Department of the Navy originally introduced many of these concepts to my office and should be commended with one of the first merit pay awards under this legislation. Earle Payne of the Office of Secretary of Defense, Bob Moffit, George Nesterczuk with the Office of Personnel Management along with his career staff—John Fossom, Barbara Fiske, Al Levan, and Fidelma Donahue, and General Accounting Office experts Jerry Miller and Gil Fitzhugh are just some of the others wo deserve to share in the credit for this reform measure.

Senior Executive Asssociation played an important role in the development of the SES changes in this legislation and I would like to thank Jerry Shaw and Dave Burckman of the Senior Executive Association for the outstanding representation of senior executives' concerns they provided in my original merit pay/senior executive service legislation (H.R. 5066).

On a personal note, though, I would like to recognize the dedication and perseverance of Jamie Cowen of Senator STEVENS' staff and Lori Beth Feld of Senator TRIBLE's office. They, with the assistance of numerous others, are largely responsible for the Senate's timely action on this legislation. With gratitude I offer my sincere appreciation to Senators STEVENS, WARNER, ROTH, and CRANSTON for their cooperation in the movement of this major civil service reform and a special thanks to my friend and Virginia colleague PAUL TRIBLE.

In closing, I would like to personally recognize the tremendous effort that my staff, Sara Boney, has done on this legislation. She has worked on it for better than 2 years and without her day-in-day-out work we would not be here today.

Mr. DANNEMEYER. Mr. Speaker, further reserving the right to object, I yield to my friend, the gentlewoman from Colorado [Mrs. SCHROEDER].

Mrs. SCHROEDER. Mr. Speaker, I rise in support of H.R. 2300 as amended by the Senate. The bill now contains three titles. The first title is the former spouse retirement legislation which we passed on September 24, 1984. The changes made in this title by the Senate are minor. So, rather than repeat what I said on September 24, let me just direct readers to the CONGRESSIONAL RECORD of that date. Basically, H.R. 2300 is a major step forward toward justice for spouses of civil servants. It is, however, by no means the end of the journey. I expect to be back next year with further proposals to right the wrongs done to this group, which is overwhelmingly women.

Titles II and III of this bill cover the same subject matters as S. 958 and as did titles II and III of H.R. 5680, which passed the House overwhelmingly on June 28, 1984. Title I of H.R. 5680 required a study of pay discrimination against women in the Federal Government. Although the House voted 22 to 395 against any weakening of this provision, the Reagan White House and their trusties in the other body have worked diligently to kill any pay equity study. Sending two-thirds of H.R. 5680 back, without the pay equity study, will not kill the movement for fair pay for women in the Federal Government. The longer the administration delays the inevitable, however, the more painful will be the remedy.

Title II is a sweeping reform of the failed merit pay system. While the solution contained in the bill is not my first choice for the repair of merit pay, it is a good solution which has broad support by the individuals affected. Chairwoman MARY ROSE OAKAR and her staff have done a superb job in bringing together adversaries in support of both title I and title II of this bill.

Title III is largely the House-passed version of senior executive service amendments. The following changes were made:

The House bill contained a range of 2 to 4 percent in the permissible level of total performance awards which may be given to senior executives by an agency. The Senate changed it to 3 percent as a cap.

The House bill clarified the limit on the number of noncareer senior executives who could be on the payroll at any one time. The Senate insisted that this provision be removed. Reluctantly, we ageed to remove it, largely because the number of noncareer senior executives has dropped in the last few months. If the number starts getting up around 700 again, however, I will move swiftly to limit it, whether the increase in political senior executives occurs in a Mondale administration or in a second Reagan administration.

The reduction in force proposals of the House and of the Senate in S. 958 were melded. Basically, a senior executive facing a reduction in force has a guaranteed right to a GS–15 position and the Office of Personnel Management has an obligation to try to place

these surplus senior executives in vacant SES positions.

On the issue of the executive level I pay cap, we worked out a compromise. The cap remains in place, but moneys which cannot be paid in any one fiscal year because of the cap will be paid in the next one.

The Senate added language permitting military officers to serve on executive resource boards and to hear performance grievances of senior executives, if the senior executive wants to take his or her grievance there. This deals with a problem at the Pentagon where senior executives are supervised by military officers.

The Senate also added adverse action protections for senior executives who are subject to furloughs.

Overall, this is a good bill: One we should agree to and send to the President.

Mr. DANNEMEYER. Further reserving the right to object, Mr. Speaker, I yield to my friend, the gentleman from Maryland [Mr. HOYER].

Mr. HOYER. Mr. Speaker, I thank the gentleman from California for yielding.

Mr. Speaker, the gentlewoman from Ohio deserves congratulations for her determination to move this legislation onto the White House for the President's signature. While it is unfortunate that this bill does not contain the study on pay equity endorsed by the House almost unanimously some weeks ago, it is my understanding that the gentlelady has reached an agreement with the Senate that the GAO will undertake an immediate study of pay equity and that hearings on the subject will be held early in the next Congress.

The Civil Service Retirement Spouse Act of 1984, a long-awaited measure that recognizes the right of a Federal employee's spouse to survivor benefits and health benefits, also contains provisions making such needed changes in the merit pay program as well as certain changes in the senior executive service.

Mr. Speaker, I have worked for 3 years with the gentlewoman from Ohio, the gentleman from Michigan and the gentleman from Virginia [Mr. WOLF], in reaching an agreement on changes in the merit pay system. I am happy to report, Mr. Speaker, that in true bipartisan spirit, we have reached agreement on a merit pay package that sets forth true incentives and disincentives for merit pay employees and provides the funds necessary to compensate these employees according to their performance.

It is said, Mr. Speaker, that you know you have a good deal when both parties leave the table not entirely satisfied. I would have preferred a higher funding level for the merit pay program and the retention of some other House provisions. I am sure that the Senate is not entirely happy with this product as well. So we appear to have struck a good compromise to the benefit of our Federal managers. Again, I am proud to have been a part of this effort and once again commend the members and staff of the House Post Office and Civil Service Committee for their determination in having this legislation enacted.

In closing, I want to join my colleague from Virginia, Mr. WOLF, in congratulating John Moag of my staff, Sara Boney, of Congressman WOLF's staff, and Jerry Klepner, of the Subcommittee on Compensation and Benefits, for their outstanding work which has been so important in getting this legislation to the floor today.

□ 1330

Ms. OAKAR. Mr. Speaker, will the gentleman yield?

Mr. DANNEMEYER. I yield to my chairman, the gentlewoman from Ohio.

GENERAL LEAVE

Ms. OAKAR. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the matter being considered.

The SPEAKER. Is there objection to the request of the gentlewoman from Ohio?

There was no objection.

Ms. OAKAR. Mr. Speaker, I would certainly be remiss if I did not congratulate everybody involved, including the staff, but especially my staff director, Jerry Klepner, who kept brainstorming about how we could figure out a way not to kill legislation that was very, very important. I appreciate it, and I think he knows that, but I want to say it publicly.

I thank the gentleman for yielding.

Mr. DANNEMEYER. I thank the gentlewoman.

Mr. Speaker, the gentlewoman from Ohio [Ms. OAKAR], and the gentleman from Michigan [Mr. FORD], the distinguished chairman of the full committee, are to be commended for their cooperation and dedication on this legislation. I have no further requests for time, withdraw my reservation, and yield back the balance of my time.

● Mr. PARRIS. Mr. Speaker I support the Merit Pay Reform Act provisions contained in H.R. 2300 and urge its adoption by the House because the current system does not work, has never worked, and will never work, and it must be changed. Simply put, the Federal Government must have an effective pay-for-performance system to reward the middle-level supervisors and managers who actually run this complex machinery we call the Government.

These are the people who are charged with the responsibility of implementing all these policies we in Congress set, and the current merit pay system puts a higher value on mediocrity than on excellence.

This legislation will restore some equity to the deserving employees who have been penalized under the current system.

One of the major problems that now exists is that monetary merit awards are tacked onto an employees' base salary, where it remains, year after year, reflected in adjustments to base pay. Under this current system, a middle-level manager who has won a merit award in the past can rest on his laurels.

Under the proposed merit pay reform, the award would be a lump-sum, one-time award to recognize outstanding performance. The slate would then be wiped clean, and an employe rewarded in 1 year would have to exhibit that same excellence and outstanding performance the following year if he or she is to receive another merit award.

This is pure common sense. I am quite sure all of the Members of the House have heard or read testimony from employees who say the current system of inequitable treatment has caused morale problems that far outweigh any benefits that might have been realized. If that was true this legislation will correct the problem. I urge my colleagues to support these merit pay reforms.●

● Mr. BARNES. Mr. Speaker, I would like to join with my colleagues in sealing the rare, but important victory for Federal employees and the Federal service which is represented by this bill, H.R. 2300, which provides retirement equity to former spouses of Federal employees and includes long-overdue reforms for senior executives and managers working under merit pay.

Many Members worked long and hard on merit pay reforms for managers in grades GS 13 through 15. This legislation will help reduce the exodus of top managers from the Federal service. Managers will no longer have to suffer significant reductions in pay because of the caprice of faulty performance appraisals or the limitations of funding pools. Rather, H.R. 2300 provides a strengthened approach that will help develop performance appraisals that are fair and increase funds available for incentive awards to top performers.

Mr. Speaker, the development of this bill has been a team effort in the best traditions of the House. The work of the gentleman from Maryland [Mr. HOYER] and the gentleman from Virginia [Mr. WOLF] reflect their strong commitment to these issues. They along with the distinguished chair of the Subcommittee on Compensation and Employee Benefits [Ms. OAKAR] pushed the bill past all obstacles. In the other body, important contributions were made by Senator STEVENS

of Alaska and Senator TRIBLE of Virginia.

As chairman of the Federal Government Service Task Force, I know how much valuable time and assistance Federal employees and their representatives contributed to the development of this legislation. Therefore, I would like to join my colleagues in recognizing the work of Bun Bray and Red Evans of the Federal Managers Association, Lisa Carlson and Don Gillis of the Professional Managers' Association, and of course G. Jerry Shaw and Dave Burckman of the Senior Executive Association. Our task force strongly supports H.R. 2300 and I am pleased that we were able to play an auxiliary role in facilitating its enactment.

It took more than a little creative genius to arrive at the compromise devised by the parties to enable Congress to continue the fight for pay equity for the Federal service. Although we will not enact the study on comparable pay approved overwhelmingly in the House, the GAO study requested by Ms. OAKAR, Chairman FORD, and Senator STEVENS will keep the issue alive and provide us with a much clearer picture of where we want to focus in the 99th Congress. The staff director of the Subcommittee on Compensation and Employee Benefits, Jerry Klepner, deserves special recognition for his tenracious work on the issue.

Many key elements were added to H.R. 2300 through the legislative process, but as first conceived by the gentlewoman from Colorado [Mrs. SCHROEDER] it provides both relief and recognition to spouses, particularly women, who helped build the families and family life that supported our career Federal employees. The debt owed to these spouses has taken far too long to pay, but H.R. 2300 does signal the Federal work force that Congress is willing to act responsibly and fairly to maintain an outstanding Federal service.

Mr. Speaker, I hope that in the new Congress we can continue to move in that direction.●

Mr. DANNEMEYER. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the initial request of the gentlewoman from Ohio?

There was no objection.

A motion to reconsider was laid on the table.

COMMUNICATION FROM CHAIRMAN OF COMMITTEE ON WAYS AND MEANS—APPOINTMENT AS MEMBER OF NATIONAL COMMISSION ON AGRICULTURAL TRADE AND EXPORT POLICY

The SPEAKER laid before the House the following communication from the chairman of the Committee on Ways and Means:

COMMITTEE ON WAYS AND MEANS,
Washington, DC, October 2, 1984.

Hon. THOMAS P. O'NEILL, Jr.,
The Speaker, House of Representatives,
The Capitol, Washington, DC.

DEAR MR. SPEAKER: Pursuant to the provisions of Public Law 98-412, I hereby designate the Honorable Beryl Anthony, Jr. of Arkansas to serve as a member of the National Commission on Agricultural Trade and Export Policy.

Sincerely yours,

DAN ROSTENKOWSKI,
Chairman.

COMMUNICATION FROM RANKING MINORITY MEMBER OF COMMITTEE ON WAYS AND MEANS—APPOINTMENT AS MEMBER OF NATIONAL COMMISSION ON AGRICULTURAL TRADE AND EXPORT POLICY

The SPEAKER laid before the House the following communication from the ranking minority member of the Committee on Ways and Means:

COMMITTEE ON WAYS AND MEANS,
Washington, DC, October 4, 1984.

Hon. THOMAS P. O'NEILL, Jr.,
Speaker of the House,
The Capitol.

DEAR MR. SPEAKER: Pursuant to the provisions of Section 1219(c) of Public Law 98-412, establishing a National Commission on Agricultural Trade and Export Policy, I hereby designate the Honorable John J. Duncan of Tennessee to serve on the National Commission as a representative of the House Ways and Means Committee.

Very truly yours,

BARBER B. CONABLE, Jr.,
Ranking Minority Member.

COMMUNICATION FROM CHAIRMAN OF COMMITTEE ON FOREIGN AFFAIRS—APPOINTMENT AS MEMBER OF NATIONAL COMMISSION ON AGRICULTURAL TRADE AND EXPORT POLICY

The SPEAKER laid before the House the following communication from the chairman of the Committee on Foreign Affairs:

COMMITTEE ON FOREIGN AFFAIRS,
Washington, DC, October 1, 1984.

Hon. THOMAS P. O'NEILL, Jr.,
Speaker, House of Representatives,
Washington, DC.

DEAR MR. SPEAKER: Pursuant to the provision of H.J. Res. 600, establishing a National Commission on Agricultural Trade and Export Policy, which provides for ex officio membership on the Commission of the Chairman and Ranking Minority Member of the House Committee on Foreign Affairs or their designees, I am pleased to inform you that I hereby designate the Honorable Lee H. Hamilton of Indiana to serve on the Commission in my stead.

With best wishes, I remain,

Sincerely yours,

DANTE B. FASCELL,
Chairman.

COMMUNICATION FROM RANKING MINORITY MEMBER OF COMMITTEE ON FOREIGN AFFAIRS—APPOINTMENT AS MEMBER OF NATIONAL COMMISSION ON AGRICULTURAL TRADE AND EXPORT POLICY

The SPEAKER laid before the House the following communication from the ranking minority member of the Committee on Foreign Affairs:

CONGRESS OF THE UNITED STATES,
HOUSE OF REPRESENTATIVES,
Washington, DC, October 4, 1984.

Hon. THOMAS P. O'NEILL, Jr.,
Speaker, House of Representatives,
The Capitol, Washington, DC.

DEAR MR. SPEAKER: Pursuant to the provisions of Section 1219(c) of Public Law 98-412, establishing the National Commission on Agricultural Trade and Export Policy, I hereby designate the Honorable Doug Bereuter to serve on this Commission as the representative from the House Foreign Affairs Committee.

With Best wishes.

Sincerely,

WILLIAM S. BROOMFIELD,
Ranking Minority Member,
Committee on Foreign Affairs.

RECESS

The SPEAKER. Pursuant to the order of the House of Tuesday, October 9, 1984, the Chair declares the House in recess subject to the call of the Chair.

Bells will be rung 15 minutes before the House reconvenes.

Accordingly (at 1 o'clock and 34 minutes p.m.), the House stood in recess subject to the call of the Chair.

□ 1600

AFTER RECESS

The recess having expired, the House was called to order by the Speaker at 4 p.m.

CONFERENCE REPORT ON H.R. 6028, DEPARTMENTS OF LABOR, HEALTH, AND HUMAN SERVICES AND EDUCATION AND RELATED AGENCIES APPROPRIATION ACT, 1985

Mr. NATCHER. Mr. Speaker, I call up the conference report on the bill (H.R. 6028) making appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies for the fiscal year ending September 30, 1985, and for other purposes.

The Clerk read the title of the bill.

The SPEAKER. Pursuant to the rule, the conference report is considered as having been read.

(For conference report and statement, see Proceedings of the House of October 3, 1984.)

The SPEAKER. The gentleman from Kentucky [Mr. NATCHER] will be recognized for 30 minutes, and the

gentleman from Massachusetts [Mr. CONTE] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Kentucky [Mr. NATCHER].

GENERAL LEAVE

Mr. NATCHER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks on the conference report and amendments in disagreement on the bill, H.R. 6028.

The SPEAKER. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

Mr. NATCHER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I have frequently mentioned that it is a distinct honor and a privilege to work with my friend SILVIO CONTE on this bill. He is the ranking minority member on our subcommittee, as well as being the ranking minority member of the full Appropriations Committee. He sits with us through many weeks of hearings each year on this bill. He plays an absolutely essential role in helping to bring this bill to floor each year, helping to pass the bill through the House, helping to reach agreement with the Senate in conference, and helping to obtain House approval of the conference agreement. He is also very effective in negotiating with the White House to obtain Presidential approval of the bill. I want to thank him especially for his efforts last year and this year to assure that the Labor-Health and Human Services and Education appropriation bill, which means so much to all the people of this great Nation, is signed into law. SILVIO CONTE is a tenacious fighter for all of the health, education, and human resources programs which are supported through the bill which we bring to the House today.

I would also like to thank each of the other members of our subcommittee, all of whom have participated in our successful effort to bring this conference report to the House at this time.

Mr. Speaker, the conference agreement on H.R. 6028 which we present to the House today provides a total of $104,564,893,000 for the Departments of Labor, Health and Human Services and Education and related agencies. This amount includes $6,340,645,000 for the Department of Labor, $79,630,793,000 for the Department of Health and Human Services, $17,601,556,000 for the Department of Education and $991,899,000 for related agencies. The total agreement includes $72,071,652,000 for mandatory programs, principally Medicaid, Medicare, aid to families with dependent children and supplemental security income and $32,493,241,000 for discretionary programs where spending levels are set through the annual appropriation process.

The total funding recommended by the conferees is $1,501,291,000 below the amount appropriated for Labor, Health and Human Services and Education activities in fiscal year 1984. It is, however, $4,879,547,000 above the President's budget. The agreement includes a decrease of $1,338,730,000 below the level proposed by the Senate and an increase of $8,769,353,000 over the House bill. The increase over the House is principally the result of the inclusion in the bill of $7,862 million for programs which were not considered by the House due to a lack of authorizing legislation at the time of House action. For items considered by both Houses of Congress the conference agreement is $907 million above the House bill and $1,194 million below the Senate bill.

H.R. 6028 includes funding for more than 400 separate programs in 3 Cabinet departments and 12 related agencies. Obviously I cannot review each recommendation here today. Some of the more important recommendations include:

Mr. Speaker, I ask unanimous consent to revise and extend my remarks and to insert at this point in the RECORD a table showing the conference agreement for each program, including the bill, together with appropriate comparisons.

The SPEAKER. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

Mr. NATCHER. Mr. Speaker, some of the more important recommendations include:

$3,769 million for employment and training services including $825 million for the Summer Youth Program and $617 million for Job Corps.

$478 million for the maternal and child health block grant, an increase of $79 million over fiscal year 1984.

$244 million for training health professionals including $67 million for nursing programs. This is $119 million over the amount requested by the President.

$5,146 million for biomedical research at the National Institutes of Health. This is the largest amount ever approved for the National Institutes of Health and an increase of $651 million over the amount appropriated for this purpose in 1984.

$2,100 million for low-income energy assistance.

$1,075 million for Head Start, an increase of $79 million over last year.

$1,105 million for programs for the aged including $404 million for the elderly feeding programs and $326 million for title V older workers programs.

$17,602 million for the Department of Education—an increase of $2,237 million over the 1984 level.

$3,688 million for chapter I grants for the disadvantaged.

$695 million for impact aid including $513 million for category "a" students and $130 million for category "b".

$748 million for chapter 2 including $100 million for the New Math and Science Program and $75 million for Magnet Schools.

$4,871 million for student financial aid. This includes $3,575 million for Pell grants. This level provides sufficient amounts to fund a maximum grant of $2,100 for the neediest students. The conference agreement also includes $250 million to take care of the fiscal year 1983 and 1984 shortfall in this program.

$200 million for the Corporation of Public Broadcasting for fiscal year 1987.

These are just a few of the major items included in H.R. 6028 as agreed to in conference. The full agreement is described in the statement of the managers accompanying this conference report. We believe this is a good bill, a good compromise between the House and the Senate and a good compromise with the administration. While the conference agreement includes badly needed increases for many of the Labor, Health and Human Services, and Education programs, it is within the limits assigned to the committee under the budget resolution adopted earlier this week. We urge the adoption of the conference report.

Mr. CONTE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am pleased to rise in support of the conference report on H.R. 6028, the Labor, Health and Human Services and Education appropriations bill for fiscal year 1985. I believe we have reached an agreement that is acceptable, and that is better, in many ways, than the bill that passed the House on August 1, by a vote of 328 to 91, and the bill that passed the Senate on September 26, by a vote of 71 to 20.

In the conference on this bill, there were 197 Senate amendments to resolve. That is never an easy task, particularly since we were dealing with a very tight budget ceiling. But under the leadership of the great chairman, the gentleman from Kentucky, BILL NATCHER, and with the help the Members on my side provided to me, GEORGE O'BRIEN, CARL PURSELL, JOHN PORTER, and last but not least, BILL YOUNG, we were successful.

The conference agreement that we bring back to the House today contains total budget authority of $104.6 billion. Like the bill that we brought to the House on August 1, that is below the fiscal year 1984 appropriation by about $1.5 billion.

The reason for that decrease is the same as I explained to my colleagues on August 1—a large decline in appropriations related to unemployment compensation, balanced by a smaller increase in other entitlement programs, and an additional $3 billion in advance appropriations requested by the President.

The major difference in the conference agreement, compared with the bill that passed the House on August 1, is that we have provided appropriations for nearly all of the programs we deferred action on when we originally considered H.R. 6028. There has been great progress on the reauthorizations for these deferred programs, and in most cases, at a minimum, a conference report has been filed.

For these programs, ranging from Maternal and Child Health, to Head Start, to Low-Income Energy Assistance, to Older Americans Act Programs, to Impact Aid, $7.66 billion is provided in this conference agreement, compared with $7.8 billion in fiscal year 1984, a fiscal year 1985 budget request of $7.1 billion, and Senate-approved levels of $7.76 billion.

In addition, another large difference in this conference agreement, compared with the House-passed bill, is that adjustments have been made in a number of entitlement programs, to accommodate the lastest CBO estimates. With some increases and decreases over the original House-passed figures, this conference agreement provides nearly $657 million more in mandatory spending than was provided in the House-passed bill.

When these two major differences are taken into account—the $7.66 billion for deferred items, and the increase in mandatory items, plus some other give and take in the course of conference—the total budget authority in this bill is $104.6 billion, compared with the figure of $96.1 billion that was contained in the House-passed bill.

But in a bill like this, where so much of the spending is for mandatory items and entitlements, the key by which this bill is judged is the amount of spending for discretionary programs. On that account, I believe we have done our job, and came out with a total that is acceptable to all parties.

For the discretionary programs, the total in this conference report is $32.493 billion. If you add to that total the current rate for the remaining deferred programs not covered by this agreement, which will be funded at the current rate in the continuing resolution; namely, refugee and entrant assistance and health planning, you get a total of just under $33 billion, which is the subcommitte's allocation under the budget resolution.

The discretionary total we bring back to the House is within dollars of the total that was assumed when H.R. 6028 was passed by this House on August 1. Also, when the appropriate scorekeeping adjustments are made, that discretionary total is within what we understand to be the rose garden agreement.

Every signal we have had thus far from downtown is that this total is acceptable. So, with this conference agreement, for the health, education, and well-being of our people, I can assure you, everything is coming up roses.

Let me quickly highlight some of the major items in the conference agreement:

DEPARTMENT OF LABOR

Under the conference agreement, there is a total of $6.34 billion appropriated for programs in the Department of Labor, including: $3.7 billion for the Job Training Partnership Act; $100 million additional for the Summer Youth Employment Program for next summer, on top of the $724 million appropriated in the fiscal year 1984 bill, to provide the same amount as was available this summer; $617 million for the Job Corps, $17 million more than was passed by the House; $326 million for title V of the Older Americans Act, the Senior Community Service Employment Program; $5 million to initiate a plant closing and mass layoff survey in the Bureau of Labor Statistics; and 30 additional positions for the Bureau of Apprenticeship and Training, to maintain the 1984 approved level of 262 positions.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

For the Department of Health and Human Services, the conference agreement contains a total of $79.6 billion

in mandatory and discretionary spending, including: $478 million for maternal and child health, a $79 million increase over last year, which I am especially pleased to see as very much needed; $360 million for community health centers; $142.5 million for family planning, a small increase, but meant to be a signal that the committee supports the program, even though the authorization may be hung up; $84 million for research on AIDS; $5.146 billion for the National Institutes of Health, an increase of $580 million over the fiscal year 1984 level; $2.1 billion for low-income energy assistance; $1.075 billion for Head Start, an $80 million increase over 1984; $200 million for child welfare assistance, a $35 million increase over fiscal year 1984; and $372.4 million for the community services block grant, a $20 million increase over fiscal year 1984, for a program that was proposed for termination.

Under NIH let me just make two comments. The House provided $4 million to complete the funding of Digestive Disease Centers. The conference agreement is significantly above the level passed by the House for the NIADDK, and it is our expectation that the $4 million will be provided for the support of a second round of new Digestive Disease Centers.

Second, let me also say I am proud of what the conference agreement provides for the Neurological Institute. As the person who last year initiated the movement to increase funding for the Neurological Institute, based on the tremendous progress in research on the brain, I am pleased to see that interest become generalized and to see Members of both the House and the Senate make this one of their priorities.

DEPARTMENT OF EDUCATION

For the Department of Education, the conference agreement provides $17.6 billion in mandatory and discretionary spending, a $2,237 million increase over fiscal year 1984, including: $3.695 billion for chapter 1, Compensatory Education for the Disadvantaged, a $208 million increase over fiscal year 1984; $531.9 million for chapter 2, a $52.5 million increase over fiscal year 1984, which I wish could have been more, including the bill language I sponsored to prevent the possibility of funds being frozen in fiscal year 1985 as they were in fiscal year 1984; $695 million for impact aid, a $95 million increase over fiscal year 1984; $100 million initial funding for the Math-Science Program; $75 million for Magnet Schools; $1.321 billion for handicapped education, an increase of $80.6 million over fiscal year 1984; $3.325 billion for Pell grants, a $525 million increase over fiscal year 1984, and an increase in the maximum grant from $1,900 to $2,100, plus $250 million for the 1983 shortfall; $109 million increase in other student financial aid programs; a $10 million increase on the TRIO programs; and no report language on NIE affecting the lab competition.

In addition, there is $200 million in the conference agreement for the Corporation for Public Broadcasting, which Chairman NATCHER was gracious enough to accept, and $150 million for ACTION, a $15 million increase over fiscal year 1984.

Let me make a few additional remarks concerning a number of items covered in the conference report.

First, I'd like to correct my remarks during the House debate of this bill on August 1. At that time, I said that the Department of Education was expected to maintain the percentage of funds used for in-service and continuing education training until the required manpower study was done under handicapped education, personnel preparation. That was incorrect. I should have said under the training program in the Rehabilitation Services Administration, and I reaffirm my understanding on that basis.

Second, I would like to note that the House report accompanying this bill indicated that an additional $1 million was provided under the National Institute of Handicapped Research, for the purpose of creating two or three new centers for employment of the handicapped. Since an additional $1 million over the House passed level was provided in the conference report, it would be my expectation that additional programs for employment of the handicapped be undertaken by NIHR, and I would expect to work with the Department on this issue.

With respect to the $75 million provided for Magnet Schools, I sponsored the conference report language stating that the Department is expected to address the needs of small cities as well as large cities. I have a city in my district, Holyoke, MA, that has been struggling since the repeal of the Emergency School Assistance Act, exacerbated by the passage of proposition 2½, to make a voluntary plan work, and its situation is very much the kind that needs to be addressed by this program.

Also, let me take up the point about chapter 2 again. I have worked long and hard to try to clear up the situation regarding the freezing of special programs funds in direct contravention of congressional intent. Funding levels have now been written into the law itself, to require that funds be spent as intended by the committee, and to prevent any repeat of the freezing of funds that took place in fiscal year 1984. This is a most serious issue of judicial encroachment upon the power of the purse held by the Congress, and it is not to be repeated in fiscal year 1985. In addition, the conference report language I sponsored indicates to the Department that the fiscal year 1985 funds are first to be used to keep those programs going that are faced with closing their doors for lack of fiscal year 1984 funds, with the fiscal year 1985 funds to be repaid once the fiscal year 1984 funds are unfrozen.

Mr. Speaker, I am very proud that for the second year in a row, we have successfully arrived at a consensus figure for appropriations for the Departments of Labor, Health and Human Services, and Education.

Congratulations are in order for everyone that has labored over this bill for the last 8 months, from the distinguished chairman of the subcommittee, BILL NATCHER, to the chairman of the full committee, JAMIE WHITTEN, to all the members of the subcommittee.

Everyone has sought to do their best to see that the needs of the people of this country are addressed in a responsive, yet responsible way.

The priorities expressed in this conference agreement are the right priorities, on education, health research, services for mothers and children, the handicapped, and the disadvantaged. There is approximately a $2.4 billion increase in the discretionary programs dealing with these priorities, compared with last year, and it will go a long way to assuring that needs currently not being served are addressed.

This is a good agreement, and it is a bipartisan agreement, in which every Member of Congress can take pride. I urge its adoption.

Mr. DANNEMEYER. Mr. Speaker, will the gentleman yield?

Mr. CONTE. I yield to the gentleman from California.

Mr. DANNEMEYER. Mr. Speaker, I rise in opposition to this conference report. Seldom have I seen a document which demonstrates the necessity of the people of this country requiring an amendment to the Constitution to mandate a balanced budget so as to bring some fiscal discipline to the Members of this House and to this body and to the other body.

I am appalled by looking at this conference report. I will remind my colleagues that it contains 26 items where spending is identified for different categories to fund the activities of Health and Human Services for fiscal year 1985.

The document that was furnished to me when I came to the floor today just wants to make you shake your head because of the 26 items; in 24 of them the total that is in this conference report is higher than the total when it left this body on August 1 by a vote of 329 to 91.

Is it any wonder that the existence of a conference report between the other body and this House is anathema to the interests of the taxpayers and future generations of America because when these conference commit-

tees get together the interest is not what is good for the taxpayers but what can be accommodated between these two bodies.

In this instance the road to accommodation resulted, as I say, an increase in the level of spending for 24 out of 26. In 1 of the 26 it is the same.

Now, for the proponents of social services, they should almost hold their head in shame, I suppose, because the funding level in the House was $2.7 billion and in the conference report is $2.7 billion, a push. For some reason in Pell Grants, when it left the House it was $3.4 billion. It is down to $3.325 billion.

In every other of the 24 items that are in this conference report, spending is up rather than down.

I do not know how we can ever reconcile this kind of a result with poll after poll in this country which says in the way of the viewpoint of the American people, the taxpayers: "You pay the bill," to the Congress of the United States, "will you please get your fiscal house in order, balance the budget by cutting spending, not raising taxes."

And here we come for this conference report that significantly raises the level of spending beyond which was approved by this House on August 1, 1984. The only place that spending of this magnitude can lead this country is into bankruptcy, and I would hope that my colleagues will have the privilege of rejecting it, to tell our conferees not that we question their sincerity, but we question their judgment.

Please, when you go to conference, come out with something lower, not with something higher. That is my request.

I admire the long hours and time that you have invested, which you can only deal not with the labor of our love or the love of our labor, but the work product of what you bring to us.

I find it to be against the interest of the taxpayers, and I ask my colleagues to reject this conference report.

Mr. CONTE. Mr. Speaker, I appreciate everything that my good friend from California has said, and I appreciate his contribution.

But I would say to the gentleman from California [Mr. DANNEMEYER] that when this bill passed the House, we deferred action on $7.67 billion out of our bill, because there were no authorizations for a large number of programs. Therefore, after the authorizations passed for programs like Head Start, Older Americans, and Maternal and Child Health, then the money was put back into the bill, and that is why it seems like it is much greater than when it passed the House.

We are under the ceiling of $33 billion which was the ceiling arrived at under the budget resolution and the target set out by the so-called Rose Garden Agreement. I do not think there were any thorns here, just beautiful roses.

I suggest passage of the conference report.

Mr. NATCHER. Mr. Speaker, I yield such time as he may consume to the gentleman from Washington [Mr. LOWRY].

Mr. LOWRY of Washington. Mr. Speaker, I would like to commend the House conferees, and especially the distinguished chairman of the Appropriations Subcommittee on Labor-Health and Human Services, for their fine work in bringing this agreement to the floor today. I am particularly pleased that the conferees have agreed to the House language to include funding for the Dental Research Institutes and Center Program. This program, operated under the National Institute of Dental Research, consists of five university dental research centers across the country. One of these programs—the Center for Research in Oral Biology—is located at the University of Washington, which is in my district. Funding for the centers had not been included in the Senate version of H.R. 6028.

In the absence of this funding, the National Institute of Dental Research would have carried out its plan to phase out the dental research centers. This decision would have had an adverse effect on the dental research community's ability to control and eradicate dental diseases. The dental research centers have been an extremely effective mechanism for increasing scientific knowledge in this area. Their achievements and contributions to biomedical science have been recognized through scientific peer review and through the reports to the Congress from the National Institute of Dental Research. This is a vital program which deserves to be continued. Again, I thank the conferees for their assistance in maintaining funding for these most important institutions of research.

● Mr. BIAGGI. Mr. Speaker, I rise in support of the pending conference report making appropriations for the Departments of Labor and Health and Human Services for the fiscal year 1985. As always I wish to pay tribute to the distinguished gentleman from Kentucky [Mr. NATCHER], who once again has demonstrated exemplary leadership in bringing to the House a responsible but progressive piece of legislation.

While there are many meritorious features in this legislation I wish to address myself to the funding levels provided for a program of great importance to me—the Older Americans Act. The levels agreed to in the conference are as follows:

Title III B—Supportive Services, $265 million;

Title III C1—Congregate Nutrition, $336 million;

Title III C2—Home Delivered Meals, $67.9 million;

Title IV—Research Training and Demonstration, $25 million;

Title V—Community Service Employment, $326 million; and

Title VI—Grants to Indians, $7.5 million.

I am pleased that within these levels are notable increases especially in title III B and III C1. I was proud to have authored an amendment to the recently passed second supplemental appropriations for fiscal year 1984 which provided an additional $15 million in funds for the Older Americans Act. This legislation builds further upon that initiative and directs its increases to the programs with the greatest need.

However I do have a concern which I hope will be addressed in future legislation during fiscal year 1985.

Coinciding with the consideration of this bill in conference was the House and Senate completing final action on S. 2603 the Older Americans Act reauthorization for fiscal year's 1985, 1986 and 1987. Contained in this bill is a new provision calling for a set aside of up to 5 percent of total funds under title III with a minimum of $300,000 for State agency activities. Based on previous appropriations figures, the amounts reserved for State administration totaled some $21 million. If in fact States exercised their option to use up to 5 percent for State administration, the amount required for State administration could reach $33 million. This would almost negate the extra funds provided in this legislation for services under title III. I would hope that the committee would give the most serious consideration to a supplemental appropriations later in fiscal year 1985 if the demands created by this new provision threatens the ability to provide services at existing levels.

Absent that concern, I am entirely satisfied with the levels agreed to in conference. The increases that are provided for titles III B and III C will allow us to better serve the ever increasing needs of the elderly of our localities, States, and Nation.

The bill in its entirety is a sound proposal and one that begins the process of returning us to an era when we provided adequate levels of funding for programs that help people. The Older Americans Act for the past two decades has been a success story because it works all across our Nation. Adequate funding levels such as those provided in H.R. 6028 will ensure it continues to do so during fiscal year 1985.●

Mr. NATCHER. Mr. Speaker, we have no further requests for time on this side.

Mr. CONTE. Mr. Speaker, we have no further requests for time.

Mr. NATCHER. Mr. Speaker, I move the previous question on the conference report.

The previous question was ordered.

The SPEAKER. The question is on the conference report.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. DANNEMEYER. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 313, nays 70, not voting 49, as follows:

□ 1620

The Clerk announced the following pairs:

On this vote:

Mr. Cheney for, with Mr. Paul against.

Mr. Pursell for, with Mr. Campbell against.

Mr. GINGRICH changed his vote from "yea" to "nay."

Mr. THOMAS of California and Mr. LEWIS of Florida changed their votes from "nay" to "yea."

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

□ 1630

AMENDMENTS IN DISAGREEMENT

The SPEAKER. The Clerk will designate the first amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 2: Page 2, line 15, strike out "$3,723,079,000" and insert "$3,650,519,000".

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 2 and concur therein with an amendment, as follows: In lieu of the sum proposed in said amendment insert the following: "$3,643,545,000".

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 10: Page 3, after line 16, insert:

To carry out the activities for national grants or contracts with public agencies and public or private nonprofit organizations under paragraph (1)(A) of section 506(a) of title V of the Older Americans Act of 1965, as amended, $261,300,000.

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 10 and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following: To carry out the activities for national grants or contracts with public agencies and public or private nonprofit organizations under paragraph (1)(A) of section 506(a) of title V of the Older Americans Act of 1965, as amended, $254,280,000.

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 11: Page 3 after line 16, insert:

To carry out the activities for grants to States under paragraph (3) of section 506(a) of title V of the Older Americans Act of 1965, as amended, $73,700,000.

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 11 and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following: To carry out the activities for grants to States under paragraph (3) of section 506(a) of title V of the Older Americans Act of 1965, as amended, $71,720,000.

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The gentleman from Kentucky [Mr. NATCHER] is recognized for 30 minutes.

Mr. NATCHER. Mr. Speaker, I yield to the gentleman from Texas [Mr. WRIGHT], the majority leader.

Mr. WRIGHT. Mr. Speaker, it is just possible that we may have a conference report agreement on the continuing resolution to vote on this evening. It has just been announced in the conference by the chairman of the conferees, acting on behalf of the other body, Senator HATFIELD, that it is his purpose and intent, and surely it is the purpose of our conferees, to conclude the agreement this evening and to bring a conference committee report to both bodies in order that it may be voted upon this evening.

That intention notwithstanding, Members realize that it is always possible that some problem may arise; but we believe there is a ray of hope and a light at the end of the tunnel, and I thought it useful to report that for the Members' planning this evening.

Mr. LOTT. Mr. Speaker, will the gentleman yield?

Mr. NATCHER. I yield to the gentleman from Mississippi.

Mr. LOTT. I thank the gentleman for yielding so that I may address a question to the distinguished majority leader.

The implication there was that progress was being made in the conference meeting. We are all pleased to hear that and that perhaps there would be an opportunity later on tonight to vote on some agreement. That came as a little bit of a surprise to me, thinking that we might be able to get to it tonight. A lot of Members are asking, naturally, the gentleman knows quite well, whether we are going to do it tonight or tomorrow. I have been clearly under the impression that we would probably not get to this conference report until tomorrow. That prospect is still very likely, that it will not be until tomorrow, is it not?

Mr. WRIGHT. If the gentleman will yield, I am simply reporting what I regard to be a very hopeful, very recent development in the conference. It is, of course, possible that we will not reach that point this evening. It takes time, as the gentleman is well aware, and other Members know, as well, to reduce the agreement to its written form in order that it might be precisely identically the same as it appears on the floors of both bodies.

So if an agreement were reached in 10 minutes, it still would take 3½, 4 hours, 2 hours, perhaps, before it could be reduced to that form.

But there is hope, at least. No, there is no guarantee that we will have that opportunity tonight. There is, at least, a revival of hope that we may possibly have that opportunity tonight, and I thought I should report that to the membership.

Mr. LOTT. I have just one comment on behalf of all of us, though. I am sure the gentleman's intention would be if it becomes apparent that the papers would not be ready at some reasonable hour tonight that the Members will be notified as early as possible tonight of the fact that we were going over until tomorrow.

Mr. WRIGHT. The gentleman is correct and properly raises the point. Whenever we make a judgment that it is or is not going to be available for us this evening, then those notices will go out to Members over the respective telephone systems that our whip organizations maintain with the offices of all of our Members.

Mr. LOTT. I thank the gentleman for yielding.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

Mr. CONTE. Mr. Speaker, I ask unanimous consent that Senate amendments Nos. 18, 21, 26, 31, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 72, 83, 90, 95, 99, 106, 126, 136, and 182 be considered en bloc and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The Senate amendments to be considered en bloc are as follows:

Senate amendment No. 18: Page 4, line 23, after "purpose," insert "and of which, not to exceed $3,767,000 which shall be available only for amortization payments to States which had independent retirement plans in their State Employment Service Agencies,".

Senate amendment No. 21: Page 5, line 22, after "Corporation" insert ": *Provided*, That not to exceed $33,057,000 shall be available for administrative expenses of the Corporation".

Senate amendment No. 26: Page 14, line 7, strike out all after "Consumer" down to and including "Fund" in line 11 and insert "Price Index, together with not to exceed $20,420,000 which may be expended from the Employment Security Administration account in the Unemployment Trust Fund: *Provided*, That $4,823,000 shall remain available until September 30, 1986.".

Senate amendment No. 31: Page 17, line 3, strike out "title III and section 1102" and insert "titles III, XI, and XIX".

Senate amendment No. 34: Page 17, line 15, after "301" and insert "and title IV".

Senate amendment No. 36: Page 17, line 18, strike out "and section 1105" and insert "title IV and title XI".

Senate amendment No. 38: Page 17, line 23, after "301" insert "and title IV".

Senate amendment No. 40: Page 18, line 3, after "301" insert "and title IV".

Senate amendment No. 42: Page 18, line 8, after "301" insert "and title IV".

Senate amendment No. 44: Page 18, line 13, after "301" insert "and title IV".

Senate amendment No. 46: Page 18, line 17, after "301" insert "and title IV".

Senate amendment No. 48: Page 18, line 22, after "301" insert "and title IV".

Senate amendment No. 50: Page 19, line 2, after "301" insert "and title IV".

Senate amendment No. 52: Page 19, line 7, strike out "and 311" and insert "311 and title IV".

Senate amendment No. 54: Page 19, line 11, after "301" insert "and title IV".

Senate amendment No. 56: Page 19, line 14, strike out "section 301" and insert "sections 301 and 472".

Senate amendment No. 72: Page 24, line 10, after "$270,000,000" insert "to remain available until expended".

Senate amendment No. 83: Page 27, line 17, strike out "$651,902,000" and insert "and title II of Public Law 95-266 (adoption opportunities), $690,902,000".

Senate amendment No. 90: Page 28, line 17, after "Act" insert:

, except that the Secretary of Health and Human Services may waive this requirement for any State applying for such a waiver if—

(1) the State obtained a waive of the requirements of section 138 of Public Law 97-276 with respect to appropriations for fiscal year 1983; and

(2) the State submits, prior to October 1, 1984, an application for fiscal year 1985 under the Community Sevices Block Grant Act, containing provisions for the use of assistance under that Act by political subdivisions.

Senate amendment No. 95: Page 29, line 16, after "$8,500,000" insert ": *Provided*, That not less than $1,750,000 shall be obligated to continue research on poverty conducted by the Institute for Research on Poverty".

Senate amendment No. 99: Page 31, line 24, after "GS-18;" insert "for carrying out section 472 of the Public Health Service Act;".

Senate amendment No. 106: Page 33, line 6, after "pay" insert ": *Provided*, That amounts received from employees of the department in payment for room and board may be credited to the appropriation accounts 'Health Resources and Services', National Institute of Health 'Office of the Di-

rector', 'Disease Control', and 'Federal Subsidy for Saint Elizabeths Hospital' ".

Senate amendment No. 126; Page 36, line 11, after "1986" ": *Provided*, That $500,000 of the amounts available under this heading for part F of the Education of the Handicapped Act shall be available for the Theater of the Deaf".

Senate amendment No. 136: Page 38, line 5, after "That" insert "notwithstanding section 411(a)(2)(A)(i) and section 411(b)(5) of the Higher Education Act,".

Senate amendment No. 182: Page 47, lines 24 and 25, strike out "section 141-143 of Public Law 98-221, $500,000" and insert "the provisions of the Vocational Rehabilitation Act of 1973, as amended (Public Law 98-221), $750,000 of which $300,000 shall be available for the employment of seven technical and professional staff persons in addition to the executive director".

MOTION OFFERED BY MR. CONTE

Mr. CONTE. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. CONTE moves that the House recede from its disagreement to the amendments of the Senate numbered 18, 21, 26, 31, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 72, 83, 90, 95, 99, 106, 126, 136, and 182, and concur therein.

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 30: Page 16, after line 7, insert:

HEALTH RESOURCES AND SERVICES

For carrying out titles III, IV, V, VII, VIII, X, and parts A and C of title XVI, and XIX of the Public Health Service Act, and 5 U.S.C. 7901, section 427(a) of the Federal Coal Mine Health and Safety Act, and title V of the Social Security Act, $1,455,289,000, of which $3,000,000 shall be available only for payments to the State of Hawaii for care and treatment of persons afflicted with Hansen's disease: *Provided*, That $5,000,000 of such amount shall be available for the establishment of geriatric educational units under section 788(b) of the Public Health Service Act: *Provided further*, That of the amount appropriated for title V of the Social Security Act, there are available $500,000 under section 502(a)(1) of the Social Security Act for a grant to the Kamehameha Schools/Bishop Estate in Honolulu, Hawaii, for the establishment and operation of a Native Hawaiian Parent and Child Center. Such grant shall require the recipient to match the grant on a dollar-for-dollar basis. Such amount shall remain available until expended: *Provided further*, That $5,000,000 shall be available to make grants to the University of Hawaii, Honolulu, Hawaii, to plan, develop, and operate a program for the training of medical officers to serve in American Samoa and the Trust Territory of the Pacific Islands, under section 301 of the United States Public Health Service Act. These funds may be used for alteration and renovation of facilities, travel, and student stipends, among other costs as necessary, for the training program, and shall remain available until expended: *Provided further*, That during the fiscal year 1985 new commitments to guarantee loans under subpart I of part C of title VII may be made only to the extent that the total loan principal, any part of which is to be guaranteed, shall not exceed $250,000,000: *Provided further*, That the premium charges set under subpart I of part C of title VII may be set by the Secretary at a level sufficient to defray the estimated payments of defaults: *Provided further*, That this appropriation shall be available for payment of the costs of medical care, related expenses, and burial expenses hereafter incurred by or on behalf of any person who has participated in the study of untreated syphilis initiated in Tuskegee, Alabama, in 1932, in such amounts and subject to such terms and conditions as prescribed by the Secretary of Health and Human Services and for payment, in such amounts and subject to such terms and conditions, of such costs and expenses hereafter incurred by or on behalf of such person's wife or offspring determined by the Secretary to have suffered injury or disease from syphilis contracted from such person: *Provided further*, That when the Department of Health and Human Services operates an employee health program for any Federal department or agency, payment for the full estimated cost shall be made by way of reimbursement or in advances to this appropriation: *Provided further*, That such funds as may be necessary shall be transferred from the National Health Service Corps to the Community Health Center program to pay for the salaries, benefits and other expenses associated with the private placement assignment of Corps personnel: *Provided further*, That collections from National Health Service Corps scholarship recipients who have breached their obligation to serve shall be used to fund new scholarships and shall remain available until expended: *Provided further*, That during the fiscal year, and within the resources and authority available under section 338 of the Public Health Service Act, gross obligations for the principal amount of direct loans under section 335(c), 338C(e)(1), and 338E of that Act shall not exceed $1,000,000: *Provided further*, That none of the funds made available by this Act shall be used to provide special retention pay (bonuses) under paragraph (4) of 37 U.S.C. 302(a) to any regular or reserve officer of the Public Health Service for any period during which the officer is providing obligated service under section 338B (or under former sections 225(e) or 752) of the Public Health Service Act except that this proviso shall not apply to any period of service covered by an agreement entered into by an officer under 37 U.S.C. 302(c)(1) before the date of enactment of Public Law 97-377.

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 30 and concur therein with an amendment, as follows:

HEALTH RESOURCES AND SERVICES

For carrying out titles III, IV, V, VII, VIII, X, and parts A and C of title XVI, and XIX of the Public Health Service Act, and 5 U.S.C. 7901, section 427(a) of the Federal Coal Mine Health and Safety Act, and title V of the Social Security Act, $1,427,694,000, of which $2,500,000 shall be available only for payments to the State of Hawaii for care and treatment of persons afflicted with Hansen's disease and $2,500,000, to remain available until expended, shall be for demonstration grants under section 301: *Provided further*, That this appropriation shall be available for payment of the costs of medical care, related expenses, and burial expenses hereafter incurred by or on behalf of any person who has participated in the study of untreated syphilis initiated in Tuskegee, Alabama, in 1932, in such amounts and subject to such terms and conditions as prescribed by the Secretary of Health and Human Services and for payment, in such amounts and subject to such terms and conditions, of such costs and expenses hereafter incurred by or on behalf of such person's wife or offspring determined by the Secretary to have suffered injury or disease from syphilis contracted from such person: *Provided further*, That when the Department of Health and Human Services operates an employee health program for any Federal department or agency, payment for the full estimated cost may be made by way of reimbursement or in advances to this appropriation: *Provided further*, That during the fiscal year, and within the resources and authority available under section 338 of the Public Health Service Act, gross obligations for the principal amount of direct loans under section 335(c), 338C(e)(1), and 338E of that Act shall not exceed $1,000,000: *Provided further*, That none of the funds made available by this Act shall be used to provide special retention pay (bonuses) under paragraph (4) of 37 U.S.C. 302(a) to any regular or reserve officer of the Public Health Service for any period during which the officer is providing obligated service under section 338B (or under former sections 225(e) or 752) of the Public Health Service Act except that this proviso shall not apply to any period of service covered by an agreement entered into by an officer under 37 U.S.C. 302(c)(1) before the date of enactment of Public Law 97-377.

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 32: Page 17, line 8, strike out "$198,802,000, of which $1,810,000" and insert "$413,930,000, of which $6,310,000".

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 32 and concur therein with an amendment, as follows: In lieu of the matter stricken and inserted by said amendment, insert the following: "$410,530,000, of which $6,310,000".

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 35: Page 17, line 16, strike out "$1,084,950,000" and insert "$1,187,693,000".

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 35 and concur therein with an amendment, as follows: In lieu of the sum proposed in said amendment insert the following: "$1,183,806,000".

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 37: Page 17, line 21, strike out "$764,135,000" and insert "$807,149,000".

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 37 and concur therein with an amendment, as follows: In lieu of the sum proposed in said amendment insert the following: "$805,269,000".

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 39: Page 17, line 24, strike out "$95,826,000" and insert "$98,451,000".

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 39 and concur therein with an amendment, as follows: In lieu of the sum proposed in said amendment insert the following: "$100,688,000".

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 41: Page 18, line 5, strike out "$515,516,000" and insert "$545,551,000".

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 41 and concur therein with an amendment, as follows: In lieu of the sum proposed in said amendment insert the following: "$543,576,000".

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 43: Page 18, line 10, strike out "$379,520,000" and insert "$401,403,000".

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 43 and concur therein with an amendment, as follows: In lieu of the sum proposed in said amendment insert the following: "$396,885,000".

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 45: Page 18, line 15, strike out "$355,728,000" and insert "$375,091,000".

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 45 and concur therein with an amendment, as follows: In lieu of the sum proposed in said amendment insert the following: "$370,965,000".

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 47: Page 18, line 19, strike out "$412,987,000" and insert "$495,150,000".

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate Numbered 47 and concur therein with an amendment, as follows: In lieu of the sum proposed in said amendment insert the following: "$482,260,000".

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER pro tempore. The clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 120: Page 36, after line 5, insert:

SCHOOL ASSISTANCE IN FEDERALLY AFFECTED AREAS

For carrying out title I of the Act of September 30, 1950, as amended (20 U.S.C. ch. 13), $675,000,000 of which $22,000,000 shall be entitlements under section 2 of said Act, $10,000,000, which shall remain available until expended, shall be for payments under section 7 of said Act and $643,000,000 shall be for entitlements under section 3 of said Act of which $565,000,000 shall be for entitlements under section 3(a) of said Act: *Provided*, That payment with respect to entitlements under section 3(a) to any local educational agency described in section 3(d)(1)(A) of said Act shall be at 100 per centum of entitlement except that payment to such agency attributable to children who reside on property which is described in section 403(1)(C) of said Act shall be limited to 15 per centum of entitlement: *Provided further*, That payment with respect to entitlements under section 3(a) to any local educational agency not described in section 3(d)(1)(A) shall be ratably reduced from 100 per centum of entitlement except that payment to such agency attributable to children who reside on property which is described in section 403(1)(C) shall be ratably reduced from 15 per centum of entitlement: *Provided further*, That payment with respect to entitlements under section 3(b) of said Act shall be ratably reduced from 100 per centum of entitlement: *Provided further*, That no payment shall be made under section 3 to any local educational agency whose payment under that section fails to exceed $5,000: *Provided further*, That the provisions of section 5(c) of said Act shall not apply to funds provided herein: *Provided further*, That section 305(b)(2) of the Education Amendments of 1974 shall not apply to funds provided herein: *Provided further*, That no payments shall be made under section 7 of said Act to any local educational agency whose need for assistance under that section fails to exceed the lesser of $10,000 or 5 per centum of the district's current operating expenditures during the fiscal year preceding the one in which the disaster occurred: *Provided further*, That of the funds available under section 7 of said Act, $1,000,000 shall be for reconstruction of a school in Motley County, Texas: *Provided further*, That in determining entitlements under section 3 of the Act of September 30, 1950 (Public Law 874, Eighty-first Congress), the local contribution rate for each local contribution rate for each local educational agency shall not be less than the local contribution rate for that agency for fiscal year 1984 increased by the percentage increase (if any) in the national average per pupil expenditure for fiscal year 1984 from fiscal year 1983: *Provided further*, That the Act of September 30, 1950 (Public Law 874, Eighty-first Congress) is amended by striking out "October 1, 1983" each place it appears in sections 2(a), 3(b), 4(a), and 7(a)(1) and inserting in lieu thereof "October 1, 1989": *Provided further*, That section 3(d)(2)(E)(ii) of the Act of September 30, 1950 (Public Law 874 Eighty-first Congress) is amended by striking out "1983 or 1984" and inserting in lieu thereof "1984 and each fiscal year thereafter" and division (iii) of section 3(d)(2)(E) of such Act is repealed: *Provided further*, That section 3(d)(2)(B) of the Act of September 30, 1950 (Public Law 874 Eighty-first Congress) is amended by inserting at the end thereof the following new sentence: "In carrying out the provisions of this subparagraph, the Secretary shall not prorate the amounts computed under this subparagraph attributable to the number of children determined under subsection (a) or (b), or both.": *Provided further*, That the second sentence of section 3(d)(2)(B) of the Act of September 30, 1950 (Public Law 874 Eighty-first Congress) is amended by striking out "The" and inserting in lieu thereof "Subject to the provisions of subsection (h) of this section, the", and section 3 of such Act is amended by adding at the end thereof the following new subsection:

"SPECIAL PROVISIONS

"(h) Any local educational agency for which the boundaries of the school district of such agency are coterminous with the boundaries of a military installation and which is not eligible to receive payments under subsection (d)(2)(B) shall receive 100 percent of the amounts to which such agency is entitled under subsection (a) of this section.".

For carrying out the Act of September 23, 1950, as amended (20 U.S.C. ch. 19), $20,000,000 which shall remain available until expended, shall be for providing school facilities as authorized by said Act, of which $8,500,000 shall be for awards under sections 14(a) and 14(b) of said Act, and $3,000,000 shall be for awards under section 5 and 14(c) of said Act: *Provided further*, That the Act of September 23, 1950 (Public Law 815, Eighty-first Congress), is amended—

(1) by striking out "October 1, 1983" in section 3 and inserting in lieu thereof "September 30, 1989"; and

(2) by striking out "October 1, 1983" in section 16(a)(1)(A) and inserting in lieu thereof "October 1, 1989".

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 120 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following:

SCHOOL ASSISTANCE IN FEDERALLY AFFECTED AREAS

For carrying out title I of the Act of September 30, 1950, as amended (20 U.S.C. ch. 13), $675,000,000 of which $22,000,000 shall be entitlements under section 2 of said Act, $10,000,000, which shall remain available until expended, shall be for payments under section 7 of said Act and $643,000,000 shall be for entitlements under section 3 of said Act of which $513,000,000 shall be for entitlements under section 3(a) of said Act: *Provided*, That payment with respect to entitlements under section 3(a) to any local educational agency described in section 3(d)(1)(A) of said Act shall be at 100 per centum of entitlement except that payment to such agency attributable to children who reside on property which is described in section 403(1)(C) of said Act shall be limited to 15 per centum of entitlement: *Provided further*, That payment with respect to entitlements under section 3(a) to any local educational agency not described in section 3(d)(1)(A) shall be ratably reduced from 100 per centum of entitlement except that payment to such agency attributable to children who reside on property which is described in section 401(1)(C) shall be ratably reduced from 15 per centum of entitlement: *Provided further*, That payment with respect to entitlements under section 3(b) of said Act to any local educational agency in

which 20 per centum or more of the total average daily attendance is made up of children determined eligible under section 3(b) shall be at 60 per centum of entitlement and payment with respect to entitlements under section 3(b) of said Act to any local educational agency in which less than 20 per centum of the total average daily attendance is made up of children determined eligible under section 3(b) shall be ratably reduced from 100 per centum of entitlement: *Provided further*, That the provisions of section 5(c) of said Act shall not apply to funds provided herein: *Provided further*, That section 305(b)(2) of the Education Amendments of 1974 shall not apply to funds provided herein: *Provided further*, That no payments shall be made under section 7 of said Act to any local educational agency whose need for assistance under that section fails to exceed the lesser of $10,000 or 5 per centum of the district's current operating expenditures during the fiscal year preceding the one in which the disaster occurred: *Provided further*, That in determining entitlements under section 3 of the Act of September 30, 1950 (Public Law 874, Eighty-first Congress), the local contribution rate for each local educational agency shall not be less than the local contribution rate for that agency for fiscal year 1984 increased by the percentage increase (if any) in the national average per pupil expenditure for fiscal year 1984 from fiscal year 1983: *Provided further*, That section 3(d)(2)(B) of the Act of September 30, 1950 (Public Law 874, Eighty-first Congress), is amended by inserting at the end thereof the following new sentence: "In carrying out the provisions of this subparagraph, the Secretary shall not prorate the amounts computed under this subparagraph attributable to the number of children determined under subsection (a) or (b), or both.": *Provided further*, That the second sentence of section 3(d)(2)(B) of the Act of September 30, 1950 (Public Law 874, Eighty-first Congress), is amended by striking out "The" and inserting in lieu thereof "Subject to the provisions of subsection (h) of this section, the", and section 3 of such Act is amended by adding at the end thereof the following new subsection:

"SPECIAL PROVISIONS

"(h) Any local educational agency for which the boundaries of the school district of such agency are coterminous with the boundaries of a military installation and which is not eligible to receive payments under subsection (d)(2)(B) shall receive 100 percent of the amounts to which such agency is entitled under subsection (a) of this section.".

For carrying out the Act fo September 23, 1950, as amended (20 U.S.C. ch. 19), $20,000,000 which shall remain available until expended, shall be for providing school facilities as authorized by said Act, of which $8,500,000 shall be for awards under section 10 of said Act, $8,500,000 shall be for awards under sections 14(a) and 14(b) of said Act, and $3,000,000 shall be for awards under sections 5 and 14(c) of said Act.

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate Amendment No. 121: Page 36, line 8, strike out "$1,298,540,000" and insert "$1,320,395,000".

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 135: Page 37, line 17, strike out all after "out" down to and including "1986" in line 21 and insert "subparts 1, 2, and 3 of part A, and parts C and E of title IV of the Higher Education Act, $4,491,000,000 which shall remain available until September 30, 1986, of which $400,000,000 shall be available for carrying out subpart 2 of part A of title IV of the Higher Education Act".

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 135 and concur therein with an amendment, as follows: In lieu of the matter stricken and inserted by said amendment, insert the following: "subparts 1, 2, and 3 of part A, and parts C and E of title IV of the Higher Education Act, $4,871,000,000 which shall remain, available until September 30, 1986, of which $412,500,000 shall be available for carrying out subpart 2 of part A of title IV of the Higher Education Act, and $250,000,000 shall be available to pay deficiencies resulting from the payment schedules for Pell Grants published by the Secretary of Education for academic year 1983-84 and academic year 1984-85".

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate Amendment No. 138: Page 38, line 7, after "$2,100" insert ": *Provided further*, That nothwithstanding section 482 of the Higher Education Act, the cost of attendance criteria used for calculating eligibility for and the amount of the Pell Grants for academic year 1985-1986 shall be established by the Secretary of Education: *Provided further*, That notwithstanding section 413D(a), and subsections, (a), (b), (c), and (e) of section 442 of the Higher Education Act, the Secretary shall apportion funds among the States so that each State's apportionment under the Supplemental Educational Opportunity Grant Program and Work-Study Program bears the same ratio to the total amount appropriated under each program as that State's apportionment in fiscal year 1981 for each program bears to the total amount appropriated for fiscal year 1981 for each program: *Provided further*, That notwithstanding section 413D(b)(1) (B)(ii) and section 446(a) of the Higher Education Act, from each jurisdiction's allotment of funds under each program, the Secretary shall allocate sums to institutions in that jurisdiction that did not receive an allocation in fiscal year 1979 (award year 1979-1980) under each program in a manner that will most effectively carry out the purposes of the Supplemental Educational Opportunity Grant Program and the Work-Study Program: *Provided further*, that notwithstanding section 413D(b)(1)(B)(ii)(II) of the Higher Education Act, the provisions of clause (I) of section 413D(b)(1)(B)(ii) of such Act shall apply to the amount made available for Supplemental Educational Opportunity Grants under this heading.

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 138 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment insert the following: "*Provided further*, That the cost of attendance criteria used for calculating eligibility for and the amount of the Pell Grants for academic year 1985-1986 shall be the same as the cost of attendance criteria used for academic year 1984-1985: *Provided further*, That notwithstanding section 413D(a), and subsections (a), (b), (c) and (e) of section 442 of the Higher Education Act, the Secretary shall apportion funds among the States so that each State's apportionment under the Supplemental Educational Opportunity Grant Program and Work-Study Program bears the same ratio to the total amount appropriated under each program as that State's apportionment in fiscal year 1981 for each program bears to the total amount appropriated for fiscal year 1981 for each program: *Provided further*, That notwithstanding section 413D(b)(1) (B)(ii) and section 446(a) of the Higher Education Act from each jurisdiction's allotment of funds under each program, the Secretary shall allocate sums to

institutions in that jurisdiction that did not receive an allocation in fiscal year 1979 (award year 1979–80) under each program in a manner that will most effectively carry out the purposes of the Supplemental Educational Opportunity Grant Program and the Work-Study Program: *Provided further,* That notwithstanding section 413D(b)(1)(B)(ii)(II) of the Higher Education Act, the provisions of clause (I) of section 413D(b)(1)(B)(ii) of such Act shall apply to the amount made available for Supplemental Educational Opportunity Grants under this heading.

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 140: Page 38, strike out all after line 12 over to and including "Act" the second time it appears in line 3 on page 39 and insert:

For carrying out title III of the Higher Education Act of 1965, as amended, $148,000,000: *Provided,* That in addition to the amount otherwise available for part A of title III, $5,000,000 of the title III appropriation shall be available to carry out part A notwithstanding section 347 of the Higher Education Act and to provide technical assistance to institutions applying for grants from such funds: *Provided further,* That 50 per centum of such $5,000,000 remaining after the provision of technical assistance shall be available to award grants to eligible institutions, located other than in Puerto Rico, which have an enrollment of at least 40 per centum of Hispanic students as reported on the latest available Education Department Higher Education General Information Survey (HEGIS); 25 per centum of such $5,000,000 remaining after the provision of technical assistance shall be available to institutions which have an enrollment of at least 5 per centum of American Indians, Native Alaskans or Virgin Islanders as reported on the latest available Education Department HEGIS; and 25 per centum of such $5,000,000 remaining after the provision of technical assistance shall be available to institutions in Hawaii, Guam, American Samoa, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands which have an enrollment of at least 5 per centum of Native American Pacific Islanders, including Native Hawaiians, as reported on the latest available Education Department HEGIS: *Provided further,* That an institution in Hawaii, Guam, American Samoa, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands shall qualify as an eligible institution for the purpose of awarding a grant from such $5,000,000 even if the institution only satisfies the requirements of sections 312(2)(A)(iii) and 312(2)(A)(iv) of the Higher Education Act.

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 140 and concur therein with an amendment, as follows: In lieu of the matter stricken and inserted by said amendment insert the following: "For carrying out title III of the Higher Education Act of 1965, as amended, $141,208,000".

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 141: Page 39, after line 7, insert:

For carrying out subpart 4 of part A of title IV; titles VI, VIII, and X, parts B, C, D, and E of title IX; and sections 420, 734, and 1204(c) of the Higher Education Act of 1965, as amended; section 102(b)(6) of the Mutual Educational and Cultural Exchange Act of 1961; and the Minority Institutions Science Improvement Program under section 528(3) of the Omnibus Budget Reconciliation Act of 1981 as extended by section 414 of the General Education Provisions Act, $282,215,000: *Provided,* That $18,775,000 made available for interest subsidy grants under section 734 of the Higher Education Act shall remain available until expended: *Provided further,* That sections 922(b)(2) and 922(e)(2) and the funding limitations set forth in section 922(e) of the Higher Education Act shall not apply to funds in this Act.

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 141 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment insert the following: "For carrying out subpart 4 of part A of title IV; titles VI, VII, VIII, and X, parts B, C, D, and E of title IX; and sections 420, 734, and 1204(c) of the Higher Education Act of 1965 as amended; section 506 of the Education Amendments of 1972, as further amended by title XIII, part G, section 1361(a) of the Education Amendments of 1980; title XIII, part H, subpart 1 of the Education Amendments of 1980; section 102(b)(6) of the Mutual Educational and Cultural Exchange Act of 1961; and the Minority Institutions Science Improvement Program under section 528(3) of the Omnibus Budget Reconciliation Act of 1981 as extended by section 414 of the General Education Provisions Act, $315,875,000: *Provided,* That $18,775,000 made available for interest subsidy grants under section 734 of the Higher Education Act and $28,000,000 made available for undergraduate and graduate facilities grants under part B of title VII of said Act shall remain available until expended: *Provided further,* That sections 922(b)(2) and 922(e)(2) and the funding limitations set forth in section 922(e) of the Higher Education Act shall not apply to funds in this Act."

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 142: Page 39, after line 7, insert:

For carrying out title IV of the Act entitled "An Act to Amend and Extend the Library Services and Construction Act, and for other purposes" (as passed by the Senate), $19,000,000, of which $6,500,000 is for the William H. Mortensen Library at the University of Hartford, $9,000,000 for the Human Development Center Facility at the University of Kansas, and $3,500,000 for the Carl Vinson Institute of Government.

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 142 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment insert the following: "For carrying out title III, sections 301, 302, 303, and 304 of H.R. 2878, "The Library Services and Construction Act Amendments of 1984", as contained in conference report No. 98–1075, $22,000,000.".

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. MATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 154: Page 41, line 6, after "$86,880,000" and insert "$150,000,000".

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 154 and concur therein with an amendment, as follows: In lieu of

the sum proposed by said amendment insert "$125,000,000".

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 155: Page 41, line 6, after "$86,880,000" insert: *"Provided*, That $50,000,000 of the sums appropriated shall be used to carry out the provisions of title II of the Library Services and Construction Act and shall remain available until expended".

MOTION OFFERED BY MR NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 155 and concur therein with an amendment, as follows: In lieu of the sum named in said amendment insert "$25,000,000".

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 170: Page 45, after line 2, insert:

SEC. 306. None of the funds appropriated under this Act shall be used to prevent individual voluntary prayer and meditation in the public schools.

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House insist on its disagreement to the amendment of the Senate numbered 170.

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 171: Page 45, strike out lines 3, 4, and 5.

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House insist on disagreement to the amendment of the Senate numbered 171.

Mr. CONTE (during the reading). Mr Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 173: Page 45, after line 23, insert:

SEC. 307. Section 402(c) of the Housing Act of 1950 is amended by striking out in clause (9) "October 1, 1984" and inserting in its place "October 1, 1985".

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 173 and concur therein with an amendment, as follows: In lieu of the matter proposed in said amendment insert the following:

SEC. 308. Section 402(c) of the Housing Act of 1950 is amended by striking out in clause (9) "October 1, 1984" and inserting in its place "October 1, 1985".

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 178: Page 46, line 15, after "Act" insert "*Provided*, That none of the funds appropriated under this heading may be used to close State or regional field offices or to reduce personnel of the ACTION agency.

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 178 and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following: "*Provided*, That none of the funds appropriated under this heading may be used to close State or regional field offices".

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No. 179: Page 46, after line 15, insert:

CORPORATION FOR PUBLIC BROADCASTING

PUBLIC BROADCASTING FUND

For payment to the Corporation for Public Broadcasting, as authorized by the Communications Act of 1934 as amended, an amount which shall be available within limitations specified by said Act, for the fiscal year 1987, $238,000,000: *Provided*, That no funds made available to the Corporation for Public Broadcasting by this Act shall be used to pay for receptions, parties and similar forms of entertainment for government officials or employees: *Provided further*, That none of the funds contained in this paragraph shall be available or used to aid or support any program or activity excluding from participation in, denying the benefits of, or discriminating against any person on the basis of race, color, national origin, religion or sex.

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 179 and concur therein with an amendment, as follows: In lieu of the sum named in said amendment, insert the following: "$200,000,000".

Mr. CONTE (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

The SPEAKER. The Clerk will designate the next amendment in disagreement.

The amendment reads as follows:

Senate amendment No 197: Page 56, after line 3, insert:

SEC. 515. Notwithstanding any other provision of this Act, no funds appropriated by

this Act may be used to execute or carry out any contract with a nongovernmental entity to administer or manage a Civilian Conservation center of the Job Corps which was not under such a contract as of September 1, 1984.

MOTION OFFERED BY MR. NATCHER

Mr. NATCHER. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. NATCHER moves that the House recede from its disagreement to the amendment of the Senate numbered 197 and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment insert the following:

SEC. 513. Notwithstanding any other provision of this Act, no funds appropriated by this Act may be used to execute or carry out any contract with a non-governmental entity to administer or manage a Civilian Conservation center of the Job Corps which was not under such a contract as of September 1, 1984.

Mr. CONTE (during the reading). Mr. Speaker I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

The SPEAKER. The question is on the motion offered by the gentleman from Kentucky [Mr. NATCHER].

The motion was agreed to.

A motion to reconsider the votes by which action was taken on the conference report and the several motions was laid on the table.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate had passed with amendments in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 5051. An act to improve the operation of the Fishermen's Protective Act of 1967.

GRANTING FEDERAL CHARTER TO NATIONAL SOCIETY, DAUGHTERS OF THE AMERICAN COLONISTS

Mr. SAM B. HALL, JR. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 3034) to grant a Federal charter to the National Society, Daughters of the American Colonists, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

Mr. KINDNESS. Mr. Speaker, reserving the right to object, I do so in order to give the gentleman from Texas the opportunity to explain what is being proposed, and I yield to him under my reservation of objection.

Mr. SAM B. HALL, JR. I thank the gentleman for yielding.

Mr. Speaker, the bill is similar to the bill H.R. 1881 granting a charter to the National Society, Daughters of the American Colonists. It contains the standard language followed by the House Committee on the Judiciary in previous bills granting charters to nonprofit organizations of a patriotic nature.

This is the same bill, if the gentleman from Ohio will recall, that passed through our subcommittee.

Mr. KINDNESS. Mr. Speaker, I would urge that the proposed action by the gentleman from Texas [Mr. SAM B. HALL, JR.], be concurred in.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 3034

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

CHARTER

SECTION 1. National Society, Daughters of the American Colonists, organized and incorporated under the laws of the District of Columbia in 1921, is hereby recognized as such and is granted a charter.

POWERS

SEC. 2. National Society, Daughters of the American Colonists (hereinafter referred to as the "corporation") shall have only those powers granted to it through its bylaws and articles of incorporation filed in the State or States in which it is incorporated and subject to the laws of such State or States.

OBJECTS AND PURPOSES OF CORPORATION

SEC. 3. The objects and purposes for which the corporation is organized shall be those provided in its articles of incorporation and shall include a continuing commitment, on a national basis, to—

(1) conduct research with respect to the history and deeds of the American colonists, and record and publish the results of such research;

(2) publish the memoirs of American colonists;

(3) erect memorials to commemorate the history and deeds of the American colonists;

(4) promote respect and admiration for the institutions, laws, and flag of the United States;

(5) engage in mutual improvement and educational activities; and

(6) establish scholarships to assist needy and deserving students and to promote the improvement of educational institutions, engage in volunteer service and make contributions to veterans hospitals, and perform such other charitable activities including the national presidents' projects as may be provided by the articles of incorporation or bylaws of the society.

SERVICE OF PROCESS

SEC. 4. With respect to service of process, the corporation shall comply with the laws of the States in which it is incorporated and those States in which it carries on its activities in furtherance of its corporate purposes.

MEMBERSHIP

SEC. 5. Eligibility for membership in the corporation and the rights and privileges of members shall, except as provided in this Act, be as provided in the constitution and bylaws of the corporation, and terms of membership and requirements for holding office within the corporation shall not be discriminatory on the basis of race, color, religion, or national origin.

BOARD OF DIRECTORS; COMPOSITION; RESPONSIBILITIES

SEC. 6. The board of directors of the corporation and the responsibilities thereof shall be as provided in the articles of incorporation or bylaws of the corporation and in conformity with the laws of the State or States in which it is incorporated.

OFFICERS OF CORPORATION

SEC. 7. The officers of the corporation, and the election of such officers shall be as is provided in the articles of incorporation or bylaws of the corporation and in conformity with the laws of the State or States wherein it is incorporated.

RESTRICTIONS

SEC. 8. (a) No part of the income or assets of the corporation shall inure to any member, officer, or director of the corporation or be distributed to any such person during the life of this charter. Nothing in this subsection shall be construed to prevent the payment of reasonable compensation to the officers of the corporation or reimbursement for actual necessary expenses in amounts approved by the board of directors.

(b) The corporation shall not make any loan to any officer, director, or employee of the corporation.

(c) The corporation and any officer and director of the corporation, acting as such officer or director, shall not contribute to, support, or otherwise participate in any political activity or in any manner attempt to influence legislation.

(d) The corporation shall have no power to issue any shares of stock nor to declare or pay any dividends.

(e) The corporation shall not claim congressional approval or Federal Government authority for any of its activities.

(f) The corporation shall retain and maintain its status as a corporation organized and incorporated under the laws of the State or States wherein it is incorporated.

EXCLUSIVE RIGHT TO NAME, EMBLEMS, SEALS, AND BADGES

SEC. 9. Subject to established or vested rights, the corporation shall have the sole and exclusive right to have and to use, in carrying out its purposes, the name National Society, Daughters of the American Colonists and any emblem, seal, or badge adopted or used by the corporation.

LIABILITY

SEC. 10. The corporation shall be liable for the acts of its officers and agents when acting within the scope of their authority.

BOOKS AND RECORDS; INSPECTION

SEC. 11. The corporation shall keep correct and complete books and records of account and shall keep minutes of any proceeding of the corporation involving any of its members, the board of directors, or any committee having authority under the board of directors. The corporation shall keep at its principal office a record of the names and addresses of all members having the right to vote. All books and records of

such corporation may be inspected by any member having the right to vote, or by any agent or attorney of such member, for any proper purpose, at any reasonable time. Nothing in this section shall be construed to contravene any applicable State law.

AUDIT OF FINANCIAL TRANSACTIONS

SEC. 12. The first section of the Act entitled "An Act to provide for audit of accounts of private corporations established under Federal law", approved August 30, 1964 (36 U.S.C. 1101), is amended by adding at the end thereof the following:

"(66) National Society, Daughters of the American Colonists".

ANNUAL REPORT

SEC. 13. The corporation shall report annually to the Congress concerning the activities of the corporation during the preceding fiscal year. Such annual report shall be submitted at the same time as is the report of the audit required by section 11 of this Act. The report shall not be printed as a public document.

RESERVATION OF RIGHT TO AMEND OR REPEAL CHARTER

SEC. 14. The right to alter, amend, or repeal this Act is expressly reserved to the Congress.

DEFINITION OF "STATE"

SEC. 15. For purposes of this Act, the term "State" includes the District of Columbia, the Commonwealth of Puerto Rico, and the territories and possessions of the United States.

TAX-EXEMPT STATUS

SEC. 16. The corporation shall maintain its status as an organization exempt from taxation as provided in the Internal Revenue Code of 1954. If the corporation fails to maintain such status, the charter granted hereby shall expire.

TERMINATION

SEC. 17. The corporation shall fail to comply with any of the restrictions or provisions of this Act, the charter granted hereby shall expire.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GRANTING A FEDERAL CHARTER TO THE 369TH VETERANS' ASSOCIATION

Mr. SAM B. HALL, JR. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 1095) to grant a Federal charter to the 369th Veterans' Association, with a Senate Amendment thereto, and concur in the Senate amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendment, as follows:

Page 5, line 9, strike out "(60)" and insert "(65)".

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

A motion to reconsider was laid on the table.

REQUEST FOR CONSIDERATION OF SENATE AMENDMENT TO HOUSE AMENDMENT TO SENATE AMENDMENT TO H.R. 5479, AMENDMENTS WITH RESPECT TO AWARDS OF EXPENSES OF CERTAIN AGENCY AND COURT PROCEEDINGS

Mr. KASTENMEIER. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 5479) to amend section 504 of title 5, United States Code, and section 2412 of title 28, United States Code, with respect to awards of expenses of certain agency and court proceedings, and for other purposes with a Senate amendment to the House amendment to the Senate amendment thereto, and concur in the Senate amendment to the House amendment to the Senate amendment with an amendment.

□ 1650

The Clerk read the title of the bill.

The Clerk read the House amendment to the Senate amendment to the House amendment to the Senate amendment, as follows:

In lieu of the matter proposed to be inserted by the Senate amendment, insert:

That (a) section 504(a)(1) of title 5, United States Code, is amended—

(1) by striking out "as a party to the proceeding", and

(2) by adding at the end thereof the following: "The decision of the adjudicative officer on the application for fees and other expenses shall be the final administrative decision under this section.".

(b) Section 504(a)(2) of title 5, United States Code, is amended by adding at the end thereof the following: "When the United States appeals the underlying merits of an adversary adjudication, no decision on an application for fees and other expenses in connection with that adversary adjudication shall be made under this section until a final and unreviewable decision is rendered by the court on the appeal or until the underlying merits of the case have been finally determined pursuant to the appeal.".

(c) Section 504(b) of title 5, United States Code, is amended—

(1) by amending paragraph (1)(B) to read as follows:

"(B) 'party' means a party, as defined in section 551(3) of this title, who is (i) an individual whose net worth did not exceed $2,000,000 at the time the adversary adjudication was initiated, or (ii) any owner of an unincorporated business, or any partnership, corporation, association, unit of local government, or organization, the net worth of which did not exceed $7,000,000 at the time the adversary adjudication was initiated, and which had no more than 500 employees at the time the adversary adjudication was initiated; except that an organization decribed in section 501(c)(3) of the Internal Revenue Code of 1954 (26 U.S.C. 501(c)(3)) exempt from taxation under section 501(a) of such Code, or a cooperative association as defined in section 15(a) of the Agricultural Marketing Act (12 U.S.C. 1141j(a)), may be party regardless of the net worth of such organization or cooperative association;";

(2) in paragraph (1)(C)—

(A) by inserting "(i)" before "an adjudication under";

(B) by inserting before the semicolon at the end thereof the following: ", and (ii) any appeal of a decision made pursuant to section 6 of the Contract Disputes Act of 1978 (41 U.S.C. 605) before an agency board of contract appeals as provided in section 8 of that Act (41 U.S.C. 607)"; and

(C) by striking out "and" at the end thereof;

(3) by striking out the period at the end of subparagraph (D) and inserting in lieu thereof "; and"; and

(4) by adding at the end thereof the following:

"(E) 'position of the agency' includes the underlying action which led to the adversary adjudication; except that fees and expenses may not be awarded to a party for any portion of the adversary adjudication in which the party has unreasonably protracted the proceedings.".

(d) Section 504(c)(2) of title 5, United States Code, is amended to read as follows:

"(2) If a party or the United States is dissatisfied with a determination of fees and other expenses made under subsection (a), that party or the United States (as the case may be) may, within 30 days after the determination is made, appeal the determination to the court of the United States having jurisdiction to review the merits of the underlying decision of the agency adversary adjudication. The court's determination on all appeals heard under this paragraph shall be based solely on the factual record made before the agency. The court may modify the determination of fees and other expenses only if the court finds that the failure to make an award of fees and other expenses, or the calculation of the amount of the award, was unsupported by substantial evidence.".

(e) Section 504(d) of title 5, United States Code, is amended to read as follows:

"(d) Fees and other expenses awarded under this subsection shall be paid by any agency over which the party prevails from any funds made available to the agency by appropriation or otherwise.".

(f) Section 504 of title 5, United States Code, is amended by adding at the end thereof the following:

"(f) If complete payment of the fees and other expenses awarded under this section is not made within 60 days after the final agency action making an award of such fees and other expenses, interest shall be paid on the amount remaining due. Such interest shall be computed at the rate the Secretary of the Treasury establishes for interest payments under section 12 of the Contract Disputes Act of 1978 (41 U.S.C. 611), and shall run from the date which is 61 days after the date of such award up to and including the date such payment is posted by certified or registered mail.".

SEC. 2. (a) Section 2412 of title 28, United States Code, is amended—

(1) in subsections (a) and (b) by striking out "or any agency and any official of the United States" each place it appears and inserting in lieu thereof "or any agency or any official of the United States"; and

(2) in subsection (d)(1)(A) by inserting ", including proceedings for judicial review of agency action," after "in tort)".

(b) Section 2412(d)(2) of title 28, United States Code, is amended—

(1) in subparagraph (B)—

(A) in clause (i) by striking out "$1,000,000" and inserting in lieu thereof "$2,000,000"; and

(B) by striking out "(ii)" and all that follows through the end of the subparagraph and inserting in lieu thereof the following: "or (ii) any owner of an unincorporated business, or any partnership, corporation, association, unit of local government, or organization, the net worth of which did not exceed $7,000,000 at the time the civil action was filed, and which had not more than 500 employees at the time the civil action was filed; except that an organization described in section 501(c)(3) of the Internal Revenue Code of 1954 (26 U.S.C. 501(c)(3)) exempt from taxation under section 501(a) of such Code, or a cooperative association as defined in section 15(a) of the Agricultural Marketing Act (12 U.S.C. 1141j(a)), may be a party regardless of the net worth of such organization or cooperative association;";

(2) by striking out the period at the end of subparagraph (C) and inserting in lieu thereof a semicolon; and

(3) by adding at the end thereof the following:

"(D) 'position of the United States' includes the underlying agency action which led to the litigation; except that fees and expenses may not be awarded to a party for any portion of the litigation in which the party has unreasonably protracted the proceedings;

"(E) 'civil action brought by or against the United States' includes an appeal by a party, other than the United States, from a decision of a contracting officer rendered pursuant to a disputes clause in a contract with the Government or pursuant to the Contract Disputes Act of 1978;

"(F) 'court' includes the United States claims court;

"(G) 'final judgment' means a judgment that is final and not appealable; and

"(H) 'prevailing party', in the case of eminent domain proceedings, means a party who obtains a final judgment (other than by settlement), exclusive of interest, the amount of which is at least as close to the highest valuation of the property involved that is attested to at trial on behalf of the property owner as it is to the highest valuation of the property involved that is attested to at trial on behalf of the Government.".

(c) Section 2412(d)(4) of title 28, United States Code, is amended to read as follows:

"(4) Fees and other expenses awarded under this subsection to a party shall be paid by any agency over which the party prevails from any funds made available to the agency, by appropriation or otherwise.".

(d) Section 2412 of title 28, United States Code, is amended by adding at the end thereof the following:

"(f) If complete payment of the costs or fees and other expenses awarded under this section is not made within 60 days after the award of such costs or fees and other expenses, interest shall be paid thereafter on the amount remaining due. Such interest shall be computed at the rate the Secretary of the Treasury establishes for interest payments under section 12 of the Contract Disputes Act of 1978 (41 U.S.C. 611), and shall run from the date which is 61 days after the date of such award up to and including the date such payment is posted by certified or registered mail.".

SEC. 3. Section 206 of the Equal Access to Justice Act is amended—

(1) by striking out "Nothing" and inserting in lieu thereof "(a) Except as provided in subsection (b), nothing"; and

(2) by adding at the end thereof the following:

"(b) Section 206(b) of the Social Security Act (42 U.S.C. 406(b)(1)) shall not prevent an award of fees and other expenses under section 2412(d) of title 28, United States Code. Section 206(b)(2) of the Social Security Act shall not apply with respect to any such award but only if any fees collected by the claimant's attorney or withheld for such attorney pursuant to such section 206(b) are refunded to the claimant insofar as the fees relate to the same work for which the claimant's attorney is awarded fees under section 2412(d) of title 28, United States Code.".

SEC. 4. Section 203(c) of the Equal Access to Justice Act (Public Law 96-481) is repealed.

SEC. 5. Section 204(c) of the Equal Access to Justice Act is repealed.

SEC. 6. Section 207 of the Equal Access to Justice Act is repealed.

SEC. 7. Section 208 of the Equal Access to Justice Act is amended by adding at the end thereof the following: "Awards may be made for fees incurred before October 1, 1981, in any such adversary adjudication or civil action.".

SEC. 8. (a) Except as otherwise provided in this section, the amendments made by this Act shall be effective as of October 1, 1984, and shall apply to cases pending on such date.

(b) The amendments made to section 504(b)(1)(C)(ii) of title 5, United States Code, by subsection (c)(2) of the first section of this Act, and the amendments to section 2412(d)(2)(E) of title 28, United States Code, made by section 2(b)(3) of this Act shall apply to any adversary adjudication which was pending on or commenced on or after October 1, 1981, in which applications for fees and expenses were timely filed and were dismissed for lack of jurisdiction.

Mr. KASTENMEIER (during the reading). Mr. Speaker, I ask unanimous consent that the amendment to the Senate amendment to the House amendment to the Senate amendment to H.R. 5479 be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Wisconsin?

Mr. WALKER. Mr. Speaker, reserving the right to object.

The SPEAKER pro tempore. The gentleman from Pennsylvania is recognized under his reservation.

Mr. WALKER. Mr. Speaker, it is my understanding and I just learned this a few moments ago that the administration has severe objections to this particular bill. Given that circumstance, I am reluctant to allow it to come out here under a provision for unanimous consent.

It is possible that we could have an assurance that we do not pass the bill by unanimous consent, but rather allow it to come to a vote by the whole House?

Mr. KASTENMEIER. Will the gentleman yield?

Mr. WALKER. I will be glad to yield to the gentleman.

Mr. KASTENMEIER. As the gentleman knows, this is the Equal Access to Justice Act. This is an extension of an act most of which expired on October 1, 1984, after having been enacted 4 years ago by the Congress. It needs to be extended. It has worked very well. It passed the House on September 11, 1984, unanimously.

As a matter of fact, we have been in disagreement with the other body on only three points. When it came back from the other body, we reserved the House position on three points and on October 4, I asked unanimous consent at that time to return it with the House amendment.

The gentleman recalls and I am sure the gentleman from Ohio [Mr. KINDNESS] does, that was agreed to.

At this point the other body returned the bill to us with a TEFRA provision which violates the Committee on Ways and Means' jurisdiction.

The gentleman from Illinois [Mr. ROSTENKOWSKI] would not concede that point. We have to reserve that point and therefore strike the provision and that is, in fact, the only difference we now have with the Senate on the bill.

A second issue, and one that I had reserved with reference to the retroactivity of cases with respect to the Boards of Contract Appeals, I had strong disagreement with the Senate on it; I am conceding that issue because we cannot continue a protracted and endless disagreement which will only end up in no act being extended whatsoever.

The other point that the gentleman from Connecticut [Mr. MORRISON] had reserved was on a provision relating to remands in Social Security cases. Based on my pledge that he will have an opportunity and that I will give him support next year to seek some change in that regard, the gentleman has withdrawn his objection to the other body's action deleting the remand language. Therefore what we are asking, I say to the gentleman from Pennsylvania, merely is a reservation on jurisdictional grounds that the amended act may not refer to TEFRA, which is the Committee on Ways and Means' jurisdiction and in which they do not agree to on tax cases. Therefore in an effort to seek some agreement with the other body before, in fact we close down, and to continue to make the act effective as from October 1, 1984, we are returning H.R. 5479 as so amended.

That is my explanation to the gentleman.

Mr. WALKER. Mr. Speaker, further reserving the right to object, I will be glad to yield to the gentleman from Ohio.

Mr. KINDNESS. I thank the gentleman for yielding.

Mr. Speaker, I think the explanation made by the gentleman from Wisconsin [Mr. KASTENMEIER] well states the

case, but it is important for us to remember that at the base of this if this action is not completed, we already have experienced and passed the time when the Equal Access to Justice Act expires, on September 30 at midnight.

I think it is very firmly and well-supported by most, if not all of the membership of this body and apparently the other body as well.

It does appear to me that the action that is proposed by the gentleman from Wisconsin is the only action that is reasonable to be taken by this body at this time in order to assure that the Equal Access to Justice Act is indeed renewed.

I understand that the administration has some problem, but I am sure if there is any specific focus to the concern at this time in relation to the action being proposed today.

Would the gentleman from Pennsylvania happen to know if there is something focused on this? I know the Justice Department and OMB have had some reservations about the potential future cost of the Equal Access to Justice Act and that has been underlying in the background right along.

But that is not very much of an argument as against those people who are subjected to having to fight city hall in the form of the Federal Government and finally prevail and ought to have the reimbursement of their attorneys fees and costs in these cases, and I think the essential fairness in the Equal Access to Justice Act regardless of what the Department of Justice and OMB may feel is well recognized, and if the gentleman could help us understand the specific focus of concern at this point it would be helpful.

Mr. WALKER. Further reserving the right to object, Mr. Speaker, having only been informed of this a few moments ago I do not have a lot of detail on the question. It is my understanding that the administration would have no objection to a simple extension of the equal access to justice bill.

They are concerned about new provisions that are in this bill that would seem to allow additional information to be scanned by people who are seeking to look into Government files. It is the expansion of the bill which is the problem with the administration at this point.

Expansion will not only add to costs but also would make materials available that were not previously available that the administration is perfectly willing to go along with a simple extension of the bill, but this modified bill is unacceptable and this question does not know the details on it just in terms of process, though it seems to me that any kind of a bill where there is potential administration problems with it we ought not be running through this House at this late hour by unanimous consent; that we ought to at least bring these matters to a vote so that the will of the body is reflected.

That is all this gentleman is asking, is that we do not proceed under unanimous consent to adopt the bill, but that we specifically move the bill through by vote.

Mr. KASTENMEIER. Will the gentleman from Pennsylvania yield further under his reservation?

Mr. WALKER. I will be glad to yield.

Mr. KASTENMEIER. Because I do not think the gentleman from Pennsylvania states the case correctly, that the administration is opposed to this bill or would not sign it if given an opportunity. On September 11, this bill was debated and passed this body on the Suspension Calendar. It was actually passed unanimously, as I remember, but what has been in controversy, I must say, with reference to two items, TEFRA, and the Board of Contract Appeals, the House position would have been that which would have been preferred by the administration.

Indeed, that which we insist upon in returning the bill to the other body deleting reference to TEFRA and tax cases, would be an administration position.

So we are, I think, in a very key area, insisting on at least the position that the administration would agree in our difference with the Senate.

I would urge the gentleman not to object, because at this late hour this is the last vehicle we have to maintain a program which has been in effect for 3 years.

It has been of importance to the small business community and is supported by them without exception. The small business community is extremely dependent on the continued existence of Equal Access to Justice and I would think it would be a disservice, I must say, to end up terminating a program and not giving us the opportunity legislatively to permit it to go to the White House.

□ 1400

I assure the gentleman the White House will not veto this bill and does not oppose it.

Mr. WALKER. Further reserving the right to object, Mr. Speaker, I would say to the gentleman that I was on the phone with the White House not more than 5 to 10 minutes ago and they were the ones who informed me that they had some problems with the bill. So I can only reflect to the gentleman that what he is telling me is different from what the White House told me a matter of minutes ago.

Mr. KASTENMEIER. No, I do not say they do not and have not had problems with the bill. We have problems with the bill. That is what we are trying to resolve.

Mr. WALKER. All I am suggesting is that the request that we have before us should not be to pass this bill by unanimous consent but, rather, that we ought to have unanimous consent for consideration only and then move the bill forward in a way that will give the House the opportunity to vote on the bill. That is all I am suggesting to the gentleman: that I do not believe that we ought to pass a bill where there are serious questions, serious enough to at least have called this Member and said to watch for it under unanimous-consent procedures; that we ought to be moving forward with that kind of a process.

A simple extension of the bill, and I think the gentleman will agree with me that this is more than a simple extension of the present act, than a simple extension of the act we have no problem with, at least I do not, but a new program or a modification of the program does seem to have some problems with it and ought to be voted on, rather than be done by unanimous consent.

Mr. KASTENMEIER. Mr. Speaker, will the gentleman from Pennsylvania yield?

Mr. WALKER. I would be glad to yield to the gentleman from Wisconsin.

Mr. KASTENMEIER. But, in fact, the House has voted on this bill. It has voted on this bill on September 11 and on October 4 after full consideration of it. There was not a single vote in opposition to it.

What we are doing is merely upholding the House position with respect to the other body's position.

Mr. WALKER. Further reserving the right to object, Mr. Speaker, I would say to the gentleman then I do not see why he is concerned about, instead of doing these things by unanimous consent, having actual consideration of the bill here on the floor.

Mr. KASTENMEIER. If the gentleman will yield further, we have already considered a like matter concerning this bill on October 4, also under unanimous consent, and without objection from any Member of this House.

Mr. WALKER. Further reserving the right to object, Mr. Speaker, this gentleman is trying to offer the gentleman from Wisconsin a compromise to allow him to move his bill forward, but to do so in a way that at least sticks with the procedures of the House and not to do it by unanimous consent when there is this kind of objection.

All I am suggesting to the gentleman is that he modify his request in a way that he asks unanimous consent for consideration only, so that the question will at least be put on the bill and

we will have an opportunity to vote one way or the other on the bill on final passage.

Mr. KINDNESS. Mr. Speaker, would the gentleman yield under his reservation of objection?

Mr. WALKER. I would be glad to yield to the gentleman from Ohio.

Mr. KINDNESS. I thank the gentleman for yielding.

Mr. Speaker, I am not certain that the administration persons involved are clear on which bill it is that is under consideration.

Mr. WALKER. The bill before us is 5479; is that correct?

Mr. KINDNESS. Right.

Mr. WALKER. That is specifically the number that was given to me as the number of the bill that they have doubts and questions about.

Mr. KINDNESS. Mr. Speaker, if the gentleman will yield further, the subject matter, so far as I know, does not include any question about disclosure of information or nondisclosure of information in Government files, and that is what led me to believe that perhaps it is another bill entirely and a mixup on the bill number.

I am wondering whether the gentleman from Wisconsin would agree to either modify the unanimous-consent request or withhold until we get to the bottom of this, and renew the request at a subsequent time, if necessary.

Mr. KASTENMEIER. If the gentleman will yield further, I think the gentleman is misinformed as to whether that particular matter is in controversy in this bill. It is not. It is not part of this bill.

Mr. WALKER. Further reserving the right to object, Mr. Speaker, I am certainly not an expert on the legislation. I am simply reflecting that information that was passed to me not more than a few minutes ago.

Certainly the other alternative suggested by the gentleman is perfectly accpetable to this gentleman, to withdraw, allow him to check with the White House himself, I will give him the name of the gentleman to check with, and then if there is no objection to the provisions after you talk to him and you know the full details, then you come back out with the unanimous consent, I would have no problem if there is a signoff at that point.

Mr. GLICKMAN. Mr. Speaker, will the gentleman yield?

Mr. WALKER. Further reserving the right to object, Mr. Speaker, I yield to the gentleman from Kansas.

Mr. GLICKMAN. Mr. Speaker, this is not an abstract issue. This is a very important issue. The Equal Access to Justice Act expired October 1. This is probably the most important issue to small business that is around. Basically, this bill has passed the Senate twice under unanimous consent, so I do not care how this is handled in a quick manner, but I would say it would be very unfortunate if we lost this bill, because the small businesses of this country would not have the opportunity to collect legal fees from the Government if they acted in an inopportune way to bringing cases.

I would hope that the gentleman would not be part of an effort to try to keep this bill from consideration tonight; otherwise, we will lose it. This is a prize effort that small business has wanted for so long, this right to sue the Government if they brought cases in bad faith.

Mr. WALKER. Further reserving the right to object, Mr. Speaker, I do not disagree with the gentleman. I am simply saying that there are two alternatives here, either one of which is acceptable to this gentleman, just to assure ourselves that what we are doing here is something which should be agreed to by unanimous consent.

I have a problem with this business of bringing legislation to the floor by unanimous consent where there may be serious questions about the legislation. The only way that I have to reflect upon that is when I get information which indicates that there are serious questions.

I am trying to resolve the impasse here. I do not have any great desire to object to the bill. I do want to make certain, though, that if we pass a bill we do so in an orderly way. We can resolve this, it seems to me, either by the suggestion made by the gentleman from Ohio, which is perfectly acceptable to me, or through the suggestion that I made that we simply ask unanimous consent for consideration only, rather than unanimous consent to consider and pass.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

Mr. WALKER. Mr. Speaker, reserving the right to object——

The SPEAKER pro tempore. Does the gentleman from Pennsylvania object?

Mr. WALKER. I reserved the right to object, Mr. Speaker, in hopes that we could get some sort of agreement so I will not have to object.

Mr. KASTENMEIER. Mr. Speaker, if the gentleman from Pennsylvania wants to object and destroy this particular program, he can assume that responsibility. I have no further requests.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

Mr. WALKER. I object, Mr. Speaker.

The SPEAKER pro tempore. Objection is heard.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will take up special orders at this time, but reserves the right to return to legislative business later in the day.

□ 1710

GENERAL LEAVE

Mr. BRYANT. Mr. Speaker, I ask unanimous consent that all Members may be permitted to extend their remarks, and to include extraneous material, on the subject of the special order speech today by the gentleman from Washington [Mr. BONKER].

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

PARLIAMENTARY INQUIRY

Mr. SABO. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state it.

Mr. SABO. Mr. Speaker, if I might inquire as it relates to the schedule, are we likely to return to some legislative business such as unanimous-consent requests while we are proceeding under special orders, or will the Members have some notice that we are going to return to legislative business, including unanimous-consent requests?

The SPEAKER pro tempore (Mr. ROEMER). The Chair will not do as the gentleman asks, return to other legislative business, without notice to all Members. That is not the intent of the Chair during special orders.

Mr. SABO. So we can rest assured that we will have a few minutes' warning before we return to legislative business?

The SPEAKER pro tempore. The gentleman is so assured.

Mr. SABO. I thank the Chair.

AN ANALYSIS OF THE GREGORSKY PAPER

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York [Mr. WEISS] is recognized for 5 minutes.

Mr. WEISS. Mr. Speaker, I, like many of my Democratic colleagues, have been disturbed by the words and actions of a small minority on the other side of the aisle in the course of this Congress.

Quoting the remarks of Democratic Members night after night during special orders, often out of context and with malicious purpose, breaches the House's unwritten rules of decorum and fairness.

I take special exception to the paper by Frank Gregorsky titled "What's the Matter With the Democratic Foreign Policy?" which was read into the RECORD by three of our Republian colleagues Mr. GINGRICH of Georgia, Mr.

WEBER of Minnesota, and Mr. WALKER of Pennsylvania last May 8 and May 21.

This paper ostensibly critiques the foreign policy views held by Members of Congress who are identified by its author as politically left of center. I have no problem with criticism from those who disagree with the substances of my positions, or those of any of my Democratic colleagues.

But Mr. Gregorsky builds his analysis on a troubling theme which he repeats again and again. First, he designates some Democratic Members of this body with what he designates as "radical worldview" then he states baldly that they always align themselves with the Communist/Marxist governments and against the United States and its allies.

Mr. Speaker, this is not merely wrong factually; it questions the very motives and patriotism of Members of this body.

Let me quote from the paper:

The pattern for (the Democrats') 1984 rhetoric was locked in long ago: give the benefit of every doubt to the Communists and doubt every benefit of your own nation. Make mincemeat of any ally dumb enough, or imperfect enough, to fight on the side of the U.S. Trash America, indict the President, and give the benefit of every doubt to Marxist regimes.

And elsewhere:

Every time a Communist movement battles and authoritarian U.S. ally, Democrats with Radical views believe the promises of the movement.

Every time a Communist movement takes power, Democratic Congressmen say it will be fair, progressive, enlightened.

And still elsewhere:

When a Marxist group take over, Democrats have a hard time speaking ill of it and blame America for the rest of it.

The paper attempts to support this central theme by quoting the remarks of a number of a Democratic Members, myself included, taken from House debates, speeches, and articles over a period of years.

In his zeal to support his thesis, the paper's author engages in massive distortions.

In some instances, a Member's remarks are simply taken out of context. When the author cites part of a statement I had made in the wake of the Korean Air Line incident, however, he goes beyond the matter of context.

The carefully excerpted segment, buttressed by the author's editorializing, conveys quite the opposite meaning of my overall remarks. A statement condemning the Soviet Union for an outrageous act is whittled down to suggest that I found more fault with my own Government than with the Soviets.

I would like to share with my colleagues a portion of my remarks ignored by the author:

The shooting down of Korean Air Line flight 007 by the Soviet Union on September 1 warrants the outrage and condemnation of all of those in Congress and in the international community who work constantly to promote human rights and peace. I share the anger and grief of the families of the 269 passengers whose deaths represent a tragedy for all of us.

Yet here's how the author prefaced the small segment of my statement that he chose to use:

In September 1983 a few Democratic Congressmen even showed more anger at the U.S. for the KAL 007 atrocity than at the Soviets.

He concluded with this comment: "How do you reason with people who think like that?"

Mr. Speaker, I am tempted to ask the same question of the author.

In other instances of distortion, Mr. Gregorsky is guilty of the sin of omission.

He finds fault with Democrats upset about the CIA-coordinated clandestine mining of Nicaraguan ports, concluding: "They mainly seemed offended by the very thought of yet another United States move against a Communist Nation."

Missing is any reference to a letter that Republican Senator BARRY GOLDWATER, chairman of the Senate Intelligence Committee, sent to CIA Director William J. Casey, when the Senator first learned the President had approved the mining operation. Senator GOLDWATER unequivocally states, "(M)ine the harbors of Nicaragua? This is an act violating international law. It is an act of war."

A large, bipartisan majority of the Senate demonstrated agreement with that view when it voted, 84 to 12, last April in favor of a resolution urging the halt to the mining operation. And discussion about U.S. violation of international law was the focus of the resolution debate in both Chambers.

Nowhere among the floor remarks cited by the author is there evidence to support his reckless assertion that some Democrats opposed the mining on the grounds it constituted aggression against a Communist country.

This is not the only place where the author uses insinuation to support his thesis. In reviewing a statement by my colleague Mr. DOWNEY from New York relating to the U.S. invasion of Grenada, Mr. Gregorsky notes:

(In Downey's entire 500-word House statement, there's not one critical mention of the Sandinistas, Fidel Castro or the Soviets.)

A similar comment follows an excerpt from a statement regarding U.S. troops in Korea.

(In Downey's entire 1,200-word statement to the House Appropriations Committee, there's not one critical mention of North Vietnam, the Vietcong, or the Soviet Union.)

The unstated suggestion here is that if a Member fails to criticize Communist nations any time he critiques U.S. foreign policy, he has more affinity with Communist governments than with his own. I object vehemently to such an insinuation.

Great pains are taken by the author to assure the readers that his purpose is only to instruct the liberal Democrats about life in the real world. Mr. Gregorsky disapprovingly calls the actions of the late Senator Joseph McCarthy and his disciples "clumsy" and cautions: "Any fair-minded (or merely cautious) critic should take as a given the patriotism of any Democrat." But as you can see, Mr. Speaker, the sum of his analysis calls into question the sincerity of that statement.

Intentionally or not, the paper repeatedly asserts that those Members critical of this administration's foreign policy are more sympathetic to the national goals of a foreign power than they are to the interests of their own Nation.

I have spoken against such insinuations on prior occasions. And I will say again: Questioning the loyalty of Members on either side of the aisle is reprehensible, shameful, and despicable.

The use of Red-baiting as a technique to influence debate on national security was soundly rejected more than 30 years ago and has no place in this institution.

A TRIBUTE TO MARY BESS COLLIER

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas [Mr. BRYANT] is recognized for 5 minutes.

Mr. BRYANT. Mr. Speaker, on Saturday, October 6, 1984, the people of the United States of American lost a dedicated and beloved servant, one who has spent an entire life serving her country, as well as her family, her many, many friends, her church and her political party.

On that day my beloved and cherished friend, Mary Bess Collier passed away, completing a beautiful and interesting life of accomplishment, service to others, tolerance, and love.

Few people have served their country in more ways.

Ms. Collier was born March 6. 1912, in Arkansas, and in her life, served this Nation in the Public Works Administration, National Parks Service, the Railroad Retirement Board, the Department of the Interior through the Parks Service, the Department of Commerce through the Census Bureau, the Office of Emergency Management through the War Production Board, the Office of Price Administration, the Veterans' Administration, and finally, the Department of Labor from which she retired in 1972.

Few people have lived a life so thoroughly dedicated to others. In addition to raising her daughter and my very good friend, Betty Sue Rice, she prac-

tically raised my own children and functioned as a part of my own family during my early years in public office when my wife and I were so often required to be away from home.

Ms. Collier was a member of the Urban Independent Methodist Church and was never afraid to articulate her faith clearly. Her church was probably the only institution she loved more than one of her other great concerns in life, the Democratic Party.

I never knew a person with a more intuitive sense of right and wrong. I never knew a person with a greater sense of responsibility for others and I never knew a person whose passing has caused me a greater sense of personal loss or a greater longing for her warm smile, genuine concern, and her personal quality of unselfish devotion to others and to her country.

I wish we had her back, but I am truly grateful that she lived and that I was blessed to know her.

NETWORK PROJECTIONS VERSES VOTER RIGHTS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Colorado [Mr. WIRTH] is recognized for 5 minutes.

● Mr. WIRTH. Mr. Speaker, the public outcry over the continuing disdain by the television networks for our democratic electoral process has been loud and persistent. The strong feeling that the television networks should not tell us who is winning a race before the polls close goes well beyond the Congress. Both Houses of Congress have passed a resolution expressing our sense that the networks should voluntarily refrain from projecting or "characterizing" the winner of a race before the polls for that race have closed. Yet, only 2 days ago, the Subcommittee on Telecommunications, Consumer Protection and Finance, which I chair, heard executives from the three networks tell us that these characterizations will continue.

Bill Woods, a political scientist at American University, captured the public outrage over the danger to the electoral process posed by network projections in a recent article in the Los Angeles Times.

As Mr. Woods noted, no one would ever suggest a poll of a jury be broadcast to that jury before their final vote. The networks persist, however, in interjecting their exit polling results and characterizations to voters in the middle of the most fundamental right we have as Americans—our democratic electoral process.

I find Mr. Woods' description of this situation most compelling, and I believe that other Members would find his article informative.

[From the Los Angeles Times, Sept. 25, 1984]

NETWORK PROJECTIONS VS. VOTER RIGHTS—UNTIL POLLS CLOSE, FAIRNESS TO ALL REQUIRES WITHHOLDING TALLIES

(By Bill Woods)

The practical effect of the early-evening network projections of a presidential winner on Election Day will be to persuade 427,977 voters to stay home. That is one estimate of potential voters who will hear the news and believe that their votes are fruitless, in the 13 Western states where the polls will still be open. When voters (wrongly) believe that their ballots are meaningless because media executives lack public responsiblity, democracy is endangered.

Not only will the networks reduce the voting power of the Western states to a trivial exercise in democratic symbolism, their authoritative reports will work against those local candidates whose supporters go late to the polls. In recent elections, several Western congressional seats have been lost by merely 1% of the vote.

Such interferrence is unconscionable, and raises serious constitutional questions. The problem is whether free speech may subvert free choice, or whether free speech is supposed to serve the ends of free choice.

In response to that challenge, the networks have largely refused the requests of Congress and the parties voluntarily to postpone all characterizations about election results until the last polls close—although they routinely make choices about what is to be broadcast every day. They are, however, sufficient Supreme Court cases to suggest the possibility of a congressional and judicial mechanism for preventing network interference with the election process. The court has indeed given broad protection to the substance of speech, but it also has allowed for its regulation in time, place and manner.

Directly analogous to the election process is the jury process. It is the one other strategic and sensitive mechanism for public decision-making within our democratic system. It is also an arena wherein speech and choice values often collide, and have been accommodated by the court.

In Sheppard vs. Maxwell, the court overturned Dr. Sam Sheppard's conviction because of publicity prejudicial to a fair jury verdict. The court catalogued permissible judicial restrictions on the press such as not communicating with witnesses and jurors, and proscribing extra-judicial statements to the press by police and other officials. In Nebraska Press Assn. vs. Stuart, the court overturned a gag rule imposed on the press because it was unwarranted, ineffective and too vague. But Chief Justice Warren E. Burger left open the constitutionally valid possibility of a restraining order that could meet those tests if necessary to restrict irresponsible press practices.

Regarding essentially political speech, Justice Hugo L. Black, allowed the government in Adderly vs. Florida to regulate the time, place and manner of speech in public places in order to maintain other important values—if the substance of speech were not regulated and if the proscription were narrowly drawn. In that case, the police had arrested civil-rights protesters who were blocking the driveway to a jail and threatening its secure operation. Even in their dissent, Jutices William O. Douglas, Earl Warren, William J. Brennan and Abe Fortas allowed for the possibility that the First Amendment could be curtailed under criminal law if the evil were isolated and narrowly drawn.

It might seem that Black forbade any direct regulation of the press in Mills vs. Alabama, which overturned a state statute forbidding partisan newspaper editorials on Election Day. The statute was to protect the public from confusing last-minute charges made too late for rebuttal. Mills was about protecting the quality of what Douglas called political speech "in a basic form: the right to express views."

But the networks materially degrade the quality of political speech because their authoritative projections purport to show the conclusion before many have chosen, and because they occupy essentially a monopoly position in controlling the broadcast public dialogue. No losing candidate or Western voter has the opportunity (or right) before the polls close to comment about the projections on the air.

The court would never allow an entry poll of a jury to be broadcast to that jury before their final vote. By the same token, network projections in the middle of an election should not be allowed to prejudice the fairness of that election process. In Adderly, Black wrote that the contitutional guarantee of liberty implies the existence of a society maintaining public order, without which liberty would be lost in the excesses of anarchy.

Congress could protect the integrity of elections by making it illegal to release official results before all polls close. And as the Canadians do, Congress could make it illegal to "publish the result or purported result of any polling" before the polls close. Those who say that this would be a direct assault on freedom of expression would appreciate that Election Day involves the people speaking: Rights of the private media must give way to the rights of the electorate on the day when the voice of the people must be heard above all others.

Citizenship is a public office, deserving respect and protection. But the networks' projections undermine citizens' belief in their own power.●

DEATH OF VALERY MARCHENKO

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida [Mr. FASCELL] is recognized for 5 minutes.

● Mr. FASCELL. Mr. Speaker, on October 7 of this year, Ukrainian human rights activist Valery Marchenko died in a hospital in Leningrad, RSFSR, the victim of callous indifference to his fate by Soviet authorities. His mother, who had pleaded for proper medical care for her son, was not even allowed to be at his bedside in his final hours.

Valery Marchenko was serving his second prison camp sentence for his human rights activities in Soviet Ukraine when the combination of harsh camp conditions and his poor health—the result of a previous term behind the barbed wire—took its final toll. A journalist and translator by profession, Marchenko had previously served 8 years of prison camp and internal exile for so-called "anti-Soviet agitation and propaganda." His alleged

"crime" consisted of having authored several samizdat essays on the effect of Soviet rule in Ukraine, and of writing a number of appeals on behalf of Soviet political prisoners in Soviet prison camps. While imprisoned at the infamous Perm labor camp for political prisoners, Marchenko developed high blood pressure and the kidney disease that frequently accompanies such a condition. Upon his release in 1981, he applied for permission to travel to the West for medical treatment offered through friends in Italy. Three times such permission was denied. Arrested anew in 1983 on the same "anti-Soviet agitation and propaganda" charges for which he had been incarcerated previously, Marchenko was seriously ill when brought to trial in March 1984. His clearly failing health, however, did not prevent the court from sentencing him to 10 years labor camp under the harshest conditions allowed by Soviet law, followed by 5 years internal exile. By July 1984, his kidneys were failing and he was placed in the camp infirmary. Despite his mother's pleas, it was not until September that he was transferred to the central prison hospital in Leningrad, where his condition continued to deteriorate. As I noted in opening, Valery Marchenko expired on October 7; he was 37 years old.

Tragically, Valery Marchenko was not the first prominent Ukrainian human rights activist that we know of to meet his untimely death this year as a result of mistreatment and neglect by his jailers. In May 1984, a founding member of the Ukrainian Helsinki Monitoring Group, Oleksiy Tykhy, died while serving a lengthy term at the Perm labor camp. Tykhy had also been in poor health, suffering from malnutrition and bleeding ulcers that were left untreated. When he died, this man, 57 years old, 6 feet tall, weighed 90 pounds.

Will there be others? It is feared that Vasyl Stus, Ukrainian poet and human rights activist, is seriously ill at the Perm camp and being denied proper medical attention. Lithuanian Helsinki Monitor Viktoras Petkus underwent surgery for a malignancy on his face some time in 1982, and has not been heard of since August 1983. Yuriy Shukhevych is reported to be totally blind after years of incarceration and exile. And representatives and quasi-representatives of the Soviet government offer us doctored film clips and mendacious press releases concerning the condition and whereabouts of Dr. Andrei Sakharov and his wife, Elena Bonner.

Mr. Speaker, it is no secret that the quality of health care for the average Soviet citizen, to say nothing of political prisoners, is barely adequate for an allegedly developed nation. Yet, I note that in 1980 the CIA estimated that the Soviet Union spends a mimimum of $63 million annually to finance several international propaganda organizations. Millions for propaganda, apparently, but precious few rubles, by comparison, to keep the prisoners—within and without the Gulag—alive.●

□ 1720

THE LEBANON BOMBINGS—A FAILURE OF LEADERSHIP

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Ohio [Mr. SEIBERLING] is recognized for 5 minutes.

Mr. SEIBERLING. Mr. Speaker, the more one thinks about the President's handling of the shocking bombing of our Embassy in Lebanon, the more concern it raises. Indeed, nothing reveals the weaknesses of President Reagan as a leader more clearly than his responses to the recent bombing of the American Embassy in Lebanon, unless it be his response to last year's bombing of the Marine barracks in Lebanon that cost the lives of 241 young Americans. Indeed, his refusal to discipline any of the top brass whose negligence made the Marine barracks bombing possible could be the principal reason why the same sort of negligence—negligence that made this year's Embassy bombing possible—continues.

President Reagan himself is evidently aware of this. How else does one explain his deplorable effort, first, to pretend that there was no negligence that led to the Embassy bombing (he compared it to remodeling a kitchen!) then, to blame, in sequence, the previous administration, the Senate Intelligence Committee, and finally the Congress. When all of these excuses where shown to be unfounded, he finally conceded only that the "responsibility" is his.

Of course, in the overall sense, the responsibility is his, but he must share the blame as well, because of his failure, as Commander in Chief of the Armed Forces, to see that anyone was disciplined for the dereliction that allowed the Marine barracks bombing to succeed. At that time also, President Reagan said that he accepted the sole "responsibility." Since he was not, in fact, personally to blame for that dereliction, this meant that no one was going to be held to account. At that point, everyone else in the chain of command must have breathed a sigh of relief and gone back to business as usual.

President Reagan likes to say that Presidents Franklin D. Roosevelt and Harry S. Truman are among his political heros. Anyone who remembers those Presidents cannot doubt that they would have had no part of such pussyfooting. Nor would Presidents Dwight Eisenhower or John F. Kennedy.

Even now, it is not apparent that anyone in the chain of command will be disciplined for the failure that led to the latest bombing. Of course, there is a political risk that such disciplinary action would highlight the earlier failure of the President to impose such discipline following the Marine barracks bombing. The President faced a similar political risk in deciding last year whether to discipline the responsible commanders because of their failures that led to the Marine barracks bombing. If he had done so, it would have highlighted the fact that it was President Reagan himself who dispatched the Marines on their precarious and, as it turned out, futile mission to Lebanon. Nevertheless, the President should have bitten that bullet at the time. That is the job of responsible leadership, even when it entails risks to one's own political future.

Mr. Speaker, it is not too late, even now, for the President to demonstrate that he is taking the tough actions necessary to impose proper accountability on those in the executive branch, including the military, who are charged with maintaining the safety of American soldiers and civil servants stationed overseas. On the other hand, if he continues to duck this responsibility, the President will keep alive questions, not only about his own leadership qualities, but the ability of his administration to ensure the safety of the American people as a whole.

Mr. Speaker, President Reagan's equivocal attitude toward his command responsibilities as Chief Executive stands in stark contrast to his willingness to "get tough" with the elderly, the unemployed, the poor, the disabled, and many others for whom the Federal Government stands as the sole source of help when the private sector fails them. The sad fact is that the President gets tough with almost everyone except those whom he is supposd to get tough with, namely incompetent people under his command. With them, his primary objective seems to be to maintain his own "deniability" as to errors and failures. That may be effective as a devise for fooling some of the people all of the time, but most of the people are going to ask the bottom line question: "Who's in charge here?"

For some penetrating thoughts on this subject, I offer for printing following these remarks a perceptive article by Richard Cohen published in the Washington Post for September 29.

[From the Washington Post, Sept. 29, 1984]

THE MONEY THROWER

(By Richard Cohen)

There he goes again.

After three terrorist bombings of American installations in Lebanon, after repeated charges of ineptness and negligence and

after being urged by even many of his own supporters to discipline or fire somebody, President Reagan has finally done something. He's blamed Jimmy Carter.

There are a lot of things that could be said about Reagan's charge that intelligence lapses that allegedly contributed to the recent bombing in Beirut were the fault of previous administrations, presumably Carter's. Mondale said it was passing the buck. Intelligence specialists said it was just not true. Carter himself said it was an insult, demanded an apology and got an "explanation."

The fact is that Reagan's remark was all of those things—and something else as well. It exhibited the central Reagan paradox, which is that when it comes to both national defense and national security, money solves all problems. When it comes to almost anything else, though, particularly welfare programs, money is a diversion, a sop, a way of not thinking. You throw money at social problems; you fund the Defense Department.

When it comes to the Beirut bombing, for instance, the essence of the Reagan remark is that given enough money to hire enough spies two Americans would not now be dead. But the assumption that a small, shadowy group of religious fanatics could be infiltrated is dubious at best. And anyway, lack of spies does not explain why a security gate was left lying on the ground and not installed. You don't have to be licensed to kill to put up a gate.

Ironically, Reagan would be the first to point out the limitations of money when it comes to other programs. He's often accused the Democrats of throwing money at social problems—and sometimes with justification. Moreover, he fastened on the occasional glitch to make it seem typical.

Take welfare, for example. Reagan has consistently denounced fraud and mismanagement in all sorts of welfare programs, never for a moment conceding that both are inevitable when bil- lions of dollars are being spent on millions of people. To him, the exception is the rule.

When it comes to national security, though, the exception remains the exception. Both he and Defense Secretary Caspar Weinberger cringe at reports that the Pentagon has paid $92 for screws, $435 for hammers and $7,600 for coffee makers. These examples, they both maintain, are the exception, and they are willing to forgive the Pentagon what they would never be willing to forgive the Department of Health and Human Services.

It's obvious, of course, that the issue is not money, it's ideology. To the president, national security is something that can be bought, and it's worth anything it costs. On the other hand, welfare programs are not worth anything at all. He is enamored of power, revolted by dependency and money is just one way of expressing those sentiments. No amount of money, though, can bring order out of the chaos that's Lebanon or stability to a notoriously unstable part of the world.

But money, at least the spending of it, can have a placebo effect. Spending money can be a way of not thinking. In the case of the Beirut bombings, for instance, the president ignores the fact that two of them were predicted by intelligence agencies and indeed the last was publicly threated by the organization that claims to have carried it out. You don't need a spy to read the papers. You don't need to be a national security expert to conclude that someone in Beirut simply forgot to shut the door. And you don't have to be an Einstein to figure that three exceptions in one place looks a lot like the rule.

No matter. After each bombing the president has exonerated the negligent, gone moony in the presence of the military and turned victims into heroes through the magic of the teleprompter. Lack of money is not the issue. The willingness to question basic assumptions is. When it comes to national security, the president wants every buck but the one Harry Truman made famous. It's the one that stops in the Oval Office.

PARLIAMENTARY INQUIRY

Mr. WEBER. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state his parliamentary inquiry.

Mr. WEBER. Mr. Speaker, did the gentleman from Ohio [Mr. SEIBERLING], who is still in the well, receive unanimous consent to include extraneous material in the RECORD?

The SPEAKER pro tempore. Yes, he did.

Mr. WEBER. I thank the Speaker.

TRIBUTE TO ABRAHAM KAZEN, JR.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York [Mr. STRATTON] is recognized for 5 minutes.

Mr. STRATTON. Mr. Speaker, I was not in the Chamber at the time that a senior member of the Texas delegation had a special order for our retiring colleagues, the gentleman from Texas [Mr. KAZEN]. I want to take this time for the purpose of joining with my other colleagues in saluting the contribution of the gentleman from Texas [Mr. KAZEN] to the House and to the Armed Services Committee.

CHICK KAZEN came to the 90th Congess in 1966. He had served in World War II as a pilot in the Air Force, and he was very knowledgeable on military matters and also had a distinguished career in the State of Texas as President pro tempore of the State Senate, and was at one time the acting Governor of the State, before he came to the House of Representatives.

A descendent of Lebanese origin CHICK always brought to the attention of the committee and indeed the full House the problems of Lebanon and of the Lebanese people, and spoke very eloquently in their behalf. This was especially during the dangerous period when our U.S. Marines were in Lebanon as a peacekeeping force.

In addition to that, as one who represented a community where there were a number of military bases and a large number of military personnel, CHICK KAZEN was always fighting in the Armed Services Committee for better treatment in terms of housing, pay, and other matters for the enlisted personnel of the Armed Forces.

More than anyone else, I think, certainly in the committee and perhaps even in the House, Congressman KAZEN had a very fluent command of Spanish which was of course, extremely helpful in serving the people of his District which borders on Mexico in the great city of Laredo.

Mr. KAZEN has found over the years that every primary election was a tough one. And he realized that the 1984 Democratic primary that there would be difficulties. Nevertheless he fought as hard as ever. And even though he had lost the primary he has stayed on the job to serve the people of his District, without any outward evidence of bitterness.

Those of us who had the privilege of serving with CHICK KAZEN will miss him and his lovely wife, Connie, because in the 18 years they served here they have added very greatly to the Membership of the Congress. We will miss his wisdom on the committee, and the penetrating questions he asked.

The people of Texas have lost a great effective voice in Washington in the retirement of CHICK KAZEN.

Mrs. BOGGS. Mr. Speaker, will the gentleman yield?

Mr. STRATTON. I am very happy to yield.

Mrs. BOGGS. I thank the gentleman for yielding, and I thank him for taking the time to pay this tribute to CHICK KAZEN who is one of the most conscientious and affable Members of this House. I salute him on his service and I join with the gentleman from New York in saying that all of us will miss him and Connie very much.

We hope that they will stay in touch with the Members of this body and will continue to give us their good counsel and advice, and to share with us their very special friendship.

Mr. KAZEN. I thank the gentlewoman for her remarks which certainly are very well taken.

Mr. SKELTON. Will the gentleman yield?

Mr. STRATTON. I yield to the gentleman from Missouri.

Mr. SKELTON. I thank the gentleman for yielding and also thank him for the opportunity to say a few words about our colleague who is retiring from Texas, CHICK KAZEN. He is truly an outstanding legislator and a good friend.

Both he and his very, very lovely wife, Connie, will be sorely missed and we wish them well.

Mr. STRATTON. I thank the gentleman and I yield back the balance of my time.

THE MISAPPLIED LESSONS OF HISTORY

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Missouri [Mr. SKELTON] is recognized for 15 minutes.

Mr. SKELTON. Mr. Speaker, I want to speak about recent history. Ours is a nation that is still young when compared to the other great nations and civilizations that have existed throughout the recorded story of mankind. With comparatively little history behind us, we have directed our focus on the present, and, more especially, the future. Our strength has been the genius of our people, exemplified by the ideas and technology we have created in a relatively short span of time. We are a nation in a hurry, always eager to get on with the task at hand. While others are for the most part concerned about the troubles of this planet, we are already looking to the stars. This national characteristic explains why the Air and Space Museum of the Smithsonian Institution is the most popular in Washington.

A CHANGING WORLD

Throughout the greater portion of our history we have been fairly successful in ignoring developments in the rest of the world. Blessed by the safety of vast oceans on either side of our continent and by the wealth and abundance of natural resources provided, we had little need, and even less desire, to become involved in the affairs of the world. We had more than enough to occupy us here at home. The sign we hung on the door said "Don't Disturb." Overall, this isolationist sentiment proved popular and beneficial.

By the late 19th and early 20th centuries this situation began to change. Expanded trade and commerce fostered greater political involvement. We were drawn into wars with Spain, in 1898, and later with Imperial Germany, in World War I. Yet even after that European war, we continued to resist involvement in the affairs of the world. We did so, however, at our own expense.

LESSONS LEARNED

The key lesson for the generation that has come to maturity during the 1930's was Munich 1938. That was the place where Neville Chamberlain, the weak old Prime Minister of Great Britain, sold out a resolute and embattled ally, Czechoslovakia, for a worthless promise made by Adolph Hitler. Winston Churchill understood the fateful mistake that had been made. "Britain and France," he said, "had to choose between war and dishonor. They chose dishonor. They will have war." The war we had hoped to avoid came about anyway and was even more costly than the previous one. While 15 million died in World War I, more than 50 million died in World War II.

Since 1941 the United States has played a very large role in the affairs of the world. After the war we did not repeat the mistake made a generation earlier when the United States withdrew from center stage. We had learned the hard and tragic lessons: isolationism did not guarantee peace; appeasement only encouraged dictators.

POSTWAR CHALLENGE IN EUROPE

After the defeat of the Axis powers the specter of Soviet communism threatened a prostrate Western Europe. Through the policy of containment the United States vigorously resisted the Soviet threat to Europe. The Truman Doctrine, which provided military and economic aid to Greece and Turkey, was soon followed by the Marshall plan, which provided economic relief to the rest of Europe. The signing of the NATO agreement committed the United States to the defense of Western Europe.

We had learned from our mistakes made after the First World War. We remained fully involved in the events of the world and we firmly resisted Stalin's efforts to undermine European stability.

LESSONS MISAPPLIED

In Vietnam, however, we misapplied the lessons of Munich. Europe was and remains vital to the security of the United States; Vietnam never was. Where the policy of containment was appropriate in Europe it was not in Vietnam. President Kennedy was right when he said that in the final analysis it was their war to win or lose. Our efforts in Vietnam should have been confined to providing support, but not to taking on the fight ourselves.

This is not to say that we could not have won the war once we decided to fight it. Unfortunately, a senseless strategy hampered our efforts. Unfettered firepower was not the cure to an established insurgency. We didn't understand that truth until late in the war.

After the Tet offensive in 1968, we stressed counterinsurgency and involved South Vietnamese in the planning process. Vietnamization became fashionable. It meant, however, more than just turning over the military effort to the Vietnamese. Political and economic programs also came under greater Vietnamese control.

Progress was slow, but by 1972 a spectacular shift in the strategic balance had occurred. Insurgency was inert for all practical purposes. Major roads reopened, resettlement began, land reforms took root, and rice bowls were filled. Our side had won at counterinsurgency and could cope with conventional conflict. General Giap's Easter offensive in 1972, his effort at conventional war, played right into our strength. U.S. air power on this occasion proved decisive, and Giap retreated having lost 100,000 men.

Yet we had become impatient with the war. After the peace agreements were signed in 1973, the United States substantially reduced its aid to the Republic of South Vietnam. The South's ability to fight a conventional war was crippled. Incoming shipments of ammunition, petroleum products, and repair parts were not equal to expenditures, despite conservation efforts. While the Soviet Union continued to supply North Vietman heavily we decided to bow out. Without continued U.S. material support, defeat in the South was inevitable.

FALSE ANALOGIES

One of the great casualties of the Vietnam war was the breakdown in the foreign policy consensus that existed in this country from the late 1940's until the late 1960's. We have been scarred by a failed war that took over 57,000 American lives. The cry is "never again."

Yet if the lessons of Munich were misapplied in the Asian jungles of Vietnam, it is my strong belief that the so-called lessons of Vietnam have been misapplied by those who are critical of this Nation's efforts in Central America. Munich was not Vietnam and Vietnam is not Central America. The use of American power, military power especially, will not always lead to the quagmire in which we found ourselves in Vietnam.

There are similarities between the two situations. Both cases involve Communist-inspired insurgencies in jungle areas of the Third World. But, the differences greatly outweigh the similarities.

In Vietnam we fought a real war, 6,000 miles from home, in an area where the United States had never been a major power broker, and where the importance of the region to U.S. national security never really existed. In Central America, on the other hand, the fighting is on a small scale where no U.S. combat troops are involved, in an area some have described as America's front yard, where the United States has traditionally exercised great influence, and where the importance of the region to U.S. national security is understood by most Americans.

This is in our neighborhood. The safety of the Panama Canal and the Caribbean sealanes are at stake, not to mention the possible disruption that would be caused by the influx of hundreds of thousands of refugees if the area went Communist. Such concerns cannot be dismissed lightly.

In Vietnam we operated in an alien culture where very few Americans spoke the language. In Central America, by contrast, we have a much better understanding of the legacy bequeathed by the Spanish conquistadores and, having a large Hispanic population ourselves, we have no shortage

of people who speak the language and understand the culture.

THE REAL LESSON OF VIETNAM

In Central America we are applying some of the real lessons learned in Vietnam. First, in President Napoleon Duarte we have an ally worthy of our support. He has brought about a drastic decline in the activities of the death squads. His recent offer to negotiate directly with the guerrilla leaders marks him as a man of courage. In South Vietnam, a great problem with the government there was that it appeared unworthy of our efforts. To us it looked hesitant, incompetent, and corrupt. No amount of public relations work could convince the American people otherwise, even though by comparison with the North Vietnamese Government it was a model of humanitarian rule.

Second, we have confined our role in the region to one of support. We can and should provide arms, training, and equipment. In addition, we are also supporting those economic and political reforms designed to give the people of the region a stake in their respective governments. Introduction of U.S. combat forces would be counter productive. Advisors have been kept to approximately 55 in El Salvador.

Third, we have put together an overall regional strategy for dealing with the serious problems of the area. The bipartisan Kissinger Commission recommended substantial economic aid, some military aid, and keen attention to human rights. The problems of El Salvador, Honduras, Guatemala, Costa Rica, and Nicaragua cannot be viewed in isolation.

STEADY PROGRESS SAVE ONE

Three years ago El Salvador, Honduras, Guatemala, and Nicaragua were each run by tough military regimes. Change began in November 1981 when Honduras held a free presidential election and elected a middle-of-the-road liberal, Dr. Roberto Suazo. El Salvador followed in 1982 by holding an election for a constituent assembly. By this spring, the democratic process in the country had brought to power another centrist, Jose Napoleon Duarte. Guatemala held a free election for a constituent assembly in July in which the two leading parties were the Christian Democrats and the Democratic Union of the Center. In none of the three countries did the arbiter of past elections, the army, attempt to step in.

Only in Nicaragua are there serious concerns about efforts to institute genuine democracy. More than 3,000 Cuban military and security personnel are attached to Nicaragua's Armed Forces and to its internal security and intelligence organizations. The Sandinistas are still deadlocked in talks to bring opposition candidate Arturo Cruz, the only genuine opposition figure, into the elections.

CONCLUDING REMARKS

One of the ugly legacies of our Vietnam experience was the notion, in some quarters, that America is the guilty party, that the use of our power is a source of evil, and therefore, the main task in foreign policy is to restrain America's freedom of action. Many would use the "lessons of Vietnam" refrain in an effort to prevent the United States from acting to counter Communist aggression in the world, especially in Central America.

I strongly believe that the approach we are taking in Central America is just about right. We are supporting moderates who believe in democracy and are resisting the enemies of democracy found on both the extreme left and the extreme right. Our effort there, however, will be a long-term one. Progress will be slow, and we will have to learn patience and perseverance. We must disenthrall ourselves from expecting immediate results and instant gratification. Instant coffee, instant banks, instant news have spoiled us into expecting instant international results.

In the next few months we will find out how pragmatic the current leadership in Nicaragua is toward the democratic process. I freely admit that I have been a strong supporter of the Contras in their fight against the present Nicaraguan Government and have little faith that the Sandinistas will permit free and open elections.

Yet in an attempt to encourage the Nicaraguan leadership to opt for genuine elections I would be willing to sponsor an effort in Congress to suspend a decision on aid to the Contras until after the Nicaraguan elections. In this way the United States would be sending a positive signal favoring democracy and nonintervention. With genuine elections and the Sandinistas finally coming to terms with the domestic opposition, no more aid to the Contras would be necessary. However, if the elections proved fraudulent, the Sandinistas would have to live with the consequences of their actions. The decision will be theirs to make.

□ 1740

DEFICIT REDUCTION

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Pennsylvania [Mr. WALKER] is recognized for 60 minutes.

Mr. WALKER. Mr. Speaker, we have heard a lot of talk in recent weeks in the Presidential campaign and in campaigns across the country about deficit reduction and how we are to go about it.

I think that it is important to look at what the Presidential candidates had to say in the debate the other night about this very crucial topic. Becasue we have two Presidential candidates coming at that issue from two entirely different perspectives.

One candidate, President Reagan, who believes that what we need to do is promote the kind of economic growth that will allow the Government to accumulate additional reveunes based upon growth and thereby reduce the deficit. What we have to do is hold down the growth of Federal spending while the economy as a whole is growing and thereby collapse the deficits through a policy of economic growth.

On the other hand, you have Walter Mondale, who told us very clearly the other night that he still stands by his deficit reduction plan, which in all honesty is a tax plan. It is a tax plan to charge American families an additional $157 a month out of their incomes in order to finance the deficits run up by Government through Government overspending.

Those are two entirely different perspectives about how we ought to treat deficits in this country. I think that it is well to analyze what the consequences of each of those are.

In the case of the Reagan plan, what you have to do is you do have to lower the expectations of Government. Government is not going to be able to grow at two, three, or four times the rate of the economy as a whole if, in fact, what you are going to do is get overall economic growth that gets to the levels that President Reagan is talking about. He is talking about real economic growth in the range of 4 percent, while Government is reduced in its rate of growth below the present 6-percent rate.

Now, we have brought down the rate of Government growth from about 18 percent, as it was during the Carter years, down to about 6 percent, but it still needs to come down somewhat more if the overall economic growth is going to help us catch up with the deficit problem.

So that you do have the consequence under the Reagan program of the fact that Government is not going to be able to grow as fast as many Democrats and liberal welfare state enthusiasts would like Government to grow.

The consequence of the Mondale plan is a consequence on every American family, because in his case he is going to allow Government to grow. In fact, his deficit reduction plan announced about $30 billion more in spending than we presently do for brandnew programs. He is going to have Government growing at a faster rate, but take money away from every American family in order to pay for that Government growth and thereby attempt to collapse deficits by taxing the American people more. The $157 a month out of the pockets of most American families is a very, very substantial amount. It is a large portion

of their mortgage or rent payment. It is a large portion of what it would cost them to buy a car or a new appliance. It is a large portion of what it costs to finance their children's education. It is more than most families are able to save in a month.

So, therefore, what he is really doing is taxing away the ability of the American family to buy additional things for the family, to buy housing and to educate their children, and most importantly, to save and invest in the future of their family and the overall economy.

Mr. WEBER. Mr. Speaker, will the gentleman yield?

Mr. WALKER. I yield to the gentleman from Minnesota.

Mr. WEBER. I thank the gentleman for yielding.

I think the point the gentleman is making is really the central point of this whole campaign. I am sure many people that listen to this debate as it has gone on across the country cannot quite believe that there would be a $157 a month tax increase in the form of the Mondale tax increase.

□ 1750

I would just like to go through some of the figures in the analysis prepared by the Department of the Treasury of the Mondale plan so that people can understand, actually, that this is a real figure.

Mr. WALKER. I think that would be very useful, and I would be glad to continue to yield to the gentleman.

Mr. WEBER. I thank the gentleman for yielding.

According to the Department of the Treasury, here is how the arithmetic works out on this: The projected deficit—this is by the year 1989—would be a low estimate, according to the projections, of $200 billion.

Now, then they look at the Mondale program for spending, and as we have talked about in special orders on the floor here before, no one should have the impression that the Mondale plan calls for spending reductions. That is just not the case. He calls for a slower rate of growth in defense spending, but still real growth after inflation, and then massive increases in spending on the domestic side.

Mr. WALKER. If the gentleman will allow me to reclaim my time just for a moment, let us make the point here, though, that there is one area where Walter Mondale's plan does call for some spending cuts, and that is in the area of medicare.

Mr. WEBER. Is that true? After all we have heard in the press these last couple days, you are telling me that Walter Mondale wants to cut medicare?

Mr. WALKER. Right in the Mondale deficit reduction plan that we hear him trumpeting it calls for a $12 billion reduction in medicare. In other words, since the President's announcement yesterday about Social Security, the only person with a plan out on the table for reduction of any program in Social Security is Walter Mondale, who has proposed a $12 billion cut in medicare. He is the only national candidate at this point with any kind of plan on the table that calls for a reduction in Social Security at all; namely, the medicare program.

Mr. WEBER. Will the gentleman yield?

Mr. WALKER. I will be glad to yield.

Mr. WEBER. The gentleman is telling me that former Vice President Mondale has actually proposed cutting the expenditures for the medicare program that is so crucial for our senior citizens at the same time he is criticizing the President for having an alleged secret plan to do that?

Mr. WALKER. I would say to the gentleman that if you get ahold of Walter Mondale's deficit reduction package as published by his committee, it has in there a $12 billion cut in medicare in the year 1989, when all of this is predicated. So Walter Mondale has in fact proposed more. In fact, if you take a look at the figures, you will find out that any cuts that President Reagan had recommended at any point—and he did in 1983 in the medicare program—averaged out, over a 5-year period, to about $7 billion a year. Walter Mondale's is a $12 billion cut in 1989. That is $5 billion more than what President Reagan recommended. He was criticizing President Reagan. And, as I say, since President Reagan has now come out and said he is not going to cut Social Security in any way, shape, or form, what you have got is that the only existing Social Security cut plan that exists on the table today out there is the Walter Mondale deficit reduction plan where he is proposing a $12 billion cut in medicare.

Mr. WEBER. That is amazing.

Mr. WALKER. I will be glad to yield to the gentleman now further on the point he is making with regard to the Treasury figures.

Mr. WEBER. Let me continue with these figures. Again, we start out with a projected deficit in 1989 for $200 billion. Then we analyze the Mondale spending proposals and we find out that, on balance, Mondale is proposing spending increases, according to the Department of Treasury, that cost out at minimally $69 billion. Spending reductions of $26 billion. That means we have a pretax Mondale deficit for that year of $243 billion. That is the deficit, if you take into account the Mondale spending proposals, reductions as well as increases, added on to the current services deficit that we are projecting, a $243 billion deficit.

Mr. WALKER. If I may reclaim my time, OMB recently gave us the administration's deficit figures for 1989, and it seems to me that they were about $100 billion less than that, is that not true, so that Walter Mondale's deficit figures there on current services on Walter Mondale is about $100 billion more than what the OMB says that the administration's deficits would be. Is that the gentleman's understanding?

Mr. WEBER. The gentleman is correct.

Mr. WALKER. I will be glad to continue to yield.

Mr. WEBER. To continue the analysis, then you have a $243 billion Mondale deficit before you take into account taxes.

All right. Then, what is his goal? He says he is going to leave us with a deficit of about $67 billion in that year. That is the projection he has told us. That is where he says we are going to be by 1989. That means you have to have a tax increase of $176 billion. Now, that is by the Mondale camp's own basic arithmetic. If they are going to meet the deficit reduction goals they said, if they are going to keep the promises in terms of spending that they have made, that is the magnitude of tax increase that we would have to have to meet the Mondale program's promises, $176 billion.

That breaks down, if you just average it out, to $1,890 for the average household.

Now, let me point out that all of these proposals we hear coming out of the Presidential campaign are, of course, estimates. The numbers that I have just given you are the low estimate of the Department of the Treasury. In other words, those would be the minimum spending increases necessary to meet the Mondale plan and the minimum tax increase necessary.

Mr. WALKER. Let me clarify here. In other words, the Mondale package, at a minimum, is going to cost every American family $1,890 a year, at a minimum?

Mr. WEBER. At a minimum, according to the Department of Treasury analysis.

There are maximum figures, also, in that Department of Treasury analysis, in other words, if you are more generous in the spending promises that Mr. Mondale has made. That comes out not to a $1,890 annual tax hike for the average household but $3,350, almost double the amount.

Mr. WALKER. I was talking about a figure here of $157 a month a few moments ago. This is at $1,890. If it was really $3,300, we would be talking about a $300-a-month additional tax payment for every American family.

Mr. WEBER. Somewhere in that neighborhood, that is exactly right, if indeed we are going to meet the Mondale campaign's goals in terms of deficit reduction and keep their promises in terms of spending increases.

And then, of course, the point becomes very clear that we have a really stark choice in this election because, as the gentleman in the well has pointed out, the President's approach is to try to hold down the cost of Government so that we can allow the private sector to grow more freely and generate the revenues that are necessary to bring down the deficit, whereas the Mondale approach is exactly the opposite. It is to hold down the private sector, with massive tax increases, so that we can feed the Government and satisfy all of the demands made on the Government by the various constituency groups.

Mr. WALKER. Would the gentleman go through that analysis again? I think it is important, because I think that that is a key difference. There cannot be a greater difference between two economic philosophies than that the gentleman just described. Would the gentleman go through that again?

Mr. WEBER. I think it is important. The Mondale plan basically says: "We are going to hold down the private sector of the economy by taxing them more heavily so that we can feed the Government to grow more rapidly."

The Reagan approach is exactly the opposite. It says: "We are going to hold down the cost of growth of Government so that the nongovernment sector, the private sector of our economy, can grow more rapidly. And if it grows more rapidly, of course, it will generate more revenues, which eventually will permit us to balance the budget, provided we hold down the cost of Government."

That is the basic contrast in philosphies between the Mondale approach and the Reagan approach. The Mondale approach is one that caters to the needs of the Government, and the Reagan approach is one that caters to the needs of everybody else. And I would point out that that is most of this country. When you talk about the nongovernmental sector you are not just talking about big business; you are talking about small business, you are talking about farmers, you are talking about nonprofit institutions, like churches. Churches are not part of the Government. It is the entire nongovernmental sector that eventually pays the price of the Mondale approch, which is to hold down the private sector with massive tax increases so that you can feed an ever-expanding Government.

Mr. WALKER. In other words, under the Mondale plan, everybody pays for Government, and Government benefits. Under the Reagan plan, what we do is have everyone benefiting and Government making the sacrifice?

Mr. WEBER. Government having to make the sacrifice. And, of course, the Mondale approach to Government, if you think about it philosophically, which is really the liberal Democratic approach to Government, eventually becomes a self-fulfilling prophecy, because you begin by saying Government has to solve all of the problems. And so you tax the private sector more heavily to solve those problems.

Well, that diminishes the capacity of the private sector to solve those problems themselves, and so then you turn around and you say, "Well, you see, the private sector cannot deal with any of these problems because they are being taxed so heavily, so we need to tax them some more so Government can solve those problems."

That, basically, is the liberal Democratic approach to Government, and that is one of the main reasons that we are in the mess that we are in today, fiscally and socially.

Mr. WALKER. And what is true, as the gentleman points out, for business and the private sector is also true, obviously, for American families. If you say to an American family, "We are going to take $157 a month more from you or $300 more a month from you, if the worst comes true," at that point the American family finds itself unable to do as much for itself.

If they cannot save enough to provide their children with a college education, then they turn to Government for Government programs in order to help provide that education. If you are low income and cannot buy enough food for your family because it is being taxed away from you, you turn to a food stamp program in order to make up for the problem caused by Government when it took so much of your income.

So it plays itself out. If you are trying to buy a home, you reach out to the Government because you have $157 to $300 a month taken out of your income, you have to reach out to Government for a Federal loan or a Federal subsidy in order to purchase a home.

We have a very adverse impact on the ability of the families who then have to turn to Government for help, and it is, in large part, because the Government takes away so much of their income, in the first place; and, of course, as the gentleman points out, Walter Mondale is talking about taking substantially more.

□ 1800

Mr. WEBER. I thank the gentleman for yielding because I would like to continue this discussion of the Mondale tax increase and come back to the material analysis of it that has been done by the Department of the Treasury. Many people sitting out there listening to Walter Mondale and the liberal Democrats promising tax increases are sort of calmed by the thought that maybe these tax increases will all be levied on the rich and the big corporations and so the average person will not have to pay much.

Mr. WALKER. Well, that is what they have all been saying is going to happen. Is that not right?

Mr. WEBER. That is what we are told, but, we are really not told that if you read between the lines. The Mondale tax increase program calls for $60 billion in tax increases that he says will go toward wealthy individuals; those earning more than $100,000 a year, and large corporations. That still leaves $116 billion of tax increase that has to come out of everybody else. We do not know how those taxes are going to be assessed.

The fact is, they are probably going to be assessed on the average working people in this country. We do know one specific Mondale tax increase proposal, that is the proposal that we do away with tax indexing. There is no proposal for a tax increase that could more directly be aimed at working-class taxpayers than to repeal tax indexing.

The reason for that, of course, is that tax indexing protects people who would be pushed into higher and higher brackets by inflation. Well, if you are a very wealthy American you are already in the top bracket. You cannot be pushed into any higher bracket. So 80 percent, 80 percent of the cost of repealing tax indexing falls on taxpayers earning less than $50,000 a year. That is an explicit proposal of the Mondale tax increase plan.

Mr. WALKER. As a matter of fact, the gentleman may have been astounded as I was when I viewed the debate the other evening when Walter Mondale proudly trumpeted the fact that he was going to eliminate indexing. He said something to the effect that if we can really get economic growth going, I am going to be able to eliminate indexing. It was practically unbelievable because what he was saying was if we can just get our program started, I am going to take money away from the middle class of the country.

Mr. WEBER. If the gentleman will yield, its impact of course is precisely what the gentleman points out; it is totally a tax increase in middle-income taxpayers. But it is really worse than that because it is not an explicit tax increase. It is a kind of tax increase that does not require Members of Congress to go on record voting to raise peoples' taxes and then having to go back into their districts to justify it at election time, oh, no. This is the hidden tax increase. The tax increase for which no one is accountable because inflation automatically pushes people into higher brackets.

So I agree with the gentleman; I was astounded when I heard Mr. Mondale proclaim so proudly that one of his greatest achievements if he became

President would be to repeal indexing which is basically protection for middle-income taxpayers.

Mr. WALKER. Would the gentleman agree with me that one of the reasons why we have to be concerned about people who talk about repealing indexing is because what they are really saying, the underlying philosophy of what their saying is that they are going to reinflate the economy in order to deal with the deficit problem. Because what government does in a nonindex tax system is that it feeds off inflation. So inflation becomes a benefit to government; it is a horror for everyone else. For older citizens; for poor citizens; for the middle class. Inflation is one of the worse things that government can perpetrate on the economy and one way of assuring yourself that you can eat into those deficits at the Federal level is simply to reinflate the economy. Get it back where the Carter-Mondale people had it at the end of their tenure in office at about 12 or 13 percent. If you can get inflation up there, then the tax increases are growing rapidly because anybody who is trying to keep up with inflation is moving rapidly into higher and higher tax brackets. They are paying more and more taxes, even though their real earnings are not going up at all. As a matter of fact, during those years real income was dropping. The only thing that was increasing was real income to the Federal Government that was collecting all of those additional taxes.

One of the things that is most disturbing is the underlying philosophy of the Mondale plan which seems to be predicated on reinflating the economy to the benefits of Government.

Mr. WEBER. I think the gentleman is precisely correct. Particularly so because if you analyze seriously these tax increases that the Mondale campaign has proposed and that are being supported by liberal Democrats across the country. You really find that they are not going to generate even the revenues that Mr. Mondale talks about.

For instance, they talk, as we mentioned a few minutes ago, about $60 billion in tax increases on wealthy individuals and large corporations. Well, that is fun to talk about, but we all know what happens in the real world when you raise taxes on big corporations and wealthy individuals; they do not simply benighly pay more taxes, these are the people in the businesses that have large accounting firms and large law firms prepare their taxes. They simply invest a little more time and money and effort in finding different tax loopholes, different deductions, and different shelters to shelter their income.

So you may be able to project on paper a $60-billion tax increase from the rich, but by the time the accountants and lawyers have had their way with it, you probably do not get $60 billion in revenue. In fact, you may actually get less revenue because you drive more of that income into tax avoidance schemes.

So what happens then? Well, you have to raise taxes some place else to meet the Mondale goals and that means an even larger tax increase on the middle-income taxpayer. That is why I say that the $157 a month Mondale tax increase is the first Mondale tax increase. We do not know how much more it might be after we find out that his revenue projections from the rich are not going to come through; after we find out that he has depressed the economy with his tax increase and we are not getting the total level of revenue we would expect anyway.

We do not know what the second or third Mondale tax increase could end up costing us.

Mr. WALKER. Does the gentleman remember, it seems to me that during the Carter-Mondale years that tax revenues to the Federal Government, most of which were collected from middle-class Americans, doubled in the time that the Carter-Mondale people were in office. They came in with revenues at about the $300-billion level and when they left, they were collecting about $600 billion in taxes. Is that not about right?

Mr. WEBER. I think the gentleman is correct in terms of those figures.

Mr. WALKER. They have already shown a willingness to use inflation, to use the tax system in order to massively raise the amount of taxation on the American people during a short 4-year period. Of course, the consequence of that doubling of the tax revenues during that period was a period of negative growth for the economy.

By the time they left office, what happened was precisely what the gentleman predicted would happen under a Mondale-type of scheme, and that is that productivity had dropped off to the point that it was nonexistant; it was actually going down.

Mr. WEBER. The gentleman is correct, and if he would yield further, by the end of the Carter administration, the last year of the Carter-Mondale administration, there are some statistics that are very interesting because it measures very vividly the economic impact that the gentleman just pointed out.

You can look at three measurements of our economy's performance: productivity, investment, and savings. You take those three measurements and compare them, in the United States, at the end of the Carter-Mondale administration, to the other eight major, industrialized nations of the western world. I am not talking about Third World countries or Communist countries. I am talking about Britain, Germany, Japan, Italy, Canada, countries like that. Where did we rank? Last out of nine in productivity; last in investment; last in savings. Why? Because it had been taxed away and inflated away.

Now, the startling thing about that and the real frightening thing about that is what do those three things tell us? Productivity, investment, and savings. They tell us about the capacity of our economy to provide a better life for people in the future.

Mr. WALKER. Provide jobs.

Mr. WEBER. That is right. If an economy does not save, if people do not invest, and if the workforce and the capital structure are not productive, you cannot generate a better standard of living in the future. So, what kind of rhetoric did we hear out of the Carter-Mondale administration in their last years? Limit your expectations. Talk of a national malaise. The talk about the fact that we would all have to learn to live with less. Well, we would if we continued to follow the policies of the Carter-Mondale administration because they had destroyed those economic activities that enabled us to build a better future. Productivity, savings, and investment.

We are beginning to restore those things under the Reagan administration; we have not solved all those problems, but productivity increases are up, and the rate of investment is substantially up. We still have a lot of work to do on savings, but we have tried to attack that through the IRA plan and the Keogh plan and the tax rate cuts.

Certainly we have reversed the decline in this basic capacity of our economy to generate jobs and a better future for our children than the Carter-Mondale administration did.

□ 1810

Mr. WALKER. Mr. Speaker, I would agree with the gentleman and as he points out, we still have not achieved everything that needs to be achieved, but one thing we do know is that you will not be able to get there if we go back to a tax plan in order to straighten out our economic ills.

Those things which have not been accomplished are not going to be accomplished by imposing additional taxes on the system.

It is interesting to note also that Mr. Mondale says that what his tax plan will do is it will bring down real interest rates in the country in a way that would assure more economic growth and we all agree that real interest rates are too high.

We have got to figure out why they are too high. Now Mr. Mondale, in the debate the other night, gave kind of a garbled statement about how real interest had doubled. Now what he did not tell us was when it doubled; as a

matter of fact, when it more than doubled.

Under Jerry Ford, real interest stood at 2 percent.

Mr. WEBER. 2 percent?

Mr. WALKER. 2 percent.

We had an inflation rate of about 4.8 percent. We had a prime rate of 6.8 percent. That is 2 percent real interest.

Under Jimmy Carter, at the end of his tenure along with his associate Walter Mondale, we had a prime rate of 21.5 percent and an inflation rate of 12 percent. That is a real interest rate of 9.1. That is a more than doubling. As a matter of fact, that is a more than tripling. As a matter of fact, it is more than a quadrupling, and that is exactly when it took place.

Now, if in fact under the Reagan administration we had had that real interest rate go to 18 percent, maybe Mr. Mondale would have a point but it did not. It dropped from the 9.1 percent under the Carter-Mondale administration to 8 percent where it presently rests.

Now that is not really low enough. That is far too high, but the fact is that it has come down under the Reagan administration policies where it went up tremendously during the Carter-Mondale years.

I will be glad to yield to the gentleman.

Mr. WEBER. Mr. Speaker, I thank the gentleman for yielding because the gentleman is pointing out now one of the most serious challenges that is left to face us and that is the challenge of bringing down those real interest rates, even though we have made some progress in the Carter-Mondale years, but I think about why have they held there at that very high level.

Basically there are many factors that determine interest rates. Basically interest rates are a function of your inflation rate and the inflationary expectations for the future.

In other words, people do not want to lend money out at 5, or 6, or 7 percent interest if they think there is going to be 10, or 12, or 15 percent inflation somewhere down the road. We already have the experience of the double-digit inflation of the Carter-Mondale years that has scared people in the financial community and furthermore, as the gentleman in the well pointed out just a few minutes ago, really if you look at the Carter-Mondale economic program or the Mondale economic program in the 1984 election, it is predicated on the assumption of renewed inflation.

That is how they would get the tax increases resulting from the repeal of indexing. And so, if you were a lender and you have to determine what you are willing to lend money on at what interest rate should you not have some concern that if indeed Mr. Mondale is elected President and has a liberal Democratic Congress to back him up, that they will restore double-digit inflation and if that is indeed your expectation you are probably justified in holding those interest rates high.

That is the reason that we are having such a hard time bringing those interest rates down is because the financial markets know that there is at least one Presidential candidate in this race that probably is committed to renewal of inflation.

Mr. WALKER. Mr. Speaker, I thank the gentleman and I believe that it simply makes the point that in this election year that the choice is very, very clear for the American people. It is a choice not only between Walter Mondale and Ronald Reagan. It is a choice between their two teams.

When all is said and done, the legislative teams that they work with here in the House of Representatives and in the other body are going to be very important to carrying out these programs one way or the other.

It seems to me a tragedy to cause a stalemate in Government by not giving someone the kind of working majority that they need to pass their program; whichever candidate they choose, but the American people ought to be very clear on what it is they are choosing between.

They are choosing between a Government growth, big tax candidate and a Government reduction on big private sector growth candidate. Those are the real choices in this campaign. It is a choice between Government on one hand and jobs on the other hand.

I mean ultimately all this growth that we talk about comes down in very human terms. It means more jobs. It means better jobs and so if we are really talking about one candidate who promotes the idea of more taxes for more Government and one who promotes the idea of more growth so that we can have more problems.

I think the American people can clearly choose between those two. We would hope that they would choose a legislative team that would go along with President Reagan and so that we can promote growth and jobs.

I will be glad to yield to the gentleman.

Mr. WEBER. I think the gentleman is precisely correct and as we have mentioned before on this floor, one of the interesting things about what is happening in the American political debate this year is how out of sync, not just with this country but with the world the Mondale program is.

Look at what has happened in other parts of the world just this last summer and fall. In France we have seen a socialist head of state, Francois Mitterrand, a socialist, fire his entire cabinet and install people committed basically to tax reduction and regulatory reduction to copy the American experiment.

They talk about the American job creation machine over there in France; not because he is changing socialist ideology but because he has seen the success of Reagan economic policies in this country in terms of restoring economic growth.

What have we seen just to our north in Canada? We see the largest victory for a party ever in Canadian history with the conservative party coming into power basically committed again to copying the American experiment, the Reagan experiment in terms of job creation.

Now, with all this world opinion, if you will, focusing positively on the results of our economic policies and people from all political spectrums in other countries copying the Reagan formula of tax reductions and spending restraint, is not it ironic to see the Democratic Presidential candidate and candidates for Congress pledging to undo everything we have done in the past 4 years? Pledging to go in the opposite direction with bigger, massive tax increases, bigger than what we have seen in past history?

That seems to me to fly in the face of common sense, but of world opinion on the right way to restore economic prosperity to this planet.

Mr. WALKER. I thank the gentleman.

Mr. Speaker, did the gentleman from Ohio wish me to yield?

Mr. KASICH. I appreciate the gentleman yielding.

Mr. Speaker, as I said yesterday, I think it is necessary that we take a walk down memory lane. I have been listening with great interest to the colloquy that has been going on here between the two gentlemen.

When you look at the numbers—when the gentleman from Minnesota [Mr. WEBER] talks a little bit about productivity growth, maybe we ought to look at productivity for a second.

During the last 2 years of the Carter-Mondale administration, productivity fell by 2.2 percent. The first quarter of 1984, under this President, productivity went up at a 2.9 percent annual rate and the second quarter productivity increased by a 4.7 rate.

Remember in Carter-Mondale, it is dropping by 2.2. In the second quarter of 1984, it is up by 4.7 percent. Productivity is key to inflation and all kinds of economic indicators.

Mr. WALKER. The gentleman ran over those figures pretty quickly. Let us make certain that there is an understanding of what those figures mean.

Mr. Speaker, there was a minus 2.2 percent in productivity in the last quarter of the Carter-Mondale?

Mr. KASICH. The last 2 years of the Carter-Mondale administration, productivity fell 2.2 percent.

Mr. WEBER. Will the gentleman yield?

Mr. WALKER. I would be glad to yield.

Mr. WEBER. Mr. Speaker, in layman's terms it means that it took more man hours to produce the same amount of goods and services. Our economy was operating less efficiently.

Mr. KASICH. If the gentleman would continue to yield, what we started to see happening was to see shortages in the number of foods produced by this economy, obviously. If productivity can outstrip the growth in the money supply.

In other words, if you produce more and continue to produce more goods, then you do not experience shortages. It is when you get shortages of goods that you experience high inflation and of course, under that last year in the Carter administration, the inflation rate was over 12 percent.

Mr. Speaker, what is particularly interesting is when Jerry Ford left office, the inflation rate in America was 4.8 percent. When Jimmy Carter left office, the inflation rate was 12.4 percent.

Mr. WEBER. If the gentleman would yield, pardon me. The gentleman means when Jimmy Carter and Walter Mondale left office.

Mr. KASICH. I thank the gentleman for his clarification.

I think we see a vision expressed by Walter Mondale nearly identical to that expressed during Carter-Mondale. So this will be like tax cut 1, tax cut 2. This is Carter-Mondale 1 and if this one comes up Carter-Mondale 2.

Mr. WALKER. Reclaiming my time, Mr. Speaker, I would simply say to the gentleman that it is important that this information get out, because Walter Mondale simply wants to cut himself loose from his entire record as Vice President and does not even want to mention those years, and yet in 1980 was running around the country telling people that they ought to reelect President Carter and himself to give them another 4 years at the same kind of policies, and now he is back 4 years later saying, "Well, try us again."

□ 1820

Mr. KASICH. The sad story just does not stop with inflation. If you want to look at interest rates, when Gerry Ford left office interest rates in America were 6½ percent.

Mr. WALKER. That is the prime rate; is that correct?

Mr. KASICH. That is right.

Mr. WALKER. And that means real interest stood at 2 percent; right?

Mr. KASICH. That is exactly right.

Mr. WALKER. We were talking about that here just a minute ago. Two percent real interest at the end of the Ford administration.

Mr. KASICH. That is exactly right. And when Carter-Mondale left office, the prime interest rate in America was 21½ percent. Today the interest rates are about 12¾ percent, and everyone who is a "knowledgeable economist"—I heard this said the other night—says that interest rates are too high, and they ought to be below 12¾. But I will tell my colleagues, 12¾ is so much better than 21½ percent that there is not even any argument there, and that is what Walter Mondale gave us as he left the White House.

Mr. WALKER. And the gentleman, I think, makes a valuable point. We need to look at that gap again, because Walter Mondale keeps talking to us about real interest rates, what the gap is between that inflation rate and the prime rate. That is the real interest rate, and the real interest rate that the gentleman just described was 9.1 percent. Real interest has gone from 2 percent under Gerry Ford's administration to 9.1 percent under the Carter-Mondale administration.

Mr. WEBER. Mr. Speaker, will the gentleman yield?

Mr. WALKER. I would be glad to yield to the gentleman from Minnesota.

Mr. WEBER. Furthermore, if we look at the Carter—or the Mondale; I have a hard time separating the word "Carter" from "Mondale"—if we look at the Mondale economic proposal, we find that he promises that his plan will yield us interest rates of, I believe 7½ percent. He promises a big reduction in the interest rates. As a result of what? As a result of big spending increases and a massive tax hike.

What school of economic thought tells you that if you have a big increase in spending and taxes you are going to see lower interest rates. I do not know of any school of economic thought that argues that that is the case.

Mr. WALKER. It is the Walter Mondale Campaign School of Economic Thought, I think, that produced those particular figures.

Mr. WEBER. I think the gentleman is right, but I think the gentleman from Ohio is making the ultimate indictment of those proposals. We do not have to guess what is going to happen. We can look back at 4 years in the late 1970's when we saw the result of Mondale economics. That is the Carter administration and that is what we should expect to happen again if we have a second Carter-Mondale administration.

Mr. KASICH. If the gentleman would yield further, in this administration we have seen in the last 18 months the creation of about 6½ million new jobs. We see reinvestment in America at an all-time high rate, and let my say this about the strength of the dollar.

The reason the dollar is so strong today is because people again believe in America. They not only believe in our strength around the world, but they believe in what we are doing domestically. We are the one nation in the world that does not nationalize industries. We are the one nation in the world that argues that we ought to have low inflation rates, that we ought to protect the value of our dollars and keep Government spending to an absolute minimum.

That is why the dollar is so strong around the world, because people believe in America around the world, they trust in America, and they are investing in America, unlike what they were doing just a short 4 years ago.

Mr. WALKER. The gentleman is not saying that there are some people on domestic economic policy as well as in foreign policy who blame America first, is he?

Mr. WEBER. Where have we heard that phrase before?

Mr. KASICH. I just think it is very clear that when we are creating the number of jobs as we are creating, when we are looking at the inflation rate, and we know as we read more and more articles and more and more magazines and newspapers about the long-term outlook, particularly on the inflation side for America, there are now predictions that we are going to see a low inflation rate for a decade.

There are some people who are actually predicting that because of the tremendous recovery that we have had in America. That kind of a long-term outlook on that absolutely positive side for inflation means nothing but good in the long haul for interest rates, and obviously for continued job creation, for continued productivity gains, but I will tell my colleagues, we have to have this President back, because the programs of Carter-Mondale just are not going to do it. It is going to mean higher spending, higher taxes, and a slowdown in this economy, and higher interest rates. We cannot afford to go back that way.

Mr. WALKER. I have asked several audiences what they think that the press would have written and what economists would have said if something like 4 years ago, or 3½ years ago, Ronald Reagan would have come to the steps of the Capitol Building and said on the steps of the Capitol Building:

I promise you that in my 4 years of office that even though the inflation rate is presently at 12½ percent that I am going to get that down to 5 percent by the end of my term. I promise you that even though the interest rate stands at 21½ percent that I am going to get that down to 12½ percent by the end of my term; that even though the unemployment rate stands at 7½ per-

cent, we are not going to increase unemployment, we are going to lower it to 7.4 percent.

I contend that economists and the press and everybody else at that point would have said, "This is a mad man that we have elected President."

Mr. WEAVER. I think you are right.

Mr. WALKER. "There is no way that anybody can accomplish all those things," and yet that is the accomplishment. That is precisely what has taken place. It has been not an economic miracle. It is an economic program that brought about real results, results that would have been absolutely unheard of at the point that Reagan was making his inaugural address.

I think that it is important to recognize that what Walter Mondale really is talking about doing is going in precisely the opposite direction and undoing all that has been accomplished. He does not want to focus on what has been accomplished. He wants to only change that which is in place.

Mr. Speaker, I would be very glad to yield to the gentleman from Oregon [Mr. WEAVER].

Mr. WEAVER. I would just tell my dear friend from Pennsylvania, and my dear friends from Minnesota and Ohio, and I hold them truly dear, that the utter nonsense I have been listening to coming out is unbelievable.

Mr. WALKER. Where would the gentleman say that any of the statistics that we have used are wrong?

Mr. WEAVER. You know what they say about both scripture and statistics; that the devil uses them as do liars. You are not doing that. I do not accuse you of either being a devil or a liar. I want the gentleman to understand that.

Mr. WALKER. That is what I am asking the gentleman. We are quoting the economic statistics that now exist, compared to the economic statistics that existed at the end of the Carter-Mondale years.

The gentleman was a firm supporter of the Carter-Mondale administration on this floor. He was an avid supporter of their economic programs, and he has every right to take pride in what they did.

Mr. WEAVER. You really know how to hurt a guy.

Mr. WALKER. But I would say to the gentleman that we have done nothing but quote what was the result of 4 years of Carter-Mondale.

Mr. WEAVER. I may have supported them, but a tear or two dropped every once in a while.

Mr. WALKER. I am glad to hear that the gentleman at least recognizes where they were going was the wrong direction.

Mr. WEAVER. I would just like to hear a few tears drop on that side of the aisle for the policies of Mr. Reagan. Anybody who wants to can wring inflation out of any economy if they want to tighten money to the point where everyone is going bankrupt and laying off millions of workers, which is what happened in the first 2 years of the Reagan administration.

Mr. WALKER. But I would say to the gentleman that is not the result of the program; that the recession which took place is the result of the policies of the Carter-Mondale years, and the recession was already underway by the time this administration came to office.

I think we have to say to the gentleman that it has been the growth policies that were oriented around those tax cuts that led to the situation where we now find ourselves, not with a lot of people going bankrupt. The main element in the bankruptcies is you have so many more people forming businesses and the bankruptcy rate is no different than it ever has been except that we have so many more businesses out there being formed, so that is a sign of investment, it is a sign of productivity, and it is a sign of exactly what we want going on in the economy.

Let me yield to the gentleman from Minnesota and then come back to the gentleman from Oregon.

Mr. WEBER. I thank the gentleman for yielding.

I know the gentleman from Oregon to be a fairminded individual, not always on the right track, but always fairminded. Surely the gentleman will concede that there had to be some hangover from double-digit inflation rates at the end of the Carter-Mondale administration. Surely the gentleman will concede that there had to ultimately be some accounting for inflation that hit 20 percent and interest rates up to 21 percent.

□ 1830

Did we not ultimately have to pay the price for that kind of a policy? Is that not really what led to the recession?

Mr. WALKER. I would be glad to yield to the gentleman.

Mr. WEAVER. Well, there is no question that the economy is a continuing thing and administrations simply make it better or worse for the people; but my point was this, that in the first 2 years of the Reagan administration, we had one of the first recessions in our history, and as you recall, unemployment even though it is the same today as it was at the beginning of the Reagan administration, as my dear friend from Pennsylvania points out, or a little lower, 7.4 percent instead of 7.5 percent, that indeed those first 2 years were devastating for our economy.

Then if you want to have $200 billion deficits year after year after year, print all that money, you can get any economy going that you wish.

Mr. WEBER. Mr. Speaker, if the gentleman will yield further, we are not doing that, though. We are not monetizing this debt.

Mr. WALKER. The debt is not being monetized, I would say to the gentleman and I would ask him to show any statistics which indicate that that is taking place.

Mr. WEAVER. Well, of course, if the gentleman will yield, the debt is not being monetized for the very simple reason that the Reagan administration is very busily peddling our paper to foreign governments and countries. We are selling our paper, U.S. Treasury bills and bonds, to the investors in Europe, and Japan, and Hong Kong and elsewhere and we are going so deeply in debt in this country that when the investors take their money out there will be such a crash in this country that you will not even be able to hear the fall when the body hits the bottom of the chasm. That will be a disaster.

All I am telling you is that the policies of Ronald Reagan have not only been bad for this country, the supply side tax cut that was supposed to lead to more investment did the exact opposite. We have had less investment.

Mr. WALKER. Well, the gentleman is not correct on that point. We have far more investment in the economy at the present time. Just the formation of all the small businesses I was talking about a moment ago is a major element of investment in the economy, which is totally different from some investments we have seen in the past, but nevertheless is a harbinger of the future.

Mr. KASICH. Mr. Speaker, will the gentleman yield?

Mr. WALKER. I would be glad to yield to the gentleman from Ohio.

Mr. KASICH. What we are finding in America basically as a result of the incentives that were in place is that reinvestment in this country is at record levels. In fact, I have seen numbers that indicate we have reinvestment in our own industries at levels that rival anything that we have seen in post-World War II; but aside from that, when you go from 21½ percent rates of interest and you try to sell anything, automobiles, anything where people have to borrow money, obviously they are not going to do it, and that is why we saw the increase in unemployment.

Now when you see an interest rate, a prime rate that goes from 21½ percent to 12¾, I think most people, particularly those involved in this discussion, believe that interest rates remain too high and you see unemployment now lower than it was when this President came into office and the creation of 6.5 million new jobs and foreigners who are investing in America because they believe it is a safe haven, they be-

lieve America again is a land that can be trusted and a land that ought to attract capital, and in fact we are using some of that money to reinvest and modernize our own equipment to increase our productivity, something we did not have happening under the Carter administration.

Mr. WALKER. Well, I thank the gentleman.

Let me yield to the majority leader, who I understand has a happy announcement for the House of Representatives.

PERMISSION TO WAIVE 1-HOUR AVAILABILITY RULE ON CONFERENCE REPORT ON HOUSE JOINT RESOLUTION 648

Mr. WRIGHT. I thank the gentleman for yielding.

The gentleman is engaged in a very serious discussion of a matter of concern and interest to all the American people. I dislike intruding into that discussion with something somewhat extraneous to it; but it now appears quite likely that there will be a resolution this evening of the question pending before the conference on a continuing resolution.

Now, we may save ourselves an hour and avoid having to vote in the wee small hours and we may be able by the best estimates that the gentleman from Massachusetts [Mr. CONTE] and the gentleman from Mississippi [Mr. WHITTEN] and others can arrive at, we may be able to bring a bill for a vote sometime here between 10 and 11 o'clock.

But I would like to ask unanimous consent to waive the rule requiring a 1 hour availability on the House floor prior to its being brought up.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

Mr. CONTE. Reserving the right to object, Mr. Speaker, we have discussed this with both the majority party and the minority party on the Appropriations Committee. If we do not waive this 1 hour availablility, then we could be here until the wee hours of the morning, even with the best work of all our staff in getting the papers ready, they are moving in there right now and then we are going back with the Senate at 7 o'clock with our proposal, which should be acceptable. It is exactly the same proposal which Senator HATFIELD proposed striking out everything from the 51 water projects, any studies, the whole shebang.

We think it is a tremendous idea to get us out of here at a reasonable time, rather than 1 or 2 o'clock in the morning.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas [Mr. WRIGHT]?

There was no objection.

Mr. WRIGHT. Mr. Speaker, I thank the gentleman for yielding.

Mr. WALKER. I thank the gentleman for his announcement and for his motion.

Mr. WEAVER. Mr. Speaker, will the gentleman yield?

Mr. WALKER. I would be glad to yield to the gentleman from Oregon.

Mr. WEAVER. Let us concentrate, you know, people listening, if anyone is listening, are hearing all kinds of things one way and another; let us concentrate on one single thing that I think is probably the most critical of all the statistics we are talking about. Let us just talk about this for a while, and that is the real rate of interest.

Now, in the Carter years, at the worst we had long-term Treasury bonds selling at 15-percent interest, with a 12-percent rate of inflation. If you deduct the inflation rate from the interest rate on the long term Treasury bonds, that is 12 percent and 15 percent, you get a 3-percent real interest rate. In other words, the person who is lending the money is out the 12 percent because he loses that in inflation, but he gets 15 percent, so his real rate of return is 3 percent. That is really the real rate of interest throughout history, back to Roman times has almost always been 3 percent. It is historically true. The real rate of interest is 3 percent.

Today under President Ronald Reagan, the real rates of inflation are the highest they have ever been in history, far higher, as a matter of fact, than they have ever been in history.

Mr. WALKER. Not inflation, the gentleman just said inflation.

Mr. WEAVER. Excuse me, real rates of interest.

Mr. WALKER. All right.

Mr. WEAVER. Let me just finish and then we are done.

The real rate of interest today with long-term Treasury bonds at somewhat over 12 percent and the rate of inflation let us say at 4 percent, the real rate of interest is 8 percent. That is a staggering, enormous real rate of interest, 8 percent, higher than it has ever been in history and that is the danger point of the deficits and everthing else and that is what I would like to discuss from now on.

Mr. NIELSON of Utah. Mr. Speaker, will the gentleman yield?

Mr. WALKER. Let me yield to the gentleman from Utah.

Mr. NIELSON of Utah. I would like to respond to that. It is true that the real interest rate is about 8 percent now. If you look back in 1980, it was 9 percent, the difference between 21½ percent and 12½ percent.

The other point is that even if the difference is the same, the real rate is the same, that 12½ percent was hurting all the aged people, everyone who was on a fixed income.

Right now, those on fixed income are having only 4-percent inflation. They are being much better protected than they were at that time.

So even if the difference is the same now, it is still an awful lot better activity.

Mr. KASICH. Mr. Speaker, will the gentleman yield?

Mr. WALKER. I yield to the gentleman from Ohio.

Mr. KASICH. I think what is important for the gentleman from Oregon to understand is that when you are computing the real rate of interest, the real rate of interest is computed by subtracting or adding to—well, normally subtracting the prime rate from the rate of inflation, so that if during the Carter-Mondale administration interest rates were at 21½ percent and inflation is at 12½ percent, the real rate of interest is 9.

Under this administration, if the inflation rate is 4.2 percent, and I happen to think it is a little less than 4 percent, and the interest rate is 12¾ percent, you are talking about less than that 9-percent spread.

Treasury bills are not the way you measure real interest rates. You do not measure—Treasury bills do not have anything to do with the measurement of real interest rates, only the rate of inflation as opposed to the prime rate.

What the gentleman says and I would agree is that as the Treasury bill rate gets up to a certain level, that has some impact at least on short term rates, but Treasury bills have no impact in measuring real interest rates, period. It is only a measure between inflation and interest rates.

Let me go on to further say, if the gentleman from Oregon would be willing to argue or join our ranks, the ranks of the gentlemen from Pennsylvania, Minnesota, and Ohio, who argue that interest rates today are far too high, that interest rates are far too high when every measure of inflation indicates that the long-term outlook for inflation is low, that the Federal Reserve has been clamping down too tight on the Federal funds rate, on the ability for us to get hold of some credit and, in fact, in the last couple weeks there are indications that the Fed is finally starting to agree with those who are growth advocates that interest rates have been too high and that they ought to come down.

□ 1840

As the gentleman will agree, I am sure, if rates can come down further we are going to have greater economic growth, greater gains in productivity, more people with jobs. But I want to clear that up about the issue of real interest rates.

Mr. WEAVER. If the gentleman will yield, I am afraid my dear friend from

Ohio has actually muddied the waters a bit.

Let us just take a few things. We have had now several years of an inflation rate of around 4 percent. We have had several years with long-term bonds, and I am talking about long-term bonds, but you can use Treasury bills if you wish, several years of long-term bond rates at around 12 to 13 percent.

In other words, this is not fixed but is a relatively stable thing. We have real interest rates of 8 percent and it is stable. That is bad but it is a stable real rate of interest at 8 percent. The 21-percent prime rate that the gentleman mentioned, it once existed for a few months and it was a flash-up. It is what is called a blowoff. It was a flash-up and a flash-down. The inflation rate was up and then came down.

So you did not have, in terms of a real analysis of the economy, a real rate of inflation of 9 percent under Carter. You had a real rate of interest of 3 percent under Carter, and I just want to make that point that the flash up and down of the prime rate was really almost meaningless. This was just the temporary blowout.

Mr. WALKER. I do not want to disagree with the gentleman's analysis but the analysis strikes me as being rather tenuous at best.

What we saw was a steady increase in inflation, a steady increase of the prime rate throughout the entire Carter administration, peaking at those levels. And the gentleman is right, yes, they finally come down after this administration came into office.

Mr. WEAVER. During most of that time the real rate of interest was only 3 percent. That is my point.

Mr. WALKER. Primarily because of the hangover from the Ford administration where the real rate of interest was 2 percent.

Mr. KASICH. If the gentleman will yield, what we found during the Carter-Mondale adminstration was a term called "stagflation" which was high interest rates, high inflation, and growing unemployment because, you see, the Carter-Mondale administration subscribed to what is called the Philips Curve, which means you throw people out of work in order to bring your inflation rate down. And as unemployment started up and as inflation started up, they could not figure out what was going on and that is why they started blaming the American consumers, saying the American consumer wanted too much.

But what is important to note is that in 1979 productively in America declined 1.5 percent and in 1980 productivity declined 0.7 percent.

Now in the first quarter of 1984 we see productivity up 2.9 percent, in the second quarter 4.7 percent. This is the eighth consecutive quarterly increase in productivity, all brought along because of this economic recovery.

So the rates just did not flip up and come back down. The rates have been moving up all along, and that is why we have got into that famous discussion 4 years ago about the misery index.

Mr. WEAVER. My dear friend, the productivity index is not up so much because of the recovery as that wages have fallen and wages are falling sharply.

Mr. WALKER. Again the gentleman is wrong. Real income in the American family is up. It is up about 1.9 percent.

Mr. WEAVER. No. I did not say income; I said wages. I said wages and wages are not up. Real wages are falling. Income is up because when you are wealthy you have enormous amounts of tax cuts and high interest rates.

Mr. WALKER. The important thing to the American people is how much real income they have in their pockets and how much real money they have to spend. That is the important thing to the American people.

Mr. WEAVER. For the middle class wage earner that is false.

Mr. WALKER. No, that is not false. That is precisely where they need the money.

Mr. WEAVER. No. They are falling, the real wages of the middle class are falling and have been for the last 3 years.

Mr. WALKER. The gentleman is wrong by any measurement. The real income in the country is up.

Mr. WEBER. Mr. Speaker, will the gentleman yield?

Mr. WALKER. I yield to the gentleman from Minnesota.

Mr. WEBER. The gentleman suggests productivity increases have come about as a result of wage decreases, and we contest that. That gentleman is not going to tell me, he does not think that we have had no productivity gains as a result of the technological explosion in this country?

Mr. WEAVER. I am sure that might be the case.

Mr. WEBER. And how much of that productivity might be attributed to that?

Mr. WEAVER. I have no idea.

Mr. WEBER. And the tremendous increase in computer power, maybe that has something to do with it.

The SPEAKER pro tempore. The time of the gentleman from Pennsylvania [Mr. WALKER] has expired.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate had passed with an amendment in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 4230. An act to extend the authorities under the Export Administration Act of 1979.

The message also announced that Mr. SASSER has been appointed a conferee, on the part of the Senate, on the joint resolution (H.J. Res. 648) entitled "Joint resolution making continuing appropriations for the fiscal year 1985, and for other purposes."

STOP SCARING OLDER AMERICANS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida [Mr. YOUNG] is recognized for 10 minutes.

● Mr. YOUNG of Florida. Mr. Speaker, once again our Nation's Social Security recipients are being scared to death by cheap political rhetoric.

In a desperate attempt to gain support, the Democratic Presidential nominee is using the Social Security and medicare systems to play on the fears of older Americans. His baseless accusations that President Reagan has a secret plan to reduce Social Security benefits after the election serves no purpose but to scare many senior citizens whose only source of income is Social Security.

If the Democratic nominee really had any compassion for our Nation's Social Security recipients, he wouldn't resort to such scare tactics. Instead, he is exploiting older Americans for his own political purposes.

As I have said over and over again, the President and the Congress will not stand idly by and allow Social Security and medicare benefits to be reduced or the trust funds to go broke. The President and Congress made good on this commitment in March 1983 when we reached agreement on a bipartisan legislative proposal that the actuaries of the Social Security Administration tell us will ensure the financial solvency of the system into the next century.

Mr. Speaker, an important issue in this fall's Presidential election is that of leadership. Unfortunately, the Democratic nominee is showing little in the way of responsible leadership when he plays on the emotions of our Nation's 37 million Social Security and medicare recipients with his campaign rhetoric.

The future of these programs is more than a political issue, it is an issue of economic survival for many older Americans who are dependent on their monthly benefit payments. The candidate who makes the false charges is unimportant, all the people hear and read are more headlines that their benefits are in jeopardy.

The President knows this is not true, his opponent who has raised the issue knows this is not true, and my colleagues in Congress know this is not

true. Let's show some compassion toward older Americans in the remaining weeks of the campaign season and stop scaring them to death with phoney political charges that some sinister President is going to cut their benefits. Shame on Mr. Mondale for resorting to that tactic.●

MILITARY FAMILY JUSTICE ACT AND MENTAL HEALTH INSURANCE FOR ALL AMERICANS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas [Mr. GONZALEZ] is recognized for 60 minutes.

Mr. LEVIN of Michigan. Mr. Speaker, will the gentleman yield?

Mr. GONZALEZ. At this point I yield to the distinguished gentleman from Michigan.

MISSTATEMENTS REGARDING MONDALE PROPOSALS

Mr. LEVIN of Michigan. Mr. Speaker, I had asked for 5 minutes and I was not available at that time.

The gentleman from Pennsylvania asked during his time where there were misstatements in his presentation, and I would like to point out in the 5 minutes I have a number of them.

First of all, they referred to medicare and a claim that Mr. Mondale was suggesting a $12-billion increase in medicare. The implication was that there would be increases in payments by the average recipient. That is a deep distortion.

Mr. WEBER. The statement is not correct.

Mr. LEVIN of Michigan. I heard it and I want to finish my presentation.

Mr. WEBER. That is a misstatement.

Mr. LEVIN of Michigan. I have not yielded to you.

I was listening, and we did not have any advance text as to what you were saying. I copied down notes as best I could and I want the record to be very clear as to where the $12 billion would come from.

It would come from a comprehensive cost containment program. There would be no increase in costs for beneficiaries.

You did not say, at least I did not hear that you were going to—that you said that Mr. Mondale was going to find the $12 billion through a cost containment program which would result in diminished charges by physicians, not increased payments by beneficiaries. You did not make that claim.

Mr. WALKER. Will the gentleman yield?

Mr. LEVIN of Michigan. I will yield very briefly.

The SPEAKER. The Chair will remind the speakers that the gentleman from Texas controls the time and has yielded to the gentleman from Michigan. The gentleman from Michigan is recognized.

Mr. LEVIN of Michigan. I would like to continue to make my statement and then if the gentleman from Texas [Mr. GONZALEZ] wishes to yield, he can do so.

I just want the record—whatever you said—I want the record to be clear. And I believe I heard what you said correctly, that the $12 billion that Mr. Mondale was talking about was a cost-containment program that would bring about reduced charges by physicians, not increased payments by beneficiaries or increased costs to beneficiaries. That is point No. 1.

Point No. 2, there was a reference to the average cost of the Mondale plan being $1,800 a year to taxpayers. That is a phony, phony figure. The Secretary of the Treasury some time ago put forth what he said would be the cost of all of the proposals Mr. Mondale had made over the years.

□ 1850

This was the Secretary of the Treasury's statement, his analysis. It has been refuted by Mr. Mondale on many occasions, but the main point is that Mr. Regan, the Secretary of the Treasury, was not talking about Mondale deficit reduction plan that has recently been presented by Mr. Mondale. And here is the truth: That if you take his tax proposal, and it is just part of an overall plan that includes much more in deficit reduction through reduced expenditures, that there would be a cost to the family, $25,000 and under of zero in increased taxes, for the family of $30,000, $95 a year; and for a family of $35,000, $217 a year.

This $1,800 figure, the average cost to the family, is a phony figure, and nobody in this country should believe it.

Mr. Speaker, I also heard it said by somebody, "Well, there is increased taxes for corporations and for families with $100,000-a-year-and-above income, but their lawyers will find a way around it." Well, the time has come to end this abuse of tax shelters and the time has come for the corporations of this country to pay some fair share of taxes, and for the Republicans to argue, "Well, it is a nice idea but the tax lawyers of this country will find a way for the families of $100,000 and more and the corporations to chisel out of it," does not become them.

Under a Mondale administration there will be a major effort found and undertaken to make sure that that kind of tax chiseling does not occur.

Point No. 4, indexing: If you look at Mr. Mondale's statement in context it is very clear that he was not suggesting the elimination of indexing and he has clarified that statement since the debate.

Let me read to you the exact language from his budget deficit reduction proposals:

I am committed—

He said—

to the principle of indexing. However, reduction of the Reagan deficits requires that full indexing be deferred. Under the Mondale plan families making $25,000 or less will receive the benefits of indexing; families above that level will be indexed only to the extent that inflation exceeds 4 pecent.

Mr. Mondale misspoke during the debate and has made it clear since then that he did and for someone on this floor to take that statement that has since been clarified, and it was clear from the context that he meant something differently, to take that and to try to use it for a debating point is a distortion of the record and is very unfair.

One word on real interest: Mr. Reagan on Sunday claimed that there was no relationship between budget deficits and the interest rate. Nothing could be further from the truth.

And I just want to read the estimates, again, of the Congressional Budget Office. The President dismisses them. It is headed up by a conservative Republican economist. And he projects deficits, 1984, $172 billion, and this is the Congressional Budget Office; 1985, $178 billion; 1986, $195 billion; 1987, $216 billion; 1988, $238 billion; and 1989, the figure that Mr. Mondale used, $263 billion.

That is the estimate of the Congressional Budget Office and anybody who says on this floor or in debate that there is no relationship between our present high rate of real interest and that kind of a deficit, that kind of a huge, huge deficit is I think embracing the worst form of voodoo economics.

So those are five examples of misstatements in the 1 hour of back and forth that went on between Members of the other party. There are many more but they show that the record very much contradicts the claims made on this floor. Mr. Mondale won the debate on Sunday night not only because of better form and better performance; he won it because he is right on the issues and the record shows that.

Mr. Speaker, thank you to the gentleman from Texas for yielding.

Mr. WEBER. Mr. Speaker, would the gentleman from Texas yield to me?

Mr. WALKER. Mr. Speaker, since my name was mentioned, would the gentleman yield to me?

Mr. GONZALEZ. I will yield to the gentleman from Michigan for the purposes of yielding to the gentleman from Pennsylvania, both gentlemen from Pennsylvania.

Mr. WEBER. I only need 1 minute.

The SPEAKER pro tempore [Mr. ROEMER]. The Chair would remind the

gentleman from Texas that he may yield to another Member, but he may not yield to another Member for the purpose of that Member yielding to another Member.

Mr. WEBER. Will the gentleman from Texas yield to me for 1 minute?

Mr. GONZALEZ. Under those circumstances, certainly I will be delighted to yield to the gentleman from Pennsylvania for a minute.

Mr. WALKER. I thank the gentleman for yielding, because I do want to make the point that while I had to go out for a moment, it is a shame that the gentleman from Michigan who was on the floor when I was controlling the time did not feel that it was necessary to stand up and engage in a debate at that point when I had the opportunity to clarify.

The gentleman from Michigan is absolutely incorrect with regard to what I said on the medicare. The only point that I made was that Walter Mondale's deficit reduction package contains $12 billion in medicare cuts.

Walter Mondale the other night accused President Reagan of having a medicare-cut package. I would say to the gentleman part of President Reagan's medicare-cut package that was talked about the other evening was also hospital cost containment, was doctor-fee containment and a lot of those kinds of things.

So that the gentlemen knows that Walter Mondale tried to use that as an issue where President Reagan was going after older citizens.

If it is legitimate for Walter Mondale to use it that way, then it is simply legitimate for us to point out to the American people that Walter Mondale seeks to cut medicare by $12 billion in the deficit-reduction package that he has been trumpeting all over the country.

Mr. LEVIN of Michigan. Mr. Speaker, will the gentleman yield to me?

Mr. GONZALEZ. I yield again to the gentleman from Michigan.

Mr. LEVIN of Michigan. Two quick points: I was in my office during most of your performance here and I came over because your statements were so far off the mark. And a good example was for you to get up on this floor and say that Mr. Mondale suggests $12 billion in medicare cuts.

Mr. WALKER. He did.

Mr. LEVIN of Michigan. The implication of that is $12 billion in cuts of medicare benefits and the truth of the matter is it is $12 billion proposed in cuts to payments to physicians, not to recipients of benefits.

The recipients of benefits will not be hurt by the Mondale proposal one iota.

To finish up on my minute, Mr. Reagan, the President of this country, has indeed in the past suggested increased costs to the beneficiaries of Medicare. He has proposed those increases. So please do not say that the President of the United States only wants a cost-containment program. He has suggested cuts in Medicare by increasing the costs to beneficiaries. That is the record.

Mr. WEBER. Will the gentleman yield to me for a unanimous-consent request?

Mr. GONZALEZ. I will be delighted to yield to the gentleman for a minute for the purposes of rebuttal since allusion has been made to the statements he made previously.

Mr. WEBER. Let me say in my minute that I do thank the gentleman from Texas for yielding. But I have to say to my friend from Michigan that regardless of the circumstances it is somewhat unfair for the gentleman to come to the floor and make a fairly complex indictment of what we have been saying under circumstances when we cannot possibly respond to him. He has made five fairly telling criticisms of our remarks all of which I believe can be rebutted, all of which deserve rebuttal. But to do that we would have to chew up a good deal of the time of the gentleman from Texas. That is not fair.

The gentleman from Oregon came to this floor and we yielded to him as much time as he wanted. We would have done that for the gentleman from Michigan. But for him to come to the floor under these circumstances when we cannot possibly respond to him fully, in my judgment, is not fair.

I thank the gentleman for yielding.

Mr. LEVIN of Michigan. Will the gentleman yield to me?

Mr. GONZALEZ. I yield to the gentleman from Michigan.

Mr. LEVIN of Michigan. Look, to the gentleman from Minnesota, we had no advance notice of the subject matter of his special order.

□ 1900

I was in my office listening to your diatribe and I came over here. You put forth a number of allegations of fact and I immediately begin to search through Mr. Mondale's budget deficit plan the exact language. When I was ready to speak, I did so.

I am most willing to argue with you at any point.

I made five points. Indeed, they are telling because they correct your distortions of the record.

Mr. WALKER. Mr. Speaker, will the gentleman yield?

Mr. GONZALEZ. I yield to the gentleman from Pennsylvania.

Mr. WALKER. I thank the gentleman for yielding.

The gentleman has been most generous with his time and I thank him very much.

But I would say to the gentleman, I have to tell him, when I was standing in the well I saw the gentleman sitting on the floor during the time that I still had time. The gentleman could have come and asked me to yield at that particular point.

I would also say to the gentleman that there is absolutely no tradition whatsoever which suggests that Members of Congress have to inform everybody else what the topic of their special order is, particularly when they are talking on matters of national import.

We mentioned no Members of the House in that. There was no need to inform anyone. There was no one's name mentioned in that special order except for President Reagan's and Walter Mondale's. The gentleman can take umbrage at that, but we do not have a responsibility to tell the gentleman what it is we are doing in special orders.

The gentleman has the responsibility if he thinks that there is something being said that he does not agree with to come over and engage in debate, but not to come out and take time in a way that we are not permitted to debate him. This is something that has happened before and I regret it.

Mr. LEVIN of Michigan. Mr. Speaker, will the gentleman yield to me?

Mr. GONZALEZ. I yield to the gentleman from Michigan with the advisory that as generous hearted as the gentleman from Texas may want to be he is constricted by the limitations of the rules and his generosity will be curtailed somewhat in due course of time.

Fortunately, I think this is an issue of very much interest and concern and I feel, in all fairness, that given the nature of the debate that the opportunity at this time should be given to those colleagues involved.

I yield to the gentleman.

Mr. LEVIN of Michigan. I thank the gentleman for yielding.

I am not criticizing you. I am not saying that you came here and unfairly used procedure. My only point was that we had no notice in advance of the nature of your special order. I was in my office and I was listening to your dialog and I thought there were major mistakes and I came over here and I was reading through the papers—I have not even finished reading through the papers to check all of your statements of alleged facts. As soon as I had an opportunity to check out three or four of them, I asked the gentleman from Texas [Mr. GONZALEZ] to yield.

So, I am not claiming you should give me advance notice and you should not be claiming that by my asking him to yield I am doing anything unfair to you.

I thank the gentleman for yielding.

Mr. BEDELL. Mr. Speaker, will the gentleman yield?

Mr. GONZALEZ. If the gentleman would allow me, I would like to recognize the gentleman who was engaged in the prior dialog.

Mr. WEBER. I thank the gentleman for yielding.

Let me just say to my colleague from Michigan, I understand what he is saying. In our view the proper way—since the gentleman came to the floor explicitly to attack statements that we had made and statements we had made at a period of time in which we were more than willing to yield to the gentleman or anybody else who wanted us to—if the gentleman wanted to then take on our statements as it were, I think the proper thing for the gentleman to do would have been to request his own special order time when we could have a full and frank dialog about it.

That is not possible under these circumstances because the gentleman chose not to do that. The gentleman chose to use some of the time of the gentleman from Texas, which makes it impossible for us to have a full discussion of the five points the gentleman has raised.

Mr. GONZALEZ. Mr. Speaker, I yield to the distinguished gentleman from Iowa [Mr. BEDELL].

Mr. BEDELL. Mr. Speaker, the gentleman has things that he wants to say and I do not want to impose upon his time.

I did come down as quick as I could when I heard the debate that was going on.

Mr. GONZALEZ. I will remind my distinguished and very warm personal friend from Iowa that Mark Twain said that charity was not giving a hungry dog a bone, charity was giving a hungry dog a bone when he was just as hungry as a dog.

Here we all know that this is our forum and we are anxious to speak forth.

I am more than delighted to yield to the gentleman from Iowa [Mr. BEDELL].

Mr. BEDELL. I thank the gentleman for yielding.

I would like to point out. One of the questions that came up was what was the situation in regard to real interest rates. It was pointed out correctly that real interest rates are the difference between the prime rate of interest and the Consumer Price Index.

For the record, in 1979, the Consumer Price Index was 13.3 percent, prime interest rate was 12.7, for a real interest rate of minus 0.6 percent. This is the average for the year.

In 1980, it was 12.4 percent, prime interest rate 15.3, real interest rate 2.9 percent.

In 1981, the first year of the Reagan administration, Consumer Price Index was 8.9 percent, prime interest averaged 18.9, real interest rate 10 percent.

In 1982, Consumer Price Index, 3.9, prime interest 14.9, real interest rate 11.

In 1983, 3.8 percent Consumer Price Index, prime interest rate average 10.8, real interest rate averaged 7 percent.

The real interest rate average for the Reagan administration has been 9.2 percent. The real interest rate for the 4 years of the Carter administration was 0.6 percent a year.

Those are the records. We hear a great deal about job creation. For the record, under the Reagan administration the jobs have increased by 5.1 million. Under the 4 years of Carter, they increased 10 million.

Real plant and investment increased under Reagan zero percent per year. Under President Carter, 5.4 percent per year.

The average annual budget deficit under this administration, $165.7 billion. Under Carter, $48.5 billion.

The worst annual trade deficit under Reagan, $130 billion. Under Carter, $34 billion.

I am not here to brag about the administration of the previous administration. I think there were a great many problems. But I think that it is very, very important that as we look at what the situation is, we look at what the real figures are for the average and that we look at what has happened over the span of the entire administration of this administration.

I appreciate the gentleman for yielding. I did not want to come down and get involved because I do not believe in this partisan talk that goes on down here. But it seems to me if we really care about America, if we care about what is happening, then we ought to have the figures out as they truly are. If anybody questions these figures, then they should go to the Commerce Department or go to the Department of Labor and tell them their figures are wrong. These are the figures of what has happened over those 4-year periods. I think it is important that we get this out into the public so the public knows exactly what has happened.

I can tell you that my farmers in my area are not seeing this great improvement that everybody is talking about. I have got more of them going broke then we have had since I have been in Congress, indeed, since the Great Depression. The foreclosures are the greatest they have been since the Great Depression

I think we have to be realistic about the problems we face.

I thank the gentleman greatly for yielding to me.

Mr. GONZALEZ. I appreciate the concern and the interest expressed by the gentleman from Iowa and the others. This is a very important matter.

If I may be allowed I yield to the gentleman who had participated in the prior discussion who probably was one of those addressed in the attempted correction of the criticism.

If the gentleman from Ohio allow me, let me recognize him, because he had not had a chance to rebut.

Mr. KASICH. I appreciate very much the gentleman yielding.

I cannot believe that anybody on this floor would argue that somehow if you have an 18-percent rate of interest that somehow you ought to drive inflation up so that your real rate of interest is less.

What he is essentially arguing is that if you get a 15-percent prime rate and you have an inflation rate of 12 percent, that somehow that is better than a 4-percent rate of inflation and a 12¾-percent rate of interest.

The simple fact of the matter is under the final year of the Carter administration the rates reached 21½-percent prime rate, the highest rate since the Civil War; with inflation at 12½ percent. The economic adviser in the Carter-Mondale administration blamed it on the American people suggesting that the American people want too much.

When this President came into office faced with a 21½-percent rate of interest, faced with a 12½-percent rate of inflation, he has been able to turn it around to a less than 4-percent rate of inflation. He has got more people working than were working when the previous administration left office.

□ 1710

But to make an argument that, somehow, you ought to drive inflation up to match you interest rates is absurd. What we ought to be arguing is that interest rates today are too high, in light of where inflation is, and that we ought to get this Fed under control. But to suggest for one second that a 21.5-percent rate of interest and 12.5-percent rate of inflation is better than a 12.75-rate of interest and a less than 4-percent rate of inflation you had better get out the basic economics book once again.

Mr. BEDELL. Mr. Speaker, will the gentleman yield?

Mr. GONZALEZ. I yield to the gentleman for half a minute.

Mr. BEDELL. I do not know if the gentleman heard me.

The average interest rate for 1980 was 15.3 percent. For 1981, the first year of the Reagan administration, that interest rate was 18.9 percent, an increase of 3.6 percent, even though inflation had come down.

Mr. WALKER. Mr. Speaker, will the gentleman yield?

Mr. KASICH. Mr. Speaker, will the gentleman yield on that point?

Will the gentleman from Texas please yield on that point?

Mr. GONZALEZ. If I can get some assurance that this will be the final tat to the tit.

Mr. KASICH. Yes, sir.

Will the gentleman yield?

Mr. GONZALEZ. Yes. Let me yield to the gentleman.

Mr. KASICH. What the gentleman just said is that the average interest rate during the final year of the Carter-Mondale administration was over 15 percent. And what he failed to say was, on its way up. And the last half of that year, that interest rate reached 21.5 percent.

Yes, when the President assumed office the interest rate was 21.5 percent. He now has it down to 12.75 percent, and, frankly, we think that is too high. But in the Carter administration, not only were interest rates headed from 15 percent to 21.5 percent—I will tell you, if Carter-Mondale had been reelected the interest rates may have gone up to 30 percent—but that was accompanied by a 12.5-percent rate of inflation.

Now, that is an out-of-control economy. And when the economic advisers say it is the American people who want too much, and then we have a man to take office to bring the rates down to 12.75 percent, again too high, and an inflation rate at its lowest level in two decades, and to create 6.5 million new jobs and to have more reinvestment in our industry than has happened in several decades, the facts simply speak for themselves.

Mr. WALKER. Mr. Speaker, will the gentleman yield?

Mr. GONZALEZ. I yield to the gentleman from Pennsylvania.

Mr. WALKER. I thank the gentleman for yielding, and the gentleman has been very, very generous. We certainly appreciate it.

What the gentleman from Iowa is attempting to argue here is on the basis of averages, and what he wants to do is to take the averages where the Carter-Mondale administration inherited Jerry Ford's 2-percent real interest and figure them in. And yet what we had throughout the entire Carter-Mondale years was interest rates headed up, headed up from the 2 percent they inherited to the 21.5 percent that they had at the end of their time.

And then what he wants to argue is that once Ronald Reagan inherited 21.5 percent that then it is his fault because he had a period of time early in his administration when those rates remained high, even though they were on their way down.

Now, that is a very, very difficult economic argument to make. It may make a lot of political points out on the campaign trail but the bottom line is that an economic policy is what it results in.

The results of an economic policy are what you have to evaluate. The results of the Carter economic policy were 21.5-percent interest rates and 12.5-percent inflation, after inheriting 4.8-percent inflation and a 2-percent real interest rate.

Now, the results of the Reagan administration are 12.75 percent in the prime rate, 5 percent in inflation, after inheriting 12.5 percent inflation and 21.5 percent prime.

That is the difference between the two economic programs. That is the argument. To argue averages, as the gentleman from Iowa argues, is to give the Carter people all of the benefits of what Jerry Ford left for them and to give Ronald Reagan all of the negatives that he inherited from Carter-Mondale. That is a pretty weak economic argument, although it may pass in some places as a good political one.

Mr. BEDELL. Mr. Speaker, will the gentleman yield for just 1 minute.

Mr. GONZALEZ. I will be delighted to yield to the gentleman from Iowa, as one final yield.

Mr. BEDELL. That is great. And we do not want to prolong this. I do not know how it gets so partisan.

The gentleman from Pennsylvania says that we should go by results. I absolutely agree with gentleman, we should go by results. Let me read you the results.

The results are that in job generation the Reagan administration created 5.1 million jobs, the Carter administration created 10 million jobs.

Real plant and investment increased zero percent under the Reagan administration. Real plant and equipment investment increased 5.4 percent under the Carter administration.

The average annual budget deficit under this administration is $165.7 billion. Under Carter, $48.5 billion.

The trade deficit, the worst trade deficit in this administration, $130 billion, going up, as the gentleman said. Under Carter it was $34 billion.

Those are the figures, those are what you get from the Commerce Department and the Labor Department.

We can argue forever about these other things, but those are the figures, Mr. Speaker; those should be entered in the RECORD. It should be clearly entered into the RECORD that that is exactly what it is. Those are the results the gentleman talks about.

I do not believe those are the results that I want to see for this country. I do not think they are the results the voters want to see for this country.

Mr. Speaker, the following appeared in the New York Times on Sunday, October 7, 1984, in abbreviated form. I feel it would be useful to repeat it here in its entirety.

Reaganomics has been a disaster. That this voodoo continues to cast its spell after 4 years of dismal experience is a tribute to the art of impression management. The facts completely belie the image.

Just look at the pillars upon which Reaganomics stands: job generation, supply-side investment, interest rates, and overall national economic strength and security. Contrast the Reagan record with that of the much maligned Jimmy Carter:

[Dollars in billions]

	Total job generation (millions)	Real investment plant and equipment (percent per year)	Average annual budget deficit	Average real interest rate (percent per year)	Worst annual trade deficit
Reagan	5.1	0.0	$165.7	9.2	$130
Carter	10.0	5.4	48.5	.6	34

According to the Bureau of Labor Statistics, total employment in the United States was 91.6 million in January 1977, 101.6 million in January 1981, and 106.7 milion at the end of August 1984. This does not take into account the kinds of jobs which laid-off auto, steel, farm equipment, and other workers have had to fight for in the last 3½ years. The fortunate are now employed again. But even the bare statistics show that only half the number of jobs have been created under Reaganomics as under Carter.

Perhaps the centerpiece of the Reagan supply-side revolution is its emphasis on the need to increase capital spending. Commerce Department data indicate, however, that business investments in new plant and equipment—even in nominal terms, not adjusted for inflation—began to decline in the fourth quarter of 1981 and continued to decline until the end of the second quarter of 1983. This six-quarter decline is unique in the history of the Commerce series, which goes back to 1946.

I should note that the decline in investment continued for 6 months after the current cyclical recovery began in November 1982. This, of course, has not prevented the supply-siders from claiming recently that the recovery was led by investment.

Reaganomics has substantially lowered business investment as a percent of gross national product: Carter substantially raised it. Real, inflation adjusted, investment increased under Carter from $115.4 billion in the first quarter of 1977, to $142.1 billion in the first quarter of 1981. Under Reagan, investment dropped to $123.6 billion in the first quarter of 1983, and has only this summer risen to $142.5 billion—almost exactly the level when Reagan came into office. In light of the no-growth investment results of Reaganomics compared with the 5.4 percent annual growth under Carter policies, it is astonishing that supply-siders continue to be taken seriously.

The enormity of the budget deficit crisis which Reaganomics has brought

about is well known: Carter deficits which Reagan ridiculed 4 years ago, have grown almost 400 percent under Reaganomics, with no end in sight. If Reagan is allowed even one more budget like his first four, the entire Federal debt accumulated from George Washington through Jimmy Carter will have doubled in 5 years.

What is less appreciated is what these enormous deficits—Government demand for credit—have done to interest rates. The bottom line, real interest rates, is what you actually pay for credit after inflation. Reaganomics has caused real interest rates to skyrocket to 15 times as high as they were under Carter.

Even if we look at only the prime rate minus the Consumer Price Index [CPI], under Carter real interest rates averaged 0.6 percent; under Reagan they have averaged 9.2 percent—15 times as high. There is no mystery why farm foreclosures, business and bank failures are setting post-World War II records.

Reaganomics has also caused our dollar to become far too expensive for us to fairly compete with foreign producers and workers. The dollar has appreciated by 70 percent in the last 4 years, according to the Federal Reserve Board. After a 2-year lag, this has caused our trade deficit to skyrocket. This year, Reagan's trade deficit is almost four times worse than Carter's worst year, creating major structural problems for the United States and the world economy.

To offset these enormous trade and current account deficits, U.S. foreign borrowing in the past 12 months has been roughly equal to the total foreign debt accumulated by Mexico over its entire history. The United States will itself become a debtor Nation next year, for the first time since we emerged as a world power in 1917.

These incomprehensible numbers represent the grudging loss to American producers of enormous markets for their goods, both here and abroad. In the past 4 years, foreign competitors have taken these markets and millions of jobs away from U.S. producers. The longer Reaganomics keeps the dollar so expensive, the more markets and jobs will be lost and the more difficult it will be to regain them.

The single, illusory economic success of Reaganomics has been that inflation rates have come down from the Carter period. However, much of this is due to the flood of cheap imports which has resulted from the overvalued dollar. When the expensive dollar begins to weaken, as it inevitably must—we can't borrow $100 billion per year from abroad forever—even this illusory success will vanish, leaving us with fewer jobs, less investment and indebted to foreign interests.

The utter failure of Reaganomics does not depend on the damage its enormous borrowing will certainly do in the future. Severe damage has already been done. The question facing the voters in a few weeks is whether or not this damage will be compounded by 4 more years.

I thank the gentleman for being so lenient. I appreciate his time.

Mr. WALKER. Mr. Speaker, I am not going to ask the gentleman to yield because he has been so generous, but I just hope that the gentleman from Iowa will stick around here. We are going to have a little bit of time and we will be very glad to rebut those figures and make a clear case that the gentleman from Iowa is coloring the statistics in a rather——

The SPEAKER pro tempore. Does the gentleman from Texas [Mr. GONZALEZ] yield to the gentleman from Pennsylvania, [Mr. WALKER]?

Mr. WALKER. I thank the gentleman.

Mr. GONZALEZ. Let the RECORD show that I had yielded for the purpose of the announcement that was made.

Of course, Mr. Speaker, may I say that these are issues of great concern. The only thing that this dialog or these discussions have reminded me of is a story they tell about Rothschild, the great international financial wizard in London, the English Rothschild. And one day these great named international bankers went over to him and said, "We would like for you to explain for us the intricacies of this gold business, this gold market." He said, "Well, I do not pretend to really know, I have two experts in the house here who really know all about gold; but let me warn you, they do not agree. They have different opinions."

Also it is interesting, of course, to me because I have been a member of the Banking Committee, in fact I am considered the ranking member today, for the 22½ years that I have been in this House. And always what I have heard from the experts, the Chairman of the Federal Reserve Board—I think I have had the privilege of serving with about five different Federal Reserve Board Chairmen, and they and the great economic wizards all seem to tell us, as far as I can tell from the record, that interest rates are really an act of God, that nobody can do anything about it.

Then we have Presidents who, when they confront these dilemmas, blame the Federal Reserve, and then if something happens that seems to indicate that interest rates are going down, then they want to take credit.

Well, we cannot have it both ways. If a President has the power to influence interest rates, then he ought to be responsible. But the truth of the matter is that it is more intricate than that. I wish it were as simplistic a matter as perhaps we might conclude from some of these discussions.

But I want to compliment my colleagues who have participated and who are expressing their deep concern on these very basic issues.

Also it gives me an opportunity to try to solicit and enlist their interest and support for two measures that I have introduced today on two basic and very, very fundamental issues affecting us all one way or the other.

Now, we are at the terminal point, or thereabouts, of the last session of the 98th Congress, so the question may arise: Why would you introduce a bill when there is absolutely no hope of its consideration?

The reason is that, in the case of one, I have introduced the same bill or approximately a similar bill, identical bill, for the past five Congresses, and more and more interest is being shown with respect to the subject matter. But the first bill introduced today has to do with something that I am afraid is very pressing. And in the light of all of the allocations of moneys and the tax burdens that we in the Congress and Presidents are imposing on our taxpayers for a first-class defense system, the situation that I am going to describe sounds rather anachronistic, it sounds hard to believe.

□ 1920

The one bill I call the Military Family Justice Act. The second bill I call the Mental Health Insurance for All Americans Act.

In the case of the Military Family Justice Act, there is no question to those of us who serve in this body who have any kind of knowledge or personal acquaintance with the living conditions of our service families, cannot possibly, if they are in any kind of minimal contact, ignore the seriousness of the issue.

Military families, to begin with, are subjected to very unique problems. Several weeks ago we read in the newspaper about a boy, a child, who committed suicide who happened to be in a military family. The son of a sergeant, who said in his suicide note, "Well, having one less mouth to feed will help you out."

The truth is that despite all of the arguments made for what we call a volunteer service and the incremental budgetary outlays for a so-called voluntary service, that we have not escaped from the pathetic situations that were used in the debate to bring the budgetary outlays for a truly voluntary service.

The picture and the horror stories were that we had many thousands of servicemen and families on the welfare lists. Many food stamp recipients. The sorry fact is that this is still true today. We have thousands of young airmen, young sailors, young soldiers who have dependents and who are on

food stamps in order to have a proper level of nourishment.

Housing, family housing—there I have brought out the need even in the case of the bachelor member of the service, and, in fact, I had to introduce legislation to try to correct an injustice that came to light as a result of the President's quite precipitous call and concentration of force in the Caribbean and Pacific, in the Central American areas, where basic quarter allowances were curtailed because of the extended period of training which neither the regulations or the statutes, and, as I found out later, governed by statutory provision, allowed.

So I had real hardship cases where bachelor members, and these are highly trained professionals, doctors, were in jeopardy of losing their homes on which they were trying to make mortgage payments or leases, and they were losing an average of over $650 a month, through this one unprecedented extended period of training which, as you will recall, the President called these forces for periods extending to 6 months, even 8 months period of service. Our rules and regulations do not provide for basic quarter allowance for training periods in excess of 90 days.

That is just one little item. Little to us, perhaps, certainly not little to the people involved. When it involves our military I think that we ought to know that this more than anything else, an active enemy, is the real, real danger that is confronting us today.

As it is now, there is no systematic, comprehensive approach to a family service and all of the ancillary services that could be offered a military family. My bill would provide, among other things, what I call a Family Assistance Division in the Defense Department. It also provides for increased and more realistic housing provisions.

I get letters from constituents who happen to be serving abroad. I am very distressed by what these letters tell me. I have received these letters in greater number just within the last 2 years than ever before. The question of health care for the serviceman's family is a blot and a shame for every one of us in America and particularly those of us in Congress who have the constitutional duty of raising armies. It is shameful. I have seen disastrous, catastrophic bills because we have allowed that aspect of benefit to the service family to deteriorate to the point of actual insufficiency if not outright helpless offering.

My bill would bring for example such things as dental care, which now really is not provided, under what is known as CHAMPUS. Now, every single measure that has been taken since the original embrace by the Congress of the program we call CHAMPUS, every single action has been to reduce that availability of health care to the serviceman's family. So I would provide as one needed thing an enhancement, a realignment to conform to the original intention the Congress had when it initiated what we call CHAMPUS, popularly known as CHAMPUS.

The bill also calls for the establishment of an Office of Family Service in the Department of Defense. This would, for the first time make family concerns a priority of the Department. In this aspect, I join another colleague who is also championing this and who lately has been really showing initiative and quite a bit of very valuable thinking and action in that respect. My distinguished colleague from California [Mr. PANETTA].

However, it is important that we raise the level of consciousness of need among our colleagues and it is for this reason that I introduced the bill in the waning hours of this Congress with the hope and the promise and the commitment that it will be a priority matter when we, God willing, begin the 99th Congress on January 3.

Now, the other bill, the second bill, is one as I say and repeat that I have introduced for five consecutive Congresses. I call it the mental health insurance for all Amercians legislative proposal. There is no question now that this is an urgent, crying need, as much as catastrophic illness comprehensive insurance for Americans. We are the only industrialized nation in the world that offers no program, much less a program for mental illness insurance, no program for general health insurance of catastrophic illness insurance.

Last week, in my hometown and district, I witnessed the most pathetic situation I have ever heard of in my life. A lady whose family, in an endeavor to summon forth all the resources known to modern medical technology and know-how, committed, just in hospital care, over $65,000 in medical bills. The medical bill will total somewhere around $30,000.

□ 1930

Now, it is not right. I know that at this time and under the atmosphere that this country has been subjected to for at least 3 or 4 years and maybe even a little bit before that because our era of blight, is what I call it, the era of sacrificing and actually selling our birthright for a mess of potage, the birthright of the American hope, for American standard of living maintenance and for that American dream.

What is the American dream? The American dream that every ablebodied, healthy American willing, wanting to work shall have that opportunity and provide for his family, find shelter and roof, food for the table and clothing with which to protect his family, his children. This is our American hope.

Instead, we have degenerated into an era of blight and shortages, scarcity. America is a land of plenty and still can be if we will it so. It is within our power. As rich as we may be, we are in a position that the English poet said when they said:

Ill fares the land, to hastening ills a prey,
Where wealth accumulates, and men decay;

My two bills today I offer to my colleagues, particularly those that are insured in return to be sworn in in the 99th Congress to join me in confronting these real burgeoning problems emanating from that great society we call America.

Military families are subjected to unique problems and difficulties. They are subjected to frequent relocations; they have no real choice about their assignment, and they have no real control over their family arrangements, because of the pressures and frequent disruptions that flow from the nature of military life. Family separation is a problem; financial burdens created by uncontrollable moves and housing expenses are a problem; inadequate pay and inadequate benefits are a problem. Even though there are many different resources available to military personnel, there is no systematic approach to family problems, the resources are inadequate, and the consequence is real injustice. It is unjust to have military families forced to live in inadequate housing; unjust to deny their families a full range of health benefits; unjust to fail to recognize that family problems must be addressed in a systematic and caring way. Therefore I am introducing a bill today intended to bring about a greater degree of justice for military families.

My bill provides a supplement to the housing allowances that are available today. In any high-cost area, the basic allowance for quarters is insufficient. Even though there is and has been for some years a supplemental housing allowance, the variable housing allowance, that program has been inadequately funded. My bill does two things: It reduces the out-of-pocket costs required to qualify for the variable allowance from 15 percent of pay to 10 percent. That is only fair, if you consider that military families would live in free housing, if the military had enough housing to serve all its families. In addition, the bill provides that cost recoveries resulting from savings in procurement will be used to finance the variable housing allowance program. Thus, the airman who reported the $7,000 coffee pot, the $635 armrests and the like, would have some incentive to report such abuses, because military members would know that resulting savings would benefit them, as is only just.

My bill also brings dental care under the CHAMPUS Program. Dental care is not always available to military de-

pendents, but it ought to be. Dental care can be exceedingly expensive, as anyone who has had dental surgery knows. There is no reason why such care should not be included in CHAMPUS.

I am also seeking the establishment of an Office of Family Services in the Department of Defense. This Office would for the first time make family concerns a priority of the Department of Defense. It would establish and implement a system to provide military family financial assistance—a service that is provided today only on a local, ad hoc basis. The Office would provide consumer information and assistance; and it would help with job placement and referrals—an important service when military family members must often change jobs as a result of relocations. The Office would also serve as a family advocate, so that the Department of Defense could recognize and focus on family concerns among service members.

Family life in the military is not easy. It is subject to unusual stress and pressures, by the very nature of the job of the military member. These pressures are very much a concern of troop commanders and base commanders. But these commanders do not have the resources to deal with family problems, as much as they might wish otherwise. Local commanders cannot invent money when housing allowances are not adequate; they cannot provide information and assistance, except on an ad hoc basis. That can do nothing about the need for placing dental care under CHAMPUS.

My bill addresses these concerns. It speaks to the need for a comprehensive effort to assist military families. The need is great, and even though this Congress cannot act on my bill, it should be a matter of urgent concern when the next Congress convenes.

My second bill introduced is to really carry through on efforts I have made in the past five Congresses.

The National Institute of Mental Health has just issued a report—the most comprehensive survey of mental illness ever conducted—suggesting that at any given time about 29 million Americans—nearly 1 in 5 adults—suffer psychiatric disorders ranging from mildly disabling anxiety to severe schizophrenia.

The National Institute of Mental Health survey found:

Anxiety disorders, which include phobias, panic disorders, and obessive-complusive disorder are among the most common illnesses. Approximately 8 percent of the people surveyed suffer from an anxiety disorder. Although some of these disorders are relatively mild, others are so severe that afflicted individuals have been afraid for years of venturing outside their homes.

Abuse or dependence on alcohol or drugs was found in 6 to 7 percent of the population. About four-fifths of these individuals have a disorder related specifically to alcohol.

Affective disorders—major depression, manic-depression, and dysthymia—affect 6 percent of the adult population.

Schizophrenic disorders, the most severely disabling of mental illnesses was found in the NIMH study to affect about 1 percent or our country's population. Schizophrenia can involve psychotic disturbances in thought, accompained by withdrawn or bizarre behavior and hallucinations.

Another 1 percent of our population are affected by antisocial personality disorders—deeply ingrained behavior patterns, such as a low frustration level and an incapacity to feel guilt, that brings a person into conflict with others.

An earlier NIMH report estimates that there are at least 12 million children under 18 suffering from mental disorders, like hyperactivity, depression, and infantile autism, that hinder vital developmental processes essential for normal maturation to occur.

The alarming thing about mental illness is that it is growing in scope, and continues to have negative effects on individuals, families, and the entire U.S. economy. Mental illness can incapacitate large segments of society, composed of people who could otherwise be productive, hard-working citizens. Millions of dollars are needlessly lost each year due to the lessened productivity of millions of American workers who suffer from these various forms of mental illness.

For about a decade I have advocated a "Mental Health Insurance Program for All Americans"—the aim for which is to provide comprehensive health coverage as part of a national health insurance program, or in lieu of that, the mental health program could be implemented on its own.

Funding for the proposal would be through a mental health tax with the funding mechanism similar to other proposed national health insurance bills. A national health insurance program, covering both physical and mental illnesses, is long overdue for our country. We are the only industrialized nation in the world which does not have such a program.

In respect to my mental health care insurance proposal, I reintroduced it on February 9 of this year as H.R. 4839.

I am introducing it again today for the purpose of including the term "mental health counselor" among the bill's list of mental health professionals.

Mental health counselors deal with the practical problems that patients face when attempting to reintegrate into community life. They are a recent breed of mental health worker, which sprang up during the Vietnam era in response to the increasing needs of the National Mental Health Centers all over the country.

Mental health counselors work in the community counseling branches of these centers, and deal particularly with drug and alcohol abusers. As a result of the upsurge in drug abuse in the late 1960's and 1970's, many mental health centers have included counselors among their personnel. Several mental health counselors now operate their own mental health centers.

Earlier legislation during this Congress to amend titles XVII and XIX of the Social Security Act—which provides that services of mental health counselors be covered under part "B" of medicare and be a required service under Medicaid, the term "clinical mental health counselor" is defined as "an individual who first, possesses a master's or doctor's degree in counseling, mental health counseling, community counseling, or similar degree title, second, after obtaining such a degree has performed at least 2 years of supervised clinical counseling, and three, is licensed or certified as such in the State in which he/she practices, or if such State does not license or certify mental health counselors, is certified by the National Academy of Certified Clinical Mental Health Counselors and listed in the NACCMHC Register of Certified Clinical Mental Health Counselors."

Under the terms of my mental health insurance bill, the benefits provided to an individual under this title shall consist of entitlement to have payment made on his behalf for: First, psychiatric hospital care; second, psychotherapeutic care; third, prescription drugs; fourth, psychotherapeutic home care; fifth, day mental hospital care; sixth, night mental hospital care; seventh, halfway house care; and, eighth, community mental health center services.

Mr. Speaker, I ask that you and our colleagues here in the House, study my proposal during the remainder of this Congress and during the period preceding the opening of the 99th Congress and consider the tremendous need for enactment of such legislation as a necessary step to insure the well-being and the future of a majority of the citizenry of our country.

Mental disorder is increasingly a pervasive and devastating illness which affects not only the patient, but whole families and other members of the community.

While at least some of the poor, and lower middle-income Americans can receive treatment through community and State mental health facilities for free or a reasonable rate of payment, the struggling middle-class family can

be destroyed by the cost attached to extended hospitalization and treatment for a mentally ill member of the household.

A survey of coverage for psychiatric and mental health care included in present-day private and group insurance policies indicates that, at best, such coverage is limited.

Recently the daughter of a Texas woman was released from a neurological center after extended hospitalization. The balance for the cost of the hospitalization, after the insurance company paid what was allowed under its terms, was $14,000.

A representative from the hospital's business office called the woman and asked her how she was going to take care of the $14,000 balance. She replied that she was going to pay them $100 right away, and that each payday she would pay $200 a month until the bill was paid off. The hospital spokesperson told the woman that amount was not adequate, and that they would have to turn the matter over to a collection agency.

The hard-pressed East Texas mother replied: "Well, get on with it, but there is no way that I am going to be able to do any better than what I said I would do."

The hospital official later called back, and said that the hospital would agree to the woman's payment terms.

This type of situation is repeated all over the country, time and time again, and in many instances, the demands for payment are much more ugly than what the working mother, who I just described, experienced.

A few years ago I was involved in negotiations with Blue Cross/Blue Shield at Dallas regarding nearly 100 claims which had been rejected for payment for psychiatric hospitalization by San Antonians and other south Texas residents.

Eventually Blue Cross/Blue Shield made at least partial payment on most of the claims which ranged from a few thousand dollars to several thousands of dollars, but there was clear indication that the insurance company was reluctant to continue to pay for treatment which, in this case, San Antonio doctors had made a medical judgment was necessary for the men and women involved.

There is no doubt that the average working American cannot afford the going rates for psychiatric or mental health care, whether as an outpatient or as a hospitalized one, especially if his or her insurance program pays nothing, or at best, very little for such care.

Many of my colleagues will oppose this bill from the first mention of it because of the cost involved, but over the long term, providing resources for mental health care is cost effective, and enhances national productivity.

The following data bears this out.

A Kennecott Corp. study estimated a 6-to-1 benefit to cost ratio when its experimental group of 150 men received needed psychotherapeutic services. Work attendance improved by 52 percent and medical/surgical costs declined by 74.6 percent.

The Equitable Life Insurance Association found in another study that for every dollar of treatment costs there was a $3 return. A longitudinal study in Texas reported that access to needed mental health treatment caused a reduction of length of stay of over-65 patients in inpatient facilities from 111 days to 53 days, at a savings of $1.1 million.

The availability of mental health services to all Americans ensures that we can detect and treat mental illness in children earlier, and oftentimes, but not always, prevent the type of psychiatric disorders that might otherwise persist into adolescence and adulthood.

Many psychiatrists readily admit that psychiatry is still a very imprecise science, and that there is much that we do not yet understand about the causes for mental illness and how to treat the people who suffer from them in order to help them be whole and healthy again.

Just a few years ago theories which were advanced that there were chemical or biological reasons for schizophrenia and other mental diseases were scoffed at even by some of the medical community. Now recent research has made it clear that a complete understanding of the chemistry of an individual who is ill is the key to helping that person.

There is no doubt that environmental factors continue to play a big role in the mental health of the individuals who make up this great Nation.

And, it is obvious that many mental health problems can be more readily treated than others, if there is a therapist or a treatment facility available. For many years, for example, a State of Texas employee at Del Rio, had to commute for 3 hours by car whenever he saw his doctor in San Antonio, because there was no one in his town to see him.

It is time that we who are elected to serve the people of this country understand what we are confronted with and what is at stake.

Increasing support of research efforts, and the development of a national health insurance program, including mental illness, should be priorities on our legislative agenda.

BALTIMORE HARBOR SHOULD RECEIVE PRIORITY

(Mr. LONG of Maryland asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. LONG of Maryland. Mr. Speaker, I deeply regret that the administration has in essence shown us what it would do if it had a line-item veto, by coercing both this Chamber and the other, into dropping vital water projects. Besides chairing my own foreign operations section of the conference, which was the first to finish business, and which got through a bill below the President's budget request, I, along with Congressman HOYER, did all we could to assure appropriation of the Baltimore Harbor dredging project.

The administration coerced and threatened and politically acted to cancel vital projects like Baltimore, 39 of them including Baltimore Harbor; all of which together come to less than the cost of shutting down the Federal Government like the other day.

This was power politics and I deeply regret it. I join with my colleague from Mississippi in hoping that Congress will soon meet again to redress this failure to fund water projects and I thank my colleague from Alabama [Mr. BEVILL] for his assurance that Baltimore Harbor will receive priority in the appropriations process.

MONDALE PROPOSED TO REDUCE MEDICARE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Minnesota [Mr. WEBER] is recognized for 60 minutes.

Mr. WEBER. Mr. Speaker, in a previous special order, the gentleman from the other side of the aisle made some criticisms of the points that were made by myself and the gentleman from Pennsylvania [Mr. WALKER], and the gentleman from Ohio [Mr. KASICH] a few minutes ago.

We did not at the time have enough time to respond to those points. The gentleman from Texas [Mr. GONZALEZ] was generous in yielding, but would not yield us enough time to fully rebut those points, but I would like to go through them with my colleague from Pennsylvania [Mr. WALKER] point by point, because I really think that they are rebuttable points, if you will.

The first point is that the gentleman from Pennsylvania stated that the only proposal that exists today in writing for reducing medicare in any way, shape, or form is a proposal by the Mondale campaign to cut $12 billion in medicare costs.

Now, first of all, I should point out that it was originally stated improperly that my colleague from Pennsylvania [Mr. WALKER] called that a $12 billion increase. He never said that. The Mondale proposal is to save $12 billion in medicare.

The gentleman from Michigan [Mr. LEVIN] points out that Mr. Mondale

says he is going to achieve that through cost containment. Well, that is true, but the point is he does not tell us how that cost containment program is going to work and so we continue to sit with the reality being that the only proposal for reducing expenditures through medicare continues to be the proposal of Mr. Mondale to cut $12 billion in medicare costs. He does not tell us how it is going to happen. He tries to assure us that it is not going to come out of the patients, but he does not tell us how we are going to save that money, and that is a fact.

I yield to the gentleman from Pennsylvania.

Mr. WALKER. I thank the gentleman for yielding to me and if indeed it is going to come under cost containment there are some of course who argue that the kinds of cost containment that the gentleman from Michigan mentioned are precisely the kind of thing that will lower the quality of health care being delivered to medicare recipients and so it may well be that what Walter Mondale is really talking about is cutting costs in a way that will reduce the quality of health care to older Americans.

That would be a tragedy, a tragedy of equal proportions to other kinds of medicare reductions. But the fact is that indeed, the Mondale plan calls for a $12 billion reduction in medicare, period.

Mr. WEBER. Mr. Speaker, the gentleman is exactly correct. Furthermore, if you actually look at cost containment, how can you achieve cost containment?

There are a number of ways. The gentleman from Michigan suggested that it was going to come out of the doctor's fees. I suppose that is one possibility, but that is not necessarily assured at all.

There are some proposals in this country and in Britain for reducing health care costs by rationing health care.

In other words, you make some decision about who is going to get what health care. Well, that is one way that you can reduce health care costs. That is one form of cost containment.

The point is, we do not know what the Mondale cost containment program is. The point that is even more telling here is that if President Reagan said he was going to cut $1 out of medicare through cost containment every Member on this side of the aisle would be out of their seats in a minute, accusing him of wanting to abandon the elderly and not caring about the poor.

Mr. Mondale comes up with a vague proposal for a large reduction of $12 billion and tells us what he is going to achieve it through some unspecified cost containment proposal and no one is supposed to be concerned about it.

That is a kind of double standard. The fact is that the Mondale proposal is still the only proposal that exists in the writing today for a reduction in medicare expenditures.

Let me go through the other points that the gentleman raised and then I will be glad to yield to the gentleman from Michigan.

The second point that the gentleman made was that the $1,800 per family tax increase that was attributed to the Mondale plan is a phony number.

Obviously the Mondale campaign is not going to want to concede the whole cost of their tax increase program but the figures compiled by the Secretary of the Treasury, Mr. Regan, and which puts $1,800 a year as the minimal cost to the Mondale program, are not figures just pulled out of the air.

Most of those figures, if you go through the page-by-page analysis done by Secretary Regan are based on Congressional Budget Office analysis, many of them studies requested by Speaker O'NEILL.

Now that is not true of all of the Mondale recommendations. There are other sources that cost those recommendations out but most of them come from the bipartisan Congressional Budget Office.

Furthermore, I think that we just have to assume there is going to be some cost to some of those proposals. I think it is only reasonable to expect that Mr. Mondale will try to minimize his costs. I think there is at least an even chance that the cost of the Mondale tax increase would be more than $1,800 per year.

Third, the gentleman from Michigan said that it was somehow unfair or not realistic or unwise to suggest that simply increasing taxes on wealthy people and corporations would simply drive them into tax shelters.

I would just say that the experience that we have seen over the past years is that when you simply try to raise taxes on the wealthy and large corporations that is precisely what happens.

Furthermore, if we analyze the impact of the Reagan tax cut over the last 4 years, particularly as it has affected high income groups, we find that revenues to the Treasury have increased dramatically from the highest income groups in our economy. Why? Because they have been pulled out of tax shelters by reducing the premium for investing in a tax shelter.

When we had a 70-percent top rate you got a return of 70 cents on the dollar for every dollar you invested in a tax avoidance scheme. Now it is down to 50 percent and you have reduced the premium for investing in tax avoidance by 20 cents on the dollar. That is the reason that we have seen the wealthiest taxpayers in our country, those wealthy people making $1 million a year or more contributing 43 percent more; 43 percent more per year to revenues than they did prior to the Reagan tax cut.

Now if we try to simply soak the rich, as Mondale says, he is going to do with his tax increase measure, we are going to find the exact opposite happens. We are going to find those people will find additional ways of sheltering their income and we will not get the full tax increase that Mr. Mondale suggests.

□ 1940

Finally, the gentleman from Michigan suggests that we were inaccurate in quoting Mr. Mondale on the subject of indexing.

First of all, it is worth pointing out that Mr. Mondale, although he is attributed with winning the debate the other night, did indeed say that he was going to repeal indexing. Apparently after that debate he issued some retraction and clarified it.

But as I understand it, what is the Mondale proposal now? The Mondale proposal now, as I understand it, is to repeal indexing for wealthy taxpayers. How does he define them as wealthy? Making more than $25,000 a year. That is the new Mondale estimate of what a wealthy taxpayer is. If you make more than $25,000 a year, apparently that is too rich for Mr. Mondale. You are too successful. You deserve to have a heavier tax.

That is the sector of our economy that is going to pay more under the Mondale tax indexing scheme. So in my judgment, the criticisms of the gentleman from Michigan, while valid, really do not stick.

Mr. Speaker, I would be glad at this point to yield to my colleague, the gentleman from Michigan [Mr. LEVIN].

Mr. LEVIN of Michigan. I thank the gentleman for yielding. I do not want to eat up very much of your time, but I would like enough time, and I will try to make it brief, to respond to each of your points.

First of all, on medicare, it is really misleading, in my judgment, to talk about medicare cuts when the proposal is for cost containment. People do not understand that the language "medicare cuts" to mean cost containment. I think it is more objective and fair if the proposals for cost containment, to call it that and not to call it a medicare cut.

Mr. WALKER. Mr. Speaker, will the gentleman yield to me?

Mr. WEBER. I think we should have a dialog because we did not have one before.

Mr. LEVIN of Michigan. I am all in favor of that, but at least let me finish my point, my first point.

Mr. WEBER. All right.

Mr. LEVIN of Michigan. And then we can go on to the other four.

When you said that there were no specifics, let me just read to you from the plan itself. By the way, you say it is the only plan on the table. I think it is to Mr. Mondale's credit that he is not just talking generalities. He is talking about the future, with some specifics. Let me just read to you. This is the exact language:

Mr. Mondale believes it is time to put in place a comprehensive cost containment program. Such a system must slow the increase in all health costs, not just the Federal Government's. The Federal Government should set an overall spending limit and leave States free to design their own strategies for reaching that limit. A realistic bargaining goal is to hold the rate of increase to that under the existing controls to approximately 10 percent per year overall. After the program is in place and functioning, steps to achieve additional savings may be appropriate.

Now, there are some specifics. I might conclude on this point. There is a proposal by Senator KENNEDY and Representative GEPHARDT that puts onto this general statement of Mr. Mondale, but it has some contours to it, exact legislation. So there is something rather specific proposed here.

Mr. WEBER. Mr. Speaker, if I may reclaim my time, I do not agree with the gentleman that that is very specific. What do we know? First of all, we are not debating a Kennedy or Gephardt proposal; we are debating the Mondale proposal. The Mondale proposal is simply to reduce spending on medicare and to tell the States to figure out how to do it.

What could that mean? That could mean rationing health care. It could mean anything that the States decide to do. That is about as unspecific a means of controlling costs in health care as I can imagine, and it leads one to wonder exactly who is going to pay the price of those reduced costs. Certainly Mr. Mondale is not going to tell us how. We are not going to find out until the 50 States implement their plans.

Let me yield at this point to my colleague from Pennsylvania, who sought recognition earlier.

Mr. WALKER. I thank the gentleman for yielding.

The only point that I wanted to make was that the gentleman is correct about the fact that there are elements of cost containment in the Mondale proposal, but it seems to me the gentleman needs to be very critical of what Walter Mondale said about the President the other night.

The President's plan was also announced as a cost containment proposal. Walter Mondale, in the debate the other night, criticized President Reagan for calling for medicare cuts, and yet what President Reagan had called for was attempts to contain costs in medicare, too.

Walter Mondale called those cuts. If it is fair for Walter Mondale to do it, then it seems to me it is fair for us to do it. If it is unfair for us to do it, then it is unfair for Walter Mondale to use that in what was one of the most telling points in the debate the other night. If the gentleman wants to write off Walter Mondale's point and say that Walter Mondale should apologize to the American people for utilizing that point, that makes a totally different case. But the gentleman cannot have it both ways.

Mr. WEBER. I yield to the gentleman from Michigan.

Mr. LEVIN of Michigan. We can go on endlessly, I suppose, but there is something contradictory about the gentleman from Minnesota to say that Mr. Mondale's plan is the only one we have, and then for the gentleman from Pennsylvania to say, "Ah, but the Reagan plan is also cost containment." It is contradictory.

Mr. WALKER. Mr. Speaker, will the gentleman yield?

Mr. WEBER. Let me yield to the gentleman from Pennsylvania.

Mr. WALKER. No. The gentleman from Pennsylvania is referring to the Reagan plan talked about by Mr. Mondale the other night. That Reagan plan has been turned down by the Congress, has been withdrawn, no longer exists. Mr. Reagan announced today that we were not going to touch social security, and so on, so the point we are making is that the only plan to cut medicare existing on the table today is Walter Mondale's deficit reduction plan. That is an absolutely true statement.

All I referring to is what Walter Mondale talked about in the debate the other night, and the gentleman says that he should not have referred to it that way, if I understand him correctly.

Mr. LEVIN of Michigan. If I could go on——

Mr. WEBER. I yield to the gentleman from Michigan.

Mr. LEVIN of Michigan. I appreciate that. Let me just mention the second point.

I do not have all the documents here that the gentleman is referring to and I only mention this in terms of the procedure we use for special orders, because I do not blame you, but we had no advance notice as to the subject matter of this special matter.

You talk about $1,800 as a cost for the taxpayer. That is not at all an accurate description of what Mr. Mondale has been proposing. I said it before and I will say it again, as to his estimate as to the impact of taxes for the family $25,000 and under, no increase; for the family $30,000, $95 a year; and the family $35,000 and above, $217 a year.

I am quite sure what you were referring to when you referred to the Secretary of the Treasury is his analysis of all of the proposals that he claims Mr. Mondale has made during the campaign. Mr. Mondale's campaign has refuted that statement.

Mr. WEBER. Mr. Speaker, if I can reclaim my time on that just for a minute, I have the documents here that were released by the Secretary of the Treasury, and he, by the way, does not say simply $1,800 a year. That is a minimum estimate of the cost of the Mondale tax program. His maximum estimate is $3,300 a year.

But let us go through some of them. I am not going to go through all of them.

The Mondale campaign specifically calls for "the repeal of the destructive Reagan changes in the AFDC program." According to a CBO study, requested by Speaker O'NEILL, that would cost $1.4 billion. That is one of the figures used by the Secretary of the Treasury.

Nutrition programs, Mondale says, "The program calls for restoring budget cuts in programs for the disadvantaged, child nutrition, and food stamps." That is a Mondale statement. Again, according to a Congressional Budget Office study requested by the Speaker, the minimum cost of that is $3.5 billion. That is another figure used by the Secretary of the Treasury.

We can go on and on and on. I am not going to suggest that every number in there is precisely accurate. I am just saying that the Secretary of the Treasury has done as honest a job of computing the cost of the Mondale program as anyone I have seen.

I just have to say that the American people, especially the ones who I have spent some time talking with, understand that it is not reasonable to listen to a politican propose a massive tax increase and then say in the next breath, "Oh, but none of you out there who vote are going to have to pay for it."

□ 1950

That is just not realistic. This is not a country that is full of rich people. This is basically a working class, middle-class country, and when politicians talk about massive tax increases, like Mr. Mondale is talking about, it is middle class, working class people, that are going to pay the freight.

Mr. LEVIN of Michigan. Mr. Speaker, if the gentleman would yield, I would like to go on to the third point if I might.

The document that the gentleman is talking about that I do not have a copy in front of me, I believe is an analysis of the Treasury Department, not a nonpartisan body.

Mr. WEBER. Reclaiming my time, it is an analysis done by the Treasury Department based largely on figures

computed by the Congressional Budget Office.

I yield to the gentleman from Michigan.

Mr. LEVIN of Michigan. Let me say that Mr. Mondale laid out his deficit reduction program and he limited his improvements in selected domestic programs to $30 billion and as part of the deficit reduction plan it would cut the deficit by two-thirds.

And for the gentleman to refer to an analysis that is an analysis of alleged statements that go way beyond the plan is not to analyze the plan.

Mr. WEBER. If I can yield to the gentleman from Pennsylvania on that point.

Mr. WALKER. Well, if the gentleman is correct then, what Walter Mondale has done in his deficit reduction plan is told all the special interest groups that he promised all these things too, in fact back in the primary campaign, that he was not telling them the truth, that in fact all the things that he promised them along the way are not things that he is really going to do.

You know, once again, you cannot have it both ways. If in fact Walter Mondale did not mean all those things that he said back during the primary campaign, then I think those groups have a right to know that he has no intention of doing all the spending that he originally had proposed to do.

I thank the gentleman for yielding.

Mr. LEVIN of Michigan. Mr. Speaker, will the gentleman yield further?

Mr. WEBER. I yield to the gentleman from Michigan.

Mr. LEVIN of Michigan. I will say my last on this point. Mr. Mondale has had the courage to lay out a proposal and in it he says, and I again quote, that in a prudent, selective way, he will add $30 billion to key programs that will enhance competitiveness and fairness in American life.

Let me go on if I might to the third point.

Mr. WEBER. If I can reclaim my time for a second, I see that our colleague, the illustrious gentleman from Louisiana [Mr. ROEMER] has come down from the chair. I would be proud to yield to the gentleman from Louisiana.

Mr. ROEMER. Mr. Speaker, I thank the gentleman. I want to compliment those who have participated for more than an hour in discussing the candidates' relative positions on the issues of the budget.

On the issue of taxes and taxes alone, it seems in this gentleman's opinion that Walter Mondale stands the strongest and the weakest, the strongest in the sense that he of the two candidates at least had a plan for the deficit. Walter Mondale of the two did not embrace the big budget myth, and that is that deficits do not matter. Deficits this big matter.

Walter Mondale is strong on this point.

Where he is weak is that he is placing his sole reliance on deficit reduction on taxes. I have been told, I have read and I cannot quote the source, I wish I could, that if we were to tax all income in America above $100,000 for the individual at a 100 percent marginal rate, in other words if we said every dollar you earn over $100,000 a year goes to Uncle Sam, it would raise less than $13 billion a year.

It takes no genius to look at these figures based on taxes and know that if we follow Mr. Mondale's plan, we are going to have to raise taxes on people who make over $100,000 a year, that is for certain; but that is not going to be enough. We are going to have to raise it on people who make $70,000, $60,000, $50,000, $40,000, $30,000, and $25,000 per family.

Now, maybe that is what we ought to do, and I have given Mr. Mondale credit for the courage of facing up to the deficit. It is a little bit embarrassing to see the President of the United States saying that the deficit is going to kind of float away, but it is also economically wrong, I think, one man's opinion, that we are going to tax our way to a balanced budget. We have not done it in this Nation's history. We are not going to do it in the next 4 years, either.

I thank the gentleman.

Mr. BROWN of Colorado. Mr. Speaker, will the gentleman yield?

Mr. WEBER. I yield to my colleague, the gentleman from Colorado.

Mr. BROWN of Colorado. Mr. Speaker, I would like to thank the gentleman from Minnesota.

I think the points that have been made here this evening are very important and apropos for what we are facing.

I might just observe with regard to the discussion of Medicare and the medicaid situation, I was disheartened to see the point in the debate where candidate Mondale suggested that there have been cuts in Medicare. The simple fact is that the funding for Medicare has risen and risen dramatically and risen every single year that the President has been in office.

When he suggested that it had been dropped, he was talking about various savings that have occurred in the program that made it not rise as fast as it would have, which is precisely what candidate Mondale is suggesting himself. What he criticized the President for was precisely what he is suggesting himself and the way he phrased it is directly inaccurate.

Now, there have been a number of points brought up tonight and I do not want to take a lot of time, but I would like if the gentleman would indulge me just to briefly talk about three points that I think are important.

Mr. WEBER. I would be glad to yield to the gentleman from Colorado, but I do then have to get back to our colleague, the gentleman from Michigan, who has a couple additional points to make, but I yield to the gentleman from Colorado.

Mr. BROWN of Colorado. I thank the gentleman.

I would like to direct attention to this chart here off to my right. This particular chart is nothing more than the Consumer Price Index. It is put out by the Federal Government figures. It is one that represents graphically the consumer price index, or inflation. What is shown are the years from 1977 when the Carter-Mondale team took office and the years through 1984, at least to date. What you see and read is the rate of inflation and the rate of inflation during those years grew dramatically from 6.5 percent up to 13.5 percent.

Now, I understand statistics sometimes can be dull, but what we are looking at here in this red ink is the cost in human lives of the impact of that inflation. Those represent homes that could not be purchased by working men and women. Those represent the cost of food and products the poor have to buy and need for their subsistance that rose out of sight. Those represent a compound rate of growth that put their hands into the pockets of the working men and women in this country.

What you see in the next 4 years is a dramatic drop by almost anyone's description of that rate from 13.5 down to 10.4, down to 6.1 and to 3.2, and right now this year what you are looking at is about a 4.1 percent, and that has been revised slightly higher in the last quarter; but I think by anyone's fair assessment, we have seen a sharp reversal of the trend with regard to inflation.

What that means is that the poor of this country have come out better. Now, why would I say that? Somewhere along the line we gathered the myth that it was good for the poor of this country to have big deficits because they will help out so much. The results of the big deficits are inflation and high interest rates. If you own a lot of property, inflation causes that property to go up in value. If you are poor and do not hold property, you gain nothing except higher costs; the point being that it is the wealthy of this country that benefit by inflation, not the poor.

Somehow our discussion of the issue has become mixed up, because it is the poor of this Nation that are penalized the most by inflation. The wealthy are the ones that are benefited by it. The high deficits that have been voted in the name of helping the poor in reality have done them in.

The fact is what we have done is the very cruelist thing we could do to those who have the least resources and helped out the ones in higher income tax brackets by those enormous deficits.

There is one other thing that I think is worth looking at. It is what happened to what we produce as working men and women in this country. During those Carter-Mondale years, we saw a leveling off of the sharp trend upward in GNP, a leveling off that was not reversed until the new policies of the new administration finally came into fold and that ended up showing a dramatic rise we see on the right.

Now, what the future holds I do not think any of us knows, but I will guarantee you this. Government at State and local and Federal levels all combined account for about 45 percent of our GNP. What we do in the Federal Government, which is not all of that, but what we do in the Federal Government matters. What we do with our spending budget and what we do with our deficits makes a difference. We can continue a better growth trend, I am convinced. The American people have tremendous potential, but they cannot do it if this Government adopts policies that discourage growth and opportunity.

□ 2000

Let us take a look at one last chart and that is one that I think is one of the most important charts. It is not one we talk about very much. But what it is is productivity, the rate of increase in our ability to produce and be productive in this country. That is the bottom line.

If we are going to complete in a world market we need to increase all our worker productivity. If we are going to sell products in competition with the Japanese, and the Taiwanese, and the European market we have got to become far more productive, and that is what our trade deficit is all about.

Take a look at what happened. During the Carter-Mondale years they were stagnant years, some years rising slightly, some years falling. But over that period they were stagnant.

But since the new administration has come into office, the Reagan administration, we have seen a sharp turnaround of our most important index, America's ability to produce effectively and competitively. No, we have not solved our problems. No, we have enormous problems. But at least we have seen a turnaround of the stagnant approach to the most important indicators, our productivity and the rate of increase that we have not seen in some time.

What is the point of all of this? The point of all of this is that if we want to make America more competitive, if we want more job opportunities, if we care about the poor and the working people of this country, we have got to find a way to make our country more competitive.

You ask any factory worker who works in an automobile plant or a packing plant or any other plant what makes his plant go and effective and competitive. He will tell you a couple of things: It is how hard he works and it is how hard the workers, the people who work with their hands and minds and bodies, it is how hard they work. It is the kind of equipment and tools they have to be competitive. It is how efficient their system is.

And one other factor that they will tell you about that management will not always tell you about. It is the overhead.

You cannot run an efficient, competitive factory, and that is what America is; if you are going to have a competitive America in the world market you cannot have far more overhead than your competitors. It is not a matter of being kind or good. It is not a matter of being mean or awful. It is a matter of competing. You cannot compete in a world market and that is what we are in, let us make no mistake about it; you cannot compete in a world market if you have too much overhead.

Now we have 45 percent of our entire gross national product that is in overhead. I would certainly claim that much of that is fine, is reasonable, is necessary, is essential. The point is that it does not go to good projects. It does, much of it, and some of it is waste, we know that, and we have been unable to cope with that.

But the point is we cannot have more than what we can bear and be competitive.

Now you get back to that worker in the factory because that is what America is. What do we need to do to make the factory go better?

One, we need an incentive for the working man or the working woman to produce, to work hard. You cannot have bad morale in that factory and outperform your competitors. You have to have an adequate payment and compensation.

How do you do that? For America as a whole when we talk about compensation you have to talk about taxes because taxes directly and indirectly take 45 percent, almost half of everything that man or woman produces. You cannot deny them or tax them.

The point of the debate is this: If you want to motivate that worker, increasing the taxes on working men and women is not going to motivate them. It is going to discourage them from working harder, because you penalize them for working hard, for working overtime. Anybody who doubts that has not worked an hourly job, and I will guarantee you that I have and I will guarantee you that many of my colleagues here have.

You talk to the people who have to work with their hands and ask them what it is like to work overtime when they sock you with Uncle Sam's big tax increase. You ask them if they want to work overtime when they get time and a half and they sock them with a big tax increase because they worked overtime.

What we are doing when we talk about a tax increase, a further tax increase, is to discourage American workers from being productive and working hard. Now that is a third of the factory and why it works.

Mr. ROEMER. Will the gentleman yield?

Mr. WEBER. Let me yield to my colleague from Louisiana.

Mr. ROEMER. I will keep it on that point. I wonder if either of my colleagues, in this case the gentleman from Colorado [Mr. BROWN] or the gentleman from Minnesota [Mr. WEBER] were as uncomfortable as I was Sunday night in watching the debate on the issue of the deficit.

We come from different parts of the world, same country, different parties, same Congress.

I wonder if you were as uncomfortable as I was as I watched two men, one the President and one an election away from being President, embrace such false premises on the major economic issue of our time.

Do you know what I heard Sunday night? I heard one man say the deficit is not important. I heard that same man say it will grow away. I heard that same man say we can cut enough spending out to balance the books, $200 billion a year, and I heard his opponent says we can tax our way to lower interest rates and prosperity.

Were either of you as uncomfortable as I?

Mr. WEBER. Let me just say first of all I think the gentleman makes a valid point. I do not agree with the statement that deficits do not matter. I do agree that deficits are not the only problem that we have right now in terms of interest rates or anything else.

However, I am more comfortable with the President's approach to the deficit. I do not agree he has no plan.

First of all I do not think that economic growth is simply rhetorical. I think economic growth is important. If we maintain a high rate of economic growth it will make it far easier for us to deal with the deficit, and I think that is a central issue in this campaign.

The President is talking about economic growth. Perhaps he is overestimating it. Perhaps he is relying too much on it. I do not know. But at least he is understanding the importance of

it, while Mr. Mondale seems to not understand the importance of it.

In addition to that, the President is talking about spending restraint. I will agree with the gentleman he could be more specific about it. But if you asked this gentleman how I would want to see the deficit problem solved, I would want to see it solved through an emphasis on economic growth and spending restraint, not tax increases.

So I would agree with the gentleman, I do not like to hear anybody say deficits do not matter. I wish we had very detailed programs from both of our candidates.

Mr. ROEMER. Would you yield to a question and not a statement?

Mr. WEBER. Surely I yield to my friend from the other end of the Mississippi River.

Mr. ROEMER. I thank you very much, brothers all.

Are you convinced in your personal experience that we will be able to reduce the deficit enough on a per annum basis over the next say half dozen years to bring interest rates down, worker productivity up, and unemployment at record low levels?

Do you think that spending cuts and growth alone with no tax reform, with no attempt, as our colleague from Michigan said, to get those who do not pay their fair share to do so, do you think we can do it with spending and growth alone?

Mr. WEBER. The gentleman has stated the question, though, a little bit differently because the gentleman talked about tax reform. I certainly would agree with the gentleman that we should see some tax reforms that would broaden the tax base.

I, for that matter, would agree with the gentleman from Michigan that we want some kind of a tax restructuring that will get the rich to pay more.

All I would say is I think that the way you accomplish that is 180 degrees different than the way Walter Mondale wants to. You accomplish that by reducing the premium for investment and tax shelters, which means you bring down the rates and simplify the structure.

I would agree with the gentleman from Louisiana that should be a part of our economic program, our approach to the deficit over the next few years. But the reason I say aside from that, if the gentleman were just talking about tax increases rather than a base broadening through simplification, I would say that we should not pursue that approach and the reason I say it, among others, is most economists who argue that we must reduce deficits, Milton Friedman notably among them, will also point out in the next breath if you do it through tax increases you are not going to achieve the result you want, which is a lowering of interest rates, because, again, as Milton Friedman points out, there is very little economic difference between borrowing money away from the private sector and taxing it away from the private sector.

So if our objective in deficit reduction is lower interest rates we ought to achieve it through growth and spending restraints and tax simplification, and not tax increases.

Mr. ROEMER. If the gentleman would yield on that point, let me remind him of the difference, if I could, Dr. Friedman notwithstanding, of borrowing the money and taxing the revenues.

The difference in this year's budget is about $120 billion. That is the interest on the national debt. The third largest item in the budget, Dr. Friedman notwithstanding, is the interest on the national debt.

Now, how would you or any President like to have $120 billion to invest in education, or highways, or a strong military or to help the poor, or to feed the hungry? Dr. Friedman notwithstanding, there is a difference between borrowing the money and taxing for it, and in this year's budget it is 120 billion bucks.

Mr. WEBER. That is a valuable point.

Mr. BROWN of Colorado. Will the gentleman yield?

Mr. WEBER. I yield to the gentleman from Colorado.

□ 2010

Mr. BROWN of Colorado. I thank the gentleman.

I think the key question at this point, and I think the gentleman from Louisiana [Mr. ROEMER] makes some excellent points and he might be surprised how much I agree with him, but I think the key point at this point is to ask ourselves how do we get this factory of America back producing? The first thing I think is to understand that we have got to motivate the people who do the work and turn out the goods. That is where taxes come in. The Mondale approach is higher taxes and what he is talking about is less incentive for people to work hard, be productive and work overtime. The second element of that factor is our ability to multiply the power and input of our efforts through the machinery and the plant and the equipment that we have that makes us far more productive than our competitors.

That second element is terribly important because we see new industry after new industry where we have not modernized our equipment, not modernized our tools and we are not competitive, not because our workers will not work hard, but because we have not made the investment in ourselves.

All you have to do is go to a foreign country that has not had the concern about protecting the fruits of someone's labor that America has and see what happens when you have a climate where the Government takes away from working people the fruits of their labor because they do not save.

The second element then is to have some rewards for savings. You have to have that if you are going to have that factory productive, not because you want to favor people who save, but because unless you provide some reward for saving, you are not going to be competitive and productive.

Now the third element, one is to reward the people who work and the other one is to have the proper capital to make the plant and tools and equipment to make them competitive; the third element is terribly important and it is one that this Government of ours is terribly deficient in, it is overhead. You simply cannot have the kind of overhead we make working men and women pay for in this country and be competitive. Now let us be specific because sometimes people talk about it in vague terms.

The elevator operators that run our elevators over in the Capitol Building, there is not anyone that can look you in the eye in this Chamber and say, tell you we need those. I know we joke about it and we debate about it, but the simple fact is that that is waste. Anyone who drives into the garage parking spot, and I am talking about the House of Representatives, does not need seven people to wave to him when they come in in the morning. I understand that it is nice to have people wave to you and smile at you and direct you to your parking lot, but nobody seriously believes that you need that. Even Congressmen learn where their parking spots are after a few visits.

Mr. WEBER. If I may reclaim my time from the gentleman from Colorado, I agree with the gentleman's point but I have, by my calculations, about 15 minutes remaining and the gentleman from Michigan has some points to make. I just wanted to make sure he has time. Does the gentleman from Michigan wish me to yield to him again? Because I realize I must give him time to conclude his points.

Mr. LEVIN of Michigan. Well, this is the gentleman's special order, and I do have some additional points I wanted to make, but the gentleman is controlling the time.

Mr. WEBER. Well, let me yield to the gentleman from Colorado to conclude, and then I will yield to the gentleman from Michigan.

Mr. BROWN of Colorado. I thank the gentleman for yielding. The gentleman has been very kind with his time.

I would just conclude with this: If we are talking about a recovery for America in getting our economic problems under control, we have got to talk about finding a way to provide in-

centives for working men and women, and a tax increase is the wrong way to do that. That is disincentive. If we are talking about a recovery for America we have go to find a way to encourage people to save and put aside so that we can have the plant, the tools and equipment to be competitive. And another tax increase is the wrong way to bring that about.

And the third thing is if we are talking about making America strong again and providing for its poor, we cannot afford the kind of overhead we have imposed on this country.

We can do it, but it takes a different kind of Congress than what we have had.

I thank the gentleman for yielding.

Mr. WEBER. I thank the gentleman from Colorado for his contribution.

Mr. Speaker, I yield to the gentleman from Michigan.

Mr. LEVIN of Michigan. I thank the gentleman. I appreciate that.

I wanted to go on to the other points that the gentleman mentioned. I only want to make clear, responding to my colleague from Louisiana, I think one implication of what he said is that any tax increase should be something as a last resort in any plan and I very much agree with that.

Any indication in his remarks that a tax increase is the only part of the Mondale plan I would respectfully say is incorrect.

There are many other components to it as I indicated in the plan itself.

If I might, may I go on briefly to the other points that the gentleman made? First of all the gentleman indicates and this really reiterates the dialog earlier, if there is an increase in taxation for very high income groups they will simply find another tax shelter, that eliminating one shelter will spawn another.

I just want to emphasize my belief that we cannot embrace that notion, that there are numerous unfair tax shelters and we in Congress are going to have to face up to it.

We need a simplified and fair tax system that eliminates many of these tax shelters, and I think it is grossly unfair to say, in criticism of the Mondale proposal, "Well, if you tax higher income groups more they will simply find another unfair way to reduce their taxes." That kind of fatalism I think is unwarranted.

Lastly, let me just say on indexing, so that the record is clear, I believe in the last discussion of this, and there has been about a half hour intervene, but I believe my recollection is correct there was a reference to repeal of indexing as the proposal of Mr. Mondale. I would like just to read it so it is clear that that is not his position.

My own position is I think indexing basically makes good sense. I have voted that way I believe in this House and it would take a dire emergency for me to consider its elimination.

Mr. Mondale's proposal is not very far from that really. Here is what he says, he is committed to the principal of indexing; however, reduction of the Reagan deficits requires that full indexing be deferred.

So in fairness to Mr. Mondale I think there has to be an acknowledgement he does not propose repeal. Under the Mondale plan families making $25,000 or less will receive the benefits of indexing; families above that level will be indexed only to the extent that inflation exceeds 4 percent. That is his proposal and whatever one thinks of it I also believe that, as the gentleman from Louisiana indicated, Mr. Mondale should be lauded for putting his economic cards on the table. And Mr. Reagan, the President, has not done so.

I think it was one of the flaws in his presentation during the debate. I think it has been one of the strengths of Mr. Mondale that he is telling it like he sees it.

Mr. Speaker, I appreciate the gentleman from Minnesota yielding to me.

Mr. WALKER. Mr. Speaker, will the gentleman yield to me?

Mr. WEBER. I yield to the gentleman from Pennsylvania.

Mr. WALKER. I thank the gentleman for yielding.

Mr. Speaker, I think a couple of points need to be made with regard to what the gentleman from Michigan told us about the Walter Mondale position on indexing. No. 1, it is obvious that Walter Mondale decided that people who earn $25,000 a year or more are rich and therefore should pay more taxes, and as inflation goes up, as we reinflate the economy under his policies, those people making $25,000 a year or more are going to get hit hard. Those people are the two-earner families for the most part, they are people who are struggling, young couples struggling to make it, they are the real income earners in the country at the present time.

Two young teachers, for instance, in Pennsylvaina both starting out making $12,500 a year apiece, they would be in the $25,000 category that would be eligible for Mr. Mondale's additional taxes.

So I think that that raises questions in and of itself. I think it is also important to understand that Walter Mondale did not qualify it the other evening in the debate. He said when he got his program going he was going to get rid of indexing.

So that he made it rather clear the other evening that while his plan may be very precise and they do not want to sound as though that is what they want to do, he was rather enthusiastic about eliminating indexing in the debate the other evening and the fact is that we have had a number of proposals come from House Democrats about budget proposals around here that have called for repeal of the 3rd year of the Reagan tax cuts which have included the elimination of indexing.

□ 2020

So there is a record of the Democratic Party to go along with Walter Mondale's proposals on the side of indexing.

Mr. WEBER. I thank the gentleman from Pennsylvania for his comments.

Mr. LEVIN of Michigan. Mr. Speaker, will the gentleman yield?

Mr. WEBER. I yield to the gentleman from Michigan.

Mr. LEVIN of Michigan. I thank the gentleman for yielding.

Just briefly, so that the record is clear. I do not think for a moment Mr. Mondale feels that families earning $30,000 are rich.

His proposal, as I have said before, would mean an increase in taxes for the family of $30,000 of $95 a year. There is going to have to be, everybody on this floor I think understands, some shared sacrifice in expenditures, in revenues, looking at all kinds of expenditures, if we are going to solve this deficit, if we really think it is serious.

In terms of the gentleman from Pennsylvania, if you look at the contect of Mr. Mondale's statement on Sunday at the debate, it would be clear that he does not favor repeal of indexing. If you look at his proposal he makes that clear and he reiterated that on Tuesday. So I do not think it is very constructive for us to continue to act as if Mr. Mondale has embraced repeal of indexing when he is opposed to it and has so stated it and clarified any indication to the contrary.

Mr. WEBER. Let me make some points here. Let me just repond to some points that the gentleman from Michigan made a few minutes ago.

First of all, the gentleman said that the Mondale plan is not simply tax increases, that there is more to his deficit reduction program than that. I simply dispute that. The fact of the matter is and the problem with the Mondale plan is that those reductions that the Mondale plan calls for all far outstripped by additional commitments that Mondale has made in terms of spending increases.

So, when you analyze the Mondale plan, you come up with a net spending increase. First of all, he calls for slowing the rate of growth of defense, but not cutting it. Still calling for defense increases. Then in addition, calls for massive new commitments in virtually every area of the domestic budget.

Now, when you have got a large deficit as we have now, and you call for spending increases, not spending increases, and then say you are going to

balance the budget, that does mean in essence that your deficit reduction plan is entirely tax increases. I believe that Mr. Mondale's plan is entirely tax increases and I think that is what the American people would get if they voted for him.

Second of all, the gentleman from Michigan made an interesting point talking about the question of tax shelters. I would agree with the statement that he made a minute ago that what we want is a tax simplification plan that would eliminate a lot of the loopholes, deductions, and exemptions, and credits that are used by wealthy individuals to avoid taxation today.

My point is that is not the plan that has been embraced by Mr. Mondale. There are plans like that and in fairness they exist on both sides of the aisle. There are some differences between them, but there is the Bradley-Gephardt plan on the Democratic side, the Kemp-Kasten plan on the Republican side, the Siljander plan. There are a lot of plans, but Mr. Mondale has not embraced those plans.

So I suggest that his plans are simply a reversion to the old soak-the-rich arguments is not going to soak the rich. It is just going to drive people into tax shelters.

Finally, the gentleman from Michigan has clarified Mr. Mondale's position on tax indexing. The gentleman from Pennsylvania properly pointed out that when he spoke in the debate the other night he just talked about eliminating it, but in fairness, the gentleman from Michgan says that he does not want to eliminate it, he wants to defer it and mainly for people who are earning more than $25,000 a year.

Even given all that, what does that say? That is saying that we are going to increase taxes on a large group of people without requiring their Representatives in Congress to vote for those tax increases. The only conceivable reason why you would want to raise revenues through the deferral of indexing is because you do not want to put Members of Congress on record voting for a tax increase. I think that that is one of the beauties of indexing is that it forces accountability onto this body, it forces Members of Congress who want higher taxes, regardless of who they are levied on, to vote for those higher taxes and then go back and justify it to their constitutents.

Mr. WALKER. If the gentleman would yield, the gentleman had made an excellent point and I just wanted to add one thing to it.

What comes out of the debate, regardless of whether Walter Mondale qualified it later on or what has been said, the fact is that President Reagan is clearly on record as favoring indexing period. Walter Mondale is on record as having reservations about indexing.

If the American people want to elect somebody who is going to assure that their middle incomes will be protected from inflationary increases in taxes, they have only one choice in this campaign and that is Ronald Reagan who has made it very clear that he is for tax indexing period.

I thank the gentleman again for yielding.

Mr. WEBER. I think the gentleman from Pennsylvania has made an excellent point.

Our time is almost up here. I would like to thank the gentleman from Pennsylvania for participating in this special order, as well as the gentleman from Michigan and the other gentlemen who participated in this special order.

The SPEAKER pro tempore. The gentleman from Minnesota has 9 minutes remaining.

Mr. WEBER. I am glad that I have 9 minutes remaining. I am not sure that I have 9 minutes worth of material left.

Mr. Speaker, I yield back the balance of my time.

A TRIBUTE TO HON. KATIE HALL

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California [Mr. DIXON] is recognized for 60 minutes.

Mr. DIXON. Mr. Speaker, it is with great pleasure that I rise to pay tribute to an outstanding legislator, a dedicated public servant and a good friend.

KATIE HALL is the first black elected to the U.S. House of Representative from the State of Indiana. She brought to this House a diligence and enthusiasm that was enlightening. An attentive and dynamic Member, KATIE was quick to learn and eager to initiate. As a freshman Member, she was appointed to chair the Post Office and Civil Service Subcommittee on Census and Population. A traditionally low-key post, as chair, KATIE was instrumental in driving through Congress one of the most significant pieces of legislation of this session, a bill to establish a national holiday in honor of Martin Luther King, Jr.

She came to the Congress after serving 2 years in the Indiana House and 4 years in the State senate. As a State legislator, she was successful in establishing that clarified the Indiana divorce laws by redefining marital property. KATIE also authored a bill speeding payments to those eligible under the State victim-of-crime law. KATIE HALL, while in the Indiana Legislature and in the U.S. House of Representatives has been an untiring warrior for the educational causes of our youth, the labor needs of our workers, and the civil rights of women and minorities.

While KATIE HALL's accomplishments in the State of Indiana are numerous, it is her work here in the 98th Congress that America will remember most. In addition to here relentless efforts to create a national holiday to honor the achievements and contributions of Dr. Martin Luther King, Jr., KATIE HALL also authored legislation in the Congress that established a Commission to plan appropriate ceremonies and activities throughout the country to commemorate the first King holiday in January 1986. A major objective of the Commission is to coordinate educational activities for the Nation's youth, in the hopes that they will better understand the magnitude of Martin Luther King's contributions to America.

Mr. Speaker, I will miss my colleague's charm, diligence, and dedication when the 99th Congress convenes. I wish KATIE HALL the very best and have truly enjoyed our close working relationship these past 3 years in the House of Representatives.

● Mr. FAUNTROY. Mr. Speaker, I am pleased to participate in this special order honoring our distinguished colleague, Congresswoman KATIE HALL, a leader for justice in the 98th Congress.

Congresswoman KATIE HALL provided leadership in this Congress for the most worthy of legislative initiatives.

She will be long honored for her work as the chairperson of the Census and Population Subcommittee of the Post Office and Civil Service Committee in the 15-year struggle to sponsor and pass legislation that gave our Nation a holiday to celebrate the life and contributions of Dr. Martin Luther King, Jr.

That Congresswoman KATIE HALL has been a champion for justice in this Congress should be no surprise to those who know her. Her political career is testimony to her leadership capacities. She was the first black and woman, outside the city of Indianapolis, to be elected to the State senate and general assembly; in 1980, she was the only black and woman to chair the Democratic State Convention. Congresswoman KATIE HALL was the first black person to serve as vice-chairperson of the Lake County Democratic Central Committee; and she was also the first black person elected to statewide office of the Indiana Democratic Party.

I have worked cooperatively and closely with my friend KATIE HALL, and have valued her assistance and counsel, and her efforts during this Congress.

I am pleased to report that Congresswoman KATIE HALL will not be leaving the struggle for justice in this country. She is a force in the newly established National Black Women's Political Caucus, an organization headed by a revered and able member in the

Black Leadership Family, Congresswoman Shirley Chisholm.

We will miss KATIE HALL and her many contributions to this body. However, I am encouraged by the knowledge that she will be running in the near future to regain her seat and join us once again in the Congress.

Thank you, Congresswoman KATIE HALL, for your past and future accomplishments.●

● Mr HAMILTON. Mr. Speaker, I am pleased to join my colleagues in paying tribute to Representative KATIE HALL, who has well served her country, her State, and her district in Congress.

Her activism on behalf of justice and equality dates from her first career as a teacher. During her years in the Indiana General Assembly and Senate, Ms. HALL was an ardent supporter of the equal rights amendment and took an active role in shaping legislation on labor, education and women's issues. She has taken a similar role in the House, and is noted for her work on behalf of the Martin Luther King, Jr., Holiday, and her advocacy on behalf of American steel.

Ms. HALL's appointment as a freshman Member to chair the Subcommittee on Census and Population is only one of her singular accomplishments. The first black woman to serve Indiana in Congress, Ms. HALL also made history by being the first black and the third woman to represent our State.

The Indiana delegation and the House will miss KATIE. She has been a good representative and a patriot. I would like to offer my appreciation for her efforts here, and wish her well in her future endeavors.●

● Mr. MITCHELL. Mr. Speaker, my friend and respected colleague, KATIE HALL, is going to leave Congress at the end of this year. This is a loss many of us will feel very deeply.

KATIE HALL became the first black woman to serve in the Indiana congressional delegation when she won a special election in November, 1982 to serve through the end of the 97th Congress and to represent the First Congressional District of Indiana during the 98th Congress.

Before coming to Congress, KATIE enjoyed a very active political career serving as both Indiana State Representative for one term and as State Senator from 1976 until her election to Congress in 1982. KATIE's terms in the Indiana General Assembly were highlighted by her sponsorship of Indiana's milestone legislation on compensation for victims of crime and rape victim assistance.

During her tenure in Congress, KATIE served on two committees, Public Works and Transportation, and Post Office and Civil Service, of which she chaired the Subcommittee on Census and Population. As chairwoman, she ably guided the Martin Luther King, Jr. birthday bill, which subsequently became public law, through her subcommittee—no small achievement for a first full-term Member.

As a Member of Congress, KATIE has displayed honesty, decency, and tenacity in her often unheralded efforts to represent her district. Not only has KATIE capably represented her district, but she has also served as a role model for black women in this country who aspire to become influential in not only the political arena, but any realm. The incumbency of Representative KATIE HALL will be remembered and with the help of her supporters, KATIE will once again join us in our struggle to provide a forum for the views of the minority community to be heard on Capitol Hill.●

● Mr. STOKES. Mr. Speaker, I would like to thank the gentleman from California [Mr. DIXON] and the gentleman from Indiana [Mr. SHARP] for reserving this special order so that Members can salute my colleague and good friend, Representative KATIE HALL. At the end of the 98th Congress, Mr. Speaker, KATIE HALL will leave the Congress and return to her native State of Indiana.

At this time, I would like to commend her for the exemplary job she has done in this Congress during the last 2½ years on behalf of the residents of the First Congressional District of Indiana.

My good friend, KATIE HALL, came to the Congress with a strong commitment to public service. She served one term in the Indiana State House of Representatives and in the State Senate from 1976 to 1982. During her tenure in the Indiana Legislature, Congresswoman HALL sponsored some of Indiana's milestone legislation on crime victim compensation and rape victim assistance.

Knowing of her impressive legislative track record, I was not surprised when Representative HALL came to the Congress ready to initiate some meaningful legislation. KATIE was appointed to the House Public Works and Transportation Committee and the House Post Office and Civil Service Committee. In April 1983, Mrs. HALL was elected as the chairperson of the House Census and Population Subcommittee.

Mr. Speaker, it was through this chairmanship that KATIE HALL made a profound imprint on this Congress and on America. Her efforts were pivotal in securing House passage of the bill honoring the late Dr. Martin Luther King, Jr. with a national holiday. Not only did KATIE HALL do the vital maneuvering to get the bill out of the committee but she also served as the floor manager for the bill.

Additionally, KATIE authored legislation which was subsequently enacted to establish a Commission to plan appropriate ceremonies and activities throughout the country to commemorate the first national King holiday in January 1986. A major objective of the Commission is to establish educational opportunities for school aged children so that they may better understand the magnitude of Dr. King's accomplishments and contributions in seeking a more equitable America.

Mr. Speaker, many Members have had long careers in the Congress. However, few have made the important kind of lasting mark on this body and the Nation like KATIE HALL has accomplished. I shall miss her leadership, her friendship, her energy, and her commitment to the people as she leaves the House of Representatives. I know that the people of the First Congressional District of Indiana are losing a good friend and a faithful public servant. Perhaps one day the people of Indiana will have the vision to return her to this body.

Again, Mr. Speaker, I thank my colleagues, Mr. DIXON and Mr. SHARP for reserving this time so that we can pay honor to this lady who in a very brief period of time made an indelible and lasting imprint on this body and this Nation.●

● Mr. BIAGGI. Mr. Speaker, at this time I would like to pay brief tribute to a very fine Member of this House, KATIE HALL. In her one term of service in the House, KATIE HALL contributed much not only for her constituents of the First District in Indiana but for the Nation as well.

For most of the 98th Congress KATIE HALL served with special distinction as chairman of the Subcommittee on Census and Population of the House Post Office and Civil Service Committee. There are few other subcommittees which produce more legislation that reaches the House floor each year for this subcommittee is responsible for the various commenorative resolutions that come before the House each year. I do not know the total number of these that have been passed in the 98th Congress, but I do know in the aggregate that they have had a great impact on the accomplishments of this Congress.

I recall one that KATIE managed on the House floor that I was proud to author. It designated August of 1983 as "National Child Support Enforcement Month." I was able to pass the House and then the Senate was signed into law by the President and provided a catalyst for later legislation now law to crack down on the nonpayment of child support.

KATIE HALL is a gracious lady—a genuine pleasure to work with these past 2 years. I wish her happiness and success in the future.●

● Mr. OWENS. Mr. Speaker, I rise to pay tribute to the gentlewoman from Indiana, Representative KATIE HALL,

whose years with us will be appreciated long after Congress adjourns.

In her first full term in Congress, KATIE HALL worked tirelessly for the creation of a legal public holiday honoring the late Rev. Martin Luther King, Jr. She adeptly managed the bill on the House floor, and helped push it through a very heated debate in the Senate. As a result of her work and leadership, our Nation will begin in 1986 to officically commemorate the life and leadership of Dr. King. KATIE HALL's accomplishment in helping this holiday come into being enables future generations of Americans to better recognize and consider those civil rights battles already fought, and those yet to be won.

Of course, KATIE HALL has also worked hard for her constituents. She has fought to reform the industrial and trade policies which have hurt the workers and industries of northwestern Indiana. As chairperson of the Post Office and Civil Service Subcommittee on the Census, she has been a friend to the poor who struggled to prevent the distortion of statistics on poverty and the impact of poverty programs.

I am sure KATIE HALL will continue to make her voice heard, and I hope that we hear from her before too long. Her clear and powerful advocacy will be sorely missed in this body. I join my colleagues in wishing her the best for the future.●

● Mr. WHEAT. Mr. Speaker, I take great pleasure in joining with my colleagues in paying tribute to a fine Member of Congress and a good friend of mine, KATIE HALL of Indiana.

Mr. Speaker, this Congress will sorely miss the presence of KATIE HALL. Although she has been a Member of this body for only 2 years, she has had a remarkable impact on national issues and public policy. In her role as chairwoman of the Post Office and Civil Service Subcommittee on Census and Population, for example, she led the fight against the misuse of poverty statistics to curtail spending for social welfare programs.

KATIE HALL was a driving force in the House of Representatives to pass legislation establishing a Federal holiday honoring Martin Luther King, Jr. In addition to being instrumental in the passage of this important legislation, she introduced and achieved passage of a bill to establish a commission to assist in observing the Martin Luther King holiday.

KATIE HALL has also been an advocate and fighter for the First Congressional District of Indiana. As the first black representative from Indiana and one of the few women elected to Congress, she had to overcome opposition from some segments of her constituency. KATIE HALL effectively used her position as a member of the Public Works and Transportation Committee to bring needed jobs and Federal projects to a district which had an unemployment rate of 24 percent at the height of the recession. She has also been a strong voice for assistance to the depressed steel industry, which holds the key to the economic well-being of the First District.

Mr. Speaker, we will also miss KATIE HALL for her stands on civil liberties and social justice. She has been a voice and leader in the fight for the equal rights amendment, help for low-income Americans, and fairness in social programs.

I have had the pleasure of working with KATIE as members of the freshman class and the Congressional Black Caucus. I know her knowledge, commitment, and experience have earned her the respect and admiration of her colleagues. I have been consistently impressed by her hard work and dedication on behalf of her district, State, and country.

Mr. Speaker, we have not heard the last of KATIE HALL. Her ability and determination will bring her success in her next endeavor. KATIE was a teacher before she entered politics, and she continued to teach us many important things here in Congress. I have no doubt that people will continue to learn from this outstanding woman in the future.●

● Mr. SHARP. Mr. Speaker, I am pleased to join my colleagues in recognizing the service of KATIE HALL to Indiana and to the Nation.

Congresswoman HALL had ably served in the Indiana General Assembly before coming to Congress. She has distinguished herself in many ways, but perhaps her most dramatic achievement was leading the fight to establish a national holiday in recognition of Martin Luther King.

At every turn, KATIE has worked to expand opportunities for the citizens of her district, and indeed of the country—opportunities for work, for education, for medical care, for a decent standard of living.

KATIE will be missed by many friends, but all wish her well and know that she will in the years ahead make many more contributions to the well-being of her fellow citizens.●

● Mrs. COLLINS. Mr. Speaker, it is with a great sense of pride and respect that I rise this morning to pay tribute to my dear friend and colleague, Congresswoman KATIE HALL. As the first black woman to serve in the Indiana congressional delegation, KATIE HALL has been a leader in passing progressive legislation and in assuming duties that few freshmen Members of Congress would have the energy to tackle.

Since her term in Congress she has taken a very active role in the workings of the two committees she serves on, the Committees on Public Works and Transportation and Post Office and Civil Service. In 1983 she assumed chairship of the Subcommittee on Census and Population. She will be remembered for her untiring efforts to pass legislation she introduced to establish the Martin Luther King, Jr., Federal Holiday Commission.

For the last 2 years KATIE has chaired the Black Caucus Women in Politics Braintrust.

Again, by her leadership, women from all over the country have come together to share their views on how women, black women in particular could take better advantage of their role in politics and work to increase their numbers on the State and Federal levels.

KATIE is an active member of the Congressional Steel Caucus, the Northeast Midwest Coalition and the Congressional Caucus for Women's Issues.

I know I echo my colleagues sentiments when I say that we will truly miss KATIE HALL. Although she has only been here a short time, we have come to depend upon her and look to her for leadership in many areas. It is really hard to believe that she will be leaving us.

But I know KATIE will not be taking everything with her. We have her friendship, and the Martin Luther King, Jr., legislation she fought so hard for to keep us company. We also have her guidance to rely upon even though she will not be physically present in the Congress.

For me and my colleagues, KATIE HALL will be just a phone call away.

We salute you, KATIE HALL, for being our colleague, always being wiling to share our burdens, and for your dedication and leadership in pursing important legislative initiatives. You have accomplished more in the short time you have been here than many Members have in longer terms. But then, we are not surprised at how you have distinguished yourself and stood out among your peers.

In closing, let me say that this is not the end or even good-eye. For I know that we will continue our ever ending dialog with you and work with you on issues of concern to the black community, women, and other under-represented people. You have lit a torch which we are prepared to carry. We thank you for being our colleague and our friend.●

● Mr. LELAND. Mr. Speaker, I rise today in appreciation of Hon. KATIE GREENE HALL, a fellow Democrat from Gary, IN.

KATIE HALL was sworn in as a Member of the 98th Congress in January 1983. By June of that same year, she was chair of the Subcommittee on Census and Population. This was a rare honor as few freshmen Members are ever accorded the distinguished privilege of chairing a subcommittee. I am proud to say that I served with her

on this subcommittee. As chair Mrs. HALL was required to make numerous appearances on the House floor on behalf of myriad pieces of legislation; she handled these occasions with poise and aplomb. Additionally, Mrs. HALL conducted extensive hearings focusing attention on the administration's appalling policies toward poverty in this country and worldwide, as well as oversight hearings on the Census Bureau and its counting methods.

As chair of the Subcommittee on Census and Population, Mrs. HALL's crowning achievement was accomplishing something that no one before her had been able to do: she saw to it that the much debated legislation to honor Dr. Martin Luther King, Jr., with a national holiday, became a reality and made a part of our national body of law. This bill is one of the high points of this entire session of Congress. In addition, Mrs. HALL spearheaded legislation creating a Commission to oversee the commemoration of the first Martin Luther King, Jr., Holiday in 1986.

As a black Member of Congress, your constituents are not just the people in your home district that you were elected to serve, but also 25 million underrepresented black people across the Nation. As a female Member of Congress, the majority of the population that is also female likewise becomes your constituent. In the role of Representative for both these groups—in addition to her primary duty to serve the people of the First Congressional District in Indiana—Mrs. HALL was called upon to advocate, encourage, challenge, and inspire others in her adopted constituencies. KATIE HALL has consistently answered the call with hard work, dedication, drive, and spirit.

The residents of the First Congressional District of Indiana and the Members of this Congress have had the benefit of KATIE HALL's talents for far too short a time. She leaves behind a record of service and accomplishments, as well as personal charm and warmth that will be missed. Mrs. HALL, as you leave this body, you have my respect, admiration, and best wishes as you go on to other endeavors.●

GENERAL LEAVE

Mr. DIXON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks, and to include extraneous material, on the subject of my special order.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

CONFERENCE REPORT ON H.R. 6027, LOCAL GOVERNMENT ANTITRUST ACT OF 1984

Mr. RODINO submitted the following conference report and statement on the bill (H.R. 6027) to clarify the application of the Federal antitrust laws to the official conduct of local governments:

CONFERENCE REPORT (H. REPT. NO. 98-1158)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 6027) to clarify the application of the Federal antitrust laws to the official conduct of local governments, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate to the text of the bill and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

This Act may be cited as the "Local Government Antitrust Act of 1984.".

SEC. 2. For purposes of this Act—

(1) the term "local government" means—

(A) a city, county, parish, town, township, village, or any other general function governmental unit established by State law, or

(B) a school district, sanitary district, or any other special function governmental unit established by State law in one or more States,

(2) the term "person" has the meaning given it in subsection (a) of the first section of the Clayton Act (15 U.S.C. 12(A)), but does not include any local government as defined in paragraph (1) of this section, and

(3) the term "State" has the meaning given it in section 4G(2) of the Clayton Act (15 U.S.C. 15g(2)).

SEC. 3. (a) No damages, interest on damages, costs, or attorney's fees may be recovered under section 4, 4A, or 4C of the Clayton Act (15 U.S.C. 15, 15a, or 15c) from any local government, or official or employee thereof acting in an official capacity.

(b) Subsection (a) shall not apply to cases commenced before the effective date of this Act unless the defendant establishes and the court determines, in light of all the circumstances, including the stage of litigation and the availability of alternative relief under the Clayton Act, that it would be inequitable not to apply this subsection to a pending case. In consideration of this section, existence of a jury verdict, district court judgment, or any stage of litigation subsequent thereto, shall be deemed to be prima facie evidence that subsection (a) shall not apply.

SEC. 4. (a) No damages, interest on damages, costs or attorney's fees may be recovered under section 4, 4A, or 4C of the Clayton Act (15 U.S.C. 15, 15a, or 15c) in any claim against a person based on any official action directed by a local government, or official or employee thereof acting in an official capacity.

(b) Subsection (a) shall not apply with respect to cases commenced before the effective date of this Act.

SEC. 5. Section 510 of the Department of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriation Act, 1985 (Public Law 98-411), is repealed.

SEC. 6. This Act shall take effect 30 days before the date of the enactment of this Act.

And the Senate agree to the same.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 6027) to clarify the application of the Federal antitrust laws to the offical conduct of local governments, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment to the text of the bill struck out all of the House bill after the enacting clause and inserted a substitute text.

The House recedes from its disagreement to the amendment of the Senate with an amendment which is a substitute for the House bill and the Senate amendment. The difference between the House bill, the Senate amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

STATEMENT OF MANAGERS

In referring in section 4 to the application of the antitrust laws to the conduct of non-governmental parties directed by a local government, the conferees borrowed the phrase "official action directed by" a local government from *Parker* v. *Brown*, 317 U.S. 341, 351 (1943); and the conferees intend that *Parker* and subsequent cases interpreting it shall apply by analogy to the conduct of a local government in directing the actions of non-governmental parties, as if the local government were a state.

The application to pending cases of the money damage protection afforded by section 3 will be based upon a case-by-case determination by the district court. The local government has the burden of proof to establish to the court's satisfaction that it would be inequitable not to apply this act to the pending case. The court is to consider all relevant circumstances. The statute mentions two of the factors that the court should consider—stage of the litigation and the availability of alternative relief under the Clayton Act. Where a pending case is in an early stage of litigation and where injunctive relief can remedy the problem, the defendant local government may be able more easily to sustain its burden. Where a case is in more advanced stages of litigation or where injunctive relief is unavailable or incomplete, the burden would become more

31-059 O-87-37 (Pt. 22)

difficult. If a case has progressed to or beyond a jury verdict or district court judgment, a local government defendant would need compelling equities on its side to justify the application of this section to the pending case.

ELECTRIC CONSUMERS' RAILROAD ANTIMONOPOLY ACT

(Mr. SEIBERLING asked and was given permission to extend his remarks at this point in the RECORD and to include extraneous matter.)

● Mr. SEIBERLING. Mr. Speaker, the Subcommittee on Monopolies and Commercial Law recently heard testimony on legislation I introduced, H.R. 4559, which would protect shippers and consumers against monopolistic freight rates. This legislation would help achieve a greater measure of competition in the railroad freight industry and thus give consumers relief from the unreasonably high costs of hauling coal and other bulk products.

H.R. 4559 addresses a serious flaw in the antitrust laws that may have developed as the result of deregulation of rail rates. In 1980, Congress passed the Staggers Rail Act to free the railroads from restrictive regulations which had hampered their ability to earn a profit. But they also intended this act to provide regulatory protection to captive shippers—those shippers who must move their product by railroad, but because of their location in areas served by only one carrier, are unable to choose from among competing carrier services and rates.

Congress thought the act would stabilize rates at reasonable levels where there was competition and, through ICC regulations, keep costs from getting out of hand where railroads have a monopoly. However, that has not happened. Where there is an absence of effective competition, there also appears to be an absence of regulatory protection.

Of particular concerns are costs for hauling coal. Over half of the electric energy in the United States is generated using coal, the majority of which is transported to utilities under noncompetitive conditions by one railroad. The ICC has proposed a system of nationwide rates for hauling coal which could double the present already high rates within 5 years. As a result, many millions of electric consumers will incur unjustifiably high electricity rates.

Mr. Speaker, the testimony presented to the subcommittee by representatives of the railroad industry, producers, and utilities, has reinforced my commitment to this legislation. I look forward to further hearings and increased efforts toward passage of H.R. 4559 during the 98th Congress.●

THE INDEPENDENT PRODUCERS EXPECT NO 'FLY-UP' IN NATURAL GAS PRICES, STUDY SHOWS

(Mr. BRYANT asked and was given permission to extend his remarks at this point in the RECORD and to include extraneous matters.)

● Mr. BRYANT. Mr. Speaker, last week Frank Pitts, chairman of Pitts Energy Group of Dallas released a survey of almost 1,000 independent natural gas producers which demonstrates that there will be no significant increase in the cost of new natural gas when wellhead prices are decontrolled January 1, 1985. The study, commissioned by the Pitts Energy Group, headed by Mr. Pitts, was done by I.M. Olsen & Associates.

Of 982 respondents, an overwhelming 98 percent said they expected no increase in wellhead prices for new gas under decontrol while 81 percent responded that their new-gas prices has either remained stable or declined over the past 18 months. In addition, 71 percent of respondents reported that they are not now receiving the contracted price for their product and 44 percent state that they have voluntarily renegotiated their contracts with pipeline customers.

These 982 respondents account for 70 percent of the natural gas produced in this country in 1983, 11.261 trillion cubic feet [TCF].

This survey of producers was prompted by the release last April of an in-house interstate pipeline study which concluded that natural gas prices would automatically rise—or "fly-up"—9 to 12 percent above inflation when partial decontrol of prices becomes effective after January 1, 1985. Mr. Pitts wished to test the validity of the pipelines' conclusion. I commend him for his initiative.

Since one of the arguments used by supporters of natural gas recontrol and rollback of wellhead prices was the pipeline study, it pleases me to bring to my colleagues' attention an independent survey of natural gas producers which demonstrates that prices will not "fly-up." Market forces are working to bring down wellhead prices, as has been the case for the past 18 months. This decline—or at least price stabilization—is expected to continue into the immediate future as new gas prices are decontrolled under the provisions of the Natural Gas Policy Act.

I commend this study to my colleagues for consideration. I would hope that you reach the same conclusion I reached—that the Natural Gas Policy Act phase in of price decontrols for new gas should not be tampered with by a rush to recontrol in the next Congress.

POLICY ANALYSIS OF CURRENT AND FUTURE NATURAL GAS PRICES UNDER THE NGPA
(Prepared by I.M. Olson & Associates, Alexandria, VA)

(Control Data Corporation (CDC), under contract with I.M. Olson & Associates, administered the survey and statistical data processing used for this analysis.)

EXECUTIVE SUMMARY

A recent survey conducted by I.M. Olson and Associates (IMOA), energy economists, provides significant evidence that wellhead prices for New Natural Gas [1] have declined over the last 18 month period and are continuing to do so.

Seventy-one percent (71%) of the natural gas producers, which responded to a survey question regarding contract prices for their New Gas, reported that they are not receiving their full contract prices for such gas.

The survey provides new evidence that New Natural Gas prices are likely to continue to decline following decontrol of New Natural Gas prices on January 1, 1985.

This survey was conducted in the summer of 1984 by energy economists I.M. Olson and Associates (IMOA).[2] The 982 respondents to the survey produced, in the aggregate, an estimated 11.261 trillion cubic feet of natural gas per year or 70% of the 15.972 trillion cubic feet produced domestically in 1983.

The survey sought responses to two important questions:

Is the current marketplace causing producers and purchasers of New Natural Gas to renegotiate or adjust contracts downward? and;

Will there be a "fly-up" in prices of New Gas following decontrol on January 1, 1985?

Eighty-one percent (81%) of the natural gas producers which responded to a survey question regarding their average wellhead price for New Gas during the last 18 months, reported that such price had either decreased (61%) or remained unchanged (20%) during that period. Respondents experiencing such average price decreases identified the following as the four most significant contributing causes for such price decreases:

1. Contractual market-outs by pipelines, (56%);
2. The effect of new contracts at lower current prices, (48%);
3. Voluntary, mutual contract renegotiation, (44%); and
4. Claimed force majeure by pipelines, (21%).

The results of this survey demonstrate that:

1. Wellhead prices for New Gas have been falling over the past 18 months;

[1] For purposes of the survey, New Gas was defined as gas from wells that have been or will be decontrolled on January 1, 1985, under the NGPA.

[2] Control Data Corporation, under contract with I.M. Olson and Associates, administered the survey and statistical data processing required for the ensuing analysis.

2. Market conditions have caused renegotiation of many gas contracts; and

3. Indefinite price escalator clauses will not cause a fly-up of New Gas prices on January 1, 1985.

Supporting the conclusion that indefinite price escalator clauses in contracts will not cause a fly-up of New Gas prices on January 1, 1985, is the fact that 98% of the respondents reporting on the survey fly-up question stated that the scheduled decontrol under the NGPA will not trigger a price fly-up in their New Gas Prices.

ACKNOWLEDGMENTS

The research economists who prepared this report hereby express their appreciation to the over one thousand (1,000) companies and producers who took the time to answer this survey.

Abstract

A recent survey of natural gas producers indicates that;

New Gas prices have been declining over the past 18 months and may be expected to continue to decline in the immediate future;

Market forces are setting current New Gas prices at levels less than those provided in many contracts and less than applicable NGPA ceiling price levels;

Gas purchase contracts are being renegotiated and/or new contracts are being entered into by a large majority of natural gas producers; and

Market-out clauses in a large proportion of gas purchase contracts have been effective at reducing contract prices for New Gas.

Responses to the survey demonstrate that market forces have brought about renegotiation of substanial numbers of gas purchase contracts, modification of take-or-pay obligations and reductions in wellhead natural gas prices. The survey indicates that these same market forces are anticipated to result in a continued decrease in New Gas prices following decontrol of New Gas prices on January 1, 1985.

I. INTRODUCTION

Based upon an in-house study performed in 1983 of some of its members, an interstate pipeline group predicted in a report released in April 1984, that natural gas prices will automatically rise (fly-up) by 9-12% above inflation when partial decontrol occurs on January 1, 1985, under the Natural Gas Policy Act of 1978 (NGPA), To investigate the potential for such a fly-up, I.M. Olson & Associates (IMOA), research economists in the field of energy, was requested to perform a survey of natural gas producers on this current issue. In the summer of 1984, Control Data Corporation (CDC), under contract with IMOA, administered the survey and performed the statistical data processing required for the ensuing analysis. CDC has exclusive access to the questionnaires and their answers, and the responsibility for the final disposal shredding of these documents.

The survey questionnaires were mailed by CDC to all the independent producers listed in various state directories, and to all major producers listed in various reference sources (Appendix A). The answers to the survey questions were entered into a data base. The Statistical Package for the Social Sciences (SPSS) was employed by CDC to produce the cross-tabulations and frequency distributions of the data.

Background

Recent natural gas history.—Following enactment of the NGPA, there was a rapid improvement in the supply of gas in response to higher prices under it. By 1983 supplies exceeded demand. Although consumer prices continued to go up in real dollar terms for a period after demand was met, the price paid to producers soon began dropping. Nevertheless, some interstate pipelines and consumer organizations remain concerned about the effects of certain provisions in many contracts.

II. SURVEY'S SCOPE

A. The survey.—The questionnaire was prepared to address primarily three questions relevant to the price of natural gas in today's market.

1. Are the prices at the wellhead for natural gas increasing, declining, or remaining the same?

2. Have a significant number of producers and natural gas purchasers renegotiated or adjusted the terms of purchase contracts to reflect current market conditions?

3. Will indefinite price escalator clauses (IPEC's) in contracts operate to cause a fly-up of some "New Gas" prices on January 1, 1985? (For purposes of the survey, New Gas is defined as gas from wells that has been decontrolled or will be decontrolled on January 1, 1985 under the NGPA.)

B. Survey response.—Questionnaires were returned by 1,144 producers and companies. Of these, 982 were complete, valid and were used in the analysis of the survey. Collectively, these 982 survey respondents produced 70% of the 15.972 trillion cubic feet (TCF) of natural gas produced domestically in 1983, or an estimated 11.261 TCF. The respondents divide into two groups: 935 small producers producing 0-100 million cubic feet per day (MMCF/D) and 47 large gas producers who produce 101 MMCF/D or more. The small producers produced, collectively, an estimated 20252 TCF or 20% of the total produced by the survey respondents, while the large producers accounted for 9.009 TCF, or 80% of the total produced by the survey respondents.

III. SURVEY RESULTS (ANALYSIS)

A. Chief findings and conclusions.—The aggregate findings and conclusions from the survey are that the market place . . .

1. Is setting the wellhead price of natural gas below contract and NGPA maximums;

2. Is limiting the operation of certain contractual clauses;

3. Will prevent a fly-up of 9-12% above inflation in the price of New Gas on January 1, 1985, despite IPEC's;

4. Has encouraged producers and purchasers to renegotiate contracts or to enter into new contracts; and

5. Has caused prices for New Gas to decline over the last 18 months.

B. Current gas prices are below contract and NGPA maximum levels.—Current market conditions and gas price trends are valuable in projecting gas price effects of the partial decontrol currently scheduled for January 1, 1985, under the NGPA.

Results of the survey response indicate that market conditions have reduced gas prices to less than the levels provided in gas purchase contracts and the applicable NGPA ceiling prices.

Seventy-one percent (71%) of the respondents, which answered a survey question regarding contract prices for their New Gas, reported that they are not currently receiving the contract price provided for all of their New Gas. They account for 9.182 TCF, or approximately 82% of the respondents' total production of 11.261 TCF. (See Appendix B, Table 1 for details by producer volume).

Of the remaining 29%, nearly half have some contracts which call for prices below the maximum lawful price.

For those respondents who are currently receiving less than the full price provided for under their gas purchase contracts, the average amount of New Gas which is selling for less than the maximum is 66%. This average is a median, which is to say that half the respondents are selling 66% or more of their gas for less than their contract maximum (Table 1).

TABLE 1.—PRICE REDUCTION ON NEW GAS

[In percent]

	The reporting producers that are receiving less than their maximum contract price for their new gas, and who produced these volumes:				
	All small 0–100 MMCFD	Large producers (101–3,000 MMCFD)			All producers
		All large	101–500 MMCFD	501–3,000 MMCFD	
Are, on the average receiving a lower price for this percent of their new gas [1]	70	50	50	50	66
Total number respondents	607	36	23	13	643

[1] This is a median average, that is, one-half of all respondents are receiving a lower price for 66 percent or more of their gas.

Note.—Number of missing observations = 24.

The respondents stressed in written comments that market forces have acted to lower prices toward market clearing levels.

Ninety-five percent (95%) of those respondents receiving less than full contract prices cited market forces as the cause for the lesser prices (Table 2).

TABLE 2.—MARKET FORCES AND PRICE

[In percent]

	This percent of producers not receiving maximum contract price for new gas and who produced this volume:		
	Small 0–100 MMCFD	Large 101–3,000 MMCFD	All
Believe market forces contributed to the lower prices	95	97	95
Total number respondents	614	39	653

Note.—Number of missing observations = 14.

C. Average Wellhead Prices Have Declined.—Eighty-one percent (81%) of the natural gas producers, which responded to a survey question regarding their average wellhead price for New Gas during the last 18 months, reported that such price had either decreased (61%) or remained unchanged (20%) during that period. These respondents account for 7.866 TCF of all kinds of gas, or 70% of the 11.261 TCF produced by the respondents to the survey.

The size of the producer did not seem to influence the result. The contract price for New Gas over the past 18 months decreased for 66% of the large producer respondents and 61% of the small producer respondents. Prices were unchanged for 19% and 20% of the respondents, respectively. Only 15% of the large and 19% of the small producers experienced increases. In view of renegotiation of old contracts, negotiation of new contracts and market-outs, it is evident that contract terms are flexible and sensitive to market forces. Similar experiences of both groups confirm the effect of market forces

on gas prices. (See Appendix B, Table 2 for details by producer volume.)

Respondents experiencing a price decrease for New Gas during the last 18 months designated the following as the four most significant actions which contributed to the price decline:

1. Contractual market-outs by pipelines, (56%);
2. The effect of new contracts at current market prices, (48%);
3. Voluntary, mutual contract renegotiation, (44%); and
4. Claimed force majeure, (21%).

TABLE 3.—PRICE DECREASE ACTIONS

[In percent]

	This percent whose average wellhead price for new gas decreased in the past 18 months and who produced these volumes:				
	All small 0–100 MMCFD	Large producers (101–3,000 MMCFD)			All producers
		All large	101–500 MMCFD	501–3,000 MMCFD	
Say these actions have contributed to the decrease in price:					
Voluntary, mutual contract renegotiation or agreement	42	62	68	53	44
New contracts at lower prices	47	60	50	73	48
Contractual market-outs	55	84	82	87	56
Claimed force majeure	22	11	9	13	21
Other (mainly reports of unilateral actions by purchasers and variations of the above actions)	8	11	5	20	8
Total number respondents	544	37	22	15	581

Note.—Number of missing observations = 13.

D. Take-or-pay provisions have been subject to market forces.—The survey indicates that current market forces have rendered inoperative take-or-pay (T-O-P) provisions in many contracts. Even where contracts still contain T-O-P provisions, many respondents reported that pipelines will not honor them. In other instances, respondents report that state laws governing ratable takes have worked to render T-O-P provisions meaningless. All in all, 86% of the respondents who have T-O-P contracts and have been asked for relief, reported that they have reduced their T-O-P levels or their price in most or at least some cases. Thirty-nine percent (39%) made voluntary reductions in T-O-P levels in most of the instances where requested to do so, and an additional 15% made such reductions in a few cases. Moreover, 13% of the respondents reported having agreed to price reductions in order to maintain contractual T-O-P levels. Nineteen percent (19%) cited, in written comments, various other actions, particularly actions of purchasers, which have resulted in reductions in T-O-P levels and/or prices. (See Table 4 for details by producer volume).

TABLE 4.—TAKE-OR-PAY ACTIONS

[In percent]

	This percent who have T-O-P contracts and have been asked for relief and produced this volume:				
	All small 0–100 MMCFD	Large producers (101–3000 MMCFD)			All producers
		All large	101–500 MMCFD	501–3000 MMCFD	
Have taken this action:					
Have reduced T-O-P	54	59	57	63	54
In most cases	40	34	36	31	39
In a few cases	14	25	21	31	15
Kept T-O-P levels the same but reduced price	13	5	4	6	13
Other (mainly T-O-P or price reductions and of actions by purchasers—see comments in appendix B, table 3)	19	22	21	24	19
Total voluntary/involuntary actions leading to adjustments	86	86	82	94	86
No reduction of T-O-P and price remains the same	13	9	11	6	13
No T-O-P or T-O-P problems	1	5	7		1
Total number respondents	658	44	28	16	702

E. No gas price fly-up on January 1, 1985.—The results of this survey show that producers do not expect indefinite price escalator clauses in their contracts to cause their gas prices to automatically fly-up by 9–12% above inflation on January 1, 1985. Over 98% of the respondents answering the survey fly-up question stated there would be no such fly-up in their prices. In light of recent price declines, many respondents commented that they expect no increase at all, and some even predicted a slight decrease on January 1, 1985. (See Table 5).

TABLE 5.—"FLY-UP OF 9–12% IN YOUR GAS PRICES ON JANUARY 1, 1985?

[In percent]

	This percent of reporting producers with IPEC's [1] in their contracts and that produced these volumes:				
	All small 0–100 MMCFD	Large producers (100–3,000 MMCFD)			All producers
		All large	101–500 MMCFD	501–3,000 MMCFD	
Answer:					
No [2]	98	98	100	94	[2] 98
Yes	2	2			2
Total number respondents	891	47	30	17	938
[1] IPEC's are Indefinite Price Escalator Clauses in Gas Purchase Contracts. [2] Total trillion cubic feet per year represented by "Noes" (TCFY)	2.177	8.667	2.141	6.526	10.844

Note.—Number of missing observations = 44 or .024 TCF.

IV. CONCLUSIONS

Ninety-eight percent (98%) of the respondents answering the survey fly-up question stated that scheduled decontrol under the NGPA on January 1, 1985, will not trigger a price fly-up in their prices. The responses to virtually all of the survey questions support this conclusion:

1. Seventy-one percent (71%) of the responding producers stated they are not currently receiving the maximum price provided for under their gas purchase contracts for all their New Gas. On the average they are receiving lower prices on 66% of their New Gas.

2. Ninety-five percent (95%) of the responding producers which reported receiving less than the contractual maximum price for their gas stated that market forces contributed to the lower prices.

3. Only 16% of the responding producers are currently receiving the NGPA maximum lawful price for all of their New Gas.

4. Eighty-one percent (81%) of the responding producers stated that their average wellhead gas price for New Gas had either decreased (61%) or remained static (20%) during the last 18 months.

5. Over 80% who have T-O-P contracts have reduced their take-or-pay levels or their price in most or at least some cases.

The above responses indicate that, in light of the operation of market forces, decontrol of New Gas will have no serious price consequences.

APPENDIX B

TABLE 1.—MAXIMUM CONTRACT AND NGPA POSTED PRICES

[In percent]

	This percent of reporting producers that produced these volumes of natural gas in 1983:				
	All small 0–100 MMCFD	Large producers (101–3,000 MMCFD)			All producers
		All large	101–500 MMCFD	501–3,000 MMCFD	
Are not receiving maximum contract price for their new gas	71	74	69	82	71 (a)

TABLE 1.—MAXIMUM CONTRACT AND NGPA POSTED PRICES—Continued

[In percent]

	This percent of reporting producers that produced these volumes of natural gas in 1983:				
	All small 0–100 MMCFD	Large producers (101–3,000 MMCFD)			All pro-cucers
		All large	101–500 MMCFD	501–3,000 MMCFD	
Are receiving maximum contract price	29	26	31	18	29 (c)
But are not receiving NGPA maximum allowed posted price	13	11	7	9	13 (b)
Are receiving NGPA maximum	16	15	24	9	16 (d)
Total percent not receiving NGPA maximum price	84	85	76	91	84
Total number respondents	892	46	29	17	938

(a) This group produces 9.182 TCF, or 82 percent of reported survey volume.
(b) This group produces 0.795 TCF, or 7 percent of reported survey volume.
(c) This group produces 1.995 TCF, or 18 percent of reported survey volume.
(d) This group produces 1.2 TCF, or 11 percent of reported survey volume.
Note.—Number of missing observations equal 44 or .084 TCF.

TABLE 2.—PRICES—SINCE JANUARY 1, 1983

[In percent]

	This percent of reporting producers that produced these volumes of natural gas in 1983:				
	All small 0–100 MMCFD	Large producers (101–3,000 MMCFD)			All produc-ers
		All large	101–500 MMCFD	501–3,000 MMCFD	
Report their wellhead price for new gas over the past 18 months:					
Decreased	61	66	63	71	61
Remained the same	20	19	20	18	20
Decreased or remained the same	81	85	83	88	81
Increased	19	15	17	12	19
Total number respondents	901	47	30	17	948

Note.—Number of missing observations equal 34.

TABLE 3.—SUMMARY AND CONDENSATION OF "OTHER" WRITTEN RESPONSES VOLUNTEERED ON QUESTION OF ACTIONS TAKEN ON "TAKE-OR-PAY" REQUESTS FOR RELIEF [1]

This percent of written responses:	Say:
48	T-O-P clauses are not being honored; we have no choice but to take cuts in T-O-P or prices, or both.
24	We settled by compromise; we are still negotiating; we are considering lawsuits; we are using T-O-P as a bargaining chip.
15	Our gas has been "shut-in," or purchaser has threatened to "shut-in"; or is using "force majeure" to repair pipeline, etc.
8	State production curtailments, set-asides and special marketing programs have been imposed.
5	We have no T-O-P's in contracts or no T-O-P problems.

[1] Based on written responses analyzed in the first 503 of 982 questionnaires received that provide the data base for the survey.

[From the Wall Street Journal, Oct. 10, 1984]

NATURAL GAS "FLY-DOWN"?

"Consumer advocates," such as the Citizen-Labor Energy Coalition, along with some congressmen, have been warning lately of a natural-gas-price "fly-up" come Jan. 1. That's when federal price controls are due to be removed from about half the natural gas now being produced. But the betting among people who know the industry best, that is, the natural-gas producers themselves, is that natural-gas prices will behave pretty much the way oil-product prices behaved after decontrol.

Not only don't producers expect a price increase, they see a continued declining trend in wellhead prices for deregulated "new" gas into next year due to more fierce competition. "The market is working," said Frank Pitts, head of the Pitts Energy Group of Dallas, who commissioned an independent survey of gas producers that seems to prove his point.

The 982 producers surveyed account for about 70% of all the gas produced in the U.S. An overwhelming 98% said they foresee no increase in their prices after decontrol. In fact, 81% of the producers said their prices had remained unchanged or had declined over the last year and a half, and 71% said they aren't even now receiving the full contract price for their "new" gas allowed under current federal regulations.

The recent price trends for natural gas demonstrate how misguided federal energy controls were. The Carter administration's Natural Gas Policy Act (NGPA), for instance, encouraged the production of the most expensive types of gas while relatively cheap gas was left shut in due to the economic disincentives of the legislation. As a result, natural-gas producers and consumers both suffered.

The partial lifting of the NGPA controls Jan. 1 isn't the end of an era, unfortunately. So-called "old" gas, amounting to about half the nation's ouput, will remain under federal regulations. Moreover, power plants and industry still face federal restrictions on their consumption of natural gas under the Fuel Use Act, passed in the late 1970s at a time when the "limits-to-growth" zealots insisted that we were "running out" of gas. This means that there is less opportunity to sell to these customers on an interruptible basis to help keep pipeline throughput at efficient levels. And Congress has yet to take steps to make gas pipelines common carriers, which also would expand opportunities for maximum pipeline throughput, reduce overhead costs and thus offer opportunities—assuming sufficient competitive pressure throughout the energy market—for lower gas prices for household consumers.

After the November elections and the partial gas decontrol in January, perhaps Congress will finally become disabused of the false notion that federal energy regulations somehow help consumers. Indeed, if the next administration and a new Congress are concerned about the welfare of consumers and the economy as a whole, they will move quickly to get the federal government out of the natural-gas business altogether.●

RECESS

The SPEAKER pro tempore. Pursuant to the order of the House of Tuesday, October 9, 1984, the Chair declares the House in recess subject to the call of the Chair.

The bells will be rung 15 minutes before the House convenes.

Accordingly (at 8 o'clock and 29 minutes p.m.), the House stood in recess subject to the call of the Chair.

AFTER RECESS

The recess having expired, the House was called to order by the Speaker at 10 o'clock and 30 minutes p.m.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate had passed a bill of the following title, in which the concurrence of the House is requested:

S. 1291. An act to authorize appropriations to the Nuclear Regulatory Commission in accordance with section 261 of the Atomic Energy Act of 1954, and section 305 of the Energy Reorganization Act of 1974.

CONFERENCE REPORT ON HOUSE JOINT RESOLUTION 648, CONTINUING APPROPRIATIONS, 1985

Mr. WHITTEN submitted the following conference report and statement on the joint resolution (H.J. Res. 648) making continuing appropriations for the fiscal year 1985, and for other purposes:

CONFERENCE REPORT (H. REPT. No. 98-1159)

The Committee of Conference on the disagreeing votes of the two Houses on the amendments of the Senate to the joint resolution (H.J. Res. 648) "making continuing appropriations for the fiscal year 1985, and for other purposes," having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendments numbered 1, 5, 6, 7, 8, 9, 10, 11, 12, 13, 15, 16, 17, 20, 27, 28, 29, 30, 31, 33, 34, 35, 36, 44, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 70, 71, 72, 75, 77, 95, 96, 104, 111, 112, 113, 114, 115, 117, 120, and 123.

That the House recede from its disagreement to the amendments of the Senate numbered 2, 22, 24, 39, 40, 41, 42, 43, 46, 47, 48, 50, 52, 69, 74, 76, 78, 79, 80, 81, 84, 86, 87, 88, 89, 90, 91, 92, 93, 94, 97, 98, 100, 101, 102, 103, 105, 106, 107, 109, 110, 116, 118, 119, 124, 125, 128, 129, 130, 131, 132, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, and 161, and agree to the same.

Amendment numbered 3:

That the House recede from its disagreement to the amendment of the Senate numbered 3, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert the following:

(b) Such sums as may be necessary for programs, projects, or activities provided for in the District of Columbia Appropriation Act, 1985 (H.R. 5899), to the extent and in the manner provided for in the conference report and joint explanatory statement of the Committee of Conference (House Report Numbered 98-1088), filed in the House of Representatives on September 26, 1984, as if such Act had been enacted into law.

And the Senate agree to the same.

Amendment numbered 4:

That the House recede from its disagreement to the amendment of the Senate num-

bered 4, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

"(c) Such amounts as may be necessary for programs, projects or activities provided for in the Department of the Interior and Related Agencies Appropriations Act, 1985, at a rate of operations and to the extent and in the manner provided as follows, to be effective as it it had been enacted into law as the regular appropriation Act:".

An Act Making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 1985, and for other purposes

TITLE I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

For expenses necessary for protection, use, improvement, development, disposal, cadastral surveying, classification, and performance of other functions, including maintenance of facilities, as authorized by law, in the management of lands and their resources under the jurisdiction of the Bureau of Land Management, including the general administration of the Bureau of Land Management, $393,849,000.

CONSTRUCTION AND ACCESS

For acquisition of lands and interests therein, and construction of buildings, recreation facilities, roads, trails, and appurtenant facilities, $1,228,000, to remain available until expended.

PAYMENTS IN LIEU OF TAXES

For expenses necessary to implement the Act of October 20, 1976 (31 U.S.C. 6901–07), $105,000,000, of which not to exceed $400,000 shall be available for administrative expenses.

LAND ACQUISITION

For expenses necessary to carry out the provisions of sections 205, 206, and 318(d) of Public Law 94–579 including administrative expenses and acquisition of lands or waters, or interest therein, $2,750,000, to be derived from the Land and Water Conservation Fund, to remain available until expended.

OREGON AND CALIFORNIA GRANT LANDS

For expenses necessary for management, protection, and development of resources and for construction, operation, and maintenance of access roads, reforestation, and other improvements on the revested Oregon and California Railroad grant lands, on other Federal lands in the Oregon and California land-grant counties of Oregon, and on adjacent rights-of-way; and acquisition of lands or interests therein including existing connecting roads on or adjacent to such grant lands; $55,397,000, to remain available until expended: Provided, That the amount appropriated herein for road construction shall be transferred to the Federal Highway Administration, Department of Transportation: Provided further, That 25 per centum of the aggregate of all receipts during the current fiscal year from the revested Oregon and California Railroad grant lands is hereby made a charge against the Oregon and California land grant fund and shall be transferred to the General Fund in the Treasury in accordance with the provisions of the second paragraph of subsection (b) of title II of the Act of August 28, 1937 (50 Stat. 876).

SPECIAL ACQUISITION OF LANDS AND MINERALS

For the purchase of non-Federal coal deposits and other mineral interests and rights pursuant to Public Law 97–466, $15,000,000, to remain available until expended.

RANGE IMPROVEMENTS

For rehabilitation, protection, and acquisition of lands and interests therein, and improvement of Federal rangelands pursuant to section 401 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701), notwithstanding any other Act, sums equal to fifty per centum of all moneys received during the prior fiscal year under sections 3 and 15 of the Taylor Grazing Act (43 U.S.C. 315, et seq.), but not less than $10,000,000 (43 U.S.C. 1901), and the amount designated for range improvements from grazing fees and mineral leasing receipts from Bankhead-Jones lands transferred to the Department of the Interior pursuant to law, to remain available until expended: Provided, That not to exceed $600,000 shall be available for administrative expenses: Provided further, That the dollar equivalent of value, in excess of the grazing fee established under law and paid to the United States Government, received by any permittee or lessee as compensation for an assignment or other conveyance of a grazing permit or lease, or any grazing privileges or rights thereunder, and in excess of the installation and maintenance cost of grazing improvements provided for by the permittee in the allotment management plan or amendments or otherwise approved by the Bureau of Land Management, shall be paid to the Bureau of Land Management and disposed of as provided for by section 401(b) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701): Provided further, That if the dollar value prescribed above is not paid to the Bureau of Land Management, the grazing permit or lease shall be canceled.

SERVICE CHARGES, DEPOSITS, AND FORFEITURES

For administrative expenses and other costs related to processing application documents and other authorizations for use and disposal of public lands and resources, for monitoring construction, operation, and termination of facilities in conjunction with use authorizations, and for rehabilitation of damaged property, such amounts as may be collected under sections 209(b), 304(a), 304(b), 305(a), and 504(g) of the Act approved October 21, 1976 (43 U.S.C. 1701), and sections 101 and 203 of Public Law 93–153, to be immediately available until expended.

MISCELLANEOUS TRUST FUNDS

In addition to amounts authorized to be expended under existing law, there is hereby appropriated such amounts as may be contributed under section 307 of the Act of October 21, 1976 (43 U.S.C. 1701), and such amounts as may be advanced for administrative costs, surveys, appraisals, and costs of making conveyances of omitted lands under section 211(b) of that Act, to remain available until expended.

ADMINISTRATIVE PROVISIONS

Appropriations for the Bureau of Land Management shall be available for purchase, erection, and dismantlement of temporary structures and alteration and maintenance of necessary buildings and appurtenant facilities to which the United States has title; up to $10,000 for payments, at the discretion of the Secretary, for information or evidence concerning violations of laws administered by the United States Bureau of Land Management; miscellaneous and emergency expenses of enforcement activities, authorized or approved by the Secretary and to be accounted for solely on his certificate, not to exceed $10,000: Provided, That appropriations herein made for the Bureau of Land Management expenditures in connection with the revested Oregon and California Railroad and reconveyed Coos Bay Wagon Road grant lands (other than expenditures made under the appropriation "Oregon and California grant lands") shall be reimbursed to the General Fund of the Treasury from the 25 per centum referred to in subsection (c), title II, of the Act approved August 28, 1937 (50 Stat. 876), of the special fund designated the "Oregon and California land grant fund" and section 4 of the Act approved May 24, 1939 (53 Stat. 754), of the special fund designated the "Coos Bay Wagon Road grant fund": Provided further, That appropriations herein made may be expended for surveys of Federal lands of the United States and on a reimbursable basis for protection of lands for the State of Alaska: Provided further, That an appeal of any reductions in grazing allotments on public rangelands must be taken within thirty days after receipt of a final grazing allotment decision. Reductions of up to 10 per centum in grazing allotments shall become effective when so designated by the Secretary of the Interior. Upon appeal any proposed reduction in excess of 10 per centum shall be suspended pending final action on the appeal, which shall be completed within two years after the appeal is filed: Provided further, That appropriations herein made shall be available for paying costs incidental to the utilization of services contributed by individuals who serve without compensation as volunteers in aid of work of the Bureau to protect, improve, develop, or manage the public lands; and that within appropriations herein provided, Bureau officials may authorize either direct procurement of or reimbursement for expenses incidental to the effective use of volunteers such as, but not limited to, training, transportation, lodging, subsistence, equipment, and supplies: Provided further, That provision for such expenses or services is in accord with volunteer or cooperative agreements made with such individuals, private organizations, educational institutions, or State or local governments: Provided further, That the segregative effect of the Department of the Navy withdrawal application N 37171, covering approximately 181,323 acres of public lands in Churchill County, Nevada, shall continue until such withdrawal is acted upon by the Congress. Segregation shall not prevent compatible public land uses which would be allowed under the terms of the proposed withdrawal: Provided further, That no later than six months after the date of enactment of this act, the Secretary of the Interior shall conclude a land exchange between the Oregon International Port of Coos Bay and the United States. Lands to be offered by the United States are described in Federal Register Notice, May 10, 1984. Lands to be offered by the Port are described as lots 4 through 16 inclusive, block 30, Nasburg's Addition to Marshfield, Coos County, Oregon. The Secretary is authorized to execute such instruments as may be necessary to permit the grantee to use permanently and develop for public roadway purposes, a tract of land described in Department of the Army Easement Number DACW 57–2–84–4 on Coos Bay North Jetty Road. As otherwise provided pursuant to the Federal Land Policy and Management Act of 1976 (90 Stat. 2743, Public Law 94–579), the Secretary shall conclude the above mentioned land exchange.

UNITED STATES FISH AND WILDLIFE SERVICE

RESOURCE MANAGEMENT

For expenses necessary for scientific and economic studies, conservation, management, investigations, protection, and utilization of sport fishery and wildlife resources, except whales, seals, and sea lions, and for the performance of other authorized functions related to such resources; for the general administration of the Fish and Wildlife Service; for maintenance of the herd of long-horned cattle on the Wichita Mountains Wildlife Refuge, and not less than $3,300,000 for high priority projects within the scope of the approved budget which shall be carried out by Youth Conservation Corps as if authorized by the Act of August 13, 1970, as amended by Public Law 93-408, $311,365,000 of which $4,000,000, to carry out the purposes of 16 U.S.C. 1535, shall remain available until expended; and, of which $4,591,000 shall be for operation and maintenance of fishery mitigation facilities constructed by the Corps of Engineers under the Lower Snake River Compensation Plan, authorized by the Water Resources Development Act of 1976 (90 Stat. 2921), to compensate for loss of fishery resources from water development projects on the Lower Snake River, which will remain available until expended: Provided, That the only critical habitat hereafter to be designated under section 4(b)(2) of the Endangered Species Act of 1973 (Public Law 93-205), as amended, for the Northern Rocky Mountain Wolf in Idaho shall be coterminous with the boundaries of the Central Idaho Wilderness Areas, as established by Public Law 96-312.

CONSTRUCTION AND ANADROMOUS FISH

For construction and acquisition of buildings and other facilities required in the conservation, management, investigations, protection, and utilization of sport fishery and wildlife resources, and the acquisition of lands and interests therein; $24,794,000, to remain available until expended, of which $4,100,000 shall be available for expenses necessary to carry out the Anadromous Fish Conservation Act (16 U.S.C. 757a-757g).

MIGRATORY BIRD CONSERVATION ACCOUNT

For an advance to the migratory bird conservation account, as authorized by the Act of October 4, 1971, as amended (16 U.S.C. 715k-3, 5), $21,700,000, to remain available until expended.

LAND ACQUISITION

For expenses necessary to carry out the provisions of the Land and Water Conservation Fund Act of 1965, as amended (16 U.S.C. 460l-4-11), including administrative expenses, and for acquisition of land or waters, or interest therein, in accordance with statutory authority applicable to the United States Fish and Wildlife Service, $64,508,000, to be derived from the Land and Water Conservation Fund, to remain available until expended: Provided, That $1,500,000 for the Connecticut Coastal National Wildlife Refuge shall become available for obligation only upon enactment of authorizing legislation.

NATIONAL WILDLIFE REFUGE FUND

For expenses necessary to implement the Act of October 17, 1978 (16 U.S.C. 715s), $5,760,000.

ADMINISTRATIVE PROVISIONS

Appropriations and funds available to the United States Fish and Wildlife Service shall be available for purchase of not to exceed 206 passenger motor vehicles of which 172 are for replacement only (including 64 for police-type use); purchase of 2 new aircraft for replacement only; acceptance of one donated aircraft as an addition; not to exceed $200,000 for payment, at the discretion of the Secretary, for information, rewards, or evidence concerning violations of laws administered by the United States Fish and Wildlife Service and miscellaneous and emergency expenses of enforcement activities, authorized or approved by the Secretary and to be accounted for solely on his certificate; repair of damage to public roads within and adjacent to reservation areas caused by operations of the United States Fish and Wildlife Service; options for the purchase of land at not to exceed $1 for each option; facilities incident to such public recreational uses on conservation areas as are not inconsistent with their primary purpose; and the maintenance and improvement of aquaria, buildings, and other facilities under the jurisdiction of the United States Fish and Wildlife Service and to which the United States has title, and which are utilized pursuant to law in connection with management and investigation of fish and wildlife resources.

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

For expenses necessary for the management, operation, and maintenance of areas and facilities administered by the National Park Service (including special road maintenance service to trucking permittees on a reimbursable basis), and for the general administration of the National Park Service, including not to exceed $418,000 for the Roosevelt Campobello International Park Commission, $500,000 for the Volunteers-in-the-Park program, not less than $3,400,000 for high priority projects within the scope of the approved budget which shall be carried out by Youth Conservation Corps as if authorized by the Act of August 13, 1970, as amended by Public Law 93-408, and $350,000 for the National Capital Children's Museum and $350,000 for the Arena Stage as if authorized by the Historic Sites Act of 1935 (16 U.S.C. 462(e)), $625,365,000 without regard to the Act of August 24, 1912, as amended (16 U.S.C. 451): Provided, That the Park Service shall not enter into future concessionaire contracts, including renewals, that do not include a termination for cause clause that provides for possible extinguishment of possessory interests excluding depreciated book value of concessionaire investments without compensation: Provided further, That appropriations for maintenance and improvement of roads within the boundary of Indiana Dunes National Lakeshore shall be available for such purposes without regard to whether title to such road rights-of-way is in the United States: Provided further, That $85,000 shall be available to assist the town of Harpers Ferry, West Virginia, for police force use.

NATIONAL RECREATION AND PRESERVATION

For expenses necessary to carry out recreation programs, natural programs, cultural programs, environmental compliance and review, and grant administration, not otherwise provided for, $11,338,000.

HISTORIC PRESERVATION FUND

For expenses necessary in carrying out the provisions of the Historic Preservation Act of 1966 (80 Stat. 915), as amended (16 U.S.C. 470), $26,000,000 to be derived from the Historic Preservation Fund, established by section 108 of that Act, as amended, to remain available for obligation until September 30, 1986.

VISITOR FACILITIES FUND

For grants to the National Park Foundation for reconstruction, rehabilitation, replacement, improvement, relocation, or removal of visitor facilities within the National Park System, and related expenses, as authorized by Public Law 97-433, $6,000,000 to remain available for obligation until September 30, 1989, to be derived from the National Park System Visitor Facilities Fund.

CONSTRUCTION

For construction, improvements, repair or replacement of physical facilities, without regard to the Act of August 24, 1912, as amended (16 U.S.C. 451), $113,716,000, to remain available until expended, including $1,500,000 to carry out the provisions of sections 303 and 304 of Public Law 95-290, $38,000 for a grant to the French Camp Academy: Provided further, That for payment of obligations incurred for engineering services, road and bridge access, and twin main tunnel bore work for the Cumberland Gap Tunnel, as authorized by section 160 of Public Law 93-87, $28,000,000, to be derived from the Highway Trust Fund and to remain available until expended to liquidate contract authority provided under section 104(a)(8) of Public Law 95-599, as amended, such contract authority to remain available until expended.

LAND ACQUISITION AND STATE ASSISTANCE

For expenses necessary to carry out the provisions of the Land and Water Conservation Fund Act of 1965, as amended (16 U.S.C. 460l-4-11), including administrative expenses, and for acquisition of land or waters, or interest therein, in accordance with statutory authority applicable to the National Park Service, $150,220,000, to be derived from the Land and Water Conservation Fund, to remain available until expended, of which $75,000,000 is for the State Assistance program including $1,681,000 to administer the program: Provided, That State administrative expenses associated with the State grant portion of the State Assistance program shall not exceed 15 percent: Provided further, That none of the State Assistance funds may be used as a contingency fund: Provided further, That of the amounts previously appropriated to the Secretary's contingency fund for grants to States, $318,000 shall be available in 1985 for administrative expenses of the State grant program.

JOHN F. KENNEDY CENTER FOR THE PERFORMING ARTS

For expenses necessary for operating and maintaining the nonperforming arts functions of the John F. Kennedy Center for the Performing Arts, $4,621,000.

NATIONAL CAPITAL REGION ARTS AND CULTURAL AFFAIRS

For the fiscal year ending September 30, 1986, for a program to support artistic and cultural programs in the National Capital region, $5,000,000, to remain available until expended: Provided, That there is hereby established under the direction of the National Park Service a program to support and enhance artistic and cultural activities in the National Capital Region. Eligibility for grants shall be limited to organizations of demonstrated national significance which meet at least two of the additional following criteria:

(1) an annual operating budget in excess of $1,000,000;

(2) an annual audience or visitation of at least 200,000 people;

(3) a paid staff of at least one hundred persons; or

(4) eligibility under the Historic Sites Act of 1935 (16 U.S.C. 462(e)).

Public or private colleges and universities are not eligible for grants under this program.

Grants awarded under this section may be used to support general operations and maintenance, security, or special projects. No organization may receive a grant in excess of $500,000 in a single year.

The Director of the National Park Service shall establish an application process, appoint a review panel of five qualified persons, at least a majority of whom reside in the National Capital region, and develop other program guidelines and definitions as required.

The contractual amounts required for the support of Ford's Theater and Wolf Trap Farm Park for the Performing Arts shall be available within the amount herein provided without regard to any other provisions of this section.

ILLINOIS AND MICHIGAN CANAL NATIONAL HERITAGE CORRIDOR COMMISSION

For the establishment and operation of the Illinois and Michigan Canal National Heritage Corridor Commission, $250,000.

JEFFERSON NATIONAL EXPANSION MEMORIAL COMMISSION

For the establishment and operation of the Jefferson National Expansion Memorial Commission, $75,000.

ADMINISTRATIVE PROVISIONS

Appropriations for the National Park Service shall be available for the purchase of not to exceed 1 aircraft for replacement only, 202 passenger motor vehicles of which 163 shall be for replacement only, including not to exceed 106 for police-type use and 4 buses; and to provide, notwithstanding any other provision of law, at a cost not exceeding $100,000, transportation for children in nearby communities to and from any unit of the National Park System used in connection with organized recreation and interpretive programs of the National Park Service; options for the purchase of land at not to exceed $1 for each option; and for the procurement and delivery of medical services within the jurisdiction of units of the National Park System: Provided, That any funds available to the National Park Service may be used, with the approval of the Secretary, to maintain law and order in emergency and other unforeseen law enforcement situations and conduct emergency search and rescue operations in the National Park System: Provided further, That none of the funds appropriated to the National Park Service may be used to process any grant or contract documents which do not include the text of 18 U.S.C. 1913: Provided further, That none of the funds appropriated to the National Park Service may be used to add industrial facilities to the list of National Historic Landmarks without the consent of the owner: Provided further, That the National Park Service may use helicopters and motorized equipment at Death Valley National Monument for removal of feral burros and horses: Provided further, That notwithstanding the requirements of section 6(e)(1) of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 460l-8(e)), the properties which were the subject to grant assistance from the Land and Water Conservation Fund and transferred by the City of Boise, Idaho, to the Bureau of Land Management for subsequent transfer to the Peregrine Fund shall be replaced, at no cost, with land administered by the Bureau of Land Management: Provided further, That such replacement land shall be provided in accordance with the existing statewide comprehensive outdoor recreation plan, be of at least equal fair market value, and of reasonably equivalent usefulness and location.

GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

For expenses necessary for the Geological Survey to perform surveys, investigations, and research covering topography, geology, and the mineral and water resources of the United States, its Territories and possessions, and other areas as authorized by law (43 U.S.C. 31, 1332 and 1340); classify lands as to their mineral and water resources; give engineering supervision to power permittees and Federal Energy Regulatory Commission licensees; administer the minerals exploration program (30 U.S.C. 641); and publish and disseminate data relative to the foregoing activities; $420,664,000: Provided, That $52,066,000 shall be available only for cooperation with States or municipalities for water resources investigations: Provided further, That no part of this appropriation shall be used to pay more than one-half the cost of any topographic mapping or water resources investigations carried on in cooperation with any State or municipality: Provided further, That the Geological Survey is authorized to accept lands, buildings, equipment, and other contributions from public and private sources and to prosecute projects in cooperation with other agencies, Federal, State, or private.

ADMINISTRATIVE PROVISIONS

The amount appropriated for the Geological Survey shall be available for purchase of not to exceed 12 passenger motor vehicles, for replacement only; reimbursement to the General Services Administration for security guard services; contracting for the furnishing of topographic maps and for the making of geophysical or other specialized surveys when it is administratively determined that such procedures are in the public interest; construction and maintenance of necessary buildings and appurtenant facilities; acquisition of lands for observation wells; expenses of the United States National Committee on Geology; and payment of compensation and expenses of persons on the rolls of the Geological Survey appointed, as authorized by law, to represent the United States in the negotiation and administration of interstate compacts.

MINERALS MANAGEMENT SERVICE

LEASING AND ROYALTY MANAGEMENT

For expenses necessary for minerals leasing and environmental studies, regulation of industry operations, and collection of royalties, as authorized by law; for enforcing laws and regulations applicable to oil, gas, and other minerals leases, permits, licenses and operating contracts; and for matching grants or cooperative agreements; including the purchase of not to exceed 8 passenger motor vehicles for replacement only; $166,818,000 of which not less than $39,890,000 shall be available for royalty management activities including general administration: Provided, That of the funds appropriated for the Minerals Management Service, $50,000 shall be available for administrative, travel, communications, per diem, and other necessary expenses incurred by a non-profit inter-industry organization in conducting meetings and workshops related to Outer Continental Shelf activities off Alaska.

BUREAU OF MINES

MINES AND MINERALS

For expenses necessary for conducting inquiries, technological investigations and research concerning the extraction, processing, use and disposal of mineral substances without objectionable social and environmental costs; to foster and encourage private enterprise in the development of mineral resources and the prevention of waste in the mining, minerals, metal and mineral reclamation industries; to inquire into the economic conditions affecting those industries; to promote health and safety in mines and the mineral industry through research; and for other related purposes as authorized by law, $138,734,000, of which $81,836,000 shall remain available until expended, together with $1,667,000 to be derived from the amount appropriated in Public Law 97-257 to carry out the purposes of section 2(b) of Public Law 96-543.

ADMINISTRATIVE PROVISIONS

The Secretary is authorized to accept lands, buildings, equipment, and other contributions from public and private sources and to prosecute projects in cooperation with other agencies, Federal, State, or private: Provided, That the Bureau of Mines is authorized, during the current fiscal year, to sell directly or through any Government agency, including corporations, any metal or mineral product that may be manufactured in pilot plants operated by the Bureau of Mines, and the proceeds of such sales shall be covered into the Treasury as miscellaneous receipts.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT

REGULATION AND TECHNOLOGY

For necessary expenses to carry out the provisions of the Surface Mining Control and Reclamation Act of 1977, Public Law 95-87, $76,625,000, including the purchase of not to exceed 14 passenger motor vehicles, of which 9 shall be for replacement only; and uniform allowances of not to exceed $400 for each uniformed employee of the Office of Surface Mining Reclamation and Enforcement.

ABANDONED MINE RECLAMATION FUND

For necessary expenses to carry out the provisions of title IV of the Surface Mining Control and Reclamation Act of 1977, Public Law 95-87, including the purchase of not more than 21 passenger motor vehicles, of which 15 shall be for replacement only, to remain available until expended, $303,001,000 to be derived from receipts of the Abandoned Mine Reclamation Fund: Provided, That pursuant to Public Law 97-365, the Department of the Interior is authorized to utilize up to 20 percent from the recovery of the delinquent debt owed to the United States Government to pay for contracts to collect these debts: Provided further, That of the funds made available to the States to contract for reclamation projects authorized in section 406(a) of Public Law 95-87, administrative expenses may not exceed 15 percent: Provided further, That none of these funds shall be used to increase over the fiscal year 1984 level a reclamation grant to any State which has no active program to review regulatory permits for those individuals who have outstanding fines or penalties related to past coal mining violations.

BUREAU OF INDIAN AFFAIRS

OPERATION OF INDIAN PROGRAMS

For operation of Indian programs by direct expenditure, contracts, cooperative agreements and grants including expenses necessary to provide education and welfare services for Indians, either directly or in cooperation with States and other organizations, including payment of care, tuition, assistance, and other expenses of Indians in boarding homes, institutions, or schools; grants and other assistance to needy Indians; maintenance of law and order; management, development, improvement, and protection of resources and appurtenant facilities under the jurisdiction of the Bureau of Indian Affairs, including payment of irrigation assessments and charges; acquisition of water rights; advances for Indian industrial and business enterprises; operation of Indian arts and crafts shops and museums; development of Indian arts and crafts, as authorized by law; for the general administration of the Bureau of Indian Affairs, including such expenses in field offices, $895,834,000, of which not to exceed $55,706,000 for higher education scholarships and assistance to public schools under the Act of April 16, 1934 (48 Stat. 596), as amended (25 U.S.C. 452 et seq.), shall remain available for obligation until September 30, 1986, and the funds made available to tribes and tribal organizations through contracts authorized by the Indian Self-Determination and Education Assistance Act of 1975 (88 Stat. 2203; 25 U.S.C. 450 et seq.) shall remain available until September 30, 1986: Provided, That this carryover authority does not extend to programs directly operated by the Bureau of Indian Affairs; and includes expenses necessary to carry out the provisions of section 19(a) of Public Law 93-531 (25 U.S.C. 640(d)-18(a)), $2,830,000, to remain available until expended: Provided further, That none of these funds shall be expended as matching funds for programs funded under section 103(a)(1)(B)(iii) of the Vocational Education Act of 1963, as amended (20 U.S.C. 2303(a)(1)(B)(iii)): Provided further, That hereafter, funds appropriated under this or any other Act for the Bureau of Indian Affairs may be used for the payment in advance or from date or admission of care, tuition, assistance, and other expenses of Indians in boarding homes, insitutions, or schools; and the payment of rewards for information or evidence concerning violations of law on Indian reservation lands or treaty fishing rights use areas: Provided further, That hereafter moneys received by grant to the Bureau of Indian Affairs from other Federal agencies to carry out various programs for elementary and secondary education, handicapped programs, bilingual education, and other specific programs shall be deposited into the appropriation account available for the operation of Bureau schools during the period covered by the grant and shall remain available as otherwise provided by law: Provided further, That hereafter any cost of providing lunches to nonboarding students in public schools from funds appropriated under this or any other Act for the Bureau of Indian Affairs shall be paid from the amount of such funds otherwise allocated for the schools involved without regard to the cost of providing lunches for such students: Provided further, That no part of any appropriations to the Bureau of Indian Affairs shall be available to provide general assistance payments for Alaska Natives in the State of Alaska unless and until otherwise specifically provided for by Congress: Provided further, That after September 30, 1985, no part of any appropriation (except trust funds) to the Bureau of Indian Affairs may be used directly or by contract for general or other welfare assistance (except child welfare assistance) payments (1) for other than essential needs (specifically identified in regulations of the Secretary or in regulations of the State public welfare agency pursuant to the Social Security Act adopted by reference in the Secretary's regulations) which could not be reasonably expected to be met from financial resources or income (including funds held in trust) available to the recipient individual which are not exempted under law from consideration in determining eligibility for or the amount of Federal financial assistance or (2) for individuals who are eligible for general public welfare assistance available from a State except to the extent the Secretary of the Interior determines that such payments are required under sections 6(b)(2), 6(i), and 9(b) of the Maine Indian Claims Settlement Act of 1980 (94 Stat. 1793, 1794, 1796; 25 U.S.C. 1725(b)(2), 1725(i), 1728(b)): Provided further, That for the fiscal year ending September 30, 1985, the Secretary may not contract for the establishment or operation of a school not currently operated by the Bureau or assisted by the Bureau under contract.

CONSTRUCTION

For construction, major repair and improvement of irrigation and power systems, buildings, utilities, and other facilities, including architectural and engineering services by contract; acquisition of lands and interests in lands; preparation of lands for farming; and construction, repair, and improvement of Indian housing, $109,686,000, to remain available until expended: Provided, That such amounts as may be available for the construction of the Navajo Indian Irrigation Project may be transferred to the Bureau of Reclamation.

ROAD CONSTRUCTION

For construction of roads and bridges pursuant to authority contained in 23 U.S.C. 203, the Act of November 2, 1921 (42 Stat. 208; 25 U.S.C. 13), and the Act of May 26, 1928 (45 Stat. 750; 25 U.S.C. 318a), $6,000,000, to remain available until expended: Provided, That not to exceed 5 percent of contract authority available to the Bureau of Indian Affairs from the Federal Highway Trust Fund may be used to cover roads program management costs and construction supervision costs of the Bureau of Indian Affairs.

UTAH PAIUTE TRUST FUND

For deposit into the Economic Development and Tribal Government Fund established pursuant to Public Law 98-219, to be held in trust for the benefit of the Utah Paiute Tribe pursuant to that law, $2,500,000.

TRIBAL TRUST FUNDS

In addition to the tribal funds authorized to be expended by existing law, there is hereby appropriated not to exceed $4,000,000 from tribal funds not otherwise available for expenditure and in addition hereafter tribal funds may be advanced to Indian tribes during each fiscal year for such purposes as may be designated by the governing body of the particular tribe involved and approved by the Secretary including: expenditures for the benefit of Indians and Indian tribes; care, tuition, and other assistance to Indian children attending public and private schools (which may be paid in advance or from date of admission); purchase of land and improvements on land, title to which shall be taken in the name of the United States in trust for the tribe for which purchased; lease of lands and water rights; compensation and expenses of attorneys and other persons employed by Indian tribes under approved contracts; pay, travel, and other expenses of tribal officers, councils, committees, and employees thereof, or other tribal organizations, including mileage for use of privately owned automobiles and per diem in lieu of subsistence at rates established administratively but not to exceed those applicable to civilian employees of the Government; and relief of Indians, including cash grants.

REVOLVING FUND FOR LOANS

During fiscal year 1985, and within the resources and authority available, gross obligations for the principal amount of direct loans pursuant to the Indian Financing Act of 1974 (88 Stat. 77; 25 U.S.C. 1451 et seq.), shall not exceed $18,600,000.

INDIAN LOAN GUARANTY AND INSURANCE FUND

During fiscal year 1985, total commitments to guarantee loans pursuant to the Indian Financing Act of 1974 (88 Stat. 77; 25 U.S.C. 1451 et seq.), may be made only to the extent that the total loan principal, any part of which is to be guaranteed, shall not exceed resources and authority available.

ADMINISTRATIVE PROVISIONS

Appropriations for the Bureau of Indian Affairs (except the revolving fund for loans and the Indian loan guarantee and insurance fund) shall be available for expenses of exhibits; purchase of not to exceed 275 passenger carrying motor vehicles of which 225 shall be for replacement only, and hereafter such appropriations under this or any other act shall be available for: the expenses of exhibits; advance payments for services (including services which may extend beyond the current fiscal year) under contracts executed pursuant to the Act of June 4, 1936 (48 Stat. 596), as amended (25 U.S.C. 452 et seq.), the Act of August 3, 1956 (70 Stat. 896), as amended (25 U.S.C. 309 et seq.), and legislation terminating Federal supervision over certain tribes; and expenses required by continuing or permanent treaty provision: Provided, That hereafter passenger carrying motor vehicles of the Bureau may be used for the transportation of Indians: Provided further, That hereafter no part of any appropriations to the Bureau of Indian Affairs under this or any other Act shall be available to continue academic and residential programs of the Chilocco, Seneca, Concho, and Fort Sill boarding schools, Oklahoma; Mount Edgecumbe boarding school, Alaska; Intermountain boarding school, Utah; and Stewart boarding school, Nevada: Provided further, That hereafter no part of any appropriation to the Bureau of Indian Affairs under this or any other act shall be used to subject the transportation of school children to any limitation on travel or transportation expenditures for Federal employees: Provided further, That notwithstanding any other provision of law, within sixty days of enactment of this Act, the Secretary of the Interior shall employ in the Flathead irrigation and power project of the Bureau of Indian Affairs twenty-eight employees of the Joint Board of Control of the Flathead, Mission, and Jocko Valley Irrigation Districts at appropriate rates of pay which shall not be less than their rates of pay as of September 27, 1984: Provided further, That none of the funds contained in this Act may be used to implement the provisions of sections 501 through 512 of Title V of S. 2496 as agreed to

by the Sentate on October 3, 1984 (legislative day of September 24, 1984).

TERRITORIAL AND INTERNATIONAL AFFAIRS

ADMINISTRATION OF TERRITORIES

For expenses necessary for the administration of Territories under the jurisdiction of the Department of the Interior, $76,554,000, of which (1) not to exceed $73,826,000 shall be available until expended for technical assistance; grants to the judiciary in American Samoa for compensation and expenses, as authorized by law (48 U.S.C. 1661(c)); grants to American Samoa, in addition to current local revenues, for support of governmental functions; grants to the Government of the Virgin Islands as authorized by law (Public Law 98-213); construction grants to Guam of $5,725,000; direct grants to the Government of the Northern Mariana Islands as authorized by law (Public Law 94-241, 90 Stat. 272, and Public Law 96-205, 94 Stat. 86); and (2) not to exceed $2,728,000 for fiscal year 1985 salaries and expenses of the Office of Territorial and International Affairs: Provided, That the Territorial and local governments herein provided for are authorized to make purchases through the General Services Administration: Provided further, That all financial transactions of the Territorial and local governments herein provided for, including such transactions of all agencies or instrumentalities established or utilized by such governments, shall be audited by the General Accounting Office, in accordance with the provisions of the Budget and Accounting Act, 1921 (42 Stat. 23), as amended, and the Accounting and Auditing Act of 1950 (64 Stat. 834): Provided further, That moneys heretofore appropriated by Public Law 97-394 and Public Law 98-146, or hereinafter appropriated for a direct grant or grants to the Northern Mariana Islands for the purpose of building health care facilities, as authorized by section 202 of Public Law 96-205, were and shall be transferred directly to the Northern Mariana Islands without regard to, limitation of, or restriction under laws, regulations, Office of Management and Budget circulars, or policy directives, except in the discretion of the Secretary of the Interior.

TRUST TERRITORY OF THE PACIFIC ISLANDS

For expenses necessary for the Department of the Interior in administration of the Trust Territory of the Pacific Islands pursuant to the Trusteeship Agreement approved by joint resolution of July 18, 1947 (61 Stat. 397), and the Act of June 30, 1954 (68 Stat. 330), as amended (90 Stat. 299; 91 Stat. 1159; 92 Stat. 495), grants for the expenses of the High Commissioner of the Trust Territory of the Pacific Islands; grants for the compensation and expenses of the Judiciary of the Trust Territory of the Pacific Islands; grants to the Trust Territory of the Pacific Islands in addition to local revenues, for support of governmental functions; $100,811,000, of which $79,311,000 is for operations, and $21,500,000 is for construction, to remain available until expended: Provided, That all financial transactions of the Trust Territory, including such transactions of all agencies or instrumentalities established or utilized by such Trust Territory, shall be audited by the General Accounting Office in accordance with the provisions of the Budget and Accounting Act, 1921 (42 Stat. 23), as amended, and the Accounting and Auditing Act of 1950 (64 Stat. 834): Provided further, That the government of the Trust Territory of the Pacific Islands is authorized to make purchases through the General Services Administration.

DEPARTMENTAL OFFICES

OFFICE OF THE SECRETARY

For necessary expenses of the Office of the Secretary of the Interior, $45,544,000, of which not to exceed $10,000 may be for official reception and representation expenses.

OFFICE OF THE SOLICITOR

For necessary expenses of the Office of the Solicitor, $20,548,000.

OFFICE OF INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General, $17,253,000.

CONSTRUCTION MANAGEMENT

For necessary expenses of the Office of Construction Management, $750,000.

OFFICE OF THE SECRETARY

(SPECIAL FOREIGN CURRENCY PROGRAM)

For payment in foreign currencies which the Treasury Department shall determine to be excess to the normal requirements of the United States, for necessary expenses of the United States Fish and Wildlife Service as authorized by law, $2,000,000, to remain available until expended: Provided, That this appropriation shall be available, in addition to other appropriations, to such office for payments in the foregoing currencies (7 U.S.C. 1704).

ADMINISTRATIVE PROVISIONS

There is hereby authorized for acquisition from available resources within the Working Capital Fund, 10 additional aircraft, 4 of which shall be for replacement only: Provided, That no programs funded with appropriated funds in the "Office of the Secretary", "Office of the Solicitor", and "Office of Inspector General" may be augmented through the Working Capital Fund or the Consolidated Working Fund.

GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR

SEC. 101. Appropriations made in this title shall be available for expenditure or transfer (within each bureau or office), with the approval of the Secretary, for the emergency reconstruction, replacement, or repair of aircraft, buildings, utilities, or other facilities or equipment damaged or destroyed by fire, flood, storm, or other unavoidable causes: Provided, That no funds shall be made available under this authority until funds specifically made available to the Department of the Interior for emergencies shall have been exhausted.

SEC. 102. The Secretary may authorize the expenditure or transfer of any no year appropriation in this title, in addition to the amounts included in the budget programs of the several agencies, for the suppression or emergency prevention of forest or range fires on or threatening lands under jurisdiction of the Department of the Interior; for the emergency rehabilitation of burned-over lands under its jurisdiction; for emergency actions related to potential or actual earthquakes or volcanoes; for emergency reclamation projects under section 410 of Public Law 95-87; and shall transfer, from any no year funds available to the Office of Surface Mining Reclamation and Enforcement, such funds as may be necessary to permit assumption of regulatory authority in the event a primacy State is not carrying out the regulatory provisions of the Surface Mining Act: Provided, That appropriations made in this title for fire suppression purposes shall be available for the payment of obligations incurred during the preceding fiscal year, and for reimbursement to other Federal agencies for destruction of vehicles, aircraft, or other equipment in connection with their use for fire suppression purposes, such reimbursement to be credited to appropriations currently available at the time of receipt thereof: Provided further, That funds transferred pursuant to this section must be replenished by a supplemental appropriation which must be requested as promptly as possible.

SEC. 103. Appropriations made in this title shall be available for operation of warehouses, garages, shops, and similar facilities, wherever consolidation of activities will contribute to efficiency or economy, and said appropriations shall be reimbursed for services rendered to any other activity in the same manner as authorized by sections 1535 and 1536 of title 31, U.S.C.: Provided, That reimbursements for costs and supplies, materials, equipment, and for services rendered may be credited to the appropriation current at the time such reimbursements are received.

SEC. 104. Appropriations made to the Department of the Interior in this title shall be available for services as authorized by 5 U.S.C. 3109, when authorized by the Secretary, in total amount not to exceed $300,000; hire, maintenance, and operation of aircraft; hire of passenger motor vehicles; purchase of reprints; payment for telephone service in private residences in the field, when authorized under regulations approved by the Secretary, and the payment of dues, when authorized by the Secretary, for library membership in societies or associations which issue publications to members only or at a price to members lower than to subscribers who are not members: Provided, That no funds available to the Department of the Interior are available for any expenses of the Great Hall of Commerce.

SEC. 105. Appropriations available to the Department of the Interior for salaries and expenses shall be available for uniforms or allowances therefor, as authorized by law (5 U.S.C. 5901-5902 and D.C. Code 4-204).

SEC. 106. Appropriations made in this title shall be available for obligation in connection with contracts issued by the General Services Administration for services or rentals for periods not in excess of twelve months beginning at any time during the fiscal year.

SEC. 107. No funds provided in this title may be expended by the Department of the Interior for the procurement, leasing, bidding, exploration, or development of lands within the Department of the Interior Central and Northern California Planning Area which lie north of the line between the row of blocks numbered N816 and the row of blocks numbered N817 of the Universal Transverse Mercator Grid System.

SEC. 108. No funds provided in this title may be expended by the Department of the Interior for the preparation for, or conduct of, pre-leasing and leasing activities (including but not limited to: calls for information, tract selection, notices of sale, receipt of bids and award of leases) of lands within:

(a) An area of the Outer Continental Shelf, as defined in section 2(a) of the Outer Continental Shelf Lands Act (43 U.S.C. 1331(a)), located in the Atlantic Ocean, bounded by the following line: from the intersection of the seaward limit of the Commonwealth of Massachusetts territorial sea and the 71 degree west longitude line south along that longitude line to its intersection with the line which passes between blocks 598 and 642 on Outer Continental Shelf protraction diagram NK 19-10; then along that line in an easterly direction to its intersection with the line between blocks 600 and 601 of protraction diagram NK 19-11; then in a north-

erly direction along that line to the intersection with the 60 meter isobath between blocks 204 and 205 of protraction diagram NK 19-11; then along the 60 meter isobath, starting in a roughly southeasterly direction; then turning roughly northeast, north, and west until such isobath intersects with the northern boundary of block 974 of protraction diagram NK 19-6; then along the line that lies between blocks 930 and 974 of protraction diagram NK 19-6 in a westerly direction to the first point of intersection with the seaward limit of the Commonwealth of Massachusetts territorial sea; then southwesterly along the seaward limit of the territorial sea to the point of beginning at the intersection of the seaward limit of the territorial sea and the 71 degrees west longitude line.

(b) The following blocks are excluded from the described area: In protraction diagram NK 19-10, blocks numbered 474 through 478, 516 through 524, 560 through 568, and 604 through 612; in protraction diagram NK 19-6, blocks numbered 969 through 971; in protraction diagram NK 19-5, blocks numbered 1005 through 1008; and in protraction diagram NK 19-8, blocks numbered 37 through 40, 80 through 84, 124 through 127, and 168 through 169.

(c) The following blocks are included in the described area: In protraction diagram NK 19-11, blocks numbered 633 through 644, 677 through 686, 721 through 724, 765 through 767, 809 through 810, and 853; in protraction diagram NK 19-9, blocks numbered 106, 150, 194, 238, 239, and 283; and in protraction diagram NK 19-6, blocks numbered 854, 899, 929, 943, 944, and 987.

(d) Blocks in and at the head of submarine canyons: An area of the Outer Continental Shelf, as defined in section 2(a) of the Outer Continental Shelf Lands Act (45 U.S.C. 1331(a)), located in the Atlantic Ocean off the coastline of the Commonwealth of Massachusetts, lying at the head of, or within the submarine canyons known as Atlantis Canyon, Veatch Canyon, Hydrographer Canyon, Welker Canyon, Oceanographer Canyon, Gilbert Canyon, Lydonia Canyon, Alvin Canyon, Powell Canyon, Munson Canyon, and Corsair Canyon, and consisting of the following blocks, respectively:

(1) On Outer Continental Shelf protraction diagram NJ 19-1; blocks 36, 37, 38, 42-44, 80-82, 86-88, 124, 125, 130-132, 168, 169, 174-176, 212, 213.

(2) On Outer Continental Shelf protraction diagram NJ 19-2; blocks 8, 9, 17-19, 51-52, 53, 54, 61-63, 95-98, 139, 140.

(3) On Outer Continental Shelf protraction diagram NK 19-10; blocks 916, 917, 921, 922, 960, 961, 965, 966, 1003-1005, 1009-1011.

(4) On Outer Continental Shelf protraction diagram NK 19-11; blocks 521, 522, 565, 566, 609, 610, 653-655, 697-700, 734, 735, 741-744, 769, 778-781, 785-788, 813, 814, 822-826, 829-831, 857, 858, 866-869, 873-875, 901, 902, 910-913, 917, 945-947, 955, 956, 979, 980, 989-991, 999.

(5) On Outer Continental Shelf protraction diagram NK 19-12; blocks 155, 156, 198, 199, 280-282, 324-326, 369-371, 401, 413-416, 442-446, 450, 451, 489-490, 494, 495, 530, 531, 533-540, 574, 575, 577-583, 618, 619, 621-623, 626, 627, 662, 663, 665-667, 671, 672, 706, 707, 710, 711, 750, 751, 754, 755, 794, 795, 798, 799.

(6) On Outer Continental Shelf protraction diagram NK 19-9; blocks 559-561, 603-607, 647-651, 693-695, 737-739.

(7) On Outer Continental Shelf protraction diagram NK 20-7; blocks 706, 750, 662, 618, 574.

(e) Nothing in this section shall prohibit the lease of that portion of any blocks described in subsection (d) above which lies outside the geographical boundaries of the submarine canyons and submarine canyon heads described in subsection (d) above: Provided, That for purposes of this subsection, the geographical boundaries of the submarine canyons and submarine canyon heads shall be those recognized by the National Oceanographic and Atmospheric Administration, Department of Commerce on the date of enactment of this Act.

(f) Nothing in this section shall prohibit the Secretary of the Interior from granting contracts for scientific study, the results of which could be used in making future leasing decisions in the planning area and in preparing environmental impact statements as required by the National Environmental Policy Act.

(g) References made to blocks, protraction diagrams, and isobaths are to such blocks, protraction diagrams, and isobaths as they appear on the map entitled Outer Continental Shelf of the North Atlantic from 39° to 45° North Latitude, (Map No. MMS-10), prepared by the United States Department of the Interior, Minerals Management Service, Atlantic OCS Region.

SEC. 109. None of the funds appropriated or otherwise made available pursuant to this Act shall be obligated or expended to finance changing the name of the mountain located 63 degrees, 04 minutes, 15 seconds west, presently named and referred to as Mount McKinley.

SEC. 110. Notwithstanding any other provision of law, appropriations in this title shall be available to provide insurance on official motor vehicles, aircraft, and boats operated by the Department of the Interior in Canada and Mexico.

SEC. 111. No funds provided in this title may be expended by the Department of the Interior for the lease sale of tracts in Lease Sale numbered 80 within the following areas:

(1) an area of the Department of the Interior Southern California Planning Area bounded by the following line on the California (Lambert) Plane Coordinate System: From the point of intersection of the international boundary line between the United States and Mexico and the seaward boundary of the California State Tidelands west along said international boundary line to the point of intersection with the line between the row of blocks numbered 28 west and the row of blocks numbered 27 west; thence north to the northeast corner of block 20 north, 28 west; thence northwest to the southwest corner of block 29 north, 35 west; thence north along the line between the row of blocks numbered 36 west and the row of blocks numbered 35 west to its intersection with the seaward boundary of the California State Tidelands; thence easterly along the seaward boundary of the California State Tidelands to the point of beginning;

(2) a portion of the Department of the Interior Southern California Planning Area which lies both: (a) east of the line between the row of blocks numbered 53 west and the row of blocks numbered 52 west, and (b) north of the line between the row of blocks numbered 34 north and the row of blocks numbered 35 north, on the California (Lambert) Plane Coordinate System;

(3) the boundaries of the Channel Island National Marine Sanctuary, as defined by title 15, part 935.3 of the Code of Federal Regulations; and

(4) the boundaries of the Santa Barbara Channel Ecological Preserve and Buffer Zone, as defined by the Department of the Interior, Bureau of Land Management Public Land Order numbered 4587 (vol. 34, page 5655 Federal Register March 26, 1969). This section shall not affect the authority of the Secretary of the Interior to approve any plan, or to grant any license, or permit, which is restricted to scientific exploration or other scientific activities, or other preleasing activities necessary up to the point of sale.

SEC. 112. No funds provided in this title may be used to detail any employee to an organization unless such detail is in accordance with Office of Personnel Management regulations.

SEC. 113. Notwithstanding the provisions of Public Law 98-8, the deadline for outlaying Federal funds provided in that Act under the headings "Repairing and Restoring Parks and Recreational Facilities," "Historic Preservation Fund," and "Land and Water Conservation Fund" is extended to March 1, 1985.

TITLE II—RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

FOREST RESEARCH

For necessary expenses of forest research as authorized by law, $123,433,000, of which $8,000,000 shall remain available until expended for competitive research grants, as authorized by section 5 of Public Law 95-307.

STATE AND PRIVATE FORESTRY

For necessary expenses of cooperating with, and providing technical and financial assistance to States, Territories, possessions, and others; and for forest pest management activities, $59,505,000, to remain available for obligation until expended, to carry out activities authorized in Public Law 95-313: Provided, That a grant of $3,000,000 shall be made to the State of Minnesota for the purposes authorized by section 6 of Public Law 95-495: Provided further, That not less than $35,000 in pest suppression funds shall be provided for suppression of oak wilt in the State of Texas: Provided further, That $325,000 shall be made available to the Disabled Veterans Recreation, Inc. for construction of and other improvements to the Disabled Veterans Wilderness Retreat in Ely, Minnesota, for purposes authorized by section 18(d) of Public Law 95-495.

NATIONAL FOREST SYSTEM

For necessary expenses of the Forest Service, not otherwise provided for, for management, protection, improvement, and utilization of the National Forest System, and for liquidation of obligations incurred in the preceding fiscal year for forest fire protection and emergency rehabilitation, including administrative expenses associated with the management of funds provided under the heads "Forest Research", "State and Private Forestry", "National Forest System", "Construction", and "Land Acquisition", and not less than $3,300,000 for high priority projects within the scope of the approved budget which shall be carried out by Youth Conservation Corps as if authorized by the Act of August 13, 1970, as amended by Public Law 93-408, $1,067,020,000 of which $151,095,000, for reforestation and timber stand improvement, cooperative law enforcement, and maintenance of forest development roads and trails shall remain available for obligation until September 30, 1986.

CONSTRUCTION

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses of the Forest Service, not otherwise provided for, for construc-

tion, $268,635,000, of which $226,290,000 shall be derived by transfer from the unused funds for timber purchaser road credits previously appropriated under the heading "Forest Roads" in Public Law 94-373, Public Law 95-74, and Public Law 95-465 and under the heading "Construction and Land Acquisition" in Public Law 96-196 and Public Law 96-514, to remain available until expended, of which $26,922,000 is for construction and acquisition of buildings and other facilities; and $241,713,000 is for construction of forest roads and trails by the Forest Service as authorized by 16 U.S.C. 532-538 and 23 U.S.C. 101 and 205: Provided, That funds becoming available in fiscal year 1985 under the Act of March 4, 1913 (16 U.S.C. 501), shall be transferred to the General Fund of the Treasury of the United States: Provided further, That no more than $196,226,000, to remain available without fiscal year limitation, shall be obligated for the construction of forest roads by timber purchasers.

LAND ACQUISITION

For expenses necessary to carry out the provisions of the Land and Water Conservation Fund Act of 1965, as amended (16 U.S.C. 460l-4-11), including administrative expenses, and for acquisition of land or waters, or interest therein, in accordance with statutory authority applicable to the Forest Service, $44,493,000, to be derived from the Land and Water Conservation Fund, to remain available until expended: Provided, That $2,000,000 shall be available for the acquisition of oil, gas, and other mineral interests in the Allegheny National Forest: Provided further, That such funds shall be available for obligation only to the extent that the Secretary of Agriculture deems necessary to carry out the purposes of the Pennsylvania Wilderness Act of 1984.

ACQUISITION OF LANDS FOR NATIONAL FORESTS, SPECIAL ACTS

For acquisition of land within the exterior boundaries of the Cache, Uinta, and Wasatch National Forests, Utah; the Toiyabe National Forest, Nevada; and the Angeles, San Bernardino, and Cleveland National Forests, California, as authorized by law, $782,000, to be derived from forest receipts.

ACQUISITION OF LANDS TO COMPLETE LAND EXCHANGES

For acquisition of lands in accordance with the Act of December 4, 1967 (16 U.S.C. 484a), all funds deposited by public school authorities pursuant to that Act, to remain available until expended.

RANGE BETTERMENT FUND

For necessary expenses of range rehabilitation, protection, and improvement in accordance with section 401(b)(1), of the Act of October 21, 1976, Public Law 94-579, as amended, 50 per centum of all moneys received during the prior fiscal year, as fees for grazing domestic livestock on lands in National Forests in the sixteen Western States, to remain available until expended.

MISCELLANEOUS TRUST FUNDS

For expenses authorized by 16 U.S.C. 1643(b), $90,000, to remain available until expended, to be derived from the fund established pursuant to 16 U.S.C. 1643(b).

ADMINISTRATIVE PROVISIONS, FOREST SERVICE

Appropriations to the Forest Service for the current fiscal year shall be available for: (a) purchase of not to exceed 179 passenger motor vehicles of which 8 will be used primarily for law enforcement purposes and of which 163 shall be for replacement only, acquisition of 184 passenger motor vehicles from excess sources, and hire of such vehicles; operation and maintenance of aircraft, the purchase of not to exceed 4 for replacement only, and acquisition of 45 aircraft from excess sources; (b) services pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and not to exceed $100,000 for employment under 5 U.S.C. 3109; (c) uniform allowances for each uniformed employee of the United States Forest Service, not in excess of $400 annually; (d) purchase, erection, and alteration of buildings and other public improvements (7 U.S.C. 2250); (e) acquisition of land, waters, and interests therein, pursuant to the Act of August 3, 1956 (7 U.S.C. 428a); and (f) for expenses pursuant to the Volunteers in the National Forest Act of 1972 (16 U.S.C. 558a, 558d, 558a note).

None of the funds made available under this Act shall be obligated or expended to adjust annual recreational residence fees to an amount greater than that annual fee in effect at the time of the next to last fee adjustment, plus 50 per centum. In those cases where the currently applicable annual recreational residence fee exceeds that adjusted amount, the Forest Service shall credit to the permittee that excess amount, times the number of years that that fee has been in effect, to offset future fees owed to the Forest Service.

Current permit holders who acquired their recreational residence permit after the next to last fee adjustment shall have their annual permit fee computed as if they had their permit prior to the next to last fee adjustment, except that no permittee shall receive an unearned credit.

None of the funds made available under this Act shall be obligated or expended to change the boundaries of any region, to abolish any region, to move or close any regional office for research, State and private forestry, or National Forest System administration of the Forest Service, Department of Agriculture, without the consent of the House and Senate Committees on Appropriations and the Committee on Agriculture, Nutrition, and Forestry in the United States Senate and the Committee on Agriculture in the United States House of Representatives.

Any appropriations or funds available to the Forest Service may be advanced to the National Forest System appropriation for the emergency rehabilitation of burned-over lands under its jurisdiction.

Appropriations and funds available to the Forest Service shall be available to comply with the requirements of section 313(a) of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1323(a)).

The appropriation structure for the Forest Service may not be altered without advance approval of the House and Senate Committees on Appropriations.

Funds appropriated to the Forest Service shall be available for assistance to or through the Agency for International Development and the Office of International Cooperation and Development in connection with forest and rangeland research and technical information and assistance in foreign countries.

Funds previously appropriated for timber salvage sales may be recovered from receipts deposited for use by the applicable national forest and credited to the Forest Service Permanent Appropriations to be expended for timber salvage sales from any national forest.

Provisions of section 702(b) of the Department of Agriculture Organic Act of 1944 (7 U.S.C. 2257) shall apply to appropriations available to the Forest Service only to the extent that the proposed transfer is approved by the House and Senate Committees on Appropriations in compliance with the reprograming procedures contained in House Report 97-942.

No funds appropriated to the Forest Service shall be transferred to the Working Capital Fund of the Department of Agriculture without the approval of the Chief of the Forest Service.

Notwithstanding any delegations of authority provided for in the regulations of the Department of Agriculture or in the Forest Service manual, the Chief of the Forest Service shall, personally and without aid of mechanical devices or persons acting on his behalf, execute (1) all deeds conveying federally owned land which exceeds $250,000 in value, (2) all acceptances of options on lands to be acquired which exceed $250,000 in value, (3) all recommendations that condemnation be initiated, (4) all letters accepting donations of land, (5) all decisions on appeals of decisions related to land transactions made by regional foresters, and (6) land related transmittals to the House or Senate Committees on Appropriations, including all proposals for congressional action such as the acquisition of lands in excess of the approved appraised value, condemnation actions, and other items covered in reprogramming guidelines.

Not to exceed $900,000 shall be available from National Forest System appropriations or permanent appropriations for the specific purpose of removing slash and cull logs from the Bull Run, Oregon, watershed to preserve water quality and reduce fire hazards.

DEPARTMENT OF THE TREASURY

ENERGY SECURITY RESERVE

(RESCISSION)

Of the funds appropriated to the Energy Security Reserve by the Department of the Interior and Related Agencies Appropriations Act, 1980 (Public Law 96-126) and subsequently made available to carry out Title I, Part B of the Energy Security Act (Public Law 96-294) by Public Laws 96-304 and 96-514, $5,375,000,000 are rescinded: Provided, That of the remaining funds in the Energy Security Reserve for carrying out Title I, Part B of the Energy Security Act, the amount of $5,700,000,000 shall be initially available only for obligation to projects with Letters of Intent authorized by the Board of Directors of the United States Synthetic Fuels Corporation on or before June 1, 1984; and, if by reason of Board determinations that the Corporation will not enter into financial assistance contracts with projects for which such Letters were authorized, or that lesser amounts of financial assistance than those specified in such authorizations shall be awarded, there remains a balance of such amount which is unobligated and uncommitted, 50 percent of said balance shall cease to be available for obligation and the remaining 50 percent of said balance shall thereafter be available for commitment or obligation by the Corporation pursuant to the Energy Security Act: Provided further, That until such time as the comprehensive strategy is approved pursuant to section 126(c) of the Energy Security Act, the Board of Directors shall solicit proposals and award financial assistance pursuant to applicable sections of the Energy Security Act without regard to the national synthetic fuel production goal established under section 125 of the Act: Provided further, That of the $5,375,000,000 rescinded from the Energy Security Reserve,

$750,000,000 shall be deposited and retained in a separate account hereby established in the Treasury of the United States, entitled the "Clean Coal Technology Reserve," which account and the appropriations therefor, shall be available for the purpose of conducting cost-shared clean coal technology projects for the construction and operation of facilities to demonstrate the feasibility for future commercial application of such technology, including those identified in section 320 of the fiscal year 1985 Department of the Interior and Related Agencies Appropriations Act, as reported by the Senate Committee on Appropriations (H.R. 5973, Senate Report 98-578), without fiscal year limitation, subject to subsequent annual appropriation in the Department of the Interior and Related Agencies Appropriations Act.

Section 117 of the United States Synthetic Fuels Corporation Act of 1980 is amended by adding at the end thereof the following new subsection:

"(f) Subject to section 118, Directors, officers, and employees of the Corporation shall be subject to the same standards of ethical conduct and financial reporting as are set forth in Executive Order 11222. The Chairman shall promptly implement such standards.".

(b) Section 168 of the United States Synthetic Fuels Corporation Act of 1980 is amended by—

(1) Redesignating section 168 as subsection 168(a); and

(2) Inserting at the end thereof the following new subsection:

"(b) An aggreived person may bring action in the district courts of the United States to enforce, and secure compliance with, the policies and guidelines of the Corporation implementing the requirements of subsections 121(a) and (b) for public disclosure of information and the requirements of subsection 116(f) for meetings of the Board of Directors to be open to the public and preceded by reasonable public notice.".

DEPARTMENT OF ENERGY

FOSSIL ENERGY RESEARCH AND DEVELOPMENT

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses in carrying out fossil energy research and development activities, under the authority of the Department of Energy Organization Act (Public Law 95-91), including the acquisition of interest, including defeasible and equitable interests in any real property or any facility or for plant or facility acquisition or expansion, $280,558,000, to remain available until expended, and $39,196,000 to be derived by transfer from unobligated balances in the "fossil energy construction" account, $5,800,000 to be derived by transfer from the account in Public Law 96-126 (93 Stat. 970 (1979)) entitled "Alternative Fuels Production", $2,500,000 to be derived by transfer from unobligated prior year balances in the energy production, demonstration, and distribution account, and $3,000,000 is to be derived by transfer from amounts derived from fees for guarantees of obligations collected pursuant to section 19 of the Federal Nonnuclear Energy Research and Development Act of 1974, as amended (42 U.S.C. 5919), and deposited in the Energy Security Reserve established by Public Law 96-126: Provided, That no part of the sum herein made available shall be used for the field testing of nuclear explosives in the recovery of oil and gas: Provided further, That $7,500,000 of the sum provided under this heading shall be available for demonstration of the Kilngas coal gasification process, with the provision that the United States Treasury shall be repaid up to double the total Federal expenditure for such process from proceeds to the participants from the commercial sale, lease, manufacture, or use of such process.

NAVAL PETROLEUM AND OIL SHALE RESERVES

For necessary expenses in carrying out naval petroleum and oil shale reserves activities, including the purchase of not to exceed 2 passenger motor vehicles, $160,076,000 to remain available until expended.

ENERGY CONSERVATION

For necessary expenses in carrying out energy conservation activities, $467,969,000 to remain available until expended: Provided, That for the base State Energy Conservation Program (part D of the Energy Policy and Conservation Act, sections 361 through 366), each State will hereafter match in cash or in kind not less than 20 percent of the Federal contribution: Provided further, That these funds may be used for grants to the Commonwealth of the Northern Mariana Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau under part D of title III of the Energy Policy and Conservation Act (relating to primary and supplemental State energy conservation programs, 42 U.S.C. 6321-6327) and under the National Energy Extension Service Act (42 U.S.C. 7001-7011): Provided further, That pursuant to section 111(b)(1)(B) of the Energy Reorganization Act of 1974, as amended, 42 U.S.C. 5821(b)(1)(B), of the amount appropriated under this head, $16,000,000 shall be available for a grant for basic industry research facilities located at Northwestern University without section 111(b)(2) of such Act being applicable.

ECONOMIC REGULATION

For necessary expenses in carrying out the activities of the Economic Regulatory Administration and the Office of Hearings and Appeals, $25,247,000.

EMERGENCY PREPAREDNESS

For necessary expenses in carrying out emergency preparedness activities, $6,220,000.

SPR PETROLEUM ACCOUNT

The aggregate amount that may be obligated under section 167 of the Energy Policy and Conservation Act of 1975 (Public Law 94-163), as amended by the Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35), for the acquisition and transportation of petroleum, and for other necessary expenses, is $2,049,550,000, in addition to authority provided in fiscal years 1982, 1983, and 1984, to remain available until expended: Provided, That the minimum required fill rate during fiscal year 1985 shall be not less than 159,000 barrels per day.

ENERGY INFORMATION ADMINISTRATION

For necessary expenses in carrying out the activities of the Energy Information Administration, $61,657,000.

ADMINISTRATIVE PROVISIONS, DEPARTMENT OF ENERGY

Appropriations under this Act for the current fiscal year shall be available for hire of passenger motor vehicles; hire, maintenance, and operation of aircraft; purchase, repair, and cleaning of uniforms; and reimbursement to the General Services Administration for security guard services.

From this appropriation, transfers of sums may be made to other agencies of the Government for the performance of work for which the appropriation is made.

None of the funds made available to the Department of Energy under this Act shall be used to implement or finance authorized price support or loan guarantee programs unless specific provision is made for such programs in an appropriations Act.

The Secretary is authorized to accept lands, buildings, equipment, and other contributions from public and private sources and to prosecute projects in cooperation with other agencies, Federal, State, private, or foreign: Provided, That (1) revenues received from the sale of any products produced in facilities other than demonstration plants operated as part of Department of Energy programs appropriated under this Act shall be covered into the Treasury as miscellaneous receipts; and (2) revenues and other moneys received by or for the account of the Department of Energy or otherwise generated by sale of products in connection with demonstration plant projects of the Department appropriated under this Act may be retained by the Secretary of Energy, to be available until expended, and used only for plant construction, operation, costs, and payments to cost-sharing entities as provided in appropriate cost-sharing contracts or agreements: Provided further, That the remainder of revenues after the making of such payments shall be covered into the Treasury as miscellaneous receipts: Provided further, That any contract, agreement or provision thereof entered into by the Secretary pursuant to this authority shall be submitted to the Senate Committee on Appropriations and the House Committee on Appropriations and a period of thirty days shall elapse while Congress is in session (in computing the thirty days, there shall be excluded the days on which either the Senate or the House is not in session because of adjournment for more than three days) before the contract, agreement or provision thereof shall become effective, except that such committees, after having received the proposed contract, agreement or provision thereof, may, by separate resolutions in writing, waive the condition of all or any portion of such thirty-day period.

Where the Secretary has the legal authority under other provisions of law, including other provisions of this Act, to undertake projects for the design, construction, or operation of Government-owned facilities for developing or demonstrating the conversion of coal into gaseous, liquid, or solid hydrocarbon products, the Secretary may use the authority contained in Public Law 85-804 (50 U.S.C. 1431-1435), with respect to such contracts or agreements for or related to such projects: Provided, That any contract, agreement, or provision thereof entered into by the Secretary using the authority of Public Law 85-804 shall be submitted to the Senate Committee on Appropriations and the House Committee on Appropriations and a period of thirty days shall elapse while Congress is in session (in computing the thirty days, there shall be excluded the days on which either the Senate or the House is not in session because of adjournment for more than three days) before the contract, agreement or provision thereof shall become effective, except that such committees, after having received the proposed contract, agreement or provision thereof, may, by separate resolutions in writing, waive the condition of all or any portion of such thirty-day period. The notification required herein shall be in lieu of the notification requirements of Public Law 85-804.

The Secretary of Energy may transfer to the Emergency Preparedness appropriation

such funds as are necessary to meet any unforeseen needs from any funds available to the Department of Energy from this Act.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

HEALTH SERVICES ADMINISTRATION

INDIAN HEALTH SERVICES

For expenses necessary to carry out the Act of August 5, 1954 (68 Stat. 674), the Indian Self-Determination Act, the Indian Health Care Improvement Act, and titles III and V and section 338G of the Public Health Service Act with respect to the Indian Health Service, including hire of passenger motor vehicles and aircraft; purchase of reprints; purchase and erection of portable buildings; payments for telephone service in private residences in the field, when authorized under regulations approved by the Secretary, $809,927,000: Provided, That funds made available to tribes and tribal organizations through grants and contracts authorized by the Indian Self-Determination and Education Assistance Act of 1975 (88 Stat. 2203; 25 U.S.C. 450), shall remain available until September 30, 1986. Funds provided in this Act may be used for one-year contracts and grants which are to be performed in two fiscal years, so long as the total obligation is recorded in the year for which the funds are appropriated: Provided further, That the amounts collected by the Secretary of Health and Human Services under the authority of title IV of the Indian Health Care Improvement Act shall be available until September 30, 1986, for the purpose of achieving compliance with the applicable conditions and requirements of titles XVIII and XIX of the Social Security Act (exclusive of planning, design, construction of new facilities, or major renovation of existing Indian Health Service facilities): Provided further, That funding contained herein, and in any earlier appropriations Act, for scholarship programs under section 103 of the Indian Health Care Improvement Act and section 757 of the Public Health Service Act shall remain available for expenditure until September 30, 1986.

INDIAN HEALTH FACILITIES

For construction, major repair, improvement, and equipment of health and related auxiliary facilities, including quarters for personnel; preparation of plans, specifications, and drawings; acquisition of sites, purchase and erection of portable buildings, purchases of trailers and for provision of domestic and community sanitation facilities for Indians, as authorized by section 7 of the Act of August 5, 1954 (42 U.S.C. 2004a), the Indian Self-Determination Act and the Indian Health Care Improvement Act, $62,892,000, to remain available until expended.

ADMINISTRATIVE PROVISIONS, HEALTH SERVICES ADMINISTRATION

Appropriations in this Act to the Health Services Administration, available for salaries and expenses, shall be available for services as authorized by 5 U.S.C. 3109 but at rates not to exceed the per diem equivalent to the rate for GS-18, and for uniforms or allowances therefor as authorized by law (5 U.S.C. 5901-5902), and for expenses of attendance at meetings which are concerned with the functions or activities for which the appropriation is made or which will contribute to improved conduct, supervision, or management of those functions or activities: Provided, That none of the funds appropriated under this Act to the Indian Health Service shall be available for the initial lease of permanent structures without advance provision therefor in appropriations Acts: Provided further, That non-Indian patients may be extended health care at all Indian Health Service facilities, if such care can be extended without impairing the ability of the Indian Health Service to fulfill its responsibility to provide health care to Indians served by such facilities and subject to such reasonable charges as the Secretary of Health and Human Services shall prescribe, the proceeds of which shall be deposited in the fund established by sections 401 and 402 of the Indian Health Care Improvement Act: Provided further, That funds appropriated to the Indian Health Service in this Act, except those used for administrative and program direction purposes, shall not be subject to limitations directed at curtailing Federal travel and transportation: Provided further, That with the exception of service units which currently have a billing policy, the Indian Health Service shall not initiate any further action to bill Indians in order to collect from third-party payers nor to charge those Indians who may have the economic means to pay unless and until such time as Congress has agreed upon a specific policy to do so and has directed the IHS to implement such a policy: Provided further, That hereafter the Indian Health Service may seek subrogation of claims including but not limited to auto accident claims, including no-fault claims, personal injury, disease, or disability claims, and workman's compensation claims except as otherwise limited by the fourth proviso of this section: Provided further, That hereafter, notwithstanding any other law, an Indian tribe may acquire and expend funds, other than funds appropriated to the Service, for major renovation and modernization, including planning and design for such renovation and modernization of Service facilities, including facilities operated pursuant to contract under the Indian Self-Determination and Education Assistance Act (Public Law 93-638) subject to the following conditions:

(1) the implementation of such project shall not require or obligate the Service to provide any additional staff or equipment;

(2) the project shall be subject to the approval of the Area Director of the Service area office involved;

(3) the tribe shall have full authority to administer the project, but shall do so in accordance with applicable rules and regulations of the Secretary governing construction or renovation of Service health facilities; and

(4) no project of renovation or modernization shall be authorized herein if it would require the diversion of Service funds from meeting the needs of projects having a higher priority on the current health facilities priority system.

DEPARTMENT OF EDUCATION

OFFICE OF ELEMENTARY AND SECONDARY EDUCATION

INDIAN EDUCATION

For carrying out, to the extent not otherwise provided, Part A ($51,350,000) and Parts B and C ($15,000,000) of the Indian Education Act, and the General Education Provisions Act, $68,780,000.

OTHER RELATED AGENCIES

NAVAJO AND HOPI INDIAN RELOCATION COMMISSION

SALARIES AND EXPENSES

For necessary expenses of the Navajo and Hopi Indian Relocation Commission as authorized by Public Law 93-531, $20,736,000, to remain available until expended, for operating expenses of the Commission: Provided, That July 7, 1985, is hereby established as the deadline for receipt of applications for voluntary relocation.

SMITHSONIAN INSTITUTION

SALARIES AND EXPENSES

For necessary expenses of the Smithsonian Institution, including research in the fields of art, science, and history; development, preservation, and documentation of the National Collections; presentation of public exhibits and performances; collection, preparation, dissemination, and exchange of information and publications; conduct of education, training, and museum assistance programs; maintenance, alteration, operation, lease (for terms not to exceed ten years), and protection of buildings, facilities, and approaches; not to exceed $100,000 for services as authorized by 5 U.S.C. 3109; up to 5 replacement passenger vehicles; purchase, rental, repair, and cleaning of uniforms for employees; $165,730,000 including not less than $789,000 to carry out the provisions of the National Museum Act, $350,000 to be made available to the trustees of the John F. Kennedy Center for the Performing Arts for payment to the National Symphony Orchestra and $350,000 for payment to the Washington Opera Society for activities related to their responsibilities as resident entities of the Center: Provided, That funds appropriated herein are available for advance payments to independent contractors performing research services or participating in official Smithsonian presentations: Provided further, That none of these funds shall be available to a Smithsonian Research Foundation.

MUSEUM PROGRAMS AND RELATED RESEARCH (SPECIAL FOREIGN CURRENCY PROGRAM)

For payments in foreign currencies which the Treasury Department shall determine to be excess to the normal requirements of the United States, for necessary expenses for carrying out museum programs, scientific and cultural research, and related educational activities, as authorized by law, $9,000,000, to remain available until expended and to be available only to United States institutions: Provided, That this appropriation shall be available, in addition to other appropriations to the Smithsonian Institution, for payments in the foregoing currencies: Provided further, That none of these funds shall be available to a Smithsonian Research Foundation: Provided further, That not to exceed $500,000 may be used to make grant awards to employees of the Smithsonian Institution.

CONSTRUCTION AND IMPROVEMENTS, NATIONAL ZOOLOGICAL PARK

For necessary expenses of planning, construction, remodeling, and equipping of buildings and facilities at the National Zoological Park, by contract or otherwise, $4,950,000 to remain available until expended.

RESTORATION AND RENOVATION OF BUILDINGS

For necessary expenses of restoration and renovation of buildings owned or occupied by the Smithsonian Institution, by contract or otherwise, as authorized by section 2 of the Act of August 22, 1949 (63 Stat. 623), including not to exceed $10,000 for services as authorized by 5 U.S.C. 3109, $13,750,000, to remain available until expended: Provided, That contracts awarded for environmental systems, protection systems, and exterior repair or renovation of buildings of the Smithsonian Institution may be negotiated with selected contractors and awarded on

the basis of contractor qualifications as well as price: Provided further, That notwithstanding any other provisions of law, the Secretary of the Smithsonian Institution is authorized to transfer to the county of Santa Cruz, Arizona, a sum not to exceed $100,000 within available funds for the sole purpose of assisting in the funding of the construction of a permanent access to the Whipple Observatory near Amado, Arizona.

NATIONAL GALLERY OF ART, SALARIES AND EXPENSES

For the upkeep and operations of the National Gallery of Art, the protection and care of the works of art therein, and administrative expenses incident thereto, as authorized by the Act of March 24, 1937 (50 Stat. 51), as amended by the public resolution of April 13, 1939 (Public Resolution 9, Seventy-sixth Congress), including services as authorized by 5 U.S.C. 3109; payment in advance when authorized by the treasurer of the Gallery for membership in library, museum, and art associations or societies whose publications or services are available to members only, or to members at a price lower than to the general public; purchase, repair, and cleaning of uniforms for guards, and uniforms, or allowances therefor, for other employees as authorized by law (5 U.S.C. 5901-5902); purchase, or rental of devices and services for protecting buildings and contents thereof, and maintenance, alteration, improvement, and repair of buildings, approaches, and grounds; and purchase of services for restoration and repair of works of art for the National Gallery of Art by contracts made, without advertising, with individuals, firms, or organizations at such rates or prices and under such terms and conditions as the Gallery may deem proper, $36,821,000, of which $3,200,000 for the repair, renovation, and restoration program of the original West Building shall remain available until expended and of which $3,992,000 for the special exhibition program (of which $2,000,000 is for the Treasure Houses of Britain exhibition) shall remain available until expended: Provided, That contracts awarded for environmental systems, protection systems, and exterior repair or renovation of buildings of the National Gallery of Art may be negotiated with selected contractors and awarded on the basis of contractor qualifications as well as price.

WOODROW WILSON INTERNATIONAL CENTER FOR SCHOLARS, SALARIES AND EXPENSES

For expenses necessary in carrying out the provisions of the Woodrow Wilson Memorial Act of 1968 (82 Stat. 1356), including hire of passenger vehicles and services as authorized by 5 U.S.C. 3109, $2,712,000.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

NATIONAL ENDOWMENT FOR THE ARTS

GRANTS AND ADMINISTRATION

For necessary expenses to carry out the National Foundation on the Arts and Humanities Act of 1965, as amended, $137,000,000 of which $121,100,000 shall be available to the National Endowment for the Arts for the support of projects and productions in the arts through assistance to groups and individuals pursuant to section 5(c) of the Act, of which not less than 20 per centum of the funds provided for section 5(c) shall be available for assistance pursuant to section 5(g) of the Act, and $15,900,000 shall be available for administering the functions of the Act.

MATCHING GRANTS

To carry out the provisions of section 10(a)(2) of the National Foundation on the Arts and the Humanities Act of 1965, as amended, $30,000,000 to remain available until September 30, 1986, to the National Endowment for the Arts, of which $21,000,000 shall be available for purposes of section 5(1): Provided, That this appropriation shall be available for obligation only in such amounts as may be equal to the total amounts of gifts, bequests, and devises of money, and other property accepted by the Chairman or by grantees of the Endowment under the provisions of section 10(a)(2), subsections 11(a)(2)(A) and 11(a)(3)(A) during the current and preceding fiscal year for which equal amounts have not previously been appropriated.

NATIONAL ENDOWMENT FOR THE HUMANITIES

GRANTS AND ADMINISTRATION

For necessary expenses to carry out the National Foundation on the Arts and the Humanities Act of 1965, as amended, $111,325,000 of which $97,150,000 shall be available to the National Endowment for the Humanities for support of activities in the humanities, pursuant to section 7(c) of the Act, of which not less than 20 per centum shall be available for assistance pursuant to section 7(f) of the Act, and $14,175,000 shall be available for administering the functions of the Act.

MATCHING GRANTS

To carry out the provisions of section 10(a)(2) of the National Foundation on the Arts and the Humanities Act of 1965, as amended, $31,000,000, to remain available until September 30, 1986, of which $20,000,000 shall be available to the National Endowment for the Humanities for the purposes of section 7(h): Provided, That this appropriation shall be available for obligation only in such amounts as may be equal to the total amounts of gifts, bequests, and devises of money, and other property accepted by the Chairman or by grantees of the Endowment under the provisions of subsections 11(a)(2)(B) and 11(a)(3)(B) during the current and preceding fiscal years, for which equal amounts have not previously been appropriated.

INSTITUTE OF MUSEUM SERVICES

GRANTS AND ADMINISTRATION

For carrying out title II of the Arts, Humanities, and Cultural Affairs Act of 1976, as amended, $22,000,000: Provided, That none of these funds shall be available for the compensation of Executive Level V or higher positions.

ADMINISTRATIVE PROVISIONS

None of the funds appropriated to the National Foundation on the Arts and the Humanities may be used to process any grant or contract documents which do not include the text of 18 U.S.C. 1913: Provided, That none of the funds appropriated to the National Foundation on the Arts and the Humanities may be used for official reception and representation expenses.

COMMISSION OF FINE ARTS

SALARIES AND EXPENSES

For expenses made necessary by the Act establishing a Commission of Fine Arts (40 U.S.C. 104), $380,000.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

SALARIES AND EXPENSES

For expenses made necessary by the Act establishing an Advisory Council on Historic Preservation, Public Law 89-665, as amended, $1,578,000: Provided, That none of these funds shall be available for the compensation of Executive Level V or higher positions.

NATIONAL CAPITAL PLANNING COMMISSION

SALARIES AND EXPENSES

For necessary expenses, as authorized by the National Capital Planning Act of 1952 (40 U.S.C. 71-71i), including services as authorized by 5 U.S.C. 3109; and uniforms or allowances therefor, as authorized by law (5 U.S.C. 5901-5902), $2,725,000.

FRANKLIN DELANO ROOSEVELT MEMORIAL COMMISSION

SALARIES AND EXPENSES

For necessary expenses of the Franklin Delano Roosevelt Memorial Commission, established by the Act of August 11, 1955 (69 Stat. 694), as amended by Public Law 92-332 (86 Stat. 401), $21,000 to remain available for obligation until September 30, 1986.

PENNSYLVANIA AVENUE DEVELOPMENT CORPORATION

SALARIES AND EXPENSES

For necessary expenses, as authorized by section 17(a) of Public Law 92-578, as amended, $2,300,000 for operating and administrative expenses of the Corporation.

PUBLIC DEVELOPMENT

For public development activities and projects in accordance with the development plan as authorized by section 17(b) of Public Law 92-578, as amended, $4,500,000 to remain available for obligation until expended.

FEDERAL INSPECTOR FOR THE ALASKA GAS PIPELINE

PERMITTING AND ENFORCEMENT

For necessary expenses of the Federal Inspector for the Alaska Gas Pipeline, $1,430,000, of which not to exceed $1,000 may be used for official reception and representation expenses.

UNITED STATES HOLOCAUST MEMORIAL COUNCIL

HOLOCAUST MEMORIAL COUNCIL

For expenses of the Holocaust Memorial Council, as authorized by Public Law 96-388, $2,031,000.

TITLE III—GENERAL PROVISIONS

SEC. 301. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. 302. No part of any appropriation under this Act shall be available to the Secretaries of the Interior and Agriculture for use for any sale hereafter made of unprocessed timber from Federal lands west of the 100th meridian in the contiguous 48 States which will be exported from the United States, or which will be used as a substitute for timber from private lands which is exported by the purchaser: Provided, That this limitation shall not apply to specific quantities of grades and species of timber which said Secretaries determine are surplus to domestic lumber and plywood manufacturing needs.

SEC. 303. No part of any appropriation under this Act shall be available to the Secretary of the Interior or the Secretary of Agriculture for the leasing of oil and natural gas by noncompetitive bidding on publicly owned lands within the boundaries of the

Shawnee National Forest, Illinois: Provided, That nothing herein is intended to inhibit or otherwise affect the sale, lease, or right to access to minerals owned by private individuals.

SEC. 304. No part of any appropriation contained in this Act shall be available for any activity or the publication or distribution of literature that in any way tends to promote public support or opposition to any legislative proposal on which congressional action is not complete.

SEC. 305. No funds appropriated by this Act shall be available for the implementation or enforcement of any rule or regulation of the United States Fish and Wildlife Service, Department of the Interior, requiring the use of steel shot in connection with the hunting of waterfowl in any State of the United States unless the appropriate State regulatory authority approves such implementation and enforcement.

SEC. 306. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 307. None of the funds provided in this Act to any department or agency shall be obligated or expended to provide a personal cook, chauffeur, or other personal servants to any officer or employee of such department or agency.

SEC. 308. Except for lands described by sections 105 and 106 of Public Law 96-560, section 103 of Public Law 96-550, section 5(d)(1) of Public Law 96-312, and except for land in the State of Alaska, and lands in the national forest system released to management for any use the Secretary of Agriculture deems appropriate through the land management planning process by any statement or other Act of Congress designating components of the National Wilderness Preservation System now in effect or hereinafter enacted, and except to carry out the obligations and responsibilities of the Secretary of the Interior under section 17(k)(1)(A) and (B) of the Mineral Leasing Act of 1920 (30 U.S.C. 226), none of the funds provided in this Act shall be obligated for any aspect of the processing or issuance of permits or leases pertaining to exploration for or development of coal, oil, gas, oil shale, phosphate, potassium, sulphur, gilsonite, or geothermal resources on Federal lands within any component of the National Wilderness Preservation System or within any Forest Service RARE II areas recommended for wilderness designation or allocated to further planning in Executive Communication 1504, Ninety-sixth Congress (House Document numbered 96-119); or within any lands designated by Congress as wilderness study areas or within Bureau of Land Management wilderness study areas: Provided, That nothing in this section shall prohibit the expenditure of funds for any aspect of the processing or issuance of permits pertaining to exploration for or development of the mineral resources described in this section, within any component of the National Wilderness Preservation System now in effect or hereinafter enacted, any Forest Service RARE II areas recommended for wilderness designation or allocated to further planning, within any lands designated by Congress as wilderness study areas, or Bureau of Land Management wilderness study areas, under valid existing rights, or leases validly issued in accordance with all applicable Federal, State, and local laws or valid mineral rights in existence prior to October 1, 1982: Provided further, That funds provided in this Act may be used by the Secretary of Agriculture in any area of National Forest lands or the Secretary of the Interior to issue under their existing authority in any area of National Forest or public lands withdrawn pursuant to this Act such permits as may be necessary to conduct prospecting, seismic surveys, and core sampling conducted by helicopter or other means not requiring construction of roads or improvement of existing roads or ways, for the purpose of gathering information about and inventorying energy, mineral, and other resource values of such area, if such activity is carried out in a manner compatible with the preservation of the wilderness environment: Provided further, That seismic activities involving the use of explosives shall not be permitted in designated wilderness areas: Provided further, That funds provided in this Act may be used by the Secretary of the Interior to augment recurring surveys of the mineral values of wilderness areas pursuant to section 4(d)(2) of the Wilderness Act and acquire information on other national forest and public land areas withdrawn pursuant to this Act, by conducting, in conjunction with the Secretary of Energy, the national laboratories, or other Federal agencies, as appropriate, such mineral inventories of areas withdrawn pursuant to this Act as he deems appropriate. These inventories shall be conducted in a manner compatible with the preservation of the wilderness environment through the use of methods including core sampling conducted by helicopter; geophysical techniques such as induced polarization, synthetic aperture radar, magnetic and gravity surveys; geochemical techniques including stream sediment reconnaissance and X-ray diffraction analysis; land satellites; or any other methods he deems appropriate. The Secretary of the Interior is hereby authorized to conduct inventories or segments of inventories, such as data analysis activities, by contract with private entities deemed by him to be qualified to engage in such activities whenever he has determined that such contracts would decrease Federal expenditures and would produce comparable or superior results: Provided further, That in carrying out any such inventory or surveys, where National Forest System lands are involved, the Secretary of the Interior shall consult with the Secretary of Agriculture concerning any activities affecting surface resources: Provided further, That funds provided in this Act may be used by the Secretary of the Interior to issue oil and gas leases for the subsurface of any lands designated by Congress as wilderness study areas, that are immediately adjacent to producing oil and gas fields or areas that are prospectively valuable. Such leases shall allow no surface occupancy and may be entered only by directional drilling from outside the wilderness study area or other nonsurface disturbing methods.

SEC. 309. None of the funds provided in this Act shall be used to evaluate, consider, process, or award oil, gas, or geothermal leases on Federal lands in the Mount Baker-Snoqualmie National Forest, State of Washington, within the hydrographic boundaries of the Cedar River municipal watershed upstream of river mile 21.6, the Green River municipal watershed upstream of river mile 61.0, the North Fork of the Tolt River proposed municipal watershed upstream of river mile 11.7, and the South Fork Tolt River municipal watershed upstream of river mile 8.4.

SEC. 310. No assessments may be levied against any program, budget activity, subactivity, or project funded by this Act unless such assessments and this basis therefor are presented to the Committees on Appropriations and are approved by such committees.

SEC. 311. Employment funded by this Act shall not be subject to any personnel ceiling or other personnel restriction for permanent or other than permanent employment except as provided by law.

SEC. 312. Funds provided for land acquisition in this Act may not be used to acquire lands for more than the approved appraised value (as addressed in section 301(3) of Public Law 91-646) except for condemnations and declarations of taking, without the written approval of the Committees on Appropriations.

SEC. 313. Notwithstanding any other provisions of law, the Secretary of the Interior, the Secretary of Agriculture, the Secretary of Energy, and the Secretary of the Smithsonian Institution, are authorized to enter into contracts with State and local governmental entities, including local fire districts, for procurement of services in the presuppression, detection, and suppression of fires on any units within their jurisdiction. In addition, any contracts or agreements with the jurisdiction for fire management services listed above which are previously executed shall remain valid.

SEC. 314. None of the funds provided by this Act to the United States Fish and Wildlife Service may be obligated or expended to plan for, conduct, or supervise deer hunting on the Loxahatchee National Wildlife Refuge.

SEC. 315. Funds available to the Department of the Interior and the Forest Service in fiscal year 1985 for the purpose of contracting for services that require the utilization of privately owned aircraft for the carriage of cargo or freight shall be used only to contract for aircraft that are certified as air-worthy by the Administrator of the Federal Aviation Administration as standard category aircraft under 14 CFR 21.183 unless the Secretary of the contracting department determines that such aircraft are not reasonably available to conduct such services.

SEC. 316. None of the funds provided in this Act may be used for the augmentation of grizzly bear populations in currently occupied areas of Forest Service grizzly bear habitat or the preparation of specific augmentation proposals to establish new grizzly bear populations in areas identified as suitable grizzly bear habitat in any unit of the National Park System or National Forest System unless the appropriate General Management Plan or Forest Plan provides for such augmentation and has been adopted, including having been available for public comment and review: Provided, That such activities may be conducted only with funds specifically justified for such purpose in an agency budget justification and subsequently approved in a report accompanying an appropriation bill making appropriations for that agency, or with funds provided for through reprogramming procedures: Provided further, That this is not intended to prohibit the emergency relocation of nuisance bears into currently occupied areas of congressionally designated wilderness areas within Forest Service boundaries, or into other currently occupied situation one areas where conflict between bears and humans is not likely to occur: Provided further, That the Secretaries of Interior and Agriculture shall provide for a public meeting at each affected National Forest and National Park Headquarters and the subsequent publication of the "Guidelines for Management In-

volving Grizzly Bears in the Greater Yellowstone Area" in the Federal Register, reflecting the public comments: Provided further, That notwithstanding any other provision of law, agencies included in this Act are authorized to reimburse permittees for such reasonable expenses as may be incurred as a result of moving permitted animals from one location to another, as may be required by the permitting agency, in order to prevent harassment and attacks by grizzly bears. Such expenses are to be determined by the agency responsible for the permitted action.

SEC. 317. The Administrator of the General Services Administration shall transfer to the Secretary of the Interior, without reimbursement, for inclusion in the War in the Pacific National Historical Park the following parcels of land:

(1) Agat Bay, parcel 2, United States Naval Station, Guam (GSA control number 9-N-GU-426); and

(2) GLUP: Nimitz Hill, parcel 3, Nimitz Hill Annex Area "C", Municipality of Asan, Guam (GSA control number 9-N-GU-415).

SEC. 318. The Secretary of the Interior shall quantify, in cooperation with the Secretary of Agriculture and the Governor of North Dakota, and consistent with an agreement to be negotiated between the Secretary of the Interior and the Governor of North Dakota, the number of wetland acres, including a description by quarter section, subject to waterfowl production area easements in each county; and the Secretary and the Governor shall develop a plan for the purchase of additional easement acres previously authorized by the Governor.

SEC. 319. The primary term of any geothermal lease in effect as of July 27, 1984, issued pursuant to the Geothermal Act of 1970 (Public Law 91-581, 84 Stat. 1566, 30 U.S.C. 1001-1025) is hereby extended to December 31, 1986, if the Secretary of the Interior finds that—

(a) a bona fide sale of the geothermal resource, from a well capable of production, for delivery to or utilization by a facility or facilities, has not been completed (1) due to administrative delays by government entities, beyond the control of the lessee, or (2) such sale would be uneconomic;

(b) substantial investment in the development of or for the benefit of the lease has been made; and

(c) the lease would otherwise expire prior to December 31, 1986.

Notwithstanding any other provision of law, the Secretary shall not issue any geothermal lease pursuant to the Geothermal Steam Act of 1970 (Public Law 91-581, as amended) in the Island Park Known as Geothermal Resource Area adjacent to Yellowstone National Park.

SEC. 320. Notwithstanding title 5 of the United States Code or any other provision of law, after September 30, 1984, rents and charges collected by payroll deduction or otherwise for the use or occupancy of quarters of agencies funded by this Act shall thereafter be deposited in a special fund in each agency, to remain available until expended, for the maintenance and operation of the quarters of that agency: Provided, That for the fiscal year ending September 30, 1985, and each fiscal year thereafter, such amounts as may be collected may be expended in the agency unit or subunit (e.g. Park, refuge, hatchery, Forest, Agency office, School, Service unit, hospital, clinic, etc.) where the funds are collected: Provided further, That up to 10 per centum of funds collected in such unit may be transferred to another unit within the same agency.

SEC. 321. The Secretary of Energy pursuant to the Federal Nonnuclear Energy Research and Development Act of 1974 (Public Law 93-577), shall—

(1) no later than sixty days after the date of the enactment of this Act, publish in the Federal Register a notice soliciting statements of interest in, and proposals for projects employing emerging clean coal technologies, which statements and proposals are to be submitted to the Secretary within ninety days after the publication of such notice; and

(2) no later than April 15, 1985, submit to Congress a report that analyzes the information contained in such statements of interest and proposals, assesses the potential usefulness of each emerging clean coal technology for which a statement of interest or proposal has been received, and identifies the extent to which Federal incentives, including financial assistance, will accelerate the commercial availability of these technologies.

SEC. 322. Section 5542(b)(2)(B)(iv) of title 5, United States Code, is amended by inserting immediately before the period at the end thereof a comma and the following: "including travel by an employee to such an event and the return of such employee from such event to his or her official-duty station".

SEC. 323. It is the sense of the Congress that the Continental Scientific Drilling Program is an important national scientific endeavor, benefiting the commerce of the Nation, which should be vigorously pursued by Government and the private sector. The Continental Scientific Drilling Program is an important national scientific endeavor that is vital to the understanding of the geologic evolution of the Earth and the economic value of its resources; the most effective and efficient means of realizing the fullest potential in the Continental Scientific Drilling Program is through a cooperative effort by the Department of Energy, the National Science Foundation, and the United States Geological Survey; many important commercial and scientific advances may result from the Continental Scientific Drilling Program; and many foreign nations are engaged in a comparable deep drilling program, and cooperation and coordination would be beneficial to United States efforts. It is the sense of the Congress that—

(1) the Continental Scientific Drilling Program is an important national scientific endeavor by the United States which should be enthusiastically implemented through a joint cooperative effort among the United States Department of Energy, the National Science Foundation, and the United States Geological Survey;

(2) the private sector should be encouraged to support the Continental Scientific Drilling Program and the participating agencies should solicit appropriate private sector participation in such program; and

(3) the United States Government should cooperate to the extent practicable with the international community in developing this important scientific and technical activity.

SEC. 324. Notwithstanding any other provision of this Joint Resolution or any other law, section 401(c)(1) of Public Law 95-87 is amended by striking the word "and" after the words "in situ;" and adding the following after the word "subsidence;": "and establishment of self-sustaining, individual State administered programs to insure private property against damages caused by land subsidence resulting from underground coal mining in those States which have reclamation plans approved in accordance with section 503 of this Act: Provided, That funds used for this purpose shall not exceed $3,000,000 of the funds made available to any State under section 402(g)(2) of this Act;".

SEC. 325. None of the funds provided for in this joint resolution or hereafter provided shall be used to lease the mineral interest of the United States with respect to a tract of land in Payne County, Oklahoma, totalling nine hundred sixty acres located on the Indian Base Meridian; township 19 north; range 1 east, section 22 west half; section 26 northwest quarter; section 27 north half, southeast quarter; unless such lease prohibits the surface occupancy of the land for development of those interests.

SEC. 326. The land acquisition and relocation authorized for Centralia, Pennsylvania under Chapter IV of Public Law 98-181 shall not require any matching share of funding from the State of Pennsylvania under Section 407(e) of the "Surface Mining Control and Reclamation Act of 1977".

SEC. 327. Each amount of budget authority provided in this Act, for payments not required by law, is hereby reduced by 2 per centum: Provided, That such reductions shall be applied ratably to each account, program, activity, and project provided for in this Act.

This Act may be cited as the "Department of the Interior and Related Agencies Appropriations Act, 1985".

And the Senate agree to the same.

Amendment numbered 18:

That the House recede from its disagreement to the amendment of the Senate numbered 18, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert the following:

(d) Such amounts as may be necessary for programs, projects, or activities provided for in the Department of Labor, Health and Human Services, and Education, and Related Agencies Appropriation Act, 1985 (H.R. 6028), to the extent and in the manner provided for in the conference report and joint explanatory statement of the Committee of Conference (House Report Numbered 98-1132), filed in the House of Representatives on October 3, 1984, as if such Act has been enacted into law: Provided, That sections 204 and 307 of Public Law 98-139 shall apply to funds appropriated in this subsection: Provided further, That notwithstanding any other provision of this joint resolution, there is appropriated $4,000,000 for the United States Institute of Peace as authorized in the United States Institute of Peace Act.

And the Senate agree to the same.

Amendment numbered 19:

That the House recede from its disagreement to the amendment of the Senate numbered 19, and agree to the same with an amendment, as follows:

In lieu of the sum named in said amendment insert: *$3,500,000*; and the Senate agree to the same.

Amendment numbered 21:

That the House recede from its disagreement to the amendment of the Senate numbered 21, and agree to the same with an amendment, as follows:

In lieu of the sum named in said amendment insert: *$2,500,000*; and the Senate agree to the same.

Amendment numbered 23:

That the House recede from its disagreement to the amendment of the Senate numbered 23, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

"(e) Such amounts as may be necessary for programs, projects or activities provided for in the Military Construction Appropriations Act, 1985, at a rate of operations and to the extent and in the manner provided as follows, to be effective as if it had been enacted into law as the regular appropriation Act:".

AN ACT Making appropriations for military construction for the Department of Defense for the fiscal year ending September 30, 1985, and for other purposes

MILITARY CONSTRUCTION, ARMY

For acquisition, construction, installation, and equipment of temporary or permanent public works, military installations, facilities, and real property for the Army as currently authorized by law, and for construction and operation of facilities in support of the functions of the Commander-in-Chief, $1,593,137,000, to remain available until September 30, 1989: Provided, That of this amount, not to exceed $153,500,000 shall be available for study, planning, design, architect and engineer services, as authorized by law, unless the Secretary of Defense determines that additional obligations are necessary for such purposes and notifies the Committees on Appropriations of both Houses of Congress of his determination and the reasons therefor: Provided further, That none of the funds appropriated by this act may be used for construction of a chemical munitions demilitarization facility at Lexington-Blue Grass Army Depot, Kentucky.

MILITARY CONSTRUCTION, NAVY

For acquisition, construction, installation, and equipment of temporary or permanent public works, naval installations, facilities, and real property for the Navy as currently authorized by law, including personnel in the Naval Facilities Engineering Command and other personal services necessary for the purposes of this appropriation, $1,534,592,000, to remain available until September 30, 1989: Provided, That of this amount, not to exceed $140,900,000 shall be available for study, planning, design, architect and engineer services, as authorized by law, unless the Secretary of Defense determines that additional obligations are necessary for such purposes and notifies the Committees on Appropriations of both Houses of Congress of his determination and the reasons therefor.

MILITARY CONSTRUCTION, AIR FORCE

For acquisition, construction, installation, and equipment of temporary or permanent public works, military installations, facilities, and real property for the Air Force as currently authorized by law, $1,572,655,000 to remain available until September 30, 1989: Provided, That of this amount, not to exceed $143,900,000 shall be available for study, planning, design, architect and engineer services, as authorized by law, unless the Secretary of Defense determines that additional obligations are necessary for such purposes and notifies the Committees on Appropriations of both Houses of Congress of his determination and the reasons therefor.

MILITARY CONSTRUCTION, DEFENSE AGENCIES

For acquisition, construction, installation, and equipment of temporary or permanent public works, installations, facilities, and real property for activities and agencies of the Department of Defense (other than the military departments), as currently authorized by law, $302,198,000 to remain available until September 30, 1989: Provided, That such amounts of this appropriation as may be determined by the Secretary of Defense may be transferred to such appropriations of the Department of Defense available for military construction as he may designate, to be merged with and to be available for the same purposes, and for the same time period, as the appropriation or fund to which transferred: Provided further, That of the amount appropriated, not to exceed $27,500,000 shall be available for study, planning, design, architect and engineer services, as authorized by law, unless the Secretary of Defense determines that additional obligations are necessary for such purposes and notifies the Committees on Appropriations of both Houses of Congress of his determination and the reasons therefor.

NORTH ATLANTIC TREATY ORGANIZATION INFRASTRUCTURE

For the United States share of the cost of multilateral programs for the acquisition or construction of military facilities and installations (including international military headquarters) for the collective defense of the North Atlantic Treaty Area as authorized in military construction Acts and section 2806 of title 10, United States Code, $107,200,000, to remain available until expended.

MILITARY CONSTRUCTION, ARMY NATIONAL GUARD

For construction, acquisition, expansion, rehabilitation, and conversion of facilities for the training and administration of the Army National Guard, and contributions therefor, as authorized by chapter 133 of title 10, United States Code, and military construction authorization Acts, $98,603,000, to remain available until September 30, 1989.

MILITARY CONSTRUCTION, AIR NATIONAL GUARD

For construction, acquisition, expansion, rehabilitation, and conversion of facilities for the training and administration of the Air National Guard, and contributions therefor, as authorized by chapter 133 of title 10, United States Code, and military construction authorization Acts, $111,200,000, to remain available until September 30, 1989.

MILITARY CONSTRUCTION, ARMY RESERVE

For construction, acquisition, expansion, rehabilitation, and conversion of facilities for the training and administration of the Army Reserve as authorized by chapter 133 of title 10, United States Code, and military construction authorization Acts, $69,306,000, to remain available until September 30, 1989.

MILITARY CONSTRUCTION, NAVAL RESERVE

For construction, acquisition, expansion, rehabilitation, and conversion of facilities for the training and administration of the reserve components of the Navy and Marine Corps as authorized by chapter 133 of title 10, United States Code, and military construction authorization Acts, $60,800,000, to remain available until September 30, 1989.

MILITARY CONSTRUCTION, AIR FORCE RESERVE

For construction, acquisition, expansion, rehabilitation, and conversion of facilities for the training and administration of the Air Force Reserve as authorized by chapter 133 of title 10, United States Code, and military construction authorization Acts, $67,800,000, to remain available until September 30, 1989.

FAMILY HOUSING, ARMY

For expenses of family housing for the Army for construction, including acquisition, replacement, addition, expansion, extension and alteration and for operation and maintenance, including debt payment, leasing, minor construction, principal and interest charges, and insurance premiums, as authorized by law, as follows: for Construction, $143,215,000; for Operation and maintenance, $1,183,300,000; for debt payment, $21,917,000; in all $1,348,432,000: Provided, That the amount provided for construction shall remain available until September 30, 1989.

FAMILY HOUSING, NAVY AND MARINE CORPS

For expenses of family housing for the Navy and Marine Corps for construction, including acquisition, replacement, addition, expansion, extension and alteration and for operation and maintenance, including debt payment, leasing, minor construction, principal and interest charges, and insurance premiums, as authorized by law, as follows: for Construction, $117,027,000; for Operation and maintenance, $538,602,000; for debt payment, $25,446,000; in all $681,075,000: Provided, That the amount provided for construction shall remain available until September 30, 1989.

FAMILY HOUSING, AIR FORCE

For expenses of family housing for the Air Force for construction, including acquisition, replacement, addition, expansion, extension and alteration and for operation and maintenance, including debt payment, leasing, minor construction, principal and interest charges, and insurance premiums, as authorized by law, as follows: for Construction, $181,123,000; for Operation and maintenance, $700,940,000; for debt payment, $29,980,000; in all $912,043,000: Provided, That the amount provided for construction shall remain available until September 30, 1989.

FAMILY HOUSING, DEFENSE AGENCIES

For expenses of family housing for the activities and agencies of the Department of Defense (other than the military departments) for construction, including acquisition, replacement, addition, expansion, extension and alteration and for operation and maintenance, leasing, and minor construction, as authorized by law, as follows: for Construction, $707,000; for Operation and maintenance, $16,730,000; in all $17,437,000: Provided, That the amount provided for construction shall remain available until September 30, 1989.

GENERAL PROVISIONS

SEC. 101. Funds appropriated to the Department of Defense for construction in prior years are hereby made available for construction authorized for each such department by the authorizations enacted into law during the second session of the Ninety-eighth Congress.

SEC. 102. None of the funds appropriated in this Act shall be expended for payments under a cost-plus-a-fixed-fee contract for work, where cost estimates exceed $25,000, to be performed within the United States, except Alaska, without the specific approval in writing of the Secretary of Defense setting forth the reasons therefor.

SEC. 103. Funds herein appropriated to the Department of Defense for construction shall be available for hire of passenger motor vehicles.

SEC. 104. Funds appropriated to the Department of Defense for construction may be

used for advances to the Federal Highway Administration, Department of Transportation, for the construction of access roads as authorized by section 210 of title 23, United States Code, when projects authorized therein are certified as important to the national defense by the Secretary of Defense.

SEC. 105. None of the funds appropriated in this Act may be used to begin construction of new bases inside the continental United States for which specific appropriations have not been made.

SEC. 106. No part of the funds provided in this Act shall be used for purchase of land or land easements in excess of 100 per centum of the value as determined by the Corps of Engineers or the Naval Facilities Engineering Command, except: (a) where there is a determination of value by a Federal court, or (b) purchases negotiated by the Attorney General or his designee, or (c) where the estimated value is less than $25,000, or (d) as otherwise determined by the Secretary of Defense to be in the public interest.

SEC. 107. None of the funds appropriated in this Act shall be used to (1) acquire land, (2) provide for site preparation, or (3) install utilities for any family housing, except housing for which funds have been made available in annual military construction appropriation Acts.

SEC. 108. None of the funds appropriated in this Act for minor construction may be used to transfer or relocate any activity from one base or installation to another, without prior notification to the Committees on Appropriations.

SEC. 109. None of the funds appropriated or otherwise made available under this Act shall be obligated or expended in connection with any base realignment or closure activity, until all terms, conditions and requirements of the National Environmental Policy Act have been complied with, with respect to each such activity.

SEC. 110. No part of the funds appropriated in this Act may be used for the procurement of steel for any construction project or activity for which American steel producers, fabricators, and manufacturers have been denied the opportunity to compete for such steel procurement.

SEC. 111. No part of the funds appropriated in this Act for dredging in the Indian Ocean may be used for the performance of the work by foreign contractors: Provided, That the low responsive bid of a United States contractor does not exceed the lowest responsive bid of a foreign contractor by greater than twenty per centum.

SEC. 112. No part of the funds appropriated in this Act may be obligated for construction of any site-specific facilities for the MX missile system until all terms, conditions, and requirements of the National Environmental Policy Act (42 U.S.C. 4332) are met.

SEC. 113. None of the funds available to the Department of Defense for military construction or family housing during the current fiscal year may be used to pay real property taxes in any foreign nation.

SEC. 114. No part of the funds appropriated in this Act may be used to pay the compensation of an officer of the Government of the United States or to reimburse a contractor for the employment of a person for work in the continental United States by any such person if such person is an alien who has not been lawfully admitted to the United States.

SEC. 115. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. 116. Notwithstanding any other provision of law, any funds appropriated to a military department or defense agency for the construction of military projects may be obligated for a military construction project or contract, or for any portion of such a project or contract, at any time before the end of the fourth fiscal year after the fiscal year for which funds for such project were appropriated if the funds obligated for such project (1) are obligated from funds available for military construction projects, and (2) do not exceed the amount appropriated for such projects, plus any amount by which the cost of such project is increased pursuant to law.

SEC. 117. None of the funds appropriated in this Act may be obligated or expended in any way for the express purpose of the sale, lease, or rental of any portion of land currently identified as Fort DeRussy, Honolulu, Hawaii.

SEC. 118. None of the funds in this Act may be used to initiate a new installation overseas without prior notification to the Committees on Appropriations.

SEC. 119. None of the funds appropriated in this Act for F-16 beddown projects at Misawa, Japan, may be obligated or expended unless there has been notification to the Committees on Appropriations that the approved Government of Japan budget for fiscal year 1985 includes projects associated with the F-16 beddown as an additive over the level of funding provided in Japanese fiscal year 1984 for the facilities improvement program.

SEC. 120. None of the funds appropriated in this Act may be obligated for contracts estimated by the Government to exceed $10,000,000 for military construction projects to be accomplished in Japan or in any NATO member country if that country has not increased its defense spending by at least 3 per centum in calendar year 1983, as certified by the Secretary of Defense, unless such contracts require that all installed equipment utilized in such projects have been manufactured in the United States.

SEC. 121. None of the funds appropriated in this Act may be obligated for architect and engineer contracts estimated by the Government to exceed $1,000,000 for projects to be accomplished in Japan or in any NATO member country if that country has not increased its defense spending by at least 3 per centum in calendar year 1983, as certified by the Secretary of Defense, unless such contracts are awarded to United States firms or United States firms in joint venture with host nation firms.

SEC. 122. None of the funds appropriated in this Act for military construction in the United States territories and possessions in the Pacific and on Kwajalein Island may be used to award any contract estimated by the Government to exceed $5,000,000 to a foreign contractor: Provided, That this section shall not be applicable to contract awards for which the lowest responsive bid of a United States contractor exceeds the lowest reponsive bid of a foreign contractor by greater than 20 per centum.

SEC. 123. The Secretary of Defense is to inform the Committees on Appropriations and Committees on Armed Services of the plans and scope of any proposed military exercise involving United States personnel prior to its occurring, if amounts expended for construction, either temporary or permanent, are anticipated to exceed $100,000.

SEC. 124. Unexpended balances in the Military Family Housing Management Account established pursuant to section 2831 of title 10, United States Code, as well as any additional amounts which would otherwise be transferred to the Military Family Housing Management Account during fiscal year 1985, shall be transferred to the appropriations for Family Housing provided in this Act, as determined by the Secretary of Defense, based on the sources from which the funds were derived, and shall be available for the same purposes, and for the same time period, as the appropriation to which they have been transferred.

SEC. 125. (a) None of the funds appropriated in this Act may be available for any country if the President determines that the government of such country is failing to take adequate measures to prevent narcotic drugs or other controlled substances cultivated or produced or processed illicitly, in whole or in part, in such country, or transported through such country, from being sold illegally within the jurisdiction of such country to United States personnel or their dependents, or from being smuggled into the United States. Such prohibition shall continue in force until the President determines and reports to the Congress in writing that—

(1) the government of such country has prepared and committed itself to a plan presented to the Secretary of State that would eliminate the cause or basis for the application to such country of the prohibition contained in the first sentence; and

(2) the government of such country has taken appropriate law enforcement measures to implement the plan presented to the Secretary of State.

(b) The provisions of subsection (a) shall not apply in the case of any country with respect to which the President determines that the application of the provisions of such subsection would be inconsistent with the national security interests of the United States.

SEC. 126. Of the total amount of budget authority provided for fiscal year 1985 by this Act that would otherwise be available for consulting services, management and professional services, and special studies and analyses, 10 per centum of the amount intended for such purposes in the President's budget for 1985, as amended, for any agency, department or entity subject to apportionment by the Executive shall be placed in reserve and not made available for obligation or expenditure: Provided, That this section shall not apply to any agency, department or entity whose budget request for 1985 for the purposes stated above did not amount to $5,000,000.

SEC. 127. It is the sense of the Congress that the administration should call on the pertinent member nations of the North Atlantic Treaty Organization and on Japan to meet or exceed their pledges for at least a 3 per centum real increase in defense spending and furtherance of increased unity, equitable sharing of our common defense burden, and international stability.

This Act may be cited as the "Military Construction Appropriations Act, 1985".

And the Senate agree to the same.

Amendment numbered 25:

That the House recede from its disagreement to the amendment of the Senate num-

bered 25, and agree to the same with an amendment, as follows:

Delete the matter stricken by said amendment and delete the matter inserted by said amendment; and the Senate agree to the same.

Amendment numbered 26:

That the House recede from its disagreement to the amendment of the Senate numbered 26, and agree to the same with an amendment, and follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

(1) Such amounts as may be necessary for projects or activities provided for in the Foreign Assistance and Related Programs Appropriations Act, 1985, at a rate for operations and to the extent in the following Act; this subsection shall be effective as if it had been enacted into law as the regular appropriation Act:

An Act making appropriations for foreign assistance and related programs for the fiscal year ending September 30, 1985, and for other purposes, namely:

TITLE I—MULTILATERAL ECONOMIC ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

INTERNATIONAL FINANCIAL INSTITUTIONS

CONTRIBUTION TO THE INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT

For payment to the International Bank for Reconstruction and Development by the Secretary of the Treasury, for the United States share of the paid-in share portion of the increase in capital stock as authorized by the International Financial Institutions Act, $109,721,549 for the General Capital Increase, as authorized by section 39 of the Bretton Woods Agreements Act, as amended (Public Law 79-171), to remain available until expended: Provided, That no such payment may be made while the United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level IV of the Executive Schedule under section 5315 of title 5, United Stats Code, or while the alternate United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level V of the Executive Schedule under section 5316 of title 5, United States Code.

Limitation on callable capital subscriptions

The United States Governor of the International Bank for Reconstruction and Development may subscribe without fiscal year limitation to the callable capital portion of the United States share of increases in capital stock in an amount not to exceed $1,353,220,096.

CONTRIBUTION TO THE INTERNATIONAL DEVELOPMENT ASSOCIATION

For payment to the International Development Association by the Secretary of the Treasury, $750,000,000, for the first installment of the United States contribution to the seventh replenishment, to remain available until expended, and $150,000,000 for the United States contribution to the sixth replenishment, to remain available until expended: Provided, That no such payment may be made while the United States Executive Director to the International Bank for Reconstruction and Development is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level IV of the Executive Schedule under section 5315 of title 5, United States Code, or while the alternate United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level V of the Executive Schedule under section 5316 of title 5, United States Code: Provided further, That there is hereby enacted into law the amendment made by section 901 of S. 2582, as reported by the Committee on Foreign Relations of the Senate on April 18, 1984, except for subsection (c) of the section enacted by this proviso: Provided further, That the Secretary of the Treasury shall instruct the United States Executive Director to undertake negotiations to ensure, to the maximum extent possible consistent with the effective use of resources, that the amount of development credits made available to sub-Saharan Africa through the seventh replenishment shall equal or exceed the amount of development credits made available to sub-Saharan Africa through the sixth replenishment.

CONTRIBUTION TO THE INTER-AMERICAN DEVELOPMENT BANK

For payment to the Inter-American Development Bank by the Secretary of the Treasury for the United States share of the increase in the resources of the Fund for Special Operations, as authorized by the Inter-American Development Bank Act, as amended (Public Law 86-147), $72,500,000 to remain available until expended; and $38,000,983 for the United States share of the increase in paid-in capital stock to remain available until expended; and $10,000,000 for the United States share of the capital stock of the Inter-American Investment Corporation to remain available until expended: Provided, That there is hereby enacted into law title II of S. 2416, as introduced in the Senate on March 13, 1984: Provided further, That no such payment may be made while the United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level IV of the Executive Schedule under section 5315 of title 5, United States Code, or while the alternate United States Executive Director for the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level V of the Executive Schedule under section 5316 of title 5, United States Code.

Limitation on callable capital subscriptions

The United States Governor of the Inter-American Development Bank may subscribe without fiscal year limitation to the callable capital portion of the United States share of such increase in capital stock in an amount not to exceed $806,464,582.

CONTRIBUTION TO THE ASIAN DEVELOPMENT BANK

For payment to the Asian Development Bank by the Secretary of the Treasury, for the paid-in share portion of the United States share of the increase in capital stock, $13,232,676 to remain available until expended; and for the United States contribution to the increases in resources of the Asian Development Fund, as authorized by the Asian Development Bank Act, as amended (Public Law 98-369), $100,000,000, to remain available until expended: Provided, That no such payment may be made while the United States Director of the Bank is compensated by the Bank at a rate which, together with whatever compensation such Director receives from the United States, is in excess of the rate provided for an individual occupying a position at level IV of the Executive Schedule under section 5315 of title 5, United States Code, or while any alternate United States Director to the Bank is compensated by the Bank in excess of the rate provided for an individual occupying a position at level V of the Executive Schedule under section 5316 of title 5, United States Code.

Limitation on callable capital subscriptions

The United States Governor of the Asian Development Bank may subscribe without fiscal year limitation to the callable capital portion of the United States share of such increase in capital stock in an amount not to exceed $251,367,220.

CONTRIBUTION TO THE AFRICAN DEVELOPMENT FUND

For payment to the African Development Fund by the Secretary of the Treasury, $50,000,000, for the United States contribution to the third replenishment of the African Development Fund, to remain available until expended.

CONTRIBUTION TO THE AFRICAN DEVELOPMENT BANK

For payment to the African Development Bank by the Secretary of the Treasury, for the paid-in share portion of the United States share of the increase in capital stock, $17,987,678 to remain available until expended: Provided, That no such payment may be made while the United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level IV of the Executive Schedule under section 5315 of title 5, United States Code, or while the alternate United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level V of the Executive Schedule under section 5316 of title 5, United States Code.

LIMITATION ON CALLABLE CAPITAL SUBSCRIPTIONS

The United States Governor of the African Development Bank may subscribe without fiscal year limitation to the callable capital portion of the United States share of such capital stock in an amount not to exceed $53,960,036.

INTERNATIONAL ORGANIZATIONS AND PROGRAMS

For necessary expenses to carry out the provisions of sections 301 and 103(g) of the Foreign Assistance Act of 1961, and of section 2 of the United Nations Environment Program Participation Act of 1983, $358,676,500: Provided, That no funds shall be available for the United Nations Fund for Science and Technology: Provided further, That the total amount of funds made available by this paragraph shall be available only as follows: $165,000,000 for the United Nations Development Program; $53,500,000 for the United Nations Children's Fund; $2,000,000 for the World Food Program; $2,000,000 for the United Nations Capital Development Fund; $500,000 for the United Nations Voluntary Fund for the Decade for Women; $2,000,000 for the World Meteorological Organization Voluntary Cooperation Program; $14,814,000 for the International Atomic Energy Agency; $10,000,000 for the United Nations Environment Program; $1,000,000 for the United Nations Educational and Training Program for South Africa; $500,000 for the United Nations Institute for Namibia; $343,000 for the United Nations Trust Fund for South Africa; $422,000 for the United Nations Institute for Training and Research; $200,000 for the Convention on International Trade in En-

dangered Species; $90,000,000 for the International Fund for Agricultural Development; $449,000 for the United Nations Fellowship Program; $100,000 for the UNIDO Investment Promotion Service; $248,500 for the World Heritage Fund; $100,000 for the United Nations Voluntary Fund for Victims of Torture; and $15,500,000 for the Organization of American States.

TITLE II—BILATERAL ECONOMIC ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

For expenses necessary to enable the President to carry out the provisions of the Central America Democracy, Peace and Development Initiative Act of 1984, the Foreign Assistance Act of 1961, and for other purposes, to remain available until September 30, 1985, unless otherwise specified herein, as follows:

AGENCY FOR INTERNATIONAL DEVELOPMENT

Agriculture, rural development and nutrition, Development Assistance: For necessary expenses to carry out the provisions of section 103, $745,551,000: Provided, That of this amount the funds provided for loans shall remain available for obligation until September 30, 1986: Provided further, That notwithstanding any other provision of law, up to $10,000,000 of the funds appropriated under this heading may be available for agricultural activities in Poland which are managed by the Polish Catholic Church or other nongovernmental organizations, which sum shall remain available until September 30, 1986, except that $5,000,000 of the funds made available by this proviso may not be obligated or expended until October 1, 1985: Provided further, That of the funds made available under this paragraph not more than $1,700,000 shall be available for Uganda except as provided through the regular notification process of the Committees on Appropriations: Provided further, That in addition to amounts otherwise appropriated by this Act to carry out the provisions of section 103, there is hereby appropriated $10,000,000 which shall be used only for nutrition activities not previously justified to the Committees on Appropriations, with such assistance to be provided through private and voluntary organizations and international organizations wherever appropriate.

Population, Development Assistance: For necessary expenses to carry out the provisions of section 104(b), $290,000,000: Provided, That of this amount the funds provided for loans shall remain available for obligation until September 30, 1986: Provided further, That none of the funds appropriated under this heading may be available for the World Health Organization's Special Program of Research, Development and Research Training in Human Reproduction: Provided further, That not less than $46,000,000 or 16 percent of the amount appropriated under this paragraph, whichever is lower, shall be available only to support the United Nations Fund for Population Activities: Provided further, That none of the funds appropriated under this paragraph may be available to any country which includes as part of its population planning programs involuntary abortion: Provided further, That none of the funds appropriated under this paragraph may be available to any organization which includes as part of its population planning programs involuntary abortion: Provided further, that it is the sense of the House of Representatives to reaffirm its commitment to United States population assistance, as authorized by section 104 of the Foreign Assistance Act of 1961 and as appropriated by the Foreign Assistance and Related Programs Appropriations Act, 1982. It is further the sense of the House of Representatives that United States population assistance shall be administered in accordance with and faithful to these laws as interpreted by AID's 1982 "Policy Paper: Population Assistance" and that no funds shall be denied to multilateral as well as nongovernmental and private and voluntary organizations because of their participation, paid for by funds other than those appropriated by the Congress, in activities conducted in accordance with all applicable United States Federal laws and regulations.

Health, Development Assistance: For necessary expenses to carry out the provisions of section 104(c), $173,138,000: Provided, That of this amount the funds provided for loans shall remain available for obligation until September 30, 1986: Provided further, That not less than $42,000,000 of the funds appropriated under this paragraph shall be available only for Africa: Provided further, That in addition to amounts otherwise appropriated by this Act to carry out the provisions of section 104(c) there is hereby appropriated $50,000,000, which shall be available only for the delivery of primary and related health care services, and basic health care education (primarily oral rehydration and immunization programs) activities not previously justified to the Committees on Appropriations, with such assistance to be provided through private and voluntary organizations and international organizations wherever appropriate.

Child Survival Fund: For necessary expenses to carry out the provisions of the "Child Survival Fund", $25,000,000.

Education and human resources development, Development Assistance: For necessary expenses to carry out the provisions of section 105, $188,833,000: Provided, That of this amount the funds provided for loans shall remain available for obligation until September 30, 1986: Provided further, That $4,000,000 of this amount shall be available only for scholarships for South African students in accordance with the last sentence of section 105(a) of the Foreign Assistance Act of 1961 (as added by title III of the International Security and Development Cooperation Act of 1981).

Energy and selected development activities, Development Assistance: For necessary expenses to carry out the provisions of section 106, $190,000,000: Provided, That of this amount the funds provided for loans shall remain available for obligation until September 30, 1986: Provided, further, That of the funds appropriated under this paragraph, $2,000,000 shall be transferred to and made available for "Science and technology, Development Assistance", which sum shall be made available only for cooperative projects among the United States, Israel and developing countries.

Transfer of funds for Zimbabwe: Of the funds appropriated to carry out the provisions of sections 103 through 106, $15,000,000 previously justified to the Committees on Appropriations shall be transferred to the Economic Support Fund for Zimbabwe.

Central America Development Assistance: Of the funds appropriated to carry out the provisions of sections 103 through 106, not more than $225,000,000 shall be available for Central America except as provided through the regular notification process of the Committee on Appropriations.

Private and Voluntary Organizations: None of the funds appropriated or otherwise made available in this Act for development assistance may be made available after January 1, 1986, to any United States private and voluntary organization, except any cooperative development organization, which obtains less than 25 percent of its total annual funding for international activities from sources other than the United States Government, notwithstanding section 123(g) of the Foreign Assistance Act of 1961.

Science and technology, Development Assistance: For necessary expenses to carry out the provisions of section 106, $10,000,000: Provided, That the amount provided for loans to carry out the purposes of this paragraph shall remain available for obligation until September 30, 1986.

Private sector revolving fund: For necessary expenses to carry out the provisions of section 108 of the Foreign Assistance Act of 1961, as amended, not to exceed $20,000,000 to be derived by transfer from funds appropriated to carry out the provisions of chapter 1 of part I of such Act, to remain available until expended. During 1985, obligations for assistance from amounts in the revolving fund account under section 108 shall not exceed $20,000,000.

Loan allocation, Development Assistance: In order to carry out the provisions of part I, the Administrator of the Agency responsible for administering such part may furnish loan assistance pursuant to existing law and on such terms and conditions as he may determine: Provided, That to the maximum extent practicable, loans to private sector institutions, from funds made available to carry out the provisions of sections 103 through 106, shall be provided at or near the prevailing interest rate paid on Treasury obligations of similar maturity at the time of obligating such funds: Provided further, That loans made to countries whose annual per capita gross national product is greater than $805 but less than $1301 shall be repayable within twenty-five years following the date on which funds are initially made available under such loans and loans to countries whose annual per capita gross national product is greater than or equal to $1301 shall be repayable within twenty years following the date on which funds are initially made available under such loans.

American schools and hospitals abroad: For necessary expenses to carry out the provisions of section 214, $30,000,000: Provided, That the Secretary of State shall conduct a study addressing what means would be most appropriate to continue financial assistance to the American University of Beirut and the American University of Cairo in future years in view of the value of the Universities to the interests of the United States in the Middle East, including the possibility of establishing a trust fund: Provided further, That the results of this study shall be provided to the chairmen of the Committee on Appropriations and the Committee on Foreign Affairs of the House of Representatives and the chairmen of the Committee on Appropriations and the Committee on Foreign Relations of the Senate no later than January 1, 1985: Provided further, That the Secretary is directed to consult with the Committees on Appropriations during the development of this study.

International disaster assistance: For necessary expenses to carry out the provisions of section 491, $25,000,000, to remain available until expended.

Sahel development program: For necessary expenses to carry out the provisions of sec-

tion 121, $97,500,000, to remain available until expended: Provided, That no part of such appropriation may be available to make any contribution of the United States to the Sahel development program in excess of 10 percent of the total contributions to such program.

Overseas training and special development activities (foreign currency program): For necessary expenses as authorized by section 612, $1,100,000 in foreign currencies which the Treasury Department declares to be excess to the normal requirements of the United States.

Payment to the Foreign Service Retirement and Disability Fund: For payment to the "Foreign Service Retirement and Disability Fund", as authorized by the Foreign Service Act of 1980, $40,562,000.

Economic support fund: For necessary expenses to carry out the provisions of chapter 4 of part II, $3,826,000,000: Provided, That of the funds appropriated under this paragraph, not less than $1,200,000,000 shall be available only for Israel, which sum shall be available on a grant basis as a cash transfer and shall be provided before January 1, 1985: Provided further, That not less than $815,000,000 shall be available only for Egypt, which sum shall be provided on a grant basis and of which $100,000,000 shall be provided as cash transfer: Provided further, That it is the sense of the Congress that the recommended levels of assistance for Egypt are based in great measure upon the continued participation of Egypt in the Camp David Accords and upon the Egyptian-Israeli peace treaty; and that Egypt and Israel are urged to renew actively their efforts to restore a full diplomatic relationship and achieve realization of the Camp David Accords: Provided further, That $75,000,000 of the funds appropriated under this paragraph shall be made available for programs or activities for sub-Saharan Africa not previously justified to the Committees on Appropriations: Provided further, That not more than $195,000,000 of the funds appropriated under this paragraph shall be provided for El Salvador: Provided further, That any of the funds appropriated under this paragraph for El Salvador which are placed in the Central Reserve Bank of El Salvador shall be maintained in a separate account and not commingled with any other funds, except that such funds may be obligated and expended notwithstanding provisions of law, which are inconsistent with the cash transfer nature of this assistance, or which are referenced in the Joint Explanatory Statement of the Committee of Conference accompanying House Joint Resolution 648: Provided further, That notwithstanding section 660 of the Foreign Assistance Act of 1961, not less than $6,000,000 shall be available for programs and projects in El Salvador to promote the creation of judicial investigative capabilities, protection for key participants in pending judicial cases, and modernization of penal and evidentiary codes: Provided further, That $15,000,000 shall be available only for Cyprus, and that none of these funds shall be used to support refugee housing construction or rent subsidies: Provided further, That not less than $20,000,000 shall be available only for Tunisia: Provided further, That not less than $5,000,000 shall be available only to assist Central American countries to develop energy self-sufficiency, to identify and utilize indigenous resources to improve economic development, and to reduce reliance on imported energy: Provided further, That none of the funds appropriated under this paragraph shall be available for the Central American Regional Program except as provided through the regular notification process of the Committees on Appropriations: Provided further, That not more than $12,500,000 of the funds appropriated under this paragraph shall be available for Guatemala, and that such funds may be made available only for development activities consistent with the objectives of sections 103 through 106 of the Foreign Assistance Act of 1961 that are aimed directly at improving the lives of the poor in that country, especially the indigenous population in the highlands: Provided further, That none of the funds appropriated under this paragraph shall be available for Guatemala except in accordance with the regular notification process of the Committees on Appropriations: Provided further, That not more than $10,000,000 of the funds appropriated under this paragraph shall be available for Zaire.

Peacekeeping operations: For necessary expenses to carry out the provisions of section 551, $44,000,000.

Operating expenses of the Agency for International Development: For necessary expenses to carry out the provisions of section 667, $391,533,250: Provided, That not more than $20,000,000 of this amount shall be for Foreign Affairs Administrative Support: Provided further, That none of the funds appropriated or made available (other than funds appropriated or made available by this paragraph) pursuant to this Act for carrying out the foreign Assistance Act of 1961, may be used for the operating expenses of the Agency for International Development: Provided further, That except to the extent that the Administrator of the Agency for International Development determines otherwise, not less than 10 percent of the aggregate of the funds made available for the fiscal year 1985 to carry out chapter 1 of part I of the Foreign Assistance Act of 1961 shall be made available only for activities of economically and socially disadvantaged enterprises (within the meaning of section 133 (c)(5) of the International Development and Food Assistance Act of 1977), historically black colleges and universities, and private and voluntary organizations which are controlled by individuals who are black Americans, Hispanic Americans, or Native Americans, or who are economically and socially disadvantaged (within the meaning of section 133(c)(5) (B) and (C) of the International Development and Food Assistance Act of 1977). For purposes of this section, economically and socially disadvantaged individuals shall be deemed to include women.

Trade credit insurance program: During the fiscal year 1985, total commitments to guarantee or insure loans for the "Trade credit insurance program" shall not exceed $300,000,000 of contingent liability for loan principal.

Trade and development: For necessary expenses to carry out the provisions of section 661, $21,000,000.

Housing and other credit guaranty programs: For payment to the reserve fund established by section 223 of the Foreign Assistance Act of 1961, $40,000,000, to remain available until expended: Provided, That such amounts shall be available for expenditure in discharge of guarantees extended prior to enactment of this Act. During the fiscal year 1985, total commitments to guarantee loans shall not exceed $160,000,000 of contingent liability for loan principal.

AFRICAN DEVELOPMENT FOUNDATION

For necessary expenses to carry out the provisions of title V of the International Security and Development Cooperation Act of 1980, Public Law 96-533, and to make such contracts and commitments without regard to fiscal year limitations, as provided by section 9104, title 31, United States Code, $1,000,000: Provided, That the unobligated balances as of September 30, 1984, of funds heretofor made available for the African Development Foundation are hereby continued available for the fiscal year 1985 for the use of the African Development Foundation.

INTER-AMERICAN FOUNDATION

For expenses necessary to carry out the functions of the Inter-American Foundation in accordance with the provisions of section 401 of the Foreign Assistance Act of 1969, and to make such contracts and commitments without regard to fiscal year limitations, as provided by section 9104, title 31, United States Code, $11,992,000.

OVERSEAS PRIVATE INVESTMENT CORPORATION

The Overseas Private Investment Corporation is authorized to make such expenditures within the limits of funds available to it and in accordance with law (including not to exceed $35,000 for official reception and representation expenses), and to make such contracts and commitments without regard to fiscal year limitations, as provided by section 9104 of title 31, United States Code, as may be necessary in carrying out the program set forth in the budget for the current fiscal year.

During the fiscal year 1985 and within the resources and authority available, gross obligations for the amount of direct loans shall not exceed $15,000,000.

During the fiscal year 1985, total commitments to guarantee loans shall not exceed $150,000,000 of contingent liability for loan principal.

INDEPENDENT AGENCY

PEACE CORPS

For expenses necessary to carry out the provisions of the Peace Corps Act (75 Stat. 612), $128,600,000: Provided, That none of the funds appropriated in this paragraph shall be used to pay for abortions.

DEPARTMENT OF STATE

INTERNATIONAL NARCOTICS CONTROL

For necessary expenses to carry out the provisions of section 481, $50,217,000.

MIGRATION AND REFUGEE ASSISTANCE

For expenses, not otherwise provided for, necessary to enable the Secretary of State to provide, as authorized by law, a contribution to the International Committee of the Red Cross and assistance to refugees, including contributions to the Intergovernmental Committee for European Migration and the United Nations High Commissioner for Refugees; salaries and expenses of personnel and dependents as authorized by the Foreign Service Act of 1980, allowances as authorized by sections 5921 through 5925 of title 5, United States Code; hire of passenger motor vehicles; and services as authorized by section 3109 of title 5, United States Code; $325,500,000: Provided, That not less than $15,000,000 shall be available for Soviet, Eastern European and other refugees resettling in Israel, of which $2,500,000 shall be available for Ethiopian Jews: Provided further, That these funds shall be administered in a manner that insures equity in the treatment of all refugees receiving Federal assistance: Provided further, That no funds

herein appropriated shall be used to assist directly in the migration to any nation in the Western Hemisphere of any person not having a security clearance based on reasonable standards to insure against Communist infiltration in the Western Hemisphere: Provided further, That no more than $8,150,396 of the funds appropriated under this heading shall be available for the administrative expenses of the Office of Refugee Programs of the Department of State.

ANTI-TERRORISM ASSISTANCE

For necessary expenses to carry out the provisions of chapter 8 of part II, $5,000,000.

TITLE III—MILITARY ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

MILITARY ASSISTANCE

For necessary expenses to carry out the provisions of section 503 of the Foreign Assistance Act of 1961, including administrative expenses and purchase of passenger motor vehicles for replacement only for use outside of the United States, $805,100,000: Provided, That of the funds appropriated under this paragraph, not more than $111,750,000 shall be available for El Salvador and not more than $215,000,000 shall be available for Turkey: Provided further, That of the funds appropriated under this paragraph, not more than $4,000,000 shall be available for Zaire, except as provided through the regular notification process of the Committees on Appropriations: Provided further, That of the funds provided for El Salvador under this paragraph half the amount shall be available for obligation and expenditure October 1, 1984, and the remaining half March 1, 1985: Provided further, That in the event of an emergency certified by the President funds herein appropriated to be obligated for El Salvador after March 1, 1985, may be obligated in advance of that date, only if the Committees on Appropriations are notified at least fifteen days in advance: Provided further, That before the date of March 1, 1985, the administration shall consult with the Committees on Appropriations in regard to reduction and punishment of death squad activities, elimination of corruption and misuse of governmental funds, development of an El Salvadoran plan to improve the performance of the military, and progress toward discussions leading to a peaceful resolution of the conflict, with it being the direction of the Congress of the United States that military assistance funds available in the second half of fiscal year 1985 for El Salvador not be obligated until substantial progress has been made on each of the above points: Provided further, That $5,000,000 of the amount made available by this Act for military assistance and financing for El Salvador under chapters 2 and 5 of part II of the Foreign Assistance Act of 1961 and under the Arms Export Control Act may not be expended until the Government of El Salvador has (1) substantially concluded all investigative action with respect to those responsible for the January, 1981 deaths of the two United States land reform consultants Michael Hammer and Mark Pearlman and the Salvadoran Land Reform Institute Director Jose Rodolfo Viera, and (2) brought the accused to trial and obtained a verdict: Provided further, That funds appropriated under this paragraph may be made available for Turkey only if the President certifies to the Congress (a) that the United States Government is acting with urgency and determination to oppose any actions aimed at effecting a permanent bifurcation of Cyprus; and is calling upon the Government of Turkey to take without delay all necessary steps to reverse the illegal action declaring an independent state and to promote, pursuant to pertinent United Nations resolutions, the full political and economic unity of the Republic of Cyprus; and (b) that Turkey is making efforts to ensure that the Turkish Cypriot community is not taking any actions with regard to the region of Famagusta/Varosha which would prejudice the outcome or otherwise impede intercommunal talks on the future of Cyprus: Provided further, That none of the funds made available by this paragraph may be obligated or expended for the construction or operation of a Regional Military Training Center in Honduras except as provided through the regular notification process of the Committees on Appropriations and until the President provides to the Committees on Appropriations of the Senate and the House of Representatives (1) a report that the Government of Honduras has provided a site for such a Center and assumed responsibility for any competing claims to rights of use or ownership of such site, and has provided written assurances to make that site available on a long-term basis for training by the armed forces of other friendly countries in the region as well as those of Honduras; (2) a detailed plan, with specific cost estimates, for the construction of such a Center at the site provided by the Government of Honduras; and (3) a determination that the Government of Honduras recognizes the need to compensate as required by international law the United States citizen who claims injury from the establishment and operation of the existing Center, and that it is taking appropriate steps to discharge its obligations under international law, in particular the Treaty of Friendship, Commerce and Consular Rights with the United States, as well as its letter of December 14, 1983, to the United States Trade Representative: Provided further, That the President shall report to the Committees sixty days after the passage of this resolution and again in one hundred and twenty days on progress in resolving this claim; in one hundred and eighty days, the President shall report on the resolution of the claim or, if Honduras has failed to resolve the claim, on the actions which he proposes to take in response to the situation and in particular actions with respect to the granting of preferential trade benefits under the Caribbean Basin Initiative, disbursement of economic support funds or any other funds provided under this resolution and review of the status of Honduras under other, expropriation-related legislation.

SPECIAL DEFENSE ACQUISITION FUND

(LIMITATION ON OBLIGATIONS)

There are authorized to be made available for the Special Defense Acquisition Fund for the fiscal year 1985, $325,000,000.

INTERNATIONAL MILITARY EDUCATION AND TRAINING

For necessary expenses to carry out the provisions of section 541, $56,221,000.

FOREIGN MILITARY CREDIT SALES

For necessary expenses to enable the President to carry out the provisions of section 23 of the Arms Export Control Act, $4,939,500,000, of which not less than $1,400,000,000 shall be available only for Israel and not less than $1,175,000,000 shall be available only for Egypt: Provided, That of the amount made available for Israel under this paragraph, up to $150,000,000 shall be made available for research and development activities in the United States for the Lavi program, and not less than $250,000,000 shall be for the procurement in Israel of defense articles and services, including research and development, for the Lavi program: Provided further, That during fiscal year 1985, gross obligations for the principal amount of direct loans, exclusive of loan guarantee defaults, shall not exceed $4,939,500,000: Provided further, That section 102 of S. 2346, as introduced on February 27, 1984, is hereby enacted: Provided further, That credits (or participation in credits) extended under this Act for Greece for the fiscal year 1985 shall be at a rate of interest equal to the rate of interest charged on such credits extended for Turkey for the fiscal year 1985: Provided further, That no credits may be extended and no guarantees may be issued under this paragraph for Turkey for the fiscal year 1985 if the extension of such credits or the issuance of such guarantees would cause the sum of such credits and guarantees provided for Turkey for such fiscal year to exceed $485,000,000: Provided further, That of the funds available in this paragraph not less than $50,000,000 shall be available for Tunisia, not more than $15,000,000 shall be available for the Philippines: Provided further, That none of the funds available in this paragraph shall be available for Guatemala: Provided further, That concessional interest rates available under this paragraph shall not be less than five percent: Provided further, That all country and funding level changes in requested concessional financing allocations shall be submitted through the regular notification process of the Committees on Appropriations: Provided further, That it is the sense of the Congress that no sales of sophisticated weaponry—specifically advanced aircraft, new air defense weapons systems or other new advanced military weapons systems be made to Jordan unless the Government of Jordan is publicly committed to the recognition of Israel and to prompt entry into serious peace negotiations with Israel.

GUARANTEE RESERVE FUND

For necessary expenses to carry out the provisions of section 24 of the Arms Export Control Act, $109,000,000, to remain available until expended: Provided, That this sum is available only for the Guarantee Reserve Fund notwithstanding any other provision of the Foreign Assistance Act of 1961 or the Arms Export Control Act.

TITLE IV—EXPORT-IMPORT BANK OF THE UNITED STATES

The Export-Import Bank of the United States is authorized to make such expenditures within the limits of funds and borrowing authority available to such corporation, and in accordance with law, and to make such contracts and commitments without regard to fiscal year limitations, as provided by section 104 of the Government Corporation Control Act, as may be necessary in carrying out the program set forth in the budget for the current fiscal year for such corporation: Provided, That none of the funds available during the current fiscal year may be used to make expenditures, contracts, or commitments for the export of nuclear equipment, fuel, or technology to any country other than a nuclear-weapon State as defined in article IX of the Treaty on the Non-Proliferation of Nuclear Weapons eligible to receive economic or military assistance under this Act that has detonated a nuclear explosive after the date of enactment of this Act.

LIMITATION OF PROGRAM ACTIVITY

During the fiscal year 1985 and within the resources and authority available, gross obligations for the principal amount of direct loans shall not exceed $3,865,000,000: Provided, That during the fiscal year 1985, total commitments to guarantee loans shall not exceed $10,000,000,000 of contingent liability for loan principal.

LIMITATION ON ADMINISTRATIVE EXPENSES

Not to exceed $18,900,000 (to be computed on an accrual basis) shall be available during the current fiscal year for administrative expenses, including hire of passenger motor vehicles and services as authorized by section 3109 of title 5, United States Code, and not to exceed $16,000 for entertainment allowances for members of the Board of Directors: Provided, That (1) fees or dues to international organizations of credit institutions engaged in financing foreign trade, (2) necessary expenses (including special services performed on a contract or fee basis, but not including other personal services) in connection with the acquisition, operation, maintenance, improvement, or disposition of any real or personal property belonging to the Export-Import Bank or in which it has an interest, including expenses of collections of pledged collateral, or the investigation or appraisal of any property in respect to which an application for a loan has been made, and (3) expenses (other than internal expenses of the Export-Import Bank) incurred in connection with the issuance and servicing of guarantees, insurance, and reinsurance, shall be considered as nonadministrative expenses for the purposes of this paragraph.

TITLE V—GENERAL PROVISIONS

SEC. 501. None of the funds appropriated in this Act (other than funds appropriated for "International organizations and programs") shall be used to finance the construction of any new flood control, reclamation, or other water or related land resource project or program which has not met the standards and criteria used in determining the feasibility of flood control, reclamation, and other water and related land resource programs and projects proposed for construction within the United States of America under the principles, standards and procedures established pursuant to the Water Resources Planning Act (42 U.S.C. 1962, et seq.) or Acts amendatory or supplementary thereto.

SEC. 502. Except for the appropriations entitled "International disaster assistance", "United States emergency refugee and migration assistance fund" and the special requirements fund within the appropriation entitled "Economic support fund", not more than 15 per centum of any appropriation item made available by this Act for the current fiscal year shall be obligated or reserved during the last month of availability.

SEC. 503. None of the funds appropriated in this Act nor any of the counterpart funds generated as a result of assistance hereunder or any prior Act shall be used to pay pensions, annuities, retirement pay, or adjusted service compensation for any person heretofore or hereafter serving in the armed forces of any recipient country.

SEC. 504. None of the funds appropriated or made available pursuant to this Act for carrying out the Foreign Assistance Act of 1961, may be used for making payments on any contract for procurement to which the United States is a party entered into after the date of enactment of this Act which does not contain a provision authorizing the termination of such contract for the convenience of the United States.

SEC. 505. None of the funds appropriated or made available pursuant to this Act for carrying out the Foreign Assistance Act of 1961, may be used to pay in whole or in part any assessments, arrearages, or dues of any member of the United Nations.

SEC. 506. None of the funds contained in title II of this Act may be used to carry out the provisions of section 209(d) of the Foreign Assistance Act of 1961.

SEC. 507. Of the funds appropriated or made available pursuant to this Act, not to exceed $110,000 shall be for official residence expenses of the Agency for International Development during the current fiscal year: Provided, That appropriate steps be taken to assure that, to the maximum extent possible, United States-owned foreign currencies are utilized in lieu of dollars.

SEC. 508. Of the funds appropriated or made available pursuant to this Act, not to exceed $10,000 shall be for entertainment expenses of the Agency for International Development during the current fiscal year.

SEC. 509. Of the funds appropriated or made available pursuant to this Act, not to exceed $100,000 shall be for representation allowances for the Agency for International Development during the current fiscal year: Provided, That appropriate steps shall be taken to assure that, to the maximum extent possible, United States-owned foreign currencies are utilized in lieu of dollars: Provided further, That of the total funds made available by this Act under the headings "Military assistance" and "Foreign military credit sales", not to exceed $2,500 shall be available for entertainment expenses and not to exceed $70,000 shall be available for representation allowances: Provided further, That of the funds made available by this Act under the heading "International military education and training", not to exceed $125,000 shall be available for entertainment allowances: Provided further, That of the funds made available by this Act for the Inter-American Foundation, not to exceed $2,500 shall be available for entertainment and representation allowances: Provided further, That of the funds made available by this Act for the Peace Corps, not to exceed a total of $4,000 shall be available for entertainment expenses.

SEC. 510. None of the funds appropriated or made available (other than funds for "International organizations and programs") pursuant to this Act for carrying out the Foreign Assistance Act of 1961, may be used to finance the export of nuclear equipment, fuel, technology or to provide assistance for the training of foreign nationals in nuclear fields.

SEC. 511. Funds appropriated by this Act may not be obligated or expended to provide assistance to any country for the purpose of aiding the efforts of the government of such country to repress the legitimate rights of the population of such country contrary to the Universal Declaration of Human Rights.

SEC. 512. None of the funds appropriated or made available pursuant to this Act shall be obligated or expended to finance directly any assistance to Mozambique, except that the President may waive this prohibition if he determines, and so reportes to the Congress, that furnishing such assistance would further the foreign policy interests of the United States.

SEC. 513. None of the funds appropriated or otherwise made available pursuant to this Act shall be obligated or expended to finance directly any assistance or reparations to Angola, Cambodia, Cuba, Iraq, Libya, Laos, the Socialist Republic of Vietnam, South Yemen, or Syria.

SEC. 514. None of the funds made available by this Act may be obligated under an appropriation account to which they were not appropriated without the written approval of the Appropriations Committees of both Houses of the Congress.

SEC. 515. Amounts certified pursuant to section 1311 of the Supplemental Appropriations Act, 1955, as having been obligated against appropriations heretofore made under the authority of the Foreign Assistance Act of 1961 for the same general purpose as any of the paragraphs under "Agency for International Development" are, if deobligated, hereby continued available for the same period as the respective appropriations in such paragraphs for the same general purpose and for the same country as originally obligated, or for activities in the Andean region: Provided, That the Appropriations Committees of both Houses of the Congress are notified fifteen days in advance of the deobligation or reobligation of such funds.

SEC. 516. No part of any appropriation contained in this Act shall be used for publicity or propaganda purposes within the United States not authorized before the date of enactment of this Act by Congress.

SEC. 517. No part of any appropriation contained in this Act shall remain available for obligation after the expiration of the current fiscal year unless expressly so provided in this Act.

SEC. 518. No part of any appropriation contained in this Act shall be used to furnish assistance to any country which is in default during a period in excess of one calendar year in payment to the United States of principal or interest on any loan made to such country by the United States pursuant to a program for which funds are appropriated under this Act.

SEC. 519. None of the funds appropriated or made available pursuant to this Act shall be available to any international financial institution whose United States representative cannot upon request obtain the amounts and the names of borrowers for all loans of the international financial institution, including loans to employees of the institution, or the compensation and related benefits of employees of the institution.

SEC. 520. None of the funds appropriated or made available pursuant to this Act shall be available to any international financial institution whose United States representative cannot upon request obtain any document developed by the management of the international financial institution.

SEC. 521. None of the funds appropriated or otherwise made available by this Act to the Export-Import Bank and funds appropriated by this Act for direct foreign assistance may be obligated for any government which aids or abets, by granting sanctuary from prosecution to, any individual or group which has committed or is being sought by any other government for prosecution for any war crime or an act of international terrorism, unless the President finds that the national security requires otherwise.

SEC. 522. None of the funds appropriated or made available pursuant to this Act for direct assistance and none of the funds otherwise made available pursuant to this Act to the Export-Import Bank and the Overseas Private Investment Corporation shall be obligated or expended to finance any loan, any assistance or any other financial commit-

ments for establishing or expanding production of any commodity for export by any country other than the United States, if the commodity is likely to be in surplus on world markets at the time the resulting productive capacity is expected to become operative and if the assistance will cause substantial injury to United States producers of the same, similar, or competing commodity: Provided, That such prohibition shall not apply to the Export-Import Bank if in the judgment of its Board of Directors the benefits to industry and employment in the United States are likely to outweigh the injury to United States producers of the same, similar, or competing commodity.

SEC. 524. The Secretary of the Treasury shall instruct the United States Executive Directors of the International Bank for Reconstruction and Development, the International Development Association, the International Finance Corporation, the Inter-American Development Bank, the International Monetary Fund, the Asian Development Bank, the Inter-American Investment Corporation, the African Development Bank, and the African Development Fund to use the voice and vote of the United States to oppose any assistance by these institutions, using funds appropriated or made available pursuant to this Act, for the production of any commodity for export, if it is in surplus on world markets and if the assistance will cause substantial injury to the United States producers of the same, similar, or competing commodity.

SEC. 525. None of the funds made available under this Act for "Agriculture, rural development and nutrition, Development Assistance", "Population, Development Assistance", "Child Survival Fund", "Health, Development Assistance", "Education and human resources development, Development Assistance", "Energy, private voluntary organizations, and selected development activities, Development Assistance", "Science and technology, Development Assistance", "International organizations and programs", "American schools and hospitals abroad", "Sahel development program", "Trade and development program", "International narcotics control", "Economic support fund", "Peacekeeping operations", "Operating Expenses of the Agency for International Development", "Anti-Terrorism Assistance", "Military assistance", "International military education and training", "Foreign military credit sales", "Inter-American Foundation", "African Development Foundation", "Peace Corps", or "Migration and refugee assistance", shall be available for obligation for activities, programs, projects, type of material assistance, countries, or other operation not justified or in excess of the amount justified to the Appropriations Committees for obligation under any of these specific headings for the current fiscal year unless the Appropriations Committees of both Houses of Congress are previously notified fifteen days in advance.

SEC. 526. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. 527. None of the funds appropriated under this Act may be used to lobby for abortion.

SEC. 528. None of the funds appropriated or otherwise made available under this Act may be available for any country during any three-month period beginning on or after October 1, 1984, immediately following a certification by the President to the Congress that the government of such country is failing to take adequate measures to prevent narcotic drugs or other controlled substances (as listed in the schedules in section 202 of the Comprehensive Drug Abuse and Prevention Control Act of 1971 (21 U.S.C. 812)) which are cultivated, produced, or processed illicitly, in whole or in part, in such country, or transported through such country from being sold illegally within the jurisdiction of such country to United States Government personnel or their dependents or from entering the United States unlawfully.

SEC. 529. Notwithstanding any other provision of law or this Act, none of the funds provided for "International organizations and programs" shall be available for the United States' proportionate share for any programs for the Palestine Liberation Organization, the Southwest Africa Peoples Organization, Libya, Iran, or Cuba.

SEC. 530. (a) Not later than January 31 of each year, or at the time of the transmittal by the President to the Congress of the annual presentation materials on foreign assistance, whichever is earlier, the President shall transmit to the Speaker of the House of Representatives and the President of the Senate a full and complete report which assesses, with respect to each foreign country, the degree of support by the government of each such country during the preceding twelve-month period for the foreign policy of the United States. Such report shall include, with respect to each such country which is a member of the United Nations, information to be compiled and supplied by the Permanent Representative of the United States to the United Nations, consisting of a comparison of the overall voting practices in the principal bodies of the United Nations during the preceding twelve-month period of such country and the United States, with special note of the voting and speaking records of such country on issues of major importance to the United States in the General Assembly and the Security Council, and shall also include a report on actions with regard to the United States in important related documents such as the Non-Aligned Communique. A full compilation of the information supplied by the Permanent Representative of the United States to the United Nations for inclusion in such report shall be provided as an addendum to such report.

(b) None of the funds appropriated or otherwise made available pursuant to this Act shall be obligated or expended to finance directly any assistance to a country which the President finds, based on the contents of the report required to be transmitted under subsection (a), is engaged in a consistent pattern of opposition to the foreign policy of the United States.

SEC. 531. Notwithstanding any other provision of law, Israel may utilize any loan which is or was made available under the Arms Export Control Act and for which repayment is or was forgiven before utilizing any other loan made available under the Arms Export Control Act.

SEC. 532. Funds appropriated under this Act may be made available for the procurement of construction or engineering services from advanced developing countries, eligible under the Geographic Code 941, which have attained a competitive capability in international markets for construction services or engineering services and which are receiving direct assistance under chapter 1 of part I or chapter 4 of part II of the Foreign Assistance Act of 1961, notwithstanding section 604(g) of the Foreign Assistance Act of 1961: Provided, That this provision shall apply only in the case of those advanced developing countries that permit United States firms to compete for construction or engineering services financed from assistance programs of such countries.

SEC. 533. (a) Not later than thirty days after the date of entry into force of any memorandum of understanding or other international agreement between the United States Government and the Government of El Salvador regarding the use of local currencies generated from assistance furnished to carry out chapter 4 of part II of the Foreign Assistance Act of 1961 or generated from the sale of agricultural commodities under the Agricultural Trade Development and Assistance Act of 1954, with respect to El Salvador, the President shall prepare and transmit to the Committee on Appropriations of the Senate and the Committee on Appropriations of the House of Representatives a report setting forth for each such memorandum or agreement—

(1) the text of each such memorandum or agreement;

(2) the status and description of each such memorandum or agreement, including the period of time covered, the amount of funding involved, and the sources of funding involved;

(3) an explanation of the manner in which funds are to be used in El Salvador to—

(A) eliminate the climate of violence and civil strife;

(B) develop democratic institutions and processes;

(C) develop strong and free economies with diversified production for both external and domestic markets;

(D) make sharp improvement in the social conditions of the poorest Salvadorans; and

(E) improve substantially the distribution of income and wealth; and

(4) the degree of compliance by the Government of El Salvador with the provisions of such memorandum or agreement.

(b) Not later than thirty days after the date of enactment of this Act, the President shall prepare and transmit to the committees referred to in subsection (a) a report providing the information described by paragraphs (1) through (4) of subsection (a) with respect to any memorandum of understanding or other international agreement described by such subsection which is in effect on the date of enactment of this Act.

(c) Not later than six months after the date of entry into force of each memorandum of understanding or other international agreement described in subsection (a), and upon the date of termination of each such memorandum or agreement, the President shall prepare and transmit to the committees referred to in subsection (a) a report describing the progress achieved in carrying out the provisions of such memorandum or agreement, including the progress achieved in carrying out the provisions of clauses (A) through (E) of subsection (a)(3).

SEC. 534. The Congress finds that progress on the peace process in the Middle East is vitally important to United States security interests in the region. The Congress recognizes that, in fulfilling its obligations under the Treaty of Peace Between the Arab Republic of Egypt and the State of Israel, done at Washington on March 26, 1979, Israel incurred severe economic burdens. Further-

more, the Congress recognizes that an economically and militarily secure Israel serves the security interests of the United States, for a secure Israel is an Israel which has the incentive and confidence to continue pursuing the peace process. Therefore, the Congress declares that it is the policy and the intention of the United States that the funds provided in annual appropriations for the Economic Support Fund which are allocated to Israel shall not be less than the annual debt repayment (interest and principal) from Israel to the United States Government in recognition that such a principle serves United States interests in the region.

SEC. 535. In reaffirmation of the 1975 memorandum of agreement between the United States and Israel, and in accordance with section 909 of the International Security and Development Cooperation Act of 1984, as passed by the House of Representatives on May 10, 1984, no employee of or individual acting on behalf of the United States Government shall recognize or negotiate with the Palestine Liberation Organization or representatives thereof, so long as the Palestine Liberation Organization does not recognize Israel's right to exist, does not accept Security Council Resolutions 242 and 338, and does not renounce the use of terrorism.

SEC. 536. None of the funds made available in this Act shall be restricted for obligation or disbursement solely as a result of the policies of any multilateral institution.

SEC. 537. Notwithstanding any other provision of law, if at any time following the appropriation of funds herein the duly elected President of El Salvador should be deposed by military coup or decree all funds appropriated herein for El Salvador and not theretofore obligated or expended shall not thereafter be available for expenditure or obligation unless reappropriated by Congress.

SEC. 538. Ceilings and earmarks contained in this Act shall not be applicable to funds or authorities appropriated or otherwise made available by any subsequent act unless such act specifically so directs.

SEC. 539. The Secretary of the Treasury and the Secretary of State are directed to submit to the Committees on Foreign Affairs and the Committees on Appropriations by February 1, 1985, a report on the domestic economic policies of those nations receiving economic assistance, either directly or indirectly from the United States including, where appropriate, an analysis of the foreign assistance programs conducted by these recipient nations.

SEC. 540. (a) To the maximum extent practicable, assistance for Haiti under chapter 1 of part I and under chapter 4 of part II of the Foreign Assistance Act of 1961 should be provided through private and voluntary organizations.

(b) Funds available for fiscal year 1985 to carry out chapter 1 of part I or chapter 4 or chapter 5 of part II of the Foreign Assistance Act of 1961 may be obligated for Haiti only if the President determines that the Government of Haiti—

(1) is continuing to cooperate with the United States in halting illegal emigration to the United States from Haiti;

(2) is cooperating fully in implementing United States development, food, and other economic assistance programs in Haiti (including programs for prior fiscal years); and

(3) is making progress toward improving the human rights situation in Haiti and progress toward implementing political reforms which are essential to the development of democracy in Haiti, such as progress toward the establishment of political parties, free elections, and freedom of the press.

(c) Six months after the date of the enactment of this Act and six months thereafter, the President shall report to the Congress on the extent to which the actions of the Government of Haiti are consistent with each paragraph of subsection (b).

(d) Notwithstanding the limitations of section 660 of the Foreign Assistance Act of 1961, funds made available under such Act may be used for programs with Haiti, which shall be consistent with prevailing United States refugee policies, to assist in halting significant illegal emigration from Haiti to the United States.

(e) Assistance may not be provided for Haiti for the fiscal year 1985 under chapter 2 of part II of the Foreign Assistance Act of 1961 or under the Arms Export Control Act.

SEC. 541. (a) Sections 116, 303, 311, 312, 703 and 1011 of H.R. 5119 as passed by the House of Representatives on May 10, 1984, are hereby enacted.

(b) Section 102 of this joint resolution shall not apply with respect to the provisions enacted by this section and to those provisions of S. 2346, S. 2416, and S. 2582 enacted by this Act.

SEC. 542. (a) Of the amounts made available by this Act for "Foreign Military Credit Sales" which are provided to Israel, and Egypt, Israel and Egypt shall be released from their contractual liability to repay the United States Government with respect to such credits.

(b) Of the amounts made available by this Act for "Foreign Military Credit Sales", the principal amount of loans provided at nonconcessional interest rates which are provided for Greece, Korea, Philippines, Portugal, Somalia, Spain (as long as Spain is a member of the North Atlantic Treaty Organization), Sudan, Tunisia, and Turkey shall (if and to the extent each country so desires) be repaid in not more than twenty years, following a grace period of ten years on repayment of principal.

SEC. 543. Section 10 of Public Law 91-672 and section 15(a) of the State Department Basic Authorities Act of 1956 shall not apply with respect to funds and authorities appropriated or otherwise made available by this Act.

This Act may be cited as the "Foreign Assistance and Related Programs Appropriations Act, 1985".

And the Senate agree to the same.

Amendment numbered 32:

That the House recede from its disagreement to the amendment of the Senate numbered 32, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

(h) Such amounts as may be necessary for programs, projects or activities provided for in the Department of Defense Appropriation Act, 1985, at a rate of operations and to the extent and in the manner provided as follows, to be effective as if it had been enacted into law as the regular appropriation Act:

AN ACT Making appropriations for the Department of Defense for the fiscal year ending September 30, 1985, and for other purposes

TITLE I

MILITARY PERSONNEL

MILITARY PERSONNEL, ARMY

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Army on active duty (except members of reserve components provided for elsewhere), cadets, and aviation cadets; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund; $21,020,344,000.

MILITARY PERSONNEL, NAVY

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Navy on active duty (except members of the Reserve provided for elsewhere), midshipmen, and aviation cadets; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund; $15,660,246,000.

MILITARY PERSONNEL, MARINE CORPS

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Marine Corps on active duty (except members of the Reserve provided for elsewhere); and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund; $4,803,366,000.

MILITARY PERSONNEL, AIR FORCE

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Air Force on active duty (except members of reserve components provided for elsewhere), cadets, and aviation cadets; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund; $17,572,005,000.

RESERVE PERSONNEL, ARMY

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Army Reserve on active duty under sections 265, 3019, and 3033 of title 10, United States Code, or while serving on active duty under section 672(d) of title 10, United States Code, in connection with performing duty specified in section 678(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty or other duty, and for members of the Reserve Officers' Training Corps, and expenses authorized by section 2131 of title 10, United States Code, as authorized by law; and for payments to the Department of Defense Military Retirement Fund; $2,084,100,000.

RESERVE PERSONNEL, NAVY

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Naval Reserve on active duty under section 265 of title 10, United States Code, or personnel while serving on active duty under section 672(d) of title 10, United States Code, in connection with per-

forming duty specified in section 678(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty, and for members of the Reserve Officers' Training Corps, and expenses authorized by section 2131 of title 10, United States Code, as authorized by law; and for payments to the Department of Defense Military Retirement Fund; $1,127,700,000.

RESERVE PERSONNEL, MARINE CORPS

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Marine Corps Reserve on active duty under section 265 of title 10, United States Code, or while serving on active duty under section 672(d) of title 10, United States Code, in connection with performing duty specified in section 678(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty, and for members of the Marine Corps platoon leaders class, and expenses authorized by section 2131 of title 10, United States Code, as authorized by law; and for payments to the Department of Defense Military Retirement Fund; $268,700,000.

RESERVE PERSONNEL, AIR FORCE

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Air Force Reserve on active duty under sections 265, 8019, and 8033 of title 10, United States Code, or while serving on active duty under section 672(d) of title 10, United States Code, in connection with performing duty specified in section 678(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty or other duty, and for members of the Air Reserve Officers' Training Corps, and expenses authorized by section 2131 of title 10, United States Code, as authorized by law; and for payments to the Department of Defense Military Retirement Fund; $564,500,000.

NATIONAL GUARD PERSONNEL, ARMY

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Army National Guard while on duty under sections 265, 3033, or 3496 of title 10 or section 708 of title 32, United States Code, or while serving on duty under section 672(d) of title 10 or section 502(f) of title 32, United States Code, in connection with performing duty specified in section 678(a) of title 10, United States Code, or while undergoing training, or while performing drills or equivalent duty or other duty, and expenses authorized by section 2131 of title 10, United States Code, as authorized by law; and for payments to the Department of Defense Military Retirement Fund; $2,926,100,000.

NATIONAL GUARD PERSONNEL, AIR FORCE

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Air National Guard on duty under sections 265, 8033, or 8496 of title 10 or section 708 of title 32, United States Code, or while serving on duty under section 672(d) of title 10 or section 502(f) of title 32, United States Code, in connection with performing duty specified in section 678(a) of title 10, United States Code, or while undergoing training, or while performing drills or equivalent duty or other duty, and expenses authorized by section 2131 of title 10, United States Code, as authorized by law; and for payments to the Department of Defense Military Retirement Fund; $868,578,000.

TITLE II

OPERATION AND MAINTENANCE

OPERATION AND MAINTENANCE, ARMY

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Army, as authorized by law; and not to exceed $11,602,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Army, and payments may be made on his certificate of necessity for confidential military purposes; $18,411,078,000, of which not less than $1,429,000,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, NAVY

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Navy and the Marine Corps, as authorized by law; and not to exceed $2,823,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Navy, and payments may be made on his certificate of necessity for confidential military purposes; $25,116,241,000, of which not less than $764,000,000 shall be available only for the maintenance of real property facilities, and of which $10,500,000 shall be transferred to U.S. Coast Guard operating expenses for fixed costs associated with the operation of the polar icebreaker program: Provided, That of the total amount of this appropriation made available for the alteration, overhaul, and repair of naval vessels, not more than $3,700,000,000 shall be available for the performance of such work in Navy shipyards: Provided further, That from the amounts of this appropriation for the alteration, overhaul and repair of naval vessels, funds shall be available for a test program to acquire the overhaul of two or more vessels by competition between public and private shipyards. The Secretary of the Navy shall certify, prior to award of a contract under this test, that the successful bid includes comparable estimates of all direct and indirect costs for both public and private shipyards. Competition under such test program shall not be subject to section 502 of the Department of Defense Authorization Act, 1981, as amended, or Office of Management and Budget Circular A-76: Provided further, That funds herein provided shall be available for payments in support of the LEASAT program in accordance with the terms of the Aide Memoire, dated January 5, 1981: Provided further, That obligations incurred or to be incurred hereafter for termination liability and charter hire in connection with the TAKX and T-5 programs, for which the Navy has already entered into agreement for charter and time charters including conversion or construction related to such agreements or charters shall, for the purposes of title 31, United States Code, (1) in regard to and so long as the Government remains liable for termination costs, be considered as obligations in the current Operation and Maintenance, Navy, appropriation account, to be held in reserve in the event such termination liability is incurred, in an amount equal to 10 per centum of the outstanding termination liability, and (2) in regard to charter hire, be considered obligations in the Navy Industrial Fund with an amount equal to the estimated charter hire for the then current fiscal year recorded as an obligation against such fund. Obligations of the Navy under such time charters are general obligations of the United States secured by its full faith and credit.

OPERATION AND MAINTENANCE, MARINE CORPS

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Marine Corps, as authorized by law; $1,640,294,000, of which not less than $220,000,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, AIR FORCE

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Air Force, as authorized by law, including the lease and associated maintenance of replacement aircraft for the CT-39 aircraft to the same extent and manner as authorized for service contracts by section 2306(g), title 10, United States Code; and not to exceed $4,682,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Air Force, and payments may be made on his certificate of necessity for confidential military purposes; $19,093,265,000, of which not less than $1,250,000,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, DEFENSE AGENCIES

For expenses, not otherwise provided for, necessary for the operation and maintenance of activities and agencies of the Department of Defense (other than the military departments), as authorized by law; $7,067,469,000, of which not to exceed $9,956,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of Defense, and payments may be made on his certificate of necessity for confidential military purposes: Provided, That not less than $95,548,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, ARMY RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Army Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications; $724,400,000, of which not less than $42,485,000 shall be available only for maintenance of real property facilities.

OPERATION AND MAINTENANCE, NAVY RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Navy Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications; $827,181,000, of which not less than $37,000,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, MARINE CORPS RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Marine Corps Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications; $58,642,000, of which not less than $2,765,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, AIR FORCE RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Air Force Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications; $872,461,000, of which not less than $20,200,000 shall be available only for the maintenance of real property facilities.

OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

For expenses of training, organizing, and administering the Army National Guard, including medical and hospital treatment and related expenses in non-Federal hospitals; maintenance, operation, and repairs to structures and facilities; hire of passenger motor vehicles; personnel services in the National Guard Bureau; travel expenses (other than mileage), as authorized by law for Army personnel on active duty, for Army National Guard division, regimental, and battalion commanders while inspecting units in compliance with National Guard regulations when specifically authorized by the Chief, National Guard Bureau; supplying and equipping the Army National Guard as authorized by law; and expenses of repair, modification, maintenance, and issue of supplies and equipment (including aircraft); $1,424,293,000, of which not less than $44,000,000 shall be available only for the maintenance of real property facilities: Provided, That $1,650,000 shall be available for the upgrade of the runway at the Devil's Lake Municipal Airport, Devil's Lake, North Dakota, to accommodate military troop transport aircraft.

OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

For operation and maintenance of the Air National Guard, including medical and hospital treatment and related expenses in non-Federal hospitals; maintenance, operation, repair, and other necessary expenses of facilities for the training and administration of the Air National Guard, including repair of facilities, maintenance, operation, and modification of aircraft; transportation of things; hire of passenger motor vehicles; supplies, materials, and equipment, as authorized by law for the Air National Guard; and expenses incident to the maintenance and use of supplies, materials, and equipment, including such as may be furnished from stocks under the control of agencies of the Department of Defense; travel expenses (other than mileage) on the same basis as authorized by law for Air National Guard personnel on active Federal duty, for Air National Guard commanders while inspecting units in compliance with National Guard regulations when specifically authorized by the Chief, National Guard Bureau; $1,810,348,000, of which not less than $43,700,000 shall be available only for the maintenance of real property facilities.

NATIONAL BOARD FOR THE PROMOTION OF RIFLE PRACTICE, ARMY

For the necessary expenses, in accordance with law, for construction, equipment, and maintenance of rifle ranges; the instruction of citizens in marksmanship; the promotion of rifle practice; and the travel of rifle teams, military personnel, and individuals attending regional, national, and international competitions; $914,000, of which not to exceed $7,500 shall be available for incidental expenses of the National Board; and from other funds provided in this Act, not to exceed $680,000 worth of ammunition may be issued under authority of title 10, United States Code, section 4311: Provided, That competitors at national matches under title 10, United States Code, section 4312, may be paid subsistence and travel allowances in excess of the amounts provided under title 10, United States Code, section 4313.

CLAIMS, DEFENSE

For payment, not otherwise provided for, of claims authorized by law to be paid by the Department of Defense (except for civil functions), including claims for damages arising under training contracts with carriers, and repayment of amounts determined by the Secretary concerned, or officers designated by him, to have been erroneously collected from military and civilian personnel of the Department of Defense, or from States, territories, or the District of Columbia, or members of the National Guard units thereof; $157,900,000.

COURT OF MILITARY APPEALS, DEFENSE

For salaries and expenses necessary for the United States Court of Military Appeals; $2,870,000, and not to exceed $1,500 can be used for official representation purposes.

ENVIRONMENTAL RESTORATION, DEFENSE

For expenses, not otherwise provided for, for environmental restoration programs, including hazardous waste disposal operations and removal of unsafe or unsightly buildings and debris of the Department of Defense, and including programs and operations at sites formerly used by the Department of Defense; $314,000,000, of which, not to exceed $6,000,000 shall be available for payment to the Anchorage School District for a share of the cost of removal and treatment of asbestos and related facility rehabilitation at the Bartlett-Begich Junior/Senior High School located on Fort Richardson, Alaska.

TITLE III

PROCUREMENT

AIRCRAFT PROCUREMENT, ARMY

For construction, procurement, production, modification, and modernization of aircraft, equipment, including ordnance, ground handling equipment, spare parts, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes; $3,940,900,000, of which $642,600,000 shall be available for the purchase of UH-60/EH-60 Blackhawk/Quickfix helicopters under a multiyear contract and $431,900,000 shall be available for the purchase of CH-47 Chinook helicopter modifications under a multiyear contract; to remain available for obligation until September 30, 1987: Provided, That appropriations available herein shall be used to procure no less than eighteen AH-64 Apache attack helicopters for assignment to the Army National Guard.

MISSILE PROCUREMENT, ARMY

For construction, procurement, production, modification, and modernization of missiles, equipment, including ordnance, ground handling equipment, spare parts, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, as follows: For the Chaparral program, $32,000,000; for Other Missile Support, $9,300,000; for the Patriot program, $976,400,000; for the Stinger program, $209,600,000; for the Laser Hellfire program, $225,000,000; for the TOW program, $201,700,000; for the Pershing II program, $370,000,000; for the MLRS program, $541,400,000; for modification of missiles, $208,800,000; for spares and repair parts, $270,300,000; for support equipment and facilities, $122,500,000; in all: $3,167,000,000; to remain available for obligation until September 30, 1987.

PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

For construction, procurement, production, and modification of weapons and tracked combat vehicles, equipment, including ordnance, spare parts and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes; $4,548,100,000; to remain available for obligation until September 30, 1987: Provided, That notwithstanding any other provision of this Act, none of the funds appropriated may be expended for the Division Air Defense system until—

(1) Initial production testing and the fiscal year 1985 operational testing of such system have been completed;

(2) The Secretary of Defense has reported to the Armed Services and Appropriations Committees of the Congress the results of the testing and has certified to the Committees that (a) additional production of the Division Air Defense system is in the national interest to counter the present and projected Soviet threat, and (b) the system satisfactorily meets all design and performance requirements, and

(3) A period of at least thirty days has elapsed after the day on which the Committees have received the report and certification, such date to be not later than sixty days after the completion of initial production testing or the fiscal year 1985 operational testing, whichever is later.

PROCUREMENT OF AMMUNITION, ARMY

For construction, procurement, production, and modification of ammunition, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including ammunition facilities authorized in military construction authorization Acts or authorized by section 2854, title 10, United States Code, and the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construc-

tion prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes; $2,646,300,000; to remain available for obligation until September 30, 1987.

OTHER PROCUREMENT, ARMY

For construction, procurement, production, and modification of vehicles, including tactical, support, and nontracked combat vehicles; the purchase of not to exceed two thousand three hundred and sixty passenger motor vehicles for replacement only; communications and electronic equipment; other support equipment; spare parts, ordnance, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes; $5,122,450,000, of which $347,200,000 shall be available for the purchase of five ton trucks under a multiyear contract; to remain available for obligation until September 30, 1987: Provided, That multiyear contracting authority provided in Public Law 98-212 for the Armored Combat Earthmover is rescinded.

AIRCRAFT PROCUREMENT, NAVY

For construction, procurement, production, modification, and modernization of aircraft, equipment including ordnance, spare parts, and accessories therefor; specialized equipment; expansion of public and private plants, including the land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; $10,903,798,000, of which $36,120,000 shall be available for the purchase of CH/MH-53E heavy lift helicopters under a multiyear contract; to remain available for obligation until September 30, 1987.

WEAPONS PROCUREMENT, NAVY

For construction, procurement, production, modification, and modernization of missiles, torpedoes, other weapons, and related support equipment including spare parts, and accessories therefor; expansion of public and private plants, including the land necessary therefor, and such lands and interest therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway, as follows: For missile programs, $3,403,311,000; for the MK-48 torpedo program, $89,000,000; for the MK-48 ADCAP torpedo program, $105,600,000; for the MK-46 torpedo program, $229,700,000; for the MK-60 captor mine program, $122,000,000; for the MK-30 mobile target program, $21,300,000; for the MK-38 mini mobile target program, $2,500,000; for the antisubmarine rocket (ASROC) program, $25,900,000; for modification of torpedoes, $32,200,000; for the torpedo support equipment program, $96,000,000; for the MK-15 close-in weapons system program, $163,900,000; for the MK-75 gun mount, $10,900,000; for the MK-19 machine gun program, $2,000,000; for the 25mm gun mount, $3,100,000; for small arms and weapons, $3,500,000; for the modification of guns and gun mounts, $46,300,000; for the guns and gun mounts support equipment program, $13,400,000; in all: $4,353,611,000; to remain available for obligation until September 30, 1987: Provided, That within the total amount appropriated, the subdivisions within this account shall be reduced by $17,000,000, as follows: $2,000,000 for contract support services, and $15,000,000 for miscellaneous contract savings.

SHIPBUILDING AND CONVERSION, NAVY

For expenses necessary for the construction, acquisition, or conversion of vessels as authorized by law, including armor and armament thereof, plant equipment, appliances, and machine tools and installation thereof in public and private plants; reserve plant and Government and contractor-owned equipment layaway; procurement of critical, long leadtime components and designs for vessels to be constructed or converted in the future; and expansion of public and private plants, including land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title, as follows: for the Trident submarine program, $1,748,200,000; for the SSN-688 nuclear attack submarine program, $2,665,000,000; for the aircraft carrier service life extension program, $714,500,000; for the CG-47 AEGIS cruiser program, $2,883,000,000; for CG-47 AEGIS cruiser advance procurement, $102,000,000, of which $83,000,000 shall be solely for development of second production source(s) for SPY-1 radar and AEGIS combat system components and related integration for CG-47 and DDG-51 ship classes; for the DDG-51 guided missile destroyer program, $1,050,000,000; for the LSD-41 landing ship dock program, $489,500,000; for the LHD-1 amphibious assault ship program, $39,200,000; for the LPD-4 service life extension program, $15,000,000; for the MCM mine countermeasures ship program, $344,500,000; for the T-AO fleet oiler ship program, $522,600,000; for the T-AGOS ocean surveillance ship program, $128,400,000; for the T-AGS ocean survey ship program, $225,000,000; for the T-ACS auxiliary crane ship program, $36,000,000; for the ARTB nuclear reactor training ship conversion program, $30,000,000; for the T-AVB logistics support ship program, $31,800,000; for the strategic sealift program, $31,000,000; for the LCAC air cushion landing craft program, $230,100,000; for craft, outfitting, post delivery, cost growth, and escalation on prior year programs, $450,200,000; in all: $11,736,000,000; to remain available for obligation until September 30, 1989: Provided, That additional obligations may be incurred after September 30, 1989, for engineering services, tests, evaluations, and other such budgeted work that must be performed in the final stage of ship construction; and each Shipbuilding and Conversion, Navy, appropriation that is currently available for such obligations may also hereafter be so obligated after the date of its expiration: Provided further, That none of the funds herein provided for the construction or conversion of any naval vessel to be constructed in shipyards in the United States shall be expended in foreign shipyards for the construction of major components of the hull or superstructure of such vessel: Provided further, That none of the funds herein provided shall be used for the construction of any naval vessel in foreign shipyards: Provided further, That notwithstanding any other provision of law, the Navy is not required to install a Phased Array Radar on the FFG-61 which was authorized and for which appropriations were provided in fiscal year 1984, provided that this ship be equipped with a MK-92 Upgrade Phase II (CORT) System, and in addition to funds previously provided for the fiscal year 1984 FFG-7 guided missile frigate program, $36,300,000 shall be available by transfer from the amount appropriated in "Shipbuilding and Conversion, Navy, 1983/1987".

OTHER PROCUREMENT, NAVY

For procurement, production, and modernization of support equipment and materials not otherwise provided for, Navy ordnance and ammunition (except ordnance for new aircraft, new ships, and ships authorized for conversion); the purchase of not to exceed three vehicles required for physical security of personnel notwithstanding price limitations applicable to passenger carrying vehicles but not to exceed $100,000 per vehicle and the purchase of not to exceed four hundred and eighty-nine passenger motor vehicles which shall be for replacement only; expansion of public and private plants, including the land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; as follows: For ship support equipment, $775,100,000; for communications and electronics equipment, $1,758,800,000; for aviation support equipment, $990,328,000; for ordnance support equipment, $1,126,500,000; for civil engineering support equipment, $238,000,000; for supply support equipment, $112,000,000; for personnel/command support equipment, $391,886,000; in all: $5,341,614,000; to remain available for obligation until September 30, 1987: Provided, That within the total amount appropriated, the subdivisions within this account shall be reduced by $51,000,000, as follows: $1,000,000 for contract support services; and $50,000,000 for Trident facilities.

PROCUREMENT, MARINE CORPS

For expenses necessary for the procurement, manufacture, and modification of missiles, armament, ammunition, military equipment, spare parts, and accessories therefor; plant equipment, appliances, and machine tools, and installation thereof in public and private plants; reserve plant and Government and contractor-owned equipment layaway; vehicles for the Marine Corps, including purchase of not to exceed two hundred and nineteen passenger motor vehicles for replacement only; and expansion of public and private plants, including land necessary therefor, and such lands, and interests therein, may be acquired and construction prosecuted thereon prior to approval of title; $1,836,722,000; to remain available for obligation until September 30, 1987.

AIRCRAFT PROCUREMENT, AIR FORCE

For construction, procurement, and modification of aircraft and equipment, including armor and armament, specialized ground handling equipment, and training

devices, spare parts, and accessories therefor; specialized equipment; expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes including rents and transportation of things; $26,188,266,000, of which $586,800,000 shall be available under a multiyear contract for procurement of seven hundred and twenty F-16 aircraft, of which seventy-two, shall be assigned to the Reserve Forces by 1991; to remain available for obligation until September 30, 1987: Provided, That none of the funds in this Act may be obligated on B-1B bomber production contracts if such contracts would cause the production portion of the Air Force's $20,500,000,000 estimate for the B-1B bomber baseline costs expressed in fiscal year 1981 constant dollars to be exceeded: Provided further, That thirty of the F-16 aircraft for which funds are appropriated in this Act shall be provided to the Reserve Forces: Provided further, That of the C-130H aircraft for which funds are appropriated in this Act, eight shall be provided to the Air National Guard and eight shall be provided to the Air Force Reserve: Provided further, That $144,800,000 appropriated in fiscal year 1983 for procurement of commercial wide body aircraft shall be available only for the Civil Reserve Air Fleet (CRAF) modification program.

MISSILE PROCUREMENT, AIR FORCE

For construction, procurement, and modification of missiles, spacecraft, rockets, and related equipment, including spare parts and accessories therefor, ground handling equipment, and training devices; expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes including rents and transportation of things; $6,909,245,000 of which $251,200,000 shall be available for the phase III defense satellite communications system (DSCS III) under a multiyear contract; to remain available for obligation until September 30, 1987: Provided, That the funds appropriated or made available in this paragraph include not more than $1,000,000,000 which may be obligated only for procurement related to the deployment of the 21 MX missiles for which funds were appropriated for fiscal year 1984, for advance procurement of parts and materials for the MX missile program and maintenance of the MX missle program contractor base, and for spare parts for the MX missile program. An additional $1,500,000,000 of prior year unobligated balances is available from the following accounts and in the specified amounts:

Aircraft Procurement, Army—1984/86	$30,000,000,
Missile Procurement, Army—1984/86	25,000,000,
Procurement of Weapons and Tracked Combat Vehicles, Army—1983/85	58,100,000,
Procurement of Weapons and Tracked Combat Vehicles, Army—1984/86	214,600,000,
Procurement of Ammunition, Army—1984/86	44,000,000,
Other Procurement, Army—1984/86	47,500,000,
Aircraft Procurement, Navy—1984/86	75,000,000,
Weapons Procurement, Navy—1984/86	20,000,000,
Shipbuilding and Conversion, Navy—1981/85	52,300,000,
Shipbuilding and Conversion, Navy—1983/87	527,400,000,
Shipbuilding and Conversion, Navy—1984/88	57,000,000,
Other Procurement, Navy—1984/86	85,700,000,
Procurement, Marine Corps—1984/86	7,500,000,
Aircraft Procurement, Air Force—1983/85	50,000,000,
Aircraft Procurement, Air Force—1984/86	176,400,000,
Missile Procurement, Air Force—1984/86	15,000,000,
Other Procurement, Air Force—1984/86	14,500,000.

The foregoing prior year unobligated balances shall remain available only for obligation for transfers or reprogrammings or for the procurement of 21 additional operational MX missiles. These prior year unobligated balances may not be obligated or become available for the procurement of 21 additional operational MX missiles unless after March 1, 1985—

(a) the President submits to Congress a report described under section 110(e) of the Department of Defense Authorization Act, 1985;

(b) a joint resolution approving authorization of obligation of funds for additional MX missiles is enacted as provided in section 110(d)(1) of the Department of Defense Authorization Act, 1985; and

(c) a joint resolution further approving the obligation and availability of those prior year unoligated balances is enacted as provided for in this proviso:

(1) For the purposes of clause (c), "joint resolution" means only a joint resolution introduced after the date on which the report of the President described under section 110(e) of the Department of Defense authorization Act, 1985, is received by Congress, the matter after the resolving clause of which as follows: "That the Congress approves the obligation and availability of prior year unobligated balances made available for fiscal year 1985 for the procurement of additional operational MX missiles.".

(2) A resolution described in paragraph (1) introduced in the House of Representatives shall be referred to the Committee on Appropriations of the House of Representatives. A resolution described in paragraph (1) introduced in the Senate shall be referred to the Committee on Appropriations of the Senate.

(3) The committee to which is referred a resolution described in paragraph (1) may not report such resolution in less than eight calendar days after its introduction. If a committee to which is referred a resolution described in paragraph (1) has not reported such resolution (or an identical resolution) at the end of fifteen calendar days after its introduction or at the end of the second day after the House involved has voted on final passage of a joint resolution approving the further obligation of funds for the procurement of operational MX missiles as provided for in section 110(d)(1) of the Department of Defense Authorization Act, 1985, whichever is earlier, such committee shall be deemed to be discharged from further consideration of such resolution and such resolution shall be placed on the appropriate calendar of the House involved.

(4)(A) Subject to subparagraph (B), when the committee to which a resolution is referred has reported, or has been deemed to be discharged (under paragraph (3)) from further consideration of, a resolution described in paragraph (1), it is at any time thereafter in order (even though a previous motion to the same effect has been disagreed to) for any Member of the respective House to move to proceed to the consideration of the resolution, and all points of order against the resolution (and against consideration of the resolution) are waived. The motion is highly privileged in the House of Representatives and is privileged in the Senate and is not debatable. The motion is not subject to amendment, or to a motion to postpone, or to a motion to proceed to the consideration of other business. A motion to reconsider the vote by which the motion is agreed to or disagreed to shall not be in order. If a motion to proceed to the consideration of the resolution is agreed to, the resolution shall remain the unfinished business of the respective House until disposed of.

(B) Notwithstanding subparagraph (A), it is not in order to consider a resolution described in paragraph (1) unless a resolution has been agreed to in the House involved as provided in section 110(d)(1) of the Department of Defense Authorization Act, 1985.

(C) Debate on the resolution, and on all debatable motions and appeals in connection therewith, shall be limited to not more than 10 hours, which shall be divided equally between those favoring and those opposing the resolution. A motion further to limit debate is in order and not debatable but such motion shall not be in order in the Senate until after 5 hours of debate. An amendment to, or a motion to postpone, or a motion to proceed to the consideration of other business, or a motion to recommit the resolution is not in order. A motion to reconsider the vote by which the resolution is agreed to or disagreed to is not in order.

(D) Immediately following the conclusion of the debate on a resolution described in paragraph (1), and a single quorum call at the conclusion of the debate if requested in accordance with the rules of the appropriate House, the vote on final passage of the resolution shall occur.

(E) Appeals from the decisions of the Chair relating to the application of the rules of the Senate or the House of Representatives, as the case may be, to the procedure relating to a resolution described in paragraph (1) shall be decided without debate.

(5) If, before the passage by the Senate of a resolution of the Senate described in paragraph (1), the Senate receives from the House of Representatives a resolution described in paragraph (1), then the following procedures shall apply:

(A) The resolution of the House of Representatives shall not be referred to a committee.

(B) With respect to a resolution described in paragraph (1) of the Senate—

(i) the procedure in the Senate shall be the same as if no resolution had been received from the House; but

(ii) the vote on final passage shall be on the resolution of the House.

(C) Upon disposition of the resolution received from the House, it shall no longer be

in order to consider the resolution originated in the Senate.

(6) If the Senate receives from the House of Representatives, a resolution described in paragraph (1) after the Senate has disposed of a Senate originated resolution, the action of the Senate with regard to the disposition of the Senate originated shall be deemed to be the action of the Senate with regard to the House originated resolution.

(7) This proviso is enacted by Congress—

(A) as an exercise of the rulemaking power of the Senate and House of Representatives, respectively, and as such it is deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of a resolution described in paragraph (1), and it supersedes other rules only to the extent that it is inconsistent with such rules; and

(B) with full recognition of the constitutional right of either House to change the rules (so far as relating to the procedure of that House) at any time, in the same manner and to the same extent as in the case of any other rule of that House.

(8) Section 110(d)(1) of the Department of Defense Authorization Act, 1985, as approved by Congress on September 27, 1984, is amended by deleting the word "appropriated" and inserting in lieu thereof the word "available".

OTHER PROCUREMENT, AIR FORCE

For procurement and modification of equipment (including ground guidance and electronic control equipment, and ground electronic and communication equipment), and supplies, materials, and spare parts therefor, not otherwise provided for; the purchase of not to exceed one thousand eight hundred and ninety-eight passenger motor vehicles of which one thousand six hundred and forty-seven shall be for replacement only; and expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon, prior to approval of title; reserve plant and Government and contractor-owned equipment layaway; $8,861,697,000; to remain available for obligation until September 30, 1987.

National Guard and Reserve Equipment

For procurement of aircraft, missiles, tracked combat vehicles, and other procurement for the reserve components of the Armed Forces, not to exceed $380,000,000 to remain available until September 30, 1987, distributed as follows: Army National Guard, not to exceed $150,000,000; Air National Guard, not to exceed $20,000,000; Naval Reserve, not to exceed $20,000,000; Marine Corps Reserve, not to exceed $30,000,000; Army Reserve, not to exceed $150,000,000; and Air Force Reserve, not to exceed $10,000,000.

PROCUREMENT, DEFENSE AGENCIES

For expenses of activities and agencies of the Department of Defense (other than the military departments) necessary for procurement, production, and modification of equipment, supplies, materials, and spare parts therefor, not otherwise provided for; the purchase of not to exceed one hundred and thirty-two passenger motor vehicles of which one hundred and twenty-seven shall be for replacement only; expansion of public and private plants, equipment, and installation thereof in such plants, erection of structures, and acquisition of land for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway; $1,165,701,000, to remain available for obligation until September 30, 1987.

DEFENSE PRODUCTION ACT PURCHASES

For purchases or commitments to purchase metals, minerals, or other materials by the Department of Defense pursuant to section 303 of the Defense Production Act of 1950, as amended (50 U.S.C. App. 2093); $10,000,000, to remain available for obligation until September 30, 1987.

TITLE IV

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, ARMY

For expenses necessary for basic and applied scientific research, development, test, and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment, as authorized by law; $4,349,015,000, of which $13,338,000 is available only for activities relevant to approving the 120-millimeter mortar for service use, to remain available for obligation until September 30, 1986.

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, NAVY

For expenses necessary for basic and applied scientific research, development, test, and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment, as authorized by law; $9,172,622,000, of which $29,941,000 is available only for the Low Cost Anti-Radiation Seeker program, to remain available for obligation until September 30, 1986: Provided, That none of the funds appropriated by this Act for the new design attack submarine may be obligated or expended unless and until the Secretary of the Navy provides to the Committees on Appropriations and Armed Services of the Senate and House of Representatives written certification that, based on current national intelligence estimates approved by the Director of Central Intelligence, the new design attack submarine will be capable under operational conditions of engaging the known Soviet submarine threat.

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, AIR FORCE

For expenses necessary for basic and applied scientific research, development, test, and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment, as authorized by law; $13,424,147,000, of which $82,698,000 is available only for the Engine Model Derivative Program, and $3,000,000 is available only for the Low Cost Anti-Radiation Seeker Program, to remain available for obligation until September 30, 1986.

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, DEFENSE AGENCIES

(INCLUDING TRANSFER OF FUNDS)

For expenses of activities and agencies of the Department of Defense (other than the military departments), necessary for basic and applied scientific research, development, test, and evaluation; advanced research projects as may be designated and determined by the Secretary of Defense, pursuant to law; maintenance, rehabilitation, lease, and operation of facilities and equipment, as authorized by law; $4,182,287,000, of which $10,000,000 is available only for the adapting of free electron laser technology to biomedical and materials science research, to remain available for obligation until September 30, 1986: Provided, That such amounts as may be determined by the Secretary of Defense to have been made available in other appropriations available to the Department of Defense during the current fiscal year for programs related to advanced research may be transferred to and merged with this appropriation to be available for the same purposes and time period: Provided further, That such amounts of this appropriation as may be determined by the Secretary of Defense may be transferred to carry out the purposes of advanced research to those appropriations for military functions under the Department of Defense which are being utilized for related programs to be merged with and to be available for the same time period as the appropriation to which transferred.

DIRECTOR OF TEST AND EVALUATION, DEFENSE

For expenses, not otherwise provided for, of independent activities of the Director of Defense Test and Evaluation in the direction and supervision of test and evaluation, including initial operational testing and evaluation; and performance of joint testing and evaluation; and administrative expenses in connection therewith; $59,000,000, to remain available for obligation until September 30, 1986.

TITLE V

SPECIAL FOREIGN CURRENCY PROGRAM

For payment in foreign currencies which the Treasury Department determines to be excess to the normal requirements of the United States for expenses in carrying out programs of the Department of Defense, as authorized by law; $8,650,000, to remain available for obligation until September 30, 1986: Provided, That this appropriation shall be available in addition to other appropriations to such Department, for payments in the foregoing currencies.

TITLE VI

REVOLVING AND MANAGEMENT FUNDS

ARMY STOCK FUND

For the Army stock fund; $366,448,000.

NAVY STOCK FUND

For the Navy stock fund; $473,307,000.

MARINE CORPS STOCK FUND

For the Marine Corps stock fund; $34,908,000.

AIR FORCE STOCK FUND

For the Air Force stock fund; $548,593,000.

DEFENSE STOCK FUND

For the Defense stock fund; $130,700,000.

TITLE VII

RELATED AGENCIES

INTELLIGENCE COMMUNITY STAFF

For necessary expenses of the Intelligence Community Staff; $20,797,000.

CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM FUND

For payment to the Central Intelligence Agency Retirement and Disability System Fund, to maintain proper funding level for continuing the operation of the Central Intelligence Agency Retirement and Disability System; $99,300,000.

TITLE VIII

GENERAL PROVISIONS

SEC. 8001. The expenditure of any appropriation under this Act for any consulting

service through procurement contract, pursuant to section 3109 of title 5, United States Code, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. 8002. No part of any appropriation contained in this Act shall be used for publicity or propaganda purposes not authorized by the Congress.

SEC. 8003. During the current fiscal year, the Secretary of Defense and the Secretaries of the Army, Navy, and Air Force, respectively, if they should deem it advantageous to the national defense, and if in their opinions the existing facilities of the Department of Defense are inadequate, are authorized to procure services in accordance with section 3109 of title 5, United States Code, under regulations prescribed by the Secretary of Defense, and to pay in connection therewith travel expenses of individuals, including actual transportation and per diem in lieu of subsistence while traveling from their homes or places of business to official duty stations and return as may be authorized by law: Provided, That such contracts may be renewed annually.

SEC. 8004. During the current fiscal year, provisions of law prohibiting the payment of compensation to, or employment of, any person not a citizen of the United States shall not apply to personnel of the Department of Defense.

SEC. 8005. Appropriations for the Department of Defense for the current fiscal year shall be available for: (a) transportation to primary and secondary schools of minor dependents of military and civilian personnel of the Department of Defense as authorized for the Navy by section 7204 of title 10, United States Code; (b) expenses in connection with administration of occupied areas; (c) payment of rewards as authorized for the Navy by section 7209(a) of title 10, United States Code, for information leading to the discovery of missing naval property or the recovery thereof; (d) payment of deficiency judgments and interests thereon arising out of condemnation proceedings; (e) leasing of buildings and facilities including payment of rentals for special purpose space at the seat of government, and in the conduct of field exercises and maneuvers or, in administering the provisions of the Act of July 9, 1942 (56 Stat. 654; 43 U.S.C. 315q), rentals may be paid in advance; (f) payments under contracts for maintenance of tools and facilities for twelve months beginning at any time during the fiscal year; (g) maintenance of defense access roads certified as important to national defense in accordance with section 210 of title 23, United States Code; (h) the purchase of milk for enlisted personnel of the Department of Defense heretofore made available pursuant to section 202 of the Agricultural Act of 1949 (7 U.S.C. 1446a), and the cost of milk so purchased, as determined by the Secretary of Defense, shall be included in the value of the commuted ration; (i) transporting civilian clothing to the home of record of selective service inductees and recruits on entering the military services; (j) payments under leases for real or personal property, including maintenance thereof when contracted for as a part of the lease agreement, for twelve months beginning at any time during the fiscal year; (k) pay and allowances of not to exceed nine persons, including personnel detailed to International Military Headquarters and Organizations, at rates provided for under section 625(d)(1) of the Foreign Assistance Act of 1961, as amended; (l) the purchase of right-hand-drive vehicles not to exceed $12,000 per vehicle; (m) payment of unusual cost overruns incident to ship overhaul, maintenance, and repair for ships inducted into industrial fund activities or contracted for in prior fiscal years: Provided, That the Secretary of Defense shall notify the Congress promptly prior to obligation of any such payments; (n) payments from annual appropriations to industrial fund activities and/or under contract for changes in scope of ship overhaul, maintenance, and repair after expiration of such appropriations, for such work either inducted into the industrial fund activity or contracted for in that fiscal year; and (o) payments for depot maintenance contracts for twelve months beginning at any time during the fiscal year.

SEC. 8006. Appropriations for the Department of Defense for the current fiscal year shall be available for: (a) donations of not to exceed $25 to each prisoner upon each release from confinement in military or contract prison and to each person discharged for fraudulent enlistment; (b) authorized issues of articles to prisoners, applicants for enlistment and persons in military custody; (c) subsistence of selective service registrants called for induction, applicants for enlistment, prisoners, civilian employees as authorized by law, and supernumeraries when necessitated by emergent military circumstances; (d) reimbursement for subsistence of enlisted personnel while sick in hospitals; (e) expenses of prisoners confined in nonmilitary facilities; (f) military courts, boards, and commissions; (g) utility services for buildings erected at private cost, as authorized by law, and buildings on military reservations authorized by regulations to be used for welfare and recreational purposes; (h) exchange fees, and losses in the accounts of disbursing officers or agents in accordance with law; (i) expenses of Latin American cooperation as authorized for the Navy by section 7208 of title 10, United States Code; (j) expenses of apprehension and delivery of deserters, prisoners, and members absent without leave, including payment of rewards of not to exceed $75 in any one case; and (k) carrying out section 10 of the Act of September 23, 1950, as amended.

SEC. 8007. The Secretary of Defense and each purchasing and contracting agency of the Department of Defense shall assist American small and minority-owned business to participate equitably in the furnishing of commodities and services financed with funds appropriated under this Act by increasing, to an optimum level, the resources and number of personnel jointly assigned to promoting both small and minority business involvement in purchases financed with funds appropriated herein, and by making available or causing to be made available to such businesses, information, as far in advance as possible, with respect to purchases proposed to be financed with funds appropriated under this Act, and by assisting small and minority business concerns to participate equitably as subcontractors on contracts financed with funds appropriated herein, and by otherwise advocating and providing small and minority business opportunities to participate in the furnishing of commodities and services financed with funds appropriated by this Act.

SEC. 8008. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 8009. (a) During the current fiscal year, the President may exempt appropriations, funds, and contract authorizations, available for military functions under the Department of Defense, from the provisions of section 1512 of title 31, United States Code, whenever he deems such action to be necessary in the interest of national defense.

(b) Upon determination by the President that such action is necessary, the Secretary of Defense is authorized to provide for the cost of an airborne alert as an excepted expense in accordance with the provisions of section 3732 of the Revised Statutes (41 U.S.C. 11).

(c) Upon determination by the President that it is necessary to increase the number of military personnel on active duty subject to existing laws beyond the number for which funds are provided in this Act, the Secretary of Defense is authorized to provide for the cost of such increased military personnel, as an excepted expense in accordance with the provisions of section 3732 of the Revised Statutes (41 U.S.C. 11).

(d) The Secretary of Defense shall immediately advise Congress of the exercise of any authority granted in this section, and shall report monthly on the estimated obligations incurred pursuant to subsections (b) and (c).

SEC. 8010. No appropriation contained in this Act shall be available in connection with the operation of commissary stores of the agencies of the Department of Defense for the cost of purchase (including commercial transportation in the United States to the place of sale but excluding all transportation outside the United States) and maintenance of operating equipment and supplies, and for the actual or estimated cost of utilities as may be furnished by the Government and of shrinkage, spoilage, and pilferage of merchandise under the control of such commissary stores, except as authorized under regulations promulgated by the Secretaries of the military departments concerned with the approval of the Secretary of Defense, which regulations shall provide for reimbursement therefor to the appropriations concerned and, notwithstanding any other provision of law, shall provide for the adjustment of the sales prices in such commissary stores to the extent necessary to furnish sufficient gross revenues from sales of commissary stores to make such reimbursement: Provided, That under such regulations as may be issued pursuant to this section all utilities may be furnished without cost to the commissary stores outside the continental United States and in Alaska: Provided further, That no appropriation contained in this Act shall be available to pay any costs incurred by any commissary store or other entity acting on behalf of any commissary store in connection with obtaining the face value amount of manufacturer or vendor cents-off discount coupons unless all fees or moneys received for handling or processing such coupons are reimbursed to the appropriation charged with the incurred costs: Provided further, That no appropriation contained in this Act shall be available in connection with the operation of commissary stores within the continental United States unless the Secretary of Defense has certified that items normally procured from commissary stores are not otherwise available at a reasonable distance and a reasonable price in satisfactory quality and quantity to the military and civilian employees of the Department of Defense.

SEC. 8011. No part of the appropriations in this Act shall be available for any expense of

operating aircraft under the jurisdiction of the armed forces for the purpose of proficiency flying, as defined in Department of Defense Directive 1340.4, except in accordance with regulations prescribed by the Secretary of Defense. Such regulations (1) may not require such flying except that required to maintain proficiency in anticipation of a member's assignment to combat operations and (2) such flying may not be permitted in cases of members who have been assigned to a course of instruction of ninety days or more.

SEC. 8012. No part of any appropriation contained in this Act shall be available for expense of transportation, packing, crating, temporary storage, drayage, and unpacking of household goods and personal effects in any one shipment having a net weight in excess of thirteen thousand five hundred pounds for military personnel.

SEC. 8013. Vessels under the jurisdiction of the Department of Transportation, the Department of the Army, the Department of the Air Force, or the Department of the Navy may be transferred or otherwise made available without reimbursement to any such agencies upon the request of the head of one agency and the approval of the agency having jurisdiction of the vessels concerned.

SEC. 8014. Not more than 20 per centum of the appropriations in this Act which are limited for obligation during the current fiscal year shall be obligated during the last two months of the fiscal year: Provided, That this section shall not apply to obligations for support of active duty training of civilian components or summer camp training of the Reserve Officers' Training Corps, or the National Board for the Promotion of Rifle Practice, Army, or to the appropriations provided in this Act for Claims, Defense, or for Environmental Restoration, Defense.

SEC. 8015. During the current fiscal year the agencies of the Department of Defense may accept the use of real property from foreign countries for the United States in accordance with mutual defense agreements or occupational arrangements and may accept services furnished by foreign countries as reciprocal international courtesies or as services customarily made available without charge; and such agencies may use the same for the support of the United States forces in such areas without specific appropriation therefor.

In addition to the foregoing, agencies of the Department of Defense may accept real property, services, and commodities from foreign countries for the use of the United States in accordance with mutual defense agreements or occupational arrangements and such agencies may use the same for the support of the United States forces in such areas, without specific appropriations therefor: Provided, That the foregoing authority shall not be available for the conversion of heating plants from coal to oil at defense facilities in Europe: Provided further, That within thirty days after the end of each quarter the Secretary of Defense shall render to Congress and to the Office of Management and Budget a full report of such property, supplies, and commodities received during such quarter.

SEC. 8016. During the current fiscal year, appropriations available to the Department of Defense for research and development may be used for the purposes of section 2353 of title 10, United States Code, and for purposes related to research and development for which expenditures are specifically authorized in other appropriations of the Service concerned.

SEC. 8017. No appropriation contained in this Act shall be available for the payment of more than 75 per centum of charges of educational institutions for tuition or expenses of off-duty training of military personnel (except with regard to such charges of educational institutions (a) for enlisted personnel in the pay grade E–5 or higher with less than 14 years' service, for which payment of 90 per centum may be made or (b) for military personnel in off-duty high school completion programs, for which payment of 100 per centum may be made), nor for the payment of any part of tuition or expenses for such training for commissioned personnel who do not agree to remain on active duty for two years after completion of such training: Provided, That the foregoing limitation shall not apply to the Program for Afloat College Education.

SEC. 8018. No part of the funds appropriated herein shall be expended for the support of any formally enrolled student in basic courses of the senior division, Reserve Officers' Training Corps, who has not executed a certificate of loyalty or loyalty oath in such form as shall be prescribed by the Secretary of Defense.

SEC. 8019. No part of any appropriation contained in this Act, except for small purchases in amounts not exceeding $10,000 shall be available for the procurement of any article of food, clothing, cotton, woven silk or woven silk blends, spun silk yarn for cartridge cloth, synthetic fabric or coated synthetic fabric, or wool (whether in the form of fiber or yarn or contained in fabrics, materials, or manufactured articles), or specialty metals including stainless steel flatware, or hand or measuring tools, not grown, reprocessed, reused, or produced in the United States or its possessions, except to the extent that the Secretary of the Department concerned shall determine that satisfactory quality and sufficient quantity of any articles of food or clothing or any form of cotton, woven silk and woven silk blends, spun silk yarn for cartridge cloth, synthetic fabric or coated synthetic fabric, wool, or specialty metals including stainless steel flatware, grown, reprocessed, reused, or produced in the United States or its possessions cannot be procured as and when needed at United States market prices and except procurements outside the United States in support of combat operations, procurements by vessels in foreign waters, and emergency procurements or procurements of perishable foods by establishments located outside the United States for the personnel attached thereto: Provided, That nothing herein shall preclude the procurement of specialty metals or chemical warfare protective clothing produced outside the United States or its possessions when such procurement is necessary to comply with agreements with foreign governments requiring the United States to purchase supplies from foreign sources for the purposes of offsetting sales made by the United States Government or United States firms under approved programs serving defense requirements or where such procurement is necessary in furtherance of the standardization and interoperability of equipment requirements within NATO so long as such agreements with foreign governments comply, where applicable, with the requirements of section 36 of the Arms Export Control Act and with section 2457 of title 10, United States Code: Provided further, That nothing herein shall preclude the procurement of foods manufactured or processed in the United States or its possessions: Provided further, That no funds herein appropriated shall be used for the payment of a price differential on contracts hereafter made for the purpose of relieving economic dislocations other than certain contracts not involving fuel made on a test basis by the Defense Logistics Agency with a cumulative value not to exceed $4,000,000,000, as may be determined by the Secretary of Defense pursuant to existing laws and regulations as not to be inappropriate therefor by reason of national security considerations: Provided further, That the Secretary specifically determines that there is a reasonable expectation that offers will be obtained from a sufficient number of eligible concerns so that awards of such contracts will be made at a reasonable price and that no award shall be made for such contracts if the price differential exceeds 2.2 per centum: Provided further, That none of the funds appropriated in this Act shall be used except that, so far as practicable, all contracts shall be awarded on a formally advertised competitive bid basis to the lowest responsible bidder.

SEC. 8020. None of the funds appropriated by this Act may be obligated under section 206 of title 37, United States Code, for inactive duty training pay of a member of the National Guard or a member of a reserve component of a uniformed service for more than four periods of equivalent training, instruction, duty or appropriate duties that are performed instead of that member's regular period of instruction or regular period appropriate duty.

SEC. 8021. During the current fiscal year, appropriations available to the Department of Defense for pay of civilian employees shall be available for uniforms, or allowances therefor, as authorized by section 5901 of title 5, United States Code.

SEC. 8022. Funds provided in this Act for legislative liaison activities of the Department of the Army, the Department of the Navy, the Department of the Air Force, and the Office of the Secretary of Defense shall not exceed $12,700,000 for the current fiscal year: Provided, That this amount shall be available for apportionment to the Department of the Army, the Department of the Navy, the Department of the Air Force, and the Office of the Secretary of Defense as determined by the Secretary of Defense: Provided further, That costs for military retired pay accrual shall be included within this limitation.

SEC. 8023. Of the funds made available by this Act for the services of the Military Airlift Command, $100,000,000 shall be available only for procurement of commercial transportation service from carriers participating in the civil reserve air fleet program; and the Secretary of Defense shall utilize the services of such carriers which qualify as small businesses to the fullest extent found practicable: Provided, That the Secretary of Defense shall specify in such procurement, performance characteristics for aircraft to be used based upon modern aircraft operated by the civil reserve air fleet.

SEC. 8024. During the current fiscal year, appropriations available to the Department of Defense for operation may be used for civilian clothing, not to exceed $40 in cost for enlisted personnel: (1) discharged for misconduct, unsuitability, or otherwise than honorably; (2) sentenced by a civil court to confinement in a civil prison or interned or discharged as an alien enemy; or (3) discharged prior to completion of recruit training under honorable conditions for dependency, hardship, minority, disability, or for the convenience of the Government.

(TRANSFER OF FUNDS)

SEC. 8025. Upon determination by the Secretary of Defense that such action is necessary in the national interest, he may, with the approval of the Office of Management and Budget, transfer not to exceed $1,200,000,000 of working capital funds of the Department of Defense or funds made available in this Act to the Department of Defense for military functions (except military construction) between such appropriations or funds or any subdivision thereof, to be merged with and to be available for the same purposes, and for the same time period, as the appropriation or fund to which transferred: Provided, That such authority to transfer may not be used unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which funds are requested has been denied by Congress: Provided further, That the Secretary of Defense shall notify the Congress promptly of all transfers made pursuant to this authority.

(TRANSFER OF FUNDS)

SEC. 8026. During the current fiscal year, cash balances in working capital funds of the Department of Defense established pursuant to section 2208 of title 10, United States Code, may be maintained in only such amounts as are necessary at any time for cash disbursements to be made from such funds: Provided, That transfers may be made between such funds in such amounts as may be determined by the Secretary of Defense, with the approval of the Office of Management and Budget, except that transfers between a stock fund account and an industrial fund account may not be made unless the Secretary of Defense has notified the Congress of the proposed transfer. Except in amounts equal to the amounts appropriated to working capital funds in this Act, no obligations may be made against a working capital fund to procure war reserve material inventory, unless the Secretary of Defense has notified the Congress prior to any such obligation.

SEC. 8027. No part of the funds appropriated under this Act shall be used to provide a loan, guarantee of a loan, or a grant to any applicant who has been convicted by any court of general jurisdiction of any crime which involves the use of or the assistance to others in the use of force, trespass, or the seizure of property under control of an institution of higher education to prevent officials or students at such an institution from engaging in their duties or pursuing their studies.

SEC. 8028. None of the funds available to the Department of Defense shall be utilized for the conversion of heating plants from coal to oil at defense facilities in Europe.

SEC. 8029. None of the funds appropriated by this Act shall be available for any research involving uninformed or nonvoluntary human beings as experimental subjects: Provided, That this limitation shall not apply to measures intended to be beneficial to the recipient and consent is obtained from the recipient or a legal representative acting on the recipient's behalf.

SEC. 8030. No part of the funds in this Act shall be available to prepare or present a request to the Committees on Appropriations for reprograming of funds, unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which reprograming is requested has been denied by the Congress.

SEC. 8031. No funds appropriated by this Act shall be available to pay claims for nonemergency inpatient hospital care provided under the Civilian Health and Medical Program of the Uniformed Services for services available at a facility of the uniformed services within a 40-mile radius of the patient's residence: Provided, That the foregoing limitation shall not apply to payments that supplement primary coverage provided by other insurance plans or programs for inpatient care.

SEC. 8032. None of the funds contained in this Act available for the Civilian Health and Medical Program of the Uniformed Services under the provisions of section 1079(a) of title 10, United States Code, shall be available for (a) services of pastoral counselors, or family and child counselors, or marital counselors unless the patient has been referred to such counselor by a medical doctor for treatment of a specific problem with results of that treatment to be communicated back to the physician who made such referral; (b) special education, except when provided as secondary to the active psychiatric treatment on an institutional inpatient basis; (c) therapy or counseling for sexual dysfunctions or sexual inadequacies; (d) treatment of obesity when obesity is the sole or major condition treated; (e) surgery which improves physical appearance but which is not expected to significantly restore functions including, but not limited to, mammary augmentation, face lifts and sex gender changes except that breast reconstructive surgery following mastectomy and reconstructive surgery to correct serious deformities caused by congenital anomalies, accidental injuries and neoplastic surgery are not excluded; (f) reimbursement of any physician or other authorized individual provider of medical care in excess of the eightieth percentile of the customary charges made for similar services in the same locality where the medical care was furnished, as determined for physicians in accordance with section 1079(h) of title 10, United States Code; or (g) any service or supply which is not medically or psychologically necessary to prevent, diagnose, or treat a mental or physical illness, injury, or bodily malfunction as assessed or diagnosed by a physician, dentist, clinical psychologist, optometrist, podiatrist, certified nurse-midwife, certified nurse practitioner, or certified clinical social worker, as appropriate, except as authorized by section 1079(a)(4) of title 10, United States Code: Provided, That any changes in availability of funds for the Program made in this Act from those in effect prior to its enactment shall be effective for care received following enactment of this Act.

SEC. 8033. Appropriations available to the Department of Defense for the current fiscal year shall be available to provide an individual entitled to health care under chapter 55 of title 10, United States Code, with one wig if the individual has alopecia that resulted from treatment of malignant disease: Provided, That the individual has not previously received a wig from the Government.

SEC. 8034. None of the funds appropriated by this Act may be used to support more than 300 enlisted aides for officers in the United States Armed Forces.

SEC. 8035. No appropriation contained in this Act may be used to pay for the cost of public affairs activities of the Department of Defense in excess of $43,400,000: Provided, That costs for military retired pay accrual shall be included within this limitation.

SEC. 8036. None of the funds provided in this Act shall be available for the planning or execution of programs which utilize amounts credited to Department of Defense appropriations or funds pursuant to the provisions of section 37(a) of the Arms Export Control Act representing payment for the actual value of defense articles specified in section 21(a)(1) of that Act: Provided, That such amounts shall be credited to the Special Defense Acquisition Fund, as authorized by law, or, to the extent not so credited shall be deposited in the Treasury as miscellaneous receipts as provided in section 3302(b) of title 31, United States Code.

SEC. 8037. No appropriation contained in this Act shall be available to fund any costs of a Senior Reserve Officers' Training Corps unit—except to complete training of personnel enrolled in Military Science 4—which in its junior year class (Military Science 3) has for the four preceding academic years, and as of September 30, 1983, enrolled less than (a) seventeen students where the institution prescribes a four-year or a combination four- and two-year program; or (b) twelve students where the institution prescribes a two-year program: Provided, That, notwithstanding the foregoing limitation, funds shall be available to maintain one Senior Reserve Officers' Training Corps unit in each State and at each State-operated maritime academy: Provided further, That units under the consortium system shall be considered as a single unit for purposes of evaluation of productivity under this provision: Provided further, That enrollment standards contained in Department of Defense Directive 1215.8 for Senior Reserve Officers' Training Corps units, as revised during fiscal year 1981, may be used to determine compliance with this provision, in lieu of the standards cited above.

SEC. 8038. (a) None of the funds appropriated by this Act or available in any working capital fund of the Department of Defense shall be available to pay the expenses attributable to lodging of any person on official business away from his designated post of duty, or in the case of an individual described under section 5703 of title 5, United States Code, his home or regular place of duty, when adequate Government quarters are available, but are not occupied by such person.

(b) The limitation set forth in subsection (a) is not applicable to employees whose duties require official travel in excess of fifty percent of the total number of the basic administrative work weeks during the current fiscal year.

SEC. 8039. (a) During the current fiscal year and hereafter, none of the assets of the Department of Defense Military Retirement Fund shall be available to pay the retainer pay of any enlisted member of the Regular Navy, the Naval Reserve, the Regular Marine Corps, or the Marine Corps Reserve who is transferred to the Fleet Reserve or the Fleet Marine Corps Reserve under section 6330 of title 10, United States Code, on or after December 31, 1977, if the provisions of section 6330(d) of title 10, are utilized in determining such member's eligibility for retirement under section 6330(b) of the title 10: Provided, That notwithstanding the foregoing, time creditable as active service for a completed minority enlistment, and an enlistment terminated within three months before the end of the term of enlistment under section 6330(d) of title 10, prior to December 31, 1977, may be utilized in determining eligibility for retirement: Provided further, That notwithstanding the foregoing, time may be credited as active service in determining a member's eligibility for retire-

ment under section 6330(b) of title 10 pursuant to the provisions of the first sentence of section 6330(d) of title 10 for those members who had formally requested transfer to the Fleet Reserve or the Fleet Marine Corps Reserve on or before October 1, 1977.

(b) During the current fiscal year and hereafter, none of the assets of the Department of Defense Military Retirement Fund shall be available to pay that portion of the retainer pay of any enlisted member of the Regular Navy, the Naval Reserve, the Regular Marine Corps, or the Marine Corps Reserve who is transferred to the Fleet Reserve or the Fleet Marine Corps Reserve under section 6330 of title 10, United States Code, on or after December 31, 1977, which is attributable under the second sentence of section 6330(d) of title 10 to time which, after December 31, 1977, is not actually served by such member.

SEC. 8040. None of the funds appropriated by this Act for programs of the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year, except for: (a) funds appropriated for the Reserve for Contingencies, which shall remain available until September 30, 1986; and (b) funds appropriated for Headquarters Construction, which shall remain available until September 30, 1989.

SEC. 8041. None of the funds provided by this Act may be used to pay the salaries of any person or persons who authorized the transfer of unobligated and deobligated appropriations into the Reserve for Contingencies of the Central Intelligence Agency.

SEC. 8042. None of the funds appropriated by this Act may be used to support more than 9,901 full-time and 2,603 part-time military personnel assigned to or used in the support of Morale, Welfare, and Recreation activities as described in Department of Defense Instruction 7000.12 and its enclosures, dated September 4, 1980.

SEC. 8043. All obligations incurred in anticipation of the appropriations and authority provided in this Act are hereby ratified and confirmed if otherwise in accordance with the provisions of this Act.

SEC. 8044. None of the funds provided by this Act shall be used to perform abortions except where the life of the mother would be endangered if the fetus were carried to term.

SEC. 8045. None of the funds appropriated by this Act shall be used for the provision, care or treatment to dependents of members or former members of the Armed Services or the Department of Defense for the elective correction of minor dermatological blemishes and marks or minor anatomical anomalies.

SEC. 8046. None of the funds appropriated by this Act or heretofore appropriated by any other Act shall be obligated or expended for the payment of anticipatory possession compensation claims to the Federal Republic of Germany other than claims listed in the 1973 agreement (commonly referred to as the Global Agreement) between the United States and the Federal Republic of Germany.

SEC. 8047. During the current fiscal year the Department of Defense may enter into contracts to recover indebtedness to the United States pursuant to section 3718 of title 31, United States Code, and any such contract entered into by the Department of Defense may provide that appropriate fees charged by the contractor under the contract to recover indebtedness may be payable from amounts collected by the contractor to the extent and under the conditions provided under the contract.

SEC. 8048. None of the funds appropriated by this Act shall be available for a contract for studies, analyses, or consulting services entered into without competition on the basis of an unsolicited proposal unless the head of the activity responsible for the procurement determines:

(a) as a result of thorough technical evaluation, only one source is found fully qualified to perform the proposed work, or

(b) the purpose of the contract is to explore an unsolicited proposal which offers significant scientific or technological promise, represents the product of original thinking, and was submitted in confidence by one source, or

(c) where the purpose of the contract is to take advantage of unique and significant industrial accomplishment by a specific concern, or to insure that a new product or idea of a specific concern is given financial support:

Provided, That this limitation shall not apply to contracts in an amount of less than $25,000, contracts related to improvements of equipment that is in development or production, or contracts as to which a civilian official of the Department of Defense, who has been confirmed by the Senate, determines that the award of such contract is in the interest of the national defense.

SEC. 8049. None of the funds appropriated by this Act shall be available to provide medical care in the United States on an inpatient basis to foreign military and diplomatic personnel or their dependents unless the Department of Defense is reimbursed for the costs of providing such care: Provided, That reimbursements for medical care covered by this section shall be credited to the appropriations against which charges have been made for providing such care, except that inpatient medical care may be provided in the United States without cost to military personnel and their dependents from a foreign country if comparable care is made available to a comparable number of United States military personnel in that foreign country.

SEC. 8050. None of the funds appropriated by this Act shall be obligated for the second career training program authorized by Public Law 96-347.

SEC. 8051. None of the funds appropriated or otherwise made available in this Act shall be obligated or expended for salaries or expenses during the current fiscal year for the purposes of demilitarization of surplus nonautomatic firearms less than .50 caliber.

SEC. 8052. None of the funds provided in this Act shall be available to initiate (1) a multiyear contract that employs economic order quantity procurement in excess of $20,000,000 in any one year of the contract or that includes an unfunded contingent liability in excess of $20,000,000, or (2) a contract for advance procurement leading to a multiyear contract that employs economic order quantity procurement in excess of $20,000,000 in any one year, unless the Committees on Appropriations and Armed Services of the Senate and House of Representatives have been notified at least 30 days in advance of the proposed contract award: Provided, That no part of any appropriation contained in this Act shall be available to initiate a multiyear contract for which the economic order quantity advance procurement is not funded at least to the limits of the Government's liability: Provided further, That no part of any appropriation contained in this Act shall be available to initiate multiyear procurement contracts for major systems unless specifically provided herein. For purposes of this provision, a major system is defined as a system or major assembly thereof whose eventual total expenditure for research, development, test, and evaluation is more than $200,000,000, or whose eventual total expenditure for procurement is more than $1,000,000,000.

SEC. 8053. None of the funds appropriated by this Act which are available for payment of travel allowances for per diem in lieu of subsistence to enlisted personnel shall be used to pay such an allowance to any enlisted member in an amount that is more than the amount of per diem in lieu of subsistence that the enlisted member is otherwise entitled to receive minus the basic allowance for subsistence, or pro rata portion of such allowance, that the enlisted member is entitled to receive during any day, or portion of a day, that the enlisted member is also entitled to be paid a per diem in lieu of subsistence: Provided, That if an enlisted member is in a travel status and is not entitled to receive a per diem in lieu of subsistence because the member is furnished meals in a Government mess, funds available to pay the basic allowance for subsistence to such a member shall not be used to pay that allowance, or pro rata portion of that allowance, for each day, or portion of a day, that such enlisted member is furnished meals in a Government mess.

SEC. 8054. During the current fiscal year and hereafter, none of the assets of the Department of Defense Military Retirement Fund shall be available to pay the retired pay or retainer pay of a member of the Armed Forces for any month who, on or after January 1, 1982, becomes entitled to retired or retainer pay, in an amount that is greater than the amount otherwise determined to be payable after such reductions as may be necessary to reflect adjusting the computation of retired pay or retainer pay that includes credit for a part of a year of service to permit credit for a part of a year of service only for such month or months actually served: Provided, That the foregoing limitation shall not apply to any member who before January 1, 1982: (a) applied for retirement or transfer to the Fleet Reserve or Fleet Marine Corps Reserve; (b) is being processed for retirement under the provisions of chapter 61 of title 10 or who is on the temporary disability retired list and thereafter retired under the provisions of sections 1210 (c) or (d) of title 10; or (c) is retired or in an inactive status and would be eligible for retired pay under the provisions of chapter 67 of title 10, but for the fact that the person is under 60 years of age.

SEC. 8055. None of the funds appropriated by this Act shall be available to approve a request for waiver of the costs otherwise required to be recovered under the provisions of section 21(e)(1)(C) of the Arms Export Control Act unless the Committees on Appropriations have been notified in advance of the proposed waiver.

SEC. 8056. None of the funds appropriated by this Act shall be available for the transportation of equipment or materiel designated as Prepositioned Materiel Configured in Unit Sets (POMCUS) in Europe in excess of four division sets: Provided, That the foregoing limitation shall not apply with respect to any item of equipment or materiel which is maintained in the inventories of the Active and Reserve Forces at levels of at least 70 per centum of the established requirements for such an item of equipment or materiel for the Active Forces and 50 per centum of the established requirement for the Reserve Forces for such an item of equip-

ment or materiel: Provided further, That no additional commitments to the establishment of POMCUS sites shall be made without prior approval of Congress.

SEC. 8057. (a) None of the funds in this Act may be used to transfer any article of military equipment or data related to the manufacture of such equipment to a foreign country prior to the approval in writing of such transfer by the Secretary of the military service involved.

(b) No funds appropriated by this Act may be used for the transfer of a technical data package from any Government-owned and operated defense plant manufacturing large caliber cannons to any foreign government, nor for assisting any such government in producing any defense item currently being manufactured or developed in a United States Government-owned, Government-operated defense plant manufacturing large caliber cannons.

(TRANSFER OF FUNDS)

SEC. 8058. None of the funds appropriated in this Act may be made available through transfer, reprograming, or other means for any intelligence or special activity different from that previously justified to the Congress unless the Director of Central Intelligence or the Secretary of Defense has notified the House and Senate Appropriations Committees of the intent to make such funds available for such activity.

SEC. 8059. Of the funds appropriated by this Act for strategic programs, the Secretary of Defense shall provide funds for the Advanced Technology Bomber program at a level at least equal to the amount provided by the committee of conference on this Act in order to maintain priority emphasis on this program.

SEC. 8060. None of the funds available to the Department of Defense during the current fiscal year shall be used by the Secretary of a military department to purchase coal or coke from foreign nations for use at United States defense facilities in Europe when coal from the United States is available.

SEC. 8061. None of the funds available to the Department of Defense shall be available for the procurement of manual typewriters which were manufactured by facilities located within States which are Signatories to the Warsaw Pact.

SEC. 8062. None of the funds appropriated by this Act may be used to appoint or compensate more than 37 individuals in the Department of Defense in positions in the Executive Schedule (as provided in sections 5312–5316 of title 5, United States Code).

SEC. 8063. None of the funds appropriated by this Act shall be available to convert a position in support of the Army Reserve, Air Force Reserve, Army National Guard, and Air National Guard occupied by, or programed to be occupied by, a (civilian) military technician to a position to be held by a person in an active Guard or Reserve status if that conversion would reduce the total number of positions occupied by, or programed to be occupied by, (civilian) military technicians of the component concerned, below 62,410: Provided, That none of the funds appropriated by this Act shall be available to support more than 37,957 positions in support of the Army Reserve, Army National Guard or Air National Guard occupied by, or programed to be occupied by, persons in an active Guard or Reserve status: Provided further, That none of the funds appropriated by this Act may be used to include (civilian) military technicians in computing civilian personnel ceilings, including statutory or administratively imposed ceilings, on activities in support of the Army Reserve, Air Force Reserve, Army National Guard or Air National Guard.

SEC. 8064. (a) The provisions of section 138(c)(2) of title 10, United States Code, shall not apply with respect to fiscal year 1985 or with respect to the appropriation of funds for that year.

(b) During fiscal year 1985, the civilian personnel of the Department of Defense may not be managed on the basis of any end-strength, and the management of such personnel during that fiscal year shall not be subject to any constraint or limitation (known as an end-strength) on the number of such personnel who may be employed on the last day of such fiscal year.

(c) The fiscal year 1986 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 1986 Department of Defense budget request shall be prepared and submitted to the Congress as if sections (a) and (b) of this provision were effective with regard to fiscal year 1986.

(TRANSFER OF FUNDS)

SEC. 8065. Appropriations or funds available to the Department of Defense during the current fiscal year may be transferred to appropriations provided in this Act for research, development, test, and evaluation to the extent necessary to meet increased pay costs authorized by or pursuant to law, to be merged with and to be available for the same purposes, and the same time period, as the appropriation to which transferred.

SEC. 8066. (a) During fiscal year 1985, no funds available to the Central Intelligence Agency, the Department of Defense, or any other agency or entity of the United States involved in intelligence activities may be obligated or expended for the purpose or which would have the effect of supporting, directly or indirectly, military or paramilitary operations in Nicaragua by any nation, group, organization, movement, or individual.

(b) The prohibition concerning Nicaragua contained in subsection (a) shall cease to apply if, after February 28, 1985—

(1) the President submits to Congress a report—

(A) stating that the Government of Nicaragua is providing materiel or monetary support to anti-government forces engaged in military or paramilitary operations in El Salvador or other Central American countries;

(B) analyzing the military significance of such support;

(C) stating that the President has determined that assistance for military or paramilitary operations prohibited by subsection (a) is neccessary;

(D) justifying the amount and type of such assistance and describing its objectives; and

(E) explaining the goals of United States policy for the Central American region and how the proposed assistance would further such goals, including the achievement of peace and security in Central America through a comprehensive, verifiable and enforceable agreement based upon the Contadora Document of Objectives; and

(2) a joint resolution approving assistance for military or paramilitary operations in Nicaragua is enacted.

(c)(1) For the purpose of subsection (b)(2), "joint resolution" means only a joint resolution introduced after the date on which the report of the President under subsection (b)(1) is received by Congress, the matter after the resolving clause of which is as follows: "That the Congress approves the obligation and expenditure of funds available for Fiscal Year 1985 for supporting, directly or indirectly, military or paramilitary operations in Nicaragua.".

(2) The report described in subsection (b)(1) shall be referred to the appropriate committee or committees of the House of Representatives and to the appropriate committee or committees of the Senate.

(3) A resolution described in paragraph (1) introduced in the House of Representatives shall be referred to the Committee on Appropriations of the House of Representatives. A resolution described in paragraph (1) introduced in the Senate shall be referred to the Committee on Appropriations of the Senate. Such a resolution may not be reported before the 8th day after its introduction.

(4) If the committee to which is referred a resolution described in pararaph (1) has not reported such resolution (or an identical resolution) at the end of 15 calendar days after its introduction, such committee shall be discharged from further consideration of such resolution and such resolution shall be placed on the appropriate calendar of the House involved.

(5)(A) When the committee to which a resolution is referred has reported, or has been deemed to be discharged (under paragraph (4)) from further consideration of, a resolution described in paragraph (1), notwithstanding any rule or precedent of the Senate, including Rule 22, it is at any time thereafter in order (even though a previous motion to the same effect has been disagreed to) for any Member of the respective House to move to proceed to the consideration of the resolution, and all points of order against the resolution (and against consideration of the resolution) are waived. The motion is highly privileged in the House of Representatives and is privileged in the Senate and is not debatable. The motion is not subject to amendment, or to a motion to postpone, or to a motion to proceed to the consideration of other business. A motion to reconsider to vote by which the motion is agreed to or disagreed to shall not be in order. If a motion to proceed to the consideration of the resolution is agreed to, the resolution shall remain the unfinished business of the respective House until disposed of.

(B) Debate on the resolution, and on all debatable motions and appeals in connection therewith, shall be limited to not more than 10 hours, which shall be divided equally between those favoring and those opposing the resolution. A motion further to limit debate is in order and not debatable. An amendment to, or a motion to postpone, or a motion to proceed to the consideration of other business, or a motion to recommit the resolution is not in order. A motion to reconsider the vote by which the resolution is agreed to or disagreed to is not in order.

(C) Immediately following the conclusion of the debate on a resolution described in paragraph (1), and a single quorum call at the conclusion of the debate if requested in accordance with the rules of the appropriate House, the vote on final passage of the resolution shall occur.

(D) Appeals from the decisions of the Chair relating to the application of the rules of the Senate or the House of Representatives, as the case may be, to the procedure relating to a resolution described in paragraph (1) shall be decided without debate.

(6) If, before the passage by the Senate of a resolution of the Senate described in paragraph (1), the Senate receives from the House of Representatives a resolution de-

scribed in paragraph (1), then the following procedures shall apply:

(A) The resolution of the House of Representatives shall not be referred to a committee.

(B) With respect to a resolution described in paragraph (1) of the Senate—

(i) the procedure in the Senate shall be the same as if no resolution had been received from the House; but

(ii) the vote on final passage shall be on the resolution of the House.

(C) Upon disposition of the resolution received from the House, it shall no longer be in order to consider the resolution originated in the Senate.

(7) If the Senate receives from the House of Representatives a resolution described in paragraph (1) after the Senate has disposed of a Senate originated resolution, the action of the Senate with regard to the disposition of the Senate originated resolution shall be deemed to be the action of the Senate with regard to the House originated resolution.

(8) This subsection is enacted by Congress—

(A) as an exercise of the rulemaking power of the Senate and House of Representatives, respectively, and as such it is deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of a resolution described in paragraph (1), and it supersedes other rules only to the extent that it is inconsistent with such rules; and

(B) with full recognition of the constitutional right of either House to change the rules (so far as relating to the procedure of that House) at any time, in the same manner and to the same extent as in the case of any other rule of that House.

(d) During Fiscal Year 1985 funds approved by the resolution described in subsection (b)(2) for the purpose of supporting, directly or indirectly, military or paramilitary operations in Nicaragua, shall not exceed $14,000,000.

SEC. 8067. So far as may be practicable, Indian labor shall be employed, and purchases of the products of Indian industry may be made in open market in the discretion of the Secretary of Defense: Provided, That the products must meet pre-set contract specifications.

SEC. 8068. None of the funds made available by this Act shall be used in any way for the leasing to non-Federal agencies in the United States aircraft or vehicles owned or operated by the Department of Defense when suitable aircraft or vehicles are commercially available in the private sector: Provided, That nothing in this section shall affect authorized and established procedures for the sale of surplus aircraft or vehicles: Provided further, That nothing in this section shall prohibit such leasing when specifically authorized in a subsequent Act of Congress.

SEC. 8069. None of the funds made available by this Act shall be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before the Congress.

SEC. 8070. No funds available to the Department of Defense during the current fiscal year may be used to enter into any contract with a term of 18 months or more, inclusive of any option for contract extension or renewal, for any vessels, aircraft or vehicles, through a lease, charter, or similar agreement without prior Congressional approval of appropriations. Further, any contractual agreement which imposes an estimated termination liability (excluding the estimated value of the leased item at the time of termination) on the Government exceeding 50 per centum of the original purchase value of the vessel, aircraft, or vehicle must have specific authority in an appropriation Act for the obligation of 10 per centum of such termination liability.9

SEC. 8071. None of the funds appropriated by this Act may be obligated or expended on a Department of Defense contract for commercial or commercial-type products if the solicitation excludes any small business concern (as defined pursuant to section 3 of the Small Business Act) that cannot demonstrate that its product is accepted in the commercial market (except to the extent that may be required to evidence compliance with the Walsh-Healey Public Contracts Act).

SEC. 8072. None of the funds appropriated in this Act may be obligated or expended in any way for the purpose of the sale, lease, rental, or excessing of any portion of land currently identified as Fort DeRussy, Honolulu, Hawaii.

SEC. 8073. None of the funds made available by this Act shall be available to operate in excess of 247 commissaries in the contiguous United States.

SEC. 8074. None of the funds provided in this Act shall be used to procure aircraft ejection seats manufactured in any foreign nation that does not permit United States manufacturers to compete for ejection seat procurement requirements in that foreign nation. This limitation shall apply only to ejection seats procured for installation on aircraft produced or assembled in the United States.

SEC. 8075. No more than $197,800,000 of the funds appropriated by this Act shall be available for the payment of unemployment compensation benefits.

SEC. 8076. None of the funds appropriated by this Act should be obligated for the pay of any individual who is initially employed after the date of enactment of this Act as a technician in the administration and training of the Army Reserve and the maintenance and repair of supplies issued to the Army Reserve unless such individual is also a military member of the Army Reserve troop program unit that he or she is employed to support. Those technicians employed by the Army Reserve in areas other than Army Reserve troop program units need only be members of the Selected Reserve.

SEC. 8077. None of the funds appropriated by this Act may be obligated or expended to adjust a base period under section 1079(h)(2) of title 10, United States Code, more frequently than the Secretary of Defense considers appropriate.

SEC. 8078. None of the funds hereafter available to the Department of Defense shall be used to adjust any contract price for amounts set forth in any shipbuilding claim, request for equitable adjustment, or demand for payment incurred due to the preparation, submission, or adjudication of any such shipbuilding claim, request, or demand under a contract entered into after the date of enactment of this Act arising out of events occurring more than eighteen months prior to the submission of such shipbuilding claim, request, or demand. For the purposes of this section, requirement for submission of a shipbuilding claim, request, or demand is met only when the certification required in section 6(c)(1) of the Contract Disputes Act of 1978 and supporting data are provided.

SEC. 8079. None of the funds appropriated by this Act shall be used for the transfer of the Department of Defense Dependents Schools (DODDS) to the Department of Education, as prohibited by section 1223 of the Department of Defense Authorization Act, 1984.

SEC. 8080. No part of the funds appropriated herein shall be available for the purchase of more than 50 per centum of the fiscal year requirements for aircraft power supply cable assemblies of each military facility from industries established pursuant to title 18, United States Code: Provided, That the restriction contained herein shall not apply to small purchases in amounts not exceeding $10,000.

SEC. 8081. None of the funds appropriated by this Act shall be used to purchase dogs or cats or otherwise fund the use of dogs or cats for the purpose of training Department of Defense students or other personnel in surgical or other medical treatment of wounds produced by any type of weapon: Provided, That the standards of such training with respect to the treatment of animals shall adhere to the Federal Animal Welfare Law and to those prevailing in the civilian medical community.

SEC. 8082. None of the funds appropriated by this Act shall be obligated under the competitive rate program of the Department of Defense for the transportation of household goods to or from Alaska and Hawaii.

SEC. 8083. None of the funds made available by this Act shall be used to initiate full-scale engineering development of any major defense acquisition program until the Secretary of Defense has provided to the Committees on Appropriations of the House and Senate—

(a) a certification that the system or subsystem being developed will be procured in quantities that are not sufficient to warrant development of two or more production sources, or

(b) a plan for the development of two or more sources for the production of the system or subsystem being developed.

SEC. 8084. None of the funds appropriated by this Act shall be available to pay any member of the uniformed service for unused accrued leave pursuant to section 501 of title 37, United States Code, for more than sixty days of such leave, less the number of days for which payment was previously made under section 501 after February 9, 1976.

SEC. 8085. Within the funds made available under title II of this Act, the military departments may use such funds as necessary, but not to exceed $4,700,000, to carry out the provisions of section 430 of title 37, United States Code: Provided, That none of the funds appropriated to the Department of Defense for the travel and transportation of dependent students of military personnel stationed overseas shall be obligated for a transportation allowance for travel within or between the contiguous United States.

SEC. 8086. Within funds available under title II of this Act, but not to exceed $100,000, and under such regulations as the Secretary of Defense may prescribe, the Department of Defense may, in addition to allowances currently available, make payments for travel and transportation expenses of the surviving spouse, children, parents, and brothers and sisters of any member of the Armed Forces of the United States, who dies as the result of an injury or disease incurred in line of duty to attend the funeral of such member in any case in which the funeral of such member is more

than 200 miles from the residence of the surviving spouse, children, parents or brothers and sisters, if such spouse, children, parents or brothers and sisters, as the case may be, are financially unable to pay their own travel and transportation expenses to attend the funeral of such member.

SEC. 8087. Notwithstanding any other provision of this Act, no funds appropriated by this Act shall be expended for the research, development, test, evaluation or procurement for integration of a nuclear warhead into the Joint Tactical Missile System (JTACMS).

SEC. 8088. None of the funds available to the Department of Defense may be used for the floating storage of petroleum or petroleum products except in vessels of or belonging to the United States.

SEC. 8089. Of the funds made available to the Department of the Air Force in this Act, not less than $3,000,000 shall be available for the Civil Air Patrol.

SEC. 8090. Funds appropriated by this Act may be used by the Department of the Navy for the use of helicopters and motorized equipment at China Lake Naval Weapons Center for removal of feral burros and horses.

SEC. 8091. On or after June 30, 1985, none of the funds appropriated by this Act shall be available to execute an agreement for continuation pay authorized under section 311 of title 37, United States Code, with an officer of the Army or Navy in the Dental Corps or an officer of the Air Force designated as a dental officer who is serving in a dental specialty which is manned in excess of 95 percent of the authorized strength for that specialty: Provided, That an agreement for such continuation pay may be executed with such an officer if the agreement provides that such officer will receive only 50 percent of the amount of the continuation pay to which the officer would otherwise be entitled under section 311 of title 37: Provided further, That the foregoing limitation shall cease to be applicable upon the enactment of legislation repealing or amending the continuation pay provisions currently authorized by section 311 of title 37.

(TRANSFER OF FUNDS)

SEC. 8092. Not to exceed $100,000,000 may be transferred from the appropriation "Operation and Maintenance, Defense Agencies" to operation and maintenance appropriations under the military departments in connection with demonstration projects authorized by section 1092 of title 10, United States Code: Provided, That the Secretary of Defense shall promptly notify the Congress of any such transfer of funds under this provision: Provided further, That the authority to make transfers pursuant to this section is in addition to the authority to make transfers under other provisions of this Act.

SEC. 8093. The eleven sets of excess Navy quarters and related facilities on a six-acre site at the former Brooklyn Naval Shipyard shall be transferred at no cost to the Secretary of the Army for use by the Army National Guard.

SEC. 8094. None of the funds available for Defense installations in Europe shall be used for the consolidation or conversion of heating facilities to district heating distribution systems in Europe: Provided, That those facilities identified by the Department of the Army as of September 24, 1984, as being in advanced stages of negotiations shall be exempt from such provision upon written notification to the Committees on Appropriations of the House of Representatives and the Senate from the Department justifying the conversion for each facility.

SEC. 8095. Section 7309(a) of title 10, United States Code, is amended—

(1) by inserting "and no vessel of any other military department," after "no naval vessel,"; and

(2) by striking out "a naval" and inserting in lieu thereof "any such".

SEC. 8096. It is the sense of the Congress that the Secretary of Defense should formulate and carry out a program under which contracts awarded by the Department of Defense in fiscal year 1985 would, to the maximum extent practicable and consistent with existing law, be awarded to contractors who agree to carry out such contracts in labor surplus areas (as defined and identified by the Department of Labor).

SEC. 8097. None of the funds appropriated or otherwise made available under this Act may be available for any country during any three-month period beginning on or after November 1, 1983, immediately following a certification by the President to the Congress that the government of such country is failing to take adequate measures to prevent narcotic drugs or other controlled substances (as listed in the schedules in section 202 of the Comprehensive Drug Abuse and Prevention Control Act of 1971 (21 U.S.C. 812), which are cultivated, produced, or processed illicitly, in whole or in part, in such country, or transported through such country from being sold illegally within the jurisdiction of such country to United States Government personnel or their dependents or from entering the United States unlawfully.

SEC. 8098. It is the sense of the Congress that competition, which is necessary to enhance innovation, effectiveness, and efficiency, and which has served our Nation so well in other spheres of political and economic endeavor, should be expanded and increased in the provision of our national defense.

SEC. 8099. None of the funds available to the Department of Defense shall be obligated or expended to contract out any activity currently performed by the Defense Personnel Support Center in Philadelphia, Pennsylvania: Provided, That this provision shall not apply after notification to the Committees on Appropriations of the House of Representatives and the Senate of the results of the cost analysis of contracting out any such activity.

SEC. 8100. (a) Notwithstanding any other provision of law, none of the funds appropriated or made available in this or any other Act may be obligated or expended to test against an object in space the miniature homing vehicle (MHV) anti-satellite warhead launched from an F-15 aircraft unless the President determines and certifies to Congress—

(1) that the United States is endeavoring, in good faith, to negotiate with the Soviet Union a mutual and verifiable agreement with the strictest possible limitations on anti-satellite weapons consistent with the national security interests of the United States;

(2) that, pending agreement on such strict limitations, testing against objects in space of the F-15 launched miniature homing vehicle anti-satellite warhead by the United States is necessary to avert clear and irrevocable harm to the national security;

(3) that such testing would not constitute an irreversible step that would gravely impair prospects for negotiations on anti-satellite weapons; and

(4) that such testing is fully consistent with the rights and obligations of the United States under the Anti-Ballistic Missile Treaty of 1972 as those rights and obligations exist at the time of such testing.

(b) During fiscal year 1985, funds appropriated for the purpose of testing the F-15 launched miniature homing vehicle anti-satellite warhead may not be used to conduct more than three tests of that warhead against objects in space.

(c) The limitation on the expenditure of funds provided by subsection (a) of this section shall cease to apply 15 calendar days after the days of the receipt by Congress of the certification referred to in subsection (a) or March 1, 1985, whichever occurs later.

SEC. 8101. (a) The Congress makes the following findings:

(1) The President has stated that there is no need to introduce United States Armed Forces into Central America for combat and that he has no intention of doing so.

(2) The President of El Salvador has stated that there is no need for United States Armed Forces to conduct combat operations in El Salvador and that he has no intention of asking that they do so.

(3) The possibility of the introduction of United States Armed Forces into Central America for combat raises very grave concern in the Congress and the American people.

(b) It is the sense of Congress that—

(1) United States Armed Forces should not be introduced into or over the countries of Central America for combat; and

(2) if circumstances change from those present on the date of the enactment of this Act and the President believes that those changed circumstances require the introduction of United States Armed Forces into or over a country of Central America for combat, the President should consult with Congress before any decision to so introduce United States Armed Forces and any such introduction of United States Armed Forces must comply with the War Powers Resolution.

SEC. 8102. None of the funds appropriated by this Act shall be available to compensate foreign selling costs as described in Federal Acquisition Regulation 31.205-38(b) as in effect on April 1, 1984.

SEC. 8103. Of the funds appropriated for the operation and maintenance of the Armed Forces, obligations may be incurred for humanitarian and civic assistance costs incidental to authorized operations, and these obligations shall be reported to Congress on September 30, 1985: Provided, That funds available for operation and maintenance shall be available for providing humanitarian and similar assistance in the Trust Territories of the Pacific Islands by using Civic Action Teams.

SEC. 8104. It is the sense of the Congress that—(a) the President shall inform and make every effort to consult with other member nations of the North Atlantic Treaty Organization, Japan, and other appropriate allies concerning the research being conducted in the Strategic Defense Initiative program. (b) The Secretary of Defense, in coordination with the Secretary of State and the Director of the Arms Control and Disarmament Agency, shall at the time of the submission of the annual budget presentation materials for each fiscal year beginning after September 30, 1984, report to the Committees on Appropriations, Armed Services, and Foreign Relations of the Senate and the Committees on Appropriations, Armed Services, and Foreign Affairs of the House of Representatives on the

status of the consultations referred to under subsection (a).

SEC. 8105. It is the sense of Congress that the President should insist that the pertinent member nations of the North Atlantic Treaty Organization meet or exceed their pledges for an annual increase in defense spending during fiscal years 1984 and 1985 of at least 3 percent real growth and should insist that Japan further increase its defense spending during fiscal years 1984 and 1985 in furtherance of increased unity, equitable sharing of our common defense burden, and international stability.

SEC. 8106. Notwithstanding any other provision of law, the Secretaries of the Army and Air Force may authorize the retention in an active status until age 60 of any officer who would otherwise be removed from an active status and who is employed as a National Guard or Reserve technician in a position in which active status in a reserve component of the Army or Air Force is required as a condition of that employment.

SEC. 8107. None of the funds available to the Department of Defense may be used to transport any chemical munitions into the Lexington-Blue Grass Army Depot for purposes of future demilitarization.

SEC. 8108. Notwithstanding any other provision of law, including any amendments to section 405 of title 37, United States Code, enacted into law between September 26, 1984, and November 25, 1984, a station housing allowance ("rent plus") may be prescribed for a member of the uniformed services on duty in Alaska or Hawaii pursuant to the provisions of section 405 of title 37, United States Code, in effect on September 1, 1984: Provided, That a member of the uniformed services on duty in Alaska or Hawaii who receives such allowance shall not be entitled to a variable housing allowance.

SEC. 8109. Notwithstanding any other provision of law, in addtion to the contracts authorized by paragraph (7) of section 2828(g) of title 10, United States Code, and section 806 of Public Law 98-407, the Secretary of the Army may enter into contracts for not more than 1,200 family housing units at Fort Drum, New York; Fort Wainwright, Alaska; and Fort Benning, Georgia; if the contracts are necessary in order to provide sufficient family housing to accommodate the restationing of the light infantry divisions.

SEC. 8110. Notwithstanding any other provision of law, none of the funds appropriated in title II of this Act shall be available to meet the unforeseen and contingent requirement of the unified and specified commands of the Armed Forces: Provided, That this provision shall not apply to unforeseen and contingent requirements of the unified and specified commands of the Armed Forces which may be funded under the terms and conditions of this bill governing title II obligations and expenditures.

SEC. 8111. None of the funds appropriated by this Act may be obligated or expended for the purposes delineated in section 1002(e)(2)(A) of the Department of Defense Authorization Act, 1985, without the prior notification to the Committees on Appropriations of the House of Representatives and the Senate.

SEC. 8112. (a) Notwithstanding any other provision of this joint resolution, of the total amount appropriated by this joint resolution, or any other Act appropriating funds for the Department of Defense for fiscal year 1985, for programs and activities subject to the reporting requirements of the Federal Procurement Data System Individual Contract Action Report (SF-279), an amount not less than $1,000,000,000 may be apportioned or utilized for the costs of consultants, studies, analyses, management support services or other advisory and assistance services which are included in such reported programs and activities.

(b) Not later than September 1, 1985, the Secretary of Defense shall submit a report to the Congress indicating the manner in which compliance with subsection (a) has been achieved.

SEC. 8113. The Secretaries concerned (as defined in section 101(5) of title 37, United States Code), under uniform regulations prescribed by them and to the extent that funds are available within the permanent change of station travel account, may increase the rate mile for mileage allowance under section 404(d)(2) of title 37, United States Code, to 15 cents per mile.

SEC. 8114. (a) The Secretary of Defense shall provide for an objective study to supplement and update the report entitled "Military Spouse and Family Issues, Europe, 1982."

(b) The study shall include within its scope all areas in which members of the uniformed services are assigned to permanent duty stations and to which the dependents of members of the uniformed services are permitted to travel at Government expense.

(c) The Secretary shall select independent organization to conduct the study referred to in subsection (a) with such administrative support and technical advice as may be necessary for such organization to carry out the study. Such support and advice may be provided by the Secretary on an in-house basis and to reduce contractual expenditures to include collating, tabulating, computer, word processor, printing, and similar routine services.

(d) A report containing the results of the study carried out under this section shall be submitted to the Committees on Appropriations and Armed Services of the Senate and the House of Representatives not later than May 1, 1985.

(e) For the purpose of contracting out the study called for by this section, the Secretary of Defense may utilize not more than $250,000 out of any funds available to the Department of Defense.

This Act may be cited as the "Department of Defense Appropriations Act, 1985".

And the Senate agree to the same.

Amendment numbered 37:

That the House recede from its disagreement to the amendment of the Senate numbered 37, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

(i) Such amounts as may be necessary for projects or activities provided for in the Department of Transportation and Related Agencies Appropriations Act, 1985, at a rate for operations and to the extent in the following Act; this subsection shall be effective as if it had been enacted into law as the regular appropriation Act:

AN ACT Making appropriations for the Department of Transportation and related agencies for the fiscal year ending September 30, 1985, and for other purposes.

TITLE I—DEPARTMENT OF TRANSPORTATION

OFFICE OF THE SECRETARY

SALARIES AND EXPENSES

For necessary expenses of the Office of the Secretary of Transportation, including not to exceed $36,500 for allocation within the Department of official reception and representation expenses as the Secretary may determine, $50,000,000 of which $4,000,000 shall remain available until expended and shall be available for the purposes of the Minority Business Resource Center as authorized by 49 U.S.C. 332: Provided, That, notwithstanding any other provision of law, funds available for the purposes of the Minority Business Resource Center in this or any other Act, may be used for business opportunities related to any mode of transportation.

TRANSPORTATION PLANNING, RESEARCH, AND DEVELOPMENT

For necessary expenses for conducting transportation planning, research, and development activities, including the collection of national transportation statistics, and university research and internships, to remain available until expended, $5,700,000: Provided, That the Secretary is directed to make simultaneous competitive study awards for the Phase I proposals, as submitted by the two technically qualified finalists in the competition to perform a methane conversion study, as authorized by section 152 of the Surface Transportation Assistance Act of 1982.

LIMITATION ON WORKING CAPITAL FUND

Necessary expenses for operating costs and capital outlays of the Department of Transportation Working Capital Fund not to exceed $65,500,000 shall be paid, in accordance with law, from appropriations made available by this Act and prior appropriation Acts to the Department of Transportation, together with advances and reimbursements received by the Department of Transportation.

COAST GUARD

OPERATING EXPENSES

For necessary expenses for the operation and maintenance of the Coast Guard, not otherwise provided for; purchase of not to exceed eight passenger motor vehicles for replacement only; and recreation and welfare, $1,740,000,000, of which $202,861 shall be applied to Capehart Housing debt reduction; Provided, That the number of aircraft on hand at any one time shall not exceed two hundred and ten exclusive of planes and parts stored to meet future attrition: Provided further, That none of the funds appropriated in this or any other Act shall be available for pay or administrative expenses in connection with shipping commissioners in the United States: Provided further, That none of the funds provided in this Act shall be available for expenses incurred for yacht documentation under 46 U.S.C. 103 except to the extent fees are collected from yacht owners and credited to this appropriation.

ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

For necessary expenses of acquisition, construction, rebuilding, and improvement of aids to navigation, shore facilities, vessels, and aircraft, including equipment related thereto; to remain available until September 30, 1989, $344,500,000: Provided, That the Secretary of Transportation shall issue regulations requiring that written warranties shall be included in all contracts with prime contractors for major systems acquisitions of the Coast Guard: Provided further, That any such written warranty shall not apply in the case of any system or component thereof which has been furnished by the Government to a contractor: Provided further, That the Secretary of Transportation

may provide for a waiver of the requirements for a warranty where: (1) the waiver is necessary in the interest of the national defense or the warranty would not be cost effective; and (2) the Committees on Appropriations of the Senate and the House of Representatives are notified in writing of the Secretary's intention to waive and reasons for waiving such requirements: Provided further, That the requirements for such written warranties shall not cover combat damage.

ALTERATION OF BRIDGES

For necessary expenses for alteration or removal of obstructive bridges, $5,200,000, to remain available until expended.

RETIRED PAY

For retired pay including the payment of obligations therefor otherwise chargeable to lapsed appropriations for this purpose, and payments under the Retired Serviceman's Family Protection and Survivor Benefit Plans, and for payments for medical care of retired personnel and their dependents under the Dependents Medical Care Act (10 U.S.C., ch. 55), $330,800,000.

RESERVE TRAINING

For all necessary expenses for the Coast Guard Reserve, as authorized by law; maintenance and operation of facilities; and supplies, equipment, and services, $58,833,000.

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

For necessary expenses, not otherwise provided for, for basic and applied scientific research, development, test, and evaluation; maintenance, rehabilitation, lease, and operation of facilities and equipment, as authorized by law, $23,000,000, to remain available until expended: Provided, That there may be credited to this appropriation funds received from State and local governments, other public authorities, private sources and foreign countries for expenses incurred for research, development, testing, and evaluation.

OFFSHORE OIL POLLUTION COMPENSATION FUND

For necessary expenses to carry out the provisions of title III of the Outer Continental Shelf Lands Act Amendments of 1978 (Public Law 95-372), $1,000,000, to be derived from the Offshore Oil Pollution Compensation Fund and to remain available until expended. In addition, to the extent that available appropriations are not adequate to meet the obligations of the Fund, the Secretary of Transportation is authorized to issue to the Secretary of the Treasury notes or other obligations in such amounts and at such times as may be necessary: Provided, That none of the funds in this Act shall be available for the implementation or execution of programs the obligations for which are in excess of $60,000,000 in fiscal year 1985 for the "Offshore Oil Pollution Compensation Fund".

DEEPWATER PORT LIABILITY FUND

For necessary expenses to carry out the provisions of section 18 of the Deepwater Port Act of 1974 (Public Law 93-627), $1,000,000, to be derived from the Deepwater Port Liability Fund and to remain available until expended. In addition, to the extent that available appropriations are not adequate to meet the obligations of the Fund, the Secretary of Transportation is authorized to issue, and the Secretary of the Treasury is authorized to purchase, without fiscal year limitation, notes or other obligations in such amounts and at such times as may be necessary: Provided, That none of the funds in this Act shall be available for the implementation or execution of programs, the obligations for which are in excess of $50,000,000 in fiscal year 1985 for the "Deepwater Port Liability Fund".

NATIONAL RECREATIONAL BOATING SAFETY AND FACILITIES IMPROVEMENT FUND

(LIQUIDATION OF CONTRACT AUTHORIZATION)

For payment of obligations incurred for recreational boating safety assistance under Public Law 92-75, as amended, $13,625,000, to be derived from the National Recreational Boating Safety and Facilities Improvement Fund and to remain available until expended: Provided, That none of the funds in this Act shall be available for the planning or execution of programs, the obligations for which are in excess of $13,750,000 in fiscal year 1985 for recreational boating safety assistance: Provided further, That no obligations may be incurred for the improvement of recreational boating facilities.

FEDERAL AVIATION ADMINISTRATION

HEADQUARTERS ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses, not otherwise provided for, of providing administrative services at the headquarters location of the Federal Aviation Administration, including but not limited to accounting, budgeting, personnel, legal, public affairs, and excutive direction for the Federal Aviation Administration, $66,900,000: Provided, That the Secretary of Transportation is authorized to transfer appropriated funds between this appropriation and the Federal Aviation Administration appropriation for Operations: Provided further, That this appropriation shall be neither increased nor decreased by more than 7.5 per centum by any such transfers: Provided further, That any such transfers shall be reported to the Committees on Appropriations.

OPERATIONS

For necessary expenses of the Federal Aviation Administration, not otherwise provided for, including administrative expenses for research and development, and for establishment of air navigation facilities, and carrying out the provisions of the Airport and Airway Development Act, as amended, or other provisions of law authorizing obligation of funds for similar programs of airport and airway development or improvement; purchase of four passenger motor vehicles for replacement only and purchase and repair of skis and snowshoes, $2,622,600,000, of which not to exceed $1,110,000,000 shall be derived from the Airport and Airway Trust Fund, notwithstanding any other provision of law: Provided, That there may be credited to this appropriation funds received from States, counties, municipalities, other public authorities, and private sources, for expenses incurred in the maintenance and operation of air navigation facilities: Provided further, That none of these funds shall be available for new applicants for the second career training program.

FACILITIES AND EQUIPMENT (AIRPORT AND AIRWAY TRUST FUND)

For necessary expenses, not otherwise provided for, for acquisition, establishment, and improvement by contract or purchase, and hire of air navigation and experimental facilities, including initial acquisition of necessary sites by lease or grant; engineering and service testing including construction of test facilities and acquisition of necessary sites by lease or grant; construction and furnishing of quarters and related accommodations of officers and employees of the Federal Aviation Administration stationed at remote localities where such accommodations are not available, and the lease or purchase of one aircraft; to be derived from the Airport and Airway Trust Fund and to remain available until September 30, 1989, $1,370,000,000: Provided, That there may be credited to this appropriation funds received from States, counties, municipalities, other public authorities, and private sources, for expenses incurred in the establishment and modernization of air navigation facilities: Provided further, That of the funds available under this heading, $5,000,000 shall be available for the Secretary of Transportation to enter into grant agreements with universities or colleges to conduct demonstration projects in the development, advancement, or expansion of an airway science curriculum and such money, which shall remain available until expended, shall be made available under such terms and conditions as the Secretary of Transporation may prescribe, to such universities or colleges for the purchase or lease of buildings and associated facilities, instructional materials, or equipment to be used in conjunction with the airway science curriculum.

RESEARCH, ENGINEERING AND DEVELOPMENT (AIRPORT AND AIRWAY TRUST FUND)

For necessary expenses, not otherwise provided for, for research, engineering, and development, in accordance with the provisions of the Federal Aviation Act (49 U.S.C. 1301-1542), including construction of experimental facilities and acquisition of necessary sites by lease of grant, $265,000,000 to be derived from the Airport and Airway Trust Fund and to remain available until expended: Provided, That there may be credited to this appropriation funds received from States, counties, municipalities, other public authorities, and private sources, for expenses incurred for research, engineering and development.

GRANTS-IN-AID FOR AIRPORTS (LIQUIDATION OF CONTRACT AUTHORIZATION) (AIRPORT AND AIRWAY TRUST FUND)

For liquidation of obligations incurred for airport planning and development under section 14 of Public Law 91-258, as amended, and under other law authorizing such obligations, and obligations for noise compatibility planning and programs, $810,000,000, to be derived from the Airport and Airway Trust Fund and to remain available until expended: Provided, That none of the funds in this Act shall be available for the planning or execution of programs the commitments for which are in excess of $925,000,000 in fiscal year 1985 for grants-in-aid for airport planning and development, and noise planning and programs, notwithstanding section 506(e)(4) of the Airport and Airway Improvement Act of 1982.

OPERATION AND MAINTENANCE, METROPOLITAN WASHINGTON AIRPORTS

For expenses incident to the care, operation, maintenance, improvement, and protection of the federally owned civil airports.

CONSTRUCTION, METROPOLITAN WASHINGTON AIRPORTS

For necessary expenses for construction at the federally owned civil airports in the vicinity of the District of Columbia, including purchase of ten passenger motor vehicles for police use, for replacement only; purchase, cleaning, and repair of uniforms; and arms and ammunition, $35,931,500: Provided,

That there may be credited to this appropriation funds received from air carriers, concessionaires, and non-Federal tenants sufficient to cover utility and fuel costs which are in excess of $6,970,000: Provided further, That there may be credited to this appropriation funds received from States, counties municipalities, other public authorities, or private sources, for expenses incurred in the maintenance and operation of the federally owned civil airports.

CONSTRUCTION, METROPOLITAN WASHINGTON AIRPORTS

For necessary expenses for construction at the federally owned civil in the vicinity of the District of Columbia, $13,000,000, to remain available until September 30, 1987.

AVIATION INSURANCE REVOLVING FUND

The Secretary of Transportation is hereby authorized to make such expenditures and investments, within the limits of funds available pursuant to section 1306 of the Act of August 23, 1958, as amended (49 U.S.C. 1536), and in accordance with section 104 of the Government Corporation Control Act, as amended (31 U.S.C. 9104), as may be necessary in carrying out the programs set forth in the budget for the current fiscal year for aviation insurance activities under said Act.

AIRCRAFT PURCHASE LOAN GUARANTEE PROGRAM

The Secretary of Transportation may hereafter issue notes or other obligations to the Secretary of the Treasury, in such forms and denominations, bearing such maturities, and subject to such terms and conditions as the Secretary of the Treasury may prescribe. Such obligations may be issued to pay any necessary expenses required pursuant to any guarantee issued under the Act of September 7, 1957, Public Law 85-307, as amended (49 U.S.C. 1324 note.) The aggregate amount of such obligations during fiscal year 1985 shall not exceed $125,000,000. Such obligations shall be redeemed by the Secretary from appropriations authorized by this action. The Secretary of the Treasury shall purchase any such obligations, and for such purpose he may use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as now or hereafter in force. The purposes for which securities may be issued under such Act are extended to include any purchase of notes or other obligations issued under the subsection. The Secretary of the Treasury may sell any such obligations at such times and price and upon such terms and conditions as he shall determine in his discretion. All purchase, redemptions, and sales of such obligations by such Secretary shall be treated as public debt transactions of the United States.

FEDERAL HIGHWAY ADMINISTRATION

LIMITATION ON GENERAL OPERATING EXPENSES

Necessary expenses for administration, operation, and research of the Federal Highway Administration, not to exceed $204,891,000, shall be paid, in accordance with law, from appropriations made available by this Act to the Federal Highway Administration together with advances and reimbursements received by the Federal Highway Administration: Provided, That not to exceed $57,750,000 of the amount provided herein shall remain available until expended: Provided further, That, of the funds available under this limitation, $5,000,000 shall be made available only for the establishment and implementation of a Demonstration Bonding Program for economically and socially disadvantaged businesses: Provided further, That, notwithstanding any other provision of law, there may be credited to this appropriation funds received from States, counties, municipalities, other public authorities and private sources, for training expenses incurred for non-Federal employees.

HIGHWAY SAFETY RESEARCH AND DEVELOPMENT

For necessary expenses in carrying out provisions of sections 307(a) and 403 of title 23, United States Code, to be derived from the Highway Trust Fund and to remain available until expended, $8,500,000.

HIGHWAY-RELATED SAFETY GRANTS (LIQUIDATION OF CONTRACT AUTHORIZATION) (TRUST FUND)

For payment of obligations incurrred in carrying out the provisions of title 23, United States Code, section 402, administered by the Federal Highway Administration, to remain available until expended, $5,000,000 to be derived from the Highway Trust Fund: Provided, That not to exceed $100,000 of the amount appropriated herein shall be available for "Limitation on general operating expenses": Provided further, That none of the funds in this Act shall be available for the planning or execution of programs, the obligations for which are in excess of $10,000,000 in fiscal year 1985 for "Highway-related safety grants".

RAILROAD-HIGHWAY CROSSINGS DEMONSTRATION PROJECTS

For necessary expenses of certain railroad-highway crossings demonstration projects as authorized by section 163 of the Federal-Aid Highway Act of 1973, as amended, to remain available until expended, $15,000,000, of which $10,000,000 shall be derived from the Highway Trust Fund.

INTERMODAL URBAN DEMONSTRATION PROJECT

For necessary expenses to carry out the provisions of section 124 of the Federal-Aid Highway Amendments of 1974, $2,750,000, to be derived from the Highway Trust Fund and to remain available until September 30, 1987.

AUTO-PEDESTRIAN SEPARATION DEMONSTRATION PROJECT

For necessary expenses to carry out a demonstration project in Fargo, North Dakota, which demonstrates a cost-effective method for enhancing pedestrian safety, $1,750,000, to remain available until expended.

FEDERAL-AID HIGHWAYS (LIQUIDATION OF CONTRACT AUTHORIZATION) (TRUST FUND)

For carrying out the provisions of title 23, United States Code, which are attributable to Federal-aid highways, including the National Scenic and Recreational Highway as authorized by 23 U.S.C. 148, not otherwise provided, including reimbursements for sums expended pursuant to the provisions of 23 U.S.C. 308, $12,800,000,000 or so much thereof as may be available in and derived from the Highway Trust Fund, to remain available until expended: Provided, That none of the funds in this Act shall be available for the implementation or execution of programs the obligations for which are in excess of $13,250,000,000 for Federal-aid highways and highway safety construction programs for fiscal year 1985, except that this limitation shall not apply to obligations for emergency relief under section 125 of title 23, United States Code, obligations under section 157 of title 23, United States Code, projects covered under section 147 of the Surface Transportation Assistance Act of 1978, section 9 of the Federal-Aid Highway Act of 1981, subsections 131 (b) and (j) of Public Law 97-424, section 118 of the National Visitors Center Facilities Act of 1968, section 320 of title 23, United States Code, or completion of the Zilwaukee Bridge required because of construction failure.

RIGHT-OF-WAY REVOLVING FUND (LIMITATION ON DIRECT LOANS) (TRUST FUND)

During fiscal year 1985 and with the resources and authority available, gross obligations for the principal amount of direct loans shall not exceed $50,000,000.

MOTOR CARRIER SAFETY

For necessary expenses to carry out motor carrier safety functions of the Secretary, as authorized by the Department of Transportation Act (80 Stat. 939-940), $14,066,000, of which $1,162,000 shall remain available until expended, and not to exceed $1,601,000 shall be available for "Limitation on general operating expenses".

MOTOR CARRIER SAFETY GRANTS

For necessary expenses to carry out the provisions of section 402 of Public Law 97-424, $14,000,000, to be derived from the Highway Trust fund and to remain available until September 30, 1988.

ACCESS HIGHWAYS TO PUBLIC RECREATION AREAS ON CERTAIN LAKES

For necessary expenses of certain Access Highway Projects, as authorized by section 155, title 23, U.S.C., $5,000,000.

WASTE ISOLATION PILOT PROJECT ROADS

For necessary expenses in connection with the upgrading of certain highways for the transportation of nuclear waste generated during defense-related activities, not otherwise provided for, $16,400,000 to remain available until expended.

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

OPERATION AND RESEARCH

For expenses necessary to discharge the functions of the Secretary with respect to traffic and highway safety and functions under the Motor Vehicle Information and Cost Savings Act (Public Law 92-513, as amended), $82,350,000, of which $23,831,000 shall be derived from the Highway Trust Fund: Provided, That not to exceed $34,128,000 shall remain available until expended, of which $10,000,000 shall be derived from the Highway Trust Fund.

HIGHWAY TRAFFIC SAFETY GRANTS (LIQUIDATION OF CONTRACT AUTHORIZATION) (TRUST FUND)

(INCLUDING TRANSFERS OF UNEXPENDED BALANCES)

For payment of obligations incurred in carrying out the provisions of 23 U.S.C. 402, 406 and 408, and section 209 of Public Law 95-599, as amended, to remain available until expended, $125,000,000, to be derived from the Highway Trust Fund: Provided, That none of the funds in this Act shall be available for the planning or execution of programs, the total obligations for which are in excess of $100,000,000 in fiscal year 1985 for "State and community highway safety" authorized under 23 U.S.C. 402: Provided further, That none of these funds shall be used for construction, rehabilitation or remodeling costs or for office furnishings and fixtures for State, local, or private buildings or structures: Provided further, That none of the funds in this Act shall be available for the planning or execution of programs, the total obligations for which are in excess of $50,000,000 for "Alcohol safety incentive grants" authorized under 23

U.S.C. 408: Provided further, That none of the funds in this Act shall be available for planning or execution of programs authorized by section 209 of Public Law 95-599, as amended, the total obligations for which are in excess of $5,000,000 in fiscal years 1983, 1984 and 1985: Provided further, That not to exceed $4,900,000 shall be available for administering the provisions of 23 U.S.C. 402: Provided further, That, for fiscal year 1985, no State shall obligate less than 8 per centum of the amount distributed to such State for State and Community Highway Safety grants authorized under 23 U.S.C. 402 for the purposes of developing and implementing comprehensive programs approved by the Secretary of Transportation concerning the use of child restraint systems in motor vehicles: Provided further, That the unexpended balances of the appropriations "State and Community Highway Safety" and "Miscellaneous Safety Programs" exclusive of the General Fund amounts appropriated to cover unexpended Territorial obligations and unexpended Transportation Systems Management obligations shall be transferred to this appropriation and remain available until expended.

FEDERAL RAILROAD ADMINISTRATION

OFFICE OF THE ADMINISTRATOR

For necessary expenses of the Federal Railroad Administration, not otherwise provided for, $10,700,000.

RAILROAD SAFETY

For necessary expenses in connection with railroad safety, not otherwise provided for, $26,061,000.

RAILROAD RESEARCH AND DEVELOPMENT

For necessary expenses for railroad research and development, $15,525,000, to remain available until expended.

RAIL SERVICE ASSISTANCE

For necessary expenses for rail service assistance authorized by section 5 of the Department of Transportation Act, as amended, for Washington Union Station, as authorized by Public Law 97-125, and for necessary administrative expenses in connection with Federal rail assistance programs not otherwise provided for, to remain available until expended, $23,200,000: Provided, That none of the funds provided under this Act shall be available for the planning or execution of a program making commitments to guarantee new loans under the Emergency Rail Services Act of 1970, as amended, and that no new commitments to guarantee loans under section 211(a) or 211(h) of the Regional Rail Reorganization Act of 1973, as amended, shall be made: Provided further, That none of the funds in this Act shall be available for the acquisition, sale or transference of Washington Union Station without the prior approval of the House and Senate Committees on Appropriations: Provided further, That, of the funds available under this head, $15,000,000 shall be available for allocation to the States under section 5(h)(2) of the Department of Transportation Act, as amended: Provided further, That, notwithstanding any other provision of law, a State may not apply for fiscal year 1985 funds available under section 5(h)(2) until such State has expended all funds granted to it in the fiscal years prior to the beginning of fiscal year 1980, other than funds not expended due to pending litigation: Provided further, That a State denied funding by reason of the immediately preceding proviso may still apply for and receive funds for planning purposes: Provided further, That, notwithstanding any other provision of law, of the funds available under section 5(h)(2), $10,000,000 shall be made available for use under sections 5(h)(3)(B)(ii) and 5(h)(3)(C) of the Department of Transportation Act, as amended, nothwithstanding the limitations set forth in section 5(h)(3)(B)(ii).

CONRAIL LABOR PROTECTION

For labor protection as authorized by section 713 of the Regional Rail Reorganization Act of 1973 as added by section 1143 of the Northeast Rail Service Act of 1981, to remain available until expended, $15,000,000: Provided, That such sum shall be considered to have been appropriated to the Secretary under said section 713 for transfer to the Railroad Retirement Board for the payment of benefits under section 701 of the Regional Rail Reorganization Act of 1973, as amended: Provided further, That, for the purposes of section 710 of the Regional Rail Reorganization Act of 1973, as added by section 1143 of the Northeast Rail Service Act of 1981, such sum shall be considered to have been appropriated under section 713 of the Regional Rail Reorganization Act of 1973 and counted against the limitation on the total liability of the United States: Provided further, That such sums as may be necessary shall be made available for necessary expenses of administration of section 701 of the Regional Rail Reorganization Act of 1973 by the Railroad Retirement Board.

NORTHEAST CORRIDOR IMPROVEMENT PROGRAM

For necessary expenses related to Northeast Corridor improvements authorized by title VII of the Railroad Revitalization and Regulatory Reform Act of 1976, as amended (45 U.S.C. 851 et seq.), $27,800,000, to remain available until expended: Provided, That, nothwithstanding any other provision of law, the provisions of Public Law 85-804 shall apply to the Northeast Corridor Improvement Program: Provided further, That the Secretary may waive the provisions of 23 U.S.C. 322 (c) and (d) if such action would serve a public purpose: Provided further, That all public at grade-level crossings remaining along the Northeast Corridor upon completion of the project shall be equipped with protective devices including gates and lights.

GRANTS TO THE NATIONAL RAILROAD PASSENGER CORPORATION

To enable the Secretary of Transportation to make grants to the National Railroad Passenger Corporation for operating losses incurred by the Corporation, capital improvements, and labor protection costs authorized by 45 U.S.C. 565, to remain available until expended, $684,000,000: Provided, That none of the funds herein appropriated shall be used for lease or purchase of passenger motor vehicles or for the hire of vehicle operators for any officer or employee, other than the president of the Corporation, excluding the lease of passenger motor vehicles for those officers or employees while in official travel status: Provided further, That the Secretary shall make no commitments to guarantee new loans or loans for new purposes under 45 U.S.C. 602 in fiscal year 1985: Provided further, That the incurring of any obligation or commitment by the Corporation for the purchase of capital improvements not expressly provided for in an appropriation Act or prohibited by this Act shall be deemed a violation of 31 U.S.C. 1341: Provided further, That no funds are required to be expended or reserved for expenditure pursuant to 45 U.S.C. 601(e): Provided further, That none of the funds in this Act shall be made available to finance the rehabilitation and other improvements (including upgrading track and the signal system, ensuring safety at public and private highway and pedestrian crossings by improving signals or eliminating such crossings, and the improvement of operational portions of stations related to intercity rail passenger service) on the main line track between Atlantic City, New Jersey, and the main line of the Northeast Corridor, unless the Secretary of Transportation certifies that not less than 40 per centum of the costs of such improvements shall be derived from non-Federal sources: Provided further, That, notwithstanding any other provision of law, the National Railroad Passenger Corporation shall not operate rail passenger service between Atlantic City, New Jersey, and the Northeast Corridor main line unless the Corporation's Board of Directors determines that revenues from such service have covered or exceeded 80 per centum of the short term avoidable costs of operating such service in the first year of operation and 100 per centum of the short term avoidable operating costs for each year thereafter: Provided further, That none of the funds provided in this or any other Act shall be made available to finance the acquisition and rehabilitation of a line, and construction necessary to facilitate improved rail passenger service, between Spuyten Duyvil, New York, and the main line of the Northeast Corridor unless the Secretary of Transportation certifies that not less than 40 per centum of the costs of such improvement shall be derived from non-Amtrak sources.

ALASKA RAILROAD REVOLVING FUND

The Alaska Railroad Revolving Fund shall continue available until expended for the work authorized by law, including operation and maintenance of oceangoing or coastwise vessels by ownership, charter, or arrangement with other branches of the Government service, for the purpose of providing additional facilities for transportation of freight, passengers, or mail, when deemed necessary for the benefit and development of industries or travel in the area served and payment of compensation and expenses as authorized by 5 U.S.C. 8146, to be reimbursed as therein provided: Provided, That no employee shall be paid an annual salary out of said fund in excess of the salaries prescribed by the Classification Act of 1949, as amended, for grade GS-15, except the general manager of said railroad, one assistant general manager and five officers at not to exceed the salaries prescribed for members of the Senior Executive Service.

RAILROAD REHABILITATION AND IMPROVEMENT FINANCING FUNDS

The total commitments to guarantee new loans pursuant to sections 511 through 513 of the Railroad Revitalization and Regulatory Reform Act of 1976 (Public Law 94-210), as amended, shall not exceed $2,500,000 of contingent liabilities for loan principal during fiscal year 1985: Provided, That the Secretary of Transportation is authorized to issue to the Secretary of the Treasury notes or other obligations pursuant to section 512 of the Railroad Revitalization and Regulatory Reform Act of 1976 (Public Law 94-210), as amended, in such amounts and at such times as may be necessary to pay any amounts required pursuant to the guarantee of the principal amount of obligations under sections 511 through 513 of such Act, such authority to exist as long as any such guaranteed obligation is outstanding: Provided further, That the aggregate amount of

such notes or other obligations during fiscal year 1985 shall not exceed $100,000,000.

REDEEMABLE PREFERENCE SHARES

The Sectetary of Transportation is hereby authorized to expend proceeds from the sale of fund anticipation notes to the Secretary of the Treasury and any other moneys deposited in the Railroad Rehabilitation and Improvement Fund pursuant to sections 502, 505-507, and 509 of the Railroad Revitalization and Regulatory Reform Act of 1976 (Public Law 94-210), as amended, and section 803 of Public Law 95-620, for uses authorized for the Fund.

URBAN MASS TRANSPORTATION ADMINISTRATION

ADMINISTRATIVE EXPENSES

For necessary administrative expenses of the urban mass transportation program authorized by the Urban Mass Transportation Act of 1964, as amended (49 U.S.C. 1601 et seq.), 23 U.S.C. chapter 1, in connection with these activities, including hire of passenger motor vehicles and services as authorized by 5 U.S.C. 3109, $31,000,000.

RESEARCH, TRAINING, AND HUMAN RESOURCES

For necessary expenses for research, training, and human resources as authorized by the Urban Mass Transportation Act of 1964, as amended (49 U.S.C. 1601 et seq.), to remain available until expended, $51,000,000: Provided, That there may be credited to this appropriation funds received from States, counties, municipalities, other public authorities, and private sources, for expenses incurred for training.

FORMULA GRANTS

For necessary expenses to carry out the provisions of sections 9 and 18 of the Urban Mass Transportation Act of 1964, as amended (49 U.S.C. 1601 et seq.), $2,449,500,000 to remain available until expended: Provided, That funds shall not be made available for planning, preliminary engineering and design, or construction of the proposed light rail line or subway in the Detroit, Michigan area until a source of operating funds has been approved in accordance with Michigan law.

DISCRETIONARY GRANTS (LIMITATION ON OBLIGATIONS)

None of the funds in this Act shall be available for the implementation or execution of programs in excess of $1,120,000,000 in fiscal year 1985 for grants under the contract authority authorized in section 21(a)(2)(B) of the Urban Mass Transportation Act of 1964, as amended (49 U.S.C. 1601 et seq.): Provided, That this limitation shall not apply to any authority for section 21(a)(2)(B) previously made available for obligation: Provided further, That no funds shall be made availalbe for the proposed Woodward light rail line in the Detroit, Michigan area until a source of operating funds has been approved in accordance with Michigan law: Provided further, That the Woodward line restriction shall not apply to alternatives analysis studies.

LIQUIDATION OF CONTRACT AUTHORIZATION

For payment of obligations incurred in carrying out section 21(a)(2) of the Urban Mass Transportation Act of 1964, as amended (49 U.S.C. 1601 et seq.), administered by the Urban Mass Transportation Administration, $450,000,000, to be derived from the Highway Trust Fund and to remain available until expended.

INTERSTATE TRANSFER GRANTS—TRANSIT

For necessary expenses to carry out the provisions of 23 U.S.C. 103(e)(4) related to transit projects, $250,000,000, to remain available until expended.

WASHINGTON METRO

For necessary expenses to carry out the provisions of section 14 of Public Law 96-184, authorizing completion of the 101-mile Adopted Regional System of rapid rail transit, $250,000,000, to remain available until expended: Provided, That in obligating and expending funds appropriated under this section, the Secretary may not withhold approval of any construction grant request solely on the basis of any mileage limitation.

SAINT LAWRENCE SEAWAY DEVELOPMENT CORPORATION

The Saint Lawrence Seaway Development Corporation is hereby authorized to make such expenditures, within the limits of funds and borrowing authority available to such Corporation, and in accord with law, and to make such contracts and commitments without regard to fiscal year limitations as provided by section 104 of the Government Corporation Control Act, as amended, as may be necessary in carrying out the programs set forth in the budget for the current fiscal year for the Corporation except as hereinafter provided.

LIMITATION ON ADMINISTRATIVE EXPENSES

Not to exceed $1,822,000 shall be available for administrative expenses which shall be computed on an accrual basis, including not to exceed $3,000 for official entertainment expenses to be expended upon the approval or authority of the Secretary of Transportation: Provided, That Corporation funds shall be available for the hire of passenger motor vehicles and aircraft, operation and maintenance of aircraft, uniforms or allowances therefor for operation and maintenance personnel, as authorized by law (5 U.S.C. 5901-5902), and $15,000 for services as authorized by 5 U.S.C. 3109.

RESEARCH AND SPECIAL PROGRAMS ADMINISTRATION

RESEARCH AND SPECIAL PROGRAMS

For expenses necessary to discharge the functions of the Research and Special Programs Administration, for expenses for conducting research and development and for grants-in-aid to carry out a pipeline safety program, as authorized by section 5 of the Natural Gas Pipeline Safety Act of 1968 (49 U.S.C. 1674), $18,900,000, of which $6,975,000 shall remain available until expended: Provided, That there may be credited to this appropriation funds received from States, counties, municipalities, other public authorities, and private sources for expenses incurred for training.

OFFICE OF THE INSPECTOR GENERAL

SALARIES AND EXPENSES

For necessary expenses of the Office of the Inspector General in carrying out the provisions of the Inspector General Act of 1978, $27,900,000.

TITLE II—RELATED AGENCIES

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

SALARIES AND EXPENSES

For expenses necessary for the Architectural and Transportation Barriers Compliance Board, as authorized by section 502 of the Rehabilitation Act of 1973, as amended, $2,000,000.

NATIONAL TRANSPORTATION SAFETY BOARD

SALARIES AND EXPENSES

For necessary expenses of the National Transportation Safety Board, including hire of passenger motor vehicles and aircraft; services as authorized by 5 U.S.C. 3109, but at rates for individuals not to exceed the per diem rate equivalent to the rate for a GS-18; uniforms, or allowances therefor, as authorized by law (5 U.S.C. 5901-5902), $21,700,000, of which not to exceed $300 may be used for official reception and representation expenses.

CIVIL AERONAUTICS BOARD

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF UNEXPENDED BALANCES)

For necessary expenses of the Civil Aeronautics Board, including hire of aircraft; hire of passenger motor vehicles; services as authorized by 5 U.S.C. 3109; uniforms, or allowances therefor, as authorized by law (5 U.S.C. 5901-5902); and not to exceed $1,250 for official reception and representation expenses, $5,600,000: Provided, That of the foregoing amounts any unexpended balances available on January 1, 1985, shall be transferred to agencies receiving transferred functions.

PAYMENTS TO AIR CARRIERS

(INCLUDING TRANSFER OF UNEXPENDED BALANCES)

For payments to air carriers of so much of the compensation fixed and determined by the Civil Aeronautics Board under section 419 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1389), as is payable by the Board, $52,000,000, to remain available until expended and such amounts as may be necessary to liquidate obligations incurred prior to September 30, 1984, under 49 U.S.C. 1376 and 1389 and under Public Law 97-369, "Payments to air carriers": Provided, That of the foregoing amount, any unexpended balances available on January 1, 1985, shall be transferred to the Department of Transportation: Provided further, That the Board shall expend not to exceed $102,597 per year to restore guaranteed essential air transportation at Hazelton, Pennsylvania, to the minimum level of service of two round trip flights per day, five days per week, to either Philadelphia, Pennsylvania, or New York, New York, as determined by the community.

INTERSTATE COMMERCE COMMISSION

SALARIES AND EXPENSES

For necessary expenses of the Interstate Commerce Commission, including services as authorized by 5 U.S.C. 3109, and not to exceed $1,500 for official reception and representation expenses, $48,000,000: Provided, That joint board members and cooperating State commissioners may use Government transportation requests when traveling in connection with their official duties as such.

PAYMENTS FOR DIRECTED RAIL SERVICE

None of the funds provided in this Act shall be available for the execution of programs the obligations for which can reasonably be expected to exceed $1,000,000 for directed rail service authorized under 49 U.S.C. 11125 or any other legislation.

PANAMA CANAL COMMISSION

OPERATING EXPENSES

For operating expenses necessary for the Panama Canal Commission, including hire of passenger motor vehicles and aircraft; uniforms or allowances therefor, as author-

ized by law (5 U.S.C. 5901-5902); not to exceed $8,000 for official reception and representation expenses of the Board; operation of guide services; residence for the Administrator; disbursements by the Administrator for employee and community projects; not to exceed $25,000 for official reception and representation expenses of the Administrator; and to employ services as authorized by law (5 U.S.C. 3109); $406,346,000, to be derived from the Panama Canal Commission Fund: Provided, That there may be credited to this appropriation funds received from the Panama Canal Commission's capital outlay account for expenses incurred for supplies and services provided for capital projects and funds received from officers and employees of the Commission and/or commercial insurors of Commission employees for payment to other United States Government agencies for expenditures made for services provided to Commission employees and their dependents by such other agencies.

CAPITAL OUTLAY

For acquisition, construction, replacement, and improvements of facilities, structures, and equipment required by the Panama Canal Commission, including the purchase of not to exceed forty-four passenger motor vehicles for replacement only; to employ services authorized by law (5 U.S.C. 3109); $23,500,000, to be derived from the Panama Canal Commission Fund and to remain available until expended.

UNITED STATES RAILWAY ASSOCIATION

ADMINISTRATIVE EXPENSES

For necessary administrative expenses to enable the United States Railway Association to carry out its functions under the Regional Rail Reorganization Act of 1973, as amended, to remain available until expended, $2,100,000, of which not to exceed $500 may be available for official reception and representation expenses.

WASHINGTON METROPOLITAN AREA TRANSIT AUTHORITY

INTEREST PAYMENTS

For necessary expenses for interest payments, to remain available until expended, $46,175,945: Provided, That these funds shall be disbursed pursuant to terms and conditions established by Public Law 96-184 and the Initial Bond Repayment Participation Agreement.

TITLE III—GENERAL PROVISIONS

SEC. 301. During the current fiscal year applicable appropriations to the Department of Transportation shall be available for maintenance and operation of aircraft; hire of passenger motor vehicles and aircraft; purchase of liability insurance for motor vehicles operating in foreign countries on official departmental business; and uniforms, or allowances therefor, as authorized by law (5 U.S.C. 5901-5902).

SEC. 302. Funds appropriated for the Panama Canal Commission may be apportioned notwithstanding section 3679 of the Revised Statutes, as amended (31 U.S.C. 1341), to the extent necessary to permit payment of such pay increases for officers or employees as may be authorized by administrative action pursuant to law which are not in excess of statutory increases granted for the same period in corresponding rates of compensation for other employees of the Government in comparable positions.

SEC. 303. Funds appropriated under this Act for expenditures by the Federal Aviation Administration shall be available (1) except as otherwise authorized by the Act of September 30, 1950 (20 U.S.C. 236-244), for expenses of primary and secondary schooling for dependents of Federal Aviation Administration personnel stationed outside the continental United States at costs for any given area not in excess of those of the Department of Defense for the same area, when it is determined by the Secretary that the schools, if any, available in the locality are unable to provide adequately for the education of such dependents and (2) for transportation of said dependents between schools serving the area which they attend and their places of residence when the Secretary, under such regulations as may be prescribed, determines that such schools are not accessible by public means of transportation on a regular basis.

SEC. 304. Appropriations contained in this Act for the Department of Transportation shall be available for services as authorized by 5 U.S.C. 3109, but at rates for individuals not to exceed the per diem rate equivalent to the rate for a GS-18.

SEC. 305. None of the funds provided under this Act for urban formula grants shall be made available to support mass transit facilities, equipment, or operating expenses unless the applicant for such assistance has given satisfactory assurances in such manner and forms as the Secretary may require, and in accordance with such terms and conditions as the Secretary may prescribe, that the rates charged elderly and handicapped persons during nonpeak hours shall not exceed one-half of the rates generally applicable to other persons at peak hours: Provided, That the Secretary, in prescribing the terms and conditions for the provision of such assistance shall permit an applicant whose existing fare collection system does not reasonably permit the collection of half fares to continue to use a preferential fare system for elderly and handicapped persons which was in effect on or before November 26, 1974, and which incorporates the offering of a free return ride upon payment of the generally applicable full fare, except that such a system may be used after October 1, 1984, only if such system is available for use by all elderly and handicapped persons.

SEC. 306. None of the funds appropriated in this Act for the Panama Canal Commission may be expended unless in conformance with the Panama Canal Treaties of 1977 and any law implementing those treaties.

SEC. 307. None of the funds provided in this Act may be used for planning or construction of rail-highway crossings under section 322(a) of title 23, United States Code, or under section 701(a)(5) or section 703(1)(A) of the Railroad Revitalization and Regulatory Reform Act of 1976 at the—

(1) School street crossing in Groton, Connecticut; and

(2) Broadway Extension crossing in Stonington, Connecticut.

SEC. 308. None of the funds in this Act shall be used for the planning or execution of any program to pay the expenses of, or otherwise compensate, non-Federal parties intervening in regulatory or adjudicatory proceedings funded in this Act.

SEC. 309. None of the funds in this Act shall be used to assist, directly or indirectly, any State in imposing mandatory State inspection fees or sticker requirements on vehicles which are lawfully registered in another State, including vehicles engaged in interstate commercial transportation which are in compliance with Part 396—Inspection and Maintenance of the Federal Motor Carrier Safety Regulations of the U.S. Department of Transportation.

SEC. 310. None of the funds contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 311. Notwithstanding any other provision of law, total amounts of contract authority authorized for fiscal year 1985 in section 21(a)(2)(B) of the Urban Mass Transportation Act of 1964, as amended, shall be available for obligation through fiscal year 1988.

SEC. 312. None of the funds in this or any other Act shall be available for the planning or implementation of any change in the current Federal status of the Transportation Systems Center.

SEC. 313. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to section 3109 of title 5, United States Code, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive Order issued pursuant to existing law.

SEC. 314. None of the funds in this Act may be used to implement a rulemaking which would lower the annual passenger ceiling at Washington National Airport.

SEC. 315. (a) For fiscal year 1985 the Secretary of Transportation shall distribute the obligation limitation for Federal-aid highways by allocation in the ratio which sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to each State for such fiscal year bear to the total of the sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to all the States for such fiscal year.

(b) During the period October 1 through December 31, 1984, no State shall obligate more than 40 per centum of the amount distributed to such State under subsection (a), and the total of all State obligations during such period shall not exceed 25 per centum of the total amount distributed to all States under such subsection.

(c) Notwithstanding subsections (a) and (b), the Secretary shall—

(1) provide all States with authority sufficient to prevent lapses of sums authorized to be appropriated for Federal-aid highways and highway safety construction which have been apportioned to a State, except in those instances in which a State indicates its intention to lapse sums apportioned under section 104(b)(5)(A) of title 23, United States Code.

(2) after August 1, 1985, revise a distribution of the funds made available under subsection (a) if a State will not obligate the amount distributed during that fiscal year and redistribute sufficient amounts to those States able to obligate amounts in addition to those previously distributed during that fiscal year giving priority to those States having large unobligated balances of funds apportioned under section 104 of title 23, United States Code, and giving priority to those States which, because of statutory changes made by the Surface Transportation Assistance Act of 1982 and the Federal-Aid Highway Act of 1981, have experienced substantial proportional reductions in their apportionments and allocations.

(3) not distribute amounts authorized for administrative expenses and the Federal Lands Highway Programs.

This Act may be cited as the "Department of Transportation and Related Agencies Appropriation Act, 1985".

And the Senate agree to the same.

Amendment numbered 38:

That the House recede from its disagreement to the amendment of the Senate numbered 38, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

(j) Such sums as may be necessary for programs, projects, or activities provided for in the Treasury, Postal Service and General Government Appropriations Act, 1985 (H.R. 5798) to the extent and in the manner provided for in the conference report and joint explanatory statement of the committee of conference as passed by the House of Representatives on September 12, 1984, as if enacted into law (with the exception of the provisions involved in amendments numbered 24 and 26 which shall be effective as if enacted into law): Provided, That, notwithstanding section 102 of this joint resolution, the Department of the Treasury shall consolidate the operations of the Bureau of Government Financial Operations in accordance with the language concerning amendment numbered 9 in the joint explanatory statement of the committee of conference (H. Rept. 98-993).

And the Senate agree to the same.

Amendment numbered 45:

That the House recede from its disagreement to the amendment of the Senate numbered 45, and agree to the same with an amendment, as follows:

Restore the matter stricken by said amendment, amended to read as follows:

Foster care and adoption assistance activities under title IV-E of the Social Security Act under the terms and conditions established by sections 474(b) and 474(c) of that Act, and sections 102(a)(1) and 102(c) of Public Law 96-272, as those sections were in effect for fiscal year 1984;

Emergency immigrant education activities authorized by section 101(g) of Public Law 98-151; and

Activities under the Follow Through Act, except that the annual rate for such activities shall not exceed $10,000,000.

And the Senate agree to the same.

Amendment numbered 49:

That the House recede from its disagreement to the amendment of the Senate numbered 49, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert the following:

In the House engrossed Continuing Resolution strike out all beginning on page 11, line 19 through page 13, line 14, all inclusive.

And the Senate agree to the same.

Amendment numbered 51:

That the House recede from its disagreement to the amendment of the Senate numbered 51, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert the following:

In the House engrossed Continuing Resolution strike out all beginning on page 13, line 15 through 22, all inclusive.

And the Senate agree to the same.

Amendment numbered 53:

That the House recede from its disagreement to the amendment of the Senate numbered 53, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert the following:

In the House engrossed Continuing Resolution strike out all beginning on page 16, lines 3 through 7, all inclusive.

And the Senate agree to the same.

Amendment numbered 54:

That the House recede from its disagreement to the amendment of the Senate numbered 54, and agree to the same with an amendment, as follows:

Delete the matter stricken by said amendment and delete the matter inserted by said amendment.

And the Senate agree to the same.

Amendment numbered 73:

That the House recede from its disagreement to the amendment of the Senate numbered 73, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert the following:

In the House engrossed Continuing Resolution strike out all beginning on page 20, line 10 through 17 all inclusive.

And the Senate agree to the same.

Amendment numbered 82:

That the House recede from its disagreement to the amendment of the Senate numbered 82, and agree to the same with an amendment, as follows:

Restore the matter stricken by said amendment amended to read as follows:

SEC. 111A. (a) The Small Business Act is amended by adding the following new section:

"SEC. 23. Notwithstanding any other provision of law, rule, or regulations, for purposes of section 7(b) of this Act (15 U.S.C. 636(b)), the Administrator shall, with respect to small business concerns involved in the fishing industry, treat the recent El Nino-related ocean conditions as a disaster under such subsection:

"(1) disaster loan assistance shall be provided to the fishing industry pursuant to paragraph (2) of such section—

"(A) the term "recent El Nino-related ocean conditions" means the ocean conditions (including high water temperatures, scarcity of prey, and absence of normal upwellings) which occurred in the eastern Pacific Ocean off the west coast of the North American Continent during the period beginning with June 1982 and ending at the close of December 1983, and which resulted from the climatic conditions occurring in the Equatorial Pacific during 1982 and 1983;

"(B) the term "fishing industry" means any trade or business involved in (i) the catching, taking, or harvesting of fish (whether or not sold on a commercial basis), (ii) any operation at sea or on land, in preparation for, or substantially dependent upon, the catching, taking, or harvesting of fish, and (iii) the processing or canning of fish (including storage, refrigeration and transportation of fish before processing or canning); and

"(C) the term "fish" means finfish, mollusks, crustaceans, and all other forms of marine animal and plant life other than marine mammals and birds; and

"(2) for purposes of paragraphs (2) through (4) of subsection 7(b) of this Act, eligibility of individual applicants shall not in any way be dependent upon the number of disaster victims in any county or other political subdivision."; and

(b) Section 3(j) of such Act is amended by striking all of such subsection after the word "association" in the second sentence thereof and by inserting in lieu thereof "as a business concern and shall not include the income or employees of any member shareholder of such cooperative.".

And the Senate agree to the same.

Amendment numbered 83:

That the House recede from its disagreement to the amendment of the Senate numbered 83, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment insert:

SEC. 112. The limitation otherwise applicable to the maximum payments that may be required in any fiscal year by all contracts entered into under section 236 of the National Housing Act, as amended (12 U.S.C. 1715z-1), reduced in fiscal year 1985 by not more than $7,631,000 in uncommitted balances of authorizations provided for this purpose in appropriation acts pursuant to the paragraph under the heading "Rental housing assistance" in the Department of Housing and Urban Development-Independent Agencies Appropriation Act, 1985 (Public Law 98-371, 98 Stat. 1213, 1215), shall not be reduced by more than $4,331,000 in fiscal year 1985: Provided, That $3,300,000 in such uncommitted balances shall be made available in fiscal year 1985 and remain available thereafter until used as needed to replace amounts pooled for interest reduction payments for State-aided, noninsured rental housing projects under such section 236, but used during fiscal year 1982 for amendments to contracts for rental assistance payments.

And the Senate agree to the same.

Amendment numbered 85:

That the House recede from its disagreement to the amendment of the Senate numbered 85, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment insert:

SEC. 113A. Notwithstanding any other provision of this joint resolution, there is appropriated to the Treasury $300,000,000, to be made available to cover the additional interest expenses incurred on borrowings by the Secretary of Housing and Urban Development from the Treasury that are necessary to extend direct loans to local public housing agencies as authorized under section 4(a) of the United States Housing Act of 1937, for the purposes of financing public housing projects as authorized under section 5(c) of the United States Housing Act of 1937: Provided, That the foregoing appropriation shall be available only in connection with additional interest expenses incurred on Treasury borrowings having maturities not in excess of seven months from the date that such borrowings occur: Provided further, That no such Treasury borrowings in connection with the foregoing appropriation shall take place after April 3, 1985: Provided further, That the foregoing $300,000,000 shall be available until expended on interest incurred pursuant to the Treasury borrowings: Provided further, That direct loan proceeds shall be made available for new loan commitments and contract executions for public housing development, modernization and Indian housing, and for financing of existing contracts: Provided further, That notwithstanding section 4 of the United States Housing Act of 1937, or any other provision of law, loans made pursuant to section 4(a) of the United States Housing Act of 1937 by the Secretary of Housing and Urban Development (and Treasury borrowing under section 4(b) of such Act), which are necessary due to the failure to publicly sell tax-exempt public housing agency obligations, shall be at interest rates comparable to the interest rates

on such obligations issued by public housing agencies.

And the Senate agree to the same.

Amendment numbered 99:

That the House recede from its disagreement to the amendment of the Senate numbered 99, and agree to the same with an amendment, as follows:

In lieu of the matter proposed by said amendment insert:

SEC. 124. Notwithstanding any other provision of this joint resolution, the Secretary of the Department of Transportation shall grant an exemption from the January 1, 1985, deadline for compliance with the provisions of Public Law 96-193, if an applicant for such exemption submits to the Secretary prior to January 1, 1985, an application for exemption which complies with the provisions of subsection (b) or (c) of this section.

(b) The Secretary shall specify the form and manner in which any application shall be made. Any such application from a person operating aircraft for which equipment to assure compliance with the provisions of Public Law 96-193 ("hush kits") is currently under development shall include a copy of a contract entered into by the applicant and a known supplier of equipment which would bring the applicant into compliance with the provisions of Public Law 96-193.

(c) Applicants currently operating aircraft obtained prior to January 1, 1980, for which no such compliance equipment is currently under development shall accompany their application with a sworn commitment to enter into a contract not later than June 1, 1985, for aircraft which will comply with the provisions of Public Law 96-193.

(d) Nothing in this section shall be construed to limit the power of the Secretary to deny any application or revoke any exemption granted under this section if, after examining any contract submitted under Subsection (b) or (c) of this section, the Secretary determines that the applicant or holder of such exemption will not be able to comply with the requirements of Public Law 96-193 within the timeframe set forth in such exemption. No exemptions shall be issued to any applicant pursuant to this section unless the Secretary determines that the contract required under subsection (b) or (c) of this section is with a bona fide supplier of equipment to assure compliance in the case of subsection (b) of this section, or complying aircraft in the case of subsection (c) of this section; that such equipment or aircraft can reasonably be expected to achieve compliance; that such contract provides for nonrefundable deposits sufficient to assure good faith compliance by such applicant; and that the contract provides for compliance at the earliest possible date.

(e) Any exemption granted under this section shall expire not later than December 31, 1985, except that, if the Secretary determines that equipment to insure compliance with the provisions of Public Law 96-193 which has been certified by the Department for that purpose will not be available to the holder of the exemption by that date, the Secretary may extend such exemption for such period as the Secretary determines is necessary to insure compliance with such provisions.

(f) No person receiving an exemption under the provisions of this section may increase either the frequency of operations into the place for which the exemption was granted, or increase the number of non-compliant aircraft operated at the place for which the exemption was granted beyond that existing in the 12 months prior to the date of enactment of this section.

(g) No exemption granted pursuant to this section shall (i) permit flights at any airport in the United States, as the term United States is defined in 49 U.S.C. 1301, other than Miami International Airport, in Miami, Florida, and Bangor International Airport, in Bangor, Maine, or (ii) permit the operation of flights which serve both Miami International Airport and Bangor International Airport.

And the Senate agree to the same.

Amendment numbered 108:

That the House recede from its disagreement to the amendment of the Senate numbered 108, and agree to the same with an amendment, as follows:

In lieu of the matter inserted by said amendment insert the following:

SEC. 127. Notwithstanding any other provision of this joint resolution, and in addition to amounts appropriated elsewhere, there are appropriated $3,200,000 for fiscal year 1985 for Salaries and Expenses of the Food and Drug Administration to carry out the Drug Price Competition and Patent Term Restoration Act of 1984; and $8,350,000 for fiscal year 1985 for the Food and Drug Administration for activities (including construction) related to acquired immune deficiency syndrome, which shall be available only to the extent an official budget request is transmitted to the Congress.

And the Senate agree to the same.

Amendment numbered 121:

That the House recede from its disagreement to the amendment of the Senate numbered 121, and agree to the same with an amendment, as follows:

In lieu of the matter inserted by said amendment insert:

SEC. 139. Notwithstanding any other provision of this joint resolution, the following additional amounts are hereby appropriated for the Department of State, Administration of Foreign Affairs, and all to remain available until September 30, 1986; $81,200,000 for "Salaries and expenses"; $28,000,000 for "Acquisition, operation, and maintenance of buildings abroad"; and $1,000,000 for "Emergencies in the diplomatic and consular service" to pay rewards for information concerning terrorist acts: Provided, That these funds shall be available notwithstanding section 15(a) of the State Department Basic Authorities Act of 1956: Provided further, That the Department shall report to the appropriate committees in Congress on the obligation of funds every thirty days from the date of enactment.

And the Senate agree to the same.

Amendment numbered 122:

That the House recede from its disagreement to the amendment of the Senate numbered 122, and agree to the same with an amendment, as follows:

In lieu of the matter inserted by said amendment insert the following:

SEC. 140. The Central Intelligence Agency Act of 1949 (50 U.S.C. 403a et seq.) is amended by adding at the end thereof the following new section:

SECURITY PERSONNEL AT AGENCY INSTALLATIONS

SEC. 15. (a) The Director may authorize Agency personnel within the United States to perform the same functions as special policemen of the General Services Administration perform under the first section of the Act entitled "An Act to authorize the Federal Works Administrator or officials of the Federal Works Agency duly authorized by him to appoint special policemen for duty upon Federal properly under the jurisdiction of the Federal Works Agency, and for other purposes" (40 U.S.C. 318), with the powers set forth in that section, except that such personnel shall perform such functions and exercise such powers only within Agency installations and the rules and regulations enforced by such personnel shall be rules and regulations promulgated by the Director.

(b) The Director is authorized to establish penalties for violations of the rules or regulations promulgated by the Director under subsection (a) of this section. Such penalties shall not exceed those specified in the fourth section of the Act referred to in subsection (a) of this section (40 U.S.C. 318c).

(c) Agency personnel designated by the Director under subsection (a) of this section shall be clearly identifiable as United States Government security personnel while engaged in the performance of the functions to which subsection (a) of this section refers.

And the Senate agree to the same.

Amendment numbered 126:

That the House recede from its disagreement to the amendment of the Senate numbered 126, and agree to the same with an amendment, as follows:

In lieu of the matter stricken by said amendment, insert the following:

SEC. 122. (a) Federal employees furloughed as a result of the lapse of appropriations from midnight October 3, 1984, until the enactment of this Act, will be compensated at their standard rate of compensation for the period during which there was a lapse of appropriations.

(b) All obligations incurred in anticipation of the appropriations and authority provided in this joint resolution for the purposes of maintaining the minimum level of essential activities necessary to protect life and property and bringing about orderly termination of other functions are hereby ratified and confirmed if otherwise in accordance with the provisions of this joint resolution.

And the Senate agree to the same.

Amendment numbered 127:

That the House recede from its disagreement to the amendment of the Senate numbered 127, and agree to the same with an amendment, as follows:

Restore the matter stricken by said amendment amended to read as follows:

SEC. 131. (a) Section 466(b) of the District of Columbia Self-Government and Governmental Reorganization Act (D.C. Code, Sec. 47-246) is amended by striking out "sold before October 1, 1984," and inserting in lieu thereof "sold before October 1, 1985,".

(b) Section 303(b) of the District of Columbia Self-Government and Governmental Reorganization Act is amended to read as follows:

"(b) An amendment to the charter ratified by the registered electors shall take effect upon the expiration of the 35-calendar day period (excluding Saturdays, Sundays, holidays, and days on which either House of Congress is not in session) following the date such amendment was submitted to the Congress, or upon the date prescribed by such amendment, whichever is later, unless during such 35-day period, there has been enacted into law a joint resolution, in accordance with the procedures specified in section 604 of this Act, disapproving such amendment. In any case in which any such joint resolution disapproving such an amendment has, within such 35-day period, passed both Houses of Congress and has been transmitted to the President, such reso-

lution, upon becoming law subsequent to the expiration of such 35-day period, shall be deemed to have repealed such amendment, as of the date such resolution becomes law.".

(c)(1) The second sentence of section 412(a) of such Act is amended to read as follows: "Except as provided in the last sentence of this subsection, the Council shall use acts for all legislative purposes.".

(2) The last sentence of section 412(a) of such Act is amended to read as follows: "Resolutions shall be used (1) to express simple determinations, decisions, or directions of the Council of a special or temporary character; and (2) to approve or disapprove proposed actions of a kind historically or traditionally transmitted by the Mayor, the Board of Elections, Public Service Commission, Armory Board, Board of Education, the Board of Trustees of the University of the District of Columbia, or the Convention Center Board of Directors to the Council pursuant to an act. Such resolutions must be specifically authorized by that act and must be designed to implement that act.".

(d) The second sentence of section 602(c)(1) of such Act is amended to read as follows: "Except as provided in paragraph (2), such act shall take effect upon the expiration of the 30-calendar day period (excluding Saturdays, Sundays, and holidays, and any day on which neither House is in session because of an adjournment sine die, a recess of more than three days, or an adjournment of more than three days) beginning on the day such act is transmitted by the Chairman to the Speaker of the House of Representatives and the President of the Senate, or upon the date prescribed by such act, whichever is later, unless during such 30-day period, there has been enacted into law a joint resolution disapproving such act. In any case in which any such joint resolution disapproving such an act has, within such 30-day period, passed both Houses of Congress and has been transmitted to the President, such resolution, upon becoming law, subsequent to the expiration of such 30-day period, shall be deemed to have repealed such act, as of the date such resolution becomes law.".

(e) The third sentence of section 602(c)(1) of such Act is amended by deleting "concurrent" and inserting in lieu thereof "joint".

(f) The first sentence of section 602(c)(2) of such Act is amended to read as follows: "In the case of any such Act transmitted by the Chairman with respect to any Act codified in title 22, 23, or 24 of the District of Columbia Code, such act shall take effect at the end of the 60-day period beginning on the day such act is transmitted by the Chairman to the Speaker of the House of Representatives and the President of the Senate unless, during such 60-day period, there has been enacted into law a joint resolution disapproving such act. In any case in which any such joint resolution disapproving such an act has, within such 60-day period, passed both Houses of Congress and has been transmitted to the President, such resolution, upon becoming law subsequent to the expiration of such 60-day period shall be deemed to have repealed such act, as of the date such resolution becomes law.".

(g) The second sentence of section 602(c)(2) is amended to read as follows: "The provisions of section 604, relating to an expedited procedure for consideration of joint resolutions, shall apply to a joint resolution disapproving such act as specified in this paragraph.".

(h) Section 604(b) of such Act is amended by deleting "concurrent" and inserting in lieu thereof "joint".

(i) Subsections (b) and (c) of section 740 of such Act are amended by deleting in each such subsection the words "adoption of a resolution by either the Senate or the House of Representatives" and inserting in lieu thereof "enactment into law of a joint resolution by the Congress".

(j) Section 740(d) of such Act is amended by deleting "approve a concurrent" and inserting in lieu thereof "enact into law a joint".

(k) The amendments made by the preceding subsections of this section shall not be applicable with respect to any law, which was passed by the Council of the District of Columbia prior to the date of the enactment of this Act, and such laws are hereby deemed valid, in accordance with the provisions thereof notwithstanding such amendments. Any previous act of the Council of the District of Columbia which has been disapproved by the Congress pursuant to section 602(c)(1) or section 602(c)(2) is hereby deemed null and void.

(l) Part F of title VII of such Act is amended by adding at the end thereof the following new section:

"SEVERABILITY

"SEC. 762. If any particular provision of this Act, or the application thereof to any person or circumstance, is held invalid, the remainder of this Act and the application of such provision to other persons or circumstances shall not be affected thereby.".

(m) Section 164(a)(3) of the District of Columbia Retirement Reform Act is amended to read as follows:

"(3)(A) The Congress may reject any filing under this section within thirty days of such filing by enacting into law a joint resolution stating that the Congress has determined—

"(i) that such filing is incomplete for purposes of this part, or

"(ii) that there is any material qualification by an accountant or actuary contained in an opinion submitted pursuant to section 162(a)(3)(A) or section 162(a)(4)(B).

"(B) If the Congress rejects a filing under subparagraph (A) and if either a revised filing is not submitted within forty-five days after the enactment under subparagraph (A) rejecting the initial filing or such revised filing is rejected by the Congress by enactment into law of a joint resolution within thirty days after submission of the revised filing, then the Congress may, if it deems it is in the best interests of the participants, take any one or more of the following actions:

"(i) Retain an independent qualified public accountant on behalf of the participants to perform an audit.

"(ii) Retain an enrolled actuary on behalf of the participants to prepare an actuarial statement.

The Board and the Mayor shal permit any accountant or actuary so retained to inspect whatever books and records of the Fund and the retirement program are necessary for performing such audit or preparing such statement.

"(C) If a revised filing is rejected under subparagraph (B) or if a filing required under this title is not made by the date specified, no funds appropriated for the Fund with respect to which such filing was required as part of the Federal payment may be paid to to the Fund until such time as an acceptable filing is made. For purposes of this subparagraph, a filing is unacceptable if, within thirty days of its submission, the Congress enacts into law a joint resolution disapproving such filing.".

(n) The provisions of this section shall be effective hereafter without limitation as to fiscal year, notwithstanding any other provision of this joint resolution.

And the Senate agree to the same.

Amendment numbered 133: That the House recede from its disagreement to the amendment of the Senate numbered 133, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted, insert the following:

SEC. 506. (a) This part may be cited as the "Dangerous Drug Diversion Control Act of 1984".

(b) Whenever in sections 507 through 519 an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the controlled Substances Act, and whenever in sections 520 through 525 an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Controlled Substances Import and Export Act.

SEC. 507. (a) Section 102 (21 U.S.C. 802) is amended by redesignating paragraphs (14) through (29) as paragraphs (15) through (30), respectively, and by adding after paragraph (13) the following:

"(14) The term 'isomer' means the optical isomer, except as used in schedule I(c) and schedule II(a)(4). As used in schedule I(c), the term 'isomer' means the optical, positional, or geometric isomer. As used in schedule II(a)(4), the term 'isomer' means the optical or geometric isomer.".

(b) Paragraph (17) (as so redesignated) of section 102 is amended to read as follows:

"(17) The term 'narcotic drug' means any of the following whether produced directly or indirectly by extraction from substances of vegetable origin, or independently by means of chemical synthesis, or by a combination of extraction and chemical synthesis:

"(A) Opium, opiates, derivatives of opium and opiates, including their isomers, esters, ethers, salts, and salts of isomers, esters, and ethers, whenever the existence of such isomers, esters, ethers, and salts is possible within the specific chemical designation. Such term does not include the isoquinoline alkaloids of opium.

"(B) Poppy straw and concentrate of poppy straw.

"(C) Coca leaves, except coca leaves and extracts of coca leaves from which cocaine, ecgonine, and derivatives of ecgonine or their salts have been removed.

"(D) Cocaine, its salts, optical and geometric isomers, and salts of isomers.

"(E) Ecgonine, its derivatives, their salts, isomers, and salts of isomers.

"(F) Any compound, mixture, or preparation which contains any quantity of any of the substances referred to in subparagraphs (A) through (E).".

(c) Paragraph (a)(4) of schedule II is amended by inserting after "coca leaves" the first time it appears the following: "(including cocaine and ecgonine and their salts, isomers, derivatives, and salts of isomers and derivatives)".

SEC. 508. Section 201 (21 U.S.C. 811) is amended by adding a new subsection (h) as follows:

"(h)(1) If the Attorney General finds that the scheduling of a substance in schedule I

on a temporary basis is necessary to avoid an imminent hazard to the public safety, he may, by order and without regard to the requirements of subsection (b) relating to the Secretary of Health and Human Services, schedule such substance in schedule I if the substance is not listed in any other schedule in section 202 or if no exemption or approval is in effect for the substance under section 505 of the Federal Food, Drug, and Cosmetic Act. Such an order may not be issued before the expiration of 30 days from—

"(A) the date of the publication by the Attorney General of a notice in the Federal Register of the intention to issue such order and the grounds upon which such order is to be issued, and

"(B) the date the Attorney General has transmitted the notice required by paragraph (4).

"(2) The scheduling of a substance under this subsection shall expire at the end of one year from the date of the issuance of the order scheduling such substance, except that the Attorney General may, during the pendency of proceedings under subsection (a)(1) with respect to the substance, extend the temporary scheduling for up to six months.

"(3) When issuing an order under paragraph (1), the Attorney General shall be required to consider, with respect to the finding of an imminent hazard to the public safety, only those factors set forth in paragraphs (4), (5), and (6) of subsection (c), including actual abuse, diversion from legitimate channels, and clandestine importation, manufacture, or distribution.

"(4) The Attorney General shall transmit notice of an order proposed to be issued under paragraph (1) to the Secretary of Health and Human Services. In issuing an order under paragraph (1), the Attorney General shall take into consideration any comments submitted by the Secretary in response to a notice transmitted pursuant to this paragraph.

"(5) An order issued under paragraph (1) with respect to a substance shall be vacated upon the conclusion of a subsequent rulemaking proceeding initiated under subsection (a) with respect to such substance.

"(6) An order issued under paragraph (1) is not subject to judicial review.".

SEC. 509. (a) Section 201(g) (21 U.S.C. 811(g)) is amended by adding at the end the following:

"(3) The Attorney General may, by regulation, exempt any compound, mixture, or preparation containing a controlled substance from the application of all or any part of this title if he finds such compound, mixture, or preparation meets the requirements of one of the following categories:
